**Department of Computer & Electrical Engineering  
and Computer Science  
Florida Atlantic University  
Course Syllabus**

<b>1. Course title/number, number of credit hours</b>	
<b>Software Maintenance &amp; Evolution / CEN 6027</b>	3 credit hours
<b>2. Course prerequisites, corequisites, and where the course fits in the program of study</b>	
Prerequisites: Graduate standing for CEECS students, and instructor's approval for students from other major.	
<b>3. Course logistics</b>	
Term: Class Location and Time:	
<b>4. Instructor contact information</b>	
<i>Instructor's name</i> <i>Office address</i> <i>Office Hours</i> <i>Contact telephone number</i> <i>Email address</i>	
<b>5. TA contact information</b>	
<i>TA's name</i> <i>Office address</i> <i>Office Hours</i> <i>Contact telephone number</i> <i>Email address</i>	
<b>6. Course description</b>	
This course covers fundamental aspects of software maintenance and evolution, including concepts and techniques, process models for system evolution, and software maintenance case studies.	
<b>7. Course objectives/student learning outcomes/program outcomes</b>	
<i>Course objectives</i>	2. Proficiency in the areas of software design and development, data structures, and operating systems 4. Proficiency in mathematical and scientific principles relevant to computer engineering.
<i>Student learning outcomes &amp; relationship to ABET a-k objectives</i>	(a) an ability to apply knowledge of mathematics, science, and engineering (b) an ability to design and conduct experiments, as well as to analyze and interpret data (c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability (e) an ability to identify, formulate, and solve engineering problems (f) an understanding of professional and ethical responsibility (g) an ability to communicate effectively

**Department of Computer & Electrical Engineering  
and Computer Science  
Florida Atlantic University  
Course Syllabus**

	(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice	
<b>8. Course evaluation method</b>		
Homework	60%	<i>Note:</i> The minimum grade required to pass the course is C.
Midterm	20%	
Final project	20%	
<b>9. Course grading scale</b>		
Grading Scale: 90 and above: "A", 87-89: "A-", 83-86: "B+", 80-82: "B", 77-79: "B-", 73-76: "C+", 70-72: "C", 67-69: "C-", 63-66: "D+", 60-62: "D", 51-59: "D-", 50 and below: "F."		
<b>10. Policy on makeup tests, late work, and incompletes</b>		
Need proper university accepted documents to have permissions on makeup tests, late work and incompletes		
<b>11. Special course requirements</b>		
N/A		
<b>12. Classroom etiquette policy</b>		
University policy requires that in order to enhance and maintain a productive atmosphere for education, personal communication devices, such as cellular phones and laptops, are to be disabled in class sessions.		
<b>13. Attendance policy statement</b>		
Students are expected to attend all of their scheduled University classes and to satisfy all academic objectives as outlined by the instructor. The effect of absences upon grades is determined by the instructor, and the University reserves the right to deal at any time with individual cases of non-attendance. Students are responsible for arranging to make up work missed because of legitimate class absence, such as illness, family emergencies, military obligation, court-imposed legal obligations or participation in University-approved activities. Examples of University-approved reasons for absences include participating on an athletic or scholastic team, musical and theatrical performances and debate activities. It is the student's responsibility to give the instructor notice prior to any anticipated absences and within a reasonable amount of time after an unanticipated absence, ordinarily by the next scheduled class meeting. Instructors must allow each student who is absent for a University-approved reason the opportunity to make up work missed without any reduction in the student's final course grade as a direct result of such absence.		
<b>14. Disability policy statement</b>		
In compliance with the Americans with Disabilities Act Amendments Act (ADAAA), students who require reasonable accommodations due to a disability to properly execute coursework must register with Student Accessibility Services (SAS) and follow all SAS procedures. SAS has offices across three of FAU's campuses – Boca Raton, Davie and Jupiter – however disability services are available for students on all campuses. For more information, please visit the SAS website at <a href="http://www.fau.edu/sas/">www.fau.edu/sas/</a>		

**Department of Computer & Electrical Engineering  
and Computer Science  
Florida Atlantic University  
Course Syllabus**

**15. Counseling and Psychological Services (CAPS) Center**

Life as a university student can be challenging physically, mentally and emotionally. Students who find stress negatively affecting their ability to achieve academic or personal goals may wish to consider utilizing FAU's Counseling and Psychological Services (CAPS) Center. CAPS provides FAU students a range of services – individual counseling, support meetings, and psychiatric services, to name a few – offered to help improve and maintain emotional well-being. For more information, go to <http://www.fau.edu/counseling/>

**16. Code of Academic Integrity Policy Statement**

Students at Florida Atlantic University are expected to maintain the highest ethical standards. Academic dishonesty is considered a serious breach of these ethical standards, because it interferes with the university mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Academic dishonesty is also destructive of the university community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see [University Regulation 4.001](#).

**17. Required texts/reading**

Course related reading material, lecture slides and resources will be posted on Canvas

**18. Supplementary/recommended readings**

Supplementary reading material will be made available online

**19. Course topical outline, including dates for exams/quizzes, papers, completion of reading**

**Course topical outline (subject to change depending on the course progress):**

1. Overview of software maintenance (what, why, who)
2. Different types of software maintenance
3. Software maintenance metrics and case studies
4. Maintenance prediction (number of changes, cost, impact analysis)
5. Evolution process models
6. Legacy system reengineering and reuse
7. Reverse engineering and program comprehension
8. Software and Information Visualization
9. Software system redocumentation
10. Service Oriented Architecture (SOA)
11. Agile software development

**Project Assignments with tentative dates:**

1. Four to five homework will be posted as lecture progresses

**Exams:**

1. Midterm:
