Date: November 3, 2017

To: Dr. J. Haky, Chair, University Undergraduate Programs Committee

From: Dr. Robert Stackman Jr.   
Interim Chair, Department of Psychology

Subject: Changes to University Catalog entries for the Neuroscience & Behavior B.S. Degree Program, Department of Psychology and Department of Biological Sciences

---

The text in green represents the requested changes to the FAU catalog description of our Neuroscience and Behavior major program.

## **Bachelor of Science with Major in Neuroscience and Behavior** *(Minimum of 120 credits required)*

The **B.S. degree in Neuroscience and Behavior, jointly administered by the Department of Psychology and the Department of Biological Sciences; Co-Directors are Stackman, R. (Psychology) and Keene, A. (Biological Sciences). The Neuroscience and Behavior program** provides undergraduate preparation for students interested in pursuing graduate degrees in **behavioral neuroscience, neurobiology** and/or behavioral biology, or in pursuing professional degrees in medicine or veterinary medicine. Qualified students are strongly encouraged to become involved in neuroscience and behavior research projects (normally via a Directed Independent Study, **Directed Independent Research**, or special research course). An optional Honors Thesis, PSY 4970, is available to those students who meet the academic requirements.

### Prerequisite Coursework for Transfer Students

Students **who** transfer to Florida Atlantic University must complete both lower-division requirements (including the requirements of the Intellectual Foundations Program) and requirements for the college and major. Lower-division requirements may be completed through the A.A. degree from any Florida public college, university or community college or through equivalent coursework at another regionally accredited institution. Before transferring and to ensure timely progress toward the baccalaureate degree, students must

Boca Raton • Dania Beach • Davie • Fort Lauderdale • Jupiter • Treasure Coast

*An Equal Opportunity/Equal Access Institution*

also complete the prerequisite courses for their major as outlined in the [Transfer Student Manual](#).

All courses not approved by the Florida Statewide Course Numbering System that will be used to satisfy requirements will be evaluated individually on the basis of content and will require a catalog course description and a copy of the syllabus for assessment.

**Top**

In addition to the University and College requirements, students are expected to complete all of the following courses. A minimum of 24 of the upper-division credits in the B.S. Neuroscience and Behavior program must be taken at Florida Atlantic University.
