

E-Mail from Carol Sashi on December 27, 2005

To: All WebFOCUS Users

Welcome to WebFOCUS version 7.1.1.

A summary of the new features for this WebFOCUS version can be found on the network drive, N:\IBI\Summary of New Features for 71.pdf. Along with this release, a local configuration setting was modified so that you can now easily access and report on all Banner date fields with or without its corresponding timestamp.

For more details on how to get the most out of WebFOCUS, stay tuned about upcoming training classes scheduled in January. The schedule for training classes are sent to all individuals subscribed to the "WebFOCUS at FAU" group via campus pipeline. Join today at <http://myfau.fau.edu> (see detailed instructions below) if you are not already a member.

Regards,

Carol

Accessing the WebFOCUS at FAU group via campus pipeline

If you are interested in keeping current with WebFOCUS activities, it is necessary that you enroll yourself as a member of the "WebFOCUS at FAU" group. All announcements for WebFOCUS training (for analytical users and advanced), upgrades, techniques will be sent to the "WebFOCUS at FAU" group. Please sign-up today if you want to know about WebFOCUS events as follows:

Logon to Campus Pipeline at <http://myfau.fau.edu> and establish yourself as a member in the Group, WebFOCUS at FAU. To join the group, all you need to do are the the following steps:

1. Select groups in the upper right hand corner.
2. Select Groups Index.
3. Select the Right Arrow for Depts/administration (NOTE: If you do not click on the right arrow you will not see the IRM folder in Step 4.)
4. Select the IRM folder.
5. Select WebFOCUS at FAU in the Groups in IRM column.
