Deadly Medicine: Creating the Master Race*
DECEMBER 14, 2013 – FEBRUARY 15, 2014*
SCHMIDT CENTER GALLERY
A traveling exhibition produced by the United States Holocaust Memorial Museum and presented in conjunction with the Center for Holocaust and Human Right Education, the Charles E. Schmidt College of Medicine and the Dorothy F. Schmidt College of Arts and Letters. From 1933 to 1945, Nazi Germany carried out a campaign to “cleanse” German society of people viewed as biological threats to the nation’s “health.” Enlisting physicians, geneticists, psychiatrists, and anthropologists, the Nazis developed racial health policies that started with the mass sterilization of “hereditarily diseased” persons and ended with the near annihilation of European Jewry. Deadly Medicine traces this history from the early 20th-century international eugenics movement to the Nazi regime’s “science of race.” It also challenges viewers to reflect on the present-day interest in genetic manipulation that promotes the possibility of human perfection. *Closed: December 22, 2013 – January 6, 2014

SCHMIDT CENTER GALLERY PUBLIC SPACE
RITTER + SCHMIDT CENTER GALLERIES

The 2013 exhibition is the 4th edition in Florida that presents a selection of innovative art made by artists living in the southeast. Devoid of thematic ballast, the exhibition has the simple aim that our students and other audiences might benefit by seeing high quality artwork not commonly or ever seen in South Florida and/or Miami, a growing international center of contemporary art activity. The exhibition also seeks to present a diversity of approaches to contemporary art making while also representing specific studio art disciplines that are taught in FAU's Department of Visual Arts and Art History. Co-curated by W. Rod Faulds and Sybille Welter, the exhibition will conclude with a catalogue documenting the three exhibition spaces.
