STATE OF FLORIDA

COMPLIANCE AND INTERNAL CONTROLS OVER FINANCIAL REPORTING AND FEDERAL AWARDS

In Accordance With OMB Circular A-133

For the Fiscal Year Ended June 30, 2011

STATE OF FLORIDA AUDITOR GENERAL DAVID W. MARTIN, CPA

The Auditor General conducts audits of governmental entities to provide the Legislature, Florida's citizens, public entity management, and other stakeholders unbiased, timely, and relevant information for use in promoting government accountability and stewardship and improving government operations.

Inquiries regarding financial statement-related findings should be addressed directly to Kathryn Walker, CPA, Audit Manager, by e-mail at kathrynwalker@aud.state.fl.us or by telephone at (850) 487-9085. Inquiries regarding Federal awards findings for State universities or colleges should be addressed directly to James R. Stultz, CPA, Audit Manager, by e-mail at minstultz@aud.state.fl.us, or by telephone at (850) 922-2263. Please address all other inquiries regarding this report to Lisa A. Norman, CPA, Audit Manager, by e-mail at minstultz@aud.state.fl.us or by telephone at (850) 487-9143.

This report and other audit reports prepared by the Auditor General can be obtained on our Web site at

www.myflorida.com/audgen; by telephone at (850) 487-9175; or by mail at G74 Claude Pepper Building, 111 West Madison

Street, Tallahassee, Florida 32399-1450.

EXECUTIVE SUMMARY

SUMMARY OF INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

The State of Florida's basic financial statements, as of and for the fiscal year ended June 30, 2011, were fairly presented in all material respects, in accordance with accounting principles generally accepted in the United States. Our report is included in the Florida Comprehensive Annual Financial Report for fiscal year ended June 30, 2011, issued by the Chief Financial Officer.

SUMMARY OF INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Internal Control Over Financial Reporting

We noted the following matters involving the internal control over financial reporting and its operation that we considered to be material weaknesses:

- ➤ The Agency for Health Care Administration did not record a receivable and deferred revenue to represent its claim on Federal financial resources related to incurred-but-not-reported (IBNR) Medicaid claims. (Finding No. FS 11-001)
- ➤ For claims payable, accounts payable and accrued liabilities, and expenditures, the Agency for Health Care Administration did not follow established fiscal year-end procedures requiring the accrual of expenditure amounts in accordance with generally accepted accounting principles. (Finding No. FS 11-002)

We consider the following deficiencies in internal control over financial reporting and its operation to be significant deficiencies:

- For receivable and related financial statement accounts, we found that the Agency for Health Care Administration did not properly accrue revenues in accordance with generally accepted accounting principles. (Finding No. FS 11-003)
- The Agency for Health Care Administration did not have a process in place to monitor compliance with Medicaid Program matching requirements. (Finding No. FS 11-004)

We noted additional matters that were reported to management but that we did not consider to be significant deficiencies.

- ➤ The Department of Financial Services did not, in all instances, identify and correctly record financial statement transactions for the Rehabilitation and Liquidation Trust Fund. (Finding No. FS 11-005)
- ➤ The Department of Education did not take into consideration the short-term portion of university auxiliary debt reported by the various colleges and universities when calculating the amount reported as advances to other entities. (Finding No. FS 11-006)

Compliance

The results of our tests disclosed an instance of noncompliance that is required to be reported by *Government Auditing Standards*. We found that the Agency for Health Care Administration had not documented that the State had met the matching requirements of the Medicaid Program. (Finding No. FS 11-004)

SUMMARY OF INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

State agencies, universities, and colleges administered approximately 615 Federal awards programs or program clusters during the 2010-11 fiscal year. Expenditures for the 36 major programs totaled \$38.5 billion, or approximately 94 percent of the total expenditures of \$41.1 billion, as reported on the supplementary Schedule of Expenditures of Federal Awards.

Compliance requirements for major programs are established in the OMB Circular A-133 Compliance Supplement. Types of compliance requirements include: Activities Allowed or Unallowed; Allowable Costs/Cost Principles; Cash Management; Davis-Bacon Act; Eligibility; Matching, Level of Effort, Earmarking; Period of Availability of Federal Awards; Procurement and Suspension and Debarment; Reporting; Subrecipient Monitoring; and Special Tests and Provisions.

Compliance

For the Special Education Cluster, we were unable to express and did not express an opinion on the Department of Education's compliance with the Matching, Level of Effort, Earmarking requirement because the Department of Education had not yet accumulated the information needed to demonstrate whether the State had met the State-level maintenance of effort requirement. (Finding No. FA 11-027)

The State of Florida complied, in all material respects, with the compliance requirements applicable to each of its other major Federal awards programs, except as described in the following instances, which resulted in opinion qualifications:

- ➤ The Department of Transportation did not always follow established procedures requiring the documentation of monitoring activities for the Highway Planning and Construction Cluster. (Finding No. FA 11-016)
- ➤ The Executive Office of the Governor did not document that weekly certified payrolls from subrecipients for the State Energy Program were received and reviewed for compliance with the Davis-Bacon Act. (Finding No. FA 11-019)
- ➤ The Department of Education did not maintain appropriate records to support the salaries and benefit amounts charged to the Vocational Rehabilitation Cluster. Additionally, the Department of Education did not always ensure that eligibility determinations were made within the time frame required by Program regulations. (Finding Nos. FA 11-030 and FA 11-031)
- ➤ The Department of Children and Family Services failed to timely impose Child Support Enforcement sanctions on uncooperative TANF (Temporary Assistance for Needy Families) recipients. (Finding No. FA 11-049)
- ➤ In several of the instances tested, the Department of Revenue did not timely establish support obligations or commence proceedings to establish support obligations and, if necessary, paternity for the Child Support Enforcement program. Additionally, for several of the interstate cases tested, the Department of Revenue did not provide required child support services within specified time frames. (Finding Nos. FA 11-052 and FA 11-053)
- The Agency for Health Care Administration had not documented that the State had met the matching requirements of the Medicaid Program and did not have a process in place to monitor compliance with matching requirements. Additionally, Agency for Health Care Administration procedures were not sufficient to ensure that Medicaid providers receiving payments had a current Medicaid provider agreement in effect. Also, the Agency did not always maintain Medicaid provider files containing applications, agreements, and other required documentation evidencing the provider's eligibility to participate in the Medicaid program. (Finding Nos. FA 11-069 and FA 11-070)

➤ The Department of Children and Family Services did not meet the maintenance of effort requirement for the Block Grants for the Prevention and Treatment of Substance Abuse Program. (Finding No. FA 11-075)

The results of our audit also disclosed other instances of noncompliance pertaining to programs administered by various State agencies, universities, and colleges as described in the SCHEDULE OF FINDINGS AND QUESTIONED COSTS. Some of the instances of noncompliance resulted in questioned costs subject to disallowance by the grantor agency.

Internal Control Over Compliance

We noted numerous matters at various State agencies, universities, and colleges involving internal control over compliance and its operation that we considered to be significant deficiencies. Significant deficiencies are described in the SCHEDULE OF FINDINGS AND QUESTIONED COSTS and pertained to several compliance requirements. The following significant deficiencies were considered material weaknesses:

- ➤ The Department of Community Affairs did not appropriately allocate salary and benefit costs charged to the Low-Income Home Energy Assistance Program, the State-Administered CDBG Cluster, and the Weatherization Assistance for Low-Income Persons Program. (Finding No. FA 11-005)
- ➤ The Department of Revenue's contract with a service provider for Unemployment Insurance did not include provisions requiring the provider to deliver an independent service auditor's report describing the provider's internal controls and opining on the effectiveness of those controls related to the collection of data for unemployment taxes. (Finding No. FA 11-010)
- ➤ The Division of Emergency Management did not appropriately allocate salary and benefit costs charged to the Disaster Grants and Hazard Mitigation Programs and the Homeland Security Cluster. Additionally, the Division of Emergency Management did not always maintain sufficient documentation to evidence during-the-award monitoring of subrecipients for the Homeland Security Cluster. (Finding Nos. FA 11-076 and FA 11-080)
- The instances described in the previous paragraphs on compliance for the Highway Planning and Construction Cluster (Finding No. FA 11-016); State Energy Program (Finding No. FA 11-019); Vocational Rehabilitation Cluster (Finding No. FA 11-030); and Medicaid Cluster (Finding Nos. FA 11-069 and FA 11-070) also involved material weaknesses in internal control.

SUMMARY OF INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY INFORMATION

The State's supplementary Schedule of Expenditures of Federal Awards (SEFA) is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the State's basic financial statements. The State's SEFA does not include the State's blended component units, Workforce Florida, Inc., and Scripps Florida Funding Corporation; discretely presented component units of the State's universities and colleges; or discretely presented component units other than the State's universities and colleges. Information on the SEFA is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009 (ARRA)

During the 2010-11 fiscal year, the State of Florida received and expended over \$6.6 billion in Federal funding provided pursuant to the ARRA. The United States Congress mandated additional reporting and transparency requirements to be met by recipients of ARRA funds, and the Federal Single Audit has been identified as one of the tools used to measure the degree of stewardship and accountability provided by the states for moneys provided under ARRA. Expenditures of ARRA funds are separately identified on the supplementary Schedule of Expenditures of Federal Awards. Programs that included ARRA funds, and for which findings are disclosed in the SCHEDULE OF FINDINGS AND QUESTIONED COSTS, are distinctively identified in the SCHEDULE OF FINDINGS AND QUESTIONED COSTS and the INDEX OF FEDERAL FINDINGS BY FEDERAL AGENCY AND COMPLIANCE REQUIREMENT.

SCOPE

As a condition of receiving Federal funds, the U.S. Office of Management and Budget (OMB) requires, as described in OMB Circular A-133, an audit of the State's financial statements and major Federal awards programs. Pursuant to Section 11.45, Florida Statutes, we conducted an audit of the basic financial statements of the State of Florida as of and for the fiscal year ended June 30, 2011. We also subjected supplementary information contained in the State's Comprehensive Annual Financial Report and the State's Schedule of Expenditures of Federal Awards to auditing procedures applied in our audit of the basic financial statements. Additionally, we audited the State's compliance with governing requirements for the Federal awards programs or program clusters that we identified as major programs for the fiscal year ended June 30, 2011.

OBJECTIVES

The objectives of our audit were:

- ➤ The expression of opinions concerning whether the State's basic financial statements were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States.
- The expression of an opinion concerning whether the State's Schedule of Expenditures of Federal Awards is presented fairly, in all material respects, in relation to the State's basic financial statements taken as a whole.
- > To obtain an understanding of the internal control over compliance for each major Federal program, assess the control risk, and perform tests of controls, unless the controls were deemed to be ineffective.
- > The expression of opinions concerning whether the State complied, in all material respects, with laws, regulations, and the provisions of contracts or grant agreements that may have a direct and material effect applicable to each of the major Federal programs.

METHODOLOGY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, applicable standards contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and OMB Circular A-133.

The President of the Senate, the Speaker of the House of Representatives, and the Legislative Auditing Committee

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida as of and for the fiscal year ended June 30, 2011, which collectively comprise the State of Florida's basic financial statements and have issued our report thereon dated January 25, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Prepaid College Program, Florida Turnpike System, Hurricane Catastrophe Fund, certain discretely presented component units, the Legislature, the College Savings Plan, and trust funds maintained by the State Board of Administration to account for the investments of the Florida Retirement System and the Public Employee Optional Retirement Program, as described in our report on the State of Florida's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

Management of the State of Florida is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the State of Florida's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Florida's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the State of Florida's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed in the FINANCIAL STATEMENTS FINDINGS section of the accompanying SCHEDULE OF FINDINGS AND QUESTIONED COSTS, we identified

certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in finding Nos. FS 11-001 and FS 11-002 in the **FINANCIAL STATEMENTS FINDINGS** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be material weaknesses.

A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in finding Nos. FS 11-003 and FS 11-004 in the **FINANCIAL STATEMENTS FINDINGS** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State of Florida's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, administrative rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the **FINANCIAL STATEMENT'S FINDINGS** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** as finding No. FS 11-004.

We also noted two additional matters involving the State's internal control over financial reporting, that we reported to management as finding Nos. FS 11-005 and FS 11-006 in the **FINANCIAL STATEMENTS FINDINGS** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

State agency responses to each of the findings identified in our audit are included in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. We did not audit these responses and, accordingly, we express no opinion on them.

Pursuant to Section 11.45(4), Florida Statutes, this report is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, Federal and other granting agencies, the Executive Office of the Governor, and applicable management and is not intended to be used and should not be used by anyone other than these specified parties.

Respectfully submitted,

David W. Martin, CPA

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited the State of Florida's compliance with the types of compliance requirements described in the United States Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the State of Florida's major Federal programs for the fiscal year ended June 30, 2011. The State of Florida's major Federal programs are identified in the **SUMMARY OF AUDITOR'S RESULTS** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of the State of Florida's management. Our responsibility is to express an opinion on the State of Florida's compliance based on our audit.

The State of Florida's basic financial statements include the operations of component units that received Federal awards during the fiscal year ended June 30, 2011, that are not included in the State's supplementary Schedule of Expenditures of Federal Awards. Our audit of Federal awards, as described below, did not include the operations of the blended component units, Workforce Florida, Inc., and Scripps Florida Funding Corporation, or discretely presented component units of the State agencies, universities, and colleges. As applicable, Federal awards administered by these component units are the subjects of audits completed by other auditors. Our audit, as described below, also did not include the operations of the Legislature.

Except as discussed in the following paragraph, we conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the State of Florida's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that

our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the State of Florida's compliance with those requirements.

We were unable to obtain sufficient documentation supporting the compliance of the State of Florida with the Special Education Cluster (CFDA Nos. 84.027, 84.173, 84.391, and 84.392) regarding the Matching, Level of Effort, Earmarking compliance requirement (see finding No. FA 11-027 in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**), nor were we able to satisfy ourselves as to the State of Florida's compliance with this requirement by other auditing procedures.

As described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, the State of Florida did not comply with the requirements listed below for the Federal programs listed below. Compliance with such requirements is necessary, in our opinion, for the State of Florida to comply with the requirements applicable to the respective Program.

Finding No. FA 11-	Major Program	Types of Compliance Requirements Not Complied With
016	Highway Construction and Planning Cluster (CFDA Nos. 20.205, 20.219, 20.933, and 23.003)	Subrecipient Monitoring
019	State Energy Program (CFDA No. 81.041)	Davis-Bacon Act
030	Vocational Rehabilitation Cluster (CFDA Nos. 84.126 and 84.390)	Allowable Costs/Cost Principles
031	Vocational Rehabilitation Cluster (CFDA Nos. 84.126 and 84.390)	Eligibility
049	TANF (Temporary Assistance for Needy Families) Cluster (CFDA Nos. 93.558, 93.714, and 93.716)	Special Tests and Provisions – Child Support Non-Cooperation
052	Child Support Enforcement (CFDA No. 93.563)	Special Tests and Provisions – Establishment of Paternity and Support Obligations
053	Child Support Enforcement (CFDA No. 93.563)	Special Tests and Provisions – Child Support Services for Interstate Cases
069	Medicaid Cluster (CFDA Nos. 93.720, 73.775, 93.776, 93.777, and 93.778)	Matching, Level of Effort, Earmarking
070	Medicaid Cluster (CFDA Nos. 93.720, 73.775, 93.776, 93.777, and 93.778)	Special Tests and Provisions – Provider Eligibility
075	Block Grants for Prevention and Treatment of Substance Abuse (CFDA No. 93.959)	Matching, Level of Effort, Earmarking

In our opinion, except for the effects of such noncompliance, if any, as might have been determined had we been able to examine sufficient evidence regarding the State of Florida's compliance with the requirements of the Special Education Cluster regarding Matching, Level of Effort, Earmarking, and except for the noncompliance described in the preceding paragraph, the State of Florida complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the fiscal year ended June 30, 2011. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are

4

described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** as finding Nos. FA 11-:

002	004 through 005	009	012 through 015
018	020 through 024	026	028 through 029
032	035	037	040 through 041
043	045 through 046	048	050 through 051
055 through 056	060 through 061	063	066 through 068
071	076	079	082 through 111
113 through 120			

Internal Control Over Compliance

Management of the State of Florida is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered the State of Florida's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of Florida's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the following finding Nos. of the accompanying SCHEDULE OF FINDINGS AND QUESTIONED COSTS to be material weaknesses.

Finding No. FA 11-	Major Program	Compliance Requirement
005	State-Administered CDBG Cluster (CFDA Nos. 14.228 and 14.255)	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
	Weatherization Assistance for Low-Income Persons (CFDA No. 81.042)	
	Low-Income Home Energy Assistance (CFDA No. 93.568)	
010	Unemployment Insurance (CFDA No. 17.225)	Reporting and Special Tests and Provisions – Employment Experience Rating
016	Highway Planning and Construction Cluster (CFDA Nos. 20.205, 20.219, 20.933, and 23.003)	Subrecipient Monitoring
019	State Energy Program (CFDA No. 81.041)	Davis-Bacon Act
030	Vocational Rehabilitation Cluster (CFDA Nos. 84.126 and 84.390)	Allowable Costs/Cost Principles
069	Medicaid Cluster (CFDA Nos. 93.720, 73.775, 93.776, 93.777, and 93.778)	Matching, Level of Effort, Earmarking
070	Medicaid Cluster (CFDA Nos. 93.720, 73.775, 93.776, 93.777, and 93.778)	Special Tests and Provisions – Provider Eligibility
076	Disaster Grants – Public Assistance (Presidentially Declared Disasters) (CFDA No. 97.036)	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
	Hazard Mitigation Grant (CFDA No. 97.039)	
	Homeland Security Cluster (CFDA Nos. 97.004 and 97.067)	
080	Homeland Security Cluster (CFDA Nos. 97.004 and 97.067)	Subrecipient Monitoring

A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the following finding Nos. of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be significant deficiencies:

001 through 004	006 through 009	011 through 014	017
020 through 026	028 through 029	032 through 038	040 through 049
054 through 063	065 through 066	071 through 072	074
078 through 079	081 through 086	089 through 090	097 through 098
100	103 through 105	113 through 120	

The State agencies', universities', and colleges' responses to the findings identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. We did not audit these responses and, accordingly, we express no opinion on the responses.

Pursuant to Section 11.45(4), Florida Statutes, this report is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this report is intended for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Executive Office of the Governor, applicable management, Workforce Florida, Inc., and Federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

David W. Martin, CPA

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY INFORMATION

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida as of and for the year ended June 30, 2011, and have issued our Independent Auditor's Report thereon dated January 25, 2012, which contained an unqualified opinion on those financial statements. Our report includes a reference to other auditors. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the State of Florida's basic financial statements.

The accompanying SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS is presented for the purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial The SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain other procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS is fairly stated in all material respects in relation to the basic financial statements as a whole.

Research and Development Cluster (2)	(1)	740,020,113
Total		\$ 38,473,753,759

Notes: (1) The Schedule of Expenditures of Federal Awards identifies the programs included within the respective clusters.

⁽²⁾ These programs include ARRA funds expended during the 2010-11 fiscal year.

⁽³⁾ Pursuant to the audit relief provisions of the OMB Single Audit Internal Control Pilot Project - Phase II, we replaced six low-risk Type A programs with three high-risk ARRA-funded Type B programs.

FINANCIAL STATEMENTS FINDINGS

Our audit of the State of Florida's basic financial statements for the fiscal year ended June 30, 2011, disclosed certain matters that we communicated in the INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS. These findings are categorized in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that findings be categorized in a manner that discloses their significance. The categorizations established and defined by the standards are as follows:

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A *significant deficiency* is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our audit also disclosed *additional matters*, which are issues that, in the auditor's opinion, should be reported, but which do not clearly fit in any of the above-noted designations.

MATERIAL WEAKNESS

NET RECEIVABLES

Florida Agency for Health Care Administration (FAHCA) State Agency

OLO-GF-SF-FID 680000-20-2-474001

GL Code(s) 164, 389 **Adjustment Amount** \$214,333,274

Prior Year Finding Report No. 2011-167, Finding No. FS 10-001

Finding As previously reported, the FAHCA Bureau of Finance and Accounting (Bureau)

> did not record a receivable and deferred revenue to represent its claim on Federal financial resources related to the incurred-but-not-reported (IBNR)

Medicaid claims liabilities.

Criteria Unmatured long-term indebtedness, including IBNR Medicaid claims liabilities,

> should be reported as long-term liabilities in the government-wide financial statements, and a receivable and deferred revenue should be recorded in the governmental fund financial statements to represent the State's claim on Federal resources that will be used to finance the Federal portion of expenses related to

the IBNR amounts.

Condition The Bureau recorded the long-term liability for IBNR Medicaid claims for the

fiscal year ending June 30, 2011; however, the Bureau had not recorded the receivable and deferred revenue equal to the amounts due from Federal

resources.

Cause Although the Bureau had fiscal year close-out procedures to record the

receivable and deferred revenue representing the Federal resources due related

to the IBNR amounts, the Bureau inadvertently omitted the entry.

Effect Prior to audit adjustments, net receivables and deferred revenues in the

governmental fund financial statements were understated by approximately \$214

million.

Recommendation We again recommend that the Bureau follow established procedures to record

net receivables and deferred revenue in recognition of the State's claim on

Federal resources related to the IBNR Medicaid claims.

State Agency Response and

Corrective Action Plan

We concur with the finding. Staff recorded the liability, but inadvertently

overlooked the receivable and deferred revenue entry.

Estimated Corrective

Action Date

A financial statement adjustment entry was submitted. Staff has been reminded that this is a two-part entry, and notes have been added to the checklist to

ensure all steps are completed.

MATERIAL WEAKNESS **CLAIMS PAYABLE**

Finding Number FS 11-002

Opinion Unit Governmental Fund: Health and Family Services

Financial Statements Account Title(s)

Claims payable, Accounts payable and accrued liabilities, and Expenditures

SW Fund Number 202400

State Agency Florida Agency for Health Care Administration (FAHCA)

680000-20-2-339094 and 680000-20-2-474001 **OLO-GF-SF-FID**

315, 311, and 711 GL Code(s)

Adjustment Amount \$162,775,567 and \$25,489,267

The FAHCA Bureau of Finance and Accounting (Bureau) erroneously recorded **Finding**

adjusting entries to payables and expenditures that caused material

misstatements in the Health and Family Services Fund.

Criteria Generally accepted accounting principles require the reporting of Claims payable

and expenditures at fiscal year-end for goods and services received, but for

which payment has not been made.

Condition The majority of the Claims payable recorded by FAHCA relate to Medicaid

services for which claims had not been submitted by providers by June 30. Since the exact amount of claims that will be submitted by providers is not known at fiscal year-end, the Bureau must use an estimate. For these Medicaid claims, the Bureau established fiscal year-end procedures to record the remaining balance of appropriated funds initially as accrued claims payable and Procedures required that, subsequently, after considering expenditures. disbursements made during the 90 days after fiscal year-end, an additional adjustment be made to both accounts to reflect more accurate payable and

expenditure amounts.

Cause When considering disbursements made during the 90 days after fiscal year-end,

it was necessary for the Bureau to make an additional adjustment to reflect the correct balances for payables and expenditures. However, the Bureau made duplicate entries of \$162,775,567 to payable and expenditures. Also, the Bureau erroneously recorded \$25,489,267, as Accounts payable instead of as Claims

payable.

Effect Prior to audit adjustments, Accounts payable were overstated by \$25,489,267

and Claims payable and Expenditure accounts for the Health and Family Services Fund were understated by \$188,264,834 and \$162,775,567,

respectively.

Recommendation We recommend that the Bureau revise its procedures for recording Medicaid

Claims payable and the related accounts (expenditures) to ensure accurate amounts are recorded at year-end based on historical data and other relevant

factors.

State Agency Response and

We concur with the finding. Prior to fiscal year 2010-11, the Medicaid Service **Corrective Action Plan** payables were recorded to the regular accounts payable general ledger. Staff

inadvertently used the accounts payable general ledger code instead of the

claims payable general ledger code. The duplicate entry was an error.

Estimated Corrective

Action Date

The financial statement adjustment entries have been submitted. The finance statement checklist has been updated to include the use of the claims payable general ledger code. Staff was instructed to review adjusting entries more

closely to reduce the risk of errors.

SIGNIFICANT DEFICIENCY

NET RECEIVABLES

Finding Number FS 11-003

Opinion Unit Governmental Fund: Health and Family Services

Financial Statements Account Title(s)

Net Receivables and Fees and Charges

SW Fund Number 202400

State Agency Florida Agency for Health Care Administration (FAHCA)

OLO-GF-SF-FID 680000-20-2-339094

GL Code(s) 151, 613 **Adjustment Amount** \$242,065,430

Finding The FAHCA Bureau of Finance and Accounting (Bureau) recorded a post-closing

entry to Net Receivables and Fees and Charges based on budgeted amounts

rather than billed transactions.

