Report No. 2022-189 March 2022

## STATE OF FLORIDA COMPLIANCE AND INTERNAL CONTROLS OVER FINANCIAL REPORTING AND FEDERAL AWARDS

In Accordance With the Uniform Guidance

For the Fiscal Year Ended June 30, 2021

Sherrill F. Norman, CPA Auditor General

Financial and Federal Single Audit

The Auditor General conducts audits of governmental entities to provide the Legislature, Florida's citizens, public entity management, and other stakeholders unbiased, timely, and relevant information for use in promoting government accountability and stewardship and improving government operations.

Please address inquiries regarding financial statements findings directly to Josh Barrett, CPA, Audit Manager, by e-mail at joshuabarrett@aud.state.fl.us or by telephone at (850) 412-2804.

Please address all other inquiries regarding this report to Samantha Perry, CPA, Audit Manager, by e-mail at <u>samanthaperry@aud.state.fl.us</u> or by telephone at (850) 412-2762.

This report and other reports prepared by the Auditor General are available at:

#### SUMMARY OF REPORT ON FINANCIAL STATEMENTS

The State of Florida's basic financial statements, except for the effects of the matters described in the INDEPENDENT AUDITOR'S REPORT "Basis for Qualified Opinions on Business-Type Activities and Reemployment Assistance Fund" paragraph, as of and for the fiscal year ended June 30, 2021, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our report is included in the Florida Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2021, issued by the Chief Financial Officer.

#### SUMMARY OF REPORT ON INTERNAL CONTROL AND COMPLIANCE

We noted and consider the following matters involving internal control over financial reporting and its operation to be material weaknesses:

- The Florida Department of Financial Services did not prepare and furnish financial statements to the Auditor General or prepare and publish the ACFR within statutorily prescribed time periods. (Finding No. 2021-001)
- During the first three quarters of the 2020-21 fiscal year, Florida Department of Economic Opportunity (FDEO) management continued to bypass a key Reemployment Assistance Claims and Benefits Information System internal control, thereby increasing the risk of improper unemployment insurance (UI) benefit payments and undetected material misstatements. (Finding No. 2021-002)
- For the 2019-20 and 2020-21 fiscal years, the FDEO did not record all accounts payables, receivables, UI benefit payments, or amounts due from the Federal Government for UI benefit payments compensable by June 30 but paid during the period July 1 through September 30. (Finding No. 2021-003)
- The FDEO did not record all UI benefits paid and corresponding amounts due from the Federal Government for the 2020-21 fiscal year. (Finding No. 2021-004)

We noted and consider the following matter involving internal control over financial reporting and its operation to be a significant deficiency:

• The Florida Department of Revenue did not record the fiscal year-end net receivables or related unavailable revenue for sales and use taxes and fees estimated to be collected after July 31, 2021, or reverse the prior year unavailable revenue closing balance for sales and use taxes and fees. (Finding No. 2021-005)

We noted the following additional matters that we reported to management but do not consider to be significant deficiencies:

- FDEO procedures for preparing the Schedule of Expenditures of Federal Awards (SEFA) data form were not sufficient to ensure the accuracy of reported amounts. As a result, prior to audit adjustment, amounts reported on the State's SEFA were incorrect. (Finding No. AM 2021-01)
- Florida Department of Education (FDOE) procedures for preparing the SEFA data form were not sufficient to ensure the accuracy of reported amounts. As a result, prior to audit adjustment, amounts reported on the State's SEFA were incorrect. (Finding No. AM 2021-02)

- Florida Department of Elder Affairs procedures for preparing the SEFA data form were not sufficient to ensure the accuracy of reported amounts. As a result, prior to audit adjustment, amounts reported on the State's SEFA were incorrect. (Finding No. AM 2021-03)
- The Florida Department of Children and Families (FDCF) did not properly report amounts for four Federal programs on the SEFA. As a result, prior to audit adjustment, amounts reported on the State's SEFA were incorrect. (Finding No. AM 2021-04)
- Florida Agency for Health Care Administration procedures for preparing the SEFA data form were not sufficient to ensure the accuracy of reported amounts. As a result, prior to audit adjustment, amounts reported on the State's SEFA were incorrect. (Finding No. AM 2021-05)

#### SUMMARY OF REPORT ON FEDERAL AWARDS

State agencies, universities, and colleges administered approximately 561 Federal awards programs and program clusters during the 2020-21 fiscal year. Expenditures for the 20 major programs totaled \$52 billion or approximately 70 percent of the total expenditures of \$74 billion reported on the Schedule of Expenditures of Federal Awards.

Compliance requirements for Federal awards programs are established in the *Office of Management and Budget (OMB) Compliance Supplement*. Types of compliance requirements include: Activities Allowed or Unallowed; Allowable Costs/Cost Principles; Cash Management; Eligibility; Equipment and Real Property Management; Matching, Level of Effort, Earmarking; Period of Performance; Procurement and Suspension and Debarment; Program Income; Reporting; Subrecipient Monitoring; and Special Tests and Provisions.

#### Compliance

The State of Florida complied, in all material respects, with the compliance requirements applicable to each of its major Federal awards programs, except as described in the following instances:

- For the Unemployment Insurance (UI) program, we are unable to express, and do not express, an opinion on the FDEO's compliance with the Reporting and Special Tests and Provisions – UI Program Integrity – Overpayments compliance requirements because the FDEO did not maintain records to support the amounts reported in Federal Performance Reports and could not provide accurate data for the period July 2020 through June 2021 demonstrating that UI benefit overpayments were properly identified and handled in accordance with applicable requirements or that debts resulting from overpayments were appropriately offset. (Finding Nos. 2021-032 and 2021-034)
- For the Coronavirus Relief Fund (CRF) program, we are unable to express, and do not express, an opinion on the Florida Executive Office of the Governor's compliance with the Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Reporting compliance requirements because the allowability of claimed CRF expenditures was not always supported by appropriate records or methodology. (Finding No. 2021-040)
- For the English Language Acquisition State Grants and Education Stabilization Fund (ESF) programs, we are unable to express, and do not express, an opinion on the FDOE's compliance with the Reporting compliance requirement because the FDOE could not provide records from the Federal Funding Accountability and Transparency Act Subaward Reporting System demonstrating that subawards were timely reported with the information required by the Federal Funding Accountability and Transparency Act. (Finding No. 2021-046)

- For the ESF program, we are unable to express, and do not express, an opinion on the FDOE's compliance with the Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Equipment and Real Property Management, and Reporting compliance requirements because FDOE monitoring activities did not validate the allowability of actual subrecipient ESF program expenditures nor did the FDOE require all subrecipients to provide a Budget Narrative Form documenting the financial plan and uses of funds for carrying out project objectives, services, and activities. (Finding No. 2021-056)
- The Florida Division of Emergency Management (FDEM) did not report subaward information required by the Federal Funding Accountability and Transparency Act in the Federal Funding Accountability and Transparency Act Subaward Reporting System, which resulted in an opinion qualification. (Finding No. 2021-010 Wildfires and Hurricanes Indemnity Program (WHIP) Plus)
- The FDEO did not always ensure or timely ensure that UI claimants complied with the participation requirements of the Reemployment Services and Eligibility Assessments program, which resulted in an opinion qualification. (Finding No. 2021-035 Unemployment Insurance)
- The FDEM did not monitor the activities of CRF subrecipients, which resulted in an opinion qualification. (Finding No. 2021-041 CRF)
- The FDOE did not evaluate subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or perform monitoring activities based on the assessed risk of noncompliance, which resulted in an opinion qualification. (Finding No. 2021-056 ESF)
- The FDCF did not always timely review and process Income Eligibility and Verification System data exchange responses, which resulted in an opinion qualification. (Finding No. 2021-072 – Temporary Assistance for Needy Families)
- The FDEM did not timely report subaward information required by the Federal Funding Accountability and Transparency Act in the Federal Funding Accountability and Transparency Act Subaward Reporting System, which resulted in an opinion qualification. (Finding No. 2021-089 Disaster Grants Public Assistance (Presidentially Declared Disasters))
- The FDEM did not monitor subrecipients in accordance with FDEM procedures. In addition, the FDEM did not always timely document the review of subrecipient audit reports, determine whether a management decision was required, or issue management decisions for subrecipient audit findings, which resulted in an opinion qualification. (Finding No. 2021-091 – Disaster Grants - Public Assistance (Presidentially Declared Disasters))

The results of our audit also disclosed other instances of noncompliance pertaining to programs administered by various State agencies as described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. Some of the instances of noncompliance resulted in questioned costs subject to disallowance by the grantor agency.

#### Internal Control Over Compliance

We noted numerous matters at various State agencies involving internal control over compliance and its operation that we consider to be material weaknesses or significant deficiencies. Material weaknesses and significant deficiencies are described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** and pertained to several compliance requirements. The instances described in the previous paragraphs on compliance for the WHIP Plus program (Finding No. 2021-010), UI program (Finding Nos. 2021-032, 2021-034, and 2021-035), CRF program (Finding Nos. 2021-040 and 2021-041), English Language Acquisition State Grants program (Finding No. 2021-046), ESF program (Finding Nos. 2021-046 and

2021-056), Temporary Assistance for Needy Families program (Finding No. 2021-072), and Disaster Grants – Public Assistance (Presidentially Declared Disasters) program (Finding Nos. 2021-089 and 2021-091), are deficiencies in internal control over compliance considered to be material weaknesses.

#### SUMMARY OF REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The State's **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** (SEFA) is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the State's basic financial statements. The State's SEFA does not include Federal awards expenditures for the State's blended component units; CareerSource Florida, Inc. and the Florida Commission on Community Service; discretely presented component units of the State's universities and colleges; or discretely presented component units other than the State's universities and colleges. In our opinion, the SEFA is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### AUDIT SCOPE

As a condition of receiving Federal funds, the OMB requires, as described in the Uniform Guidance, an audit of the State's financial statements and major Federal awards programs. Pursuant to Section 11.45, Florida Statutes, we conducted an audit of the basic financial statements of the State of Florida as of and for the fiscal year ended June 30, 2021. We also subjected supplementary information contained in the State's Annual Comprehensive Financial Report and the State's SEFA to auditing procedures applied in our audit of the basic financial statements. Additionally, we audited the State's compliance with governing requirements for the Federal awards programs and program clusters that we identified as major programs for the fiscal year ended June 30, 2021. We also performed procedures to assess the reasonableness of the **SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS** prepared by the State of Florida.

#### AUDIT OBJECTIVES

The objectives of our audit were to:

- Express opinions concerning whether the State's basic financial statements were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- Express an opinion concerning whether the State's SEFA was presented fairly, in all material respects, in relation to the State's basic financial statements as a whole.
- Obtain an understanding of the internal control over financial reporting and the internal control over compliance for each major Federal awards program or program cluster, assess the control risk, and perform tests of controls, unless the controls were deemed to be ineffective.
- Express opinions concerning whether the State complied, in all material respects, with Federal statutes, regulations, and the terms and conditions of Federal awards that may have a direct and material effect applicable to each of the major Federal awards programs and program clusters.
- Determine whether management had taken appropriate actions to correct deficiencies noted in our previous audit reports.

• Assess the reasonableness of the Summary Schedule of Prior Audit Findings prepared by the State.

#### AUDIT METHODOLOGY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, applicable standards contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the Uniform Guidance.

The President of the Senate, the Speaker of the House of Representatives, and the Legislative Auditing Committee

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida, as of and for the fiscal year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the State of Florida's basic financial statements, and have issued our report thereon dated March 29, 2022. Our report includes a reference to other auditors who audited the financial statements of the Prepaid College Program Fund, Florida Turnpike System, Hurricane Catastrophe Fund, College Savings Plan and the trust fund maintained by the State Board of Administration to account for the investments of the Public Employee Optional Retirement Program, assets and investment income of the Florida Retirement System Defined Benefit Pension Plan, the Florida Housing Finance Corporation, Citizens Property Insurance Corporation, component units related to the State's universities and colleges, and certain other funds and entities as described in our report on the State of Florida's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in Finding Nos. 2021-001, 2021-002, 2021-003, and 2021-004 in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in Finding No. 2021-005 in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the State's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, administrative rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance with State law that is required to be reported under *Government Auditing Standards* and which is described in Finding No. 2021-001 in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

#### Additional Matters

We noted five additional matters that were reported to management as Finding Nos. AM 2021-01, AM 2021-02, AM 2021-03, AM 2021-04, and AM 2021-05 in the **ADDITIONAL MATTERS** section as listed in the table of contents.

#### Management Responses to Findings

Management responses to the material weaknesses and significant deficiency identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** Financial Statements Finding Nos. 2021-001, 2021-002, 2021-003, 2021-004, and 2021-005. Management responses to the additional matters identified in our audit are included in the **ADDITIONAL MATTERS** 

section as listed in the table of contents. The responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Norman

## AUDITOR GENERAL STATE OF FLORIDA

Claude Denson Pepper Building, Suite G74 111 West Madison Street Tallahassee, Florida 32399-1450

Phone: (850) 412-2722 Fax: (850) 488-6975

The President of the Senate, the Speaker of the House of Representatives, and the Legislative Auditing Committee

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

#### Report on Compliance for Each Major Federal Program

We have audited the State of Florida's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the State of Florida's major Federal programs for the fiscal year ended June 30, 2021. The State of Florida's major Federal programs are identified in the **Summary of Auditor's Results** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

The State of Florida's basic financial statements include the operations of component units which expended Federal awards during the fiscal year ended June 30, 2021, that are not included in the State's **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**. Our audit of the State of Florida's major Federal programs did not include the operations of the blended component units, CareerSource Florida, Inc. and the Florida Commission on Community Service; discretely presented component units of the State of Florida's universities and colleges; or discretely presented component units other than the State of Florida's universities and colleges. As applicable, Federal awards administered by these component units are the subjects of audits completed by other auditors. Our audit also did not include the operations of the Legislature.

#### Management's Responsibility

Management is responsible for compliance with Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State of Florida's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,

issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the State of Florida's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major Federal programs. However, our audit does not provide a legal determination of the State of Florida's compliance.

### Basis for Qualified Opinion on Wildfires and Hurricanes Indemnity Program Plus, Unemployment Insurance, Coronavirus Relief Fund, English Language Acquisition State Grants, Education Stabilization Fund, Temporary Assistance for Needy Families, and Disaster Grants – Public Assistance (Presidentially Declared Disasters)

As described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, the State of Florida did not comply with the requirements regarding the following:

Finding No. 2021-	Assistance Listing Nos.	Major Program (or Cluster) Name	Compliance Requirement
010	10.129	Wildfires and Hurricanes Indemnity Program Plus	Reporting
035	17.225	Unemployment Insurance	Special Tests and Provisions – UI Reemployment Programs: Worker Profiling and Reemployment Services and Reemployment Services and Eligibility Assessments
041	21.019	Coronavirus Relief Fund	Subrecipient Monitoring
056	84.425 C, D	Education Stabilization Fund	Subrecipient Monitoring
072	93.558	Temporary Assistance for Needy Families	Special Tests and Provisions – Income Eligibility and Verification System
089	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Reporting
091	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Subrecipient Monitoring

Compliance with such requirements is necessary, in our opinion, for the State of Florida to comply with the requirements applicable to the respective programs.

As described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, we were unable to obtain sufficient appropriate audit evidence supporting that the State of Florida complied with requirements regarding the following:

Finding No. 2021-	Assistance Listing Nos.	Major Program (or Cluster) Name	Compliance Requirement
032	17.225	Unemployment Insurance	Reporting
034	17.225	Unemployment Insurance	Special Tests and Provisions – UI Program Integrity - Overpayments
040	21.019	Coronavirus Relief Fund	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Reporting
046	84.365	English Language Acquisition State Grants	Reporting
046	84.425, C, D, R	Education Stabilization Fund	Reporting
056	84.425 C, D	Education Stabilization Fund	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Equipment and Real Property Management, and Reporting

Consequently, we were unable to determine wither the State of Florida complied with those requirements applicable to the program.

#### Qualified Opinion on Wildfires and Hurricanes Indemnity Program Plus, Unemployment Insurance, Coronavirus Relief Fund, English Language Acquisition State Grants, Education Stabilization Fund, Temporary Assistance for Needy Families, and Disaster Grants – Public Assistance (Presidentially Declared Disasters)

In our opinion, except for the noncompliance and possible effects of the matters described in the Basis for Qualified Opinion paragraphs, the State of Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Wildfires and Hurricanes Indemnity Program Plus, Unemployment Insurance, Coronavirus Relief Fund, English Language Acquisition State Grants, Education Stabilization Fund, Temporary Assistance for Needy Families, and Disaster Grants – Public Assistance (Presidentially Declared Disasters) programs for the fiscal year ended June 30, 2021.

#### Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major Federal programs identified in the **Summary of Auditor's Results** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** for the fiscal year ended June 30, 2021.

#### Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** as:

Finding Nos. 2021	L-:		
012	013	031	033
039	057	064	065
066	067	070	071
076	079	080	081
082	083	090	

Our opinion on each major Federal program is not modified with respect to these matters.

The State of Florida's responses to the noncompliance findings identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. The State of Florida's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

#### **Report on Internal Control Over Compliance**

Management of the State of Florida is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State of Florida's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of Florida's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the following findings and included in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be material weaknesses:

Finding No. 2021-	Assistance Listing Nos.	Major Program (or Cluster) Name	Compliance Requirements
010	10.129	Wildfires and Hurricanes Indemnity Program Plus	Reporting
032	17.225	Unemployment Insurance	Reporting
034	17.225	Unemployment Insurance	Special Tests and Provisions – UI Program Integrity - Overpayments
035	17.225	Unemployment Insurance	Special Tests and Provisions – UI Reemployment Programs: Worker Profiling and Reemployment Services and Reemployment Services and Eligibility Assessments
040	21.019	Coronavirus Relief Fund	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Reporting
041	21.019	Coronavirus Relief Fund	Subrecipient Monitoring
046	84.365	English Language Acquisition State Grants	Reporting
046	84.425 C, D, R	Education Stabilization Fund	Reporting
056	84.425 C, D	Education Stabilization Fund	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Equipment/Real Property Management, Reporting, and Subrecipient Monitoring
072	93.558	Temporary Assistance for Needy Families	Special Tests and Provisions – Income Eligibility and Verification System
089	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Reporting
091	97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Subrecipient Monitoring

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the following findings and included in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be significant deficiencies:

Finding Nos.	2021-:		
011-031	033	036-038	042-045
047-055	057-071	073-080	084-088
090			

The State of Florida's responses to the internal control over compliance findings identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. The State of Florida's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

riel F. Norman

The President of the Senate, the Speaker of the House of Representatives, and the Legislative Auditing Committee

#### INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the State of Florida's basic financial statements. We issued our Independent Auditor's Report thereon dated March 29, 2022, which contained unmodified and qualified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Florida's basic financial statements.

The accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Respectfully submitted,

en F. Norman

Sherrill F. Norman, CPA March 29, 2022

## SCHEDULE OF FINDINGS AND QUESTIONED COSTS

#### SECTION I - SUMMARY OF AUDITOR'S RESULTS

#### **Financial Statements**

Type of auditor's report issued on whether the financial statements audited were prepared in accordance with GAAP:	Qualified opinion for Business-Type Activities and Reemployment Assistance Fund and Unmodified for all other opinion units
Internal control over financial reporting:	
Material weaknesses identified?	Yes
Significant deficiencies identified?	Yes
Noncompliance material to financial statements noted?	Yes
Federal Awards	
Internal control over major Federal programs:	
Material weaknesses identified?	Yes
Significant deficiencies identified?	Yes
Type of auditor's report issued on compliance for major Federal programs: Unmodified for all major programs, except for the following programs for which the report was qualified: Wildfires and Hurricanes Indemnity Program Plus (10.129) Unemployment Insurance (17.225) Coronavirus Relief Fund (20.019) English Language Acquisition State Grants (84.365) Education Stabilization Fund (84.425) Temporary Assistance for Needy Families (93.558) Disaster Grants – Public Assistance (Presidentially Declared Disasters) (97.036)	
Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?	Yes
Dollar threshold used to distinguish between Type A and Type B programs:	\$110,944,911
Auditee qualified as low-risk auditee?	No

#### LISTING OF MAJOR PROGRAMS FISCAL YEAR ENDED JUNE 30, 2021

Name of Federal Program or Cluster (1)	Assistance Listing Number(s)	Total Expenditures
Wildfires and Hurricanes Indemnity Program	10.129	\$ 108,268,638
Pandemic EBT Food Benefits (2)	10.542	602,502,083
Child and Adult Care Food Program (2)	10.558	306,825,806
Emergency Solutions Grant Program (2)	14.231	28,082,604
Unemployment Insurance (2)	17.225	17,793,148,084
Workforce Innovation and Opportunity Act Cluster	17.258, 17.259, and 17.278	143,152,454
Coronavirus Relief Fund (2)	21.019	4,482,464,629
Veterans State Nursing Home Care	64.015	39,636,805
Career and Technical Education – Basic Grants to States (2)	84.048	66,805,536
Rehabilitation Services Vocational Rehabilitation Grants to States	84.126	179,667,092
Education Stabilization Fund (2)	84.425	1,812,477,080
English Language Acquisition State Grants	84.365	42,550,390
Aging Cluster (2)	93.044, 93.045, and 93.053	142,114,279
Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) (2)	93.323	735,212,373
Temporary Assistance for Needy Families	93.558	390,930,756
Adoption Assistance (2)	93.659	165,057,362
Medicaid Cluster (2)	93.775, 93.777, and 93.778	20,874,460,832
Disaster Grants – Public Assistance (Presidentially Declared Disasters) (2)	97.036	1,894,970,189
Presidential Declared Disaster Assistance to Individuals and Households -		
Other Needs (2)	97.050	1,182,450,102
Research and Development Programs (2)	Various	980,139,550
Total		<u>\$51,970,916,644</u>

Notes: (1) The Schedule of Expenditures of Federal Awards identifies the programs included within the respective clusters. (2) This program included CARES Act funds expended during the 2020-21 fiscal year.

#### **SECTION II - FINANCIAL STATEMENTS FINDINGS**

Our audit of the State of Florida's basic financial statements for the fiscal year ended June 30, 2021, disclosed certain matters that we communicated in the **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH** *GOVERNMENT AUDITING STANDARDS*. These findings are categorized in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that findings be categorized in a manner that discloses their significance. The categorizations established and defined by the standards are as follows:

- A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State's financial statements will not be prevented, or detected and corrected on a timely basis.
- A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

## **MATERIAL WEAKNESS**

## **ANNUAL COMPREHENSIVE FINANCIAL REPORT**

Finding Number Opinion Units Financial Statements Account Titles SW Fund Numbers State Entity OLO-GF-SF-FID GL Codes Adjustment Amounts Statistically Valid Sample	2021-001 Various Various Florida Department of Financial Services (FDFS) Various Various N/A N/A
Finding	The FDFS did not prepare and furnish financial statements to the Auditor General or prepare and publish the Annual Comprehensive Financial Report (ACFR) within statutorily prescribed time periods.
Criteria	Section 216.102(3), Florida Statutes, requires the Chief Financial Officer to prepare and furnish to the Auditor General by December 31 annual financial statements for the State using generally accepted accounting principles (GAAP) and to prepare, publish, and furnish to the Governor, President of the Senate, and Speaker of the House of Representatives an ACFR in accordance with GAAP on or before February 28.
	The State of Florida audit engagement letter specified the terms of engagement and provided that management was responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America. The engagement letter also specified that management was responsible for making all records and related information available for audit in a timely manner.
Condition	The FDFS is responsible for preparing and furnishing to the Auditor General the State's financial statements and related notes to the financial statements by December 31. The FDFS is to prepare, publish, and furnish to the Governor, President of the Senate, and Speaker of the House of Representatives an ACFR in accordance with GAAP on or before February 28. On June 15, 2021, the FDFS provided the audit engagement letter signed by the Chief Financial Officer in which the FDFS acknowledged that management was responsible for making all records and related information available for audit in a timely manner. However, the Statewide Financial Reporting Section (SFRS) did not provide to us for audit the State's financial statements for the 2020-21 fiscal year until March 2022, and significant notes to the financial statements, such as Deposits and Investments (Note 2), Pensions and Other Postemployment Benefits (Note 6), Bonds Payable and Certificates of Participation (Note 8), and Interfund Balances and Transfers (Note 11) were not furnished for audit until after January 30, 2022. Consequently, the FDFS was unable to prepare, publish, and furnish the ACFR in accordance with statutory time frames.
Cause	According to FDFS management, issues that prevented the timely preparation and submission of the State's ACFR included:
	<ul> <li>SFRS staff constraints, including COVID-19 related illness.</li> </ul>
	• Additional SFRS resources were dedicated to Coronavirus Relief Fund activities to ensure that revenues and expenditures were accurately reported.
	• Delays in the receipt of audited financial statements from other external auditors.

Effect Significant delays in management's fulfillment of its statutory and agreed upon responsibilities to timely prepare and furnish for audit the ACFR in accordance with accounting principles generally accepted in the United States of America increases the risk that deficiencies in internal control, including those considered to be a significant deficiency or material weakness,1 that could lead to a material misstatement may not be timely prevented or detected and corrected. While we extended the timing of our audit procedures to determine whether adjustments to the financial records provided for audit and used to report the State's financial statements and notes to the financial statements included in the ACFR were necessary, our audit procedures cannot substitute for management's responsibility to implement adequate controls over financial reporting. Recommendation We recommend that FDFS management enhance ACFR preparation processes to ensure that the financial statements are provided to the Auditor General and the ACFR is prepared and published by the dates prescribed in statute. State Entity Response We concur with the finding: In mid-December 2021, it became apparent that the ACFR team was not going to make the December 31st deadline due to various factors. The prior year's ACFR administrator did not follow established procedures in the ACFR compilation process. Therefore, staff had to spend considerable time remapping broken links and providing corrections to the ACFR systems application. Four of our six employees responsible for building the ACFR became ill from COVID-19 during a pivotal time in the process. Two of the team members had family members that passed away in January due to COVID-19. Management was aware of the deadline, however made the decision to focus on turning in a quality work product and being late verses performing a rush job with errors. In going forward, FDFS will continue to improve and streamline the ACFR processes, address the timing of work, and calendar due dates to ensure FDFS submits substantially completed financial statements to the Auditor General (AG) by December 31st each year and the ACFR is prepared and published by the dates prescribed in statute. Per the agreement between AG staff and FDFS management, the financial statements will be considered submitted according to statutory prescribed periods if they are substantially complete except for noted items that are dependent on external reports not received by FDFS on December 31st. FDFS will submit a list of outstanding items when it submits the financial statements.

<sup>&</sup>lt;sup>1</sup> A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

## **MATERIAL WEAKNESS**

## **RA SYSTEM CONTROLS**

Finding Number Opinion Units Financial Statements Account Titles SW Fund Number State Entity OLO-GF-SF-FID GL Codes Adjustment Amount Statistically Valid Sample Prior Year Finding	2021-002 Business-Type Activities and Reemployment Assistance Fund Receivables, net; Operating Revenues – Other; Net Position – Restricted for Reemployment Assistance 507501 Florida Department of Economic Opportunity (FDEO) 400000-50-2-765002 15100, 15900, 67900, 53500 N/A N/A Report No. 2021-182, Finding No. 2020-003
Finding	During the first three quarters of the 2020-21 fiscal year, FDEO management continued to bypass a key Reemployment Assistance Claims and Benefits Information System (RA System) internal control, thereby increasing the risk of improper unemployment insurance (UI) benefit payments and undetected material misstatements.
Criteria	GASB Codification Section N50.123 specifies that, after a nonexchange transaction has been recognized in the financial statements, it may become apparent that the eligibility requirements are no longer met. In these circumstances, the provider should recognize an asset and a revenue for the amount the provider is expected to reclaim.
	GASB Codification Section 1800.157 specifies that net position should be reported as restricted when constraints placed on net position use are either imposed by laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.
	GASB Codification Section 2300.125 specifies that governments should provide details in the notes to the financial statements when significant components of receivables have been obscured by aggregation and disclose significant receivable balances not expected to be collected within one year of the date of the financial statements.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The FDEO established internal controls within the RA System to reduce the risk of improper UI benefit payments. One key internal control required all claims to be processed through the Fraud Initiative Ratings and Rules Engine (FIRRE) to determine whether investigation of a claim was warranted based on FIRRE business rules. Benefit claims flagged for investigation could not move forward in the claims process until the potential issues noted in FIRRE were resolved.
	Due to the COVID-19 pandemic and significant increase in the number of UI benefit claims, the FDEO established a daily bypass procedure on April 29, 2020, that allowed benefit claims, when FIRRE's capacity was exceeded, to be processed and approved for payment without being evaluated through FIRRE. According to FDEO management, the FDEO continued to utilize the daily bypass procedure during the first three quarters of the 2020-21 fiscal year. Additionally, to improve the FIRRE environment, the FDEO increased the server capacity for FIRRE on June 26, 2021. In conjunction with increasing the capacity of FIRRE, FDEO management indicated that the FDEO contracted with a vendor to provide identity verification services and another vendor to provide metadata analytics on claimant behavior as compensating fraud detection controls. Notwithstanding,

	while the identity verification services contract was effective for the entire 2020-21 fiscal year, the identity verification services did not evaluate other demographic information that may be indicators of increased risks of fraud considered by FIRRE. Additionally, our review of the metadata analytics contract noted that the contract was executed on June 24, 2021, more than 2 months after the last daily FIRRE bypass procedure was run.
	During the 2020-21 fiscal year, the FDEO paid UI benefit payments totaling \$20,982,950,043. However, as of January 6, 2022, FDEO management was unable to provide the number of initial UI benefit payments processed through the bypass procedure during the 2020-21 fiscal year. Consequently, the FDEO was unable to estimate or record a receivable or revenue for potentially fraudulent claims.
Cause	FDEO management indicated that the increase in FIRRE server capacity and the use of identity verification services and metadata analytics would decrease fraudulent activity in the UI benefits program and strengthen the validity and reliability of reported financial balances. However, as previously noted, these controls were either limited in nature or were not established until after the last daily bypass procedure occurred and at the end of the fiscal year.
Effect	Due to the continued bypassing of the FIRRE review control and the FDEO's inability to provide the number of initial UI benefit payments processed through the daily bypass procedure, the potential effects on the Reemployment Assistance Fund Receivables, net; Operating Revenues – Other; and Net Position – Restricted for Reemployment Assistance financial statement accounts, including whether those accounts were free from material misstatement, could not be determined. Consequently, the Independent Auditor's Report includes a qualified opinion for the Business-Type Activities and Reemployment Assistance Fund. Additionally, we could not determine whether the disaggregated receivable information in the notes to the financial statements was free from material misstatement.
Recommendation	We again recommend that FDEO management ensure that all RA System controls established to reduce the risk of improper payments and promote the reporting of financial information free from material misstatements are appropriately maintained and functioning for all UI benefit claims received.
State Entity Response	All claims that bypassed FIRRE at any time have been sent back through the system for review. FDEO is gathering data to support this and will provide it when available.
	Since 2014, the Fraud Initiative Ratings and Rules Engine (FIRRE) has been used by FDEO as an internal control deployed multiple times throughout the life of a claim. Due to the volume of claims filed in 2020 related to the COVID-19 pandemic, FDEO was unable to process all claims through FIRRE in real-time. Initial claims not bypassed by FIRRE continued to be reviewed by FIRRE. Claims that received payment or had updates from claimants were also reviewed, and all claims that bypassed FIRRE at any time have been sent back through the system for review. During this time, FDEO continued to add capacity to the system and as of April 2021, the FIRRE system review for all Reemployment Assistance claims (initial, continued, and maintenance) is happening in real-time. Additionally, in July 2020, FDEO was the first state to implement ID.me as an identity-verification resource for authentication and multi-state claim submission services. The contract was expanded in February 2021 for new claimants applying for Reemployment Assistance benefits.
	In addition to the FIRRE system and ID.me, FDEO introduced Front Door in summer 2021, a Microsoft web application firewall, to address global IP addresses attempting to access FDEO's systems. FDEO also contracts with Kroll

Government Solutions to help review potential fraudulent claims and analyze the data to help us improve our fraud detection.

FDEO will continue to improve the Reemployment Assistance processes to mitigate advanced fraud techniques and protect claimants and their personal information.

**Follow-Up to Management's Response** While FDEO management indicated in their written response that all claims that bypassed FIRRE have been sent back through the system for review, the response also indicated that the FDEO was gathering data to support this assertion. As noted in the finding, FDEO management was also unable to provide for audit the number of initial UI benefit payments processed through the bypass procedure during the 2020-21 fiscal year, nor estimate or record a receivable or revenue for potentially fraudulent claims. Absent appropriate documentation evidencing that the FDEO accounted for and adequately evaluated each benefit claim processed through the bypass procedure during the 2020-21 fiscal year, FDEO management cannot demonstrate that the Reemployment Assistance Fund Receivables, net; Operating Revenues – Other; and Net Position – Restricted for Reemployment Assistance financial statement accounts were free from material misstatement. Consequently, the finding and related recommendation stand as presented.

