Important Notice for Prospective Applicants to the Comparative Studies Program

Thank you very much for your interest in the Comparative Studies Program. Owing to severe budgets cuts to the entire University system, we have suspended admissions to the Comparative Studies Program for the academic year beginning Fall 09. Given the unpredictability of the financial crisis, it is impossible for us to plan beyond the academic year Fall 09 - Spring 10.

During this hiatus of admissions, the College faculty and administration will be engaged further in the ongoing review of the PhD Program, with the understanding that, when we do resume admissions, we will resume within a financial context quite different from the one that has obtained in the past.

Given the current state of uncertainly, we do not know if it will be possible for us to accept applications for the Fall 10 – Spring 11 academic year. If you are interesting in applying by the February 1, 2010 deadline, please sent your contact information to Angela Lints at alints@fau.edu. We will be in touch when we can give you definite information regarding the status of the Program.
