<td>Emphasis is placed on advancing clinical reasoning by integrating complex concepts and foundational nursing knowledge, caring science, and evidence-based standards to design person-centered care in complex nursing situations. The role of collaborative relationships with patients, their families and the interprofessional team is examined. Evidence-based nursing responses that nurture the wholeness of persons to maximize outcomes, prevent complications, and improve the quality of life are examined. Legal, ethical, cultural and economic considerations associated with complex acute health problems are addressed.</td>