Criteria Generally accepted accounting principles require that receivables, representing

amounts uncollected at year-end, for which the agency has a legal claim, be

reported on the financial statements.

Condition FAHCA receives fee revenue for Medicaid services from county and local

government entities. The Bureau generally records revenue and receivables for the amount owed to FAHCA by these entities at year-end, based on a summary report of billed and collected amounts. During the financial statement preparation for the 2010-11 fiscal year, the Bureau calculated the revenue and receivables based on the difference between the budgeted fees revenue and the amount collected, rather than the difference between billed revenue and the amount collected. Since budgeted fees revenue was greater than the billed fees revenue, this calculation resulted in an overstatement of revenue and receivables

in the amount of \$242,065,430.

CauseBureau staff indicated that budgeted fee revenue amounts were used in error.

Effect Prior to audit adjustments, net receivables and fees and charges in the

governmental fund financial statements were overstated by approximately \$242

million.

Recommendation We recommend that the Bureau ensure that revenue and receivables for fees

collected from county and local government entities be recorded based on billed

rather than budgeted amounts.

State Agency Response and

Corrective Action Plan

We concur with the finding. The information from the social services conference was used for the calculation instead of the county agreements and subsequent

deposits. The county agreements will be used in future calculations

Estimated Corrective

Action Date

The financial statement adjusting entry has been submitted. The county agreements and actual deposits in the first quarter following fiscal year end will

be used for the calculations.

GL Code(s) Various **Adjustment Amount** Various

The FDFS Bureau of Accounting (Bureau) did not, in all instances, identify and **Finding** correctly record financial accounts and balances related to the Rehabilitation and

Liquidation Trust Fund activities for the fiscal year.

Generally accepted accounting principles require that financial activity recorded Criteria during the fiscal year on a cash basis be converted at fiscal year-end to the

appropriate accrual basis of accounting.

Condition The Bureau received various financial reports from the Division of Rehabilitation and Liquidation. These reports were to be used to record and adjust accounts and balances and to convert financial activity from the cash basis to the accrual basis of accounting. The Bureau's year-end financial statement preparation procedures did not ensure the identification and recording of all necessary accounts and adjustments. Resulting errors lead to incorrect revenue

recognition, the omission of expenses and district cash holdings, and the misclassification of payables, as noted below:

Initial entries did not record revenue in the appropriate Additions categories. Receivership revenue was understated by \$60,416,186 and Interest income, Deposits, and Other additions were overstated by \$33,214,020, \$14,984,484 and \$177,284, respectively. The net effect of the initial entries was to understate total additions by \$12,394,966.

Expenses related to amortization, write-offs, and interest expense were not identified and reported. As a result of these omissions, total deductions were understated by \$12,354,189. The Bureau did not identify and record cash on hand in district accounts totaling \$40,777.

The Bureau misclassified mortgage debt payables totaling \$23,524,176 and security deposit payable of \$5,100 as short-term vendor accounts payable.

In the process of preparing fiscal year-end financial statement adjustments necessary to report Rehabilitation and Liquidation Trust Fund balances and transactions, the Bureau did not identify and correctly record all financial activity

related to assets, liabilities, revenues, and expenses.

Prior to audit adjustment, the following account balances were overstated: Interest income, \$33,214,020; Accounts payable, \$23,529,276; Administrative expenses, \$3,238,057; and Deposits, \$14,984,484. The following account balances were understated: Cash and cash equivalents, \$40,777; Deposits payable, \$5,100; and Other long-term liabilities, \$23,524,176; Receivership assets acquired, \$60,416,186; Other additions, \$177,284; Interest expense,

\$57,460; and Other deductions, \$15,534,786.

We recommend that the Bureau enhance its fiscal year-end reporting procedures to ensure that all financial transactions related to Rehabilitation and Liquidation Trust Fund activities are accurately and completely identified and reported in the

State's financial statements.

Cause

Effect

Recommendation

State Agency Response and Corrective Action Plan

The Division of Rehabilitation and Liquidation (Division) presents year-end financial data on a cash liquidation basis of accounting (Other Comprehensive Basis of Accounting per the National Association of Insurance Commissioner's guidelines, and for the Division's internal financial analysis purposes). The Bureau of Financial and Support Services (Bureau) will work with the Division to more accurately convert fiscal year-end financial statements the Division presents on a cash basis to accrual basis financial statements, as required by generally accepted accounting principles. The Bureau has also enhanced procedures for the Division's review of year-end financial statement data to ensure that all financial transactions related to Rehabilitation and Liquidation Trust Fund activities are accurately and completely identified and reported in the State's financial statements.

ADDITIONAL MATTERS

ADVANCES TO OTHER ENTITIES

Finding Number FS 11-006 **Opinion Unit** Public Education

Financial Statements Account Title(s)

Advances to other entities, Deferred revenues, and Interest earnings

SW Fund Number 200200

Florida Department of Education (FDOE) State Agency

OLO-GF-SF-FID 480000-20-8-0260001 GL Code(s) 25800, 38900, and 61500

Adjustment Amount \$36,059,000, \$10,849,191, and \$25,209,809

The FDOE did not take into consideration the short-term portion of the payable **Finding**

related to the Board of Governors' University Auxiliary bonds when determining the advance to other entities amount reported in the Ancillary Facility

Construction Trust Fund (Trust Fund).

Criteria Advances to other entities are typically longer term cash loans to another

accounting entity. The receiving entity is to report an offsetting obligation of equal value to the entity advancing the funds. In this instance, the Advances to other entities reported by the Trust Fund should be equal to the total principal obligation (University Auxiliary debt) reported by various colleges and

universities.

Condition The balance in the Advances to other entities account was understated by

> \$36,059,000. In order to balance, the Deferred revenue and Interest earnings accounts were also improperly adjusted (downward) by an offsetting amount.

When calculating the amount of the advance in the Trust Fund, FDOE personnel Cause

did not consider the short-term portion of University Auxiliary debt reported by the

various colleges and universities.

Effect Prior to audit adjustment, the Trust Fund account balances for Advances to other

entities, Deferred revenue, and Interest earnings were understated by

\$36,059,000, \$10,849,191 and \$25,209,809, respectively.

Recommendation We recommend that the FDOE ensure that the total amount of the principal

outstanding for University Auxiliary debt is considered when calculating for the

Trust Fund the amount of the Advance to other entities.

State Agency Response and **Corrective Action Plan**

The Board of Governors agrees with the recommendation, and will determine the short-term portion of the payable in future year's calculations. This is only the

> second year that this series of entries has been recorded, following the determination that University Auxiliary Debt should be recorded as an obligation of primary government, and this further refinement of the basic calculation will be

incorporated into the year-end process.

FEDERAL FINDINGS AND QUESTIONED COSTS

Our audit findings with regard to compliance and internal controls over compliance with the requirements of major Federal awards programs are disclosed on the following pages. Where applicable and determinable, we have disclosed actual questioned costs where known or likely questioned costs exceeded \$10,000. To identify the nature and significance of each finding, we have identified each finding with one or more of the following designations:

- ➤ Opinion Qualification. A finding presenting a condition that affects the auditor's ability to give an unqualified opinion on compliance. This would include findings of (a) noncompliance with provisions of laws, regulations, contracts, or grants, the effects of which are material to the respective major Federal award program; or (b) inadequate records that resulted in restrictions being placed on the scope of the audit.
- ➤ Material Noncompliance. A finding presenting noncompliance with provisions of laws, regulations, contracts, or grants caused by error or fraud, the effects of which are material in relation to a major Federal program taken as a whole.
- ➤ **Noncompliance**. A finding presenting noncompliance with provisions of laws, regulations, contracts, or grants caused by error or fraud, the effects of which are material in relation to a type of compliance requirement or applicable audit objective identified in the OMB Circular A-133 Compliance Supplement.
- ➤ Material Weakness. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A material weakness is considered in relation to a type of compliance requirement or applicable audit objective identified in the OMB Circular A-133 Compliance Supplement.
- Significant Deficiency. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A significant deficiency is considered in relation to a type of compliance requirement or applicable audit objective identified in the OMB Circular A-133 Compliance Supplement.
- ➤ Questioned Costs. Costs that are questioned by the auditor because of an audit finding that reported: (a) a violation or possible violation of a provision of a law, regulation, contract, grant, cooperative agreement, or other agreement or document governing the use of Federal funds, including funds used to match Federal funds; (b) costs, at the time of the audit, which were not supported by adequate documentation; or, (c) costs incurred that appeared unreasonable and did not reflect the actions a prudent person would take in the circumstances.
- > Other. Matters that, in the auditor's opinion, should be reported but do not clearly fit in any of the above-noted designations.
- As part of the audit process, our findings were provided to the applicable agencies for management's response. The responses were prepared by agency management and are included with the audit findings.

The agency responses include the agency's corrective action plan, a point of contact responsible for ensuring appropriate corrective action, and an estimated corrective action date.

We have presented our findings, generally, by Federal grantor agency and in the order of the Catalog of Federal Domestic Assistance Number (CFDA No.) assigned to each applicable Federal award program. Findings that pertain to multiple programs are generally presented as the first findings within the Federal grantor agency section. In some instances, a finding may pertain to programs provided by more than one Federal grantor agency. In such instances, the finding is presented within the section for the Federal grantor agency that provided the most funding for the applicable agency. Findings for the Student Financial Assistance Cluster and the Research and Development Programs Cluster are presented within separately marked sections of the report. An INDEX OF FEDERAL FINDINGS BY FEDERAL AGENCY AND COMPLIANCE REQUIREMENT is included to assist Federal grantor agencies in identifying applicable findings.

Finding Type

Condition

Cause

Effect

Significant Deficiency

Prior Year Finding Report No. 2011-167, Finding No. FA 10-003

Finding Program management had not implemented certain access security controls for

the Child Nutrition Program (CNP) System.

Criteria Information Technology Best Practices

Access Controls: Management should implement and document procedures that provide access control based on an individual's demonstrated need to view, add, or delete data. Access controls should include the use of individual user identifications (IDs) and passwords to allow for attributing user activities to the responsible user. Additionally, the risk of inappropriate or unnecessary access privileges can be reduced through the employment of such controls as documenting authorizations for system access, periodically reviewing the appropriateness of access privileges, and promptly removing the access

privileges of former employees.

Program staff used the CNP System, a Web-based application and claims processing system, in its administration of USDA Child Nutrition programs. The CNP System contains comprehensive maintenance utilities allowing online submission and approval of documents and claims via the Internet by Program personnel and sponsor users. Key features are: (1) through a single interface, information regarding sponsors, applications, claims, reports, and advances can be managed; (2) a single database contains core information that can be utilized across the Child Nutrition programs; (3) partially completed documentation can be saved online, allowing the user to complete the process at a later time; and (4) user access to the programs is administered by Program personnel and assigned by security groupings via login ID and password. The CNP System

was used in the processing of approximately \$779 million in claims paid to sponsors during the 2010-11 fiscal year.

Our audit disclosed that certain aspects of CNP System access security controls did not sufficiently reduce the risk of inappropriate or unnecessary access. We are not disclosing specific details of access security control deficiencies in this report to avoid the possibility of compromising system security. However, we

Program management did not establish adequate access security controls for the

have notified appropriate Program management of these issues.

CNP System.

Absent appropriate access security controls, the integrity of the data contained

within the CNP System is subject to increased risk of compromise.

Recommendation FDACS should establish adequate access security controls for the CNP System.

State Agency Response and Corrective Action Plan

We concur with the recommendation. The Office of Food, Nutrition, and Wellness and the Agriculture Management Information Center will implement program modifications to comply with Florida Information Technology Resource Security Policies and Standards, Chapter 71A-1, Florida Administrative Code.

Federal Grant/Contract Number and Grant Year

5FL300323 2011

Finding Type

Noncompliance and Significant Deficiency

Finding FDOE did not have a process in place to ensure that Child Nutrition Cluster

subaward data were properly reported in the Federal Funding Accountability and

Transparency Act (FFATA) Subaward Reporting System (FSRS).

Criteria 2 CFR 170 Reporting Subaward and Executive Compensation Information

Condition FFATA regulations required FDOE, as a recipient, to report key data elements

regarding its subawards in FSRS. FSRS is a reporting tool used to capture and report subaward and executive compensation data and make them available to the public via a single, searchable Web site. FFATA reporting is required for grants or cooperative agreements effective on or after October 1, 2010, exceeding \$25,000, and made with a new Federal Assistance Identification Number on or after that date. Pursuant to Federal regulations, FDOE should have reported the key data elements by the end of the month following the month in which the obligation was made. However, as of June 30, 2011, FDOE had not reported data for Child Nutrition Cluster subawards made to 259 entities and

totaling approximately \$653 million.

Cause FDOE assigned staff to input the Child Nutrition Cluster subaward data into

FSRS; however, FDOE supervisory staff did not ensure that the data was

entered.

Effect Child Nutrition Cluster subaward data were not reported as required by FFATA.

Recommendation We recommend that FDACS, as the successor State administering agency,

ensure that all required key data elements are timely reported in FSRS.

State Agency Response and Corrective Action Plan

We concur with the recommendation. The Office of Food, Nutrition and Wellness will submit the Child Nutrition Cluster subaward data monthly to the Department's Bureau of Finance and Accounting. The Bureau of Finance and Accounting will enter the data into the FFATA FSRS by the end of the month for the preceding

month.

Significant Deficiency

Report No. 2011-167, Finding No. FA 10-004

Finding FDOH uses the Management Information and Payment System (MIPS) to receive CACFP claims from pre-approved contractors who provide meals and

snacks under the Program. MIPS calculates monthly claims, provides management information, and prepares Federal reports. In our Information Technology operational audit report No. 2011-193, dated June 2011, we disclosed in finding Nos. 1 through 6, deficiencies related to MIPS regarding user access and system modification that we consider collectively to be a significant deficiency. Details of the findings and recommendations are included in that

report.

Finding Type

2011IN109945 and 2011IN202045

Noncompliance and Significant Deficiency

Finding

FDOH did not have a process in place to report Federal Funding Accountability and Transparency Act (FFATA) Subaward Reporting System (FSRS) data related to subawards. In addition, FDOH did not obtain the Dun and Bradstreet Data Universal Numbering System (DUNS) number of subrecipients prior to issuing subawards.

Criteria

2 CFR 170 Reporting Subaward and Executive Compensation Information

Condition

FSRS is a reporting tool used to capture and report subaward and executive compensation data and make them available to the public via a single, searchable Web site. FFATA reporting is required for grants or cooperative agreements effective on or after October 1, 2010, exceeding \$25,000, and made with a new Federal Assistance Identification Number on or after that date. Pursuant to Federal regulations, FDOH, as a recipient, should have reported the key data elements, including the subrecipient's DUNS number, by the end of the month following the month in which the obligation was made.

As of June 30, 2011, FDOH had made 229 new subawards between October 1, 2010, and June 30, 2011, subject to FFATA reporting requirements. FDOH did not obtain, as required, the DUNS number for entities receiving the subawards prior to execution of the agreements.

Cause

FDOH was not aware of the FFATA reporting requirement until January 2011 and did not have a process in place to obtain DUNS numbers from the subrecipients.

Effect

CACFP subaward data were not reported as required by FFATA.

Recommendation

We recommend that FDOH ensure that all required key data elements are timely reported in FSRS for the applicable grants. We also recommend that FDOH obtain DUNS numbers prior to executing subrecipient agreements.

State Agency Response and Corrective Action Plan

The United States Department of Agriculture (USDA) requested a waiver for all Child Nutrition Programs and we were informed of its denial and the requirement to comply with FFATA reporting in January 2011. The program office contacted DOH Finance and Accounting and Revenue Management to determine whether FFATA reporting was being implemented. The answer was that FFATA reporting was a program office responsibility.

- 1) The program office conducted planning meetings to identify the following implementation steps:
 - Re-configure the data tables and Management Information Payment System (MIPS) data system for each contractor type to accept the DUNS information. This was completed in June 2011.
 - Develop training for contractors on where and how to obtain a DUNS number.
 - Collaborate with the FDOH General Counsel's office, FDOH Contract Administration and FDOH Contract Administrative Monitoring to incorporate the DUNS standard language into the permanent contract.

 Require current and prospective contractors to provide DUNS information as a component of the application process.

- 2) The program office conducted contractor training for Sponsors of Day Care Homes and Unaffiliated Centers in April 2011. The program office conducted renewal training for all other contractors during July and August 2011. These trainings included DUNS requirements and the new contract.
 - All renewing contactors provided DUNS information as part of their renewal application information effective October 1, 2011. All prospective contractors are now required to provide DUNS information as part of the application.
- 3) When the program office researched the type of data to be reported, it was discovered that the FFATA system requires extended zip+4 zip codes. The program at the time did not collect extended zip codes. The MIPS data system application screen and data tables were modified to accept extended zip codes.
 - A search for available software to convert current zip codes to zip+4
 revealed that the department already owned and is using ACCUMAIL to
 convert zip codes. The program office secured permission to access the
 ACCUMAIL software and USPS data tables.
 - The contractor data to be uploaded into FFATA was converted by ACCUMAIL to include the extended zip+4 codes. During December 2011, all data was gathered and in the correct format for uploading into the FFATA system.
- 4) The program office has made multiple failed attempts to upload the data for the 1,500 contractors into FFATA. The help center was consulted and they explained that it appeared that our data file met specifications. The help center is seeking a solution and has not responded with further instructions. The program office will follow-up as needed with the FFATA help center to complete the upload of the prepared data.

Estimated Corrective Action Date

- 1) Completed August 2011
- 2) Completed October 2011
- 3) Completed November 2011
- 4) To be completed February 2012

pe Noncompliance and Material Weakness Questioned Costs – \$1,458,835.85

Finding FDCA did not appropriately allocate salary and benefit costs charged to multiple

Federal programs.

Criteria OMB Circular A-87, Attachment B, Section 8.h., Support of Salaries and Wages

10 CFR 600.220, Standards for Financial Management Systems

45 CFR 96.30(a), Fiscal Control and Accounting Procedures

24 CFR 85.20, Standards for Financial Management Systems

Condition

During the 2010-11 fiscal year, FDCA contracted with a software developer to develop a new information technology system that would, among other things, allocate salary and benefits charged to Federal programs. While this system was not fully functional, the payroll distribution module was utilized to allocate salary and benefits. FDCA identified errors in the salary and benefits allocation methodology; however, the effect of the errors on salaries charged to each Federal program and grant was not determined or corrected by the end of the fiscal year. Salary and benefits totaling \$1,458,835.85 were allocated through the system during the fiscal year and charged to the following Federal programs:

CFDA Number – Program Title	Grant Number	Amount
14.228, 14.255 – Community Development	B-05-DJ-12-0001	457.86
Block Grant – State-Administered CDBG	B-06-DG-12-0001	208,539.04
Cluster (Includes Recovery Act Funding)	B-08-DC-12-0001	166,973.56
	B-08-DN-12-0001	184,713.74
	B-09-DC-12-0001	325,274.13
	B-10-DC-12-0001	37,134.58
	B-99-DC-12-0001	(19,021.86)
	Total	\$904,071.05
81.042 – Weatherization Assistance for	DE-FG26-	
Low-Income Persons (Includes Recovery	07NT43105	51,658.39
Act Funding)	DE-EE0000209	353,527.64
	Total	\$405,186.03
93.568 – Low-Income Home Energy	2009G992201	93,085.13
Assistance	2010G992201	56,493.64
	Total	\$149,578.77
	Grand Total	\$1,458,835.85

Cause

FDCA did not ensure that the development of the payroll allocation module was closely monitored.

Effect

Federal programs were incorrectly charged costs for salary and benefits. In addition, cash draws and amounts reported as Federal expenditures during the fiscal year may have included incorrect salary and benefit costs.

Recommendation We recommend that FDEO correct the salary and benefits allocation

inaccuracies and make appropriate adjustments to cash draws and Federal

reports as applicable.

State Agency Response and Corrective Action Plan

We concur. FDEO is in the process of making the appropriate adjustments to correct inaccuracies in salary and benefit allocations.

Significant Deficiency

Report No. 2010-165, Finding No. FA 09-008

FDCA procedures for preparing the annual Section 3 Summary Report did not **Finding**

provide assurance that the reported data was accurate. FDCA did not fairly state the status of a similar prior audit finding in the Summary Schedule of Prior Audit

Findings (SSPAF).

Criteria 24 CFR 135.90, Reporting

24 CFR 570.487(d), Other applicable laws and related program requirements

Condition For each housing and community development assistance grant over \$200,000

that involves housing rehabilitation, housing construction, or other public construction. FDCA was required to submit an annual Section 3 Summary Report, Economic Opportunities for Low- and Very Low-Income Persons. The Section 3 Summary Report requires information on construction and nonconstruction contracts awarded, dollar amounts of awards, number of new hires that are Section 3 residents, and the total number of Section 3 businesses

receiving contracts.

Our review of the Section 3 Summary Report submitted September 30, 2010, for the period July 1, 2009, through June 30, 2010, disclosed errors in the summarization of the data submitted by subgrantees for three of the nine grants included in the report. Specifically, we noted the following:

Errors in the total amount awarded for construction and nonconstruction contracts. As a result, the amount reported for awarded contracts was overstated by \$538,024.

New hires were inappropriately categorized for one grant. In addition, we noted minor errors for two other grants in the number of new hires, the number of new hires that are Section 3 residents, and the number of Section 3 trainees.

In its SSPAF for the 2010-11 fiscal year, CDBG Program staff indicated the finding was fully corrected; however, as described above, we continued to note instances where program staff did not have in place adequate procedures governing the review of required reports.

While CDBG Program staff reviewed the report prior to submission, the review was not sufficient to detect errors noted for the Section 3 Summary Report.

Failure to provide reports that are accurate may limit the ability of program staff to properly account for Federal funds and administer the CDBG Program.

CDBG Program staff should enhance the report review process to provide additional assurance that amounts reported on the annual Section 3 Summary Report are accurate.

Cause

Effect

Recommendation

State Agency Response and Corrective Action Plan

We concur. The Department acknowledges that there were data entry typographical errors in the Section 3 report. The overstatement amount of \$538,024 was corrected by revising the data entry errors identified in the Vero Beach contract associated with Grant Number B-07-DC-12-0001; the Vernon and Westville contracts associated with Grant Number B-08-DC-12-0001; and the Delray Beach and Davie contracts associated with Grant Number B-08-DN-12-0001.

The data entry errors regarding the Section 3 new hires and trainees have also been corrected in the three grants noted above. In Grant Number B-08-DN-12-0001, the CDBG staff revised the local government's entries for the housing manager, real estate appraiser, and lead based paint inspector as professional positions resulting in nine professional positions instead of the six professional positions noted in the auditor's review.

The CDBG program staff had already implemented the following corrective measures prior to the audit: (1) create a web-based reporting system so that local governments can enter their data directly, which should result in the elimination of data transfer errors; (2) Department contract managers are required to review Section 3 documentation during onsite monitoring visits; and (3) CDBG staff provides technical assistance to local governments, including webinars, Section 3 information on our web site, workshops, and by telephone. The web-based reporting system was in place and was being used by grantees during the audit, however it was not in place during the audit period. Therefore, the corrective action was not applied to the summary report reviewed during the audit.

CDBG staff will also coordinate with local governments to resolve any differences of opinion regarding the professional or non-professional status of Section 3 hires. Any revisions will be supported by appropriate documentation in the files.

In response to the audit finding, staff emailed the Section 3 revisions to the U.S. Department of Housing and Urban Development (HUD), on February 3, 2012. The Section 3 database was revised to include the updated information. All Section 3 reports now reflect the correct information.

Estimated Corrective Action Date

No further corrective actions are required.

Subrecipient Monitoring
Florida Agency for Workforce Innovation (FAWI) [Transferred to the Florida
Department of Economic Opportunity (FDEO) effective October 1, 2011]

Federal Grant/Contract Number and Grant Year Finding Type

Various

Significant Deficiency

Questioned Costs - \$31,323

Finding

FAWI did not always return subrecipient disallowed costs to the Federal government.

Criteria

OMB Circular A-133 § .400 (d), Pass-through entity responsibilities

Condition

FAWI's monitoring of the Regional Workforce Boards (local boards) during the 2009-10 fiscal year disclosed \$31,323 in questioned costs, of which FAWI recommended that \$22,758 of questioned costs be disallowed and repaid, as the expenditures did not comply with applicable Federal regulations, State law or State policy direction. The remaining \$8,565 was classified by FAWI as de minimis and not practical to recoup. In a memorandum addressed to its State oversight entity (Workforce Florida, Inc.) and dated June 20, 2011, FAWI provided that \$60 had been repaid by a local board from unrestricted funds, which resulted in a balance of \$31,263. In the memorandum, dated June 20, 2011, FAWI did not require repayment of the disallowed costs, but instead, identified several areas of concern, and areas that lacked clarity during the review.

