ACADEMIC AND STUDENT AFFAIRS COMMITTEE

October 22, 2008

SUBJECT: APPROVAL OF NEW FAUS SCHOOL ADVISORY BODY

PROPOSED COMMITTEE ACTION

Recommend adoption of a resolution creating a new School Advisory Body for the Florida Atlantic University Schools (FAUS) and dissolving the existing FAUS School Advisory Board and School Advisory Council.

BACKGROUND INFORMATION

Pursuant to Florida Statutes Section 1002.32, FAU sponsors developmental research public schools through its College of Education. As required by statute, the schools shall establish advisory group(s) to develop and implement the school improvement plan and to provide for general oversight and guidance. These advisory groups may either be established as: (i) two bodies—one appointed by the University President—a School Advisory Board (for general oversight and guidance) and one elected by their respective peers—a School Advisory Council (for development and implementation of the school improvement plan) or (ii) one advisory body with both appointed and elected members—a School Advisory Body.

Currently, FAUS (A.D. Henderson and FAU High) has two advisory bodies. The existence of two advisory bodies has created certain challenges, including lack of clarity on roles and responsibilities, inconsistency, multiple points of contact, structural inefficiencies/duplications, demographic imbalances, and confusion on membership categories/classifications. The benefits of moving to one single advisory body include enhanced clarity, accountability, consistency and communication with a single point of contact, enhanced structural efficiency, reduced organizational redundancy and overhead, and enhanced opportunities to create a demographic balance of membership through both appointed and elected members.

After considerable analysis, the administration has concluded that a school of FAUS' size is more effectively served with one advisory body and is therefore recommending that the Board reconstitute the FAUS advisory functions into one single School Advisory Body, as authorized by Florida Statutes Section 1002.32(8)(b). This single School Advisory Body would be a blend of elected and appointed members, with at least eleven (11) total members. Six (6) of the members of this new School Advisory Body would be elected by their respective peer groups (2 FAUS faculty (1 elementary, 1 secondary), 2 parents/guardians (1 elementary, 1 secondary), 1 education support employee and 1 student (secondary) (student body president)). At least five (5) of the members would be appointed by the University President (1 principal, 1 Dean of the College of Education or designee, 2 University faculty members, and 1 business/community citizen). Additional members may be appointed by the University President to achieve a representative mix of the ethnic, racial and economic community served by the schools.

The responsibilities of the new single School Advisory Body would be a combination of the current two bodies' functions, including: (i) the development and implementation of the school improvement plan, (ii) the provision of general guidance and oversight, (iii) monitoring the operations of the school and the distribution of moneys allocated for school operations; (iv) establishing necessary policy, program, and administration modifications, and (v) evaluating the director and principal and recommending related actions to the Dean of the College of Education.

IMPLEMENTATION PLAN/DATE

The proposed plan of action was presented to the FAUS constituency at a joint School Advisory Board/School Advisory Council meeting on September 3, 2008, and a draft copy of the new School Advisory Body's proposed by-laws has been posted on the FAUS website for public comment. Upon approval by the full Board, elections and appointments to the new Body would be held in December of 2008, as well as the winding up of School Advisory Board and School Advisory Council affairs. Implementation of the new single School Advisory Body would begin in January 2009 for the second semester of the 2008-09 school year.