## **MATERIAL WEAKNESS**

## **UI PAYABLES AND RECEIVABLES**

Finding Number Opinion Unit Financial Statements Account Titles SW Fund Number State Entity OLO-GF-SF-FID GL Codes Adjustment Amounts Statistically Valid Sample	2021-003 Reemployment Assistance Fund Accounts payable and accrued liabilities; Receivables, net; Benefit payments: Grants and donations: Net Position – Prior period adjustment: Net Position – Restricted for Reemployment Assistance: Net Position – Unrestricted 507501 Florida Department of Economic Opportunity (FDEO) 400000-50-2-765002 31100, 16400, 77900, 68300, 53200, 53500, 53900 \$350,336,927; \$345,928,892; \$284,480,284; \$345,928,892; \$65,856,642; \$4,408,035; \$4,408,035 N/A
Finding	For the 2019-20 and 2020-21 fiscal years, the FDEO did not record all accounts payables, receivables, unemployment insurance (UI) benefit payments, or amounts due from the Federal Government for UI benefit payments compensable by June 30 but paid during the period July 1 through September 30.
Criteria	Governmental Accounting Standards Board (GASB) Codification Section 1600.130 specifies that Proprietary fund statements of net position and revenues, expenses, and changes in fund net position should be presented using the economic resources measurement focus and the accrual basis of accounting. GASB Codification Section 1600.102 specifies that, under the accrual basis of accounting, most transactions are recognized when they occur, regardless of when cash is received or disbursed. GASB Codification Section N50.118 specifies that providers should recognize
	liabilities and expenses from voluntary nonexchange transactions, and recipients should recognize receivables and revenues (net of estimated uncollectible amounts), when all eligibility requirements are met. FDEO Bureau of Budget Management Fiscal Year-End Closing Procedures specified that an estimated liability for UI benefits paid in the first 3 months of the new fiscal year, offset in part with a receivable due from the Federal Government, was to be recorded to the accounting records.
Condition	To determine the UI benefits paid in the first 3 months of a new fiscal year and offsetting amounts due from the Federal Government, FDEO staff run an RA Claims and Benefits Information System report (CONNECT report), <i>Prior Year benefits Paid</i> , at the end of July, August, and September. Each report summarizes, by grant, the UI benefits paid in the month pertaining to benefit weeks in the prior fiscal year. During the 2020-21 fiscal year, the FDEO recorded payables and UI benefit payments totaling \$147,641,353 each and receivables and grants and donations totaling \$104,102,662 each. However, our review of the CONNECT reports found that the FDEO had excluded from reporting five grants, misstated amounts for four grants, and incorrectly included another grant. Based on CONNECT records for all applicable grants, payables and UI benefit payments totaled \$497,978,280 each and receivables and grants and donations totaled \$450,031,554 each. Similarly, our review of 2019-20 fiscal year CONNECT reports found that the FDEO had not included payables and UI benefit payments totaling \$2,691,909,897 each and receivables and grants and donations totaling \$2,626,053,255 each, resulting in an overstatement of net position totaling \$65,856,642.

Cause	According to FDEO management, while the FDEO agreed that FDEO staff did not follow established Fiscal Year-End Closing Procedures during the 2019-20 and 2020-21 fiscal years, subsequent to audit inquiry, FDEO management evaluated the procedures and indicated that the procedures did not accurately reflect the eligibility criteria needed to establish a payable and receivable. According to FDEO management, a payable or receivable could not be established until the FDEO approved the UI benefit claim. Notwithstanding, GASB Codification Section N50.118 does not specify that a provider's acceptance of an UI benefit claims for compensable weeks in June 2019 and June 2020 had been approved and determined eligible within a reasonable time frame for financial statement recording purposes.
Effect	Prior to audit adjustment, Accounts payable and accrued liabilities were understated by \$350,336,927; Benefit payments were understated by \$284,480,284; Receivables, net and Grants and donations were understated by \$345,928,892; Net Position – Restricted for Reemployment Assistance was overstated by \$4,408,035; Net Position – Unrestricted was understated by \$4,408,035; and Net Position – Prior period adjustment was overstated by \$65,856,642.
Recommendation	We recommend that FDEO management follow established year-end closing procedures to ensure that all accounts payables, receivables, UI benefit payments, and amounts due from the Federal Government are appropriately recorded based on the benefit payments compensable date and in accordance with accounting principles generally accepted in the United States of America. Additionally, we recommend that FDEO management ensure that staff appropriately review CONNECT reports for all applicable grants when determining accounts payables, receivables, UI benefit payments, and amounts due from the Federal Government.
State Entity Response	FDEO will review its year-end closing procedures and make any needed changes to ensure that all accounts payables, receivables, UI benefit payments and amounts due are properly recorded in the correct fiscal year in accordance with accounting principles generally accepted in the United States of America. FDEO will ensure that its procedures include steps to analyze CONNECT reports for completeness.

## **MATERIAL WEAKNESS**

## **REEMPLOYMENT ASSISTANCE FUND**

Finding Number Opinion Unit Financial Statements Account Titles SW Fund Number State Entity OLO-GF-SF-FID GL Codes Adjustment Amount Statistically Valid Sample	2021-004 Reemployment Assistance Fund Pooled investments with State Treasury; Receivables, net; Grants and donations; Benefit payments 507501 Florida Department of Economic Opportunity (FDEO) 400000-50-2-765002 12200, 16400, 68300, 77900 \$150,155,052 N/A
Finding	The FDEO did not record all unemployment insurance (UI) benefits paid and corresponding amounts due from the Federal Government for the 2020-21 fiscal year.
Criteria	Governmental Accounting Standards Board (GASB) Codification Section 1600.130 specifies that Proprietary fund statements of net position and revenues, expenses, and changes in fund net position should be presented using the economic resources measurement focus and the accrual basis of accounting.
	GASB Codification Section 1600.102 specifies that, under the accrual basis of accounting, most transactions are recognized when they occur, regardless of when cash is received or disbursed.
	GASB Codification Section N50.118 specifies that recipients should recognize receivables and revenues (net of estimated uncollectible amounts) when all applicable eligibility requirements are met.
Condition	During the 2020-21 fiscal year, the FDEO utilized a bank account outside the State Treasury to pay COVID-19 related UI benefit payments. The FDEO was responsible for recording into the State's accounting records amounts received from the Federal Government and UI benefit payments made from the bank account. Our audit found that the FDEO did not record into the State's accounting records UI benefits totaling \$150,155,052 paid to UI recipients in June 2021. Additionally, the FDEO did not record the corresponding \$150,155,052 due from the Federal Government.
Cause	According to FDEO management, based on certain State accounting record data elements, FDEO staff initially believed that the \$150,155,052 related to July 2021 UI benefit payments. Subsequent to audit inquiry, the FDEO performed additional research and determined that the amount was for June 2021 UI benefit payments.
Effect	Prior to our audit adjustment, Benefit payments; Receivables, net; and Grants and donations were understated by \$150,155,052 and Pooled investments with State Treasury was overstated by \$150,155,052.
Recommendation	We recommend that FDEO management enhance financial reporting controls to ensure that UI benefit payments and corresponding amounts due from the Federal Government are recorded in the State's accounting records in the appropriate fiscal year.
State Entity Response	FDEO will enhance financial reporting controls to ensure that UI benefit payments and corresponding amounts due from the Federal Government are recorded in the State's accounting records in the appropriate period.

## SIGNIFICANT DEFICIENCY

## **NET RECEIVABLES**

Finding Number	2021-005
Opinion Unit	General Fund
Financial Statements Account Titles	Receivables, net; Unavailable revenue; Expenditures – General government
SW Fund Number	100000
State Entity	Florida Department of Revenue (FDOR)
OLO-GF-SF-FID	730000-74-1-000405
GL Codes	15200, 15700, 15900, 47300, 71171
Adjustment Amounts Statistically Valid Sample	\$1,882,764,020; \$123,117,830; \$1,838,501,643; \$15,819,637; \$151,560,570 N/A
Finding	The FDOR did not record the fiscal year-end net receivables or related unavailable revenue for sales and use taxes and fees estimated to be collected after July 31, 2021, or reverse the prior year unavailable revenue closing balance for sales and use taxes and fees.
Criteria	Governmental Accounting Standards Board Codification Section N50.118 specifies that resources received or recognized as a receivable before time requirements are met, but after all other eligibility requirements have been met, should be reported as a deferred inflow of resources by the recipient.
	The Florida Department of Financial Services, Statewide Financial Reporting Section (SFRS) <i>Statewide Financial Statements Guidance</i> (Guidance) required that taxes collected on behalf of the State or payable to the State on or before June 30, and received by July 31, be recorded as taxes receivable and tax revenue, net of estimated refunds, while taxes estimated to be collected after July 31 be recorded as unavailable revenue.
	FDOR Year End Closing and Financial Statement Process Procedures (Procedures) provided instructions for Office of Financial Management – Finance and Accounting (Office) staff to utilize when completing the FDOR FSA Statewide Financial Statement Checklist (Checklist).
Condition	The FDOR General Tax Administration (GTA) program was responsible for calculating and submitting taxes and fees receivable and related unavailable revenue amounts to the Office. The Office was responsible for preparing FDOR financial statement adjustments for submittal to the SFRS. FDOR Procedures followed by the Office included the completion of the Checklist that encompassed various financial statement closing and preparation steps.
	Our audit found that, while the GTA program timely calculated and submitted to the Office the sales and use taxes and fees receivable and related unavailable revenue amounts, the Office did not prepare and submit to the SFRS for inclusion in the State's financial statements the sales and use taxes and fees receivable and related unavailable revenue adjustment for amounts estimated to be collected after July 31, 2021. Additionally, in preparing financial statement adjustments for the 2020-21 fiscal year, the Office did not reverse the prior year unavailable revenue closing balance for sales and use taxes and fees.
Cause	According to FDOR management, Office staff turnover contributed to a lack of continuity of knowledge and experience. Additionally, FDOR management indicated that the financial statement closing and preparation Procedures and Checklist were being reviewed and updated to provide a more comprehensive review process to ensure that all adjustments are timely calculated and submitted to the SFRS.

Effect	Prior to audit adjustment, Receivables, net was understated by \$167,380,207, Unavailable revenue was understated by \$15,819,637, and Expenditures – General government was overstated by \$151,560,570.
Recommendation	We recommend that FDOR management enhance fiscal year-end reporting controls, including the financial statement closing and preparation Procedures and Checklist, to ensure that all adjustments are prepared and submitted to the SFRS.
State Entity Response	The FDOR agrees with this finding. We have formulated and implemented a corrective action plan (CAP) that addresses the above recommendation.

THIS PAGE INTENTIONALLY LEFT BLANK

#### Section III - Federal Awards Findings and Questioned Costs

Our audit findings with regard to compliance and internal controls over compliance with the requirements of major Federal awards programs are disclosed on the following pages. Where applicable and determinable, we have disclosed actual questioned costs where known or likely questioned costs exceeded \$25,000. To identify the nature and significance of each finding, we have identified each finding with one or more of the following designations:

- **Disclaimer of Opinion.** A finding that presents conditions where the auditor is unable to express an opinion on a compliance requirement for a major Federal program. A disclaimer would be appropriate when the auditor is not able to perform procedures sufficient to enable the auditor to form an opinion on compliance. This would include findings of inadequate records that resulted in restrictions being placed on the scope of the audit.
- **Opinion Qualification**. A finding presenting a condition that affects the auditor's ability to give an unqualified opinion on compliance. This would include findings of noncompliance with Federal statutes, regulations, or the terms and conditions of Federal awards related to a major Federal program, the effects of which are material to the major Federal program as a whole.
- **Noncompliance**. A finding presenting noncompliance with Federal statutes, regulations, or the terms and conditions of Federal awards related to a major Federal program caused by error or fraud, the effects of which are material in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Material Weakness**. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A material weakness is considered in relation to a type of compliance requirement identified in the OMB Compliance Supplement.
- **Significant Deficiency**. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A significant deficiency is considered in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Questioned Costs**. Costs that are questioned by the auditor because of an audit finding that reported: (a) a violation or possible violation of a statute, regulation, or the terms and conditions of a Federal award, including funds used to match Federal funds; (b) costs, at the time of the audit, which were not supported by adequate documentation; or, (c) costs incurred that appeared unreasonable and did not reflect the actions a prudent person would take in the circumstances.

As part of the audit process, our findings were provided to the applicable entities for management's response. The responses were prepared by entity management and are included within the audit findings as well as Management's Corrective Action Plan.

We have presented our findings, generally, by Federal grantor agency and in the order of the Assistance Listing Number assigned to each applicable Federal award program. Findings that pertain to multiple programs are generally presented as the first findings within the Federal grantor agency section. In some instances, a finding may pertain to programs provided by more than one Federal grantor agency. In such instances, the finding is presented within the section for the Federal grantor agency that provided the most funding for the applicable agency. An **Index of Federal Findings by Federal Agency and Compliance Requirement** is included to assist Federal grantor agencies in identifying applicable findings.

Finding Numbers 2021-006 through 2021-009 Not Used.

### U.S. DEPARTMENT OF AGRICULTURE

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-010</b> 10.129 Wildfires and Hurricanes Indemnity Program (WHIP) Plus
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Reporting Florida Division of Emergency Management (FDEM) FSA20GRA0010342 2020
Statistically Valid Sample Finding Type	N/A Opinion Qualification and Material Weakness
Finding	The FDEM did not report subaward information required by the Federal Funding Accountability and Transparency Act (FFATA) in the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS).
Criteria	2 CFR 170, Appendix A – <i>Reporting Subawards and Executive Compensation</i> – Unless otherwise exempt, you must report each action that equals or exceeds \$30,000 in Federal funds for a subaward to a non-Federal entity or Federal agency.
	For subaward information, reporting must occur no later than the end of the month following the month in which the obligation was made.
Condition	During the 2020-21 fiscal year, the FDEM disbursed \$103,203,667 in WHIP Plus funds to 962 subrecipients. Our inquiries of FDEM management disclosed that the FDEM did not report subaward information in the FSRS for any applicable WHIP Plus subawards.
Cause	According to FDEM management, the subaward information was not reported because the FDEM was not aware that it was required to be reported.
Effect	The FDEM cannot demonstrate that all required information was appropriately and timely reported in accordance with FFATA.
Recommendation	We recommend that FDEM management ensure that all applicable WHIP Plus subawards are appropriately and timely reported in the FSRS.
State Entity Response	FDEM is aware and does understand what the requirements are for reporting in the FSRS system. We are working through the interpretation differences between individual assistance vs. sub-recipients. FDEM concurs. FDEM has contracted vendor assistance to perform necessary Gap and Strength, Weakness, Opportunity, and Threat business process analysis as well as a recommendation for a business and system project plan and fix assessment for all FDEM front to end grant management processes. FDEM will work towards a systematic business solution. For clarification, the Federal Government already has this information. We are working with logistical issues to push the information into FSRS.

### U.S. DEPARTMENT OF AGRICULTURE

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-011 10.558 (Includes COVID-19 Awards) Child and Adult Care Food Program (CACFP)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, and Subrecipient Monitoring
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Health (FDOH) 5FL308350 2020, 5FL300340 2020, 5FL300350 2020 and 2021
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Management Information and Payment System (MIPS) need improvement to ensure the confidentiality, integrity, and availability of MIPS data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDOH uses MIPS to generate payment vouchers for CACFP providers and to provide management with data used to prepare Federal reports. Our audit disclosed that certain security controls related to MIPS user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising MIPS data and related IT resources. However, we have notified appropriate FDOH management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising MIPS data or related IT resources.
Effect	Appropriate user authentication controls for MIPS are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of MIPS data and related IT resources.
Recommendation	We recommend that FDOH management improve certain security controls related to MIPS user authentication to ensure the confidentiality, integrity, and availability of MIPS data and related IT resources.
State Entity Response	FDOH is currently working on the modernization of the MIPS application and the next version will use Microsoft Enterprise Mobility Suite.

### U.S. DEPARTMENT OF AGRICULTURE U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number Assistance Listing Number	<b>2021-012</b> 10.558 (Includes COVID-19 Awards) 93.940
Assistance Listing Program Title Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	Child and Adult Care Food Program (CACFP) and HIV Prevention Activities Health Department Based (HIV Prevention Program) Subrecipient Monitoring Florida Department of Health (FDOH) 5FL308350 2020, 5FL300340 2020, 5FL300350 2020 and 2021, 5 NU62PS924532-03 2020, and 5 NU62PS924532-04 2021 No Noncompliance and Significant Deficiency Report No. 2021-182, Finding No. 2020-049
Finding	The FDOH did not verify that all applicable subrecipients were audited, document the timely review of audit reports, or timely determine whether a management decision was required. In addition, the FDOH did not issue a management decision for one subrecipient.
Criteria	2 CFR 200.332 – <i>Requirements for pass-through entities</i> – All pass-through entities must verify that every subrecipient is audited as required by Subpart F – <i>Audit Requirements</i> when it is expected that the subrecipient's Federal awards expended during the respective fiscal year equaled or exceeded the threshold set forth in 2 CFR 200.501 – <i>Audit requirements</i> . The pass-through entity's monitoring of the subrecipient must include following up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award detected through audits. The pass-through entity is responsible for issuing a management decision for audit findings pertaining to the Federal award within 6 months of acceptance of the audit report by the Federal Audit Clearinghouse, in accordance with 2 CFR 200.521 – <i>Management decision</i> . 2 CFR 200.512 (a) – <i>Report Submission</i> . The audit must be completed and the data collection form and reporting package must be submitted within the earlier of 30 calendar days after receipt of the auditor's report(s), or 9 months after the
	end of the audit period. 2 CFR 200.521(c) – <i>Management decision</i> . As provided by 2 CFR 200.332(d), the pass-through entity is responsible for issuing a management decision for audit findings that relate to Federal awards it makes to subrecipients.
Condition	During the 2020-21 fiscal year, the FDOH provided approximately \$280 million in CACFP funds to 2,028 subrecipients and approximately \$10 million in HIV Prevention Program funds to 52 subrecipients. To determine which subrecipients are required to be audited, the FDOH analyzed expenditure data and utilized an electronic FDOH Initial Certification Form that required subrecipients to annually certify whether an audit was required. Upon receipt of an audit report, the FDOH was to review the report and complete an Audit Review Status Report form to document the review of the audit report. The FDOH documented on an audit tracking log the dates that audit reports were received, the dates that corrective actions were taken, and the dates that the FDOH determined that sufficient corrective actions had been taken to address audit findings.
	documentation for 60 subrecipients (50 CACFP and 10 HIV Prevention Program

	subrecipients) found that FDOH subrecipient audit procedures needed improvement. Specifically, our audit disclosed that:
	• FDOH procedures did not ensure that 11 subrecipients (10 CACFP and 1 HIV Prevention Program) provided the FDOH either a certification that an audit was not required or an audit report.
	• For another CACFP subrecipient, while the FDOH indicated that a certification had been obtained from the subrecipient, the FDOH was unable to provide the certification.
	Of the 28 audit reports provided by the subrecipients:
	<ul> <li>FDOH records for 13 audit reports did not include a completed Audit Review Status Report form evidencing review of the audit reports.</li> </ul>
	• The FDOH did not timely review 17 of the audit reports to allow management decisions to be issued within 6 months of the date that the audit report was accepted by the Federal Audit Clearinghouse. Specifically, the audit reports were reviewed 9 to 222 days past the 6-month deadline.
	In addition, we noted that FDOH procedures did not require management decision letters to clearly state whether an audit finding was sustained, the reasons for the decision, and the expected auditee corrective action for all audit findings related to Federal awards the FDOH made to subrecipients. As a result, for one subrecipient, the FDOH did not issue a management decision.
Cause	According to FDOH management, the FDOH did not verify that the subrecipients were audited and the subrecipient audits were not timely obtained and reviewed due to staffing issues and changes in the audit report review process. In addition, FDOH management indicated that management decision letters are only issued for audit reports containing a finding associated with questioned costs or when there is a corrective action plan that has not been accepted.
Effect	Absent verification that all applicable subrecipients were audited, the FDOH may not obtain the required audit reports to verify that all subrecipients complied with applicable Federal laws, regulations, and provisions of contracts and grant agreements. In addition, absent this verification and timely review of all required subrecipient audit reports, the FDOH may not ensure that any deficiencies noted during audit were appropriately followed up on or timely issue required management decisions.
Recommendation	We recommend that the FDOH take steps to verify that audit reports from all applicable subrecipients are timely obtained and reviewed to ensure that the subrecipients took timely and appropriate action to address all applicable deficiencies. We also recommend that the FDOH timely issue management decisions for all applicable audit findings.
State Entity Response	FDOH's Federal Compliance and Audit Management Unit will refine the FDOH Single Audit review process to ensure applicable subrecipients are audited and management decisions are performed timely.

### U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	2021-013 14.231 (Includes COVID-19 Awards) Emergency Solutions Grant Program Activities Allowed and Unallowed and Allowable Costs/Cost Principles Florida Department of Children and Families (FDCF) E-19-DC-12-0001 2019 No Noncompliance and Significant Deficiency Questioned Costs – \$10,507.46
Finding	FDCF records did not always support expenditures charged to the Emergency Solutions Grant Program (ESGP).
Criteria	2 CFR 200.403(g) – Factors affecting allowability of costs – Except where otherwise authorized by statute, costs must be adequately documented to be allowable under Federal awards.
Condition	For the 2020-21 fiscal year, the FDCF reported expenditures totaling \$28,082,604 for the ESGP. The FDCF entered into agreements with 28 providers to facilitate the development of the Continuum of Care (CoC) Plan and to further assist the local community through planning, coordinating, and monitoring the delivery of services to persons who are homeless or about to be homeless within the CoC service delivery area. The agreements required that summary reports showing the total payments made and detailed documentation, including lease agreements or statements from landlords, letters from utility companies stating arrears or deposit requirements, and proof of payments, be submitted to the FDCF for reimbursement. Our review of FDCF records for 40 ESGP expenditures, totaling \$1,466,268.68, disclosed that FDCF records did not include detailed documentation supporting a \$10,507.46 expenditure.
Cause	FDCF management indicated that documentation was not available due to staff transition.
Effect	Absent appropriate supporting documentation, expenditures may be subject to disallowance by the United States Department of Housing and Urban Development.
Recommendation	We recommend that the FDCF enhance controls to ensure that all ESGP expenditures are supported by adequate documentation.
State Entity Response	Regarding Emergency Solutions Grant Program (ESGP) expenditures that did not include appropriate supporting documentation, the Department concurs. Prior to the audit review of the ESGP, the Department implemented process improvements to include the following:
	Centralized the Homelessness Contract Managers to Headquarters under one supervisor in April 2021.
	• Required the use of a unified contract file as a central repository for all contract files (and supporting documentation) in July 2021, with all contract file migrations completed in November 2021.
	Effective with the centralization of the Homelessness Contract Managers, all Homelessness Contract Managers have the same contract administrator who monitors compliance with the annual contract file review process. These measures ensure ESGP expenditures have appropriate supporting documentation.

Finding Number Assistance Listing Number Assistance Listing Program	<b>2021-014</b> 17.225 (Includes COVID-19 Awards) 17.258, 17.259, and 17.278 <b>Unemployment Insurance (UI) and Workforce Innovation and Opportunity</b>
Title Compliance Requirement	Act (WIOA) Cluster Activities Allowed or Unallowed, Matching, Level of Effort, Earmarking, and Reporting
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Economic Opportunity (FDEO) UI-32833-19-60-A-12 2019, UI-34490-20-60-A-12 2020, AA-30737-17-55-A-12 2017, AA-32210-18-55-A-12 2018, AA-33223-19-55-A-12 2019, AA-34762-20- 55-A-12 2020, and AA-36313-21-55-A-12 2021
Statistically Valid Sample Finding Type	No Significant Deficiency
Finding	The FDEO did not always timely deactivate the Subrecipient Enterprise Resource Application (SERA) user accounts assigned to employees who separated from FDEO employment.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1)(a)8., Florida Administrative Code – State agencies are required to ensure information technology (IT) access privileges are removed when access to an IT resource is no longer required. Prompt action is necessary to ensure that the access privileges are not misused by former employees, former contractors, or others to compromise data or IT resources.
Condition	The FDEO uses SERA to manage, compile, and report financial and programmatic data required by Federal grantor agencies. Our review of SERA user access records for 11 SERA users who separated from FDEO employment during the 2020-21 fiscal year disclosed that the FDEO did not timely deactivate the access privileges for 6 of the SERA users. Specifically, the users' access privileges were deactivated 3 to 72 business days (an average of 30 business days) after the users separated from FDEO employment. Notwithstanding the untimely deactivation of access privileges, our audit tests disclosed that none of the 6 user accounts were used to access SERA subsequent to the users' employment separation dates.
Cause	FDEO management indicated that delays in deactivating the users' access privileges were due to requests not being immediately submitted to a SERA administrator upon the users' separation from FDEO employment.
Effect	Timely deactivation of IT user access privileges limits the potential for unauthorized disclosure, modification, or destruction of FDEO data and IT resources by former employees or others.
Recommendation	We recommend that FDEO management enhance controls to ensure that SERA user access privileges are deactivated immediately upon a user's separation from FDEO employment.
State Entity Response	This finding has been fully corrected. The Department updated its procedures to ensure that SERA administrators will be notified of employee separations when they occur to allow for immediate termination of access.

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement	2021-015 17.225 (Includes COVID-19 Awards) 17.258, 17.259, and 17.278 Unemployment Insurance (UI) and Workforce Innovation and Opportunity Act (WIOA) Cluster Activities Allowed or Unallowed, Matching, Level of Effort, Earmarking, and

Finding	Certain security controls related to user authentication for the Subrecipient Enterprise Resource Application (SERA) need improvement to ensure the confidentiality, integrity, and availability of SERA data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDEO uses SERA to manage, compile, and report financial and programmatic data required by Federal grantor agencies. Our audit disclosed that certain security controls related to SERA user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising SERA data and related IT resources. However, we have notified appropriate FDEO management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising SERA data or related IT resources.
Effect	Appropriate user authentication controls for SERA are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of SERA data and related IT resources.
Recommendation	We recommend that FDEO management improve certain security controls related to SERA user authentication to ensure the confidentiality, integrity, and availability of SERA data and related IT resources.
State Entity Response	This finding has been fully corrected. In February 2022, the Department enhanced user authentication controls which have been implemented in Subrecipient Enterprise Resource Application (SERA) to address this finding. The Department will disclose additional information upon request to protect the confidential nature of SERA data or related IT resources.

Finding Number Assistance Listing Number	<b>2021-016</b> 17.225 (Includes COVID-19 Awards) 17,258, 17.259, and 17.278
Assistance Listing Program Title	Unemployment Insurance (UI) and Workforce Innovation and Opportunity Act (WIOA) Cluster
Compliance Requirement	Reporting and Special Tests and Provisions - UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA)

Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Employ Florida (EF) system need improvement to ensure the confidentiality, integrity, and availability of EF system data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDEO uses the EF system for case management and for the referral of UI claimants to local workforce boards for reemployment assistance services. Our audit disclosed that certain security controls related to EF system user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising EF system data and related IT resources. However, we have notified appropriate FDEO management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising EF system data or related IT resources.
Effect	Appropriate user authentication controls for the EF system are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of EF system data and related IT resources.
Recommendation	We recommend that FDEO management improve certain security controls related to EF system user authentication to ensure the confidentiality, integrity, and availability of EF system and related IT resources.
State Entity Response	This finding was fully corrected in February 2022. The Department has updated the internal controls related to granting access and privileges to the Employ Florida system. The Internal Security Unit (ISU) now routes all requests to the Bureau of One-Stop and Program Support (OSPS) for review prior to granting access. OSPS will review all new staff accounts or modifications to staff privileges (both internal and external) and upon approval, will send the recommendation to the ISU for what access and roles are approved. This will allow the program area to better control who has access to certain high-risk areas of Employ Florida and in turn, provide greater data integrity to the system. Additionally, the Department has initiated the enterprise Identity and Access Management (IAM) project for all Department applications and will prioritize the Employ Florida system to be the addressed early in the project.

Finding Number Assistance Listing Number	<b>2021-017</b> 17.225 (Includes COVID-19 Awards)
Assistance Listing Program Title	17,258, 17.259, and 17.278 Unemployment Insurance (UI) and Workforce Innovation and Opportunity Act (WIOA) Cluster
Compliance Requirement	Reporting and Special Tests and Provisions - UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA)
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Economic Opportunity (FDEO) UI-32833-19-60-A-12 2019, UI-34490-20-60-A-12 2020, , AA-30737-17-55-A-12 2017, AA-32210-18-55-A-12 2018, AA-33223-19-55-A-12 2019, AA-34762-20- 55-A-12 2020, and AA-36313-21-55-A-12 2021
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	The FDEO did not complete the July through December 2020 Employ Florida (EF) system user access privilege review or always timely deactivate EF system user accounts for employees who separated from FDEO employment.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk and ensure that information technology (IT) access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FDEO uses the EF system for case management and for the referral of UI claimants to local workforce boards for reemployment assistance services. To obtain an understanding of FDEO user access privilege review processes for the EF system, we inquired of FDEO management who indicated that, for the semiannual user access review conducted for the period July through December 2020, the FDEO did not follow up with supervisors who did not respond to the review request. Consequently, FDEO records did not evidence a complete periodic review of EF system user access privileges.
	In addition, our review of EF system user access records for ten EF system users whose access privileges were deactivated during the 2020-21 fiscal year disclosed that the FDEO did not timely deactivate the access privileges for four of the EF system users. Specifically, the users' access privileges were deactivated 8 to 36 business days (an average of 23 business days) after the users separated from FDEO employment. Notwithstanding the untimely deactivation of access privileges, our audit tests disclosed that none of the four user accounts were used to access the EF system subsequent to the users' separation dates.
Cause	FDEO management indicated that, due to an increased workload and limited resources caused by COVID-19, the FDEO was unable to follow-up with supervisors who did not respond to the user access review request. In addition, FDEO management indicated that the untimely deactivation of EF system access privileges was due to supervisors not submitting the required forms to request the deactivation of EF system access for those employees.
Effect	Periodic reviews of IT user access privileges and prompt deactivation of user access privileges upon an employee's separation from FDEO employment

provides FDEO management assurance that user access privileges are authorized and remain appropriate. Additionally, timely deactivation of IT user access privileges limits the potential for unauthorized disclosure, modification, or destruction of FDEO data and IT resources by former employees or others.

- **Recommendation** We recommend that FDEO management ensure that periodic reviews of EF system user access privileges are adequately performed and documented in FDEO records. We also recommend that FDEO management enhance controls to ensure that EF system user access privileges are deactivated immediately upon a user's separation from FDEO employment.
- State Entity Response The Department concurs with the finding; however, progress has been made. The Department is developing an electronic checklist to be completed in April 2022. The checklist will be audited on a quarterly basis to review the Employ Florida system access and privileges beginning with tasks completed in FY 21-22, quarter 3. Division leadership will be included in the process workflow to ensure local workforce development board leadership accountability. In addition, the Department will provide training to all Employ Florida Admin users to ensure they understand the expectations of timely deactivation of users accounts upon separation from the Department or a Local Workforce Development Board. The training module will be completed in June 2022 and will be incorporated in onboarding and provided online to all local workforce development board and state admin users. Additionally, the Department has initiated the enterprise Identity and Access Management (IAM) project for all agency applications and will prioritize the Employ Florida system to be the addressed early in the project.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-018 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)

Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	N/A Significant Deficiency Report No. 2021-182, Finding No. 2020-008
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 1 that the FDEO continued to lack processes and procedures for identifying, analyzing, and correcting technical system errors and other Reemployment Assistance Claims and Benefits Information System (RA System) defects that prevent or hinder the processing of RA System data. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Application controls include processes established to prevent or minimize interruption to critical systems and ensure system availability. Effective application controls include a process for gathering information on system defects, including technical system errors and processing exceptions, and performing root cause analysis of potential underlying system defects to facilitate the timely adjustment of procedures and automated controls to prevent future technical system errors and processing exceptions. Analyzing technical system errors and processing exceptions is crucial to determining the number of errors and exceptions, types of errors and exceptions, and trends to facilitate the correction of system defects.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	As part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined FDEO records to evaluate FDEO processes for identifying, analyzing, and correcting technical system errors and other RA System defects. Our IT operational audit disclosed that the RA System has experienced technical system errors and other defects as far back as 2014 and, as of September 11, 2020, there were 742 outstanding defect tickets related to technical system errors and other RA System defects that at times prevented RA claimants from either logging on to the system, successfully submitting RA claims, or receiving accurate payments. While the FDEO recorded the issues in defect tickets, the FDEO still had not established procedures to analyze the defect tickets and gain an understanding of error frequency, error spike rates, shared commonalities, potential aggregate criticality, or total number of users affected.

