AUDIT AND FINANCE COMMITTEE

Wednesday, February 21, 2007

SUBJECT: REVIEW OF THE GOVERNOR'S 2007-2008 BUDGET RECOMMENDATIONS AND FAU'S BUDGET CONSTRUCTION.

PROPOSED BOARD ACTION

Information only.

BACKGROUND INFORMATION

The Florida Atlantic University Board of Trustees approved the 2007-2008 Legislative Budget Request in June 2006 in accordance with the guidelines established by the Florida Board of Governors (BOG). In August 2006, the BOG approved the system-wide Legislative Budget Request. On February 2, 2007, Governor Crist released his budget recommendations for 2007-2008.

To keep the FAU Board of Trustees informed of the 2007-2008 budgetary process, a comparison of the different budget requests is provided.

IMPLEMENTATION PLAN/DATE

July 1, 2007.

FISCAL IMPLICATIONS

The 2007-2008 Legislative General Appropriations Act will establish FAU's Educational and General Operating and FAU's Capital Budgets for 2007-2008.

Supporting Documentation: Chancellor's Memo; SUS 2007-08 Budget Request and Governor's

Recommendation, Educational and General, Executive Summary;

Budget Comparison Information

Presented by: Dr. Kenneth A. Jessell, Vice President for Financial Affairs Phone: 561-297-3266

Good afternoon, Trustees. Today Governor Crist released his budget recommendations for 2007-08. Chancellor Rosenberg prepared the memo below that highlights some of the major items as they relate to public higher education.

For FAU there are a few things I would like to bring to your attention.

FUNDING FOR NEW STUDENTS-- Of the \$150 million BOG request for 10,153 new FTE students, Governor Crist has recommended \$101 million to support 6738 new FTE students, approximately 66 % of the BOG request. We anticipate that considering FAU's revised enrollment plan for 2007-08, we will receive approximately \$3.8 million to support 324 new FTE students. Last year, FAU received approximately \$4 million in enrollment growth funding to support 419 new FTE.

TUITION INCREASE—The Governor's Budget does not include a tuition increase for undergraduate in-state students. Last year, a 3 % increase in undergraduate tuition for FAU generated approximately \$1 million new funding for FAU. We anticipate that the FAU BOT will be able to consider a tuition increase for graduate and out-of-state students.

PECO--The proposed PECO funds are reduced from the BOG proposed amount of \$470 million to \$386 million. We do not yet know how this will affect our portion, but if our percentage holds, our PECO allocation will be around \$34 million from the \$40 approved at last week's BOG meeting. The Governor does include an additional \$47 million for maintenance, repairs and renovation, and again if our percentage holds, FAU's allocation may be \$ 2.3 million.

RESEARCH, SCHOLARSHIP, AND MATCHING FUNDS--We are extremely pleased to see non recurring funds for World Class Scholars, Centers of Excellence, programs to train high wage/high skill jobs (SUCEED), and Science and Engineering Economic Development Programs. Courtelis Facilities matching funds and the major gifts matching program also are included in the budget.

MEDICAL PARTNERSHIP PROGRAM—The Governor's budget includes the much needed \$4.7 million recurring funding for our Medical Education Partnership.

SALARY INCREASES FOR EMPLOYEES—The Governor's budget includes funding to award employees a 2.44 % salary increase effective October 1, 2007.

Please let me know if you have any questions. Have a great weekend!! JENNIFER

MEMORANDUM

TO: Members, Board of Governors FROM: Mark B. Rosenberg, Chancellor

DATE: February 2, 2007

RE: Governor Crist's 2007-08 Budget Recommendation

cc: Members, University Boards of Trustees

SUS Presidents

Staff, Board of Governors Office

Governor Crist released his 2007-2008 recommended budget today. Attached are 2 files: 1) an executive summary of the BOG University request compared to the Governor's recommendation, and 2) an executive summary of the BOG General Office request compared to the Governor's recommendation.

The following are highlights of the proposed budget. If you have any questions, please feel free to contact Tim Jones (850-245-9397) regarding the operating budget or Chris Kinsley (850-245-9607) regarding the fixed capital outlay budget.

Operating Budget Summary: The Educational & General budget would increase 6.7% over the current year base appropriation. This excludes the \$80 million for the World Class Scholars, Centers of Excellence, and Science and Engineering Research & Development Programs.

