SOM

Eric R. Keune, AIA, LEED A.P.
Director Chicago Office
SKIDMORE, OWINGS & MERRILL LLP

Skidmore Owens & Merrill LLP (SOM) is an American Architectural and Engineering firm formed in Chicago in 1936 by Louis Skidmore and Nathaniel Owings and in 1939 was joined by John O Merrill.

SOM is one of the largest architectural firms in the world

Their primary expertise is in high-end commercial buildings, as it was SOM that led the way to the widespread use of the modern international-style, or the “GLASS BOX” skyscraper

Eric Keune is a Cornell/Harvard GSD graduate and will talk candidly and animately about his 15 years of working across scales within this firm.