According to FDEO management, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by September 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year. Cause The FDEO purchased a performance monitoring tool in July 2020 to monitor application performance and facilitate analyses of RA System errors, including application mapping, dynamic baselining, and program code-level diagnostics. According to FDEO management, while configuration of the performance monitoring tool was completed in September 2020 and FDEO staff were using the tool to identify RA System errors, implementation of the tool was still in progress and procedures for using the tool had not been developed due to other priorities. Effect Identifying, analyzing, and correcting technical system errors and other RA System defects would ensure that technical system errors and other defects are timely resolved, the RA System is available, and processing is not hindered. Recommendation We recommend that FDEO management establish documented processes and procedures for identifying, analyzing, and correcting technical system errors and other RA System defects. The Department concurs with the finding; however, progress has been made. In **State Entity Response** April 2021, all training and implementation tasks of the Department's application performance monitoring tool were completed. This tool, along with other application logging tools, is used by developers and operations staff to monitor and analyze code performance of the Reemployment Assistance Claims and Benefits Information System. Additionally, in February 2022, the Department implemented the "Reemployment Assistance Work Effort Priority, Release, and Deployment Process," which establishes procedures for identifying, analyzing, prioritizing, and correcting technical system errors and defects for continuous modernization. In July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. Technical system errors and defects related to application edit checks will be resolved through the Reemployment Assistance Help Center, Incremental Experience/User Experience Mobile-Responsive Customer Software Transformation, and Rules Engine projects. Errors and defects related to business rule implementation will be resolved through the Business Process Optimization and Rules Engine projects. Errors and defects related to system load capacity and batch processing will be resolved through the Cloud Migration and Data Warehouse projects. Application design documentation and development processes will be resolved through the System Development Lifecycle (SDLC) - DevOps project. The Department anticipates these projects will be completed in June 2023.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-019</b> 17.225 (Includes COVID-19 Awards) <b>Unemployment Insurance (UI)</b>
Compliance Requirement	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA) Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type Prior Year Finding	Significant Deficiency Report No. 2021-182, Finding No. 2020-009
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 2 that Reemployment Assistance Claims and Benefits Information System (RA System) application edits for postmark dates and related date sequencing continue to need improvement. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Effective application controls include edits to reasonably ensure that data is valid and recorded in the proper format and include field format controls, required field controls, limit and reasonableness controls, valid combination of related data field values, and master file matching.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	As part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined FDEO records to evaluate the adequacy of application edits over received and postmark dates and related date sequencing in the RA System. Our examination of defect tickets and related documentation found that, while the FDEO had made progress in correcting many of the identified date errors, on March 13, 2020, the FDEO identified another date sequencing error that would allow a user to enter a future date in the <i>Date Postmarked</i> field. According to FDEO management, due to the COVID-19 pandemic and the implementation of new Federal programs, the FDEO prioritized other items for corrective action. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	According to FDEO management, while a new defect ticket had been created to correct the date sequencing error, work to correct the defect had not begun because of other priorities in response to the COVID-19 pandemic.
Effect	Absent adequate RA System application edits, the risk is increased that the appropriateness of claims, benefit payments, and employer chargeability may be compromised, and benefit payments and employer charges may be based on incorrect information.

**Recommendation** We recommend that FDEO management continue to improve application edits to ensure the accuracy and integrity of postmark dates and related date sequencing in the RA System.

State Entity Response The Department concurs with the finding; however, progress has been made. In July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. Technical system errors and defects related to application edit checks will be resolved through the Incremental Customer Experience/User Experience Mobile-Responsive Software Transformation (CX/UX) project, which also includes the Business Process Optimization (BPO) project.

BPO will reengineer business processes to promote efficiency and accuracy and develop technical requirements for the CX/UX project. In February 2022, the Department held the first of several BPO workshops to identify and analyze existing business processes and technical requirements. These workshops will be conducted through August 2022 and target state business processes and technical requirements are anticipated to be completed as follows: Core Claims and Claim Status by May 2022, Continued Claims by May 2022, Employers and Third-Party Administrators by July 2022, Initial Claims by July 2022, and all other requirements by August 2022.

The Department anticipates implementing the CX/UX project in four phases, which are anticipated to be completed as follows: Core Claims and Claim Status by March 2023, Continued Claims by April 2023, Employers and Third-Party Administrators by May 2023, and Initial Claims by June 2023. These projects are anticipated to be completed in June 2023.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-020 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)

Number and Grant Year Statistically Valid Sample	N/A
Finding Type	N/A Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-010
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 3 that procedures for document intake, indexing, and tracking processes continue to need improvement to ensure that all documents received for processing in the Reemployment Assistance Claims and Benefits Information System (RA System) are timely and accurately indexed to the appropriate claimant, claim, and claim issue. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Effective input controls include procedures that provide reasonable assurance that all inputs into the application have been authorized, accepted for processing, and accounted for and any missing or unaccounted for source documents or input files have been identified and investigated. As part of the claimant application process, claimants, employers, and third parties may be required to submit certain documents and information to the FDEO or respond to fact-finding documents issued by the FDEO. Response due dates are determined by the RA System or FDEO staff based on the document type. For appropriate processing, documents and information received by the FDEO should be timely linked (indexed) to the appropriate claimant, claim, and claim issue to avoid unnecessary delays or cause the system to inappropriately process a claim or claim issue without consideration of documentation received but not yet indexed or processed.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	As part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined FDEO records to evaluate the adequacy of RA System document intake and indexing processes. Our inquiries found that the FDEO lacked procedures that provide reasonable assurance that all received documents are timely and accurately indexed to the appropriate claimant, claim, and claim issue, including procedures for reconciling documents received through the intake mail and fax process to documents indexed to the claimant, claim, and claim issue in the RA System. We also noted that documents received by the

	FDEO missing the information necessary for proper indexing were saved for future investigation but were ultimately purged after 30 days of unsuccessful research, and that the lack of procedures prevented the FDEO from demonstrating that appropriate research efforts were conducted prior to purging the documents. According to FDEO management, although the FDEO had implemented staff training to remedy some of the procedural issues noted, this finding had not been corrected as of June 2021. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	FDEO management indicated that a myriad of indexing issues continued because of a defect in the RA System core component program code and limitations in the functionality of the barcode reading software. Additionally, over time, the FDEO has lost key staff with institutional knowledge of the RA System core component program code, further limiting management's ability to correct the processing defects.
Effect	The lack of adequate procedures for document intake, indexing, and tracking processes, and the limitations of the RA System and barcode reading software, limit FDEO management's assurance that all documents received for processing in the RA System are investigated and timely and accurately indexed to the appropriate claimant, claim, and claim issue. Such limitations also increase the risk of inaccurate claim determinations that may result in erroneous benefit payments and employer charges.
Recommendation	We recommend that FDEO management improve procedures for document intake, indexing, and tracking processes and improve RA System barcode reading software functionality to ensure that all documents received for processing in the RA System are timely and accurately indexed to the appropriate claimant, claim, and claim issue.
State Entity Response	The Department concurs with the finding; however, progress has been made. The Department implemented new scanning and indexing technology in September 2020 and is updating the Department's Standard Operating Procedures (SOP) for scanning and indexing to include confirming receipt, research, and appropriate placement of the document before being purged through the Reemployment Assistance Modernization Program's Business Process Optimization project. The Department has also implementing the SOP in December 2022. The Department has also implemented new processes for individuals providing documents through the Reemployment Assistance Modernization's Reemployment Assistance Help Center project. Through the Reemployment Assistance Help Center, individuals can provide documentation that will be stored and linked to their user account through a secure interface. Further improvements to document intake, indexing, and tracking will be made through the Reemployment Assistance Modernization Program's Incremental Customer Experience/User Experience Mobile-Responsive Software Transformation project. These projects are anticipated to be completed in June 2023.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-021</b> 17.225 (Includes COVID-19 Awards) <b>Unemployment Insurance (UI)</b>
Compliance Requirement	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA)
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Economic Opportunity (FDEO) Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-011
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 4 that Reemployment Assistance Claims and Benefits Information System (RA System) processes related to system-generated claim issues continue to need improvement to ensure that claims are accurately and timely processed. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Transaction data processing controls include processes to ensure the completeness, accuracy, and validity of data as the data is processed within the application. The RA System was designed to automatically generate issues for a claim during claims processing based on predefined parameters, and FDEO staff were responsible for resolving the identified claim issues to avoid a delay in eligibility determinations and benefit payments.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	As part of our IT operational audit, we evaluated the adequacy of RA System generation of claim issues controls and found that, while processing errors (e.g., system-generated claim issues were not generated, were not generated at the appropriate point in the claims process, or were generated when a claim issue was unnecessary) were identified as early as December 2014 and the FDEO had researched the processing errors for 6 years, an adequate solution had not been identified. According to FDEO management, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by June 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	FDEO management indicated that the processing errors were believed to be due to an RA System processing defect. FDEO management further indicated that, prior to correcting the claims processing errors, additional analysis was required to identify and resolve the root cause of the processing errors. While FDEO management planned to create a historical database table to record the claim

	processing errors to aid in resolution, due to COVID-19 pandemic priorities, creation of the historical database table was postponed.
Effect	The appropriate generation of claim issues by the RA System would promote data completeness, accuracy, and validity and provide assurance that determination decisions are based on correct data and claims will be accurately and timely processed.
Recommendation	We recommend that FDEO management continue efforts to identify and correct RA System processes related to the appropriate generation of claim issues to ensure that claims are accurately and timely processed.
State Entity Response	The Department concurs with the finding; however, progress has been made. The Department acknowledges there was a temporary postponement in creating a historical database table. However, the Department resumed addressing this finding in May 2020 by implementing a new application performance monitoring tool that identifies and documents system-generated issues. The Department corrected system-generated errors in October 2020, December 2020, February 2021, and April 2021 and will continue to document system-generated errors and evaluate necessary changes and procedures through the Reemployment Assistance Work Effort Priority, Release, and Deployment Process. The Reemployment Assistance Modernization Program's Incremental Customer Experience/User Experience Mobile-Responsive Software Transformation project will implement application edit checks to ensure that complete and accurate data are entered in the system, minimizing the creation of incorrect claim issues. These projects are anticipated to be completed in June 2023.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-022</b> 17.225 (Includes COVID-19 Awards) <b>Unemployment Insurance (UI)</b>
Compliance Requirement	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA)
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Economic Opportunity (FDEO) Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-012
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 5 that Reemployment Assistance Claims and Benefits Information System (RA System) processes related to the creation and distribution of claimant and employer claim notices continue to need improvement to ensure claim notices are timely distributed. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Effective application processing controls include controls for ensuring that data is processed completely and accurately and retains its validity during processing with minimal manual intervention.
	Section 443.151(2)(a), Florida Statutes – The FDEO must notify claimants and employers regarding monetary and nonmonetary determinations of eligibility.
	Section 443.151(3)(a), Florida Statutes – The FDEO shall promptly provide a notice of claim to the claimant's most recent employing unit and all employers whose employment records are liable for benefits under the monetary determination. The employer must respond to the notice of claim within 14 days after the mailing date of the notice, or in lieu of mailing, within 14 days after delivery of the notice. If a contributing employer or its agent fails to timely or adequately respond to the notice of claim or request for information, the employer's account may not be relieved of benefit charges.
	Section 443.151(5), Florida Statutes – The FDEO shall notify each employer who is liable for reimbursements in lieu of contributions for payment of the benefits at the address on file with the FDEO or its tax collection service provider, of the initial determination of the claim and must be given 10 days to respond. A contributing employer who responds within the allotted time limit may not be charged for benefits paid under an erroneous determination if the decision is ultimately reversed.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the

2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.

As part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined FDEO records to evaluate the adequacy of RA System application processing controls related to the distribution of claim notices. While our audit procedures found that the FDEO had taken corrective action for a prior Fraud Initiative Rules and Rating Engine processing defect, other defects were not resolved because the necessary RA System corrections were significant and could negatively impact other RA System processes, including claims processing. The defects requiring improvement related to updating the status of resolved claim issues during nightly processing after a determination or redetermination was recorded so claimant and employer claim notices would be timely created and distributed and timely creating and distributing employer claim notices for claims determined to be monetarily eligible. According to FDEO management, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by June 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal vear. According to FDEO management, while these defects had not been resolved and continued to intermittently occur, manual processes using scripts and reports had been implemented to help identify these claim notice defects. Without appropriate application processing controls over the creation and timely distribution of claimant and employer claim notices, the FDEO cannot demonstrate compliance with State law and the risk is increased that claimants and employers may be denied due process or determination decisions may be made based on incorrect data, causing benefit payments and employer charges to be inappropriately processed. Recommendation We recommend that FDEO management continue efforts to correct RA System defects related to the creation and distribution of claimant and employer claim notices. **State Entity Response** The Department concurs with the finding; however, progress has been made. As of March 2022, the Department's nightly batch processing is running on schedule

to timely distribute claimant and employer claim notices. In May 2021, the Department developed an alert system to notify staff of deviations in the nightly batch schedule. In July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. The Reemployment Assistance Modernization Program's Cloud Migration project will reduce load on the existing system and create capacity for routine processes, such as batch processing. As part of the Reemployment Assistance Modernization Program, the System Development Lifecycle (SDLC) DevOps project will assist with resolution by optimizing and prioritizing batch processes. The Department has onboarded a technical writer to update and complete system documentation. These projects are anticipated to be completed in June 2023.

Cause

Effect

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-023</b> 17.225 (Includes COVID-19 Awards) <b>Unemployment Insurance (UI)</b>
Compliance Requirement	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA) Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-013
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 6 that processing defects related to claimant benefit payments, claimant overpayments, and employer charges still exist in the Reemployment Assistance Claims and Benefits Information System (RA System). As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Automated application controls promote the consistent treatment of data and help ensure that data processing consistently adheres to management's intention and requirements. Information systems process groups of identical transactions similarly; therefore, any inaccuracies arising from erroneous computer programming or design will occur consistently in similar transactions.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	To evaluate the adequacy of RA System application processing controls in preventing overpayments and erroneous charges, as part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined FDEO records. Our examination of FDEO defect tickets found that the FDEO opened a high priority defect ticket for a defect detected on March 13, 2015, related to the creation of an uncollectable claimant overpayment. This defect erroneously increases the claimant's available balance by the amount of the overpayment, permitting the claimant to collect the amount of the overpayment, permitting the claimant to collect the amount of the overpayment twice. While the defect ticket has been intermittently worked on since March 2015, and the severity level was changed to severe in February 2018, the last action taken was in April 2019, and the defect ticket remained open (in process) as of January 2021. Additionally, we noted other defect tickets for erroneous employer charges caused by claimant overpayments that were created in 2018 and remained unresolved as of January 2021. Although we inquired, FDEO management was unable to provide records demonstrating the monetary impact of the overpayment defect and the related employer charge errors. According to FDEO management, the FDEO had not corrected the

identified deficiencies and estimated that corrective action would be implemented by June 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.

- Cause According to FDEO management, while processes and reports existed to help identify and manually correct claimant overpayments and erroneous employer charges, processing defects in the RA System continue to cause errors, resulting in inaccurate claimant benefit payments and employer charges. FDEO management further indicated that, due to the large-scale effort and extensive changes necessary to the RA System core component program code to resolve these defects, changes had not been implemented and a resolution date had not been determined.
- **Effect** Effective system controls that promote the consistent and accurate processing of data would prevent inaccurate claimant benefit payments and erroneous employer charges that may affect the integrity of RA System data.
- **Recommendation** We recommend that FDEO management correct the RA System processing defects related to claimant benefit payments, claimant overpayments, and employer charges.
- The Department concurs with the finding; however, progress has been made. In State Entity Response July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. Technical system errors and defects related to application edit checks will be resolved through the Incremental Customer Experience/User Experience Mobile-Responsive Software Transformation (CX/UX) project, which also includes the Business Process Optimization (BPO) project. BPO will reengineer business processes to promote efficiency and accuracy and develop technical requirements for the CX/UX project. In February 2022, the Department held the first of several BPO workshops to identify and analyze existing business processes and technical requirements. These workshops will be conducted through August 2022 and target state business processes and technical requirements are anticipated to be completed as follows: Core Claims and Claim Status by May 2022, Continued Claims by May 2022, Employers and Third-Party Administrators by July 2022, Initial Claims by July 2022, and all other processes by August 2022.

The Department anticipates implementing the CX/UX project in four phases, which are anticipated to be completed as follows: Core Claims and Claim Status by March 2023, Continued Claims by April 2023, Employers and Third-Party Administrators by May 2023, and Initial Claims by June 2023.

Application design documentation and development processes will be resolved through the System Development Lifecycle (SDLC) - DevOps project. The Department anticipates these projects will be completed in June 2023. Additionally, the Department has implemented the "Reemployment Assistance Work Effort Priority, Release, and Deployment Process," which establishes procedures for identifying, analyzing, prioritizing, and correcting technical system errors and defects for continuous modernization. The Department anticipates developing requirements to address any remaining components of this finding beginning in July 2023 against the newly implemented business processes and modernized Reemployment Assistance Claims and Benefits Information System.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-024</b> 17.225 (Includes COVID-19 Awards) <b>Unemployment Insurance (UI)</b>
Compliance Requirement State Entity Federal Grant/Contract	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA) Florida Department of Economic Opportunity (FDEO) Various
Number and Grant Year	N/A
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-014
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 7 that language translations for Reemployment Assistance Claims and Benefits Information System (RA System) claimant communications continue to need improvement. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Effective application output controls ensure effective and timely distribution of correspondence from the system, including providing accurate and sufficient information to system users to facilitate timely and effective communication.
	Section 443.151(8)(a) and (c), Florida Statutes – The FDEO is to provide printed bilingual instructional and educational materials in the appropriate language in those counties in which 5 percent or more of the households in the county are classified as a single-language minority and develop estimates of the percentages of single-language minority households for each county by using data from the United States Bureau of the Census (Census Bureau).
	Based on the Census Bureau's 2014 American Community Survey, the FDEO identified Spanish and Haitian Creole as the primary languages spoken by Limited English Proficiency (LEP) individuals residing in the State. The FDEO also determined that Spanish and Haitian Creole were the two significant languages spoken by LEP individuals accessing reemployment services and, as such, the FDEO's LEP Plan specified that the entire RA System was to be available in Spanish and Haitian Creole.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	As part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined the RA System program code changes implemented to correct the language translation errors on forms and claimant documents and the RA System error messages and found that, while the FDEO had corrected the previously identified RA System language translation errors and error messages, certain RA System claimant screens and the <i>Notice of Hearing</i> document were

Cause	not translated to the claimant's primary language of Spanish or Haitian Creole as required by State law and the LEP Plan. According to FDEO management, while the FDEO had initiated a multi-phase project to correct the identified deficiencies, corrective action had not been implemented due to the COVID-19 pandemic and the completion of other priorities. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year. FDEO management indicated that, while the claimant screens and the <i>Notice of Hearing</i> document had not been translated when the RA System was initially designed, a defect ticket was established to accumulate, and later group into multiple work units, a list of all claimant screens that potentially needed to be translated into Spanish or Haitian Creole and another defect ticket was established to address translating the <i>Notice of Hearing</i> document. Although the defect tickets had been established, the defect tickets were pending assignment
Effect	to a programmer due to COVID-19 pandemic priorities. Without accurate bilingual claimant communications as required by State law and the LEP Plan, language barriers may exist that limit claimant access to reemployment assistance benefits.
Recommendation	We recommend that FDEO management continue to improve language translation for RA System claimant communications to ensure compliance with State law and the LEP Plan.
State Entity Response	The Department concurs with the finding; however, progress has been made. The Department is prioritizing the improvement of language translations within the Reemployment Assistance Claims and Benefits Information System. As the Department continues to address and correct this finding, it is actively providing alternate pathways to assist Limited English Proficient (LEP) speaking claimants. The Department previously initiated a multi-phased project to address this issue. Phase one, relating to monetary determination correspondence, was completed January 2020. Phase two, Claimant-Facing Screens, will be resolved during the Reemployment Assistance Modernization Program's Incremental Customer Experience/User Experience Mobile-Response Software Transformation Project, which is anticipated to be complete in June 2023. Phase three, Appeals Notice of Hearing correspondence, is in progress. To date, tickets for phase three have been logged, requirements for each correspondence notice are being defined and translated, and phase three is anticipated to be complete by June 2023. During the implementation of phases two and three, the Department will log tickets and begin developing requirements for phase four, which relates to non-monetary determination correspondence. Following the implementation of phases two and three, the Department will begin implement will be complete by June 2023, the Department will begin implementation of phase four.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-025 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA)
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Economic Opportunity (FDEO) Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-015
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 9 that FDEO password controls for RA System claimants continue to need improvement to ensure the confidentiality, integrity, and availability of Reemployment Assistance Claims and Benefits Information System (RA System) data and related IT resources. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Effective IT security controls include mechanisms, such as personal passwords, for authenticating a user's identity to the system. To reduce the risk of compromise, the confidentiality of a password is more effectively protected by requiring passwords to be at least eight characters in length and include the complexity of alphanumeric and special characters.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	As part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined RA System claimant logon screens and related documentation to evaluate the adequacy of password length and complexity requirements for claimants in the RA System. We found that the RA System allowed claimants to use a four-digit numeric password (PIN) to authenticate to the RA System. As such, the RA System password settings did not require a minimum password length of eight characters or enforce complexity requirements, such as the use of upper or lower-case letters or special characters, to help prevent the password from being easily guessed. According to FDEO management, while the FDEO was working to establish a new authentication method for the RA System, FDEO management estimated that corrective action would not be implemented until September 2021. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.

Cause	According to FDEO management, to facilitate claims filing, the FDEO made a business decision when the RA System was designed to allow claimants to use a four-digit PIN to authenticate to the RA System.
Effect	The use of passwords of at least eight characters that include the complexity requirements of alphanumeric and special characters reduces the possibility that an unauthorized individual may inappropriately gain access to the RA System and compromise the confidentiality, integrity, and availability of RA System data and related IT resources.
Recommendation	We recommend that FDEO management establish adequate password length and complexity requirements for RA System claimants to ensure the confidentiality, integrity, and availability of RA System data and related IT resources.
State Entity Response	This finding has been fully corrected. As of September 2021, the Department implemented Multi-Factor Authentication (MFA) for external users in order to ensure the confidentiality and integrity of the Reemployment Assistance Claims and Benefits Information System as part of the Reemployment Assistance Modernization Program's Identity Management and User Authentication project.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-026 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA) <b>Florida Department of Economic Opportunity (FDEO)</b> Various
Statistically Valid Sample Finding Type Prior Year Finding	No Significant Deficiency Report No. 2021-182, Finding No. 2020-016
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 10 that FDEO change management controls continue to need improvement to ensure that only authorized, tested, and approved Reemployment Assistance Claims and Benefits Information System (RA System) program code and data changes are implemented into the production environment. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Effective change management controls are intended to ensure that all program code and data changes are properly authorized, tested, and approved for implementation into the production environment. Change management controls also promote the accuracy of data changes made in the production environment. Effective change management controls ensure that the established change management process is followed when program code and data changes are implemented into the production environment and that only approved changes are implemented into the production environment.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	To evaluate the appropriateness of FDEO change management controls for program code and data changes implemented into the RA System production environment, as part of our IT operational audit, we requested a system-generated list of the program code changes implemented into the production environment during the period July 1, 2019, through May 22, 2020, and the data changes implemented into the production environment during the period July 2019 through June 2020. However, the FDEO was unable to provide system-generated lists of the implemented program code and data changes. Instead, for the program code changes, the FDEO provided a list of the RA System program change tickets from the ticketing system with a status of either closed or implemented into production during the period July 1, 2019, through May 22, 2020, and for the RA System data changes, a list of the data change tickets from the ticketing system or implemented into

production during the period July 2019 through June 2020. Although the FDEO used a change management system for managing program code and data changes, the FDEO had not established controls, such as the use of a reconciliation process, to ensure that all program code and data changes implemented into the production environment followed the FDEO's change management process.

While the ticketing system lists provided may not have included all the program code and data changes implemented into the RA System production environment during the period July 1, 2019, through May 22, 2020, the lists included 170 program change tickets and 1,592 data change tickets. We selected 23 of the program change tickets and 35 of the data change tickets and examined available FDEO records supporting the tickets and the respective program and data changes.

For each of the 23 program change tickets selected for audit, we requested documentation evidencing that the ticket was authorized and the program code changes to address the ticket were tested by the programmer and user, approved to be implemented into the production environment, and implemented into the production environment by someone other than the programmer who made the changes. Our examination found that FDEO records did not:

- Demonstrate programmer testing sign off for the program code changes for 22 tickets.
- Demonstrate user testing sign off for the program code changes for 10 tickets.
- Demonstrate that program code changes for 20 tickets were approved for implementation.
- Identify for each program change addressed by the 23 tickets that an appropriate separation of duties existed between the programmer and implementor of each program change.

Eight of the 23 program change tickets tested were for significant COVID-19 pandemic-related program changes to online screens and claims processing for initial and continued claims. For these 8 program change tickets, we also examined FDEO records of programmer and user testing and independent program code reviews to determine whether the program code changes authorized on the tickets were appropriately tested and reviewed prior to implementation into the production environment. Our examination found that 7 of the program change tickets lacked detailed programmer testing documentation, 5 program change tickets lacked detailed user testing documentation, and all 8 program change tickets lacked evidence of required program code reviews by the Technical Change Control Committee (TCCC), thereby limiting FDEO management's assurance that the program code changes functioned as intended.

For the 35 data change tickets selected for audit, we requested documentation evidencing that the data change was authorized, tested by the programmer, reviewed and approved by the user, approved for implementation, and that the data change implementor was appropriate. Our examination found that FDEO records did not:

- Demonstrate that the data changes to address 3 tickets were tested by the programmer.
- Demonstrate that testing by the programmer for the data changes to address 14 tickets was reviewed and approved by the user.
- Demonstrate that the data changes to address 13 tickets were approved before being implemented into the production environment.

	<ul> <li>Identify for each data change addressed by the 35 tickets that an appropriate separation of duties existed between the data change programmer and implementor.</li> </ul>
	According to FDEO management, due to competing priorities caused by the COVID-19 pandemic and efficiencies in process changes, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by June 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	FDEO management acknowledged in response to our audit inquiry that, due to higher priority issues and limited resources, the FDEO had not reconciled the program code and data changes implemented into the production environment to the ticketing system records and thus, the FDEO could not demonstrate that all program code and data changes implemented into the RA System production environment were recorded in the ticketing system. FDEO management also indicated that the FDEO was transitioning to a new process for recording program code and data changes and that, previously, evidence of testing, approvals, and implementors was not always recorded. Additionally, programmers were not required to specifically document that a program code change was tested and TCCC program code reviews were sometimes conducted during TCCC and programmer meetings that were not documented. Further, FDEO management indicated that documentation for data changes was not always maintained due to the volume of data changes resulting from the COVID-19 pandemic and expansion of unemployment insurance benefits.
Effect	Without an effective reconciliation process that ensures all program code and data changes implemented into the RA System production environment are recorded in the ticketing system, and documentation of the testing and approval of program code and data changes, the FDEO has limited assurance that all program code and data changes are appropriately authorized, tested, approved, and implemented and do not bypass the FDEO's change management process.
Recommendation	We recommend that FDEO management improve change management controls to ensure that all implemented RA System program code and data changes are managed by, and do not bypass, the FDEO's change management process. We also recommend that FDEO management ensure that FDEO records evidence that RA System program code and data changes are appropriately authorized, tested, approved, and implemented into the production environment.
State Entity Response	This finding has been fully corrected. The Department has implemented the "Reemployment Assistance Work Effort Priority, Release, and Deployment Process," which establishes procedures for identifying, analyzing, prioritizing, and correcting technical system errors and defects for continuous modernization. This documentation, along with application design documentation and development processes, will be improved through the System Development Lifecycle (SDLC) - DevOps project as part of the Department's two-year Reemployment Assistance Modernization Program.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-027</b> 17.225 (Includes COVID-19 Awards) <b>Unemployment Insurance (UI)</b>
Compliance Requirement State Entity	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA) Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type Prior Year Finding	Significant Deficiency Report No. 2021-182, Finding No. 2020-017
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 11 that the reports used by the FDEO to conduct periodic Reemployment Assistance Claims and Benefits Information System (RA System) user access privilege reviews did not promote an effective review of all user accounts as the reports included information that was inaccurate and did not match RA System access records. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1)(a)(6), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities. To facilitate the periodic review of the appropriateness of RA System access privileges for FDEO employees and other State and Federal agency users, semiannually, the FDEO generated user access reports and provided the reports to the appropriate supervisors for review.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	To evaluate the adequacy of the periodic FDEO RA System access privilege reviews, as part of our IT operational audit, we conducted inquiries of FDEO management and staff and examined RA System user access reports and related RA System access records. Our examination of the user access reports used by the FDEO to conduct the July 2019 through December 2019 access review found that the reports were inconsistent with RA System access records and, therefore, did not facilitate an effective or accurate access review. Specifically, we found that the user access reports included inaccurate information such as erroneous account statuses (e.g., accounts were listed as active that were not active) and

	missing or inaccurate last logon dates. According to FDEO management, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by September 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	According to FDEO management, the FDEO was not aware of issues with the user access reports but acknowledged that the reports' information was inaccurate and did not match RA System access records.
Effect	Without accurate reports of RA System user access privileges, FDEO management's assurance that semiannual access reviews effectively ensure that assigned access privileges remain appropriate is limited.
Recommendation	We recommend that FDEO management reevaluate the RA System user access privilege reports to ensure that the access reports are consistent with RA System access records and promote an effective review of the appropriateness of user access privileges.
State Entity Response	The Department concurs with the finding; however, progress has been made. Following the engagement with the Florida Auditor General's Office, Department realized staff misunderstood the inquiries being made about the user access privilege reports. The Department reevaluated its review process and reports and determined the user access privilege reports are producing the correct data. The data is reflecting user log-in attempts accurately, which includes failed attempts. To minimize the possibility of future misunderstanding, the Department updated its procedures to clarify the results of the report.
	In July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. The Identity Management and User Authentication project will result in improved access management and reporting.

Compliance Requirement State Entity Federal Grant/Contract	Activities Allowed or Unallowed, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments, UI Program Integrity – Overpayments, and UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA) <b>Florida Department of Economic Opportunity (FDEO)</b> Various
Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	No Significant Deficiency Report No. 2021-182, Finding No. 2020-018
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 12 that some Reemployment Assistance Claims and Benefits Information System (RA System) users had inappropriate and unnecessary access privileges to high-risk functions. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1)(d), Florida Administrative Code – Each agency is required to ensure that access permissions are managed, incorporating the principles of least privilege and separation of duties.
	Effective access controls include measures that limit a user's access privileges to only those functions necessary to perform their assigned job duties and promote an appropriate separation of duties.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	According to FDEO records as of June 10, 2020, 94 FDEO employees had an active RA System user account with access to two or more of the six high-risk functions identified by the FDEO. As part of our IT operational audit, we evaluated RA System access for 25 of the 94 FDEO employees to determine whether the access privileges were appropriately assigned and found that 19 employees had been assigned access to two or more high-risk functions that were not required for the users' assigned job duties. Specifically, we found that:
	<ul> <li>19 employees had inappropriate access to update claimant payment information, including direct deposit information.</li> </ul>
	<ul> <li>6 employees had inappropriate access to update claimant authentication information such as social security numbers.</li> </ul>
	<ul> <li>12 employees had inappropriate access to claim weeks on an existing claim and, therefore, the ability to request claimant payments.</li> </ul>

	<ul> <li>3 employees had inappropriate access to issue and authorize (release) manual payments.</li> </ul>
	FDEO records as of June 10, 2020, also showed that 12 other State and Federal agency users had an active RA System user account with access to one or more of the six high-risk functions. We evaluated the RA System access for these 12 users and noted that 4 Federal agency users were assigned access to a high-risk function that allowed the users to claim weeks on an existing claim and, therefore, request claimant payments. Such access is inappropriate for Federal agency users of the RA System.
	According to FDEO management, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by December 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	FDEO management acknowledged that user access was assigned through access roles that combined many functions and, therefore, access in excess of that needed for the users' required job duties was sometimes assigned. FDEO management was unable to explain why the Federal agency users were assigned this access and acknowledged the access was inappropriate.
Effect	Assigning access privileges to high-risk functions that are inappropriate or not required for the user's job duties increases the risk of unauthorized modification, loss, or disclosure of claimant data.
Recommendation	We recommend that FDEO management limit RA System user access privileges to only those functions that are appropriate and necessary for the users' assigned job duties.
State Entity Response	The Department concurs with the finding; however, progress has been made. The Department is actively evaluating access privilege roles and establishing procedures to restrict system users to only functions necessary for assigned job duties. Additionally, the Department is working to develop Standard Operating Procedures (SOP) to identify role-specific job duties. This evaluation and the SOP will be completed in November 2022. In July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. The Identity Management and User Authentication project will result in improved limiting the user access privileges to only functions necessary for the assigned duties. The role-specific job duties identified in the SOP will be linked through this project to People First to ensure that access privilege updates are automated. These projects are anticipated to be completed in June 2023.

Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type Prior Year Finding	Significant Deficiency Report No. 2021-182, Finding No. 2020-019
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 13 that Reemployment Assistance Claims and Benefits Information System (RA System) user accounts were not always promptly deactivated when access was no longer required. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1)(a)8., Florida Administrative Code – State agencies are required to ensure that IT access privileges are removed when access to an IT resource is no longer required. Prompt action is necessary to ensure that the access privileges are not misused by former employees, former contractors, or others to compromise data or IT resources.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	As part of our IT operational audit, we examined FDEO access records for the 64 FDEO RA System users who separated from FDEO employment during the period July 1, 2019, through May 23, 2020, as of June 10, 2020, to determine whether RA System access privileges were timely deactivated upon employment separation. Our examination found that 43 user accounts were not timely deactivated. Specifically, 33 user accounts assigned to 32 former employees were deactivated 1 to 232 days (an average of 22 days) after the employees' separation dates and 10 user accounts assigned to 10 former employees remained active as of June 10, 2020, although 26 to 321 days (an average of 149 days) had elapsed since the employees separated from FDEO employment.
	We also examined FDEO access records as of June 10, 2020, for the 2,329 contracted staff who ceased providing services to the FDEO during the period November 5, 2019, through June 5, 2020, to determine whether RA System access privileges were timely deactivated. Our examination found that 2,056 user accounts assigned to 2,056 former contractors were deactivated 1 to 51 days (an average of 2 days) after the contractors' ceased providing services to the FDEO and 238 user accounts assigned to 238 former contractors remained

	active as of June 10, 2020, although 5 to 55 days (an average of 29 days) had elapsed since the contractors ceased providing services.
	Through other audit procedures, we identified 680 other active user accounts in FDEO access records as of June 10, 2020, that had not been used since prior to January 1, 2020.
	According to FDEO management, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by December 2021. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	According to FDEO management, access removal requests were not always timely received and that, while periodic reviews of access privileges were conducted, Internal Security Unit (ISU) staff only deactivated accounts when the appropriate supervisor notified them that an account was no longer necessary. Additionally, while FDEO management indicated that FDEO guidelines allowed 1 day (excluding weekends and holidays) upon receipt of an access removal request to deactivate a user account, as unauthorized access can occur at any time, access to the RA System should be promptly deactivated when the access privileges are no longer required.
Effect	Timely deactivation of RA System user accounts immediately upon employment separation or when no longer necessary reduces the risk that access privileges may be misused by former employees, former contractors, or others.
Recommendation	We recommend that FDEO management ensure that RA System user accounts are promptly deactivated upon employment separation or when no longer necessary.
State Entity Response	The Department concurs with the finding; however, progress has been made. The Department is updating the existing policy to notify the Division's Internal Security Unit immediately upon employee separation. This new policy will be implemented by May 2022. In July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. The Identity Management and User Authentication project will result in reducing the time to deactivate an employee upon separation. These projects are anticipated to be completed in June 2023.

Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	N/A Significant Deficiency Report No. 2021-182, Finding No. 2020-020
Finding	In our information technology (IT) operational audit report titled <i>Reemployment Assistance Claims and Benefits Information System (CONNECT)</i> , dated March 2021, we noted in Finding 14 that certain security controls related to logical access, user authentication, and logging and monitoring for the Reemployment Assistance Claims and Benefits Information System (RA System) data and related IT resources continue to need improvement to ensure the confidentiality, integrity, and availability of RA System data and related IT resources. As of June 2021, the FDEO had not corrected the identified deficiencies.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of data and IT resources.
Condition	The FDEO processes all UI benefit payment transactions through the RA System, a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data. According to FDEO FLAIR records, during the 2020-21 fiscal year, the FDEO expended approximately \$17.6 billion for UI benefits.
	Our IT operational audit procedures disclosed that certain security controls related to logical access, user authentication, and logging and monitoring for the RA System and related IT resources continue to need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising RA System data and related IT resources. However, we have notified appropriate FDEO management of the specific issues. According to FDEO management, the FDEO had not corrected the identified deficiencies and estimated that corrective action would be implemented by March 2022. Consequently, the uncorrected deficiencies remained a significant deficiency for the 2020-21 fiscal year.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising RA System data or related IT resources.
Effect	Without appropriate security controls related to logical access, user authentication, and logging and monitoring for the RA System and related IT resources, the risk is increased that the confidentiality, integrity, and availability of RA System data and related IT resources may be compromised.
Recommendation	We recommend that FDEO management improve certain security controls related to logical access, user authentication, and logging and monitoring for the
Report No. 2022-189	

RA System and related IT resources to ensure the confidentiality, integrity, and availability of RA System data and related IT resources.

**State Entity Response** The Department concurs with the finding; however, progress has been made. In July 2021, the Department initiated a two-year Reemployment Assistance Modernization Program to implement immediate system performance and functional improvement needs while positioning the Department with a secure, scalable, and sustainable system architecture and agile support processes. In September 2021, the Department implemented the first of three phases focused on Reemployment Assistance Claims and Benefits Information System (System) security through the Identity Management and User Authentication (IAM) project. The Department anticipates initiating the Security Architecture Review project in April 2022 to analyze the System's application, platform, operations, and development processes, and to provide the Department with specifications to improve System security. As part of phase two of the IAM project, the Department is working to develop Standard Operating Procedures (SOP) to identify rolespecific job duties. This evaluation and the SOP will be completed in November 2022. The remainder of phase two and three of the IAM project will be implemented following the implementation of the Security Architecture Review project. These projects are anticipated to be completed in June 2023.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-031</b> 17.225 (Includes COVID-19 Awards) <b>Unemployment Insurance (UI)</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Period of Performance Florida Department of Economic Opportunity (FDEO) UI-34052-20-55-A-12 2020
	No Noncompliance and Significant Deficiency Questioned Costs – \$255,850.77
Finding	FDEO expenditures charged to the UI program were not always incurred during the authorized period of performance or timely liquidated.
Criteria	2 CFR 200.403(h) – <i>Factors affecting allowability of costs</i> – To be allowable under Federal awards, costs must be incurred during the approved budget period.
	United States Department of Labor – <i>Notice of Award</i> – Funds for UI administration shall be available for obligation through December 31, 2020, and funds are to be expended/liquidated by March 31, 2021.
Condition	During the 2020-21 fiscal year, the FDEO expended \$17.6 billion in Federal funds for the UI program. Our examination of records related to 35 selected UI program expenditures, totaling \$613,193,088.89, paid by the FDEO during the 2020-21 fiscal year disclosed 2 expenditures, totaling \$128,436.31, that were not incurred during the authorized period of performance. Our examination also found 2 other expenditures, totaling \$127,414.46, that, while incurred during the authorized period of performance, were not liquidated by March 31, 2021.
Cause	According to FDEO management, the costs were charged to the award after the authorized period of performance due to employee oversight. In addition, FDEO management indicated that adjustments to expenditures claimed for the grant were made after the grant's period of performance. Due to employee oversight, costs liquidated after March 31, 2021, were included.
Effect	Expenditures charged to a Federal award that were not incurred during the authorized period of performance or liquidated by the award's liquidation date could be subject to disallowance by the Federal grantor agency.
Recommendation	We recommend that the FDEO enhance review procedures to ensure that costs charged to a Federal award are attributable to the authorized period of performance and timely liquidated in accordance with award requirements.
State Entity Response	The Department concurs with the finding; however, progress has been made. The Department recorded adjustments as of March 2022 to move the \$128,436.31 in expenditures that are outside the period of performance to an allowable funding source within the appropriate period of performance. In addition, review procedures will be enhanced to ensure that costs charged to a Federal award are attributable to the authorized period of performance and timely liquidated in accordance with award requirements.
	One of the payments within the \$127,414.46 in the amount of \$7,554.07 has been moved to another allowable funding source. The remaining \$119,860.39 of the \$127,414.46 was processed after the liquidation date (March 31, 2021) and was for indirect costs tied to base expenditures that were incurred and liquidated within the allowable period of performance.
	In accordance with DEO's Negotiated Indirect Cost Rate Agreement (NICRA; dated 11/3/2021) with the U.S. Department of Labor (DEO's cognizant agency)

in Section II, paragraph E.1. requires that once a final rate is negotiated, billing and charges to federal awards must be adjusted ("trued-up") if the final rate varies from the provisional rate. In accordance with DEO's Negotiated Indirect Cost Rate Agreement (NICRA; dated 11/3/2021) with the U.S. Department of Labor (DEO's cognizant agency), Section II, paragraph E.1., DEO is required to adjust (true-up) the billing and charges to the federal awards if the final rate varies from the provisional rate. Furthermore, 2 CFR 200.344(e) requires a federal awarding agency to make a settlement for any upward or downward adjustment to the federal share of costs after closeout reports are received. Additionally, 2 CFR 200.345(a)(3) provides that the closeout of a federal award does not affect the ability of a federal awarding agency to make financial adjustments to a previously closed award such as resolving indirect cost payments.

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	2021-032 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI) Reporting Florida Department of Economic Opportunity (FDEO) Various N/A Disclaimer of Opinion and Material Weakness	
Finding	The FDEO did not maintain records to support the amounts reported in Federal Performance Reports submitted to the Employment and Training Administration (ETA).	
Criteria	Employment and Training Handbook No. 401 5th Edition, <i>Unemployment Insurance Reports Handbook</i> – States are required to submit monthly reports, including the ETA 9050 – <i>Time Lapse of All First Payments Except Workshare</i> , ETA 9052 – <i>Nonmonetary Determination Time Lapse Detection</i> , and ETA 9055 – <i>Appeals Case Aging</i> .	
Condition	The ETA 9050, 9052, and 9055 reports present various state UI program performance information. As part of our audit, we requested from the FDEO documentation supporting the amounts reported in the reports and corresponding core measures identified in the table below. However, in response to our request, the FDEO was unable to provide documentation supporting the amounts included in the tested reports and indicated that the data used to prepare all of the reports submitted for the 2020-21 fiscal year had not been maintained.	
	Report	Core Measure
	ETA 9050 (October 2020 and June 2021)	First Payment Time Lapse 14/21 days, Interstate and Intrastate UI, UCFE, and UCX, full and partial weeks

and Benefits Information System. This effort is ongoing, and all in-scope reports are forecast to be complete in December 2022. The ETA 9050 and ETA 9052 reports were moved to the Data Warehouse, validated, and successfully transmitted to the U.S. Department of Labor in March 2022. System development is underway to align program policy with the guidance provided in UIPL 20-21, change 1, that impacts ETA 9055 and is anticipated to be deployed into production in May 2022. Testing is currently in progress to validate the ETA 9055 report by June 2022.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-033 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Reporting Florida Department of Economic Opportunity (FDEO) Various
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDEO did not correctly report year-to-date values on the Employment and Training Administration (ETA) 2208A, Quarterly UI Above-Base Report.
Criteria	Employment and Training Handbook No. 336, 18 <sup>th</sup> Edition, <i>Unemployment Insurance State Quality Service Plan – Planning and Reporting Guidelines –</i> States are required to prepare and submit to the ETA an ETA 2208A, Quarterly UI Above-Base Report which reports the number of quarterly staff years worked and paid and the number of year-to-date staff years paid.
Condition	The ETA 2208A report provides information to the ETA on the number of staff years worked and paid for various UI program categories and serves as the basis for determining above-base entitlements. As illustrated below, our examination of the ETA 2208A report submitted to the ETA for the quarter ended September 30, 2020, disclosed that the FDEO did not accurately report by program category the year-to-date staff years.
	Staff Years Staff Years

	Staff Years	Staff Years	
	Paid	Paid	Difference
Program Category	Per FDEO	Per Audit	(Understatement)
<b>Claims Activities</b>	430.01	1,720.69	(1,290.68)
Employer Activities	202.40	809.73	(607.33)
UI Performs	73.41	293.80	(220.39)
Support/AS&T	194.83	779.71	(584.88)
Trade Claims Activities	1.94	7.35	(5.41)
Other	0.08	4.97	(4.89)
Total Staff Years	<u>902.67</u>	<u>3,616.25</u>	<u>(2,713.58)</u>

Cause	According to FDEO management, inaccurate year-to-date staff year figures were reported due to a calculation error.
Effect	The staff years paid reported on the ETA2208A report were understated.
Recommendation	We recommend that the FDEO enhance procedures for preparing and reviewing quarterly ETA 2208A reports to ensure the accuracy of all information reported to the ETA.
State Entity Response	This finding has been fully corrected. The Department has updated its desk procedures as of March 2022 for preparing and reviewing the quarterly ETA 2208A reports to ensure accuracy of all information.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-034 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	Special Test and Provisions – UI Program Integrity – Overpayments Florida Department of Economic Opportunity (FDEO) Various
	N/A Disclaimer of Opinion and Material Weakness Report No. 2021-182, Finding No. 2020-021
Finding	The FDEO could not provide accurate data for the period July 2020 through June 2021 demonstrating that UI benefit overpayments were properly identified and handled in accordance with applicable requirements or that debts resulting from overpayments were appropriately offset.
Criteria	Section 303(g)(1) of the Social Security Act – States shall deduct from unemployment benefits otherwise payable to an individual an amount equal to any overpayment made to such individual under an unemployment benefit program of the United States or any other State, and not previously recovered.
Condition	The FDEO processes all UI benefit payment transactions through the Reemployment Assistance Claims and Benefits Information System (RA System), a Web-based claims management system that allows UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. The RA System also allows employers and third parties to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. The RA System is designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data.
	During the 2020-21 fiscal year, the FDEO made UI benefit payments totaling approximately \$17.6 billion. Our inquiries of FDEO management disclosed that the FDEO was in the process of addressing known UI benefit overpayment issues with the RA System, specifically overpayments resulting from the impact of the COVID-19 pandemic and expansion of UI benefits. Consequently, for the 2020-21 fiscal year, the FDEO was unable to provide for audit accurate data to demonstrate that UI benefit overpayments were properly identified and handled in accordance with applicable requirements or that debts resulting from overpayments were appropriately offset.
Cause	FDEO management indicated that complete and accurate UI overpayment data could not be provided due to processing errors when extracting the data from the RA System.
Effect	Absent effective controls to ensure that overpayments are accurately identified and handled, claimants may continue to receive UI benefits in error, debts resulting from overpayments may not be appropriately offset, and employers may not be relieved of charges when overpayments are caused by untimely or inaccurate actions. In addition, absent accurate data, the United States Department of Labor and the FDEO are not able to effectively monitor the integrity of the UI program benefit payment process.
Recommendation	We recommend that the FDEO investigate and resolve the RA System processing errors inhibiting the production of accurate UI benefit overpayments data.

**State Entity Response** The Department concurs with the finding; however, progress has been made. In 2020, the Department implemented a phased approach to integrate all federal programs and new guidance to ensure appropriate controls were in place to determine claimant eligibility and disburse payments. Pandemic Unemployment Assistance (PUA) was deployed in April 2020, Pandemic Emergency Unemployment Compensation (PEUC) was deployed in May 2020, Lost Wages Assistance (LWA) was deployed in September 2020, Extended Benefits (EB) was deployed in December 2020 and Mixed Earner Unemployment Compensation (MEUC) was deployed in February 2021. System development is underway to align the Federal Pandemic Unemployment Compensation program with the guidance provided in Unemployment Insurance Program Letters (UIPL) 20-21, change 1, and is anticipated to be deployed into production in May 2022. Claimant overpayment data processing will be conducted over the course of two months. The Department anticipates being able to provide complete overpayment data once the integration and processing effort is finalized in August 2022. The Department will continue to work with the Auditor General and the US Department of Labor to ensure compliance.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-035 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)
Compliance Requirement	Special Tests and Provisions – UI Reemployment Programs: Worker Profiling and Reemployment Services (WPRS) and Reemployment Services and Eligibility Assessments (RESEA)
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Economic Opportunity (FDEO) Various
Statistically Valid Sample Finding Type	No Opinion Qualification and Material Weakness Questioned Costs – \$167,491
Prior Year Finding	Report No. 2021-182, Finding No. 2020-022
Finding	The FDEO did not always ensure or timely ensure that UI claimants complied with the participation requirements of the RESEA program.
Criteria	U.S. Department of Labor Employment and Training Administration – UI Program Letter No. 07-19 – Failure of a UI claimant to report or participate in any aspect of the RESEA program must result in a referral to the UI agency for adjudication under the applicable state law.
	Section 443.091(1)(b), Florida Statutes, <i>Benefit eligibility conditions</i> – An unemployed individual is eligible to receive UI benefits for any week only if the FDEO finds that the individual completed the FDEO's online work registration and reported to the one-stop career center as directed by the local workforce development board for reemployment services.
Condition	The FDEO contracts with Local Workforce Development Boards (LWDBs) to provide RESEA program services to UI claimants. Once a claimant is approved for UI benefits, the claimant is profiled to determine whether the claimant is likely to exhaust regular UI benefits and need reemployment services. If the claimant is identified to participate in the RESEA program, the claimant is notified that they have been selected and that participation is mandatory. The FDEO and the LWDBs use the Employ Florida system to record information regarding the claimant's participation in the RESEA program. Notification regarding the claimant's participation in the required RESEA program services is to be provided to the FDEO through a data exchange between the Employ Florida system and the Reemployment Assistance Claims and Benefits Information System (RA System). If a claimant does not participate in the RESEA program, LWDB staff are to record the non-attendance in Employ Florida, the information is to be shared with the FDEO for adjudication.
	According to FDEO records, during the 2020-21 fiscal year, 60,886 claimants were scheduled to receive RESEA program services. Our examination of FDEO records for 60 claimants disclosed that the FDEO did not adjudicate 35 of the claimants' cases after notification of nonparticipation in the RESEA program in a time frame that would ensure that the claimants remained eligible to receive UI benefits under State law. Specifically:
	• The FDEO adjudicated 6 of the cases 188 to 267 days after the claimants missed their appointment for RESEA program services. The FDEO paid UI benefits totaling \$63,064 after the missed appointments.
	• The FDEO had not adjudicated 29 of the cases as of the date of our audit inquiry. Subsequent to our audit inquiry, and 152 to 466 days after the

Cause	<ul> <li>claimants missed their appointment for RESEA program services, the FDEO adjudicated 16 of the 29 cases. For 17 of the 29 cases, the FDEO paid UI benefits totaling \$100,455 after the missed appointments.</li> <li>Additionally, FDEO records for 2 claimants did not evidence that the FDEO UI office received notification regarding the claimants' participation or nonparticipation in the RESEA program. For one of the claimants, the FDEO paid UI benefits totaling \$3,972 after their missed appointment.</li> <li>FDEO management indicated that a management decision was made not to penalize claimants for failure to participate in RESEA program services. For the 13 cases not adjudicated, the FDEO was unable to adjudicate non-attendance because the claim was currently locked in the RA system due to an ongoing fraud investigation. Additionally, for the 2 claimants the FDEO did not receive notification regarding participation or nonparticipation in the RESEA program, FDEO management indicated that between May 2020 and August 2020, the data exchange between Employ Florida and the RA System did not occur due to an unexpected server upgrade. As a result, during those months, the FDEO was unable to extract data tables from Employ Florida to ensure that UI claimants complied with RESEA program participation requirements.</li> </ul>
Effect	Absent timely adjudication of claimant cases after notification of nonparticipation in the RESEA program and documentation evidencing whether all claimants satisfactorily participate in the RESEA program, the FDEO cannot demonstrate that only eligible claimants receive UI benefits.
Recommendation	We recommend that the FDEO ensure that the data exchange between Employ Florida and the RA System appropriately and consistently notifies the FDEO of claimant compliance with the RESEA program. Additionally, we recommend that the FDEO ensure that RESEA program participation issues are timely adjudicated to determine if benefits should continue.
State Entity Response	The Department concurs with the finding; however, progress has been made. The data exchange between Employ Florida and the Reemployment Assistance Claims and Benefits Information System has been resolved and has not been an issue since August 2020. The Reemployment Assistance Modernization Program's Service Oriented Architecture/Application Programming Interfaces (SOA/API) project will ensure that these connections are stable in the future.
	To promote timely adjudication, the Department continues its efforts to increase staffing resources and provide comprehensive training to both newly hired and tenured adjudicators. In addition, the Department has contracted with a vendor to assist with fact-finding for claim adjudication which will expedite backlog resolution.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-036 17.225 (Includes COVID-19 Awards) Unemployment Insurance (UI)
Compliance Requirement	Special Tests and Provisions – Employer Experience Rating and Match with Internal Revenue Service (IRS) 940 Federal Unemployment Tax Act (FUTA) Tax Form
State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	Florida Department of Revenue (FDOR) Various
	N/A Significant Deficiency Report No. 2021-182, Finding No. 2020-025
Finding	Internal controls for UI tax payment processing need improvement.
Criteria	2 CFR 200.303 – <i>Internal controls</i> – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
Condition	The FDOR contracted with a service organization to provide tax filing solutions for multiple tax types, including UI taxes. During the 2020-21 fiscal year, the FDOR received UI tax payments from employers totaling approximately \$1.1 billion. The service organization was responsible for and processed \$256.9 million in UI tax payments.
	The service organization obtained an independent service auditor's report for the period January 1, 2020, through December 31, 2020, in which the service organization's auditors issued an adverse opinion related to the service organization's Information Security Policy, Risk Management Policy, termination procedures, logical access removal, and password configurations. Given the significance of the service organization's role in the UI program, internal control weaknesses reported in the service auditor's report could significantly impact the UI program.
Cause	The service organization had not established certain IT controls, including a sufficiently detailed Information Security Policy and Risk Management Policy, and effective termination procedures, logical access removal controls, and password configuration controls.
Effect	Absent the establishment of appropriate controls by the service organization, the FDOR has reduced assurance that the UI tax data is appropriately safeguarded.
Recommendation	We recommend that the FDOR ensure that the service organization takes timely and appropriate corrective action to resolve the deficiencies noted in the independent service auditor's report.
State Entity Response	FDOR concurs with this finding. In the Spring of 2021, FDOR communicated the importance of resolving the exceptions noted within the independent auditor's report with the service organization. As a result, the service organization confirmed they would implement the appropriate controls as required.
	FDOR will review the upcoming 2021 independent auditor's report to verify the previously noted deficiencies have been resolved. If the 2021 independent service auditor's report identifies any outstanding exceptions, the FDOR will require the service organization to provide a timeframe for resolution and

evidence of progress towards resolving the remaining exceptions until all deficiencies are resolved.

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement	<b>2021-039</b> 17.258, 17.259, and 17.278 <b>Workforce Innovation and Opportunity Act (WIOA) Cluster</b> Subrecipient Monitoring
State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Florida Department of Economic Opportunity (FDEO) AA-30737-17-55-A-12 2017, AA-32210-18-55-A-12 2018, AA-33223-19-55-A-12 2019, AA-34762-20-55-A-12 2020, AA-36313-21-55-A-12 2021 N/A Noncompliance
Finding	The FDEO did not perform subrecipient monitoring to ensure compliance with WIOA nondiscrimination, disability, and equal opportunity requirements.
Criteria	20 CFR 683.410 – What are the oversight roles and responsibilities of recipients and subrecipients of Federal financial assistance awarded under title I of the Workforce and Opportunity Act and the Wagner-Peyser Act? – The State monitoring system must enable the Governor to ensure compliance with the nondiscrimination, disability, and equal opportunity requirements of sec. 188 of WIOA, including the Assistive Technology Act of 1998.
Condition	The WIOA provides funding to states to assist job seekers with accessing employment, education, training, and support services needed to succeed in the labor market. To accomplish this directive, the FDEO has partnered with CareerSource Florida and the State's 24 local workforce development boards through grantee-subgrantee contracts to deliver the services. The FDEO Office of Civil Rights was responsible for subrecipient monitoring and ensuring compliance with WIOA nondiscrimination, disability, and equal opportunity requirements.
	As part of our audit, we requested from the FDEO documentation evidencing that the WIOA nondiscrimination, disability, and equal opportunity requirements were subject to monitoring during the 2020-21 fiscal year. In response to our request, FDEO management indicated that monitoring for compliance with nondiscrimination, disability, and equal opportunity requirements was not conducted during the 2020-21 fiscal year.
Cause	FDEO management indicated that nondiscrimination, disability, and equal opportunity monitoring was not conducted due to the COVID-19 pandemic.
Effect	Absent monitoring for compliance with nondiscrimination, disability, and equal opportunity requirements, FDEO management has limited assurance that subgrantees complied with Federal regulations.
Recommendation	We recommend that FDEO management conduct nondiscrimination, disability, and equal opportunity monitoring.
State Entity Response	The Department concurs with the finding; however, progress has been made. The Department has resumed subrecipient monitoring to ensure compliance with Workforce Innovation and Opportunity Act (WIOA) nondiscrimination, disability, and equal opportunity requirements.

### **U.S. DEPARTMENT OF THE TREASURY**

	U.S. DEPARTMENT OF THE I REASURY
Finding Number Assistance Listing Number Assistance Listing Program Title	2021-040 21.019 (Includes COVID-19 Awards) Coronavirus Relief Fund (CRF)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Reporting <b>Florida Executive Office of the Governor (FEOG)</b> SLT0050 2020 and SLT0246 2020
Statistically Valid Sample Finding Type	No Disclaimer of Opinion and Material Weakness Questioned Costs – Unknown
Finding	The allowability of claimed Coronavirus Relief Fund (CRF) expenditures was not always supported by appropriate records or methodology.
Criteria	2 CFR 200.303 – <i>Internal Controls</i> . The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
	Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136) – Section 5001(d) required CRF funds be used to cover only costs of the State that: were necessary expenditures incurred due to the COVID-19 public health emergency; were not accounted for in the State's most recently approved budget as of March 27, 2020; and were incurred during the period March 1, 2020, through December 30, 2020. The Consolidated Appropriations Act, 2021, (Public Law 116-260) extended the period during which recipients could incur eligible costs through December 31, 2021.
	Federal Register, Volume 86, No. 10, issued Friday, January 15, 2021 - <i>Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible</i> <i>Local Governments.</i> This guidance specified that "with respect to personnel expenses, though the Fund [CRF] was not intended to be used to cover government payroll expenses generally, the Fund was intended to provide assistance to address increased expenses". Additionally, the Treasury recognized that certain health and safety personnel were particularly important to the health emergency, and made allowances for public safety employees, such as correctional and detention officers, and those who directly supported such employees, such as dispatchers and supervisory personnel. To claim the full amount of payroll and benefit expenses for non-health and safety personnel, such personnel were required to be substantially dedicated to mitigating or responding to the COVID-19 public health emergency. In the event that personnel were not substantially dedicated, a portion of payroll maybe used, so long as time was tracked for the employee responding to the COVID-19 public emergency and the application methodology was consistent. In addition, expenses that have been or will be reimbursed under any Federal program are ineligible CRF expenditures.
	United States Department of the Treasury, Memorandum for Coronavirus Relief Fund Recipients, No. OIG-CA-20-025, dated July 31, 2020, <i>Coronavirus Relief Fund Reporting Requirements Update</i> . Each prime recipient shall report COVID-19 related costs incurred during the covered period as part of quarterly reports due no later than 10 calendar days after the end of each calendar quarter.
Condition	The FEOG established a workflow whereby State agencies submitted expenditures to the FEOG that were preliminarily determined by the State agency to be allowable CRF expenditures. FEOG staff and a consultant hired by the

FEOG then reviewed the submitted expenditures for a final determination of allowability.

For the 2020-21 fiscal year, the FEOG claimed CRF expenditures totaling \$4,403,342,343 related to 29 State entities. Our evaluation of Florida Department of Corrections (FDOC) expenditures totaling \$1,131,370,297, Florida Department of Economic Opportunity (FDEO) expenditures totaling \$242,593,294, and Fish and Wildlife Conservation Commission (FWCC) expenditures totaling \$55,045,700 claimed as CRF expenditures found that the allowability of claimed expenditures was not always supported by appropriate records or methodology. Specifically:

- We were unable to determine whether all claimed FDOC expenditures were allowable. For example, for \$591,592,556 in FDOC payroll expenditures claimed for the period July 2020 through June 2021, the FEOG was unable to provide the methodology used to calculate the amount claimed. In addition, our review of payroll expenditure records disclosed that, while \$456,608,678 of the claimed payroll expenditures appeared related to correctional officers, the FEOG could not provide documentation evidencing that the other \$134,983,878 in payroll expenditures were claimed for personnel that either directly supported the correctional officers or were substantially dedicated to mitigating or responding to the COVID-19 public health emergency. In response to our audit inquiry, FEOG management confirmed that correctional institution administrative staff who did not meet the criteria for public safety employees were included in the claimed payroll expenditures.
- The FEOG could provide neither documentation supporting, nor the methodology used to claim, FDEO expenditures totaling \$91,593,294.
- The claimed FWCC expenditures, totaling \$55,045,700, included salary costs for sworn law enforcement officers within the FWCC Division of Law Enforcement. Our review of the documentation supporting the claimed expenditures disclosed that the amount claimed was based on a percentage of authorized sworn officer positions, rather than filled sworn officer positions. In addition, the amount claimed included salary costs totaling \$4,497,422 that were also reimbursed under other Federally funded programs.

As a result of the issues noted on audit, we could not determine whether all claimed expenditures were allowable and in accordance with CRF requirements. We also could not validate information reported in the quarterly Financial Progress reports submitted to the United States Department of the Treasury.

Cause	According to FEOG management, these issues were due to employee oversight and errors made by the consultant engaged to review CRF expenditures. In addition, FEOG procedures were not sufficient to detect the FWCC payroll expenditures that were also reimbursed under other Federally funded programs.
Effect	Absent appropriate controls to ensure only eligible expenditures are charged to the CRF awards, the FEOG cannot demonstrate compliance with applicable laws, rules, regulations, and program requirements. In addition, such expenditures may be subject to disallowance by the grantor.
Recommendation	We recommend that FEOG management enhance controls, including review procedures, to ensure that all costs claimed for the CRF awards are allowable and supported by sufficient and appropriate records and methodology, and take steps to ensure that expenditures reported on quarterly Financial Progress reports are accurate and supported. In addition, we recommend that the FEOG take action to correct the claimed expenditure amounts and ensure that the revised amounts are appropriately supported and allowable.
State Entity Response	The FEOG concurs with the findings and recommendations. The FEOG has updated the procedures for reviewing claims and instructed the FDOC, FDEO,

and FWCC to provide the appropriate documentation and methodology to support allowable expenditures. The following actions will be taken in the quarterly financial progress report for the period ending March 31, 2022:

FDOC claim amount will be reduced by \$76,627,989.77 for the administrative staff that were not substantially dedicated to mitigating or responding to the COVID impact at the correctional facilities.

FWCC has provided appropriate documentation and methodology to support an increase in allowable expenditures by \$849,927.35.

FDEO claim amount will be reduced by \$2,956,972.23 for claim amounts that did not have adequate documentation.

## **U.S. DEPARTMENT OF THE TREASURY**

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-041 21.019 (Includes COVID-19 Awards) Coronavirus Relief Fund (CRF)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Subrecipient Monitoring Florida Division of Emergency Management (FDEM) SLT0050 2020 and SLT0246 2020
Statistically Valid Sample Finding Type	N/A Opinion Qualification and Material Weakness
Finding	Contrary to Federal regulations, the FDEM did not monitor the activities of CRF subrecipients. Such monitoring is to include, for example, reviewing subrecipient audit reports and determining whether management decisions are required for any audit findings related to the Federal award.
Criteria	2 CFR 200.332(d) – <i>Requirements for pass-through entities</i> – All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved. Monitoring of the subrecipient must include reviewing financial and performance reports, following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award detected through audits, on-site reviews, and other means, and issuing management decisions as required by 2 CFR 200.521.
	2 CFR 200.521 – <i>Management decision</i> – The pass-through entity is responsible for issuing a management decision for audit findings pertaining to the Federal award within 6 months of acceptance of the audit report by the Federal Audit Clearinghouse.
Condition	During the 2019-20 fiscal year, the FDEM provided \$210,562,506 in CRF funds to 39 local governments and, during the 2020-21 fiscal year, the FDEM provided \$1,026,225,208 in CRF funds to 55 local governments. Our inquiries of FDEM management disclosed that during either the 2019-20 or 2020-21 fiscal years the FDEM did not monitor the activities of any subrecipients. Such monitoring is to include, for example, reviewing subrecipient audit reports and determining whether management decisions are required for any audit findings related to the Federal award.
Cause	According to FDEM management, subrecipient monitoring, including audit report reviews and determining whether management decisions were required for applicable audit findings, was not performed due to staffing shortages.
Effect	Absent the adequate monitoring of subrecipient activities, the FDEM cannot ensure that the subaward is used for authorized purposes in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved. Absent the timely review of all required subrecipient audit reports, the FDEM may not timely issue required management decisions or follow up on applicable deficiencies noted during audit to ensure that the subrecipient takes timely and appropriate action. Additionally, the FDEM cannot demonstrate compliance with Federal regulations.
Recommendation	We recommend that the FDEM conduct subrecipient monitoring, ensure that audit reports from all applicable subrecipients are timely reviewed, and follow up on applicable deficiencies noted during audit to ensure that the subrecipients took timely and appropriate action to address the deficiencies. We also recommend

that the FDEM timely issue management decisions for all applicable audit findings.

**State Entity Response** FDEM concurs with this finding and will establish policies and procedures that ensure that newly established temporary grant programs with developing guidance, such as the Coronavirus Relief Fund (CRF), are subject to the most appropriate levels of risk assessment and subrecipient monitoring. FDEM has put in place a process for reviewing the FY 2021 Federal Single-Audits for the CRF that ensures that Management Decision Letters are issued in a timely manner. FDEM is developing procedures for broader subrecipient monitoring for the CRF and is currently recruiting an employee for the Special Grants team who will deal with programmatic compliance.

