

Canvas Template Implementation Guide

The FAU course template features a beautiful homepage with navigational buttons to guide your students to various areas within your course. In the Files area, you will find button variations that allow you to customize what the students see on your homepage. The template also features an instructor page that includes tips, resources, and backup formatting. There are 16 prebuilt Module pages that are fully customizable, plus a syllabus page, discussion instructions, extra resources, and more!

Creating a Sandbox Course for the Template

1. Open your web browser and log into Canvas.FAU.edu.
2. Your initial view will be of the **Dashboard**, which provides a quick overview page of your starred  courses.
3. Click on the **Start a New Course** button on the bottom right, as highlighted in red below. This will create a new and empty Canvas course.

4. The Start a New Course dialog box will prompt you to provide some information as shown below.
 - a. For Course Name, type **Template Sandbox**.
 - b. Leave the Content License set to **Private (Copyrighted)**.
 - c. Leave **Make course publicly visible** unchecked.
5. Click **Create course**.
6. The Template Sandbox course has now been created.

Importing the Template into your Template Sandbox Course

1. Access Canvas **Commons** by clicking on the  icon on the bottom-left-hand side of the **Global Navigation** menu.
2. If this is your first time accessing **Commons**, please click **Authorize** to gain access.
3. Visit the **Commons** guide for more information.
4. Locate this search bar .
5. Search for **FAU Course Template**.
6. Your search result should yield one course called **FAU Course Template**. This single course offers various homepages. Two generic FAU homepages (featuring the FAU Stadium and the Burrowing Owl) and one homepage for each college.
