SUBJECT: FAU's Enrollment Plan 2010-2015

Proposed Committee Action

Approval of FAU's Enrollment Plan 2010-2015

Background Information

In June 2009 the Board of Governors' staff requested that each university compile an enrollment plan for the period 2010-2015 in accordance with a specific format and instructions provided. In accordance with BOG requirements a draft plan was submitted to the BOG on July 1, 2009. The plan requires Board of Trustees' approval prior to final submission of the plan to the BOG.

The current and projected budget situation, along with an analysis of demographic data, dictates that the university should expect to focus energies on maintaining near current funded enrollment levels for in-state students through 2011-12. During that period out-of-state students may grow toward a level of 10% of total enrollment. If budgets are sufficiently restored by 2012-13, demographic data analysis supports modest growth of upper level and graduate students for the last two years of this planning period.

Projected High School Graduates

Total Projected Public High School Graduates From 2008-09 to 2017-18

Strategic Factors Likely to Affect Undergraduate Recruiting and Enrollments

- ◆ Population changes (demographic projections, high school graduates)
- ◆ Economic forces (housing market, state revenue collections)
- ◆ Development of state college system and community college baccalaureates

FAU Current and Projected Enrollment Plan 2010-15

- ◆ Draft sent to BOG per requirement in July.
- ◆ Considers continuing budget reductions, the decline in high school graduates, and a reduction/plateau in faculty and staff.
- ◆ Does not reflect an as yet unquantifiable factor relative to upper level enrollments and the effect of the growth in community college baccalaureate programs.