# **U.S. DEPARTMENT OF VETERANS' AFFAIRS**

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	2021-042 64.015 Veterans State Nursing Home Care (VSNHC) Reporting Florida Department of Veterans' Affairs (FDVA) FL516, FL520, FL546, FL5739F, FL673, and FL675
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	The FDVA did not ensure that the service organization and subservice organization's internal controls related to the MatrixCare Skilled Nursing Facility system (MatrixCare) were appropriately designed and operating effectively.
Criteria	2 CFR 200.303 – <i>Internal controls</i> – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
Condition	The FDVA contracted with a service organization to provide MatrixCare, a Web-based application used by skilled nursing facilities to administer clinical and residential needs and manage the revenue cycle. The service organization utilized a subservice organization for data center hosting and infrastructure management operations.
	As the FDVA relies on MatrixCare, and the data contained therein, to manage the VSNHC program, it is incumbent upon the FDVA to take steps to reasonably ensure the integrity, reliability, and security of MatrixCare data. Such steps may include requiring the service organization to provide a service auditor's report on the effectiveness of the controls established by the service organization or, alternatively, FDVA monitoring of the effectiveness of relevant service organization to perform services for the FDVA, it is necessary for the FDVA to obtain assurances regarding the subservice organizations' controls relevant to those services.
	Our audit inquiry disclosed that the FDVA did not obtain an independent service auditor's report on the effectiveness of the controls established by the service organization for MatrixCare or the subservice organization, nor monitored the effectiveness of the relevant service organization and subservice organization controls.
Cause	FDVA management indicated that the FDVA had not established policies and procedures requiring service auditor's reports be obtained and reviewed or, alternatively, for the service and subservice organizations' controls be monitored.
Effect	Absent an evaluation of the operating effectiveness of the service organization's and subservice organization's relevant internal controls, the FDVA has reduced assurance that the data used by the FDVA is protected, complete, and reliable.
Recommendation	We recommend that FDVA management obtain and review the service organization's and subservice organization's independent service auditor's reports to ensure that relevant controls are appropriately designed and operating effectively.
State Entity Response	SOC2 reports were provided to the FDVA for 10.1.19-9.30.20 and 5.1.20-10.31.20 that partially covers this audit period. The CIO has requested the SOC2

report that satisfies the entire auditing period of 7.1.20-6.30.21 and upon receipt will provide these to the FDVA Audit Director for distribution.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-043</b> 64.015 Veterans State Nursing Home Care (VSNHC)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Reporting Florida Department of Veterans' Affairs (FDVA) FL516, FL520, FL546, FL5739F, FL673, and FL675
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the MatrixCare Skilled Nursing Facility system (MatrixCare) need improvement to ensure the confidentiality, integrity, and availability of MatrixCare data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDVA uses MatrixCare, a Web-based application used by skilled nursing facilities to administer clinical and residential needs and manage the revenue cycle. Our audit disclosed that certain security controls related to MatrixCare user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising MatrixCare data and related IT resources. However, we have notified appropriate FDVA management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising MatrixCare data or related IT resources.
Effect	Appropriate user authentication controls for MatrixCare are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of MatrixCare data and related IT resources.
Recommendation	We recommend that FDVA management improve certain security controls related to MatrixCare user authentication to ensure the confidentiality, integrity, and availability of MatrixCare data and related IT resources.
State Entity Response	FDVA requested certain security controls be implemented from its vendor, but the vendor could not provide a date for this release. IT will implement certain security controls for all VPN users by December 30, 2022.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-044</b> 64.015 Veterans State Nursing Home Care (VSNHC)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Reporting <b>Florida Department of Veterans' Affairs (FDVA)</b> FL516, FL520, FL546, FL5739F, FL673, and FL675
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	The FDVA did not conduct periodic reviews of MatrixCare Skilled Nursing Facility system (MatrixCare) user access privileges.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk and ensure that information technology (IT) access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FDVA skilled nursing facilities use MatrixCare to administer clinical and residential needs, as well as manage the revenue cycle. To obtain an understanding of FDVA user access privilege review processes for MatrixCare, we inquired of FDVA management who indicated that, during the 2020-21 fiscal year, the FDVA did not complete a review of MatrixCare user access privileges.
Cause	FDVA management indicated that FDVA did not conduct periodic reviews of MatrixCare user access privileges due to issues related to COVID-19 and staffing shortages.
Effect	Periodic reviews of IT user access privileges provide FDVA management assurance that user access privileges are authorized and remain appropriate.
Recommendation	We recommend that FDVA management ensure that periodic reviews of MatrixCare user access privileges are adequately performed and documented in FDVA records.
State Entity Response	Authorized user maintenance credentials within MatrixCare include Staff Developers and SVNH Administrators for each site, and IT for the initiation of those preliminary role-based accounts providing the means to provision accounts for employees and contractors performing site related tasks outside of the standard network access requirements. The CIO will rewrite the current Information Security Governance Policy, 5030.612, to include Software as a Service (SaaS) solutions with detailed responsibilities and accountability for periodic reviews and for maintaining user accounts through Data Stewards. This policy is expected to be approved by the Executive Director and executed by December 30, 2022.

Compliance Requirement	<ul> <li>– Emergency Assistance for Non-Public Schools (CRRSA EANS)</li> <li>Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Cash</li> <li>Management</li> </ul>
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Education (FDOE) V048A200009 2020, V048A200009 2021, S365A190009 2019, S365A200009 2020, S425C200025 2020, S425D200052 2020, S425R210002 2021, S425C210025 2021
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	FDOE change management controls need improvement to ensure that only authorized, tested, and approved Florida Grants System (FLAGS) program code changes are implemented into the production environment.
Criteria	Effective change management controls are intended to ensure that all program code changes are properly authorized, tested, and approved for implementation into the production environment. Change management controls also promote the accuracy of data changes made in the production environment. Effective change management controls ensure that the established change management process is followed when program code and data changes are implemented into the production environment and that only approved changes are implemented into the production environment.
Condition	FLAGS provides users a single access location for the management and tracking of grants and the distribution of funds and to facilitate communication between the FDOE and recipient agencies.
	To evaluate the appropriateness of FDOE change management controls, we requested a system-generated list of program code changes implemented into the FLAGS production environment during the 2020-21 fiscal year. However, the FDOE was unable to provide a system-generated list of the implemented program code changes and, instead, provided a list of program change tickets from the ticketing system. Although the FDOE used a change management system to manage FLAGS program code changes, the FDOE had not established controls, such as the use of a reconciliation process, to ensure that all program code changes implemented into the production environment followed the FDOE change management process.
Cause	According to FDOE management, FLAGS does not have the capability to produce a system-generated list of program code changes.
Effect	Without an effective reconciliation process that ensures all program code changes implemented into the FLAGS production environment are recorded in the ticketing system, the FDOE has limited assurance that all program code changes are appropriately authorized, tested, approved, and implemented and do not bypass the FDOE change management process.

Recommendation	We recommend that FDOE management enhance change management controls to ensure that all changes to FLAGS are recorded in the ticketing system and do not by bypass the FDOE change management process.
State Entity Response	FDOE utilizes a formal Information System Development Methodology (ISDM) framework to guide the departmental software development lifecycle. FDOE's ISDM outlines the process for planning, defining, designing, building, testing, deploying, and monitoring code changes. FDOE will implement a reconciliation process and realign all IT staff/procedures within Division of Technology and Innovation to ensure that only approved changes are implemented in production environments.

Finding Number Assistance Listing Number	<b>2021-046</b> 84.365 84.425 C. D. B. (Includes COVID 10 Awards)
Assistance Listing Program Title	84.425 C, D, R (Includes COVID-19 Awards) English Language Acquisition State Grants (ELAG) and Education Stabilization Fund (ESF) – Governor's Emergency Education Relief Fund, Elementary and Secondary School Emergency Relief Fund, and Coronavirus Response and Relief Supplemental Appropriations Act, 2021 – Emergency Assistance for Non-Public Schools (CRRSA EANS)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Reporting <b>Florida Department of Education (FDOE)</b> S425C200025 2020, S425D20052 2020, S425R210002 2021, S425D210052 2021, S425C210025 2021, S365A190009 2019, S365A200009 2020 N/A Disclaimer of Opinion and Material Weakness
Finding	The FDOE could not provide records from the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) demonstrating that subawards were timely reported with the information required by the Federal Funding Accountability and Transparency Act (FFATA).
Criteria	2 CFR 170, Appendix A – <i>Reporting Subawards and Executive Compensation</i> – Unless otherwise exempt, you must report each action that equals or exceeds \$30,000 in Federal funds for a subaward to a non-Federal entity or Federal agency.
	The non-Federal entity or Federal agency must report each obligating action described in the FSRS.
	For subaward information, reporting must occur no later than the end of the month following the month in which the obligation was made.
Condition	During the 2020-21 fiscal year, the FDOE awarded ESF program funds totaling \$1,771,076,575 to 192 subrecipients through 898 subawards and ELAG program funds totaling \$59,090,332 to 56 subrecipients through 79 subawards. The FDOE utilized a monthly data report from the Florida Grants System (FLAGS) to report required subaward information in the FSRS.
	As part of our audit, we requested to review the reporting records in the FSRS for applicable ESF and ELAG program subawards, including all applicable amendments. However, in response to our request, we found that the FSRS reports submitted by the FDOE for the ESF and ELAG subawards had been deleted and could not be recovered from the FSRS. Consequently, we were unable to determine whether the subaward information was appropriately or timely reported in accordance with FFATA.
Cause	FDOE management indicated that they discovered an error in the FLAGS data that resulted in reporting to the FSRS a comprehensive list of all subawards each month, rather than only each action that equaled or exceeded \$30,000. As a result, FSRS records showed that the FDOE was obligating more than the available grant funds. To correct the error, the FDOE requested that the FSRS helpdesk delete all prior reports uploaded to the FSRS so that the FDOE could make the necessary revisions to the subawards reported in the FSRS.
Effect	Absent effective controls to ensure that complete and accurate information is reported in the FSRS, the FDOE cannot demonstrate that all required information was appropriately and timely reported in accordance with FFATA.

**Recommendation** We recommend that the FDOE enhance FLAGS data reporting controls to ensure and demonstrate that all required data is accurately and timely reported in the FSRS.

**State Entity Response** The Department does not concur with this finding. Throughout FY2020-21, FDOE uploaded monthly reports to the FSRS system within the federally required timeframes.

In April 2021, FDOE became aware that FSRS was designed for monthly activity reporting and not cumulative monthly reporting that FDOE had been providing. From April through November 2021, FDOE worked with USED on a solution to replace the monthly cumulative reports with monthly activity reports. On November 5, 2021, USED deleted the following sampling of cumulative reports in FSRS:

S425D210052 - 4 FFATA reports

S425D200052 – 6 FFATA reports

S425C200025 – 7 FFATA reports

During this same time FDOE was enhancing its FLAGS system to generate monthly activity reports instead of monthly cumulative reports. This enhancement was completed in January 2022. In February 2022, FDOE started the process of replacing the deleted cumulative reports with the monthly activity reports. During the Auditor General's (AG) fieldwork in December 2021, FDOE and the AG both discovered that when USED deletes files from FSRS, the history (of when the original files were uploaded) is not maintained in FSRS.

FDOE provided the AG evidence of its communications with USED from April 2021 through January 2022 demonstrating its efforts to replace cumulative reports with monthly activity reports in FSRS. FDOE provided the AG access to the reports that were uploaded to FSRS and subsequently deleted to correct errors. FDOE does not agree that this finding warrants a Disclaimer of Opinion which suggests material and pervasive misstatements in its financial statements because the AG has elected not to review the monthly reports that FDOE stated were uploaded to FSRS in FY 2020-21, but subsequently deleted in November 2021 and reloaded in February 2022.

FDOE informed the AG that some of the reports uploaded in FY2021-22 will also need to be deleted and reloaded with monthly activity data. Since FSRS does not maintain a history of original upload dates, FDOE inquired with the AG if this would warrant a repeat finding in FY2021-22. AG responded that they would not since FDOE had an agreement with USED to delete cumulative reports and reload monthly activity reports. Since the AG agrees that continued deletion and reloading of reports in FSRS will not warrant further findings, FDOE believes that these same actions regarding FY2020-21 reports do not warrant this finding

FDOE management indicated in their written response that the FDOE did not Follow-Up to Management's Response concur with the finding and indicated that the Auditor General elected not to review the monthly reports that were deleted and then reloaded to the FSRS in February 2022. Additionally, the FDOE indicated that they did not agree that the finding warrants a Disclaimer of Opinion which suggests material and pervasive misstatements in the financial statements and that the Auditor General agreed that continued deletion and reloading of reports in the FSRS will not warrant further findings. Notwithstanding, the reports that the FDOE originally provided access to were not sufficient and appropriate audit evidence upon which to render an opinion on compliance with the Reporting compliance requirement because the reports did not originate from the FSRS. Further, the Auditor General was not made aware of the possible availability of reloaded reports in the FSRS until receipt of the FDOE's response to the finding in March 2022, beyond the time frame necessary to permit the performance of sufficient and appropriate audit procedures. Regarding the finding classification, under the Uniform Guidance, a disclaimer of opinion relates to whether an auditee complied with laws, regulations, and the terms and conditions of Federal awards which could have a direct and material effect on the Federal program and does not relate to the financial statements. Lastly, the Auditor General did not agree that the deletion and reloading of reports would not warrant a future finding. Consequently, the finding and related recommendation stand as presented.

## **U.S. DEPARTMENT OF EDUCATION**

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement	<b>2021-047</b> 84.126 <b>Rehabilitation Services Vocational Rehabilitation Grants to States</b> Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, and
State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Reporting Florida Department of Education (FDOE) H126A180087 2019, H126A200087 2020, H126A210087 2021 N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Aware system need improvement to ensure the confidentiality, integrity, and availability of Aware system data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDOE Division of Blind Services uses the Aware system as a client information system to record the progress of services provided to visually impaired clients. The Aware system includes client demographic data, planned and actual services provided to blind clients, program outcomes, provider invoicing, and required FDOE Rehabilitation Services Administration Federal reporting data.
	Our audit disclosed that certain security controls related to Aware system user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising Aware system data and related IT resources. However, we have notified appropriate FDOE management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising Aware system data or related IT resources.
Effect	Appropriate user authentication controls for the Aware system are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of Aware system data and related IT resources.
Recommendation	We recommend that FDOE management improve certain security controls related to Aware system user authentication to ensure the confidentiality, integrity, and availability of Aware system data and related IT resources.
State Entity Response	In the spring of 2020, FDOE recognized deficiencies with the existing on premises Division of Vocational Rehabilitation (DVR) RIMS and Division of Blind Services (DBS) AWARE system. Therefore, FDOE issued a procurement through a NASPO contract in October 2020 to replace the antiquated systems for both DBS and DVR with a modernized secured cloud-hosted AWARE case management system in accordance with Florida Administrative Code 60-GG-2, Florida Cybersecurity Standards. For efficiency purposes, FDOE directed its resources to DVR enterprise, which will replace adequate security controls with enhanced security controls to ensure the successful implementation of the new modernized secured systems. FDOE intends on having this new system implemented by Spring 2023.

Finding	FDOE change management controls need improvement to ensure that only authorized, tested, and approved Aware system program code changes are implemented into the production environment.
Criteria	Effective change management controls are intended to ensure that all program code changes are properly authorized, tested, and approved for implementation into the production environment. Change management controls also promote the accuracy of data changes made in the production environment. Effective change management controls ensure that the established change management process is followed when program code and data changes are implemented into the production environment and that only approved changes are implemented into the production environment.
Condition	The FDOE Division of Blind Services uses the Aware system as a client information system to record the progress of services provided to visually impaired clients. The Aware system includes client demographic data, planned and actual services provided to blind clients, program outcomes, provider invoicing, and required FDOE Rehabilitation Services Administration Federal reporting data.
	To evaluate the appropriateness of FDOE change management controls, we requested a system-generated list of program code changes implemented into the Aware system production environment during the 2020-21 fiscal year. However, the FDOE was unable to provide a system-generated list of the implemented program code changes and, instead, provided a list of program change tickets from the ticketing system. Although the FDOE used a change management system to manage Aware system program code changes, the FDOE had not established controls, such as the use of a reconciliation process, to ensure that all program code changes implemented into the production environment followed the FDOE change management process.
Cause	According to FDOE management, the Aware system does not have the capability to produce a system-generated list of program code changes.
Effect	Without an effective reconciliation process that ensures all program code changes implemented into the Aware system production environment are recorded in the ticketing system, the FDOE has limited assurance that all program code changes are appropriately authorized, tested, approved, and implemented and do not bypass the FDOE change management process.
Recommendation	We recommend that FDOE management enhance change management controls to ensure that all changes to the Aware system are recorded in the ticketing system and do not by bypass the FDOE change management process.
State Entity Response	FDOE utilizes a formal Information System Development Methodology (ISDM) framework to guide the departmental software development lifecycle. FDOE's ISDM outlines the process for planning, defining, designing, building, testing,

deploying, and monitoring code changes. FDOE will implement a reconciliation process and realign all IT staff/procedures within Division of Technology and Innovation to ensure that only approved changes are implemented in production environments.

## **U.S. DEPARTMENT OF EDUCATION**

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-049</b> 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, and Reporting <b>Florida Department of Education (FDOE)</b> H126A180087 2019, H126A200087 2020, H126A210087 2021
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	The report used by the FDOE to conduct periodic Aware system user access privilege reviews did not promote an effective review of the appropriateness of all user accounts. Additionally, the FDOE did not always promptly deactivate Aware system access privileges upon a user's separation from FDOE employment.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk and ensure that information technology (IT) access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FDOE Division of Blind Services uses the Aware system as a client information system to record the progress of services provided to visually impaired clients. The Aware system includes client demographic data, planned and actual services provided to blind clients, program outcomes, provider invoicing, and required FDOE Rehabilitation Services Administration Federal reporting data.
	To conduct periodic Aware system access privilege reviews, FDOE management indicated that the FDOE reviewed a system-generated inactivity report every 60 days to evaluate the appropriateness of user access privileges. Specifically, the FDOE reviewed the Aware system access privileges assigned to the users noted on the inactivity report and verified whether the access privileges were still necessary. Our evaluation of these access privilege review procedures found that, while the system-generated report included users whose Aware system access had been inactive for 60 days, the report did not include users who had changed positions within the FDOE or employees who may no longer require access due to a change in job responsibilities.
	In addition, our review of Aware system user access records for the 15 Aware system users who separated from FDOE employment during the 2020-21 fiscal year disclosed that the FDOE did not timely deactivate the access privileges for 10 of the Aware system users. Specifically, the users' access privileges were deactivated 2 and 28 business days (an average of 10 business days) after the users separated from FDOE employment. Notwithstanding the untimely deactivation of access privileges, our audit tests disclosed that none of the 10 user accounts were used to access the Aware system subsequent to the users' separation dates.
Cause	FDOE management indicated that the FDOE had previously considered the inactivity reports to be sufficient to review user access privileges. In addition,

	FDOE management indicated that the untimely deactivations of Aware system access privileges were due to missing access forms and miscommunication between local offices and the FDOE.
Effect	Periodic reviews of IT user access privileges and prompt deactivation of user access privileges upon an employee's separation from FDOE employment provides FDOE management assurance that user access privileges are authorized and remain appropriate. Additionally, timely deactivation of IT user access privileges limits the potential for unauthorized disclosure, modification, or destruction of FDOE data and IT resources by former employees or others.
Recommendation	We recommend that FDOE management strengthen controls to ensure that FDOE records evidence periodic reviews of the appropriateness of all Aware system user access privileges. We also recommend that FDOE management enhance controls to ensure that Aware system user access privileges are deactivated immediately upon a user's separation from FDOE employment.
State Entity Response	FDOE has a standardized process for managing user access, including the periodic review of role appropriateness. FDOE will evaluate the current process and make modifications to ensure consistent implementation across all divisions and timely access removal.

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	2021-050 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, and Reporting Florida Department of Education (FDOE) H126A200086 2020 and H126A210086 2021 N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the FDOE network need improvement to ensure the confidentiality, integrity, and availability of Rehabilitation Information Management System (RIMS) data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDOE uses RIMS as a case management system for Vocational Rehabilitation clients and to provide data for Federal reporting purposes. Users access RIMS through the FDOE network and then are assigned roles within RIMS.
	Our audit disclosed that certain security controls related to FDOE network user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising RIMS data and related IT resources. However, we have notified appropriate FDOE management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising RIMS data or related IT resources.
Effect	Appropriate user authentication controls for the FDOE network are necessary to decrease the risk that unauthorized individuals may gain access to RIMS and compromise the confidentiality, integrity, and availability of RIMS data and related IT resources.
Recommendation	We recommend that FDOE management improve certain security controls related to FDOE network user authentication to ensure the confidentiality, integrity, and availability of RIMS data and related IT resources.
State Entity Response	In the spring of 2020, FDOE recognized deficiencies with the existing on premises Division of Vocational Rehabilitation (DVR) RIMS and Division of Blind Services (DBS) AWARE system. Therefore, FDOE issued a procurement through a NASPO contract in October 2020 to replace the antiquated systems for both DBS and DVR with a modernized secured cloud-hosted AWARE case management system in accordance with Florida Administrative Code 60-GG-2, Florida Cybersecurity Standards. For efficiency purposes, FDOE directed its resources to DVR enterprise, which will replace adequate security controls with enhanced security controls to ensure the successful implementation of the new modernized secured systems. FDOE intends on having this new system implemented by Spring 2023.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-051</b> 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, and Reporting Florida Department of Education (FDOE) H126A200086 2020 and H126A210086 2021 N/A Significant Deficiency
Finding	FDOE change management controls need improvement to ensure that only authorized, tested, and approved Rehabilitation Information Management System (RIMS) program code changes are implemented into the production environment.
Criteria	Effective change management controls are intended to ensure that all program code changes are properly authorized, tested, and approved for implementation into the production environment. Change management controls also promote the accuracy of data changes made in the production environment. Effective change management controls ensure that the established change management process is followed when program code and data changes are implemented into the production environment and that only approved changes are implemented into the production environment.
Condition	The FDOE uses RIMS as a case management system for Vocational Rehabilitation clients and to provide data for Federal reporting purposes. Users access RIMS through the FDOE network and then are assigned roles within RIMS.
	To evaluate the appropriateness of FDOE change management controls, we requested a system-generated list of program code changes implemented into the RIMS production environment during the 2020-21 fiscal year. However, the FDOE was unable to provide a system-generated list of the implemented program code changes and, instead, provided a list of program change tickets from the ticketing system. Although the FDOE used a change management system to manage RIMS program code changes, the FDOE had not established controls, such as the use of a reconciliation process, to ensure that all program code changes implemented into the production environment followed the FDOE change management process.
Cause	According to FDOE management, RIMS does not have the capability to produce a system-generated list of program code changes.
Effect	Without an effective reconciliation process that ensures all program code changes implemented into the RIMS production environment are recorded in the ticketing system, the FDOE has limited assurance that all program code changes are appropriately authorized, tested, approved, and implemented and do not bypass the FDOE change management process.
Recommendation	We recommend that FDOE management enhance change management controls to ensure that all changes to RIMS are recorded in the ticketing system and do not bypass the FDOE change management process.
State Entity Response	FDOE utilizes a formal Information System Development Methodology (ISDM) framework to guide the departmental software development lifecycle. FDOE's ISDM outlines the process for planning, defining, designing, building, testing, deploying, and monitoring code changes. FDOE will implement a reconciliation process and realign all IT staff/procedures within Division of Technology and

Innovation to ensure that only approved changes are implemented in production environments.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-052 84.126 Rehabilitation Services Vocational Rehabilitation Grants to States
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, and
State Entity Federal Grant/Contract Number and Grant Year	Reporting Florida Department of Education (FDOE) H126A200086 2020 and H126A210086 2021
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Finding	The FDOE was unable to provide system-generated network access controls records evidencing the date that user access rights to the network were disabled or system-generated access control records evidencing the date that a user last accessed the Rehabilitation Information Management System (RIMS). In addition, the FDOE did not periodically review the appropriateness of RIMS user access roles.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Each agency shall ensure that access to information technology (IT) resources is limited to authorized users, processes, or devices, and to authorized activities and transactions. Additionally, agencies shall conduct periodic reviews of access rights based on system categorization or assessed risk and ensure that IT access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FDOE uses RIMS as a case management system for Vocational Rehabilitation clients and to provide data for Federal reporting purposes. Users access RIMS through the FDOE network and then are assigned roles within RIMS.
	As part of our audit, we evaluated FDOE network and RIMS access controls and examined FDOE records to determine whether user access privileges were periodically reviewed for appropriateness and timely disabled upon an employee's separation from FDOE employment. Although we requested, the FDOE was unable to provide system-generated network access controls records evidencing the date that user access rights to the network were disabled or system-generated access control records evidencing the date that a user last accessed RIMS. In addition, FDOE management indicated that the FDOE does not periodically review the appropriateness of the roles assigned to RIMS users to determine whether users may no longer require access due to a change in job responsibilities or positions.
Cause	FDOE management indicated that the FDOE had not established a process to document the date of network deactivation and that RIMS did not have the capability to provide a system-generated report evidencing a user's last log in date. In addition, because RIMS is accessed through the network, FDOE management did not consider a review of RIMS user roles to be necessary.
Effect	Absent the retention of system-generated network and RIMS access control records, the FDOE cannot adequately demonstrate the prompt deactivation of

	user access privileges and the risk is increased that the FDOE may not have sufficient documentation to assist in future investigations of security incidents, should they occur. In addition, periodic reviews of IT user access privileges provide FDOE management assurance that user access privileges are authorized and remain appropriate.
Recommendation	We recommend that FDOE management ensure that system-generated network and RIMS access control records are maintained. We also recommend that FDOE management strengthen controls to ensure that periodic reviews of the appropriateness of RIMS user roles are conducted and documented in FDOE records.
State Entity Response	FDOE has a standardized process for managing user access, including the periodic review of role appropriateness. FDOE will evaluate the current process and make modifications to ensure consistent implementation across all divisions and timely access removal.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-053</b> 84.365 English Language Acquisition State Grants
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Matching, Level of Effort, Earmarking Florida Department of Education (FDOE) S365A190009 2019 and S365A200009 2020
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Comprehensive Management Information System (CMIS) need improvement to ensure the confidentiality, integrity, and availability of CMIS data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDOE uses the CMIS to collect student and staff data for use in funding, State reporting, Federal reporting, and leadership decisions. Our audit disclosed that certain security controls related to CMIS user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising CMIS data and related IT resources. However, we have notified appropriate FDOE management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising CMIS data or related IT resources.
Effect	Appropriate user authentication controls for the CMIS are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of CMIS data and related IT resources.
Recommendation	We recommend that FDOE management improve certain security controls related to CMIS user authentication to ensure the confidentiality, integrity, and availability of CMIS data and related IT resources.
State Entity Response	During the audit period, FDOE contends that the security controls for CMIS were the maximum controls allowable based on the legacy environment in which the system was hosted. However, this system was migrated to a cloud-based environment with enhanced security control options. FDOE is currently working with our vendor to implement the enhanced controls in accordance with Florida Administrative Code 60-GG-2.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-054 84.365 English Language Acquisition State Grants (ELAG)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Matching, Level of Effort, Earmarking Florida Department of Education (FDOE) S365A190009 2019 and S365A200009 2020
Statistically Valid Sample Finding Type Prior Year Finding	No Significant Deficiency Report No. 2021-182, Finding No. 2020-029
Finding	FDOE records did not demonstrate that Comprehensive Management Information System (CMIS) software changes were appropriately tested or approved.
Criteria	Florida Department of Management Services Rule 60GG-2.003(5), Florida Administrative Code – <i>Information Protection Processes and Procedures</i> – Each agency shall ensure that security policies, processes, and procedures are maintained and used to manage protection of information systems and assets. Such policies, processes, and procedures shall establish a configuration change control process to manage upgrades and modifications to existing information technology resources and develop a process to review and approve proposed changes.
	Effective change management controls are intended to ensure that all program modifications are properly authorized, tested, and approved for implementation into the production environment. Effective change management controls also ensure that the established change management process is followed when program cost changes are implemented into the production environment and only approved changes are implemented into the production environment.
Condition	The FDOE uses the CMIS to collect student and staff data for use in funding, State reporting, Federal reporting, and leadership decisions. According to FDOE records, the FDOE implemented 33 software changes for the CMIS during the 2020-21 fiscal year. Our examination of FDOE records for 4 of the changes found that FDOE records did not evidence programmer testing or program code approval by personnel independent of the programming team for all 4 changes and, for 2 of the changes, FDOE records did not evidence program code validation prior to implementation by an individual independent of the programming team. In addition, for 2 of the changes, FDOE records did not evidence user testing of the changes.
Cause	FDOE management indicated that, in response to the prior audit finding, the FDOE established new forms and controls, but due to the timing of the audit report, the new forms and controls were not fully implemented during the 2020-21 fiscal year.
Effect	Absent adequate change management controls to ensure that FDOE records evidence that all CMIS changes are independently tested and approved, the risk is increased that unauthorized or erroneous changes could be moved into production without timely detection.
Recommendation	We recommend that the FDOE enhance CMIS change management controls to ensure that all changes are appropriately tested and approved.
State Entity Response	FDOE utilizes a formal Information System Development Methodology (ISDM) framework to guide the departmental software development lifecycle. FDOE's ISDM outlines the process for planning, defining, designing, building, testing,

deploying, and monitoring code changes. FDOE will implement a reconciliation process and realign all IT staff/procedures within Division of Technology and Innovation to ensure that only approved changes are implemented in production environments.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-055 84.365 English Language Acquisition State Grants (ELAG)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Matching, Level of Effort, Earmarking Florida Department of Education (FDOE) S365A190009 2019 and S365A200009 2020
	N/A Significant Deficiency
Finding	The FDOE did not conduct periodic Comprehensive Management Information System (CMIS) user access privilege reviews or timely deactivate the CMIS user accounts for employees who separated from FDOE employment.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk and ensure that information technology (IT) access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FDOE uses the CMIS to collect student and staff data for use in funding, State reporting, Federal reporting, and leadership decisions. To obtain an understanding of FDOE user access privilege review processes for the CMIS, we inquired of FDOE management who indicated that, during the 2020-21 fiscal year, the FDOE did not complete a review of CMIS user access privileges.
	Our examination of access records for the four CMIS users who separated from FDOE employment during the 2020-21 fiscal year disclosed that the FDOE did not timely deactivate the users' access privileges. Specifically, the users' access privileges were deactivated 7, 229, 250, and 335 business days after the users' separation from FDOE employment. Notwithstanding the untimely deactivation of access privileges, our audit tests disclosed that none of the four user accounts were used to access the CMIS subsequent to the users' separation dates.
Cause	FDOE management indicated that a user access privilege review had not been performed due to limited resources and that the untimely deactivations of CMIS access privileges were to employee oversight.
Effect	Periodic reviews of IT user access privileges and prompt deactivation of user access privileges upon an employee's separation from FDOE employment provides FDOE management assurance that user access privileges are authorized and remain appropriate. Additionally, timely deactivation of IT user access privileges limits the potential for unauthorized disclosure, modification, or destruction of FDOE data and IT resources by former employees or others.
Recommendation	We recommend that FDOE management ensure that periodic reviews of CMIS user access privileges are adequately performed and documented in FDOE records. We also recommend that FDOE management enhance controls to ensure that CMIS user access privileges are deactivated immediately upon a user's separation from FDOE employment.
State Entity Response Report No. 2022-189	FDOE has a standardized process for managing user access, including the periodic review of role appropriateness. FDOE will evaluate the current process

and make modifications to ensure consistent implementation across all divisions and timely access removal.

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	2021-056 84.425 C, D (Includes COVID-19 Awards) Education Stabilization Fund (ESF) – Governor's Emergency Education Relief Fund, Elementary and Secondary School Emergency Relief Fund Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Equipment/Real Property Management, Reporting, and Subrecipient Monitoring Florida Department of Education (FDOE) S425C200025 2020, S425D20052 2020, S425D210052 2021 N/A Material Weakness and Disclaimer of Opinion: Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Equipment/Real Property Management, and Reporting Opinion Qualification: Subrecipient Monitoring
Finding	FDOE monitoring activities did not validate the allowability of actual subrecipient ESF program expenditures nor did the FDOE require all subrecipients to provide a Budget Narrative Form documenting the financial plan and uses of funds for carrying out project objectives, services, and activities. In addition, the FDOE did not evaluate subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or perform monitoring activities based on the assessed risk of noncompliance.
Criteria	2 CFR 200.332 – <i>Requirements for pass-through entities</i> – All pass-through entities must evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved.
	2 CFR 200.403 – <i>Factors affecting allowability of costs</i> – Costs must be adequately documented to be allowable under Federal awards.
	34 CFR 76.720 – <i>State reporting requirements</i> – A state must submit reports required by the United States Department of Education (USED).
	Federal Register, Volume 85, No. 146, issued Wednesday, July 29, 2020 – <i>Education Stabilization Fund</i> – <i>Elementary and Secondary School Emergency Relief (ESSER) Fund Recipient Data Collection Form</i> . This guidance provides for an annual collection of data pertaining to the uses of funds under the ESSER Fund.
	USED – Certification and Agreement for Funding under the Education Stabilization Fund Program Elementary and Secondary School Emergency Relief Fund – The State Educational Agency will comply with all reporting requirements, including those in Section 15011(b)(2) of Division B of the CARES Act, and submit required quarterly reports to the Secretary at such time and in such manner and containing such information as the Secretary may subsequently require.
	FDOE Project Application and Amendment Procedures for Federal and State Programs – Green Book
Condition	As illustrated below, during the 2020-21 fiscal year, the FDOE expended ESF (ESSER and Governor's Emergency Education Relief (GEER)) program funds totaling \$923.2 million.

Program	Count of Subawards	2020-21 Fiscal Year Expenditures
ESSER I	312	\$524,435,769
ESSER II	42	293,393,718
GEER I	544	105,384,604
Total	<u>898</u>	<u>\$923,214,091</u>

FDOE procedures required all applicants for FDOE subawards to provide, prior to award, a Budget Narrative Form documenting the financial plan and uses of funds for carrying out project objectives, services, and activities. FDOE procedures also required subrecipients to maintain documentation for all expenditures and, upon completion of the project, to submit to the FDOE a Final Project Disbursement Report of actual expenditures incurred. To validate the allowability of the expenditures, the FDOE was to conduct monitoring, which may include but was not limited to, on-site visits, limited-scope audits, and reviewing information gathered from required reports.

