SUBJECT: APPROVE NAMING OF UNIVERSITY ELEMENTS

PROPOSED COMMITTEE ACTION

Recommend that the BOT approves naming of an element within the proposed ADHUS/FAU High School Complex. The proposed name of the element will be the "Helen M. Salzberg ELEMENT."

BACKGROUND INFORMATION

Donation:

Helen M. Salzberg is donating Twenty-Five Thousand Dollars (\$25,000) for a recognition opportunity by naming an Element within the proposed ADHUS/FAU High School Complex, to be constructed under the direction and within the discretion of the Assistant Dean of PK-12 Educational Programs. The Donor is also making an additional gift of Twenty-Four Thousand Nine Hundred Seventy Dollars (\$24,970) to fund art education at the ADHUS.

Gift Purpose:

The gift will be used to assist with the planning, financing, constructing and equipment purchase for the ADHUS/FAU High School Complex, under the direction and within the discretion of the Assistant Dean of PK-12 Educational Programs. At the present time, Ms. Salzberg has not decided on a specific Element to name. She will have one year to choose an available Element from the appropriate category in the naming element menu, which is attached.

Donors' Background:

Helen M. Salzberg is a self-taught artist and a poet who splits her time between Palm Beach and Redding, Connecticut. Ms. Salzberg was born in New York State and has worked in painting, sculpture, and collage throughout her career. Her paintings depict biblical subject matter, primarily from the Old Testament, and feature rich colors and warm light. She is the widow of the late Henry H. Salzberg who was a lawyer in New York.

Facility and Program:

AD Henderson University School/FAU High School is embarking on the largest, most ambitious, and most important campaign in its history. Let's Build This Together brings to life the most comprehensive master plan, completed in 2015, outlining the multi-phase campus replacement project.

The Let's Build This Together initiative for the Developmental Research School at Florida Atlantic University seeks to preserve and elevate the school's reputation as a leader in K-12 education and increase its landmark research and impact. Designed to achieve LEED Gold certification, the new facilities at the Developmental Research School at Florida Atlantic University will teach our students about emerging technologies and the economic, social, and ethical rewards of sustainable design and construction.

The new facility will be critical in facilitating student led research and engineering as AD Henderson University School/FAU High School provides opportunities for experiences beyond the classroom. This new facility will equip our faculty and students to impact the future for years to come.

FISCAL IMPLICATIONS

The estimated cost of signage and installation is a maximum of \$400.00 for design and execution of the signage for the named asset.

IMPLEMENTATION PLAN/DATE

Construction of ADHUS/FAU High School Complex – TBD.
