There was a motion by Trustee Robert Stilley to approve the Florida Atlantic University’s 2009-2010 Operating Budget and authorize the University President to amend to budget consistent with Legislative, Board of Governors’, and Board of Trustees’ directives and guidelines. The motion was seconded by Trustee Thomas Workman.

Trustee Timothy Lenz stated that he opposed the motion due to components dealing with the College of Engineering and Computer Science. His procedural concerns involved the college bylaws and the fact that the reorganization had not been presented to the Faculty Senate. He voiced substantive concerns related to tenure, stating that the reorganization gives the administration almost complete discretion to create or abolish units within the college. The reorganization also appears to give the administration the authority to assign and reassign faculty members to academic units. It was his opinion this would significantly dilute tenure and seriously hurt FAU’s efforts to remain competitive. Trustee Lenz stated that he was voting against the budget. Trustee Lalita Janke asked Trustee Lenz asked if there were any other colleges affected. Trustee Lenz stated that the reorganization is a matter of general faculty concern. Trustee Rajendra Gupta asked if the reorganization was cancelled could there be a discussion with faculty to enable the faculty to stay before the budget is approved. Trustee Lenz restated that as a representative of the Faculty Senate, he is expressing the concerns of the faculty who was in attendance at the Faculty Senate meeting, and he is not authorized to speak on behalf of the College of Engineering and Computer Science. President Brogan stated that Dean Stevens was available to answer questions on the college’s bylaws and the reorganization. He stated it is the administration’s plan to work with the affected faculty members to see if any appropriate opportunities exist for reassignment elsewhere in the University. He asked Dean Stevens to address the issue of how the bylaws were utilized in the reorganization. Trustee David Feder stated that it was discussed at length at the last meeting that the reorganization was put together by the College of Engineering and Computer Science, based on the discussion the BOT supported the college’s decision to reorganize. Trustee Blosser added that the discussion regarding the reorganization of any college or the layoffs of faculty would not normally come to the BOT for discussion or a vote anyway. She stated the BOT has delegated that authority to the Deans of the colleges. She reiterated that the BOT has not delegated that authority to the Faculty Senate. She asked the BOT if they would like to continue the discussion or need any clarification from Dean Stevens. Trustee Anthony Barbar stated that the process has been an open one, and the BOT is voting on the budget and not the reorganization. Trustee Scott Adams asked if the BOT approves the bylaws for each of the colleges. Mr. David Kian, General Counsel, responded that the BOT has not and does not approve the bylaws for each of the colleges, nor has the BOT approved the constitution of the Faculty Senate. Mr. Kian added that the BOT has delegated to the University Provost the responsibility of the administration of academic affairs. The BOT has further delegated to the Deans of the several colleges the responsibility to administer the academic and budgetary policies of the colleges, with responsibility to the University Provost. The BOT has authorized the Faculty Senate to pass a constitution, but the BOT has not approved that constitution. Trustee Lenz stated that the administration has delegated to the Faculty Senate certain responsibilities over curriculum and academic matters subject to veto by the University President. President Brogan stated that he has been assured the Provost and Deans have followed the bylaws and the reorganization has been moved through the process that has been traditionally used. Trustee Blosser asked if there were any other questions or
discussion. With no further discussion the motion was passed with twelve members of the board voting in favor and one member voting against.

IX. BOT Member Comments
Trustee Lalita Janke stated that it has been refreshing to have a different perspective and air things out over the last few meetings, pertaining to financial constraints. Trustee Timothy Lenz stated that he felt the service on the BOT is a noble endeavor. He stated that institutions that have support appeal to students and that the relationship between the FAU and the student is not just consumer based. Trustee Tiffany Weimar thanked the administration and the BOT for their sensitivity to students in these difficult economic times. Trustee Robert Stilley thanked everyone who works with the Audit and Finance Committee. Trustee Scott Adams asked if there is a way to monitor the ratio of the administration to faculty with our peers. President Brogan responded that the State of Florida monitors the ratios and that FAU was well below the state average on the non-instructional side. Trustee Adams stated that the Strategic Planning Committee along with Dr. Murtaugh will look strategically at faculty compensation. Trustee Armand Grossman thanked the staff and stated that some universities did across-the-board cuts, whereas FAU was more strategic about the budget cuts. He commended Mr. Donaudy’s presentation on the Capital Improvement Plan. Trustee Tom Workman thanked the Provost and Chief Financial Officer on their work with the budget. He also encouraged the BOT to visit Harbor Branch Oceanographic Institute. Trustee David Feder stated that he is impressed with the faculty and staff of FAU in how they present information to the BOT.

X. Public Comments
Dr. Nurgun Erdol from the College of Engineering and Computer Science gave a brief presentation and comments on the reconstruction of the college. Dean Stevens stated that he met with the faculty committee and they did not approve or disapprove the reorganization. The reorganization is complete, but the implementation is ongoing. Trustee Blosser added that normally, the BOT would not discuss this issue and there are processes and procedures in place to resolve issues when faculty and staff feel that they have been wronged. If the processes and procedures have issues then it would elevate to the BOT. Dr. Erdol stated she felt better knowing this was an issue that should be addressed in her college and she would peruse those avenues of discussion.

XI. Adjournment
Trustee Blosser thanked Dr. Pritchett and Dr. Jessell, as well as other staff, for their work with the budget. She also commended the faculty. There was a motion to adjourn the meeting by Trustee Lalita Janke. The motion was seconded by Trustee Anthony Barbar. The meeting was adjoumed.