Our inquiries of FDOE management disclosed that, although \$629,820,373 in ESSER I and GEER I funds were expended during the 2020-21 fiscal year, the FDOE did not perform monitoring activities subsequent to the approval of the subrecipients' Budget Narrative Forms to validate the allowability of the subrecipients' actual expenditures. As a result, we could not determine whether the expenditures, including expenditures for equipment and real property, were allowable and in accordance with the grant terms and conditions. We also could not validate information reported in the annual report submitted to the USED. In addition, although the FDOE subawarded ESSER II funds to 42 subrecipients in May 2021, the FDOE did not require the subrecipients to provide a Budget Narrative Form prior to the approval of the subaward.

Our audit also found that the FDOE did not evaluate the risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for all ESF program subrecipients to determine the appropriate subrecipient monitoring.

Cause According to FDOE management, the FDOE considered review of the subaward applicants' Budget Narrative Forms to be subrecipient monitoring. In addition, FDOE management indicated that the ESSER II funds were advanced to the subrecipients prior to obtaining Budget Narrative Forms due to time constraints and to ensure that the subrecipients had sufficient funding. Finally, the FDOE did not evaluate the risk of subrecipient noncompliance or otherwise monitor the subrecipients due to competing priorities.

Effect Absent monitoring activities that validate the allowability of actual subrecipient expenditures and the receipt of Budget Narrative Forms from all subrecipients prior to subaward approval, the FDOE has limited assurance that subrecipient ESF program expenditures are for allowable purposes or that the annual report submitted to the USED is accurate. In addition, without an evaluation of the risk of subrecipient noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward, and developing an appropriate monitoring plan based on the assessment of risk, the FDOE has reduced assurance that subrecipients were compliant with financial and programmatic grant agreement requirements.

**Recommendation** We recommend that FDOE management evaluate each subrecipient's risk of noncompliance and, based on the assessment of risk, conduct monitoring activities that: validate the allowability of ESF program expenditures; verify the accuracy of annual report information submitted to the USED; and confirm each

subrecipient's compliance with Federal statutes, regulations, and the terms and conditions of the subaward.

State Entity Response The Department does not concur with this finding that it did not engage in subrecipient monitoring or risk analysis for the Education Stabilization Fund (ESF) programs in 2020-21. Subrecipient monitoring begins with application and budget review. For all ESF programs except the ESSER II Advance Lump Sum program, FDOE required LEAs to submit an application and detailed budget outlining anticipated expenditures. FDOE reviews the detailed budget to ensure all anticipated expenditures are allowable prior to making the award. In addition, all subgrantees undergo a risk analysis prior to receiving an award. At the end of the program period, LEAs submit a Final Disbursement Report that aids in verifying that actual expenditures match the approved budget. All LEAs in Florida are subject to an annual independent audit and a federal single audit. All these activities constitute monitoring.

In addition to these activities, FDOE does plan to contract for additional subrecipient monitoring to include sampling expenditures, procurement activities, inventories and other programmatic requirements. This monitoring will occur within the program period. All the ESF programs are multi-year programs, still within the program period.

The only exception made to require a detailed budget in advance of the award was for the ESSER II advance lump sum. To ensure that there would be no gap in receipt of stabilization funds and in light of the emergency nature of the program, FDOE provided an advance allocation of ESSER II funds to those school districts having expended a large proportion of their ESSER I funds, without having to submit a detailed budget for approval in advance of the award; however, these districts were required to submit a detailed list of actual or planned expenditures for the advance prior to receiving the balance of their ESSER II lump sum award. Therefore, the expenditures are indeed subject to review by FDOE. Prior to proceeding in this manner, FDOE obtained a legal opinion that this procedure was legally sufficient and has provided the opinion to the auditors.

FDOE disagrees that because the "FDOE did not perform monitoring activities subsequent to the approval of the subrecipients' Budget Narrative forms to validate the allowability of the subrecipients' actual expenditures," the auditors "could not determine whether the expenditures, including expenditures for equipment and real property" were allowable and in accordance with the grant terms and conditions." All expenditures are required to be documented by all subrecipients and are subject to sampling and validation by auditors using ordinary sampling and verification. Indeed, it is recognized that fiscal monitoring and auditing should not be duplicative; FDOE is not required to monitor those requirements covered by the single audit. The very fact that every LEA in Florida is covered by an independent audit that includes the federal single audit is an element of monitoring that ensures compliance.

**Follow-Up to Management's Response FDOE** management indicated in their written response that the FDOE did not concur with the finding and cited various activities that constituted monitoring, among others, that the LEAs are covered by an independent audit that includes the Federal single audit. However, the Uniform Guidance requires additional monitoring efforts conducted by the pass-through entity (i.e., the FDOE), including an evaluation of subrecipient risk and conduct of subrecipient monitoring to ensure that the subaward is used for authorized purposes. As indicated in the finding, the FDOE did not evaluate the LEAs' risk of noncompliance to determine the appropriate subrecipient monitoring and, as noted in the FDOE's response, the FDOE plans to contract for subrecipient monitoring, including a sampling of expenditures. Consequently, the finding and related recommendation stand as presented.

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	2021-057 84.425 C (Includes COVID-19 Awards) Education Stabilization Fund (ESF) – Governor's Emergency Education Relief Fund Procurement and Suspension and Debarment and Subrecipient Monitoring Florida Department of Education (FDOE) S45C200025 2020 No Noncompliance and Significant Deficiency
Finding	The FDOE did not always provide required award information to all subrecipients or verify the suspension and debarment status of subrecipients.
Criteria	2 CFR Part 200.332 – <i>Requirements for pass-through entities</i> – All pass-through entities must ensure that every subaward is clearly identified to the subrecipient as a subaward and include certain information at the time of the subaward.
	2 CFR Part 180.300 – What must I do before I enter into a covered transaction with another person at the next lower tier? - When you enter into a covered transaction with another person at the next lower tier, you must verify that the person with whom you intend to do business is not excluded or disqualified. You do this by: (a) Checking System for Award Management (SAM) Exclusions, (b) Collecting a certification from that person, or (c) Adding a clause or condition to the covered transaction with that person.
Condition	During the 2020-21 fiscal year, the FDOE awarded ESF program funds totaling \$1,771,076,575 to 192 subrecipients through 898 subawards. Our inquiries of FDOE management disclosed that, for 138 subawards to charter schools totaling \$17,782,347, the FDOE utilized a Memorandum of Understanding (MOU) as the subaward agreement. Our review of the MOU found that it did not include all the information required by Federal regulations. For example, the MOU did not include the Assistance Listing number and name, Federal award date, or terms and conditions concerning closeout of the subaward. In addition, our inquiries of FDOE management disclosed that the FDOE did not verify that the 138 subrecipients were not suspended or debarred.
Cause	FDOE management indicated that all required award information was not provided to the charter school subrecipients and the suspension and debarment status of the charter school subrecipients was not verified because the FDOE did not follow normal procedures for program awards, the use of the MOU, and employee oversight.
Effect	Not communicating required information to subrecipients may result in noncompliance with Federal regulations. Additionally, absent the verification of the suspension and debarment status of all subrecipients, the risk is increased that the FDOE may enter into covered transactions with subrecipients who have been suspended, debarred or otherwise excluded by the Federal Government and ESF program funds provided to ineligible subrecipients could be subject to disallowance by the U.S. Department of Education.
Recommendation	We recommend that the FDOE ensure that all required award information is provided to all subrecipients and that the FDOE verifies that all subrecipients are not suspended or debarred.

**State Entity Response** The Florida Department of Education (FDOE or Department) concurs with the findings and recommendations during the audit period and has already addressed the auditor's recommendations.

Since the Memorandum of Understanding (MOU) served as the subaward agreement, the elements required under 2 CFR § 200.332 should have been included in the agreement and were not. Communications to the recipients did identify the Governor's Emergency Education Relief (GEER) program as the source of funding, and based on the circumstances, it was clear that the relationship was a subgrant relationship. None of the subrecipients were, in fact, suspended or debarred. As thoroughly vetted public schools that are subject to audit and financial regulation, the subrecipients in question were low risk, especially since the payments were on a reimbursement basis.

In the future, if MOUs are used as a vehicle for a subgrant, FDOE will include those elements required by 2 CFR § 200.332 in the MOU and will verify that the subrecipients are not suspended or debarred. Under the GEER program, 138 subawards to charter schools were issued. GEER is intended to provide immediate relief to educational entities to ensure continued operation of schools in the wake of the COVID-19 pandemic. The Charter School Growth Funding program provided relief to charter schools that provided instructional services for a significant number of students above the number of full-time equivalent (FTE) students for which they were funded through the Florida Education Finance Program (FEFP), and for many schools above their projected enrollment. A MOU was chosen as the vehicle for this program because it was the most expeditious means of providing this relief. Federal grant funds for charter schools usually flow from FDOE through the sponsoring school district, so there were no existing pathways and infrastructure for direct subgrants to charter schools. Building the program supports, contacts, procedures, and expertise for a traditional subgrant award process was too slow and unnecessarily time-consuming, given the nature of the program. Under the MOU process, FDOE required the charter school to submit documentation of allowable expenditures prior to releasing a reimbursement under the MOU. By making funds available on a reimbursement basis, FDOE ensured that all expenditures were allowable prior to the release of any funds.

Finding	Certain security controls related to user authentication for the FDCF network need improvement to ensure the confidentiality, integrity, and availability of Axiom Pro data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDCF uses Axiom Pro to access imaged expenditure documentation for the Emergency Solutions Grant Program, Temporary Assistance for Needy Families Program, and the Adoption Assistance Program. Users can access Axiom Pro through the FDCF network or a separate sign-in through the Axiom Pro application. Our audit disclosed that certain security controls related to FDCF network user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising Axiom Pro data and related IT resources. However, we have notified appropriate FDCF management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising Axiom Pro data or related IT resources.
Effect	Appropriate user authentication controls for the FDCF network are necessary to decrease the risk that unauthorized individuals may gain access to Axiom Pro and compromise the confidentiality, integrity, and availability of Axiom Pro data and related IT resources.
Recommendation	We recommend that FDCF management improve certain security controls related to FDCF network user authentication to ensure the confidentiality, integrity, and availability of Axiom Pro data and related IT resources.
State Entity Response	The Department concurs and will review current system functionality, software capabilities, and planned enhancement initiatives based on the analysis and final determination. The Department will document a position on implementing Multi-Factor Authentication (MFA) by September 30, 2022. The Department will also identify the financial and operational enforcement measures necessary to support the implementation of MFA.

Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Grants and Other Revenue, Allocation and Tracking System (GRANTS) need improvement to ensure the confidentiality, integrity, and availability of GRANTS data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDCF uses GRANTS to track grant expenditures and revenues, to assign expenditures to funding sources, to calculate Federal grant earnings, and to assist in financial and Federal reporting and the drawing of cash from the Federal Government.
	Our audit disclosed that certain security controls related to GRANTS user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising GRANTS data and related IT resources. However, we have notified appropriate FDCF management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising GRANTS data or related IT resources.
Effect	Appropriate user authentication controls for GRANTS are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of GRANTS data and related IT resources.
Recommendation	We recommend that FDCF management improve certain security controls related to GRANTS user authentication to ensure the confidentiality, integrity, and availability of GRANTS data and related IT resources.
State Entity Response	The Department concurs and will review current system functionality, software capabilities, and planned enhancement initiatives based on the analysis and final determination. The Department will document a position on implementing Multi-Factor Authentication (MFA) by September 30, 2022. The Department will also identify the financial and operational enforcement measures necessary to support the implementation of MFA.

Finding	Certain security controls related to user authentication for the Florida Online Recipient Integrated Data Access (FLORIDA) system need improvement to ensure the confidentiality, integrity, and availability of FLORIDA system data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDCF uses the FLORIDA system as a public assistance eligibility determination system. Our audit disclosed that certain security controls related to FLORIDA system user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising FLORIDA system data and related IT resources. However, we have notified appropriate FDCF management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising FLORIDA system data or related IT resources.
Effect	Appropriate user authentication controls for the FLORIDA system are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of FLORIDA system data and related IT resources.
Recommendation	We recommend that FDCF management improve certain security controls related to FLORIDA system user authentication to ensure the confidentiality, integrity, and availability of FLORIDA system data and related IT resources.
State Entity Response	The Department concurs and will review current system functionality, software capabilities, and planned enhancement initiatives based on the analysis and final determination. The Department will document a position on implementing Multi-Factor Authentication (MFA) by September 30, 2022. The Department will also identify the financial and operational enforcement measures necessary to support the implementation of MFA.

#### U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES U.S. DEPARTMENT OF AGRICULTURE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT U.S. DEPARTMENT OF LABOR U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement State Entity	<ul> <li>2021-061</li> <li>Various (See Condition)</li> <li>Various (See Condition)</li> <li>Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, Period of Performance, Reporting, Subrecipient Monitoring, and Special Tests and Provisions</li> <li>Florida Department of Management Services (FDMS)</li> </ul>
Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	Various N/A Significant Deficiency Report No. 2021-182, Finding No. 2020-031
Finding	In our information technology (IT) operational audit report titled <i>Department of Management Services – State Data Center Operations</i> , dated March 2022, we noted in Finding 4 that State Data Center (SDC) processes for performing and documenting periodic access reviews for the network, Windows server, open systems, and Oracle database environments did not adequately ensure that assigned access privileges remained appropriate.
Criteria	FDMS Rule 60GG-2.003(1)(a)6., Florida Administrative Code – <i>Access Control</i> – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk.
Condition	The SDC, established within the FDMS, provides data center services for customer entities. As part of our IT operational audit and evaluation of SDC access controls, we noted that SDC periodic access privilege review processes did not adequately ensure that assigned access privileges remained appropriate. Specifically:
	<ul> <li>In response to our request for documentation of periodic reviews performed for Windows server local administrative accounts and Active Directory administrative accounts, SDC management indicated that, in accordance with the SDC Active Directory Account Audit Procedure, periodic reviews of administrative accounts were initiated using a scheduled task that ran a script biweekly in all SDC-managed domains. The script generated a report of administrative accounts for each domain and automatically converted the reports to service requests requiring SDC personnel review. Our examination of the reports generated on June 14, 2021, and June 28, 2021, found that the reports did not include all administrative accounts for the respective domains. Instead, the script only reported the Enterprise, Schema, and Domain Admins security groups for Active Directory and did not include in the reports the Administrators security group. Additionally, reports were not generated, nor was access reviewed, for Windows server local administrative accounts.</li> <li>For Oracle database access, SDC management only reviewed the access of Database Section personnel on an annual basis and the reviews were limited to verifying the authorizations for individually assigned accounts in the service management system. Additionally, the reviews were not conducted from a system-generated listing of all active administrative Oracle database</li> </ul>

accounts and, as a result, administrative accounts for the SDC-managed Oracle databases could be omitted from review.

• For open systems access, SDC management annually reviewed administrative-level access to the open systems servers by verifying the access authorizations in the service management system for Open Systems Section personnel. However, the reviews were not conducted using a system-generated list of the administrative-level accounts for each server and, as a result, accounts on the open systems servers could be omitted from review.

The SDC provides services for various systems managed by the Florida Department of Children and Families (FDCF), Florida Division of Emergency Management (FDEM), Florida Department of Economic Opportunity (FDEO), Florida Department of Health (FDOH), and the Florida Department of Revenue (FDOR). Systems at the FDCF include the Florida Online Recipient Integrated Data Access System, the GRANT System, the Collocated Cost Journal Transfer System, and the Integrated Benefit Recovery System. The system at the FDEM is the Florida PA System. The system at the FDEO is the Reemployment Assistance Claims and Benefits Information System (RA System). The system at the FDOH is the Management Information and Payment System. The system at the FDOR is the System for Unified Taxation.

These systems are used to administer aspects of the following major Federal programs:

10.558 – Child and Adult Care Food Program (Includes COVID-19 Awards)

14.231 – Emergency Solutions Grant Program (Includes COVID-19 Awards)

17.225 - Unemployment Insurance (Includes COVID-19 Awards)

93.558 – Temporary Assistance for Needy Families

93.659 - Adoption Assistance (Includes COVID-19 Awards)

93.775, 93.777, and 93.778 – Medicaid Cluster (Includes COVID-19 Awards)

97.036 – Disaster Grants – Public Assistance (Presidentially Declared Disasters) (Includes COVID-19 Awards)

In response to our audit inquiry, SDC management indicated the following:

- The script used to assist in the periodic review of Windows server local administrative accounts and Active Directory administrative accounts was created in 2017 and, although modified in 2018, neither the *Administrators* security group nor the Windows server local administrative accounts were added to the script.
- The existing reviews of Oracle database access were sufficient. Notwithstanding, the reviews excluded access assigned to shared administrative accounts and accounts assigned to individuals outside of the Database Section, such as SDC personnel, customer entities, and historical accounts from prior data center administrations.
- The reviews of open system access were sufficient because all Open Systems personnel with root shell access had the same access privileges for all open systems servers, and that periodic reviews on a server-by-server basis would yield the same results as the existing reviews from the service management system. Notwithstanding, the reviews performed excluded access assigned to individuals outside the Open Systems Section, such as other SDC personnel, SDC customer entities, and historical accounts from prior data center administrations.

Cause

Effect	Absent comprehensive reviews of logical access privileges using system-generated lists, management's assurance that access privileges were properly authorized and remain appropriate is limited.
Recommendation	We recommend that SDC management ensure that comprehensive and documented periodic reviews of logical access privileges are conducted using system-generated lists of all user and service accounts.
State Entity Response	The SDC will continue to improve and enhance the process and scope related to review of access privileges.

#### U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES U.S. DEPARTMENT OF AGRICULTURE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT U.S. DEPARTMENT OF LABOR U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-062 Various (See Condition) Various (See Condition)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, Period of Performance, Reporting, Subrecipient Monitoring, and Special Tests and Provisions
State Entity Federal Grant/Contract	Florida Department of Management Services (FDMS) Various
Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	N/A Significant Deficiency Report No. 2021-182, Finding Nos. 2020-030 and -032
Finding	In our information technology (IT) operational audit report titled <i>Department of Management Services – State Data Center Operations</i> , dated March 2022, we noted in Finding 7 that certain State Data Center (SDC) security controls related to logical access, user authentication, and logging and monitoring need improvement to ensure the confidentiality, integrity, and availability of SDC and customer entity data and related IT resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of data and IT resources.
Condition	The SDC, established within the FDMS, provides data center services for customer entities. Our IT operational audit procedures disclosed that certain SDC security controls related to logical access, user authentication, and logging and monitoring need improvement. We are not disclosing specific details of the issues in this report to avoid the possibility of compromising customer entity data and related IT resources. However, we have notified appropriate SDC management of the specific issues.
	The SDC provides services for various systems managed by the Florida Department of Children and Families (FDCF), Florida Division of Emergency Management (FDEM), Florida Department of Economic Opportunity (FDEO), Florida Department of Health (FDOH), and the Florida Department of Revenue (FDOR). Systems at the FDCF include the Florida Online Recipient Integrated Data Access System, the GRANT System, the Collocated Cost Journal Transfer System, and the Integrated Benefit Recovery System. The system at the FDEM is the Florida PA System. The system at the FDEO is the Reemployment Assistance Claims and Benefits Information System (RA System). The system at the FDOH is the Management Information and Payment System. The system at the FDOR is the System for Unified Taxation.

	These systems are used to administer aspects of the following major Federal programs:
	10.558 – Child and Adult Care Food Program (Includes COVID-19 Awards)
	14.231 – Emergency Solutions Grant Program (Includes COVID-19 Awards)
	17.225 – Unemployment Insurance (Includes COVID-19 Awards)
	93.558 – Temporary Assistance for Needy Families
	93.659 – Adoption Assistance (Includes COVID-19 Awards)
	93.775, 93.777, and 93.778 – Medicaid Cluster (Includes COVID-19 Awards)
	97.036 – Disaster Grants – Public Assistance (Presidentially Declared Disasters) (Includes COVID-19 Awards)
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising SDC data and related IT resources.
Effect	Without appropriate security controls related to logical access, user authentication, and logging and monitoring, the risk is increased that the confidentiality, integrity, and availability of SDC and customer entity data and related IT resources may be compromised.
Recommendation	We recommend that SDC management improve certain security controls related to logical access, user authentication, and logging and monitoring to ensure the confidentiality, integrity, and availability of SDC and customer entity data and related IT resources.
State Entity Response	The Department will continue to evaluate and improve security controls to ensure the confidentiality, integrity and availability of data and IT resources.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-063 93.558 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) Temporary Assistance for Needy Families and Medicaid Cluster

Finding	Certain security controls related to user authentication for the Automated Community Connection to Economic Self Sufficiency (ACCESS) Document Imaging (ADI) system need improvement to ensure the confidentiality, integrity, and availability of ADI system data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDCF uses the ADI system to electronically store documents used to determine eligibility and support benefit recovery, quality control, hearings, and ACCESS Integrity findings.
	Our audit disclosed that certain security controls related to ADI system user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising ADI system data and related IT resources. However, we have notified appropriate FDCF management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising ADI system data or related IT resources.
Effect	Appropriate user authentication controls for the ADI system are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of ADI system data and related IT resources.
Recommendation	We recommend that FDCF management improve certain security controls related to ADI system user authentication to ensure the confidentiality, integrity, and availability of ADI system data and related IT resources.
State Entity Response	The Department concurs and will review current system functionality, software capabilities, and planned enhancement initiatives based on the analysis and final determination. The Department will document a position on implementing Multi-Factor Authentication (MFA) by September 30, 2022. The Department will also identify the financial and operational enforcement measures necessary to support the implementation of MFA.

Finding Number Assistance Listing Number	<b>2021-064</b> 93.558 93.659 (Includes COVID-19 Awards)
Assistance Listing Program Title	Temporary Assistance for Needy Families (TANF) and Adoption Assistance
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample	Reporting Florida Department of Children and Families (FDCF) 2001FLTANF 2020, 2101FLTANF 2021, 2001FLADPT 2020, 2101FLADPT 2021 No
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDCF did not report timely or accurately report the correct subaward information in the Federal Funding Accountability and Transparency Act (FFATA) Subaward Reporting System (FSRS) in accordance with Federal regulations.
Criteria	2 CFR 170, Appendix A – <i>Reporting Subawards and Executive Compensation</i> – Unless otherwise exempt, you must report each action that equals or exceeds \$30,000 in Federal funds for a subaward to a non-Federal entity or Federal agency no later than the end of the month following the month in which the obligation was made.
Condition	During the 2020-21 fiscal year, the FDCF initiated 115 subaward actions that required reporting in the FSRS. As part of our audit, we examined the subaward information in the FSRS for 13 subaward actions and noted the following:
	• The FDCF did not report 1 subaward in the FSRS.
	• For 12 subawards, the FDCF did not report the correct subaward obligation/action date. In addition, the FDCF could not provide documentation evidencing that the subawards were reported in the FSRS by the end of the month following the month in which the obligation was made.
	• For 3 subawards, the FDCF did not report the amount of the subaward for Adoption Assistance and, for 2 of the subawards, the subaward amounts reported for TANF were overstated in the FSRS by \$22,216 and \$30,117.
Cause	According to FDCF management:
	• The FDCF did not report the 1 subaward in the FSRS because the subrecipient's Dun & Bradstreet (DUNS) number was not available in the FSRS.
	• For the 12 subawards, the FDCF reported the date that the Federal award was received by the FDCF instead of the date of the subaward obligation due to a misunderstanding of what the field represented. Additionally, the date that the subaward was reported in the FSRS could not be provided because the FDCF was unable to access the report in the FSRS.
	• For the 3 subawards, the amount for Adoption Assistance was not reported because of an error in how the award was established in the FSRS. Additionally, for the 2 subawards, the FDCF reported the incorrect amount due to employee error.
Effect	TANF and Adoption Assistance subaward amounts were not accurately reported in the FSRS as required by FFATA.
Recommendation	We recommend that the FDCF contact the FSRS helpdesk to resolve subaward information reporting errors. In addition, FDCF management should ensure that

correct subaward dates and amounts are timely and accurately reported in the FSRS.

**State Entity Response** The Department concurs. The Federal Funding Accountability and Transparency Act (FFATA) requires the Department to enter subawards into the Federal Subaward Reporting System (FSRS) no later than the month following the month in which the obligation (subaward) was made.

The finding is a result of FSRS system limitations, errors in SAM.gov which feeds into the FSRS system, and employee turn-over. The Department has contacted the appropriate Federal liaisons to correct the information in SAM.gov. In addition, the Department is developing a process to streamline gathering the FFATA data and entering it into the FSRS system. This process will ensure that all required reporting elements are captured and documented in a set of desktop procedures. Once fully developed, training will be provided to staff on the new processes.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-065 93.558 93.659 (Includes COVID-19 Awards) Temporary Assistance for Needy Families and Adoption Assistance
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Subrecipient Monitoring <b>Florida Department of Children and Families (FDCF)</b> 2001FLTANF 2000, 2021FLTANF 2021, 2001FLADPT 2000, and 2102FLADPT 2021 No Noncompliance and Significant Deficiency
Finding	The FDCF did not provide all required award information to subrecipients.
Criteria	2 CFR Part 200.332 – <i>Requirements for pass-through entities</i> – All pass-through entities must ensure that every subaward is clearly identified to the subrecipient as a subaward and include certain information at the time of the subaward. Required information includes the Federal Award Identification Number (FAIN) and the Federal award date.
Condition	During the 2020-21 fiscal year, the FDCF awarded TANF and Adoption Assistance program funds totaling \$2,491,811 for 2 subawards and expended \$421,469,733 for 108 existing TANF and Adoption Assistance subawards. Our inquiries of FDCF management disclosed that the FDCF utilized a standard subaward contract and a post award notice (PAN) to provide subrecipients with required award information. Our review of the subaward contract and PAN found that neither document included the FAIN or the Federal award date.
Cause	FDCF management indicated that the FAIN and Federal award date were not included in either the subaward contract or PAN due to logistical issues.
Effect	Not communicating required award information to subrecipients may result in noncompliance with Federal regulations.
Recommendation	We recommend that the FDCF revise subaward documentation to include all required award information to be provided to subrecipients in accordance with Federal regulations.
State Entity Response	The Department concurs. Uniform Grant Guidance 2 CFR 200.332 requires the Department, as the pass-through entity, to provide the subrecipient with certain criteria at the time of the subaward including the Federal Award Identification Number (FAIN) and the Federal award date.
	The Department recognized this prior to the recommendation and has already addressed how to utilize available resources and reporting systems to extract the data to meet the requirement. The Department has implemented the use of the SQL Server Management System, Contract Accountability Reporting System, and Florida Accounting Information Resource to produce the Post Award Notice (PAN) to include the Federal Award Identification Number and the Federal award date, as available (some have yet to be provided by the Federal Awarding agency). On February 22, 2022, the first PAN with this information (as of January 2022) was distributed.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-066</b> 93.044, 93.045, and 93.053 (Includes COVID-19 Awards) <b>Aging Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Reporting Florida Department of Elder Affairs (FDOEA) 2101FLOASS 2021, 2101FLOACM 2021, 2101FLOAHD 2021, 2101FLOAPH 2021, 2101FLOAFC 2021, 2101FLOANS 2021, 2001FLSSC3 2020, 2001FLHDC3 2020, and 2001FLFCC3 2020
Statistically Valid Sample Finding Type	No Noncompliance and Significant Deficiency
Finding	The FDOEA did not always report the correct subaward amounts in the Federal Funding Accountability and Transparency Act (FFATA) Subaward Reporting System (FSRS) in accordance with Federal regulations.
Criteria	2 CFR 170, Appendix A – <i>Reporting Subawards and Executive Compensation</i> – Unless otherwise exempt, you must report each action that equals or exceeds \$30,000 in Federal funds for a subaward to a non-Federal entity or Federal agency.
Condition	During the 2020-21 fiscal year, the FDOEA initiated 41 subaward actions that required reporting in the FSRS. As part of our audit, we examined the subaward information in the FSRS for 5 subaward actions, totaling \$18,123,395, and noted that the FDOEA did not report the correct subaward amount for 2 of the subaward actions. Specifically, while the total amount awarded for the 2 subawards was \$17,273,339, the total amount reported in the FSRS by the FDOEA was \$15,637,976 (an understatement of \$1,635,363).
Cause	The FDOEA had not established policies and procedures for reporting subaward information in the FSRS, and FDOEA management indicated that staff were instructed to enter an adjusted amount for the subaward amount rather than the total subaward amount.
Effect	Aging Cluster subaward amounts were not accurately reported in the FSRS as required by FFATA.
Recommendation	We recommend that the FDOEA develop subaward reporting policies and procedures to ensure that correct subaward amounts are reported in the FSRS.
State Entity Response	The FDOEA concurs with the finding and has updated the FSRS with the correct subaward amounts. The FDOEA has established subaward reporting policies and procedures to ensure that correct subaward amounts are reported in the FSRS.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-067</b> 93.044, 93.045, and 93.053 (Includes COVID-19 Awards) <b>Aging Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Subrecipient Monitoring Florida Department of Elder Affairs (FDOEA) 1801FLOASS 2018, 1901FLOASS 2019, 2001FLOASS 2020, 2101FLOASS 2021, 1801FLOACM 2018, 1901FLOACM 2019, 2001FLOACM 2020, 2101FLOACM 2021, 1801FLOAHD 2018, 1901FLOAHD 2019, 2001FLOAHD 2020, 2101FLOAHD 2021, 1801FLOANS 2018, 1901FLOANS 2019, 2001FLOANS 2020, 2101FLOANS 2021, 2001FLSSC3 2020, 2101FLVAC5 2021, 2001FLCMC2 2020, 2101FLHDC5 2021, 2001FLHDC2 2020, 2001FLHDC3 2020, and 2001FLFCC3 2020
Statistically Valid Sample Finding Type	No Noncompliance and Significant Deficiency
Finding	The FDOEA did not monitor subrecipients in accordance with FDOEA Monitoring Plans or issue management decisions for subrecipient audit findings.
Criteria	2 CFR 200.332(d) – <i>Requirements for pass-through entities</i> – All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved. Monitoring of the subrecipient must include reviewing financial and performance reports, following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award detected through audits, on-site reviews, and other means, and issuing management decisions as required by 2 CFR 200.521.
	2 CFR 200.521 – <i>Management decision</i> – The pass-through entity is responsible for issuing a management decision for audit findings pertaining to the Federal award within 6 months of acceptance of the audit report by the Federal Audit Clearinghouse.
	FDOEA 2020 Monitoring Plan – Monitoring of a subrecipient for the 2020 calendar year will consist of a desk review, a review of reports provided by the subrecipient, and an on-site review. The extent of what will be reviewed is dependent on the subrecipient's risk level.
	FDOEA 2021 Monitoring Plan – Monitoring of a high-risk subrecipient for the 2021 calendar year will consist of a complete desk review of significant contractual compliance and performance requirements and a review of reports provided by the subrecipient. Monitoring of a subrecipient that is not high risk will consist of a limited desk review and a review of reports provided by the subrecipient.
	FDOEA Audit Desk Review Procedures
Condition	During the 2020-21 fiscal year, the FDOEA provided \$132,787,156 in Aging Cluster funds to 11 subrecipients. Our inquiries of FDOEA management disclosed that, during the 2020 calendar year, the FDOEA did not perform desk reviews, review subrecipient reports, conduct on-site visits, or otherwise conduct subrecipient monitoring. During the 2020-21 fiscal year (January through June 2021), the FDOEA completed desk reviews for 5 of the 11 subrecipients. Our review of FDOEA monitoring records for one subrecipient found that, although the FDOEA designated the subrecipient as high-risk, the FDOEA only completed a limited desk review.
	In addition, our review of FDOEA subrecipient audit records found that 2 of the 11 subrecipients' audit reports included audit findings that required the FDOEA

	to issue a management decision letter. However, our inquiries of FDOEA management disclosed that the FDOEA did not issue the required management decisions.
Cause	FDOEA management indicated that the subrecipients were not monitored in accordance with the FDOEA Monitoring Plans due to the COVID-19 pandemic and a management decision to limit the scope of the desk reviews. FDOEA management also indicated that management decisions were not issued due to management turnover and lack of clearly defined roles and responsibilities in FDOEA procedures.
Effect	Absent the adequate monitoring of subrecipients, the FDOEA cannot demonstrate that the FDOEA ensured subrecipient compliance with financial and programmatic grant requirements. Additionally, the FDOEA cannot demonstrate compliance with Federal regulations.
Recommendation	We recommend that the FDOEA enhance subrecipient monitoring procedures to clearly define the roles and responsibilities for issuing management decisions and conduct subrecipient monitoring and issue management decisions in accordance with FDOEA Monitoring Plans, the enhanced monitoring procedures, and Federal regulations.
State Entity Response	When the state of emergency was declared in early 2020, the Department determined it was necessary to adjust the focus of how services were to be delivered to ensure the safety of the elder population, direct service delivery staff, area agency on aging staff and department staff. Executive leadership made the decision to suspend formal monitoring and instead established daily conference calls between department staff and the Area Agencies on Aging (AAAs) to provide guidance in developing and approval of alternate service delivery methods to ensure that services continued for seniors, their families and caregivers. Conference calls and other technical assistance was provided throughout 2020 as oversight of the AAAs to mitigate the risk of deviating from the established monitoring plan.
	The Department will update the procedures on reviewing subrecipient single audit findings to include issuing a management decision when findings are noted in accordance with 2 CFR 200.521.

