V. Information Agenda
   I-1. Educational Broadband Service Licenses and Strategic Academic Enhancement
Initiative
Trustee Blosser asked Mr. David Kian to provide an overview and Dr. John Pritchett to present.
FAU currently has seven active Educational Broadband Service (EBS) licenses. FAU conducted a
publicly open Invitation to Negotiate (ITN) in order to determine the best value for FAU with
respect to the channels, both educationally and financially. Contemporaneously with the ITN, FAU
entered into a Spectrum Coordination Agreement regarding certain of the channels held by FAU for
the benefit of the Palm Beach County School Board.

Clearwire Corporation, the parent company of Clearwire Spectrum Holding II, LLC was the
successful bidder in the ITN process and entered into a long term lease with FAU. The lease
provides of an initial 10 year term with two renewal terms of 10 years, for a maximum term
allowable by the FCC of 30 years. The lease provides for two forms of lease payments from
Clearwire to FAU, with initial payments to be made upon FCC approval for the long-term lease and
application for each license and annual/monthly payments thereafter. The administration proposes
investing the leases revenue in six strategic areas during the first five years. All of the areas are
derived from the BOT’s strategic plan:
• Fostering Student Success – $2.4 million
• Strengthening the Information Technology Infrastructure - $11.8 million
• Strategic Investment in Research – $7.6 million
• University-wide Academic Enhancement $2.5 million
• Establishing an Academic Enhancement Endowment – $3.9 million
• Reward Faculty and Staff Contributions to FAU’s Mission – $3.08 million
