Research and the Community
The Broward campuses of FAU are involved in world-class, innovative research in many areas. From Everglades restoration and harnessing the Gulf Stream as a source of new energy, to training future science and math high school teachers, you will find it happening here.

As a community partner in Broward County, we know that we need to give back to the area that has been so generous to us. Our students and instructors are deeply involved in strengthening our schools and improving our cities and communities, as well as local development projects that make Broward a better place to live and work.

Paying It Forward
Award recipients are strongly encouraged to “pay it forward” and support the Broward Vision Fund Scholarship in the future.

Preference is given to students enrolled for at least 50% of their credit hours on an FAU Broward campus, though all who attend FAU and live in Broward County are eligible.

For more information about how you can support FAU and the Broward Vision Fund, please contact the Broward campuses Office of Development and Outreach at 954-236-1466 or browardgiving@fau.edu.

A human being is not attaining his full heights until he is educated.
Horace Mann

An investment in knowledge pays the best interest.
Benjamin Franklin

Opening Doors to the Future
Investing in Broward’s Students
The Broward Vision Fund offers scholarships to current and incoming undergraduate and graduate students. It is supported through the generosity of the local community of Broward County. The fund provides assistance to Broward County students for tuition, the purchasing of books and other education-related expenses.

In 1989, the Florida Legislature designated Florida Atlantic University as the lead state university serving Broward County. Today, the largest number of students attending FAU come from Broward County.

Meet Our Students
The demographics of FAU Broward students differ greatly from what is generally perceived as the “norm.” The average age of our students is 26 years old and many have adult responsibilities such as full-time jobs and families. They are serious about school because they are paying for most of it themselves. These students need your support in order to attend FAU. They are looking to education to be a rung on the ladder to success and financial security for themselves and their families. Each credit hour puts them one step closer to achieving their goals.

Steven Hope, 24
BA Political Science ’12
The Broward Vision Fund provided me with the money I badly needed to purchase books for my classes. It came at the right time in my life because I could not get financial aid from anywhere else. I tell other students who are in the situation that I was in, ‘apply for the Broward Vision Fund. It can make all the difference in the world.’

Jeaninne Edwards, 25
BS Accounting ’15
I needed money to purchase a new laptop and books, so the grant I received came at the right time. I worked a full-time job, yet still had to take out loans to pay for my education. The Broward Vision Fund paid for what I needed and has helped keep me from going into any more student loan debt. And believe me, as an accounting major, debt is something you learn to avoid.

“Education is the most powerful weapon which you can use to change the world.”
Nelson Mandela