Our audit disclosed that FAWI had not identified the applicable Federal programs to which the disallowed costs pertained, nor had FAWI recovered the \$31,263 of disallowed costs or provided documentation supporting a determination that the expenditures were subsequently determined to be allowable. Additionally, FAWI had not returned the total amount of Federal funds to USDOL.

Cause

FAWI did not recover the disallowed costs based on direction received from Workforce Florida, Inc.

Effect

Disallowed costs were not required to be repaid by the local boards, nor were the amounts returned to the Federal government.

Recommendation

We recommend that FDEO recover from the Regional Workforce Boards disallowed costs. Additionally, FDEO should return the Federal share of disallowed costs to USDOL.

State Agency Response and Corrective Action Plan

Based upon the original request from Workforce Florida, Inc. (WFI), FAWI initiated a detailed review of the food and beverage expenditure activities of the Regional Workforce Boards (RWBs) and provided updates and recommendations as to future actions and policies that WFI and FAWI may consider. The results of the review and consultation between FAWI and WFI were that the guidance on food and beverage purchases was unclear.

Action has been taken by Workforce Florida, Inc. to develop policy and by the Florida Legislature through statutory changes to clarify when food and beverage purchases may be made by RWBs using federal or state funds. Other than expenditures that were in clear violation of the December 16, 2009 WFI Food and Beverage Policy, no items related to food and beverage purchases were determined disallowed.

N/A

Significant Deficiency

Beginning on February 10, 2011, FAWI began offering claimants throughout the State the option of receiving benefits via a debit card. The Debit Card Program is intended to increase efficiencies and reduce costs by eliminating the need to store, print, mail, cancel, and reissue warrants. For the 2010-11 fiscal year, 213,248 transactions totaling \$73,680,460 in benefits had been paid through this process.

In audit report No. 2012-028, dated November 17, 2011, we noted that the Unemployment Compensation (UC) Claims and Benefit Subsystem included an interface with the new debit card system, Electronic Payment Processing Information Control Card (EPPICard). Through the debit card interface, benefit payment information was communicated between the UC Claims and Benefit Subsystem and EPPICard.

Finding Nos. 1 and 2 identified issues related to the debit card interface concerning access privileges and security controls each of which we considered to be significant deficiencies. Details of the findings and recommendations, as well as management's response, are included in that report.

N/A

Noncompliance and Significant Deficiency

FAWI withheld Federal income taxes from claimant benefit payments without appropriate authorization from the claimant.

26 USC 3402 (p) (2), *Income Tax Collected at Source – Voluntary Withholding on Unemployment Benefits –* If, at the time a payment of unemployment compensation (UC) is made to any person, a request by such person is in effect that such payment be subject to withholding under this chapter, then such payment shall be treated as if it were a payment of wages by an employer to an employee. The amount to be deducted and withheld under this chapter shall be an amount equal to 10 percent of such payment.

Department of the Treasury Internal Revenue Service (IRS) Form W-4V Voluntary Withholding Request (For UC and certain Federal government payments) – To have Federal income tax withheld from UC is not required by law and is voluntary. A requestor of this voluntary action may use Form W-4V to ask the payer to withhold Federal income tax. Payers may develop their own form to request Federal income tax withholding. The payer is permitted to withhold 10 percent from each payment. If a request for voluntary withholding of Federal income tax is made, the requestor is required by Sections 3402(p) and 6109 and their regulations to provide the information requested on Form W-4V. If the requestor does not provide a completed form that is signed, the payer cannot withhold Federal income tax from the payment.

FAWI Unemployment Compensation Claims Manual, Section 1.0.7 – Initial Claims, FORM AWI-UCW4V, Voluntary Withholding of Income Tax (Revised 05/05) – The agency must issue all claimants who file initial, additional or reopen claims, Form AWI-UCW4V, Voluntary Withholding of Federal Income Tax. Form AWI-UCW4V advises claimants in writing that benefits paid under UC are subject to Federal income tax, that requirements exist pertaining to estimated tax payments, and that income tax may be withheld at the individual's option. Claimants must complete and sign Form AWI-UCW4V regardless of whether the claimant elects to have Federal income taxes withheld or not. This form is also used to request the agency to discontinue withholding income taxes.

FAWI, as the State agency responsible for administering the UI Program, was required to ensure that all pertinent information, including forms required for filing an initial unemployment claim were completed by claimants prior to initiating benefit payments. Accordingly, FAWI developed Form AWI-UCW4V, Voluntary Withholding of Federal Income Tax, that required information similar to IRS Form W-4. The instructions for Form AWI-UCW4V required that the form be completed whether the claimant declined, elected, or discontinued the withholding of Federal income taxes.

While our testing did not disclose any instances of claimant withholding amounts exceeding the Federally established 10 percent requirement, our review of 40 benefit payments disclosed 14 instances in which Federal income taxes, totaling \$3,909, were withheld from claimants' benefit payments although FAWI did not have the required documentation on file that supported the claimant's election of this voluntary action.

Condition

On October 31, 2011, FDEO management indicated that no analysis of the number of affected claims had been performed and no Federal entity had been notified of this issue. State accounting records disclosed that for the 2010-11 fiscal year, FAWI disbursed a total of \$5,836,974,412 in UC benefit payments.

Cause

To administer the program, FAWI utilizes the UC System to determine eligibility and calculate benefit amounts for individuals seeking UC. Further, the UC System is composed of several interacting subsystems. In 13 of the 14 instances noted (taxes totaling \$3,541), the automated system settings relating to two of these subsystems (i.e., Florida Unemployment Internet Administration [FLUID] and First Data Interactive Voice Response System [IVR]) allowed the deductions to be made without the receipt of the Form AWI-UCW4V. For the remaining instance (taxes totaling \$368), management indicated that due to the high volume of claims being handled by the UC program at the time, the document was evidently completed, but could not be located because it had not been properly imaged into its Enterprise Imaging System.

Effect

Federal income taxes had been withheld without documentation of UC claimant authorization.

Recommendation

We recommend that FDEO management implement procedures, including appropriate system modifications, to ensure the required Form AWI-UCW4V, or its equivalent is completed, signed, and retained for each claimant.

State Agency Response and Corrective Action Plan

We concur. FDEO management has implemented procedures including appropriate system modifications to ensure the required form is completed, signed, and retained for each claimant prior to benefits being withheld for income tax purposes. The necessary changes to procedures and system modification were completed on November 16, 2011.

Estimated Corrective Action Date

Alternese Smith (850) 245-7407

U.S. DEPARTMENT OF LABOR

Finding Number FA 11-010

CFDA Number 17.225 (Includes Recovery Act Funding)

Program Title Unemployment Insurance

Compliance Requirement Reporting and Special Tests and Provisions – Employer Experience Rating

State Agency Florida Department of Revenue (FDOR)

Material Weakness **Finding Type**

Finding FDOR's contract with a service provider did not include provisions requiring the

> provider to deliver to FDOR an independent service auditor's report describing the provider's internal controls and opining on the effectiveness of those controls

related to the collection of data for unemployment taxes.

Criteria OMB Circular A-133, §__.300(b), Auditee responsibilities - The auditee shall

maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have

a material effect on each of its Federal programs.

Condition FDOR contracted with a service provider for electronic filing programs, available

to taxpayers, for filing unemployment and other tax returns and the related tax payments. For the 2010-11 fiscal year, FDOR received unemployment tax payments totaling \$1,684,508,135.85 of which \$564,752,869.69 related to tax returns processed by this provider, representing 33.5 percent of total unemployment tax receipts. Unemployment tax collections are included in the ETA 581 Contribution Operations report submitted to the U.S. Department of Labor and included as a factor in the establishment of individual employers' unemployment tax rates. FDOR did not obtain an independent service auditor's report describing the provider's internal controls and opining on the effectiveness of those controls related to the collection of data for unemployment taxes during

the 2010-11 fiscal year.

Cause FDOR staff indicated that the current FDOR contract with this service provider

did not contain a requirement to obtain a service auditor's report and that the contract will expire May 31, 2012. FDOR staff also indicated that the service

auditor's report requirement will be included in negotiations for a new contract.

Absent an independent review of the internal controls of the service provider

collecting data for significant amounts of unemployment taxes, FDOR has reduced assurance that the tax information received is accurate and complete.

Recommendation We recommend that FDOR include in the new contract, provisions for an

independent service auditor's report on internal controls.

State Agency Response and The Department is preparing the ITN for electronic services since our current

contract with BSWA expires in May 2012. A SAS 70 (SSAE 16) will be included in the list of desired requirements for this contract.

Estimated Corrective The requirement for an SSAE 16 will be included in the contract which is **Action Date**

anticipated to be executed in June 2012. The contractor awarded will have up to

one year for full implementation.

Various

Noncompliance and Significant Deficiency

Finding

Program procedures were not in place to ensure the local boards complied with Federal requirements pertaining to youth activities.

WIA Section 117(a) and (d), Local Workforce Investment Boards – There shall be established in each local area of a State, and certified by the Governor of the State, a local workforce investment board, to set policy for the portion of the Statewide workforce investment system within the local area. Functions of the local board shall include developing and submitting a local plan to the Governor.

WIA Section 117(h)(1) and (2), *Youth Council* – There shall be established, as a subgroup within each local board, a youth council appointed by the local board, in cooperation with the chief elected official for the local area. The membership of each youth council shall include: (i) board members with special interest or expertise in youth policy; (ii) representatives of youth service agencies, including juvenile justice and local law enforcement agencies; (iii) representatives of local public housing authorities; (iv) parents of eligible youth seeking assistance; (v) individuals, including former participants, and representatives of organizations, that have experience relating to youth activities; and (vi) representatives of the Jobs Corps, as appropriate; and may include such other individuals as the chairperson of the local board, in cooperation with the chief elected official, determines to be appropriate.

WIA Section 117(h)(4) provides that subject to the approval of the local board, and consistent with Section 123, duties of the youth council are to include conducting oversight with respect to eligible providers of youth activities in the local area.

WIA Section 123, *Identification of Eligible Providers of Youth Activities* – From funds allocated to a local area, the local board for such area shall identify eligible providers of youth activities by awarding grants or contracts on a competitive basis, based on the recommendations of the youth council and on the criteria contained in the State plan.

20 CFR 661.350(a)(7), What are the contents of the local workforce investment plan? – The local workforce investment plan must meet the requirements of WIA Section 118(b). The plan must include a description and assessment of the type and availability of youth activities in the local area, including an identification of successful providers of such activities.

20 CFR 665.200(b)(4), What are required Statewide workforce investment activities? – Required Statewide workforce investment activities include disseminating a list of eligible providers of youth activities as described in WIA Section 123.

TEGL 9-00 (USDOL Training and Employment Guidance Letter), WIA of 1998, Section 129 – Competitive and Non-competitive Procedures for Providing Youth Activities Under Title I, dated January 23, 2001

Criteria

Condition

TEGL No. 9-00 transmits policy guidance to State and local workforce investment areas on procedures for providing local youth activities under Title I, Subtitle B of the WIA of 1998. Further, this TEGL requires states to: (a) ensure compliance with the policy guidance; (b) transmit the guidance to the Local Workforce Investment Boards as expeditiously as possible; (c) instruct local areas to provide guidance on relevant State procurement requirements to local grant recipients and program operators; and (d) provide technical assistance to local areas through the dissemination of best practices. For the 2010-11 fiscal year, expenditures for WIA Youth Activities totaled \$37,519,317.

During our test of compliance with the Federal requirements concerning youth activities, we noted various instances in which FAWI did not have procedures in place to ensure that the local boards complied with the applicable policy guidance. Additionally, FAWI did not provide technical assistance to the local boards through the dissemination of best practices. Our testing disclosed the following:

- Our review of youth council membership listings provided for the 2010-11 fiscal year, disclosed that the majority of the representation on the youth councils were not from the areas specified in Federal regulations. FAWI management indicated that it is their plan to include the required positions for youth council membership in future local plan instructions and to ensure that each board has representatives from every required entity. FAWI also indicated that staff will send out information to all local boards reminding them of the requirements associated with a youth council and providing guidance on how to meet those requirements.
- The State's planning instructions that were to guide the regional workforce boards (local boards) in developing their local plans did not require that local boards:
 - Include information regarding how the youth council was involved in the
 oversight of eligible providers of youth activities. FAWI management
 indicated that FAWI will review local plan instructions to include a section
 that describes how local youth councils are established and how those
 councils are to be involved in the oversight of local youth programs.
 - Address whether local boards identified eligible providers of youth activities in the local area by awarding grants or contracts on a competitive basis, based on the recommendations of the youth council. FAWI management indicated that such instructions would be included in future revisions.
 - Provide for a description and assessment of the type and availability of youth activities in the local area, including an identification of successful providers of such activities. Subsequent to audit inquiry, management stated that FDEO will ensure that the local plan instructions include a section that specifically requires a description and assessment of the type and availability of youth activities in the local workforce region.
- While FAWI maintained a listing of eligible youth providers, FAWI had not performed procedures to verify the accuracy of the listing. Management acknowledged the information was not always accurately updated and FDEO staff plans to improve the process for collecting this information and ensuring that it is both accurate and widely disseminated. Additionally, management has planned to revise future local plan instructions to ensure the instructions include a request for local boards to provide information on current eligible youth providers.

Management was not aware of the specified Federal requirements and; consequently, had not provided the necessary guidance or technical assistance to the local boards for implementation.

Cause

Effect

Management was unable to demonstrate that the: (1) State had ensured compliance with the applicable Federal regulations; (2) Federal policy guidance concerning procedures applicable to the provision of local youth activities had been effectively communicated to the local areas; and (3) instructions had been made available to the local areas regarding specific procurement requirements.

Recommendation

We recommend FDEO ensure efforts are made to address these Federal requirements at the local boards through guidance and technical assistance, including the revision of local plan instructions.

State Agency Response and Corrective Action Plan

We concur. FDEO will implement the following corrective action:

- Send written instructions to the local boards reminding them of the statutory membership requirements of a youth council.
- Require local boards to provide information about the composition & membership of their youth councils as a component of the required local workforce services plan and review such submissions to ensure that each board has representatives from all required entities.
- Require that the local workforce services plan include information on:
 - How the youth council assesses the type and availability of youth activities in the local workforce region.
 - How the youth council identifies eligible providers of youth activities through a competitive selection process and how the youth council makes recommendations to the board regarding the final decision to award grants or contracts and/or provide direct youth services by the board.
 - How the youth council provides oversight of eligible providers of youth activities.
 - How the youth council will share "best practices" with the state so the state may disseminate that information throughout the workforce system.
- With regard to the maintenance and dissemination of a list of eligible youth providers, the Department will establish procedures for the annual updating of the list of eligible youth providers and maintain and disseminate a statewide list of eligible youth providers. This will be done both through written communication and posting on the Department's web site.

Estimated Corrective Action Date

Plan Instructions will be completed in time for the next planning cycle (June 2012). Two memoranda should be ready for dissemination by end of March 2012 (a reminder of membership requirements for youth council composition and a request for list of eligible youth providers to be submitted by RWBs). Final Guidance regarding the selection and oversight of youth providers should be ready for issuance to the regional workforce boards for comment by the end of April 2012.

FY 2010, AA186330955A12/AA186338F0 - FY 2010

Noncompliance and Significant Deficiency

Finding

Amounts listed on the Employment and Training Administration (ETA) 9130 reports were not accurately reported. Additionally, FAWI procedures for preparing the reports were not sufficient to ensure that reported data was complete and accurate.

Criteria

TEGL 16-99 (USDOL Training and Employment Guidance Letter), Change 1, WIA Financial Reporting

USDOL ETA Financial Report Instructions (Basic Instructions for ETA - 9130. dated July 8, 2008); USDOL ETA Financial Report Instructions (WIA Statewide Dislocated Worker, dated July 9, 2008); USDOL ETA Financial Report Instructions (WIA Statewide Rapid Response, dated July 9, 2008); USDOL ETA Financial Report Instructions (WIA Local Dislocated Worker, dated July 9, 2008); USDOL ETA Financial Report Instructions (WIA Local Adult, dated July 8, 2008)

Condition

States are required to submit quarterly ETA 9130 financial reports using USDOL instructions and clarifications. During the 2010-11 fiscal year, FAWI staff prepared and submitted 181 reports for WIA grant programs. FAWI procedures required management's review and approval of the ETA 9130 report, worksheets, and supporting documentation, prior to the report being submitted to the USDOL; however, our review of 18 reports disclosed that 4 reports included erroneous totals that were not detected by FAWI personnel prior to the submission of the reports to USDOL. Specifically:

- For the quarter ended September 30, 2010, accounting personnel erroneously reported a combined total for encumbrances that included both the WIA Statewide Dislocated Workers (\$1,731,420.84) and WIA Statewide Rapid Response (\$30,302.18) grants, totaling \$1,761,723.32 on the WIA Statewide Dislocated Worker – ETA 9130 report for line 10g, Federal share of unliquidated obligations. The WIA Statewide Rapid Response - ETA 9130 report showed an amount of zero for this line item.
- For the quarter ended June 30, 2010, accounting personnel combined the encumbrances of the WIA Local Dislocated Worker (\$8,042,121) and WIA Local Adult (\$7,080,593) grants, and reported the sum totaling \$15,122,714 on the WIA Local Dislocated Worker - ETA 9130 report for line 10g, Federal share of unliquidated obligations. The WIA Local Adult - ETA 9130 report showed an amount of zero.

Subsequent quarters' ETA-9130 reports correctly reported the encumbrances of the above grant programs separately.

Cause

Utilizing manual worksheets, the grant accountant included incorrect balances, and supervisory reviews did not detect the errors before the reports were submitted to USDOL.

Effect

Inaccurate data was reported to USDOL, which used report information to manage the programs.

Recommendation

A more thorough supervisory review of the amounts reported may identify and allow the correction of errors before submission of the reports to USDOL.

State Agency Response and Corrective Action Plan

We concur. Errors in the reporting of encumbrances on line 10g of the ETA 9130 ("Federal share of unliquidated obligations") were made on four quarterly Workforce Investment Act (WIA) reports. An error in a spreadsheet formula in each of two quarters resulted in an incorrect amount being reported as encumbrances on a total of four reports. In both cases, the error was identified by staff when the subsequent quarterly report was being prepared and the formula was corrected. As noted in the audit finding, subsequent quarters' ETA-9130 reports correctly reported the encumbrances.

To minimize the possibility of similar errors in the future, internal grant reporting processes will be enhanced to ensure that the formulas are checked quarterly to verify that each ETA 9130 column is linked to the appropriate data. The grant accountant in Finance & Accounting and the grant manager in the Grants Management unit will perform the checks and initial the Routing Sheet for Federal Grant Reports to signify to the grant reporting supervisor that these steps, along with the many other steps in the grant reporting process, have been completed.

Federal Grant/Contract Number and Grant Year Finding Type

AA-17115-08-55-A-12 (2/17/2009 – 6/30/2011)

Noncompliance and Significant Deficiency

Finding

FAWI procedures were not sufficient to ensure that performance accountability information was accurately reported on the Employment and Training Administration (ETA) Form 9149.

Criteria

TEGL 24-08 (USDOL Training and Employment Guidance Letter), WIA and Wagner Peyser Performance Accountability Reporting for the American Recovery and Reinvestment Act of 2009, dated May 21, 2009, and TEGL 24-08 Clarifications, updated June 7, 2010

TEGL 7-10, WIA and Wagner-Peyser Act Performance Accountability Reporting for the American Recovery and Reinvestment Act (ARRA) of 2009, dated August 19, 2010

Condition

States are required to submit monthly an ETA Form 9149, Youth Served with WIA Recovery Act Resources Monthly Report, using USDOL guidance and clarifications. The ETA Form 9149 is required to track youth served with Recovery Act funds. TEGL 24-08 *Clarifications* addressed the replacement of performance item 14 - number of participants receiving employment services with a new performance item 14 - number of participants transitioning into unsubsidized employment.

During the 2010-11 fiscal year, we noted that for 9 of 12 months, incorrect totals for performance item 14 – number of participants transitioning into unsubsidized employment had been reported to USDOL. Program staff had reported for each of the 9 months, the number of participants receiving employment services. Totals were compiled and reported on each report for the current month, previous month, and program-to-date.

These errors resulted in an overstatement of program-to-date totals as of May 31, 2011. FAWI had reported 8,486 participants transitioning into unsubsidized employment, although supporting documentation indicated the amount reported should have been 1,569 participants, a difference of 6,917 participants. Subsequent to our audit inquiry, as part of the ETA Form 9149 submission for the month ended July 31, 2011, program staff notified USDOL of the errors. While FAWI personnel corrected the program—to-date count, the previous month's total was reported incorrectly. The July 2011 ETA Form 9149 reported the number of participants transitioning into unsubsidized employment for the previous month as 845, when the correct number was zero.

Cause

Program staff manually entered the incorrect line of data on the Federal Web site, and there was not an independent review prior to submission.

Effect

Current information regarding the impact of Recovery Act resources on the services provided is essential. Information reported on the ETA Form 9149 and used by USDOL to administer and manage the WIA program was incorrect.

Recommendation

We recommend that management ensure that data is reviewed for accuracy prior to submission to USDOL.

State Agency Response and Corrective Action Plan

We concur. FDEO agrees with the recommendation that management ensures that data is reviewed for accuracy prior to submission to USDOL. Additional layers of review, including peer-to-peer review and dual-processing, have been implemented as part of our corrective action plan. The Department has also established procedures to ensure that new and updated guidance from USDOL are reviewed and analyzed by staff to ensure that all parties have a precise understanding of reporting requirements. If there are any issues that require further clarification, they will be raised to the Regional and Federal offices for final guidance and resolution. If clarification is not received before a report is due, then a comment/note will be added to the report.

Estimated Corrective Action Date

The described corrective action has been implemented as of August 24, 2011.

Federal Grant/Contract Number and Grant Year Finding Type

Various

Finding

Criteria

Noncompliance

Contrary to Federal regulations, FAWI did not conduct subrecipient monitoring that ensured compliance with WIA nondiscrimination and equal opportunity requirements.

20 CFR 667.410(a), What are the oversight roles and responsibilities of recipients and subrecipients? Roles and responsibilities for all recipients and subrecipients of funds under WIA Title I in general — Each recipient and subrecipient must conduct regular oversight and monitoring of its subrecipients and contractors in order to determine whether or not there is compliance with other provisions of the Act.

20 CFR 667.410(b), What are the oversight roles and responsibilities of recipients and subrecipients? State roles and responsibilities for grants under WIA Sections 127 and 132 – The Governor is responsible for the development of the State monitoring system. The Governor must be able to demonstrate, through a monitoring plan or otherwise, that the State monitoring system, among other things: (1) provide for annual on-site monitoring reviews of local areas' compliance with USDOL uniform administrative requirements, as required by WIA Section 184(a)(4); and (2) enables the Governor to ensure compliance with the nondiscrimination and equal opportunity requirements of WIA section 188 and 29 CFR part 37. Requirements for these aspects of the monitoring system are set forth in 29 CFR 37.54(d)(2)(ii).

29 CFR 37.54(d)(2)(ii), What are a Governor's obligations to develop and maintain a Method of Administration? — Each governor must establish and adhere to a Methods of Administration for State programs as defined in Section 37.4. At a minimum, each Methods of Administration (MOA) must include a system for periodically monitoring the compliance of recipients with WIA Section 188 and this part, including a determination as to whether each recipient is conducting its WIA Title I financially assisted program or activity in a nondiscriminatory way.

Condition

Monitoring reviews of the 24 local areas had not been conducted for the 2010-11 fiscal year, to ensure compliance with WIA Section 188 and 29 CFR part 37. Similar issues had been noted for previous fiscal years during an on-site monitoring visit conducted by USDOL. In response to the USDOL monitoring report, FAWI, in a memorandum to USDOL dated June 30, 2011, outlined the planned corrective actions to bring the State into voluntary compliance. FAWI's plan included performing nondiscrimination program reviews of the 24 local areas using a two-pronged approach beginning September 2011. These reviews are to include desk reviews on a two-year cycle and week-long site visits once every third year.

Cause

Management indicated that there were not a sufficient number of employees in place to conduct annual on-site reviews at the 24 local areas.

Effect There is limited assurance that the local areas had administered the

grant-supported activities in accordance with the applicable Federal

requirements.

Recommendation We recommend that management continue its efforts to ensure that monitoring

reviews are conducted for all subgrantees in a timely manner.

State Agency Response and Corrective Action Plan

We concur. FDEO has resumed nondiscrimination program reviews of the 24 regional workforce boards. As communicated to USDOL, FDEO will perform this monitoring by conducting desk reviews on a two-year cycle and site visits once every third year. FDEO's Office for Civil Rights is on course to complete 8 on-site reviews and 12 desk reviews during the current program year.

For clarification, it does not appear necessary to be physically present in the small to mid-size regions for 5 days. It appears possible to perform the on-site portions of these reviews in 2 to 3 days, while reviewing the information obtained and drafting reports in Tallahassee.

Estimated Corrective Action Date

June 30, 2012: Completion of 8 on-site reviews and 12 desk reviews. For each

year thereafter, adhere to the same schedule.

Subrecipient Monitoring

Florida Department of Transportation (FDOT)

Opinion Qualification, Material Noncompliance, and Material Weakness

Report No. 2011-167, Finding No. FA 10-014

Finding FDOT staff did not always follow established monitoring procedures requiring the

documentation of monitoring activities.

Criteria OMB Circular A-133 §_.400(d) Pass-through entity responsibilities and OMB

Circular A-133 Compliance Supplement - Requires monitoring of

during-the-award activities of subrecipients

During the 2010-11 fiscal year, FDOT provided approximately \$264 million to 204 subrecipients. FDOT had established during-the-award monitoring procedures that were specific to the individual program areas. The program area procedures and documentation were designed to capture information about ongoing project site activity, particularly construction progress.

Our test of 25 subrecipient projects disclosed that FDOT staff did not always follow established FDOT procedures when documenting monitoring activities. Specifically, for 8 of 25 projects, documentation provided did not evidence that FDOT determined as part of its monitoring procedures that subrecipients met program requirements. Specifically, we noted that the documentation provided did not evidence site visits, regular contact, or other means to provide reasonable assurance that performance goals were being met.

FDOT attributed the deficiency to lack of staff consistency among District offices

and lack of sufficient staff.

Without adequate monitoring, FDOT has limited assurance that subrecipients

complied with Federal requirements.

We recommend that FDOT adhere to its established procedures in order to

properly perform and document monitoring activities.

State Agency Response and Corrective Action Plan

Recommendation

We concur with the finding. To offer additional guidance on properly performing and documenting during-the-award subrecipient monitoring activities, a Local Agency Program (LAP) Oversight Memorandum was developed and approved by the Federal Highway Administration on November 2, 2011. The Memorandum addresses:

- selection of subrecipients to be monitored;
- frequency at which monitoring should be performed;
- criteria used during the monitoring; and
- documentation to be maintained.

The LAP Oversight Memorandum was provided for the Auditor General's review and record. The State LAP Administrator will also work with the State Construction Office to include LAP construction oversight as part of the State Construction Office's Contract Administration Quality Assurance Reviews (QAR).

Estimated Corrective Action Date

Additional guidance was put into place on November 20, 2011. QARs will be an on-going effort.

Compliance Requirement

Subrecipient Monitoring

State Agency

Florida Department of Transportation (FDOT)

Federal Grant/Contract Number and Grant Year

N/A

Finding Type

Significant Deficiency

Finding

FDOT did not have a process in place to ensure that subrecipient audit requirements were met.

Criteria

OMB Circular A-133 §___.400(d) Pass-through entity responsibilities -Pass-through entities are responsible for ensuring that subrecipients expending \$500,000 or more in Federal awards during the subrecipient's fiscal year have met the OMB Circular A-133 audit.

Condition

During the 2010-11 fiscal year, FDOT had approximately 227 active agreements, including 103 for which FDOT provided \$500,000 or more of Federal assistance to subrecipients.

FDOT has established procedures for ensuring that it receives A-133 audits from subrecipients to which it provides \$500,000 or more in Federal funding. However, the procedures did not address instances where an audit may be required because the total Federal funds expended, including amounts funded by other Federal grantors and recipients, exceed \$500,000, although FDOT provided less than \$500,000 in Federal awards. Ensuring that subrecipients meet the audit requirements may be accomplished, in part, by requiring all subrecipients to provide an audit or certification that an audit was not required.

Cause

FDOT policies and procedures were applied only to the funding FDOT provided

subrecipients.

Effect

Procedures to identify all subrecipients required to submit an A-133 audit would provide FDOT greater assurance that subrecipients were in compliance with laws, regulations, and provisions of contracts and grant agreements.

Recommendation

We recommend that FDOT establish procedures to consider all subrecipient expenditures when determining whether audits are required. Such policies and procedures might include requesting all subrecipients to submit to FDOT either an A-133 audit or a certification that an A-133 audit was not required.

State Agency Response and **Corrective Action Plan**

We concur with the finding. The Department's Single Audit Procedure, Topic No. 450-010-001-i, was revised October 7, 2011 and includes required guidance under Section 5.4 Expenditures Less Than the Threshold. Specifically: Entities should notify the district in writing on official letterhead if their total Federal awards expended from all sources was under the \$500,000 threshold. This is documented by the Program/Project Manager completing a Threshold Certification Statement in the Single Audit System.

Estimated Corrective Action Date

State Energy Program Activities Allowed/Unallowed and Allowable Costs/Cost Principles

Florida Executive Office of Governor (FEOG) [Transferred to the Florida **Department of Agriculture and Consumer Services (FDACS)** effective

July 1, 2011]

Federal Grant/Contract **Number and Grant Year Finding Type**

DE-EE0000241 (4/22/2009 - 4/30/2012)

Noncompliance

Questioned Costs - \$2,232,000

Finding

The Florida Governor's Energy Office (Energy Office) paid \$2,232,000 to one subgrantee for activities that were not completed prior to reimbursement.

Criteria

OMB Circular A-87, Attachment A, Section C. - Costs must be necessary and reasonable for proper and efficient performance and administration of Federal awards and must be authorized or not prohibited under State or local laws or regulations.

The Energy Office's agreement with the subgrantee required payments to be made on a cost-reimbursement basis.

Condition

The Energy Office entered into a \$2,500,000 agreement with a subgrantee to install energy efficient retrofits and equipment upgrades at a biodiesel plant. In November 2010, the subgrantee submitted a request for payment for \$2,480,000 to reimburse costs the subgrantee had paid to a vendor for equipment (\$1,103,957) and installation charges (\$1,376,043). In December 2010, the Energy Office reimbursed the subgrantee for 90 percent of the request, or \$2,232,000, holding back 10 percent because the equipment still had not been installed. We were advised by the applicable grant manager that, as of November 2011, the equipment still had not been installed.

Cause

Energy Office staff indicated that they had reimbursed the subgrantee with the understanding that the subgrantee had made payment to the vendor and that the equipment would be installed soon after reimbursement. However, the subgrantee had encountered permitting issues while transporting the equipment across several states, and also had a dispute with the landlord where the equipment was to be installed, causing significant delays.

Effect

The Energy Office reimbursed the subgrantee for costs that have not benefitted the State Energy Program and that may be subject to disallowance by USDOE.

Recommendation

The Energy Office should ensure that payments are made to subgrantees only when the benefit to the State Energy Program has been achieved.

State Agency Response and **Corrective Action Plan**

We concur with the finding. The Office of Energy reimbursed the subgrantee based on eligible expenses and completion of the tasks outlined in Attachment A, Budget and Workplan of their subgrant agreement. One of those tasks included the purchase of equipment, which was completed by the subgrantee as evidenced by the paid invoices. Although the reimbursement included installation costs, the Office of Energy provided due diligence to ensure that no final payment was made prior to the monitoring of the project and ensuring that it complied with all requirements applicable to the grant. In addition, the costs were eligible, necessary, and reasonable for the administration of the grant and meeting the objectives of the program, which is to stimulate capital investment and promote and enhance the utilization of renewable energy technologies.

The Office is in the process of providing the subgrantee with a timeline to resolve the issues regarding this project. Failure of the subgrantee to resolve the issues

will result in termination of the project by the Office and requesting the grant funds to be returned to the State.

The Office is committed to ensuring that payments are made to subgrantees when the benefit to the Program has been achieved. Furthermore, no final payments are made until all tasks have been satisfactorily completed and all monitoring of the subgrantee's performance has been done.

State Energy ProgramDavis-Bacon Act

FA 11-019

State Agency

Florida Executive Office of Governor (FEOG) [Transferred to the Florida Department of Agriculture and Consumer Services (FDACS) effective July 1, 2011]

Federal Grant/Contract Number and Grant Year Finding Type

DE-EE0000241 (4/22/2009 - 4/30/2012)

Opinion Qualification, Material Noncompliance, and Material Weakness Questioned Costs – \$1,382,030

Finding

The Florida Governor's Energy Office (Energy Office) did not document that weekly certified payrolls from subrecipients were received and reviewed for compliance with the Davis-Bacon Act.

Criteria

29 CFR Part 1 – Procedures for predetermination of wage rates; Part 3 – Contractors and subcontractors on public building or public work financed in whole or in part by loans or grants from the United States; and Part 5 – Labor standards provisions applicable to contracts covering federally-financed and assisted construction – The Davis-Bacon Act requires that contractors and subcontractors pay minimum wages, including fringe benefits, to laborers and mechanics engaged in construction activity financed by or with the assistance of the United States and that each contractor or subcontractor engaged in the construction furnish each week a statement with respect to the wages paid each of its employees engaged in work covered under the Act.

Condition

Eight Energy Office subgrantees, with expenditures during the 2010-11 fiscal year totaling \$3,721,791, were required to comply with Davis-Bacon Act requirements. The largest of the eight subgrants, with expenditures totaling \$2,232,000, had not yet, according to the grant manager, begun the stage of the project involving labor, so no certified payrolls were due during the 2010-11 fiscal year. However, our review of documentation of Davis-Bacon Act compliance for two subgrants with combined expenditures totaling \$1,382,030, disclosed:

- ➤ For one of the two subgrants, with expenditures totaling \$595,475, although the Energy Office had received weekly certified payrolls from the subrecipient, Energy Office staff were unable to provide documentation to evidence that they had reviewed the payrolls for compliance with Davis-Bacon Act requirements.
- For one of the two subgrants, with expenditures totaling \$786,555, the Energy Office had not received or reviewed any weekly certified payrolls from the subrecipient.

Although Energy Office staff indicated it was Office policy to follow U.S. Department of Energy guidelines regarding review of weekly certified payrolls, they were unable to provide evidence that the payrolls had been reviewed for one subgrant. Energy Office staff indicated that for the other subgrant, they were initially unaware that the Davis-Bacon Act applied to the subgrant and, therefore, had not requested the payrolls from the subrecipient. Energy Office staff indicated that they planned to implement a checklist for grant managers that would include items related to Davis-Bacon Act compliance.

Effect

Cause

Noncompliance with Davis-Bacon Act provisions may result in the disallowance of costs by the U.S. Department of Energy.

Recommendation

We recommend that the Energy Office proceed with planned procedural changes to ensure that Davis-Bacon Act requirements are considered and that monitoring of grantee and subgrantee compliance is documented by grant managers.

State Agency Response and Corrective Action Plan

We concur with the finding. It is the primary responsibility of the subgrantee and their contractors to review every payroll and ensure that they comply with the requirements of DBA. It is the State's responsibility to ensure that the subgrantees comply by monitoring them. The Office utilizes a monitoring checklist to review compliance with DBA that includes the review of payrolls. Any violations are reflected in a written report which will include a required action for resolving the issues. Finally no grants are closed or provided final payment until all findings are cleared.

In an effort to further improve oversight, the Office of Energy is in the process of developing a checklist specifically for reviewing payrolls in compliance with the Davis Bacon Act requirements. This checklist will be used to review a sample of the payrolls submitted as required.

State Energy Program Subrecipient Monitoring

Florida Executive Office of Governor (FEOG) [Transferred to the Florida Department of Agriculture and Consumer Services (FDACS) effective

July 1, 2011]

DE-EE0000241 (4/22/2009 - 4/30/2012)

Noncompliance and Significant Deficiency

The Florida Governor's Energy Office (Energy Office) did not ensure that monitoring reports were completed in a timely manner following the monitoring of subrecipients or that deficiencies were timely resolved.

OMB Circular A-133, §_.400(d), Pass-through entity responsibilities; 10 CFR 600.151, Monitoring and reporting program performance; and FEOG Policies and Procedures for Grant Management.

The Energy Office had established written procedures requiring grant managers to issue a monitoring report within 30 days of the final date of on-site monitoring. However, the procedures did not specify a time frame for generating monitoring reports for desk reviews. During the 2010-11 fiscal year, the Energy Office completed four desk reviews and five on-site monitoring visits of subrecipients with grant awards totaling \$2,038,985. Our audit disclosed that:

- For one of the four desk reviews, a monitoring report was not completed. Findings were noted during the desk review with regard to the subgrantee's contract language.
- ➤ For four of the five on-site monitoring visits, monitoring reports were prepared 155, 161, 182, and 212 days after the monitoring visit. For one of the five reports, findings were noted related to A-133 audit requirements, check signing authority, and project completion time frames.

Subsequent to audit inquiry, in November 2011, the Energy Office performed follow-up on the monitoring findings described above.

Although grant managers had been provided the applicable Energy Office procedures, Energy Office management indicated that the grant managers responsible for conducting the monitoring and preparing the reports were unaware of the 30-day monitoring report issuance requirement. In addition, the Energy Office did not have a grant management database or other type of tracking system that would have assisted supervisory staff in verifying the dates of monitoring, report preparation, and follow-up actions.

Without timely report preparation and follow-up of monitoring results, the Energy Office had reduced assurance that subrecipients were aware of, and took timely actions to correct, deficiencies noted during monitoring.

We recommend that the Energy Office provide the necessary training to ensure that grant managers are aware of the requirement for timely preparation and issuance of monitoring reports. In addition, the Energy Office should maintain a listing of grant awards in a format that would allow tracking of due dates for monitoring visits, monitoring report preparation, and resolution of reported deficiencies.

State Agency Response and Corrective Action Plan

We concur with the finding. The Office of Energy is in the process of developing a series of grant management trainings and has begun implementation of these trainings, to ensure that the grant managers have the appropriate knowledge and abilities to properly manage federal grant dollars. The topics of the training will include, financial management of grant funds, audit requirements, Davis Bacon requirements, etc.

In addition, the Office has developed a grant management database to track all monitoring visits and reports for timeliness.

FA 11-021

Federal Grant/Contract Number and Grant Year Finding Type

DE-EE0000241 (4/22/2009 - 4/30/2012)

Noncompliance and Significant Deficiency

Finding

The Florida Governor's Energy Office (Energy Office) did not ensure that it obtained and reviewed required audits of subrecipients.

Criteria

OMB Circular A-133, §_.400(d), *Pass-through entity* responsibilities – Pass-through entities are responsible for ensuring that subrecipients expending \$500,000 or more in Federal awards during the subrecipient's fiscal year have met the OMB Circular A-133 audit requirements.

Condition

For the 2010-11 fiscal year, the Energy Office reported Federal expenditures related to 8 awards, including 3 with subrecipients for which the Energy Office provided \$500,000 or more in Federal assistance from the State Energy Program. In addition, the Energy Office made 14 additional awards during the 2010-11 fiscal year to subrecipients that were scheduled to expend \$500,000 or more in Federal assistance from the State Energy Program during the 2011-12 fiscal year.

The Energy Office's standard grant agreement document specified audit requirements, including instructions for submission of audit reports to the Energy Office. Additionally, the Energy Office had written procedures requiring grant managers to receive and review the required audits of subrecipients. In September 2010, Energy Office management contacted all subrecipients and reminded them to provide an A-133 audit report for the 2006-07 and 2007-08 fiscal years, or a certification that they had not received \$500,000 or more in Federal funds during these years. During the 2010-11 fiscal year, the Energy Office had not requested, received, or reviewed any A-133 audit reports relating to funding for the 2008-09 or 2009-10 fiscal years.

Cause

Although grant managers had been provided the applicable Energy Office procedures, Energy Office management indicated that grant managers were unaware of the requirements for obtaining and reviewing subrecipient audits, and that the September 2010 request had been initiated in order to catch up on the review of audits for past fiscal years. Management indicated they planned to provide grant manager training on this issue and to coordinate additional requests for periods subsequent to the 2007-08 fiscal year.

Effect

Review of subrecipient audit reports would provide the Energy Office with greater assurance that subrecipients were in compliance with laws, regulations, and provisions of contracts and grant agreements.

Recommendation

We recommend that Energy Office management, by updating written procedures, ensure that all required subrecipient audit reports are requested and received and that the Energy Office proceed with planned grant manager training.

State Agency Response and Corrective Action Plan

We concur with the finding. The Office of Energy is in the process of updating the written procedures for receiving and reviewing subrecipient audits. Training of audit review procedures will be conducted as part of the grant management training referenced above within the next 60 days.

81.042 (Includes Recovery Act Funding)

Weatherization Assistance for Low-Income Persons (WAP)
Activities Allowed or Unallowed and Allowable Costs/Cost Principles

Florida Department of Community Affairs (FDCA) [Transferred to the Florida Department of Economic Opportunity (FDEO) effective October 1, 2011]

DE-EE0000209 (4/1/2009 - 3/31/2012)

Noncompliance and Significant Deficiency Questioned Costs – \$14,069,828.96

Report No. 2011-167, Finding No. FA 10-017

FDCA had not implemented procedures to monitor whether certain types of costs incurred by subgrantees were supported by subgrantee records, such as vendor invoices, time and attendance records, and appropriate cost allocation methods.

OMB Circular A-87, Attachment A, Section C.1.j., *Basic Guidelines* – To be allowable under Federal Awards, costs must be adequately documented

Federal guidelines do not specifically define allowable administrative costs, but do indicate that USDOE expects to see consistency in how the grantee defines these costs and how they will be charged to either administration or to program operations.

During the 2010-11 fiscal year, FDCA made payments totaling approximately \$57.2 million to 27 subgrantees for the weatherization of homes.

Federal guidelines provide that subgrantees may charge legitimate program support costs, such as salaries, space, utilities, and telephone costs to program operations instead of administrative costs. Program staff refer to these program operation costs as "fee for service" costs. Federal guidelines also permit separate budget categories for liability insurance and annual financial audit costs.

Although FDCA had established procedures to compare other costs, such as materials, labor, travel, and equipment costs incurred by subgrantees to subgrantee supporting records at either the time that payment requests were processed or when on-site monitoring was performed, the established procedures did not include verification to supporting documentation for costs charged by subgrantees for fee for service, administrative, liability insurance, or audit costs.

Rather than requiring subgrantees to support fee for service costs, FDCA's automated request for payment form used a flat 30 or 15 percent rate, depending on the contract type, to calculate the fee for service costs. In addition to the fee for service costs, FDCA procedures also provided for audit costs, liability insurance costs, and subgrantee administrative costs of 5.25 percent which was to be calculated based on the total material, labor, health and safety, and fee for service costs. FDCA did not have documentation demonstrating the reasonableness and appropriateness of rates established to cover administrative costs, or for audit and liability insurance costs charged to WAP. For the fiscal year ended June 30, 2011, FDCA records indicated that expenditures for fee for service, administration, liability insurance and audit costs totaled \$11,040,528.15, \$2,712,808.22, and \$213,187.59, and \$103,305, respectively.

FDCA described corrective measures that would impact operations beginning in the 2011-12 fiscal year. FDCA has contracted with a CPA firm to provide technical assistance for fee for service and administrative cost documentation development, on-site training and technical assistance, and to perform on-site compliance reviews of the subgrantee's monthly expenditure tracking sheet. In

September 2011, program staff indicated that they were in the process of updating program procedures and would incorporate oversight for liability insurance and audit costs in the updated procedures. In addition, program staff indicated that they would enlist the assistance of the contractor to address the process of calculating the proportional costs to be charged for liability insurance and audit costs.

Cause

Program staff indicated that at one time, supporting documentation was required, but subsequently program staff determined that 30 percent approximated the costs being charged. However, the calculations and supporting data for determining the fee for service rate of 30 percent no longer exists as the calculations were performed in 1998.

Effect

Absent a monitoring procedure to periodically compare costs charged by subgrantees to supporting records, program staff lacks assurance that amounts paid to subgrantees do not exceed actual costs incurred by the subgrantees and that all costs are allowable.

Recommendation

We again recommend that program staff continue their efforts to ensure that subgrantees maintain documentation of all costs and that such documentation be periodically reviewed.

State Agency Response and Corrective Action Plan

We concur. FDCA/FDEO contracted with a CPA firm in April 2011 to develop an expenditure tracking system with all subgrantees that includes documenting costs of providing services allowing FDEO staff to review those costs periodically as appropriate. FDEO has implemented the new Monthly Expenditures Tracking System (METS) with all subgrantees. From this point forward, prior to executing each annual WAP contract with the subgrantees, FDEO staff will review the available data of the subgrantees' actual costs incurred over the previous year's contract as reported in the METS and calculate a new fee for service for each subgrantee for the subsequent contract year not to exceed 30 percent. FDEO staff will review sample documentation supporting the METS data to ensure the veracity of the information reported by subgrantees.

Subsequent to the finding concerning fee for service in the previous federal audit, FDEO engaged a CPA firm to address this issue as stated above. The auditors were aware that the CPA firm began the effort to correct this previous finding with all 24 subgrantees during the audit period but did not finalize the process by June 30th, the end of the audit period. As part of the effort to address the finding, the CPA firm also provided a snapshot of fee for service costs based on four (4) months experience by the subgrantees, some of which did occur during the audit period. The data collected by the CPA firm shows that 10 of the subgrantees experienced fee for service percentages higher than the 30 percent reimbursed them, and that 14 subgrantees experienced a percentage less than 30 percent. In summary, the 30 percent fee for service appears to be near what most subgrantees are actually experiencing. FDEO would like the record to reflect this information in light of the decision to question all of the costs.

DE-EE0000209 (4/1/2009 - 3/31/2012)

Noncompliance and Significant Deficiency

Questioned Costs - \$412,601

Report No. 2011-167, Finding No. FA 10-018

FDCA did not fully demonstrate the appropriateness of the costs charged for two fixed price contracts entered into with State universities. Additionally, FDCA procedures did not provide for periodic reconciliations of payments made to costs incurred by the universities or provide for the return of excess funds to FDCA.

OMB Circular A-87, Attachment A, Section C. – Costs must be necessary and reasonable for proper and efficient performance and administration of the Federal awards and must be authorized or not prohibited under State or local laws or regulations

10 CFR 600.222, *Allowable Costs* – Grant funds may be used only for: (1) The allowable costs of the grantees, subgrantees, and cost-type contractors, including allowable costs in the form of payments to the fixed-price contractors; and (2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above allowable costs) to the grantee or subgrantee.

OMB Circular A-133 *Compliance Supplement* provides that transfers of Federal awards to another component of the same auditee under OMB Circular A-133 do not constitute a subrecipient or vendor relationship.

During the 2010-11 fiscal year, FDCA had contracts with two State universities for training and program evaluation. Payments made to the universities under these contracts during the 2010-11 fiscal year totaled \$412,601. Transfers of awards within the same auditee, such as those between FDCA and State universities, do not qualify under Federal regulations as a vendor or subrecipient relationship. Consequently, the universities are considered to be part of the grantee and are prohibited from earning or retaining a profit under these contracts, should any accrue. FDCA did not require the universities to report actual costs, and therefore, did not determine whether the contract payments exceeded actual costs incurred by the universities. In September 2011, Program staff requested the universities to provide documentation and support for indirect costs charged to these contracts.

FDCA staff indicated that these contracts would not be reconciled until contract completion.

Program staff did not have assurance that the costs charged to the Program conform to the applicable requirements of OMB Circular A-87.

We recommend that Program staff ensure payments made to universities are for actual costs incurred. Additionally, we recommend that Program staff reconcile amounts paid to State universities, including the amounts paid for indirect costs, to the actual costs incurred and ensure that any funds provided in excess of actual costs are returned.

State Agency Response and Corrective Action Plan

We concur. FDEO program staff has contacted both universities to secure additional documentation. Documentation has been received and FDEO is confident that all actual costs will be accounted for and that any necessary reconciliation will be accomplished to resolve this finding.

DE-EE0000209 (4/1/2009 - 3/31/2012)

Noncompliance and Significant Deficiency Report No. 2011-167, Finding No. FA 10-019

FDCA's procedures were not sufficient to ensure that advances were limited to the minimum amounts needed and timed to be in accordance with the immediate cash requirements of the subgrantees.

10 CFR 600.221, *Payment* - Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee, in accordance with Treasury regulations at 31 CFR Part 205.

10 CFR 600.221, *Advances* – Grantees and subgrantees shall be paid in advance, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time elapsed between the transfer of the funds and their disbursement by the grantee or subgrantee.

31 CFR 205.33, How are funds transfers processed?

Weatherization Contract Attachment E, Justification of Advance Payment

During the 2010-11 fiscal year, FDCA advanced approximately \$5.3 million to 10 WAP subgrantees. Advances were made pursuant to contract terms which provided that the amount advanced may not exceed the expected cash needs of the subgrantee within the first three months of the contract term. FDCA did not deduct advanced amounts from the monthly reimbursements subsequently made to the subgrantee. Instead, the subgrantee was reimbursed for the entire amount of actual expenditures, which reestablished the full three-month cash advance balance after each payment. According to FDCA procedures, the advanced amount was to be offset against the final contract payment and any remaining advance was to be refunded to FDCA by the subgrantee.

Our review of five subgrantee contracts with advances disclosed two with advances totaling \$568,504.25 for which \$501,499.80 was advanced in excess of the amounts actually spent in the first three months. These subgrantees took 186 and 160 days to expend the advanced amount, or 96 and 70 days respectively, in excess of the three-month period.

Program staff did not periodically monitor the status of cash advances or make adjustments to the amount of the advances when subgrantees were not using the funds for WAP Program purposes as quickly as originally expected.

Program staff lacked assurance that subgrantees minimized the time elapsing between the drawdown and disbursement of funds for WAP Program purposes.

We again recommend that program staff re-evaluate the necessity of providing subgrantees with three-month advances. Additionally, program staff should enhance its procedures to periodically evaluate the status of funds advanced to subgrantees and reduce reimbursements to subgrantees when advances are not expended timely. Program staff should also consider recapturing advanced amounts throughout the course of the contract, rather than waiting until the final contract payment.

State Agency Response and Corrective Action Plan

We concur. FDEO WAP management will continue to provide subgrantees with three-month advances, but will implement a procedure memorialized in future grant contracts to review the first three months expenditures of the contract and to determine a plan for any adjustments needed over the second quarter of the contract to reduce reimbursements to subgrantees when advances are not expended timely.

Finding Type

HUZ/A 100024 2010 and H1/3A 10002/ 2010

Finding

FDOE had not yet accumulated the information needed to demonstrate whether the State had met the State-level maintenance of effort (MOE) requirement for

the 2010-11 fiscal year.

Opinion Qualification

Criteria

20 USC 1412(a)(18) Maintenance of State Financial Support - The State may not reduce the amount of State financial support for special education and related services for children with disabilities (or State financial support otherwise made available because of excess costs of educating those children) below the amount of State financial support provided for the preceding fiscal year.

Condition

In prior years, FDOE demonstrated compliance with the MOE requirement for State contributions to special education programs by calculating the amount expended on special education programs by local educational agencies from one year and comparing it to prior year expenditures. However, based on clarification provided by USED to both FDOE and the auditors, it was determined that FDOE needed to change the basis for calculating State-level MOE to appropriated or budgeted amounts for special education. FDOE was in the process of identifying State-level appropriations related to special education to demonstrate the maintenance of State financial support.

Cause

Federal regulations governing State-level and local level MOE requirements were

unclear.

Effect

FDOE had not yet accumulated the information needed to demonstrate the extent to which the State-level MOE requirement for the 2010-11 fiscal year was met. Absent this information, we were unable to evaluate the State's compliance with the compliance requirement.

Recommendation

We recommend that FDOE continue its efforts to identify budgeted or appropriated amounts which should be used to calculate the State-level MOE.

State Agency Response and Corrective Action Plan

FDOE is in discussion with representatives of USED regarding this finding. All further action is pending guidance from USED. USED informed FDOE on September 30, 2011, that the methodology that had been used for many years to calculate the maintenance of effort was incorrect and instructed FDOE to develop a new calculation method. This methodology had each year been audited as part of the Auditor General's A-133 audit with no findings.

Estimated Corrective Action Date

Pending negotiations with the USED.

Allowable Costs/Cost Principles

Florida Department of Education (FDOE)

V048A090009A 2009 and V048A100009A 2010

Noncompliance and Significant Deficiency

Questioned Costs - \$931,757.91 (Federal Grant No. V048A10009A -

\$735,715.08; State Share - \$196,042.83) Report No. 2011-167, Finding No. FA 10-028

FDOE did not obtain periodic certifications for employees whose salaries and benefits were paid solely from CTE Program funds. Additionally, FDOE did not appropriately allocate salary and benefit costs for employees who worked on multiple programs.

OMB Circular A-87, Attachment B, Section 8.h., Support of salaries and wages

During the 2010-11 fiscal year, FDOE expended CTE funds totaling \$68,178,355, of which \$2,065,284 represented salary and benefit costs for FDOE employees. Our review of salary and benefit charges to the Program disclosed the following:

FDOE did not properly support salaries and benefits totaling \$483,198.50 for 9 employees that were paid solely from CTE Program funds.

FDOE's current time distribution system was implemented under a Cooperative Audit Resolution and Oversight Initiative (CAROI) agreement in 1996 with revisions in 1998 that included USED approval of a waiver of the semiannual certification requirements. In February 2008, USED reviewed FDOE's substitute time distribution system and made several recommendations for changes to the system, including reinstating the semiannual certification requirement for employees working solely on one program. In response, in a letter dated May 9, 2008, FDOE agreed to reinstate the semiannual certification requirement. However, FDOE management indicated that they had not reinstated the semiannual certification requirement because revisions to the time distribution agreement with USED had yet to be finalized.

- FDOE utilized the Personnel Activity Reporting System to allocate salary and benefit charges to the Program for employees who work on multiple programs. Two or three months a year, employees record their time and effort on a personnel activity report (PAR). At the end of the month, the PARs are used to adjust previously estimated employee salary and benefits for the current and preceding two or three month period. During the 2010-11 fiscal year, FDOE conducted the PAR-based time and effort studies in September 2010, February 2011, and May 2011. Our review of FDOE records disclosed that FDOE did not properly adjust salary and benefit charges in some instances. Specifically,
 - FDOE did not adjust salary and benefit charges totaling \$448,559.41 for clerical and supervisory staff who had participated in the time and effort studies. FDOE did not calculate the effect the allocation adjustment would have had on salary and benefit charges to the Program.
 - FDOE did not adjust salary and benefit charges based on the September 2010 PAR results. FDOE's calculations reflected that, as a result, salary and benefit charges to the Program were understated by \$60,558.

Cause Revisions to the time distribution agreement had not been finalized. Additionally,

FDOE did not follow established procedures to allocate support staff costs. FDOE also did not have a process in place to ensure that allocation adjustments

were timely made.

Effect Absent the periodic certifications and appropriate adjustments, salary costs

charged to the Program may not be appropriately supported and could be subject

to disallowance by USED.

Recommendation We recommend that FDOE complete negotiations with USED on its time

distribution system and obtain appropriate documentation for employees working solely on the CTE Program. We also recommend that FDOE take steps to

ensure that allocation adjustments are timely and correctly made.

State Agency Response and Corrective Action Plan

As discussed during the FY 2009-2010 audit meetings, the substantiation of the salary costs charged to the program is fully consistent with the requirements of the existing approved substitute system. FDOE continues to negotiate with appropriate entities within the USED to secure approval for enhancements to the existing system. Although FDOE would prefer to wait for USED approval prior to making any changes, FDOE is prepared to implement a semi-annual certification

for employees working 100% on a single cost objective.

U.S. DEPARTMENT OF EDUCATION

Finding Number FA 11-029 **CFDA Number** 84.048

Program Title Career and Technical Education – Basic Grants to States (CTE)

Compliance Requirement Matching, Level of Effort, Earmarking and Reporting

Florida Department of Education (FDOE) **State Agency**

Federal Grant/Contract V048A080009A 2008 **Number and Grant Year**

Noncompliance and Significant Deficiency **Finding Type**

Questioned Costs - \$153,467.76

Finding FDOE did not meet the Federal matching and maintenance of effort requirement and incorrectly reported the amount for non-Federal share outlays on the Final

Financial Status Report (FSR) submitted in December 2010 for the period July

2008 through September 2010.

Criteria 20 USC 2413, State Administrative Costs - The State must provide from

non-Federal sources an amount that is not less than the amount provided by the State from non-Federal sources for State administrative costs for the preceding

fiscal year.

34 CFR 80.41, Financial Reporting

Condition For the 2008 Federal grant, FDOE was required to expend \$1,311,763 in State

administrative costs. Based on its established procedures, which had been reviewed and approved by USED, FDOE should have calculated the administrative costs using time and effort percentages from May 2009 personnel activity reports. However, FDOE revised its methodology and calculated the administrative costs by averaging time and effort percentages from the February 2009 and May 2009 personnel activity reports. FDOE did not obtain USED approval for the revised methodology. By calculating administrative costs using the revised methodology, FDOE determined that it met the matching and maintenance of effort requirement and reported an amount of \$1,311,763 for

non-Federal share of outlays on the FSR.

Subsequent to audit inquiry, FDOE recalculated the administrative costs using only the May 2009 personnel activity reports, consistent with the method approved by USED. Based on this methodology, FDOE determined that match and maintenance of effort expenditures totaled \$1,158,295, resulting in a shortfall

of \$153,467.76 (approximately 11.7 percent).

FDOE did not follow established procedures or seek approval from USED prior to Cause

changing its methodology.

Effect FDOE cannot demonstrate compliance with the matching and maintenance of

effort requirement or substantiate amounts reported on the FSR as expenditures

from non-Federal sources.

Recommendation We recommend that FDOE follow the USED-approved procedures for calculating

> administrative costs and seek prior approval from USED before implementing any modifications to the methodology. We also recommend that FDOE revise

the FSR report as necessary.

The "revision" referred to in the "Condition" section of this finding strengthens the State Agency Response and **Corrective Action Plan** calculation of administrative costs by expanding the amount of data used in the

calculation as opposed to restricting it to an arbitrary single point in time. This enhancement results in a more accurate calculation and is completely consistent with the existing procedures. Nevertheless, FDOE is submitting a request for

approval from USED for this very minor adjustment to the existing procedures.

Estimated Corrective Action Date	Request for approval of the adjustment will be submitted by January 30, 2012.

Prior Year Finding

Finding

FDOE had not maintained appropriate records to support the salaries and benefit amounts charged to the VR Program.

Criteria

OMB Circular A-87 Attachment B, Section 8.h., Support of Salaries and Wages

Condition

FDOE's current time distribution system was implemented under a Cooperative Audit Resolution and Oversight Initiative (CAROI) agreement in 1996 with revisions in 1998 that included USED approval of a waiver of the semiannual certification requirement. In February 2008, USED reviewed FDOE's substitute time distribution system and made several recommendations for changes to the system, including reinstating the semiannual certification requirement for employees working solely on one program and modifying the methodology used for employees working on multiple programs.

In response to a letter dated May 9, 2008, FDOE agreed to reinstate the semiannual certification requirement while expressing concerns about changing the methodology for employees working on multiple programs. management indicated that they continued to negotiate with USED to complete enhancements to the existing time distribution system. Pending completion of the negotiations, FDOE had not reinstated the semiannual certification requirement or made the recommended changes to its time distribution system.

During the 2010-11 fiscal year, FDOE expended VR funds totaling \$215,955,170 of which \$58,556,990 represented salary and benefit costs for FDOE employees.

Cause

Revisions to the time distribution agreement had not been finalized.

Effect

Absent appropriate documentation, FDOE had not fully substantiated the salary costs charged to the Program.

Recommendation

We recommend that FDOE complete negotiations with USED on its time distribution system and maintain appropriate documentation to support salaries and benefits charged to VR.

State Agency Response and **Corrective Action Plan**

Effective May 1, 2011, FDOE's Division of Vocational Rehabilitation (FDOE/DVR) implemented a time and effort tracking system that is used by staff who works on more than one cost objective. The FDOE/DVR tracker application provides a detailed report of hours worked and the percentage of time and effort attributed to each cost objective. FDOE/DBS has also implemented a time and effort tracking system. FDOE/DVR and DBS will continue to track time and effort during the specified months identified in the FDOE substitute system and will implement approved changes to the substitute system after conclusion of ongoing negotiations.

FDOE continues to negotiate with appropriate entities within the USED to secure approval for enhancements to the existing system; however, FDOE is prepared to implement a semi-annual certification for employees working 100% on a single cost objective prior to receiving USED approval.

Estimated Corrective Action Date

Program Title Vocational Rehabilitation Cluster (VR)

Compliance Requirement Eligibility

State Agency

Federal Grant/Contract

Various

Number and Grant Year Finding Type

Opinion Qualification and Material Noncompliance

Finding FDOE did not always ensure that eligibility determinations were made within the

time frame required by Program regulations.

Florida Department of Education (FDOE)

Criteria 34 CFR 361.41(b)(1), Processing Referrals and Applications

Condition An eligibility determination must be made within 60 days after an individual

submits an application for vocational rehabilitation services. However, if exceptional and unforeseen circumstances beyond the control of FDOE preclude making an eligibility determination within 60 days, then the individual and FDOE

can agree to a specific extension of time.

Our examination of 40 case records disclosed 11 instances in which the determinations were made after the required 60 days or the agreed-to extension of time. The determinations were made from 1 to 75 days after the required date. Eight of the 11 instances resulted in determinations of eligibility and 3

resulted in determinations of ineligibility.

Cause The determinations were made by staff in several districts. FDOE management

indicated that increased counselor caseloads may have also contributed to the

delays.

Effect Untimely eligibility determinations delay the start of services for eligible

individuals and may delay ineligible individuals in seeking other services.

We recommend that FDOE management emphasize to its counselors the Recommendation

importance of timely completing eligibility determinations.

State Agency Response and **Corrective Action Plan**

FDOE/DVR continues to address adherence to prescribed procedures and federal program regulations in Supervisor's Training and New Counselor Training, through communications with Area staff, and at the time of counselor

reviews.

FDOE/DBS will continue utilizing its eligibility checklist to monitor and address eligibility timeliness among field staff. This tool was implemented July 2010, and is administered monthly by Field Management staff and reported to Headquarters with necessary action plans. FDOE/DBS is pleased with the impact that this tool has made since its implementation and is very confident that this tool will

continue to further reduce non-compliance of eligibility timeliness.

Florida Department of Education (FDOE)

376-5921S-1CZ06, July 1, 2010 - June 30, 2011

Noncompliance and Significant Deficiency

Questioned Costs - \$867,203

Finding

Finding Type

The institution provided \$180,000 of funds to a not-for-profit organization for purposes that do not appear to be allowable grant charges. Also, institution records did not evidence that \$20,000 of funds provided to the same not-for-profit organization, and \$667,203 provided to another not-for-profit organization, were used for allowable grant purposes. Additionally, required reports submitted by one of the not-for-profit organizations were not sufficiently detailed as to the use of the funds.

Criteria

United States Department of Education's publication <u>Guidance on the State Fiscal Stabilization Fund Program</u> April 2009), Section III-E-3, provides that funds may be used for student financial aid, such as IHE-sponsored grants and scholarships and student services that promote a student's emotional and physical well-being outside the context of the formal instructional program.

Condition

During the 2010-11 fiscal year, the institution paid a total of \$867,203 of grant funds to two not-for-profit organizations to provide scholarships and other mentoring and recruiting services for middle and high school students. We noted the following instances of unallowable or inadequately documented charges:

- \$200,000 was used for students attending a minority golf association program, of which \$180,000 was used to repair a city golf course. Funds were paid directly to the organization with the intent of assisting in the institution's recruitment program. The organization awarded scholarships at its discretion without any review or input from institution personnel and institution records did not evidence review by institution personnel to determine that funds spent were used for allowable grant purposes. Further, the \$180,000 of golf course repairs does not appear to be allowable costs under either the grant requirements or the contract with the golf association.
- \$667,203 of grant funds were paid to another not-for-profit organization for a program intended to provide personal development to teenagers and minority groups. Funds were paid directly to the organization with the intent of assisting in the institution's recruitment program. The organization awarded scholarships at its discretion without any review or input from institution personnel and institution records did not evidence review by institution personnel to determine that funds spent were used for allowable grant purposes. Additionally, three quarterly reports submitted by the not-for-profit organization to the institution regarding use of funds did not provide sufficient information as to what the funds were spent for or what results had been attained through the program for the students served, nor did institution records evidence that institution personnel reviewed and assessed the adequacy of the reports.

Cause

The institution's procedures were not adequate to ensure that funds provided to the not-for-profit organizations were used for allowable grant purposes.

Effect

When unallowable costs are charged to the program, the institution may be required to return disallowed costs.

Recommendation

The institution should enhance its procedures to ensure that grant funds are used for allowable purposes. Such procedures should require documented oversight by institution personnel, including a review to assess the adequacy of required reports. In addition, the institution should document the allowability of amounts charged to the grants and consult with the grantor agency as to the resolution of the questioned costs.

FAMU Response and Corrective Action Plan

The University entered into an agreement with the Orlando Minority Youth Association (OMYGA), a non-profit organization. The basic objective of this association was to introduce the city at-risk youth to the sport of golf, which in turn, would assist in developing their social and life skills. The program also included an educational/study component to prepare students to grow in almost every aspect of life. It is the University's understanding that the golf course is only used by this association.

\$667,203 of grant funds (discretionary) was for a partial funding of an agreement with the Professional Opportunity Program for Students. In this agreement, it was stipulated that funds were to be used for scholarships.

Per the agreement with the Professional Opportunity Program for Students, \$667,203 of grant funds (discretionary) was stipulated for scholarships which was a part of the \$700,000 scholarship budget. The University agrees to strengthen its procedures to ensure the proper monitoring of all contractor agreements.

Finding Type

Various

Significant Deficiency

Finding

NSRC was established as a primary data center to serve as an information system utility for customer entities. In audit report No. 2011-082, dated January 2011, we disclosed in finding Nos. 1, 4, 6, and 7 deficiencies related to billing rates, lack of written policies and procedures for some functions, user identification codes, and password and logon controls, respectively, each of which we consider to be significant deficiencies. Details of the findings and recommendations, as well as NSRC management's response are included in that report.

NSRC provides services for various systems, including the Florida On-line Recipient Integrated Data Access (FLORIDA), Grants and other Revenue Allocation and Tracking (GRANT) System, Information Delivery System (IDS), Personnel Management Data System (PMDS), and Florida Safe Families Network (FSFN), managed by the Florida Department of Children and Family Services, and the Health Grants System managed by the Florida Department of Health.

The above systems are used in administering aspects of the following major programs:

Programs that include Recovery Act Funding:

10.551 and 10.561 - Supplemental Nutrition Assistance Program Cluster

93.558, 93.714, and 93.716 - TANF (Temporary Assistance for Needy Families) Cluster

93.563 - Child Support Enforcement

93.720, 93.775, 93.776, 93.777, and 93.778 - Medicaid Cluster

Programs that do not include Recovery Act Funding:

10.558 - Child and Adult Care Food Program

93.566 - Refugee and Entrant Assistance - State Administered Programs

93.667 - Social Services Block Grant

93.917 - HIV Care Formula Grants

93.959 - Block Grants for Prevention and Treatment of Substance Abuse

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number FA 11-034

Program Title Statewide Cost Allocation Plan (SWCAP)

Compliance Requirement Allowable Costs/Cost Principles

State Agency Florida Department of Financial Services (FDFS)

Finding Type Significant Deficiency

Finding FDFS procedures established to ensure the accuracy and completeness of the

SWCAP could be improved. Additionally, the 2012 SWCAP Section II documentation did not include financial information pertaining to the Northwest

Regional Data Center (NWRDC).

Criteria OMB Circular A-87, Attachment C, Section C - Scope of the Central Service

Cost Allocation Plans and Section E - Documentation Requirements for

Submitted Plans

Condition The SWCAP is presented in two sections and is to include all central service

costs that will be claimed under Federal awards. Section I provides information on central services costs allocated to State agencies. Section II provides information on central services that are billed to user agencies. Documentation requirements for Section II are based on whether the reported activity is accounted for as an internal service, self-insurance, or fringe benefit activity. Our review of the 2012 SWCAP and related FDFS policies and procedures disclosed that FDFS did not have procedures in place to ensure that all central service

activities were included in the SWCAP.

Additionally, our review of the 2012 SWCAP disclosed that the SWCAP did not include information related to NWRDC. We noted that NWRDC provided central data processing services to certain State agencies and should have been included in Section II of the SWCAP. The major customers of NWRDC were the Florida Department of Education and Florida State University. NWRDC reported

revenues totaling \$8,429,288 for the 2010-11 fiscal year.

Cause According to FDFS staff, NWRDC was not included in the 2012 SWCAP because

it was not designated by law as a primary data center until July 1, 2011, subsequent to the preparation of the 2012 SWCAP. However, NWRDC provided central data processing services to certain state agencies prior to being designated as a primary data center, and consequently should have been

included in the SWCAP.

Effect One purpose of the SWCAP is to provide assurance that central service costs

that may subsequently be charged to Federal programs are reasonable and in accordance with OMB Circular A-87. Without adequate procedures, the SWCAP may not be complete and accurate and determinations as to the reasonableness of charges to Federal programs may be based on erroneous information. Absent complete financial information for NWRDC, USDHHS may lack all the information needed for its review of the SWCAP. Additionally, Federal agencies may disallow central service costs charged to Federal programs that have been

omitted from the SWCAP.

Recommendation We recommend FDFS implement procedures to ensure all central service

activities are included in the SWCAP. Additionally, FDFS should ensure that

NWRDC is added to Section II of the SWCAP.

State Agency Response and Corrective Action Plan

Concur. FDFS will implement procedures to ensure all central service activities are included in the SWCAP. Additionally, FDFS added NWRDC to Section II of the 2013 SWCAP (based on Fiscal Year 2010-2011 information) that was

submitted to USDHHS on December 23, 2011.

Estimated Corrective Action Date

June 30, 2012 for implementing procedures to ensure all central service activities are included in the SWCAP.

Finding Type

Florida Agency for Persons with Disabilities (FAPD)

G-1001FLSOSR 2010 and G-1101FLSOSR 2011

Noncompliance and Significant Deficiency

Questioned Costs - \$3,766,628

Finding FAPD did not properly identify SSBG expenditures within its accounting records.

Consequently, FAPD did not fairly report expenditures on the Schedule of

Expenditures of Federal Awards data form.

Criteria OMB Circular A-133, §__.300(a), the auditee shall identify, in its accounts, all

Federal awards received and expended and the Federal programs under which

they were received.

42 USC 1397a - Payments to States

FAPD received SSBG funds through an interagency agreement with the Florida Condition

> Department of Children and Family Services (FDCFS), whereby FDCFS paid FAPD a fixed monthly amount to provide services for individuals who have a developmental disability. SSBG Program expenditures reported on the SEFA,

after adjustment, totaled \$167,459,344.

FAPD utilized the SSBG Trust Fund to account for direct SSBG Program expenditures and reported those expenditures on the State's Schedule of Expenditures of Federal Awards (SEFA). Subsequent to our inquiries, FAPD indicated that additional SSBG expenditures totaling \$3,766,628 were charged to the General Revenue Fund and Operations and Maintenance Trust Fund during the 2010-11 fiscal year. However, these expenditures were not included on the

State's SEFA.

Additionally, FAPD reported \$4,000,000 that was transferred from the SSBG Trust Fund to the State's General Revenue Fund as expenditures on the SEFA. However, according to FAPD staff, these transfers were made from State funds maintained in the SSBG Trust Fund and did not represent a transfer or other expenditure of SSBG Program funds. After adjustment, FAPD SSBG

expenditures on the SEFA totaled \$14,272,378.

Cause FAPD had not properly identified actual expenditures of Federal funds to ensure

proper reporting on the State's SEFA.

Effect FAPD SEFA accounts were not accurate or complete.

We recommend that FAPD ensure that SSBG expenditures are properly Recommendation

identified in the accounting records and included on the State's SEFA.

State Agency Response and **Corrective Action Plan**

FAPD concurs with this recommendation. FAPD's accounting records will be updated to properly identify SSBG expenditures and to ensure the accuracy of FAPD's accounting records as well as to be in compliance with federal regulations. Future reports for the State's SEFA will contain accurate information

that will be appropriately identified in FAPD's accounting records.

Estimated Corrective

Action Date

This process will begin immediately and all accounting records will be made

current no later than February 29, 2012.

Significant Deficiency

Finding The institution's Schedule of Expenditures of Federal Awards (SEFA) data file

submitted to the Florida Department of Financial Services (FDFS) was not complete as numerous Federal award grants were omitted from the SEFA data

file.

Criteria OMB Circular A-133, Section .310(b), Schedule of Expenditures of Federal

Awards

Condition Our review disclosed 95 Federal award grants totaling \$11,294,041.87 that were

> not reported on the SEFA data file submitted to FDFS. The institution had not established written procedures for preparing its SEFA data file for submission to Institution personnel cited their use of the State-provided SEFA However, written procedures specific to the procedures or instructions. institution's records and processes would help ensure accurate preparation of the

SEFA data file.

