RE: GLY 4054 H Evolution of Life on Earth (BSC 4802) (WHC)

As per FAU's Honors Curriculum Manual, this new course proposal was submitted to the Wilkes Honors College Undergraduate Programs Committee as BSC 4802. The proposal was then discussed and approved by the University Honors Council on 20 November 2020 with the understanding that the prefix and number could change pending further discussions. The UHC voted on the content of the course and to accept the new prefix and number when they became available.

We are now asking the UUPC to consider this new course proposal and give it approval for inclusion in the catalog as GLY 4054 H Evolution of Life on Earth. Thank you.
