

In connection to Art & Technology's research focus on Body, Art, and Technology we have the great pleasure to invite you to our Honorary ArT Lecture by:

Richard Shusterman

Dorothy F. Schmidt Eminent Scholar in the Humanities, Professor of Philosophy, and
Director of the Center for Body, Mind, and Culture at Florida Atlantic University

Pragmatism, Somaesthetics, and Contemporary Art

Friday, May 3rd 2013
3:00 pm
Tegnesalen, Toldboden

Richard Shusterman is one of the leading philosophers in the world. This is a unique opportunity to get a first hand insight into his work in pragmatist aesthetics and the emerging field of somaesthetics, "the critical, meliorative study of the experience and the use of one's body as a locus of sensory-aesthetic appreciation (aesthesis) and creative self-fashioning." Professor Shusterman's lecture will employ the insights of American pragmatism and his research in somaesthetics to explore new directions for philosophy's engagement with the visual arts.

The lecture will be followed by a reception.

Prof. Dr. Ståle Stenslie
Obel professor of Art and Technology