Cause The institution did not have adequate procedures for preparing the SEFA data file

for submission to FDFS.

Effect Without adequate procedures, the institution may include inaccurate or

incomplete information on the SEFA data file submitted to FDFS.

Recommendation The institution should develop and implement procedures specific to their records

> and processes and update those procedures annually to reflect changes made by FDFS to ensure that information reported on the SEFA data file submitted to

FDFS is accurate and complete.

FIU Response and Corrective

Action Plan

The institutions records and processes utilized to produce the SEFA report mirror the state provided instructions. The data provided in the SEFA report is extracted from People Soft into an excel file, that is utilized to populate the SEFA excel workbook. The SEFA excel workbook is provided with detailed instructions and macros that populate several fields, if the workbook did not already include macros, the populating of the data in the SEFA excel workbook would have been automated. The data elements populated in people soft are supported by detail business process. The federal awards that were not included in the SEFA were Contracts or Cooperative Agreements in which University staff were informed by the sponsoring agency that the CFDA number did not exist. The University will change the business process for recording the CFDA numbers that are not provided by the sponsor to reflect ##.unk. The University will also request the state instructions include the CFDA ##.unk in the SEFA report.

Estimated Corrective

Action Date

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number FA 11-037

CFDA Number Various (Includes Recovery Act Funding)

Program Title Various Compliance Requirement Other

State Agency Florida Department of Financial Services (FDFS)

Finding Type Noncompliance and Significant Deficiency

FDFS did not adequately review the data presented on the Schedule of Expenditures of Federal Awards (SEFA) and the notes to the SEFA.

OMB Circular A-133 §____.310(b), requires the auditee to prepare a SEFA for the period covered by the auditee's financial statements. The SEFA shall provide total Federal awards expended for each individual Federal program, include notes that describe the significant accounting policies used in preparing the schedule, and identify the total amount provided to subrecipients from each Federal program.

FDFS compiled the State's SEFA from information provided by State agencies, universities, and colleges. Federal award expenditures reported on the 2010-11 fiscal year SEFA totaled approximately \$41 billion, before adjustment. As part of its compilation procedures, FDFS performed analytics, data validations, and reviews to help ensure the accuracy and completeness of the data provided by the State agencies, universities, and colleges. However, FDFS' procedures were not sufficient to detect material errors and omissions in the amounts provided. Specifically:

- FDFS omitted from the SEFA amounts totaling approximately \$62 million that were subgranted to non-State entities and reported by seven State universities and ten State colleges.
- ➤ FDFS reclassified approximately \$2 billion in expenditures reported by State agencies under specific program-related American Reinvestment and Recovery Act (ARRA) Catalog of Federal Domestic Assistance (CFDA) numbers to a CFDA number designated for use when the program CFDA number was unknown. In addition, FDFS similarly reclassified approximately \$193 million in expenditures reported by State universities and colleges.
- State agencies, universities, and colleges reported expenditures totaling approximately \$515 million as Federal awards provided by pass-through entities for indirect programs. However, these awards were provided directly to the State from the Federal awarding agency and should have been reported in the SEFA as direct awards.
- State universities reported expenditures under the Federal Family Education Loans (FFEL) Program (CFDA No. 84.032) totaling approximately \$106 million that should have been reported under the Federal Direct Student Loan (FDSL) Program (CFDA No. 84.268). The FFEL program was being phased out and the Student Aid and Fiscal Responsibility Act eliminated authorization for the FFEL program to originate any new loans after June 30, 2010. The FFEL Program was replaced by the FDSL Program.

Subsequent to our audit inquiry, adjustments were made to correct the errors noted above on the State's SEFA.

Established procedures with regard to preparation of the SEFA and the Notes to the SEFA were not always followed.

Absent effective procedures for compiling and reviewing the SEFA and the Notes to the SEFA inaccurate and incomplete information may be reported.

Finding

Criteria

Condition

Cause

Effect

Recommendation We recommend that FDFS follow its established review procedures to ensure

that amounts reported on the SEFA and the notes to the SEFA are accurate, complete, and in accordance with OMB Circular A-133 and the Compliance

Supplement.

State Agency Response and Corrective Action Plan

Concur. FDFS will follow its established review procedures to ensure that amounts reported on the SEFA and the notes to the SEFA are accurate, complete, and in accordance with OMB Circular A-133 and the Compliance

Supplement.

Report No. 2011-167, Finding No. FA 10-037

Finding

The Florida On-line Recipient Integrated Data Access (FLORIDA) System is a Statewide system operated and maintained by FDCFS to assist in public assistance program eligibility determination and benefit issuance. In Information Technology audit report No. 2011-141, dated March 2011, we disclosed in finding Nos. 1 through 8, deficiencies related to the FLORIDA System regarding exception reporting, application controls, and systems development and program modification that we consider collectively to be a significant deficiency. Details of the findings and recommendations are included in that report.

The FLORIDA System is used in administering aspects of the following major programs:

Programs that include Recovery Act Funding:

10.551 and 10.561 – Supplemental Nutrition Assistance Program Cluster 93.558, 93.714, 93.716 – TANF (Temporary Assistance for Needy Families) Cluster 93.778 – Medical Assistance Program

Programs that do not include Recovery Act Funding:

93.566 - Refugee and Entrant Assistance - State Administered Programs

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Questioned Costs

Report No. 2011-167, Finding No. FA 10-052

Finding FAHCA did not always maintain appropriate records to support salary and

benefits charged to the Program.

Criteria OMB Circular A-87, Attachment A, General Principles for Determining Allowable

Costs: Attachment B, Section 8.h., Support of Salaries and Wages

Condition During the 2010-11 fiscal year, FAHCA expended CHIP funds totaling

\$499,062,454 of which \$566,617 represented salary and benefit costs for FAHCA employees. Our test of salary payments totaling \$52,554.28 to one FAHCA employee disclosed that FAHCA did not properly allocate costs to CHIP based on supporting documentation. The error resulted in an undercharge to CHIP totaling \$10,734.12 and an overcharge to the Medicaid Cluster totaling \$10,734.12 (CFDA No. 93.778 - Federal Share \$5,367.06; Federal Grant No.

05-1105FL5ADM).

Cause FAHCA did not perform a reconciliation between time and effort records and

amounts charged in accounting records.

Effect Federal programs were charged costs that were not substantiated by appropriate

records.

Recommendation We recommend that FAHCA ensure that salary charges reflect actual time

worked as recorded in time and effort records.

State Agency Response and

Corrective Action Plan

FAHCA concurs with the finding. We have reviewed the relevant state time charging records and grant draw records and determined that an increasing adjustment to CHIP and a decreasing adjustment to the Medicaid Cluster, in the

amount of \$10,734.12, is required.

FAHCA has made adjustments to the position description of the FAHCA staff member to remove all non-Title XXI duties, and clarified that the role and

responsibilities of this staff member is dedicated to Title XXI.

Estimated Corrective

Action Date

The adjustment to the employee's position description was made on January 12, 2012. The estimated corrective action date, to correct the financial

reporting for the applicable grants, is April 30, 2012, when prior period

adjustments for the quarter ending 3/31/2012 is submitted.

Noncompliance and Significant Deficiency

Questioned Costs - \$13,134,805

Prior Year Finding

Report No. 2011-167, Finding Nos. FA 10-055 and FA 10-056

Finding

FDOH and UF had not resolved issues related to the appropriateness of costs charged to Federal programs and the return of excess funds to FDOH.

Criteria

OMB Circular A-87, Attachment A, Section C - Costs must be necessary and reasonable for proper and efficient performance and administration of Federal awards and must be authorized or not prohibited under State or local laws or regulations. In determining reasonableness of a given cost, consideration shall be given to the restraints or requirements imposed by such factors as sound business practices; arms-length bargaining; Federal and State laws; the market prices for comparable goods or services; and significant deviations from the established practices of the governmental unit which may unjustifiably increase the Federal award's costs.

45 CFR 92.22(a) and 34 CFR 80.22, Allowable Costs - Grant funds may be used only for: (1) The allowable costs of the grantees, subgrantees, and cost-type contractors, including allowable costs in the form of payments to fixed-price contractors; and (2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above allowable costs) to the grantee or subgrantee.

OMB Circular A-133 Compliance Supplement provides that transfers of Federal awards to another component of the same auditee under OMB Circular A-133 do not constitute a subrecipient or vendor relationship.

In report No. 2011-167, finding No. FA 10-055, we identified four contracts for which FDOH paid UF \$12,003,206 in excess of UF's actual costs associated with the contracts. For three additional UF contracts with Federal funds totaling \$1,131,599, FDOH did not require UF to report actual costs and, therefore, did not determine whether excess payments were made. We also noted, in finding No. FA 10-056, that FDOH did not ensure appropriate documentation was retained in contract files to demonstrate that costs paid were reasonable and necessary and consistent with public and private payment rates for similar services.

USDHHS issued a resolution letter (CIN A-04-11-15989, dated June 10, 2011) that identified \$12,004,751 in questioned costs and recommended that unallowable costs be determined and returned. In a letter dated June 30, 2011, FDOH requested UF return \$11,356,970, which represented the questioned costs associated with one of the contracts. However, the U.S. Department of Justice and USDHHS are conducting an investigation of UF practices related to Federal award finance and accounting, and resolution of these findings is pending completion of the investigation.

Condition

Recommendation

We recommend UF and FDOH continue to monitor the status of the Federal investigation and determine and return unallowable costs, as appropriate.

Florida Department of Health

State Agency Response and Corrective Action Plan

Concur. This finding sets a precedent for what would amount to a change in how the FDOH and other executive branch agencies treat state universities for purposes of making Vendor vs. Subrecipient determinations. This change not only impacts Children's Medical Services Network (CMSN), but has a significant impact on all FDOH and other executive branch contracts with any state university receiving federal funding as payment for services. Due to the significance of this issue, CMSN has referred this issue to the FDOH's General Counsel's office and others for further review.

CMSN will continue to work with the FDOH Division of Administration, General Counsel, and executive leadership regarding the next steps that should be taken related to UF contracts in general and the contract under review specifically.

University of Florida

UF Response and Corrective Action Plan

The Auditor General's monitoring recommendation is consistent with UF's and FDOH's pursuit of guidance from the appropriate policy-making authority of the federal government. However, UF does not believe that corrective action of reimbursing funding is required under federal policy or law. The federal contracts at issue in this Auditor General finding are between FDOH and DHHS. UF does not have a contract directly with the federal government in this matter and has satisfied its obligations under the contracts with FDOH.

FDOH issued contracts to UF to administer a complex program to provide medical care and related health services in a managed care environment to low-income, pediatric patients with special needs in Florida. Under the contracts with FDOH, UF was required to and did invoice FDOH transparently for payment, on the basis of fixed monthly fees for patient/enrollees (based on the number of enrollees and historical claims costs set by FDOH that were tied to the federal government-established Medicaid rates for type of service provided), plus reasonable fixed payments to start-up and then to administer the complex pediatric medical program. UF delivered the contracted services to the satisfaction of FDOH and was paid the contracted amount.

Based on the AG's interpretations and conclusions from its 2010 audit (and also set forth above), FDOH demanded payment of \$11,356,970 from UF in a letter to UF dated June 30, 2011. If what we understand was the AG's method of calculating this so-called "residual" amount (which the University does not believe applies to this contract) was to be used, the amount would be \$4,861,335 and not \$11,356,970, and that amount would be further reduced by ongoing obligations and deficits from prior years. However, UF was not required by these fixed price for services vendor contracts to account for expenditures under cost-reimbursement principles, and we accounted and billed in a transparent and appropriate manner for costs that were tied to federal rates for patient care and otherwise reasonable, as discussed above. Throughout their terms, UF and FDOH intended and treated these contracts to be fixed price vendor contracts and the invoicing and documentation were consistent throughout the contract term. (There was an inadvertent error in the initial contract language, which used the term "subaward" instead of "vendor agreement," The parties corrected that error through a retroactive modification.)

Further, as analyzed in more detail in a letter dated August 17, 2011 from UF to FDOH, which UF provided to FDOH in response to its June 2011 demand, there is no legal or policy prohibition against FDOH entering into fixed price vendor contracts with UF for these services. FDOH and UF each is a separate and distinct A-133 qualified recipient of federal funds; each is a separate federal auditee (i.e., each must be audited separately to satisfy A-133, and whether their audit reports stand alone or are in different chapters of a book of audits is merely form over substance); each is subject to different federal cost principles (although not applicable to fixed price contracts, when applicable, A-87 applies to FDOH and A-21 applies to UF); and each reports to a different constitutional authority in Florida (FDOH to the Governor and UF to the Board of Governors). Also, the method and amount of billing for these services are transparent, reasonable and appropriate for the nature of the services being provided by UF.

UF does not believe that the AG's finding is a reasonable interpretation of applicable federal guidance. If the AG's interpretation were to be upheld, numerous contracts - fixed price vendor and sub-recipient alike - for high quality and cost efficient services by state universities for state agencies implementing federally-funded transportation, education, public health and other programs across the country would be affected, and the cost of services would likely increase.

UF and FDOH are currently in the process of seeking further guidance from the appropriate authority at HHS, which we believe will be helpful in resolving this dispute. This is confirmed by a letter from FDOH's General Counsel to UF dated January 26, 2012. In the meantime, UF continues to monitor the status of the federal investigation and will determine and return unallowable costs, if any and appropriate.

UF and FDOH are seeking and UF anticipates ultimately receiving federal guidance on applicable federal policies.

Thomas E. Walsh, Ph.D., Director of Sponsored Research and Compliance (352) 392-1005

In summary, our prior audit finding indicated that applicable Federal regulations provide that UF may not derive and retain a profit from Federally-funded contracts with another unit (FDOH) of State government. Our current audit finding describes the status of the resolution of this finding. In response to the current audit finding, UF indicates that the prior audit finding is not a reasonable interpretation of applicable Federal guidance and that UF and FDOH are currently in the process of seeking further guidance from the appropriate authority at USDHHS. As is the case with all audit findings and recommendations included in a single audit report, we concur that the final resolution of this finding is the responsibility of the audited entities and the applicable Federal agencies.

Noncompliance and Significant Deficiency

Report No. 2011-167, Finding No. FA 10-062

Finding

Criteria

Condition

Inadequate supervisory review and lack of written policies and procedures contributed to FAHCA incorrectly calculating cash draw amounts.

05-1005FL5MAP (Federal 2009-10); 05-1105FL5MAP (Federal 2010-11)

31 CFR Part 205, Subpart A, Section 205.11, What requirements apply to funding techniques?

Medicaid Medical Assistance Payment (MAP) draws were generally based on weekly appropriation reports generated from Florida Medicaid Management Information System (FMMIS) data. Included on these weekly reports were medical claims related to both Title XIX - Medicaid and Title XXI - Children's Health Insurance Program (CHIP). In calculating the draw amounts for Medicaid MAP, the total amount recorded on the weekly appropriation report was reduced by the CHIP amounts, refunds, and other applicable adjustments to arrive at the MAP draw amount. The refund amount used in the calculation was to be determined by multiplying refund amounts by the applicable Federal Medical Assistance Percentage (FMAP).

During the 2010-11 fiscal year, FAHCA drew funds totaling approximately \$12.9 billion for the Medicaid Cluster and CHIP. We tested 40 cash draws totaling approximately \$4.2 billion, including ARRA funds totaling approximately \$133.2 million. Our tests disclosed the following:

- ➤ For 18 draws, FAHCA either used an incorrect amount for CHIP, applied an incorrect FMAP rate to refunds, used an incorrect amount for refunds, or made a combination of the three errors, when calculating the cash draw amount needed for Medicaid MAP. As a result of these errors, 9 cash draws were short by as much as \$3,616,091.35, and 9 cash draws were over by as much as \$1,915,962.42.
- For 2 draws, FAHCA incorrectly recorded in the accounting records refund deposits totaling \$1,607,953.87 as Federal cash draws.

FAHCA staff were not aware of how some CHIP claims were recorded in the FMMIS weekly appropriation reports. FAHCA staff in some instances used the amounts from an incorrect column in the weekly FMMIS appropriation reports. Additionally, for the quarter ending September 30, 2010, FAHCA staff input an incorrect FMAP rate, and the incorrect rate was applied to the refunds in the worksheet used to calculate the Medicaid MAP draw amounts.

Because there was a lack of independent supervisory review, errors made by FAHCA staff were not detected. Although written policies and procedures were developed for calculating "Projected" cash draws, no written policies and procedures were developed that would provide guidance on calculating other types of Federal cash draws, including how to identify Medicaid and CHIP totals on weekly FMMIS appropriation reports, or how to apply the applicable FMAP rate to both refund revenues and FMMIS appropriation report totals.

Cause

Effect Failure to correctly calculate draws, may result in draws being made for

inappropriate amounts, which could affect the State's interest liability. Incorrectly recording refunds in the accounting records could also result in the calculation of

incorrect draw amounts.

Recommendation We recommend that FAHCA develop and implement written policies and

> procedures to ensure that the correct amounts and FMAP rates are used in the calculation of draw amounts to ensure that cash needs are appropriately met. Additionally, we recommend FAHCA ensure that cash draw calculations are

reviewed before a cash draw is made.

State Agency Response and Corrective Action Plan

FAHCA concurs with this finding. The two deposits that were incorrectly recorded as federal draws, GL code 000700, were subsequently adjusted to the correct GL on June 29, 2011. FAHCA has drafted and implemented procedures for completion of the Federal cash draws. Additionally, the section manager will

review and confirm the accuracy of the draws on a weekly basis.

Estimated Corrective

Action Date

Estimated completion for the draw adjustments is February 28, 2012.

05-0905FL5021 (Federal 2008-09); 05-1005FL5021 (Federal 2009-10)

Finding Type Significant Deficiency

Report No. 2011-167, Finding No. FA 10-063

Finding FAHCA did not ensure that amounts were accurately reported on the Cash

Management Improvement Act (CMIA) Annual Report to the Florida Department

of Financial Services (FDFS).

The Cash Management Improvement Act (CMIA) of 1990, as amended; 31 CFR Part 205 § ... 13 and § ... 14, Federal interest liability, and § ... 26, Preparing Annual Reports; CMIA Agreement between the State of Florida and the United

States Department of the Treasury

FAHCA annually reports to FDFS drawdown data related to the receipt of Condition Federal funds, including components for Direct Program Costs, Direct Administrative Costs, Payroll Costs, and Indirect Costs. FAHCA also reports data for refund transactions exceeding \$50,000. A transaction is defined as a single deposit. FDFS uses this information to calculate the State's CMIA interest

liability and to prepare the State's CMIA Annual Report.

Our review of the report FAHCA submitted to FDFS for the 2009-10 fiscal year disclosed errors in the cash draw amounts reported. Additionally, the refunds and related interest liability reported were not always in accordance with the CMIA agreement between the State of Florida and the United States Department of the Treasury. Specifically, our tests disclosed the following:

FAHCA understated cash draw amounts reported to FDFS for Direct Program Costs for CFDA No. 93.778 - Medical Assistance Program by \$542,012,038 and for CFDA No. 93.767 - Children's Health Insurance Program (CHIP) by \$7,019,933.

FAHCA did not report to FDFS eleven refunds totaling \$3,927,811.02 for CFDA No. 93.778 - Medical Assistance Program, which individually met or exceeded the \$50,000 reporting threshold.

> FAHCA improperly reported to FDFS, and incurred interest liability on, cash draws totaling \$200,000 for CFDA No. 93.720 - State Survey and Certification Ambulatory Surgical Center Healthcare Associated Infection (ASC-HAI) Prevention Initiative. This program was not included in the Treasury-State Agreement. Therefore, cash draws for this program were not

required to be reported.

FAHCA had not developed procedures for the preparation and submission of the CMIA report. No reconciliation was performed between FAHCA's worksheets supporting CMIA report totals and FAHCA's accounting records. Additionally, the refund reports were prepared before all the data had been captured, which caused the omission of some refunds from the CMIA report. In May 2011 (subsequent to submission of the 2009-10 CMIA report), FAHCA began a process of conducting quarterly reconciliations between the Federal Division of

Criteria

Cause

Payment Management Services (PMS) and FAHCA cash draw worksheets to

ensure cash draws are properly reported.

Effect Without ensuring that amounts reported agree with accounting records and cash

draw supporting documentation, the risk is increased that interest liability

amounts could be materially misstated and errors not detected.

Recommendation We recommend FAHCA develop and implement written procedures for the

preparation, review, and submission of CMIA data to FDFS, including procedures for ensuring that the amounts are accurate and complete. Additionally, we recommend FAHCA continue to perform reconciliations to ensure cash draws are

correctly reported.

State Agency Response and Corrective Action Plan

FAHCA concurs with the findings. Regarding the mis-classification of revenues, a reconciliation process was included in the procedure for completing the CMIA report for fiscal year 2010-11. Also, the cash draws for the ASC-HAI program

were not included in the CMIA report for fiscal year 2010-11.

Estimated Corrective Action Date

The reconciliation procedures were used in November 2011 during the preparation of the FY 2010-11 CMIA report. The procedures are being incorporated in the formal desk top procedures that will be finalized by

February 28, 2012.

Reporting and Subrecipient Monitoring Florida Department of Children and Family Services (FDCFS)

Various

Noncompliance and Significant Deficiency

FDCFS did not have a process in place to report Federal Funding Accountability **Finding**

and Transparency Act (FFATA) Subaward Reporting System (FSRS) data related to subawards subject to reporting under FFATA. In addition, FDCFS did not obtain the subrecipient's Dun and Bradstreet Data Universal Numbering

System (DUNS) number prior to issuing the subaward.

Criteria 2 CFR 170, Reporting Subaward and Executive Compensation Information

Condition FFATA regulations require FDCFS, as a recipient, to report in FSRS key data

elements regarding its subawards, including the subrecipient's DUNS number. FSRS is a reporting tool used to capture and report subaward and executive compensation data and make them available to the public via a single. searchable website. FFATA reporting is required for grants or cooperative agreements effective on or after October 1, 2010, exceeding \$25,000, and made with a new Federal Assistance Identification Number (FAIN) on or after that date. Pursuant to Federal regulations, FDCFS should have reported the key data elements by the end of the month following the month in which the obligation was made. However, as of June 30, 2011, FDCFS had not reported data in FSRS for any subawards. The subawards were made from the following major programs:

93.558 - TANF (Temporary Assistance for Needy Families) Cluster

93.566 - Refugee and Entrant Assistance - State Administered Programs

93.667 - Social Services Block Grant

93.959 - Block Grants for Prevention and Treatment of Substance Abuse

In addition, as of June 30, 2011, FDCFS had made 12 new subawards between October 1, 2010, and February 15, 2011, subject to FFATA reporting requirements. FDCFS was required to obtain DUNS numbers prior to execution of the agreement. For 11 of the subawards, FDCFS did not obtain the DUNS number prior to execution. The DUNS numbers were not obtained and verified

until 73 to 319 days after execution of the agreement.

At June 30, 2011, FDCFS was in the process of developing a data file for uploading the key data elements into FSRS. For two awards, the Federal cognizant agency had not established the award in FSRS, which would have prevented FDCFS from entering the subaward data. In addition, FDCFS management did not notify staff of the requirement to obtain the DUNS number

prior to the execution of the agreement until April 26, 2011.

Effect FSRS did not contain data related to FDCFS subawards.

Recommendation We recommend that FDCFS ensure that all required key data elements are timely reported in FSRS for the applicable grants. In those instances in which a

Federal award has not been established. FDCFS should document its requests to the Federal cognizant agency to establish the Federal grant in FSRS. We also recommend that FDCFS ensure compliance with its policies and procedures

regarding obtaining a DUNS number prior to executing subawards.

State Agency Response and **Corrective Action Plan**

Cause

The Department now has a process in place to obtain the subrecipient's DUNS number prior to issuing a subaward. Further, the Department has a process in place to report monthly FFATA data in FSRS and is fully compliant with reporting

93

requirements. The Department will document its requests to the Federal cognizant agency to establish the Federal grant in FSRS in those instances

where the award has not been established.

Estimated Corrective Action Date

State Agency Florida Department of Children and Family Services (FDCFS)

Federal Grant/Contract Number and Grant Year

Various

Finding Type Significant Deficiency

Report No. 2011-167, Finding No. FA 10-038 **Prior Year Finding**

Finding During much of the audit period, FDCFS did not have a process to consider

subrecipient expenditures from all Federal sources when determining whether subrecipient audit requirements were met. Effective May 6, 2011, appropriate

procedures were adopted.

OMB Circular A-133 §___.400 Pass-through entity responsibilities Criteria

Pass-through entities are responsible for ensuring that subrecipients expending \$500,000 or more in Federal awards during the subrecipient's fiscal year have

met the OMB Circular A-133 audit requirements.

