Energy Resilience Certificate

The availability of reliable electric power is foundational to the health and safety of citizens as well as the economy. Technology is rapidly providing solutions that increase the efficiency and resiliency of the electrical grid, while renewable energy technologies are providing cleaner sources of electric power. These technological advances are made possible by engineers and scientists with advanced knowledge of the power grid, data analysis techniques and renewable energy extraction. By specializing in these areas, graduate students will be well prepared to contribute to the efficiency and resiliency of the electrical grid as well as renewable power generation.

This 12-credit certificate provides graduate students with knowledge and skills in the concepts and technologies necessary to improve the efficiency and resiliency of energy generation, transmission and distribution.

Admission

This certificate program is open to students with a bachelor's degree in engineering or science and a GPA of at least 3.0. Students must satisfy the prerequisites for each course in the program. The average GPA of all four courses counted in the program must be 3.0 or better. ~~All course materials are in English; all international students must demonstrate proficiency in English to enter the program.~~

Curriculum

Select four courses from the list below. Additional graduate courses in energy and power systems may be counted in the certificate with prior permission of the advisor.

Core Courses		
Smart Grid	EEL 6291	3
Energy Engineering	EGN 5735	3
Elective Courses (choose two)	-	-
Power System Analysis and Control	EEL 5256	3
<u>Advanced Photovoltaic Power Systems</u>	<u>EEL 6284</u>	<u>3</u>
Solar Energy Engineering	EML 6417C	3
Advanced Energy Conversion Processes and Systems	EML 6451	3
Wind Turbine Systems	EML 6456	3
<u>Wind and Ocean Energy Turbines</u>	<u>EML 6446</u>	<u>3</u>
Marine Renewable Energy	EOC 6145	3

Subject: Re: Energy Resilience certificate, revisions

Mihaela,

I confirm that the OME department approved via e-mail vote.

Regards,

Francisco

Hello Dr. Presuel,

could you please confirm that OME department approves the Energy Resilience certificate revisions, attached.

Best regards,
Mihaela

Subject: Re: Energy Resilience certificate, revisions

Dear Dr. Cardei,
Based on the feedback from the faculty members of CECE, I can say CECE fully supports the Energy Resilience Certificate program as revised.

Thank you,
Best regards
Dr. T.

Subject: Energy Resilience certificate, revisions

Dr T,

attached are some revisions for the Energy Resilience certificate. Please share with CEGE, and let me know if there are comments. In this way we open the certificate to both GR and UG students.

I am waiting for 2 new GR course proposals, then I will send all of these to you for College GPC approval.

Regards,
Mihaela