	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Integrated Benefit Recovery System (IBRS) need improvement to ensure the confidentiality, integrity, and availability of IBRS data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDCF Benefit Recovery program uses IBRS to recover overpaid benefits and to promote effective and accurate reporting to the Federal Government. Our audit disclosed that certain security controls related to IBRS user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising IBRS data and related IT resources. However, we have notified appropriate FDCF management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising IBRS data or related IT resources.
Effect	Appropriate user authentication controls for IBRS are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of IBRS data and related IT resources.
Recommendation	We recommend that FDCF management improve certain security controls related to IBRS user authentication to ensure the confidentiality, integrity, and availability of IBRS system data and related IT resources.
State Entity Response	The Department concurs and will review current system functionality, software capabilities, and planned enhancement initiatives based on the analysis and final determination. The Department will document a position on implementing Multi-Factor Authentication (MFA) by September 30, 2022. The Department will also identify the financial and operational enforcement measures necessary to support the implementation of MFA.

	December 31, 2020	\$55,779,617.68	\$32,936,409.05	\$22,843,208.63
	March 30, 2021	\$30,982,221.93	\$30,419,051.48	\$563,170.45
	June 30, 2021	\$19,852,988.06	\$33,310,123.71	\$(13,457,135.65)

	Subsequent to audit inquiry, the FDCF completed the reconciliations and the differences noted between FLAIR and FLORIDA System data were resolved.
Cause	FDCF management indicated that the reconciliations were not completed, and the amounts were not always supported, due to employee oversight. In addition, the procedures used to conduct the quarterly reconciliations were not detailed enough to allow employees to appropriately evaluate differences between FLAIR and FLORIDA System data.
Effect	Absent reconciliation of TANF benefits payment data in FLAIR to FLORIDA System TANF benefits payment data, the FDCF cannot ensure that discrepancies will be timely identified and corrected and TANF benefits will be accurately reported to the Federal Government.
Recommendation	We recommend that FDCF management enhance reconciliation procedures to provide specific guidance for appropriately reconciling TANF benefits payment data recorded in FLAIR to FLORIDA System data, including the proper resolution of all noted differences.
State Entity Response	The Department concurs and has already taken action. Written procedures were updated to address the recommendation and provided to auditor staff during field work. The updated procedures were operationally implemented during SFY 2021-22.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-070 93.558 Temporary Assistance for Needy Families (TANF)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Matching, Level of Effort, Earmarking Florida Department of Children and Families (FDCF) 2001FLTANF 2020
	N/A Noncompliance and Significant Deficiency Questioned Costs – \$5,223,597
Finding	FDCF administrative costs for TANF exceeded the allowable amount.
Criteria	42 USC 604 – A State to which a grant is made under Section 603, Family Assistance Grant, shall not expend more than 15 percent of the grant for administrative purposes.
	45 CFR 263.13 - Is there a limit on the amount of Federal TANF funds that a State may spend on administrative costs? Yes, a State may not spend more than 15 percent of the amount that it receives as its adjusted State Family Assistance Grant on administrative costs.
Condition	The United States Department of Health and Human Services awarded the FDCF TANF funds totaling \$560,484,398 for the Federal fiscal year ended September 30, 2020. Of those funds, \$394,429,977 was the adjusted basis for administrative cost limit calculation purposes. Our review of FDCF records disclosed that the FDCF expended TANF funds for administrative costs totaling \$64,388,094, which exceeded the allowable amount of administrative costs by \$5,223,597.
Cause	FDCF management indicated that, due to a reporting error which is described in Finding 2021-071, the administrative costs exceeded the allowable amount.
Effect	Expenditure of TANF funds in excess of the amount allowable for administrative purposes may be subject to repayment.
Recommendation	We recommend that FDCF management ensure that the amount of TANF funds used for administrative purposes is limited in accordance with Federal requirements.
State Entity Response	The Department concurs. This finding is a result of issues related to Finding Number 2021-071. Once expenditures are moved to the correct category on the Federal report, the administrative costs will not exceed the allowable amount.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-071 93.558 Temporary Assistance for Needy Families (TANF)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Reporting Florida Department of Children and Families (FDCF) 2001FLTANF 2020
Statistically Valid Sample Finding Type	No Noncompliance and Significant Deficiency
Finding	The FDCF did not correctly report expenditure data on one TANF Financial Report submitted to the Administration for Children and Families (ACF).
Criteria	45 CFR 265.3 – What reports must the State file on a quarterly basis? Each State must file quarterly expenditure data on the State's use of Federal TANF funds, State TANF expenditures, and State expenditures of maintenance of effort (MOE) funds in separate State programs on the TANF Financial Report.
	Instructions for Completion of State TANF Financial Report Form ACF-196R – Through this information collection, the ACF is gathering information to ensure that Federal TANF and State MOE funds are used for activities that are reasonably calculated to meet one of the purposes of TANF.
Condition	During the 2020-21 fiscal year, the FDCF submitted five TANF Financial Reports to the ACF. Our review of the TANF Financial Report for the quarter ended September 30, 2020, found that the FDCF did not accurately report expenditures on the TANF Financial Report. Specifically:
	• Line Item 6.a., Basic Assistance: the FDCF reported expending \$48,086,204, while actual expenditures totaled \$54,668,021 (an understatement of \$6,581,817).
	• Line Item 6.b., Relative Foster Care Maintenance Payments and Adoption and Guardianship Subsidies: the FDCF reported expending \$54,364,297, while actual expenditures totaled \$47,782,480 (an overstatement of \$6,581,817).
	• Line Item 9.a., Subsidized Employment: the FDCF reported expending \$3,694,963, while actual expenditures totaled \$2,822,606 (an overstatement of \$872,357).
	<ul> <li>Line Item 11.a., Child Care (Assistance and Non-Assistance): the FDCF reported expending \$82,033,057, while actual expenditures totaled \$76,808,057 (an overstatement of \$5,225,000).</li> </ul>
	<ul> <li>Line Item 22.a., Administrative Costs: the FDCF reported expending \$59,163,094, while actual expenditures totaled \$64,388,094 (an understatement of \$5,225,000).</li> </ul>
	• Line Item 22.c., Systems: the FDCF reported expending \$3,588,789, while actual expenditures totaled \$4,461,147 (an understatement of 872,358).
Cause	FDCF management indicated that errors when accumulating the expenditure data on supporting documentation used to prepare the TANF Financial Report were not identified during FDCF management review, which caused the report to be misstated.
Effect	The TANF Financial Report submitted by the FDCF to the ACF for the quarter ended September 30, 2020, included inaccurate expenditure data.

**Recommendation** We recommend that FDCF management strengthen TANF Financial Report preparation and review controls to ensure that all expenditure information is accurately reported to the ACF.

State Entity Response The Department concurs. To provide further clarification: Expenditure corrections are made to the Federal report in the 9/30 quarter for the Federal Fiscal Year. Workpapers for previous quarters had not been revised to reflect category corrections made in the 9/30/20 quarter. The Department will modify the workpaper process to include utilizing One Drive and track changes to resolve the version control issue and to identify the implemented changes, author of the change, and when the change was made. Additionally, the Department is developing an automated report to identify the appropriate expenditure category at the budget entity/other cost accumulator (OCA)/fund level to ensure consistency each quarter and to eliminate error.

The Department will revise the Federal financial status report to reflect expenditures in the correct category.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-072 93.558 Temporary Assistance for Needy Families (TANF)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type Prior Year Finding	Special Tests and Provisions – Income Eligibility and Verification System Florida Department of Children and Families (FDCF) 2001FLTANF 2020 and 2101FLTANF 2021
	No Opinion Qualification and Material Weakness Report No. 2021-182, Finding No. 2020-037
Finding	The FDCF did not always timely review and process Income Eligibility and Verification System (IEVS) data exchange responses.
Criteria	42 USC 1320b-7 – <i>Income and eligibility verification system</i> – A State must have in effect an income and eligibility verification system.
	45 CFR 205.55 – Requirements for requesting and furnishing eligibility and income information
	Program Policy Manual Section 3020.0100 – <i>Data Exchange</i> and Section 3020.0102 – <i>Processing Time Standards</i> – FDCF staff are to dispose of data exchange responses considered verified upon receipt within 10 calendar days and all other data exchange responses within 45 calendar days.
Condition	During the 2020-21 fiscal year, the FDCF made TANF benefit payments totaling approximately \$130 million. Federal regulations require the FDCF to verify certain eligibility information through electronic data exchanges with other State and Federal agencies. Eligibility information is maintained in the Florida Online Recipient Integrated Data Access (FLORIDA) System. As part of the IEVS data exchange process, the FLORIDA System compares the data exchange response to eligibility information in the System; however, resolving data exchange responses requires employee action.
	As part of our audit, we obtained the monthly IEVS Data Exchange Reports for the 2020-21 fiscal year to determine the number of data exchange responses that were not timely reviewed and processed by the FDCF. Our evaluation of the IEVS Data Exchange Reports found that 18,814 data exchange responses were not timely reviewed and processed. Specifically, 14,414 responses that were considered verified upon receipt were reviewed and processed 1 to 283 days (an average of 42 days) late and 4,400 other data exchanges were reviewed and processed 1 to 255 days (an average of 43 days) late.
Cause	According to FDCF management, the IVES data exchanges were not timely reviewed and processed due to an unprecedentedly high caseload and a shift in staff resources due to COVID-19.
Effect	Failure to timely review and process data exchange information may preclude the FDCF from promptly identifying changes in client eligibility status.
Recommendation	We recommend that the FDCF take action, including necessary control enhancements, to ensure that data exchange responses are reviewed and processed within established time frames.
State Entity Response	Regarding the Income Eligibility and Verification System data exchanges identified on the monthly report as not processed timely, the Department concurs.
	Due to the Public Health Emergency (PHE), Department workforce and resources were shifted to meet the needs of Floridians. During state fiscal year (SFY) 2020-

21, Department TANF Families' monthly caseload averaged 41,476 and TANF Clients averaged 75,474. Also, during SFY 2020-21, the Department received a monthly average of 558,210 data exchanges statewide for all data exchange types. Caseload volume for all programs remained at unprecedented high levels since the start of the PHE (March 2020).

In SFY 2020-21, the Department established a project management team and continues its efforts to correct this audit finding as indicated in the corrective action plan.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-073 93.558 Temporary Assistance for Needy Families
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Special Tests and Provisions – Child Support Non-Cooperation Florida Department of Revenue (FDOR) 2001FLTANF 2020 and 2101FLTANF 2021
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Child Support Enforcement Automated Management System (CAMS) need improvement to ensure the confidentiality, integrity, and availability of CAMS data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDOR Child Support Enforcement program uses CAMS for the creation and closure of child support cases and disbursement of funds. Our audit disclosed that certain security controls related to CAMS user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising CAMS data and related IT resources. However, we have notified appropriate FDOR management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising CAMS data and related IT resources.
Effect	Appropriate user authentication controls for CAMS are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of CAMS data and related IT resources.
Recommendation	We recommend that FDOR management improve certain security controls related to CAMS user authentication to ensure the confidentiality, integrity, and availability of CAMS data and related IT resources.
State Entity Response	FDOR will improve certain security controls related to user authentication to ensure the confidentiality, integrity, and availability of CAMS data and related IT resources. Implementation will be completed by June 30, 2023.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-074 93.659 (Includes COVID-19 Awards) Adoption Assistance
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, and Reporting
State Entity Federal Grant/Contract Number and Grant Year	Florida Department of Children and Families (FDCF) 2001FLADPT 2020, 2101FLADPT 2021
Statistically Valid Sample Finding Type	N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Florida Safe Families Network (FSFN) system need improvement to ensure the confidentiality, integrity, and availability of FSFN system data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDCF uses the FSFN system as a reporting system and to initiate and manage cases, investigations, adoptions, placements, and other services provided on behalf of children.
	Our audit disclosed that certain security controls related to FSFN system user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising FSFN system data and related IT resources. However, we have notified appropriate FDCF management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising FSFN system data or related IT resources.
Effect	Appropriate user authentication controls for the FSFN system are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of FSFN system data and related IT resources.
Recommendation	We recommend that FDCF management improve certain security controls related to FSFN system user authentication to ensure the confidentiality, integrity, and availability of FSFN system data and related IT resources.
State Entity Response	The Department concurs and will review current system functionality, software capabilities, and planned enhancement initiatives based on the analysis and final determination. The Department will document a position on implementing Multi-Factor Authentication (MFA) by September 30, 2022. The Department will also identify the financial and operational enforcement measures necessary to support the implementation of MFA.

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-075 93.659 (Includes COVID-19 Awards) Adoption Assistance
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, and Reporting <b>Florida Department of Children and Families (FDCF)</b> 2001FLADPT 2020, 2101FLADPT 2021 N/A
Finding Type	Significant Deficiency
Finding	The FDCF did not conduct periodic Florida Safe Families Network (FSFN) system user access privilege reviews or always timely deactivate the FSFN system user accounts for employees who separated from FDCF employment.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk and ensure that information technology (IT) access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FDCF uses the FSFN system as a reporting system and to initiate and manage cases, investigations, adoptions, placements, and other services provided on behalf of children. To obtain an understanding of FDCF user access privilege review processes for the FSFN system, we inquired of FDCF management who indicated that, during the 2020-21 fiscal year, the FDCF did not complete a review of FSFN system user access privileges.
	Our examination of FSFN system and personnel records for five FSFN users who separated from FDCF employment during the 2020-21 fiscal year and seven users with active FSFN user accounts as of January 31, 2021, but who appeared to have separated from FDCF employment, disclosed that the FDCF did not timely deactivate the access privileges for nine users. As of January 31, 2021, three of the nine user accounts had been active for 1, 4, and 9 business days after the employee had separated from FDCF employment and the other six user accounts were deactivated 1 to 319 business days (an average of 89 business days) after the users separated from FDCF employment.
Cause	FDCF management indicated that procedures requiring FDCF management to conduct a user access privilege review were in the process of being developed. Additionally, the user accounts were not timey deactivated due to process challenges and the number of tickets in the queue.
Effect	Periodic reviews of IT user access privileges and prompt deactivation of user access privileges upon an employee's separation from FDCF employment provides FDCF management assurance that user access privileges are authorized and remain appropriate. Additionally, timely deactivation of IT user access privileges limits the potential for unauthorized disclosure, modification, or destruction of FDCF data and IT resources by former employees or others.
Recommendation	We recommend that FDCF management establish procedures requiring periodic reviews of FSFN system user access privileges. We also recommend that FDCF

management enhance controls to ensure that FSFN system access privileges are deactivated immediately upon a user's separation from FDCF employment.

State Entity Response The Department concurs. The Office of Information Technology Services (OITS) will review and modify policies and procedures to ensure the timely deprovisioning of FSFN system user accounts by May 30, 2022, which will ensure identified users do not have access to the Department network (LDAP account are locked) and the FSFN de-provisioning is a clean-up process. OITS collaborates with the Office of Child and Family Well-Being (OCFW) to review FSFN system user accounts every six months. OITS and OCFW are completing a periodic review of FSFN system user access privileges and will revise system user account privileges review by August 30, 2022.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-076</b> 93.667 Social Services Block Grant (SSBG)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Period of Performance Florida Department of Children and Families (FDCF) 2101FLSOSR 2021
Statistically Valid Sample Finding Type	No Noncompliance and Significant Deficiency Questioned Costs – \$125,000
Prior Year Finding	Report No. 2021-182, Finding No. 2020-033
Finding	An FDCF expenditure charged to a SSBG program grant was not incurred during the authorized period of performance.
Criteria	42 USC 1397a(c) – <i>Payments to States</i> – Payments to a state from its allotment for any fiscal year must be expended by the state in such fiscal year or in the succeeding fiscal year.
Condition	During the 2020-21 fiscal year, the FDCF expended \$95,668,316 in Federal funds for the SSBG program. Our analysis and examination of records related to selected SSBG program expenditures paid by the FDCF during the 2020-21 fiscal year disclosed one expenditure, totaling \$125,000, that was not incurred during the authorized period of performance.
Cause	FDCF management indicated that, because the State's accounting system does not include a dedicated field for the service period, the FDCF's ability to monitor grant costs and to ensure that expenditures are charged to the correct grant is limited.
Effect	Expenditures charged to a Federal award that were not incurred during the authorized period of performance could be subject to disallowance by the Federal grantor agency.
Recommendation	We recommend that the FDCF enhance monitoring processes to ensure that costs are attributable to the authorized period of performance and are charged to the correct grant. We also recommend that the FDCF review expenditure data and records to determine the total costs that were charged to the grant in error.
State Entity Response	The Department concurs. The Department implemented a procedure in September 2021 in the Administrative Services Support Center to include the service period in the Florida Accounting Information Resource to be able to identify the period of performance during a review of expenditure data to ensure the correct grant period is charged.
	A Period of Performance Reconciliation procedure has also been written and implemented to eliminate this issue. As a result of this finding, the procedure is being updated to include an edit process to identify if the invoice does not have a valid date. This will identify the entry for correction to comply with the service period date.
	This expenditure will be moved to the correct grant year.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-077</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – Automated Data Processing Risk Analysis and System Security Review; Provider Eligibility (Screening and Enrollment); and Medicaid National Correct Coding Initiative (NCCI)
State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Florida Agency for Health Care Administration (FAHCA) 2005FL5ADM and 2005FL5MAP 2020 and 2105FL5ADM and 2105FL5MAP 2021 N/A Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-040
Finding	FAHCA records did not evidence that Florida Medicaid Management Information System (FMMIS) user access privileges were timely deactivated when access was no longer needed.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1)(a)8., Florida Administrative Code – Agencies shall ensure that IT access is removed when the IT resource is no longer required. Prompt action is necessary to ensure that the access privileges are not misused by former employees, former contractors, or others to compromise data or IT resources.
Condition	The FAHCA uses FMMIS to enroll and reimburse providers and to maintain eligibility and provider enrollment data for the Florida Medicaid Program. Our review of FMMIS user access records for the 58 FMMIS users (assigned 65 user accounts) who separated from FAHCA employment during the 2020-21 fiscal year disclosed that FAHCA did not timely deactivate access privileges for 29 users assigned 32 user accounts. Specifically, the users' access privileges were deactivated 2 to 129 business days (an average of 31 business days) after the users separated from FAHCA employment.
	According to FAHCA management, a system-generated report was not available to determine when the 32 user accounts were last used to access FMMIS. Absent this report, we are unable to determine whether the user accounts were used to access FMMIS subsequent to the users' separation from FAHCA employment.
Cause	FAHCA management indicated that application administrators were not always timely notified of employee separations, which delayed the deactivation of user access privileges.
Effect	Timely deactivation of IT user access privileges limits the potential for unauthorized disclosure, modification, or destruction of FAHCA data and IT resources by former employees or others.
Recommendation	We recommend that FAHCA management enhance employment separation notification controls to ensure that FMMIS user access privileges are deactivated immediately upon a user's separation from FAHCA employment.
State Entity Response	The FAHCA concurs. The FAHCA will implement employment separation notification controls to ensure the immediate deactivation of FMMIS user access privileges upon separation from FAHCA employment.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-078</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – Automated Data Processing Risk Analysis and System Security Review; Provider Eligibility (Screening and Enrollment); and Medicaid National Correct Coding Initiative (NCCI)
State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Florida Agency for Health Care Administration (FAHCA) 2005FL5ADM and 2005FL5MAP 2020 and 2105FL5ADM and 2105FL5MAP 2021 N/A Significant Deficiency
Finding	Certain security controls related to user authentication for the Florida Medicaid Management Information System (FMMIS) need improvement to ensure the confidentiality, integrity, and availability of FMMIS data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FAHCA uses FMMIS to enroll and reimburse providers and maintain eligibility and provider enrollment data for the Florida Medicaid Program. Our audit disclosed that certain security controls related to FMMIS user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising FMMIS data and related IT resources. However, we have notified appropriate FAHCA management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising FMMIS data or related IT resources.
Effect	Appropriate user authentication controls for FMMIS are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of FMMIS data and related IT resources.
Recommendation	We recommend that FAHCA management improve certain security controls related to FMMIS user authentication to ensure the confidentiality, integrity, and availability of FMMIS data and related IT resources.
State Entity Response	The recommended functionality is not supported by the current FMMIS provisioning system. However, in order to access the FMMIS, State users must access the State's network, which does contain the recommended security controls.
	Current State procurements include the recommended functionality requirements.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-079</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Special Tests and Provisions – Utilization Control and Program Integrity Florida Agency for Persons with Disabilities (FAPD) 2005FL5MAP 2020 and 2105FLMAP 2021
Statistically Valid Sample Finding Type Prior Year Finding	N/A Noncompliance and Significant Deficiency Report No. 2021-182, Finding No. 2020-044
Finding	The FAPD did not ensure that utilization review (UR) and continued stay review (CSR) services for Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF-IIDs) complied with Federal regulations.
Criteria	42 CFR Part 456.4 – <i>Responsibility for monitoring the utilization control program</i> – The agency must monitor the statewide utilization control program.
	42 CFR Part 456 – Utilization Control – Subpart F – Utilization Control: Intermediate Care Facilities
Condition	The FAPD contracted with a quality improvement organization (QIO) to provide UR and CSR services to ICF-IIDs. The contract required the QIO to submit a quarterly Performance Specification Report to the FAPD. To allow the FAPD to monitor compliance with Federal regulations and contract requirements, the quarterly Performance Specification Report included five performance measures aligned to Federal requirements: 1) Completion of an Initial Admission UR within 30 days of admission; 2) Completion of a CSR within 180 days of the previous CSR; 3) Verification of all Certifications of Need for Care completed by the ICF-IID within 30 days of admission; 4) Verification of all annual Re-Certifications of Need during the Annual Habilitation Plan month; and 5) Compliance with the Federal Audit compliance requirements.
	Our review of the quarterly Performance Specification Reports submitted by the QIO to the FAPD during the 2020-21 fiscal year found that the QIO did not always satisfy the required performance measures, resulting in noncompliance with the utilization control requirements established in Federal regulations. Specifically, in all four quarters, the percentage of performance for performance measures 1, 3, and 4 was below the required 100 percent and ranged from 43 percent to 98 percent. Additionally, our review of FAPD monitoring records disclosed that the FAPD did not document the review of the Performance Specification Reports and, according to FAPD management, the FAPD did not issue corrective action plans evidencing follow-up with the QIO regarding deficiencies noted in the Performance Specification Reports.
Cause	FAPD management indicated that the QIO did not always meet the performance measures because the ICF-IIDs did not timely provide accurate information and appropriate documentation to the QIO. In addition, FAPD management indicated that the FAPD lacked authority over the ICF-IIDs since they are licensed and monitored by the Florida Agency for Health Care Administration (FAHCA). Notwithstanding, the FAPD is responsible for the contract with the QIO and should work with the FAHCA to ensure that the QIO is meeting the utilization control requirements established in Federal regulations.
Effect	Absent adequate monitoring of the QIO and follow-up to address identified performance issues, the FAPD cannot demonstrate compliance with Federal regulations.

Recommendation	We recommend that FAPD management take steps, including collaborating with the FAHCA, to ensure that FAPD records evidence appropriate monitoring of, and follow-up regarding, QIO performance, and to promote the timely submission of accurate ICF-IID information to the QIO.
State Entity Response	Concur

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-080</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Special Tests and Provisions – Managed Care Financial Audit Florida Agency for Health Care Administration (FAHCA) 2005FL5MAP 2020 and 2105FL5MAP 2021
	N/A Noncompliance and Significant Deficiency
Finding	The FAHCA did not always ensure that an independent audit of the accuracy, truthfulness, and completeness of encounter data for each health plan was conducted at least once every 3 years nor post the results of financial audits to its Web site.
Criteria	42 CFR 438.602(e) – <i>Periodic audits</i> – The State must periodically, but no less frequently than once every 3 years, conduct or contract for the conduct of, an independent audit of the accuracy, truthfulness, and completeness of the encounter and financial data submitted by, or on behalf of, each Managed Care Organization (MCO), Prepaid Inpatient Health Plan (PIHP), and Prepaid Ambulatory Health Plan (PAHP).
	42 CFR 438.602(g) – <i>Transparency</i> – The State must post on its Web site the results of any audits under 42 CFR 438.602(e).
Condition	During the 2020-21 fiscal year, the FAHCA contracted with an External Quality Review Organization (EQRO) to perform certain External Quality Review (EQR) activities for FAHCA Medicaid managed care programs, including a validation of encounter data for the 18 health plans (12 MCOs, 3 PIHPs, and 3 PAHPs) that were subject to Federal periodic audit requirements. As part of our audit, we examined the EQRO encounter data validation (EDV) study reports issued for the last 3 fiscal years and found that the EQRO did not conduct an EDV study for 2 health plans (1 MCO and 1 PIHP). Additionally, our audit found that the FAHCA did not post the completed financial audit reports to its Web site.
Cause	According to FAHCA management, the FAHCA did not have policies and procedures to ensure that all health plans were included in EDV studies at least once every 3 years and completed financial audit reports were posted to its Web site.
Effect	Absent appropriate controls, the FAHCA cannot ensure that all health plans are subject to an EDV study at least every 3 years to ensure that the encounter data is accurate, truthful, and complete and the results of financial audits are posted on its Web site in accordance with Federal regulations.
Recommendation	We recommend that FAHCA management establish policies and procedures requiring an EDV study for each health plan at least every 3 years to ensure the accuracy, truthfulness, and completeness of encounter data and post the results of financial audits on its Web site.
State Entity Response	The FAHCA will work in collaboration with its EQRO to develop policies and procedures to ensure that the accuracy, truthfulness, and completeness of encounter data is validated at least once every three years for each plan, during the next three-year cycle (SFY 22/23 – SFY 24/25).
	The FAHCA currently contracts with two independent CPA firms that conduct audits on the Achieved Savings Rebate financial reports on an annual basis. Audits are conducted after the Annual financial statements are received in May.

The CPA firms must submit the Final Audit Reports to the FAHCA by September 1st.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-081</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Special Tests and Provisions – Medical Loss Ratio (MLR) Florida Agency for Health Care Administration (FAHCA) 2005FL5MAP 2020 and 2105FL5MAP 2021
Statistically Valid Sample Finding Type	No Noncompliance
Finding	The FAHCA did not obtain from health plans a report that included all MLR information required by Federal regulations.
Criteria	42 CFR 438.8(k) – <i>Reporting requirements</i> – The State, through its contracts, must require each Managed Care Organization (MCO), Prepaid Inpatient Health Plan (PIHP), or Prepaid Ambulatory Health Plan (PAHP) to submit for each MLR reporting year a report to the State that includes specified information, such as any credibility adjustment applied and a comparison of MLR information in 42 CFR 438.8(k) with the audited financial report required by 42 CFR 438.3(m).
Condition	During the 2020-21 fiscal year, the FAHCA contracted with 18 health plans (12 MCOs, 3 PIHPs, and 3 PAHPs) that were subject to MLR Federal reporting requirements. Contract provisions required the health plans to submit to the FAHCA quarterly and annual Achieved Savings Rebate (ASR) Financial Reports containing required MLR information. As part of our audit, we examined the ASR Financial Reports for 3 health plans (2 MCOs and 1 PAHP) and found that the ASR Financial Reports for the 3 health plans did not contain all required MLR information. Specifically, the ASR Financial Reports did not include information regarding any credibility adjustments applied or a comparison of the reported MLR information to the audited financial report required by Federal regulations.
Cause	According to FAHCA management, credibility adjustment information was not obtained because it is not used for the ASR Financial Reports and a comparison of MLR information to the audited financial reports was not performed because the MLR information is audited as part of the ASR Financial Reports. Notwithstanding, Federal regulations require applied credibility adjustment information and a comparison of MLR information to the audited financial reports to be reported by the health plans.
Effect	Absent the inclusion of all required MLR information in the ASR Financial Reports submitted by MCOs, PIHPs, and PAHPs, the FAHCA cannot demonstrate compliance with Federal regulations.
Recommendation	We recommend that the FAHCA ensure that the ASR Financial Report obtained from each MCO, PIHP, and PAHP includes all the MLR information required by Federal regulations.
State Entity Response	The FAHCA will update the Achieved Saving Rebate Financial Report, specifically the Medical Loss Ratio (MLR) Exhibit, by adding a line for the Credibility Adjustment in order to maintain compliance with that Federal requirement. The FAHCA will also make amendments to the Instructions tab, as well as the MLR Exhibit, to comply with the regulation requiring Health Plans to provide a comparison of MLR information per 42 CFR 438.8(k).

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-082</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement	Special Tests and Provisions – Medicaid National Correct Coding Initiative (NCCI)
State Entity Federal Grant/Contract	Florida Agency for Health Care Administration (FAHCA) 2005FL5MAP 2020 and 2105FL5MAP 2021
Number and Grant Year Statistically Valid Sample Finding Type	N/A Noncompliance
Finding	The FAHCA's confidentiality agreement with its fiscal agent did not include required elements in accordance with the NCCI Technical Guidance Manual for Medicaid Services.
Criteria	NCCI Technical Guidance Manual for Medicaid Services – Section 7.1.2 – <i>Sharing of State Medicaid NCCI Edit Files by States with Other Entities</i> – Access to the complete quarterly Medicaid NCCI edit files that are posted on the secure Regional Information Sharing Systems (RISSNET) portal is limited to a state's Medicaid agency. A state Medicaid agency may share these quarterly files with the contracted fiscal agent that processes claims if appropriate confidentiality agreements are in place.
	NCCI Technical Guidance Manual for Medicaid Services – Section 7.1.3 – <i>Confidentiality Agreements Requirements for Contracted Parties</i> – The confidentiality agreement with the contracted fiscal agent using the Medicaid NCCI files must include certain elements, including, for example, that disclosure is to be limited to only those responsible for the implementation of the quarterly state Medicaid NCCI edit files.
Condition	The FAHCA contracted with a fiscal agent to manage the Florida Medicaid Management Information System (FMMIS) to process all Medicaid claims. The fiscal agent was responsible for implementing the quarterly Medicaid NCCI edit files in FMMIS on the first day of every calendar quarter. NCCI edits are designed to reduce improper coding that may result in inappropriate payment of Medicaid claims. To share the quarterly Medicaid NCCI edit files with its fiscal agent, the FAHCA was required to have a confidentiality agreement with the fiscal agent that included specified confidentiality provisions. Our audit found that, while FAHCA's fiscal agent contract included a confidentiality agreement, the agreement did not include the required elements in accordance with the NCCI Technical Guidance Manual for Medicaid Services.
Cause	According to FAHCA management, the confidentiality agreement with its fiscal agent is not NCCI specific as it is inclusive of all Medicaid information and the Medicaid NCCI edit files are public information available on the Medicaid NCCI Web site. Notwithstanding, access to the complete quarterly Medicaid NCCI edit files that are posted on the secure RISSNET portal is limited to a state's Medicaid agency since these files contain information that is not included in the Medicaid NCCI edit files available to the public on the Medicaid NCCI Web site.
Effect	Absent a confidentiality agreement with its fiscal agent that includes all NCCI required elements, the FAHCA has reduced assurance that the fiscal agent will be aware of confidentiality requirements for the Medicaid NCCI edit files and cannot demonstrate compliance with Federal guidelines.