Condition During the 2010-11 fiscal year, FDCFS reported Federal expenditures related to

655 agreements, including 125 with subrecipients for which FDCFS provided \$500,000 or more in Federal assistance. Of the 125 agreements, 83 included

funding for the following major programs:

Programs that include Recovery Act Funding:

93.558, 93.714, and 93.716 - TANF (Temporary Assistance for Needy Families) Cluster

Programs that do not include Recovery Act Funding:

93.566 - Refugee and Entrant Assistance - State Administered Programs

93.667 - Social Services Block Grant

93.959 - Block Grants for the Prevention and Treatment of Substance Abuse

FDCFS had established procedures for ensuring that it received A-133 audits from subrecipients to which it provided \$500,000 or more in Federal funding. To address instances where an audit may be required because the total Federal funds expended, including the expenditures funded by other Federal grantors and recipients, exceeded \$500,000, FDCFS, on May 6, 2011, revised the standard contract audit attachment to include a requirement that the subrecipient agree to provide FDCFS a certification that an A-133 audit was not required, if such an audit is not provided to FDCFS. Contracts signed after May 6, 2011, are

to include the attachment.

Cause FDCFS policies and procedures were revised May 6, 2011, and were not in

effect for prior periods.

Effect Some subrecipients may have not complied with the OMB Circular A-133 audit

requirements.

Recommendation We recommend that FDCFS ensure that all contracts contain the revised

contract audit attachment.

State Agency Response and **Corrective Action Plan**

The Department will incorporate the revised contract audit attachment, dated May 6, 2011, into new contracts and existing contracts according to their

amendment schedule.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number FA 11-045 **CFDA Number** 93.069

Program Title Public Health Emergency Preparedness (PHEP) Program

Compliance Requirement Activities Allowed or Unallowed and Allowable Costs/Cost Principles

State Agency Florida Department of Health (FDOH)

Federal Grant/Contract 5 U90TP417006-10 2011, 1H75TP000351-01 2011 **Number and Grant Year**

Finding Type Noncompliance and Significant Deficiency

Questioned Costs - \$22,375.82

Report No. 2011-167, Finding No. FA 10-039 **Prior Year Finding**

Finding FDOH did not always maintain appropriate records to support salary and benefits charged to the PHEP Program. Additionally, adjusting and data entry errors

resulted in incorrect charges to the PHEP Program.

Criteria OMB Circular A-87 Attachment A, General Principles for Determining Allowable

Costs; Attachment B, Section 8.h., Support of Salaries and Wages

FDOH Policy DOHP 57-06-10, Single Federal Award Certification Process and Responsibilities requires employees paid and working 100 percent of the time on tasks benefiting one Federal grant to semiannually complete a Single Federal

Award Certification (Certification).

FDOH Policy DOHP 57-03-09, Time-Keeping Requirements for Federal Awards requires the distribution of salaries or wages of employees working on multiple activities or cost objectives, be supported by personnel activity reports, such as a

Daily Time Record for Employees Working Multiple Programs (time sheet).

During the 2010-11 fiscal year, FDOH expended PHEP Program funds totaling \$44,506,089 of which \$15,909,675.97 represented salary and benefit costs of FDOH employees. Our test of salary payments to 16 FDOH employees disclosed that documentation was not maintained to support the amounts charged to the PHEP Program in some instances. Specifically:

One employee's salary totaling \$2,232.04 was charged to the PHEP Program; however, the certification was not completed until our audit inquiry. (Federal Grant No. 5U90TP417006-10)

For one employee, FDOH did not properly allocate costs to the PHEP Program based on hours reported on the employee's time sheets. The error resulted in an overcharge of \$69.16. (Federal Grant No. 1H75TP000351-01)

For four employees, adjusting and data entry errors for salary and benefit costs resulted in an overcharge of \$19,873.47. Additionally, for one of the four employees, FDOH did not provide support for the allocation of additional salary and benefit costs totaling \$201.15. (Federal Grant No. 1H75TP000351-01 - \$22.06, 5U90TP417006-10 - \$20,052.56)

FDOH did not follow established procedures which require payroll certifications. Additionally, FDOH did not ensure that salary and benefit costs were properly allocated and that adjusting entries were properly made.

Federal programs were charged costs that were not substantiated by appropriate records.

We recommend that FDOH ensure that payroll certifications are properly prepared and maintained and that time and effort records adequately support salary charges to the Program. We also recommend that FDOH take steps to ensure that time sheet and adjusting entries are correctly made.

Condition

Cause

Effect

Recommendation

State Agency Response and Corrective Action Plan

The Bureau of Preparedness & Response (BPR) recognizes the need for tighter controls in the area of time and effort records. BPR will modify its processes for identifying and documenting employee salary and benefits charged to the PHEP Program, and begin random sampling of adjusting entries to ensure costs are charged correctly.

BPR's Grant Management Unit will modify its existing process for identifying employees paid from the grant who must either complete 100% timekeeping records bi-weekly or the Single Federal Award Certification form bi-annually. This fiscal year the Department has implemented new time reporting features for the CHDs in the PeopleFirst and Employee Activity Record (EARs) systems, and the Grants Management Unit will review the reports generated from these systems on a quarterly basis to ensure accuracy with salary/benefit charges to the Program.

Questioned Costs - \$1,806 (Federal Grant Nos. G-1002FLTANF \$1,528 and

G-1102FLTANF \$278) (Federal Share \$323.27)

Report No. 2011-167, Finding No. FA 10-041

TANF benefits were not always paid in the correct amount and were made to an individual in excess of the lifetime limit. In addition, data exchange responses received by FDCFS were not always timely processed.

Sections 39.5085 and 414.105, Florida Statutes; 42 USC 1320b-7 *Income and eligibility verification system*; 45 CFR Section 205.55 *Requirements for requesting and furnishing eligibility and income information*

TANF State Plan Section 5.13 Relative Caregiver Program

Program Policy Manual Sections 2020.0401, Relative Caregiver Payment Standards; 2020.0402, Eligibility Requirements for Relative Caregiver Program; and Chapter 3020 relating to Data Exchange Policy

During the 2010-11 fiscal year, FDCFS made TANF cash benefit payments totaling \$175,935,767. We examined FDCFS records of eligibility for 60 clients (cases). Our examination disclosed two instances in which the payment amount was incorrect and one instance where payments were made to a client in excess of the lifetime limit. Specifically:

- FDCFS paid relative caregiver payments for two children placed in care in May 2010. As required by FDCFS policy, in order to receive relative caregiver payments, the child is required to be adjudicated dependent; however, the two children were not adjudicated dependent until October 2010. The error resulted in an overpayment of \$947.
- A client was paid \$242 per month, the appropriate payment for a relative caregiver of a child aged 0 through 5. However, upon the child's sixth birthday in September 2010, FDCFS did not increase the benefit level to \$249 until March 2011, resulting in an underpayment of \$42.
- A client received cash assistance benefits for 15 months in excess of the 48 month lifetime limit, without FDCFS approval of a hardship extension. The excess payments resulted in an overpayment of \$817 during the 2010-11 fiscal year.

In addition, for 3 of the 60 cases, FDCFS did not process Income Eligibility and Verification System (IEVS) data exchange responses within the established time frames. Two of the cases reviewed were processed 114 and 194 days late, and the processing of one case was 245 days late as of November 4, 2011. Federal regulations require FDCFS to verify certain eligibility information through electronic data exchange with other State and Federal agencies. FDCFS has established time frames of 10 or 45 days, depending upon the type of data exchange, for processing the information returned by data exchange procedures.

Prior Year Finding

Criteria

Finding

Condition

Cause Adjustments to payment amounts, the calculation of the TANF lifetime limit, and

the processing of data exchanges are manual processes requiring employee action. Increased caseloads may have affected employees' ability to properly

perform these manual processes.

TANF payments were made for incorrect amounts and in excess of the lifetime

limitation. Additionally, the failure to timely review data exchange information

may preclude FDCFS from identifying changes in client eligibility status.

We recommend that FDCFS take the necessary steps to ensure that benefit payments are accurately determined and that payments are timely discontinued when lifetime limits are reached. In addition, we recommend that FDCFS

process data exchange responses and any related eligibility status adjustments

within the established time frames.

State Agency Response and Corrective Action Plan

Recommendation

In the two instances where the Relative Caregiver (RCG) payment was incorrect, a training will be requested for the local sites where each error occurred. One training will be on RCG eligibility criteria with a focus on correctly determining when a RCG child is adjudicated dependent. The other training will be on the importance of processing expected changes in age for RCG cases.

In the one instance where benefits exceeded the 48-month lifetime limit without a hardship approval, a training on time limit policy emphasizing the importance of correctly counting and updating time limited months on the time limit screen and terminating benefits when a hardship is not approved will be requested for the local site where the error occurred.

The two cases will be referred to Benefit Recovery to review for possible overpayment.

The Department has established work priorities for the processing of data exchanges in policy transmittal I-09-05-0014. Not all of the three cases cited had a data exchange that is identified as a priority in this policy transmittal. Periodic reminders via FLORIDA system broadcasts will be provided to staff to process alerts timely according to the work priorities in this policy transmittal.

Matching, Level of Effort, Earmarking and Reporting

Florida Agency for Workforce Innovation (FAWI) [Transferred to the Florida **Department of Economic Opportunity (FDEO)** effective October 1, 2011]

Federal Grant/Contract **Number and Grant Year** Finding Type

Various

Significant Deficiency

Finding

FAWI did not always approve program modifications made to the One Stop Service Tracking (OSST) System or monitor programming changes in the production environment.

Criteria

Information Technology Best Practices

Modification Controls: Establishing controls over the modification of application programs helps to ensure that only authorized programs and authorized modifications are implemented. Only after the program modification has been completed, has received both system testing and user acceptance testing, and has been approved by internal information technology (IT) project management or the contractor and the user, should it be moved into production.

State of Florida Agency for Workforce Innovation IT Services Policies/Protocols. Standards and Procedures Manual, dated July 2010, Protocol 5.05.III.C.18 -Change Control, Section 2.2 - Procedures and Guidelines. This manual provides that changes to each FAWI information system shall be systematically planned, approved, tested, and documented at a level appropriate with the size, complexity, and confidentiality of the system.

OMB Circular A-133 Compliance Supplement ACF-199, TANF Data Report provides that State agencies must meet or exceed their minimum annual work participation rates. The minimum work participation rates are 50 percent for the overall rate and 90 percent for the two-parent rate. A State's minimum work participation rate may be reduced by its caseload reduction credit. USDHHS may penalize the State by an amount of up to 21 percent of the State Family Assistance Grant for violation of this provision.

Condition

FAWI was the State's administrative agency designated for receipt of Federal workforce development grants and other Federal funds, and directly administered several programs, including Workforce Services. The Workforce Services program included, among various other programs, the Welfare Transition (WT) Program which enabled recipients to move from welfare to work. The WT Program was Federally funded by TANF. FAWI used the OSST System case tracking function to track WT Program case management activities, provide data for State and Federal reporting, and demonstrate compliance with TANF level of effort requirements.

FAWI could not provide documentation demonstrating that 14 of the 16 OSST System program modifications reviewed had been approved. Furthermore. FAWI did not have procedures in place to review automatically generated logs of OSST System application program changes moved into the production environment.

Cause

FAWI management did not follow appropriate change management review procedures.

Effect

Absent appropriate programming modification controls, the integrity of the data contained within the OSST system is subject to increase risk of compromise.

Recommendation

FDEO should implement a monitoring and review process over changes in the OSST System environment to ensure that unauthorized or erroneous modifications, should they occur, are timely detected.

State Agency Response and Corrective Action Plan

We concur. FDEO is taking the following steps in seeking corrective action.

First, FDEO has a project currently underway to evaluate current Software Development Lifecycle (SDLC) methodologies. This project will analyze existing software development practices, provide recommendations for improvement and create a new FDEO SDLC Manual. Documenting SDLC methodologies will provide controls over the processes of acquiring, developing and maintaining application software resulting in decreased risk of project or system failure.

Second, as the FDEO project to establish a SDLC Manual progresses, the Workforce Services IT group has identified and implemented several controls over modifications to the OSST system.

- 1. The existing Numara FootPrints system will continue to be utilized for tracking all modification requests (i.e., changes, enhancements, bugs, issues and data requests) pertaining to the OSST system.
- 2. All requests from the business unit, the Regional Workforce Boards and the Workforce Services IT group are to be submitted electronically via a Change Request Form. All submitted Change Request Forms will be reviewed and prioritized with the One Stop Program Support (OSPS) Program Office responsible for the OSST system. This form includes approval signatures authorizing the initiation of work and will be attached to the FootPrints work order.
- 3. Test Scripts will be created and used for verification of modifications to the OSST system. This form includes approval signatures and will be attached to the FootPrints work order.
- 4. An OSPS Program Office manager will submit via email the final authorization to deploy work orders to the Production environment. This email will be saved as a PDF file and attached to the FootPrints work order.
- 5. Deployments to the Production environment are transitioning from an ad-hoc deployment method (deploying code as soon as the WO is completed) to a "Point-in-Time Release" methodology (a formal, planned release methodology). This approach offers a more structured and formal deployment methodology allowing both the OSPS Program Office and the OSST Development Team an opportunity to plan, assess, schedule, develop, test and train OSST users.

The Workforce Services IT group will continue to identify and refine corrective measures for immediate implementation and inclusion into the FDEO SDLC Manual.

Federal Grant/Contract Number and Grant Year

G-1002FLTANF 2010 and G-1102FLTANF 2011

Finding Type

Noncompliance and Significant Deficiency

Finding FDCFS reported incorrect information on the ACF-199 TANF Data Report.

Criteria 42 USC 611 Data collection and reporting; 45 CFR 265.3 What reports must the

State file on a quarterly basis?

Condition We examined data reported for a sample of 25 cases (32 individuals) in the

ACF-199 TANF Data Report for the quarter ended March 31, 2011. Our examination disclosed instances in 5 cases related to 6 individuals, where the number of months reported in data element line 44 – Number of Months Countable Toward Federal Time Limit, was not calculated and reported correctly. For the cases sampled, 110 total months were reported; however, documentation

indicated that 184 months should have been reported.

Subsequent to audit inquiry, FDCFS repopulated the data in the affected data

element line item and resubmitted the report.

Cause According to FDCFS staff, there was an error in the programming code used to

compile the number of months countable towards the Federal time limit. Subsequent to audit inquiry, FDCFS reviewed all ACF-199 TANF Data Reports submitted during the audit period and identified additional programming errors.

FDCFS staff indicated that revised reports would be submitted.

Effect The ACF-199 TANF Data Report for the quarter ended March 31, 2011, was

submitted with inaccurate data shown for the number of months countable

towards the Federal time limit.

Recommendation We recommend that FDCFS review the programming codes prior to the

preparation of the report to ensure that accurate information is reported.

State Agency Response and Corrective Action Plan

The programming has been corrected for the "Number of Months Countable Toward Federal Time Limit" field in the report. The Department performs a quality control check of the report to ensure the accuracy of the information reported. This field will be added as a part of the fields in the quality control

check.

Florida Department of Children and Family Services (FDCFS)

G-1002FLTANF 2010 and G-1102FLTANF 2011

Opinion Qualification, Material Noncompliance, and Significant Deficiency Questioned Costs – \$6,542 (Federal Share \$1,171.02; Federal Grant No.

G-1102FLTANF)

Report No. 2011-167, Finding No. FA 10-042

FDCFS failed to timely impose Florida Department of Revenue (FDOR) Child Support Enforcement (CSE) sanctions on uncooperative TANF recipients.

Section 414.095(6), Florida Statutes, Child Support Enforcement - As a condition of eligibility for public assistance, the family must cooperate with the State agency responsible for administering the child support enforcement program.

42 USC 608(a)(2), Reduction or elimination of assistance for non-cooperation in establishing paternity or obtaining child support

45 CFR 264.30, What procedures exist to ensure cooperation with the child support enforcement requirements? 45 CFR 264.31, What happens if a State does not comply with the IV-D sanction requirement?

Under State and Federal law, the State CSE Program must take action to locate noncustodial parents, establish paternity, and secure child support, medical support, and other benefits for children receiving public assistance. Applicants for and recipients of TANF must cooperate with the State CSE Program as a condition of eligibility, unless it is determined that good cause for noncooperation exists. Noncooperation without cause is to result in sanctions involving the loss of TANF eligibility. During the 2010-11 fiscal year, FDCFS made TANF cash assistance payments totaling \$175,935,767. During the 2010-11 fiscal year, FDOR referred 4,738 TANF recipients to FDCFS for sanctions to be imposed. Our examination of FDCFS records for 40 clients (cases) disclosed:

- Three cases in which FDOR records indicated that a sanction referral had been sent to FDCFS, however; FDCFS could not provide documentation showing that the referral had been received and reviewed. As a result, the recipients were not sanctioned, which resulted in possible overpayments totaling \$2,526.
- Six cases in which FDCFS did not review the sanction request within 10 days as required. As a result, for four cases, TANF clients received possible overpayments totaling \$2,967.
- One case in which FDCFS reviewed the sanction request timely, however; payments totaling \$1,049 continued to be made to the client subsequent to the sanction request. FDCFS records did not provide an explanation for the lack of sanction.

FDCFS has experienced an increase in the number of TANF applications. The increase in caseload may have affected employees' ability to process sanction requests.

Clients continued to receive benefits for which they were not eligible.

FDCFS should ensure that sanctions are processed timely and benefits are timely discontinued.

G-1002FLTANF 2010 and G-1102FLTANF 2011

Noncompliance

Questioned Costs – \$653 (Federal Grant No. G-1102FLTANF) (Federal Share

\$116.89)

Finding FDCFS did not impose on a client who was receiving TANF benefits, the correct

sanction for noncompliance with work activity requirements.

45 CFR 261.14, What is the penalty if an individual refuses to engage in work? Criteria

Section 414.065, Florida Statutes, Noncompliance with work requirements

Condition Under State and Federal law, applicants for and recipients of TANF are required

to engage in work activities. The Florida Agency for Workforce Innovation (FAWI) (transitioned to the Florida Department of Economic Opportunity effective October 1, 2011), is responsible for developing work activities and referring cases to FDCFS where a recipient of TANF did not comply with the required work activities. During the 2010-11 fiscal year, FAWI referred 30,807 individuals to FDCFS who had been determined to be noncompliant with work activity

requirements.

Our examination of FDCFS records for 40 clients (cases) disclosed that for 1 case, the correct sanction was not imposed. The client should have been sanctioned for 3 months in November 2010; however, the client's benefits were only reduced for 18 days. In addition, the client continued to receive payments

through January 2011, resulting in a total overpayment of \$653.

Cause The imposition of a sanction is a manual process requiring employee action.

Increased caseloads may have affected the employee's ability to properly

perform the manual process.

Effect TANF payments were made to an individual in excess of amounts allowable.

Recommendation We recommend that FDCFS take the necessary steps to ensure that the correct

sanctions are imposed for all clients that do not comply with work activity

requirements.

State Agency Response and **Corrective Action Plan**

In the one instance where the Department did not impose the correct sanction level, a training emphasizing its importance will be requested for the local site

where the error occurred.

The case will be referred to Benefit Recovery for review for possible

overpayment.

Prior Year Finding

Florida Department of Children and Family Services (FDCFS)

G-0901FLTAN2 2009 and G-1001FLTAN2 2010

Noncompliance

Report No. 2011-167, Finding No. FA 10-043

FDCFS did not accurately report on the TANF Emergency Fund Request Form,

actual expenditures for basic assistance and non-recurrent short-term benefits.

Criteria 42 USC 603(c), Emergency Fund

Administration for Children and Families TANF Program Instruction Transmittal

No. TANF-ACF-PI-2011-07

Instructions for completing Form OFA-100, Emergency Fund Request Form

Condition

In order to obtain TANF Emergency Fund grants, states must request the grant by submitting a Form OFA-100, TANF Emergency Fund Request Form, and meet the requirements of the grant category for which funding is requested. The grant categories included increased caseloads, increased expenditures for non-recurrent short term benefits, and increased expenditures for subsidized employment. The Form OFA-100 reported base year data from the 2007 and 2008 fiscal years, which were used to determine the amount of the award. FDCFS was awarded Emergency Fund grants totaling \$180,535,923 in the 2008-09 and 2009-10 Federal fiscal years. The amount of Emergency Funds expended during the 2010-11 State fiscal year totaled approximately \$62.3 million.

To apply for the Emergency Fund grant, FDCFS submitted a Form OFA-100 for each quarter in which grant funding was requested. Expenditures reported for each quarter were required to be updated to reflect the most current data until the final report is submitted. Our review of the OFA-100 report completed in the quarter ended June 30, 2011, disclosed that in two instances, the expenditure amounts reported were incorrect. Specifically:

- In Quarter 4 of Request Year 2009, FDCFS reported basic assistance of \$46,961,840; however, supporting documentation indicated that basic assistance totaled \$46,754,389, a difference of \$207,451.
- In Quarter 4 of Request Year 2010, FDCFS reported non-recurrent short-term benefits of \$3,658,314; however, supporting documentation indicated that non-recurrent short-term benefits totaled \$3,016,473, a difference of \$641,841.

Due to employee error, the correct amounts were not reported on the OFA-100

report.

Reporting the correct amounts may have resulted in a revised Emergency Fund award amount.

We recommend that FDCFS ensure that the correct data is reported.

The Department agrees with the finding. The Department will submit the correct amounts on the final OFA-100 once the Federal Government provides guidance.

Recommendation

Deficiencies continued to exist regarding the timeliness of FDOR's establishment

of support obligations or commencement of proceedings to establish support

45 CFR 303.4 Establishment of Support Obligations - Within 90 calendar days of locating the alleged father or noncustodial parent (NCP), regardless of whether paternity has been established, establish an order for support or complete service of process necessary to commence proceedings to establish a support

1004FL4002, 1004FL4004, 2010-11; 1104FL4002, 1104FL4004, 2011-12

obligations and, if necessary, paternity.

order and, if necessary, paternity (or document unsuccessful attempts to serve process). For CSE case establishment, FDOR staff have multiple time frames to meet when establishing child support obligations. Our tests of 60 unobligated cases (cases where a support order has not been established) disclosed that for some cases reviewed, FDOR did not always establish, within the required time frame, a support order or complete service of process necessary to commence

proceedings to establish a support order, and, if necessary, paternity (or

document unsuccessful attempts to serve process). Specifically:

- For 5 of 48 applicable cases, FDOR had not established a support order or documented service of process. The number of days in excess of the 90-day requirement ranged from 200 to 436 days as of December 31, 2011, and averaged 306 days.
- For 5 of 48 applicable cases, FDOR did not timely establish a support order. The number of days in excess of the 90-day requirement ranged from 90 to 268 days, and averaged 165 days.
- > For 1 of the 5 cases noted in the first bullet, FDOR had not established paternity or documented service of process for paternity. The number of days in excess of the 90-day requirement was 270 days as of December 31, 2011.

FDOR utilized the CSE Component of the Florida On-line Recipient Integrated Data Access (FLORIDA) System, its legacy system, for establishment of paternity and support order activities. Even though the CSE Component provides tracking mechanisms for paternity and support order activities, it did not provide specific alerts when a case was nearing the impending deadlines for particular actions.

Untimely actions in regard to establishing paternity and support orders delays the initiation of enforcement actions.

To ensure that paternity and support obligations are processed within the required time frames, we recommend that FDOR develop a process or mechanism to alert staff of impending deadlines.

State Agency Response and Corrective Action Plan

The Department has implemented a new computer system that will assist workers in meeting the required timeframes. The system proactively identifies cases needing actions and provides reporting capability for staff to monitor progress on cases.

Florida Department of Revenue (FDOR)

1004FL4004, 1004FL4002 2009-10; 1104FL4004, 1104FL4002 2010-11

Opinion Qualification and Material Noncompliance Report No. 2011-167, Finding No. FA 10-045

Finding

Deficiencies continued to exist for interstate cases regarding the provision of required child support services within specified time frames.

45 CFR 303.7, Provision of Services in Interstate IV-D Cases -

(a) Interstate Central Registry - Within 10 working days of receipt of an interstate IV-D case from an initiating state, the central registry must ensure that the documentation submitted with the case has been reviewed to determine completeness; forward the case for necessary action for processing; acknowledge receipt of the case and ensure that any missing documentation has been requested from the initiating state; and inform the IV-D agency in the initiating state.

(b) Initiating State IV-D Agency Responsibilities - Provides that except when using the State's long-arm statute for establishing paternity, if referral is appropriate, the IV-D agency must within 20 calendar days of determining the noncustodial parent (NCP) is in another state, and if appropriate, receipt of any necessary information needed to process the case, refer any interstate IV-D case to responding states' interstate central registry for action.

