Nongovernmental grants and contracts: Certain contracts and grants are administered through the Research Corporation. These are typically small awards for research projects that needed to be awarded to a 501 c (3) organization. Currently there are two contracts in the FAURC totaling approximately \$136,000.

Royalties: money received from companies for royalties on patents. This money is distributed back to the inventor, and the Research Corporation based on the distribution formula. The restricted portion consists of the total royalty payments received and distributed back. Of this total, an estimated \$50,000 remains in the Research Corporation which is then classified as unrestricted revenue. This money is used to cover the operating expenses of the Research Corporation including the annual audit and other operating expenses.