Recommendation	We recommend that the FAHCA amend its fiscal agent contract confidentiality agreement to include the elements required by the NCCI Technical Guidance Manual for Medicaid Services.
State Entity Response	The FAHCA is currently involved in an active procurement of the Florida Health Care Connections (FX) Core which will process Medicaid Fee-For-Service Claims and Managed Care Encounters, and will contain reference file information such as NCCI Edits. The recommendations will be included in the new FX Core contract, which is expected to be awarded by the end of 2022, and will go live by the end of 2024.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-083</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Special Tests and Provisions – External Quality Review Organization (EQRO) Florida Agency for Health Care Administration (FAHCA) 2005FL5MAP 2020 and 2105FL5MAP 2021
Statistically Valid Sample Finding Type Prior Year Finding	N/A Noncompliance Report No. 2021-182, Finding No. 2020-042
Finding	The FAHCA did not ensure that all external quality review activities were performed in accordance with Federal requirements.
Criteria	42 CFR 438.358(b) – Activities related to external quality review – For each managed care organization (MCO), prepaid inpatient health plan (PIHP), or prepaid ambulatory health plan (PAHP), the State or an EQRO must perform external quality review (EQR) activities, including a validation of performance improvement projects (PIPs) that were underway during the preceding 12 months; a validation of MCO, PIHP, or PAHP performance measures during the preceding 12 months; and a review, conducted within the previous 3-year period, to determine the MCO's, PIHP's, or PAHP's compliance with Federal standards and quality assessment and performance improvement requirements.
Condition	During the 2020-21 fiscal year, the FAHCA contracted with an EQRO to perform certain EQR activities for FAHCA Medicaid managed care programs, in addition to the EQR activities conducted by the FAHCA. The EQR activities the EQRO were to perform included a validation of PIPs and applicable performance measures. As part of our audit, we examined records related to the EQR activities conducted by the FAHCA and the EQRO during the 2020-21 fiscal year. Our examination disclosed that the FAHCA had not completed within the prior 3-year period, a review of the 18 applicable MCOs, PIHPs, or PAHPs to determine compliance with Federal standards and quality assessment and performance improvement requirements.
Cause	FAHCA management indicated that the 3-year comprehensive compliance review was to cover the period January 2019 through January 2022 and, as of June 2021, the FAHCA was on track to complete the compliance review by the end of the review period.
Effect	Absent a review of MCO, PIHP, or PAHP compliance with Federal standards and quality assessment and performance improvement requirements at least every 3 years, the FAHCA cannot demonstrate compliance with Federal regulations.
Recommendation	We recommend that the FAHCA ensure that EQR activities, including compliance reviews, are conducted in accordance with Federal regulations.
State Entity Response	The FAHCA is on track to complete the three-year compliance review by the end of the review period. The three-year compliance review period began in January 2022 and will end in December 2024. The EQRO will begin conducting the review of the state's compliance review activities in January 2025 (i.e., SFY 24/25); therefore, this item cannot be fully corrected until the EQRO reports findings in the Annual Technical Report that is due to the Centers for Medicare & Medicaid Services (CMS) in April 2026.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-084</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement	Special Tests and Provisions – Automated Data Processing (ADP) Risk Analysis and System Security Review
State Entity Federal Grant/Contract Number and Grant Year	Florida Agency for Health Care Administration (FAHCA) 2005FL5MAP 2020 and 2105FL5MAP 2021
Statistically Valid Sample Finding Type Prior Year Finding	N/A Significant Deficiency Report No. 2021-182, Finding No. 2020-047
Finding	Internal controls related to the Pharmaceutical Claims Processing System (PCPS) were not always appropriately designed and operating effectively.
Criteria	2 CFR 200.303 and 45 CFR 75.303 – <i>Internal controls</i> – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
Condition	The FAHCA contracted with a fiscal agent to manage the Florida Medicaid Management Information System (FMMIS). The fiscal agent contracted with a service organization to operate the PCPS to process both Medicaid fee-for-service (FFS) and Medicaid managed care (MMC) pharmacy claims. The service organization transmits to the fiscal agent processed claims data, which is uploaded to FMMIS for payment processing and maintenance of pharmacy claims. According to FAHCA records, during the 2020-21 fiscal year, the PCPS processed 4,098,907 FFS and 35,451,452 MMC pharmacy claims.
	The service organization obtained an independent service auditor's report for the period July 1, 2020, through June 30, 2021, in which the service organization's auditors qualified their opinion related to logical access controls. Given the significance of the service organization's role in the administration of the Medicaid program, internal control weaknesses reported in the service auditor's report could significantly impact the Medicaid program.
Cause	The service organization had not effectively established for the PCPS logical access controls to restrict access to appropriate, authorized personnel.
Effect	Absent appropriate controls, the FAHCA has reduced assurance that pharmacy claims are appropriately processed and transmitted to FMMIS for payment processing.
Recommendation	We recommend that the FAHCA ensure that the service organization takes timely and appropriate corrective action to resolve the deficiencies noted in the independent service auditor's report.
State Entity Response	The FAHCA received the Magellan (Pharmaceutical Claims Processing System) SOC 1 report in October 2021. The FAHCA met with Magellan and Gainwell (Magellan is a sub-contractor to Gainwell, the Florida Medicaid Fiscal Agent) in December 2021. CAPs were due on January 31, 2022, and were delivered to FAHCA on January 20, 2022. The FAHCA is currently monitoring the completion of the three Magellan Corrective Action Plans.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-085</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Special Tests and Provisions – Automated Data Processing (ADP) Risk Analysis and System Security Review <b>Florida Agency for Health Care Administration (FAHCA)</b> 2005FL5MAP 2020 and 2105FL5MAP 2021
	N/A Significant Deficiency
Finding	The FAHCA did not ensure that the subservice organization's internal controls related to the Pharmaceutical Rebate Information Management System (PRIMS) were appropriately designed and operating effectively.
Criteria	2 CFR 200.303 and 45 CFR 75.303 – <i>Internal controls</i> – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.
Condition	The FAHCA contracted with a service organization to invoice and collect rebates from, and resolve related disputes with, pharmaceutical manufacturers, and to provide required utilization data to the Centers for Medicare and Medicaid Services. Rebate collections for the 2020-21 fiscal year totaled approximately \$2 billion and approximately 2.2 million prescriptions were associated with the invoiced rebates per month. The service organization utilized PRIMS to perform their contractual responsibilities. FAHCA's contract with the service organization, effective February 1, 2014, included provisions requiring service organization compliance with, among other things, data backup and off-site storage requirements, disaster recovery plans, and minimum service levels.
	The service organization utilized a subservice organization for network access, network incident management, and network change management for the period July 1, 2020, to November 16, 2020, and for the hosting of systems, management of system administrator access to the operating system, physical security, backup and recovery, and hardware maintenance for the period July 1, 2020, to February 5, 2021. As the FAHCA relies on PRIMS, and the data contained therein, to operate and maintain the drug rebate program, it is incumbent upon the FAHCA to take steps to reasonably ensure the integrity, reliability, and security of PRIMS data. Such steps may include requiring the service organization to provide a service auditor's report on the effectiveness of the controls established by the service organization for PRIMS or, alternatively, FAHCA monitoring of the effectiveness of relevant service organization controls. Additionally, when the service organization utilizes a subservice organization to perform services for the FAHCA, it is necessary for the FAHCA to obtain assurances regarding the subservice organization's controls relevant to those services.
	Our audit inquiry disclosed that, while the FAHCA had obtained an independent service auditor's report on the effectiveness of the controls established by the service organization for PRIMS, the FAHCA did not obtain an independent service auditor's report on the effectiveness of relevant subservice organization controls or monitor the effectiveness of such controls.

Cause	FAHCA management indicated that a service auditor's report for the subservice organization was not available because the service organization was in the process of ending the contract with the subservice organization.
Effect	Absent an evaluation of the operating effectiveness of the subservice organization's relevant internal controls, the FAHCA has reduced assurance that drug rebate data is properly protected, complete, and reliable.
Recommendation	We recommend that, as applicable, FAHCA management make or obtain independent and periodic assessments of the effectiveness of subservice organization controls relevant to PRIMS, such as through the timely and documented review of service auditor reports.
State Entity Response	For the first part of the audit period, PRIMS was housed at the New Mexico Data Center (NMDC). Gainwell, the fiscal agent, moved their hosting services from the NMDC to Amazon Web Service (AWS). Since Gainwell canceled their contract with NMDC, NMDC did not perform a SOC audit for PRIMS, which would provide evidence of the effectiveness of relevant service organization controls. The AWS SOC report was submitted to the auditors, which covered the last three months of the audit period.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-086</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medicaid Cluster</b>
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample	Special Tests and Provisions – Utilization Control and Program Integrity Florida Agency for Health Care Administration (FAHCA) 2005FL5ADM 2020 and 2105FL5ADM 2021 N/A
Finding Type	Significant Deficiency
Finding	The list used by the FAHCA to conduct periodic Fraud and Abuse Case Tracking System (FACTS) system user access privilege reviews did not promote an effective review of the appropriateness of all user accounts.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk and ensure that information technology (IT) access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FAHCA uses FACTS to manage and track all Medicaid Program Integrity complaints and cases. According to FAHCA management, the FAHCA completed FACTS user access privilege reviews quarterly; however, the user list used to complete the reviews was manually maintained by FAHCA staff, instead of a system-generated list of users from FACTS. As a result, user accounts could be omitted from the access reviews.
Cause	FAHCA management indicated that they were unaware how to access or create a system-generated list of FACTS user accounts.
Effect	Periodic reviews of IT user access privileges provide FAHCA management assurance that user access privileges are authorized and remain appropriate.
Recommendation	We recommend that FAHCA management complete periodic reviews of the appropriateness of FACTS user access privileges using system-generated lists of user accounts.
State Entity Response	The FAHCA concurs. The FAHCA has transitioned to using system-generated lists of user accounts to conduct periodic reviews of FACTS user access privileges, effective March 9, 2022.

Finding Number Assistance Listing Number Assistance Listing Program Title	<b>2021-087</b> 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) <b>Medical Cluster</b>

Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2021-182, Finding No. 2020-046
Finding	The list used by the FDLA to conduct periodic IBM Notes user access privilege reviews did not promote an effective review of the appropriateness of all user accounts.
Criteria	Florida Department of Management Services Rule 60GG-2.003(1), Florida Administrative Code – Agency information owners are to review access rights (privileges) periodically based on system categorization or assessed risk and ensure that information technology (IT) access is removed when access to the IT resource is no longer required.
	Periodic reviews of access privileges help ensure that only authorized users have access and that the access privileges provided to each account remain appropriate. An effective periodic review consists of identifying the current access privileges of system users and services and evaluating the assigned access privileges to ensure that they align with user job responsibilities.
Condition	The FDLA uses IBM Notes for document management and approval and to route data for investigations related to fraud or suspected fraud in the Medicaid program. Our inquiries of FDLA management disclosed that, effective April 15, 2021, the FDLA established procedures requiring the review of IBM Notes user access privileges every 90 days. However, the user list used by the FDLA to complete the reviews was not a system-generated list of all users from IBM Notes. As a result, user accounts could be omitted from the access reviews.
Cause	According to FDLA management, the user review process did not require the review to be conducted from a system-generated list of all IBM Notes users and, instead, was based on a list of user access changes.
Effect	Periodic reviews of IT user access privileges provide FDLA management assurance that user access privileges are authorized and remain appropriate.
Recommendation	We recommend that FDLA management complete periodic reviews of the appropriateness of IBM Notes user access privileges using system-generated lists of all user accounts.
State Entity Response	Certain security controls related to user authentication for IBM Notes will be improved by implementing all possible recommendations provided in the Confidential IT Finding.pdf received as an encrypted message from the Auditor General.

Finding Number Assistance Listing Number Assistance Listing Program Title Compliance Requirement	2021-088 93.775, 93.777, and 93.778 (Includes COVID-19 Awards) Medicaid Cluster Special Tests and Provisions – Medicaid Fraud Control Unit (MFCU)
State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Florida Department of Legal Affairs (FDLA) 2005FL5ADM and 2005FL5MAP 2020 and 2105FL5ADM and 2105FL5MAP 2021 N/A Significant Deficiency
Finding	Certain security controls related to user authentication for IBM Notes need improvement to ensure the confidentiality, integrity, and availability of IBM Notes data and related information technology (IT) resources.
Criteria	Security controls are intended to protect the confidentiality, integrity, and availability of system data and related IT resources.
Condition	The FDLA uses IBM Notes for document management and approval and to route data for investigations related to fraud or suspected fraud in the Medicaid program. Our audit disclosed that certain security controls related to IBM Notes user authentication need improvement. We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising IBM Notes data and related IT resources. However, we have notified appropriate FDLA management of the specific issues.
Cause	We are not disclosing the specific details of the issues in this report to avoid the possibility of compromising IBM Notes data or related IT resources.
Effect	Appropriate user authentication controls for IBM Notes are necessary to decrease the risk that unauthorized individuals may gain access to the system and compromise the confidentiality, integrity, and availability of IBM Notes data and related IT resources.
Recommendation	We recommend that FDLA management improve certain security controls related to IBM Notes user authentication to ensure the confidentiality, integrity, and availability of IBM Notes data and related IT resources.
State Entity Response	A specific method of review that is not inherent within IBM Notes is being required. The method of maintaining access assignments for an IBM Notes database is different from security models used by other systems. IBM Notes maintains database access level assignment as a property of the database. Many other systems view access control as a property of the user account. By looking at the database properties, FDLA can determine the identify of any and all users that have access to the database and match those user identifies with access authorization records that are in the form of add, modify, or delete, change orders. If any user is found during the review to not have a current authorization record, mitigation takes place and the incident documented. FDLA believes this method provides an effective review of the appropriateness of access assignments. However, in order to accomplish a different method of review, FDLA will need to
	write a custom program.

## U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-089 97.036 (Includes COVID-19 Awards) Disaster Grants - Public Assistance (Presidentially Declared Disasters)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year Statistically Valid Sample Finding Type	Reporting Florida Division of Emergency Management (FDEM) Various
	No Opinion Qualification and Material Weakness
Finding	The FDEM did not timely report subaward information required by the Federal Funding Accountability and Transparency Act (FFATA) in the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS).
Criteria	2 CFR 170, Appendix A – <i>Reporting Subawards and Executive Compensation</i> – Unless otherwise exempt, you must report each action that equals or exceeds \$30,000 in Federal funds for a subaward to a non-Federal entity or Federal agency.
	For subaward information, reporting must occur no later than the end of the month following the month in which the obligation was made.
Condition	The FDEM enters into subaward agreements with subrecipients for each Disaster Grant. A subaward agreement may encompass multiple projects where each project is established under separate project worksheets. During the 2020-21 fiscal year, the FDEM obligated 1,548 projects with obligated Disaster Grants funds totaling \$1,349,009,547. As part of our audit, we requested to review the FSRS reporting records for applicable projects. However, in response to our request, FDEM management indicated that the FDEM had transitioned from reporting subaward information in the FSRS by project to reporting by subaward at the time all projects related to the subaward were closed. Consequently, for all applicable projects, required subaward information such as subaward amounts was not timely reported in the FSRS.
Cause	According to FDEM management, due to the significant number of projects that may be related to a subaward, and a shortage of personnel to report project-level information in the FSRS, the FDEM transitioned from reporting by project in the FSRS to reporting by subaward. In addition, the FDEM did not report the amount of the subaward at the time the FDEM entered into the subaward agreement with the subrecipient because the final amount of all projects related to a subaward is unknown until the projects are closed.
Effect	The FDEM cannot demonstrate that all required information was appropriately and timely reported in the FSRS in accordance with FFATA.
Recommendation	We recommend that FDEM management ensure that all applicable Disaster Grants subawards are appropriately and timely reported in the FSRS.
State Entity Response	The Florida Division of Emergency Management (FDEM) concurs. FDEM has contracted vendor assistance to perform necessary Gap and Strength, Weakness, Opportunity, and Threat business process analysis as well as a recommendation for a business and system project plan and fix assessment for all FDEM front to end grant management processes. FDEM will work towards a systematic business solution. For clarification, the Federal Government already has this information. We are working with logistical issues to push the information into FSRS.

## U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-090 97.036 (Includes COVID-19 Awards) Disaster Grants – Public Assistance (Presidentially Declared Disasters)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Reporting <b>Florida Division of Emergency Management (FDEM)</b> FEMA 4486 DR-FL 2021
Statistically Valid Sample Finding Type	No Noncompliance and Significant Deficiency
Finding	The FDEM did not correctly report the Federal share of unliquidated obligations on one Federal Financial Report submitted to the Federal Emergency Management Agency (FEMA).
Criteria	FEMA-State Agreement – The FDEM must submit complete and accurate Federal Financial Reports to FEMA quarterly for each Disaster Grants program.
Condition	During the 2020-21 fiscal year, the FDEM submitted 83 Federal Financial Reports associated with 22 Disaster Grants programs to FEMA. Our review of 10 of these Federal Financial Reports disclosed that, for one report, the FDEM did not accurately report the balance of the Federal share of unliquidated obligations. Specifically, the FDEM reported a Federal share of unliquidated obligations totaling \$972.48, while actual unliquidated obligations totaled \$4,381,191.54 (an understatement of \$4,380,219.06).
Cause	FDEM management indicated that the amount was not accurately reported due to employee error and deficiencies in the supervisory review process.
Effect	The Federal share of unliquidated obligations reported on the Federal Financial Report submitted to FEMA was understated.
Recommendation	We recommend that the FDEM strengthen Federal Financial Report review controls to ensure that all Disaster Grants program information is accurately reported to FEMA.
State Entity Response	We agree with the recommendation that FDEM strengthen Federal Financial Report review controls to ensure that all Disaster Grants program information is accurately reported to FEMA. It is our intention to start the reconciliation process earlier than previously started to allow the reviewer time to review all information entered matches the grant reports to ensure that Federal Financial Reports reflect accurate information.

## U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number Assistance Listing Number Assistance Listing Program Title	2021-091 97.036 (Includes COVID-19 Awards) Disaster Grants - Public Assistance (Presidentially Declared Disasters)
Compliance Requirement State Entity Federal Grant/Contract Number and Grant Year	Subrecipient Monitoring Florida Division of Emergency Management (FDEM) Various
Statistically Valid Sample Finding Type Prior Year Finding	No Opinion Qualification and Material Weakness Report No. 2021-182, Finding No. 2020-050
Finding	The FDEM did not monitor subrecipients in accordance with FDEM procedures. In addition, the FDEM did not always timely document the review of subrecipient audit reports, determine whether a management decision was required, or issue management decisions for subrecipient audit findings.
Criteria	2 CFR 200.332(d) – <i>Requirements for pass-through entities</i> – All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved. Monitoring of the subrecipient must include reviewing financial and performance reports, following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award detected through audits, on-site reviews, and other means, and issuing management decisions as required by 2 CFR 200.521.
	2 CFR 200.521 – <i>Management decision</i> – The pass-through entity is responsible for issuing a management decision for audit findings pertaining to the Federal award within 6 months of acceptance of the audit report by the Federal Audit Clearinghouse.
	2 CFR 200.512 (a) – <i>Report Submission</i> – The audit must be completed and the data collection form and reporting package must be submitted within the earlier of 30 calendar days after receipt of the auditor's report(s), or 9 months after the end of the audit period.
	FDEM Subrecipient Compliance Program Standard Operating Procedures – All subrecipients were to be classified as low, moderate, or high-risk based on a risk assessment conducted by the FDEM. Low-risk subrecipients were to be monitored at least once a year through desk reviews, moderate-risk subrecipients were to be monitored at least semi-annually through desk reviews, and high-risk subrecipients were to be monitored at least quarterly through desk or on-site reviews. Desk reviews were to include a programmatic, fiscal, and policies and procedures review. Upon completion of the desk review, the FDEM was to issue a Compliance Report.
Condition	During the 2020-21 fiscal year, the FDEM provided \$1,086,497,211 in Disaster Grants funds to 650 subrecipients. Our inquiries of FDEM management disclosed that the FDEM did not conduct desk or on-site reviews for any subrecipients during the 2020-21 fiscal year.
	In addition, according to FDEM records, 408 subrecipients with accounts in FloridaPA, certified that a single audit was required to be submitted to the FDEM

during the 2020-21 fiscal year. Our examination of FDEM records for 47 subrecipient audit reports found that: The FDEM did not issue management decisions for 3 subrecipient audit reports that included findings pertaining to the Federal award. The FDEM did not timely review 3 of the audit reports to allow management decisions to be issued within 6 months of acceptance of the audit reports by the Federal Audit Clearinghouse. Specifically, 1 of the audit reports was reviewed 3 days after the 6-month deadline and the other reports 99 and 222 days after the deadline. The FDEM did not complete the review of 9 subrecipient audit reports as of June 30, 2021, although, according to FDEM records, the audit reports were received in October and November 2020. Cause According to FDEM management, on-site or desk reviews were not conducted, audit reports were not timely reviewed, and management decisions were not timely issued due to staffing shortages. Effect Absent the adequate monitoring of subrecipients, the FDEM cannot ensure that the subaward is used for authorized purposes in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved. Absent the timely review of all required subrecipient audit reports, the FDEM may not timely issue required management decisions or follow up on applicable deficiencies noted during audit to ensure that the subrecipient takes timely and appropriate action. Additionally, the FDEM cannot demonstrate compliance with Federal regulations. Recommendation We recommend that the FDEM conduct subrecipient monitoring in accordance with FDEM procedures and ensure that audit reports from all applicable subrecipients are timely reviewed to ensure that the subrecipients took timely and appropriate action to address all applicable deficiencies. We also recommend that the FDEM timely issue management decisions for all applicable audit findings. FDEM concurs with this finding and has worked hard, despite challenging State Entity Response conditions during the COVID-19 pandemic and staff shortages, to enhance its policies, procedures and processes to address this issue. FDEM has evaluated its audit procedures and made changes to ensure that Federal Single-Audits are reviewed, Management Decision Letters issued in a timely manner, and any issues are followed-up on. The Recovery Bureau has also created new internal training modules to strengthen continuity of operations in this area. FDEM recognizes the importance of a robust subrecipient monitoring program and continues work to strengthen existing procedures and develop new approaches. FDEM is currently developing a new risk monitoring system that will offer the Division a dynamic model of risk assessment which will enhance its subrecipient monitoring capabilities. FDEM is also developing a system of risk based on-site visits and desk reviews involving cross-Bureau subject matter experts (SMEs) that will augment existing subrecipient monitoring efforts.

# **ADDITIONAL MATTERS**

Our audit of the State of Florida's basic financial statements for the fiscal year ended June 30, 2021, disclosed additional matters that we communicated in the **Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards**. Additional matters are issues that, in the auditor's opinion, should be reported, but which are not categorized as a significant deficiency or material weakness.

#### **ADDITIONAL MATTER**

## SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Finding Number State Agency	AM 2021-01 Florida Department of Economic Opportunity (FDEO)
Finding	FDEO procedures for preparing the Schedule of Expenditures of Federal Awards (SEFA) data form were not sufficient to ensure the accuracy of reported amounts. As a result, prior to audit adjustment, amounts reported on the State's SEFA were incorrect.
Criteria	2 CFR 200.508(b) – <i>Auditee responsibilities</i> – The auditee must prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with 2 CFR 200.510.
	Office of Management and Budget Memorandum M 20-26, dated June 18, 2020 – Recipients and subrecipients must separately identify the COVID-19 Emergency Acts expenditures on the SEFA to provide adequate oversight of the COVID-19 Emergency Acts funding and programs.
	To reasonably ensure the accuracy and completeness of the State's SEFA, Florida Department of Financial Services (FDFS) SEFA Instructions required agencies to prepare a SEFA data form and certify its accuracy.
	FDEO SEFA procedures
Condition	As illustrated below, our examination of the FDEO SEFA data form and applicable Note disclosures for the 2020-21 fiscal year found that certain amounts were inaccurately reported.

21.023	Emergency Rental Assistance Program	-	2,764,846

In addition, as a result of the reporting errors for Assistance Listing Nos 10.542 and 10.551, the amounts reported by the FDCF in the Notes to the SEFA for Noncash Benefits were misstated.

Cause According to FDCF management, the amounts were not accurately reported due to employee error.

> Prior to audit adjustment, inaccurate information was reported on the State's SEFA.

Recommendation We recommend that the FDCF enhance procedures to ensure that information is accurately reported on the SEFA.

State Entity Response The Department concurs. The Department is required to prepare the SEFA in accordance with 2 CFR 200.510 of the Uniform Grant Guidance and Department of Financial Services SEFA Instructions. The amounts reported in SFY 20-21, prior to audit adjustments were incorrect due to communication issues regarding

Effect

	a new Assistance Listing Number for one of the programs; another program was incorrectly classified as a vendor relationship by contracting; and passthrough funding for another program was received as General Revenue and the grant was not properly recorded in the GRANTS system. Contract Services has been made aware that all Federal grant contracts should be entered into the Contract Accountability Reporting System and a vendor/subrecipient checklist should be completed for proper determination.
	The Department is creating a process to ensure Federal awards that are passed- through as General Revenue are correctly classified as a Federal award and reported as such in the Grants and Other Revenue, Allocation and Tracking system.

## NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The Schedule of Expenditures of Federal Awards has been prepared in accordance with the Uniform Guidance and presents the Federal awards expended by the State of Florida. The Single Audit Act Amendments of 1996 (Public Law 104-156) and the Uniform Guidance in subpart F define Federal awards as Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. Federal financial assistance is defined as assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property, cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, or other assistance.

The following summary of the State of Florida's significant accounting policies and related information is presented to assist the reader in interpreting the Schedule of Expenditures of Federal Awards and should be viewed as an integral part of the accompanying schedule.

#### <u>Reporting Entity</u>

The reporting entity for the purposes of the accompanying schedule is the State of Florida primary government (i.e., legislative agencies, the Governor and Cabinet, departments and agencies, commissions, boards of the Executive Branch, and various offices relating to the Judicial Branch), the State Universities (SU), and the State Community Colleges and Florida Colleges exclusive of any component units of the State Universities and Community Colleges and Florida Colleges.

#### Assistance Listing (Catalog of Federal Domestic Assistance (CFDA))

The Catalog of Federal Domestic Assistance is a government-wide compendium of individual Federal programs. A five-digit program identification number (Assistance Listing Number) is assigned to each program included in the catalog. Those programs that have not been assigned an Assistance Listing number by the Federal Government and those programs for which Assistance Listing numbers could not be identified are entitled "Other Federal Awards" on the accompanying schedule and listed as Assistance Listing "XX.UXX". The "U" stands for unknown, while the following "XX" represents the sequential numbering of the Federal Awarding Agency. Unknown programs that are also research and development programs are listed as Assistance Listing "XX.RD".

#### Federal Expenditures

The column on the accompanying schedule captioned "Federal Expenditures," includes amounts using different bases of accounting. The reporting entities also include expenditures related to transfers received from other State Agencies, State Universities, State Community Colleges, and Florida Colleges in this column.

Amounts reported by State Agencies, State Universities, State Community Colleges, and Florida Colleges were determined in accordance with the accrual and modified accrual basis of accounting, with the exception of Florida International University, Florida State University, and the University of Florida, which reported expenditures using the cash basis of accounting.

Appropriate expenditures are recognized, as applicable, in accordance with either OMB Cost Principles or cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursements.

Expenditures reported for the Unemployment Insurance (UI) Program (Assistance Listing 17.225) and the Direct Loans Program (Assistance Listing 84.268) are reported using the accrual basis of accounting.

Appropriate adjustments have been made to the expenditures reported on the accompanying schedule to preclude reporting both the transfers of Federal awards between the various State Agencies, State Universities, State Community Colleges, and Florida Colleges, and the subsequent expenditures.

#### Amounts Passed Through to Subrecipients Column

The column on the accompanying schedule captioned "Amounts Passed Through to Subrecipients" represents the amounts transferred by the State Agencies, State Universities, State Community Colleges, and Florida Colleges to subrecipients that are not included in the State's Schedule of Expenditures of Federal Awards. The amounts in this column are also included in the column captioned "Federal Expenditures". Transfers of Federal awards between the State Agencies, State Universities, State Community Colleges, and Florida Colleges are not included in this column.

#### American Recovery and Reinvestment Act of 2009(ARRA)

On February 13, 2009, Congress passed the American Recovery and Reinvestment Act of 2009 (Public Law 111 -5) (Recovery Act). The Recovery Act's three main goals are to create and save jobs, jump-start economic activity and invest in long-term economic growth, and promote accountability and transparency in government spending.

To maximize the transparency and accountability of funds authorized under the Recovery Act, recipients covered by the Single Audit Act Amendments of 1996 and Uniform Guidance must separately identify the expenditures for Federal awards under the Recovery Act on the Schedule of Expenditures of Federal Awards.

ARRA funds reported during the 2020-2021 fiscal year are included within the accompanying schedule. Expenditures reported on the accompanying schedule for ARRA awards totaled \$10,544,666.

#### **COVID-19 Emergency Acts**

In response to the COVID-19 outbreak, Congress has passed three major emergency measures to provide relief to families and the U.S. economy. On March 6, 2020, the Preparedness and Response Supplemental Appropriations Act was signed into law as the first phase and allocated \$8.3 billion of aid to the United States' public health response to COVID-19. On March 18, 2020, Families First Coronavirus Response Act was the second phase and provided relief for both employers and employees who were affected by COVID-19.

On March 27, 2020, Congress passed the third COVID-19 stimulus law, the Coronavirus Aid, Relief, and Economic Security (CARES) Act is a \$2.2 trillion economic stimulus package that aids industries suffering from the pandemic and provides economic relief to families and small businesses who are suffering. The Health and Economic Recovery Omnibus Emergency Solutions Act or the Heroes Act, a \$3 trillion stimulus package, was passed on May 15, 2020, and is intended to supplement the CARES Act stimulus package.

As described in 2 CFR section 200.510(b), COVID-19 Emergency Acts funding is designated as "COVID-19" and reported separately on the accompanying SEFA schedule (and the SF-SAC). The relief funds are assigned a separate Assistance Listing number and apply to both the portion of existing federal programs and the new COVID-19 only programs.

COVID-19 related award expenditures during the 2020-2021 Fiscal Year are included within the accompanying schedule and totaled \$28,153,832,386.

Additionally, the American Rescue Plan Act of 2021 (ARP) (Pub. L. No. 117-2) further extended and modified the programs provided under the CARES Act and Continued Assistance to Unemployed Workers Act of 2020.

#### Disaster Grants – Public Assistance (Assistance Listing 97.036)

After a Presidential-Declared disaster, FEMA provides a public assistance grant to reimburse eligible costs associated with repair, replacement, or restoration of disaster-damaged facilities. The Federal government reimburses in the form of cost-shared grants which requires state matching funds. For the fiscal year ended June 30, 2021, \$39,103,580 of approved eligible expenditures that were incurred in a prior year are included on the schedule.

#### Noncash Assistance

The State participates in several Federal awards programs in which noncash benefits are provided through the State to eligible program participants. The programs where noncash benefits were used are identified in the following table. The programs that report 100% direct noncash benefits are accompanied on the table by a (1).

Assistance Listing Num	ber Assistance Listing Program Title	<b>Total Noncash Benefits</b>	Total Program Expenditures
10.542	Pandemic EBT Food Benefits (1)	602,502,083	602,502,083

93.268	Immunization Cooperative Agreements	282,771,049	332,161,951
Grand Total		9,836,023,223	10,458,747,849

## NOTE 2 – INDIRECT COST RATE

In accordance with §200.414 Indirect (F&A) costs and §200.510, the following State of Florida entities used the 10% de minimis indirect cost rate.

#### <u>State Entities</u>

Justice Administrative Commission

State Colleges Broward College

<u>Universities</u> University of West Florida

## NOTE 3 – UNEMPLOYMENT INSURANCE

The Unemployment Insurance (UI) Program (Assistance Listing 17.225) is a unique Federal-State partnership, founded upon Federal law but implemented primarily through State law. Pursuant to this Program, unemployment benefits are paid to eligible unemployed workers for periods of involuntary unemployment. Benefits are paid from Federal funds and from State unemployment taxes that are deposited into the State's account in the Federal Unemployment Trust Fund (FUTF). State benefits were funded from State taxes. The State's administrative expenditures incurred under this Program are funded by Federal grants. Expenditures reported on the accompanying schedule for the UI Program are identified in the following table:

Federal Administration	119,549,579
Federal Administration Covid-19	72,911,213
DEO - Sub granted to state agencies	17,068,196
Adjusted Federal Administration	209,528,988
Federal Benefits Ex Military/Federal Employees	6,922,151
Federal Benefits Emergency	-
Federal Benefits TRADE/Disaster	391,078
Federal Benefits Covid-19	16,008,451,390
State Benefits funded by Taxes	1,550,731,782
Total	17,776,025,389

## NOTE 4 - LOANS AND LOAN GUARANTEES

The State of Florida participates in several Federal loan programs in which funds are provided through the State to eligible program participants.

#### Highway Planning and Construction (Assistance Listing 20.205)

The Highway Planning and Construction Program (CFDA No. 20.205) is an investment fund from which loans and other forms of credit assistance are provided for highway construction, transit capital, or other surface transportation projects. The Federal share (80 percent) of State Infrastructure Bank disbursements made during the 2020-21 fiscal year totaled \$26,951,712. The total of \$26,951,712 is included on the accompanying schedule with other expenditures from the Highway Planning and Construction Program. The federal portion (80 percent) of the outstanding balance of the State Infrastructure Bank loans at June 30, 2021, totaled \$62,968,010.

#### Federal Family Education Loans (Assistance Listing 84.032)

Under the Federal Family Education Loans (FFEL) Program, the U.S. Department of Education guarantees the repayment of loans made to students by participating financial institutions. The Florida Department of Education administers the FFEL Program (Assistance Listing 84.032) for the State. During the 2020-21 fiscal year, payments made to lenders to cover student loans in default totaled \$26,921,043. The value of outstanding loans guaranteed at June 30, 2021, totaled \$53,276,183.

#### Higher Education Loans

The table below summarizes activity by the State for federally funded student loan programs.

Assistance Listing Number	Assistance Listing Program Title	Current	Year Disbursements	Value o	f Loans Outstanding
47.076	Education and Human Resources	\$	-	\$	335,000
84.032	Federal Family Education Loans	\$	26,921,043	\$	53,276,183
84.038	Federal Perkins Loan (FPL)-Federal Capital Contributions	\$	-	\$	29,062,916
84.268	Federal Direct Student Loans	\$	1,562,537,425	\$	22,011,793

93.342	Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	\$	-	\$	5,847,326
93.364	Nursing Student Loans	\$	-	\$	164
93.408	ARRA - Nurse Faculty Loan Program	\$	-	\$	18,775
	Totals	\$	1,589,458,468	\$	112,344,193

## NOTE 5 – Coronavirus Relief Fund (Assistance Listing Number 21.019) Interest Earned

Funds received from the Coronavirus Relief Fund (Assistance Listing Number 21.019) were held in an interest-bearing account with the State Treasury. During the 2020-2021 fiscal year, interest totaling \$79.12 million was earned on these accounts. The interest earned was expended on eligible program expenditures and included in the total Coronavirus Relief Fund reported expenditures.

# NOTE 6 – Coronavirus Relief Fund (Assistance Listing Number 21.019) Difference in Fiscal Year Ended June 30, 2020 Audited Amount

The Coronavirus Relief Fund program (Assistance Listing Number 21.019) requires state governments to use program funds to recover necessary expenditures incurred between March 31, 2020, and December 31, 2021. State governments were given the flexibility to allocate program funds between reporting fiscal years to recover COVID related costs. The total expenditures reported on the audited Schedule of Expenditures of Federal Awards for fiscal year ended June 30, 2020, was \$1,959,040,779. During the July 1, 2020 - June 30, 2021 fiscal year, \$506,575,742 was reallocated from the fiscal year ended June 30, 2020, to the fiscal year ended June 30, 2021. Therefore, the total expenditures reported for the fiscal year ended June 30, 2020, has been reduced to \$1,452,465,037.