Access to Higher Education - \$101.2 M

- o This will fund 6,738 new FTE students entering the state university system this fall. Of the \$101.2 million, \$72.2 million is from state funds and the balance (\$28.9 million) from tuition paid by the students. This would fund new growth at 100% of the Board's funding model. (BOG Request 10,153 FTE students including over-enrollments plus new growth; \$151 M (\$108 M state funds & \$43 M tuition)
- FIU Medical School Implementation \$5.5 M (same as BOG request)
- UCF Medical School Implementation \$4.7 M (same as BOG request)
- FAU/UM Medical Partnership \$4.7 M (same as BOG request)
 - \$2.6 million continues the phase-in of this program and \$2.1 million replaces non-recurring funds received in 2006-07.
- Major Gift Matching Program \$45 M (nonrecurring) (same as BOG request)
- **Tuition** no tuition increase for resident undergraduate students. (consistent with BOG current policy)
- SUCCEED \$8.85 M (nonrecurring) (BOG on record as supporting SUCCEED funding)
 - o Continues the funding provided in 2006-07 for awards to be made through a competitive application process to train students for high skill/high wage jobs.

• Salary Increases – universities are included in administered funds for a 2.44% increase effective October 1.

• 21st Century Act

- o World Class Scholars \$20 M (non-recurring)
- o Centers of Excellence \$40 M (non-recurring)
- o Science & Engineering Research & Economic Development Programs \$20 M (non-recurring)

Fixed Capital Outlay Summary:

- \$386 million from PECO for projects on the BOG approved 3-year list. Proviso states that funds shall be allocated to first year projects as specified in the State University System 3-year PECO project list approved by the BOG. (This is \$84 million, or 18%, less than the \$470 million approved on Jan. 25th by the BOG. The \$84 million is redirected towards K-12 Class Size Reduction)
- o \$47 million from PECO for maintenance, repair and renovations
- o \$14 million for Courtelis Facilities matching

Other Items of Interest:

- Stem Cell Research Grant Program \$20 M
 - o Competitive grants would be available for medical research. Institutions and universities could explore possible treatments and cures for degenerative diseases such as Alzheimer's and Parkinson's diseases and spinal cord injuries.

• Bright Futures - \$372 M

o Includes an increase of \$25.7 M. This program will serve approximately 159,000 students.

Tax revenue falling below projections

Gov. Crist reconsidering state budget

By Jason Garcia Tallahassee Bureau Posted February 10 2007

Tallahassee · Florida budget writers were handed grim news Friday, with a new report showing state tax collections falling far short of expectations.

In response, Gov. Charlie Crist's office acknowledged it has begun to weigh changes to the \$71.2 billion budget the governor submitted to the Legislature last week -- a spending plan that would include higher teacher pay, stem cell research and a host of other high-profile initiatives.

"We are starting to look at our options," Jerry McDaniel, the head of Crist's budget office, told members of the House Policy and Budget Council.

McDaniel added that Crist could tap into reserves or make cuts if revenue continues to slide. "He's prepared to do that," McDaniel said.

The report showed that January general revenue collections fell \$108 million short of estimates. The plunge in sales tax receipts was especially dramatic, falling almost \$71 million.

For the past three months, general revenue collections are nearly \$160 million below projections.

Amy Baker, the coordinator for the Office of Economic and Demographic Research, attributed the drop in sales taxes to a "spillover effect" from a slumping housing market.

With fewer new homes being built and sold, sales of everything from shingles and sheet metal to washers and dryers are suffering, she said. "[That] is having some feedback into sales taxes," Baker said.

The news comes less than three months after a panel of economists downgraded the state's cash forecast by \$466 million for the 2007-08 fiscal next year, which will begin July 1. That drop was attributed to declining revenue from a tax on real estate transactions.

That economists' panel, which attempts to forecast tax revenue up to two years in advance, will meet again in March, when they are likely to lower their projections even further.

Friday's report was based on actual tax collections, not projections.

Still, Crist and the Legislature are expected to have some extra money available to them as they cobble together a budget during the Legislature's annual session, scheduled to begin next month.

House Budget Chairman Ray Sansom, R-Destin, said the Legislature still likely would be able to squeeze in some new or expanded initiatives.

Crist, for instance, has recommended legislators increase spending in a number of areas, including \$295 million for teacher bonuses, \$20 million for stem cell research and \$32.5 million for upgraded voting equipment.

"I think we can fit it into the budget," Sansom said.
