**SUBJECT: REQUEST FOR APPROVAL OF TERMINATION OF THE MASTER OF  
ARTS IN LIBERAL STUDIES (24.0101).**

---

**PROPOSED COMMITTEE ACTION**

Request the approval of termination of the Master of Arts in Liberal Studies (24.0101).

**BACKGROUND INFORMATION**

The Office of the University Provost has always worked with each college to identify programs which no longer justify the cost of instruction on the basis of enrollment, demand, centrality to the mission of the University, or which no longer meet the needs of the citizens of Florida by providing a viable educational or occupational objective. In addition, last year, FAU participated in an initiative of the Florida Board of Governors and the Council of Academic Vice Presidents on Articulation, Coordination and Coherence of Academic Delivery across the State University System. The M.A. degree in Liberal Studies was one degree identified as having low degree productivity over a five-year period.

Admission to this degree program was suspended in Spring 2010 because of low enrollment. There are no students currently in the program. The college has graduate programs in a number of areas (English, Women's Studies, Communication, Linguistics and History, for example) that would be of interest to students wishing to enhance their knowledge of the liberal arts. This is an interdisciplinary program taught by graduate faculty from other departments in the college. The termination of this degree program will have no adverse effect on students or associated faculty members.

**IMPLEMENTATION PLAN/DATE**

Effective immediately upon approval by the Florida Atlantic University Board of Trustees.

## FISCAL IMPLICATIONS

The recommended actions are part of an effort to remove inefficient or non-productive degree programs from the University degree inventory. Since these programs no longer meet student needs they essentially have no current enrollment and are not drawing faculty and other resources, very modest savings may be expected.

*This is the form to be used for university requests to terminate doctoral degree programs and is recommended for use when terminating other programs. The request should be approved by the University Board of Trustees (UBOT) prior to submission to the Board of Governors, State University System of Florida for approval. Please fill out this form completely for each program to be terminated in order for your request to be processed as quickly as possible. Attach additional pages as necessary to provide a complete response. In the case of baccalaureate or master's degree programs, the UBOT may approve termination in accordance with BOG Regulation 8.012 (3), with notification sent to the Board of Governors, Office of Academic and Student Affairs. The issues outlined below should be examined by the UBOT in approving termination.*

**1. Provide a narrative rationale for the request to terminate the program.**

This degree has been suspended since Spring 2010 due to poor quality, low enrollment, and inadequate administration. Currently, there is no active student enrolled in this program.

**3. Indicate on which campus(es) the program is being offered and the extent to which the proposed termination has had or will have an impact on enrollment, enrollment planning, and/or the reallocation of resources.**

The program was offered in Boca and Davie. There will be little impact on enrollment or allocation of resources--there were few students in the program and almost no one received a graduate teaching assistantship. Neither will this termination impact faculty assignment, since this program depended on courses cross-listed from other graduate programs in the college.

**PROGRAM TERMINATION FORM (PAGE 2)**

- 4. Provide an explanation of the manner in which the University intends to accommodate any students or faculty who are currently active in the program scheduled to be terminated. State what steps have been taken to inform students and faculty of the intent to terminate the program?**

Currently, there aren't any students in the program.

- 5. Provide data (and cite source) on the gender and racial distribution of students and faculty. For faculty also list the rank and tenure status of all affected individuals.**

No faculty lines are affected, because it is an interdisciplinary program that utilizes faculty expertise in various departments.

- 6. Identify any potential negative impact of the proposed action on the current representation of females, minorities, faculty, and students.**

None