For interstate cases, FDOR staff have multiple time frames to meet when providing the required child support enforcement services or information to other states. We tested 35 initiating and 25 responding interstate cases to determine if FDOR staff met these time frames, as applicable. Our tests disclosed that for the following cases, FDOR did not provide the required child support enforcement services or information to other states within the required time frames. Specifically:

- ➤ For 4 of 35 interstate initiating cases reviewed (11.4 percent), FDOR did not timely refer the case to the responding state for child support action within the required time frame of 20 calendar days of determining that the NCP was in the other state or upon receipt of additional information needed to process the case. The number of days in excess of the required 20 calendar days for referral ranged from 6 to 80 days.
- For 6 of 25 responding interstate cases reviewed (24 percent), FDOR Central Registry did not review the case for completeness, forward the case to the responsible office for processing, and inform the initiating state when the case was sent for action, within the required time frame of 10 working days of receipt. The number of days in excess of the required 10 working days ranged from 1 to 17 days (2 cases were only 1 day late).

FDOR utilized the CSE Component of the Florida On-line Recipient Integrated Data Access (FLORIDA) System, its legacy system, for processing interstate activities. Although the CSE Component provides tracking mechanisms for interstate activities, it did not provide specific alerts when an initiating case is nearing the impending deadlines for appropriate actions.

Criteria

Condition

Cause

Effect FDOR's untimely actions in regard to initiating interstate cases may delay the

processing of child support enforcement orders and may further delay the

initiation of enforcement actions.

Recommendation We recommend that FDOR develop a process or mechanism to alert staff of

impending deadlines to ensure cases are processed, referred, and responded to

within the required time frames.

State Agency Response and Corrective Action Plan

The Department is in the process of implementing a revised interstate process on a new computer system that will assist workers in meeting the required timeframes. The system, when the revised process has been implemented, will proactively identify cases needing actions and provide reporting capability for

staff to monitor progress on cases.

Significant Deficiency

Finding

Finding Type

Number and Grant Year

FDOR is designated as the State agency responsible for the administration of Florida's CSE program under Title IV-D of the Federal Social Security Act. Pursuant to Title 45, Section 302.85(a), Code of Federal Regulations, states are required to have in effect a computerized child support enforcement system. The Florida Online Recipient Integrated Data Access (FLORIDA) System, operated and maintained by the Florida Department of Children and Family Services, was the Title IV-D system that automated case management. To meet Federally required changes resulting from the Family Support Act of 1988 and the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, FDOR developed the Child Support Enforcement Automated Management System (CAMS) to enhance case management and ultimately replace the FLORIDA System's CSE Component. CAMS is a phased development project. Phase I of CAMS enhanced case enforcement through the use of automated enforcement tools. CAMS interfaces with the FLORIDA System CSE Component to maintain the synchronization of data between the two systems.

In audit report No. 2012-002, dated July 2011, we disclosed in findings Nos. 1 through 13, deficiencies related to the FLORIDA System CSE Component and CAMS system. We consider finding Nos. 1 through 5, 7, 9 and 10, regarding access privileges, user authentication, inappropriate enforcement override, and issues with addresses, respectively, each to be significant deficiencies. Details of the findings and recommendations are included in that report.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number FA 11-055 CFDA Number 93.566

Program Title Refugee and Entrant Assistance – State Administered Programs (REAP)

Compliance Requirement Allowable Costs/Cost Principles and Eligibility

State Agency Florida Department of Children and Family Services (FDCFS)

Federal Grant/Contract
Number and Grant Year

10AAFL4100 2010 and 11AAFL4100 2011

Finding Type Noncompliance and Significant Deficiency

Questioned Costs - \$510 (Federal Grant Nos. 10AAFL4100 \$255 and

11AAFL4100 \$255)

Finding FDCFS was unable to provide sufficient documentation to support the amount of

Refugee Cash Assistance (RCA) paid to a REAP client.

Criteria 45 CFR 400.66 – Eligibility and payment levels in a publicly-administered RCA

program; Section 414.095(10)(c), Florida Statutes

REAP State Plan Section II

Program Policy Manual Section 2460.0340, Three Tier Payment Standard; Chapter 4600, Definitions, Appendix A-5, Temporary Cash Assistance Income

Standards

Condition During the 2010-11 fiscal year, FDCFS made RCA payments totaling

\$10,640,151. We examined FDCFS eligibility records for 40 clients (cases). Our examination disclosed 1 instance in which FDCFS could not provide documentation supporting the determination of the client's RCA benefit amount. The client's monthly RCA benefit payment of \$180 was authorized based on FDCFS' determination of the client's status as homeless. However, the application completed by the client indicated that the client was not homeless. According to FDCFS policy, the amount of RCA benefits authorized for a client is determined based on the amount of the client's shelter obligation or if the client is homeless. For example, a homeless client is authorized for a RCA benefit of \$180 per month; however, a client that is not homeless, but has no shelter obligation, is authorized a RCA benefit of \$95 per month. In this instance, FDCFS should have authorized the client's RCA benefit for \$95 per month. The

errors resulted in overpayments totaling \$510.

Cause FDCFS caseworkers did not determine RCA benefit amounts in accordance with

FDCFS policy.

Effect RCA payments were made to a client in excess of the monthly benefit payments

allowable.

Recommendation We recommend that FDCFS provide guidance and training to staff regarding

determining and documenting whether a client meets the definition of homeless.

State Agency Response and Corrective Action Plan

In the one instance where the Department could not support the homeless status of a client, a training on determining and documenting whether a customer meets the definition of homeless will be requested for the local site where the error

occurred.

The case will be referred to Benefit Recovery to review for possible overpayment.

Noncompliance and Significant Deficiency

FDCFS did not prepare the ORR-6 Performance Report for the trimester ending January 31, 2011, in accordance with applicable instructions.

45 CFR 400.28(b) – Maintenance of records and reports; USDHHS State Letter #08-02 – Revised ORR-6 Performance Report, ORR-06 Performance Report Instructions (OMB Control No. 0970-0036)

States are required to submit on the ORR-6 Performance Report, information on refugee assistance and services provided to eligible populations. Schedule C of the Report contains data associated with Social Services grants. Page 1 of the Schedule includes information on employment services outcomes, and Page 2 includes information on participation levels for employability services. Our review of the ORR-6 report for the trimester ending January 31, 2011, disclosed that FDCFS did not prepare Schedule C in accordance with report instructions. Specifically:

- According to report instructions, Pages 1 and 2 of Schedule C are to include information on job placements and active participants, respectively, based on the number of months elapsed from the date of entry into the U.S. to the date that the participant entered employment or to the date of service provision. FDCFS reported the number of months in the U.S. from date of entry to the start of the reporting period.
- In the Health Benefits Available field on Page 1 of Schedule C, FDCFS reported the number of individuals who were placed in both part-time and full-time employment. The number reported in the field should have been limited to individuals who entered full-time employment.
- ➤ In the Employed 90 Days Later field on Page 1 of Schedule C, FDCFS reported 15 female and 5 male refugees in a part-time work status who were not receiving cash assistance at the time they entered employment. According to FDCFS records, 4 female and 6 male refugees should have been reported.
- Page 2 of Schedule C reported information for several types of employability services and included a field for Other Employability Services. Other Employability Services included legal, youth, and childcare services. Our review of information reported for Other Employability Services disclosed the following errors:
 - FDCFS transposed data for legal services relating to gender and length
 of time in the U.S., resulting in a 1,106 client count understatement for
 female refugees in the U.S. longer than 12 months who were receiving
 legal services, and a 1,106 client count overstatement of male refugees
 in the U.S. less than 12 months who were receiving legal services.
 - FDCFS incorrectly reported data for female and male refugees receiving youth services. The errors resulted in understatements of 11 and 13 female and male refugees, respectively, residing in the U.S. less than 12 months, and overstatements of 158 and 81 female and male refugees, respectively, residing in the U.S. more than 12 months.

> The above differences resulted in errors in the numbers reported for total Other Employability Services, ranging from 12 to 1,093 participants.

Cause According to FDCFS, the errors were the result of data entry errors that went

undetected by supervisors. Additionally, FDCFS utilized a methodology that did

not prevent duplication of client counts within reporting periods.

Effect Data reported in the ORR-6 Performance Report is used by the Office of

> Refugee Resettlement to formulate Program initiatives, priorities, standards, budget requests, and assistance policies. Inaccurate reports may limit the ability of the Office of Refugee Resettlement to administer the Program and provide

accurate refugee populations.

Recommendation We recommend that FDCFS strengthen the report review process to ensure that

accurate information is reported.

State Agency Response and The Department concurs with the above finding and is developing procedures to strengthen the review of the ORR-6 report prior to submission. However, these procedures will be based on the new ORR-6 reporting instructions issued by the Federal Office of Refugee Resettlement at the beginning in FFY 2012. The new instructions significantly expand the report requirements and increase the complexity of data collection. The Department will require that the methodology used to develop data be reported for each item of the report. Workpapers will be reviewed by supervisors using a quality assurance check list that will identify

possible errors or questionable data results.

Estimated Corrective Action Date

Corrective Action Plan

March 1, 2012, the due date for the first FFY 2012 Trimester Report.

Federal Grant/Contract Number and Grant Year Florida Department of Children and Family Services (FDCFS)

Various

Finding Type Significant Deficiency

Finding FDCFS did not ensure that adequate information technology security controls

had been established for the Refugee Services Database System Application

(RSDS).

Criteria Information Technology Best Practices

> Access Controls: Management should implement and document procedures that provide access control based on an individual's demonstrated need to view, add, or delete data. The risk of inappropriate or unnecessary access to information can be reduced through the use of security controls to ensure that systems are accessible only to authorized users and for authorized uses. management of system access privileges includes the use of individual user identifications (IDs) and passwords to allow for attributing user activities to the responsible user, periodically reviewing the appropriateness of access privileges,

and promptly removing the access privileges of former employees.

RSDS is maintained by staff within the FDCFS REAP Program Office. Contracted providers are responsible for collecting and entering data into RSDS in order to identify the eligible refugee and entrant clients served, and to support both the deliverables and performance measures outlined in provider contracts. The information collected was used by REAP Program staff to submit applications for Federal grant funding and to complete the Quarterly Performance Report (ORR-6) and State-of-Origin Report (ORR-11).

Our audit disclosed that FDCFS did not require or maintain access authorization documentation for REAP Program staff or contracted providers indicating the individual's demonstrated need to view, add, or delete data, the level of access authorized, and management's approval of the access. FDCFS staff granted access to RSDS upon verbal request.

FDCFS staff indicated that because access to RSDS is granted through one employee, maintaining access authorization documentation was not beneficial.

Absent appropriate access authorization documentation for users, the possibility exists that unauthorized access requests will be granted and information may be destroyed, disclosed, or otherwise compromised.

We recommend that FDCFS develop and implement access security control

procedures to document and ensure that only authorized individuals have appropriate access to RSDS.

The Department concurs with the above finding and is developing a procedure entitled "Access to RSDS Data" to document that data security access controls are in place so only authorized individuals have access to RSDS data. The security controls are based on procedures outlined in CFOP 50-2 (Systems Management: Security of Data and Information Technology Resources). The RSDS access request will originate from the provider's Data Security Officer, with the employee's supervisor outlining the purpose for RSDS access. The request will include a signed Security Agreement form, noting completion of the required security awareness training prior to authorizing RSDS access.

Finding Type Prior Year Finding Significant Deficiency

Report No. 2011-167, Finding No. FA 10-005

FDCA had not established appropriate internal controls regarding user access to Finding

FDCA's information technology network.

Criteria 24 CFR 570.490, Recordkeeping requirements

Information Technology Best Practices

Access Controls: Management should implement and document procedures that provide access privileges based on an individual's demonstrated need to view, add, or delete data. Access controls should include the use of individual user identification (user IDs) and passwords to allow for attributing user activities to

the responsible user.

Condition

FDCA utilized e-CDBG and eGrants to track Federal projects and related activities, including subgrantee payments totaling \$104,542,046.60 and monitoring efforts, related to the following Federal programs:

CFDA No. 14.228, 14.255 - Community Development Block Grant -State-Administered CDBG Cluster (Includes Recovery Act Funding)

CFDA No. 81.042 - Weatherization Assistance for Low-Income Persons (Includes Recovery Act Funding)

CFDA No. 93.568 - Low-Income Home Energy Assistance

FDCA program staff accessed the internal components of e-CDBG and eGrants through the FDCA network. Our review disclosed that, as similarly noted in the prior audit, network security controls related to user access privileges needed improvement. Specific details of the issues are not disclosed in the report to avoid the possibility of compromising FDCA security. Appropriate FDCA

personnel have been notified of the issues.

Cause

FDCA staff indicated that these systems are new and are undergoing changes as system implementation and development continues. Program staff will ultimately be able to access the systems through the Internet.

Effect

Absent appropriate network security controls, the confidentiality, integrity, and availability of the data contained within Department systems is subject to increased risk of compromise.

Recommendation

FDEO, as the successor administrative agency, should enhance network security controls to ensure access privileges are appropriately controlled.

State Agency Response and **Corrective Action Plan**

We concur. FDEO acknowledges there is a need to make improvements to its access security control procedures.

FDEO Community Assistance eGrants program staff are working with FDEO Information Technology staff and system programmers to enhance network security controls and limit access privileges appropriately to achieve a higher level of system security.

To improve the CDBG program security controls and meet the FDEO security requirements, the CDBG program staff will contract with a computer programmer

to implement password security measures.

Significant Deficiency

Finding

During the 2010-11 fiscal year, CCDF and TANF distributions supporting the School Readiness Program totaled approximately \$375 million. We recently conducted an operational audit of the FOEL and related delivery systems. including the School Readiness Program. In report No. 2012-061, entitled Early Learning Programs and Related Delivery Systems, we noted that FOEL had not always provided the oversight necessary for the effective and efficient administration of the School Readiness Program or implemented the necessary Statewide measures to determine whether legislative objectives were being met, measured School Readiness Program successes, and assessed the effectiveness of the investments made. Additionally, our audit disclosed deficiencies in the local areas' financial management, operations, School Readiness Program administration, and information technology practices, as well as instances of noncompliance with State laws and Federal regulations. Our review determined that internal control deficiencies applicable to both the FOEL and local areas contributed to various problems that were disclosed in the report. We consider these findings, collectively, to be a significant deficiency.

Details of the findings, including descriptions of criteria, condition, cause, effect, and recommendations are included in report No. 2012-061.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number FA 11-060

CFDA Number 93.575 and 93.596

Program Title CCDF (Child Care and Development Fund) Cluster

State Agency Florida Agency for Workforce Innovation (FAWI) [Transferred to the Florida

Office of Early Learning (FOEL) effective October 1, 2011]

Federal Grant/Contract **Number and Grant Year**

1101FLCCDF FFY 2011

Finding Type Noncompliance and Significant Deficiency

Finding FAWI did not report applicable CCDF Cluster data in the Federal Funding

Accountability and Transparency Act (FFATA) Subaward Reporting System

(FSRS) pursuant to Federal regulations.

Criteria 2 CFR 170 Reporting Subaward and Executive Compensation Information

FFATA regulations required FAWI, as a recipient, to report key data elements Condition

regarding its subawards in FSRS. FSRS is a reporting tool used to capture and report subaward and executive compensation data and make them available to the public via a single, searchable Web site. FFATA reporting is required for grants or cooperative agreements effective on or after October 1, 2010, exceeding \$25,000, and made with a new Federal Assistance Identification Number on or after that date. Pursuant to Federal regulations, FAWI should have reported for such grants the key data elements by the end of the month following the month in which an obligation was made. However, as of June 30, 2011, FAWI had not reported data for applicable CCDF Cluster

subawards with expenditures totaling approximately \$78 million.

FAWI did not have a process in place to ensure compliance with FFATA Cause

reporting requirements.

Effect Applicable CCDF subaward data were not reported as required by FFATA.

Recommendation We recommend that FOEL, as the successor State-administering agency, ensure

that all key data elements are timely reported in FSRS.

State Agency Response and **Corrective Action Plan**

The Florida Office of Early Learning became a free-standing entity on October 1, 2011, and is administratively housed within the Florida Department of Education (FDOE). The FOEL worked with FDOE and the FFATA reports were submitted for the Quarter ending December 2011. These requirements were first included in the CCDF Grant Terms and Conditions for the federal fiscal year 2011-12.

Finding Type Noncompliance and Significant Deficiency

Questioned Costs – \$258,045.24 (Federal Share \$177,382.85; Federal Grant No. 05-1005FL5021 \$42,314.27; Federal Grant No. 05-1105FL5021, \$135,068.58)

FindingPayments were made to providers on behalf of CHIP recipients who were not eligible for the Program. Additionally, CHIP payments were made for a service

type for which no fee schedule or policy had been developed.

Section 2105(c)(6)(B), Social Security Act – No payment shall be made for expenditures for child health assistance when payment has been made or can reasonably be expected to be made under any other Federally operated or financed health insurance program.

OMB Circular A-87, Attachment A, Section C – Costs must be necessary and reasonable for proper and efficient performance and administration of Federal awards and must be authorized or not prohibited under State or local laws or regulations.

Section 409.908, Florida Statutes, *Reimbursement of Medicaid Providers* – FAHCA should reimburse providers in accordance with State and Federal law and according to methodologies set forth in FAHCA rules, policy manuals, and handbooks.

Payments totaling approximately \$60.2 million, for the expansion of Medicaid benefits to uninsured low income children, were made on behalf of CHIP recipients during the 2010-11 fiscal year. We examined 40 payments made to medical providers on behalf of 40 CHIP recipients totaling \$6,026.06 to determine whether payments were processed in accordance with established CHIP policy and were for allowable activities. Our tests disclosed that 3 payments were made on behalf of individuals who were also eligible for Medicaid. Further analysis disclosed that 6 additional recipients in our sample had periods of overlapping CHIP and Medicaid spans during the 2010-11 fiscal year. Total CHIP payments made on behalf of these 9 CHIP recipients during periods of overlap totaled \$3,944.

Our tests also disclosed one sampled payment totaling \$46.25 was for a service for which no fee schedule or policy had been developed. CHIP payments totaling \$254,148 were made for this service during the 2010-11 fiscal year.

The CHIP recipients were retroactively determined eligible for Medicaid, and FAHCA did not have a process in place to ensure that adjustments were made to change the funding source from CHIP to Medicaid for payments associated with retroactive Medicaid eligibility determinations. Additionally, changes to incorporate the omitted service into policy were not finalized during the fiscal year.

Payments were not supported or incorrectly charged to CHIP.

We recommend that FAHCA establish a process to timely adjust payments when retroactive Medicaid eligibility determinations are made. We also recommend that FAHCA finalize the changes to the handbook to ensure that a fee schedule or policy has been established for the omitted service.

Criteria

Condition

Cause

Effect

Recommendation

State Agency Response and Corrective Action Plan

The nine MediKids enrollees reviewed with overlapping Medicaid eligibility spans were only MediKids eligible either at the beginning of the capitation month (for children enrolled in an HMO) or on the date of service (for the children in MediPass or fee for service). In all nine cases, Medicaid eligibility was established after the first of the month for the current and prior months. Therefore, at the time in question, MediKids coverage was correctly provided. Even though there were overlapping coverage months for the nine cases cited, there was no dual payment.

There is no adjustment mechanism in FMMIS to adjust payments previously made if subsequent eligibility periods appear with different funding sources attached to the new eligibility.

The federal Office of the Inspector General conducted an audit of Title XXI reviewing the dual enrollment issue. As reported to OIG, both Medicaid and CHIP are following their respective State Plans. In addition, the Agency and the Florida Healthy Kids Corporation have implemented a second Medicaid match later in the month to identify CHIP children newly eligible for Medicaid coverage. The State requested federal guidance on 6/30/2010 and 6/24/2011 to assist with minimizing dual enrollment. The Agency received a letter from CMS dated 12/29/2011 offering possible alternatives. A conference call was held with the federal Centers for Medicare and Medicaid Services on February 7, 2012 to discuss the viability of the suggested options. Even though the Agency has made gains in minimizing dual coverage, the audit was conducted prior to receiving the most recent CMS guidance.

Children's Health Services Targeted Case Management Services is authorized and implemented through Section 409.906, F.S., and Case Management Services, Supplemental 1 to Attachment 3/1-A of the State Plan under Title XIX of the Social Security Act. Both the Florida Statute and Medicaid State Plan allow for services and reimbursement. The Child Health Services Targeted Case Management Coverage and Limitations Handbook is in the proposed rule phase of the rule promulgation process. The rule number is 59G-8.700, F.A.C., and the proposed rule hearing date is scheduled for February 21, 2012.

Estimated Corrective Action Date

Within six months. If CMS guidance requires a State Plan Amendment, that process may take several months. If system programming is involved, this may also take several months.

Cause

Effect

5-1005FL5021 2010

Finding Type Significant Deficiency

Prior Year Finding Report No. 2011-167, Finding No. FA 10-053

Finding FDOH management had not implemented certain data modification controls for

the Case Management Data System (CMDS).

Criteria Information Technology Best Practices

Master data policies and procedures require data owners to be responsible for the creation, detection, and change of master data and also changes to data characteristics. Data owners are to monitor master data design changes and approve and monitor creation, deletion, and changes to master data on a regular

basis.

Condition The Florida Agency for Health Care Administration (FAHCA) provides CHIP

funds to FDOH for the provision of services to eligible children with special health care needs. During the 2010-11 fiscal year, FDOH expended CHIP funds totaling \$123,697,201 related to children's medical services (CMS). Providers of CMS services were generally to be paid based on Medicaid reimbursement rates

established by FAHCA.

Each CMS Area Office maintained its own stand-alone CMDS, and each Area Office CMDS calculated the reimbursement amount to be paid to the provider. In each system, the reimbursement amounts were to be calculated based on a table of Medicaid reimbursement rates classified by fee code number. FDOH CMS Headquarters sent CMDS updates including new reimbursement rates and fee code numbers to each CMS Area Office for installation by the Area Office System Administrator. Each CMS Area Office was responsible for timely

updating the CMDS.

FDOH CMS Headquarters issued an internal operating procedure, effective May 1, 2011, that recommended CMS Area Offices install software updates, including updated fee tables, as soon as reasonably possible and within five work days of the release date. However, procedures did not exist to ensure that the CMS Area Offices timely updated CMDS or notified FDOH Headquarters when

updates were installed.

The CMDS in each Area Office was not connected through a central network.

Absent appropriate data modification controls, FDOH CMS Headquarters lacked assurance that the providers of CMS services were being paid based on the

correct Medicaid reimbursement rates.

Recommendation FDOH contracted with a third-party administrator in July 2010 to take over all

payment and data functions currently performed by CMDS; however, CMDS is not scheduled to be completely phased out until August 2012. We recommend FDOH CMS Headquarters further enhance its procedures to ensure that CMS Area Offices timely install CMDS updates until the third-party administrator

assumes all CMDS payment and data functions.

State Agency Response and Corrective Action Plan

Concur and addressed. Effective May 1, 2011, the FDOH implemented an Internal Operating Procedure (IOP) regarding installation procedures for the CMDS updates by the CMS Area Offices. This IOP is intended to ensure timely installation of updates and use of correct reimbursement rates and fee codes. Installation of updates is expected to be completed within five work days.

The IOP regarding installation of updates to the CMDS system states that the updates are to be installed within five work days of the date of release.

Estimated Corrective Action Date

State Agency Florida Department of Health (FDOH)

Federal Grant/Contract
Number and Grant Year

05-1005FL5021 2010 and 05-1105FL5021 2011

Finding TypeNoncompliance and Significant Deficiency **Prior Year Finding**Report No. 2011-167, Finding No. FA 10-054

FDOH procedures for monitoring the reasonableness of CHIP capitation rates were not sufficient to prevent the accumulation of a significant cash balance. Additionally, FDOH did not ensure that the time elapsing between the drawdown of funds by the Florida Agency for Health Care Administration (FAHCA) and the disbursement of funds by FDOH was minimized.

OMB Circular A-133 Compliance Supplement provides that transfers of Federal awards to another component of the same auditee under OMB Circular A-133 do not constitute a subrecipient or vendor relationship.

42 USC 1397ee(a)(1) – CHIP funds may be used for child health assistance.

45 CFR 92.21, *Payment* – Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee.

FDOH received CHIP funds through a capitation agreement with FAHCA, whereby FAHCA paid FDOH a fixed monthly rate per client enrolled in the Children's Medical Services component of CHIP. FDOH accounted for the receipt and expenditure of these funds in the FDOH CHIP capitation account, which was maintained in the FDOH Donations Trust Fund. Other primary sources of Fund revenues included Medicaid (CFDA No. 93.778), third-party insurance reimbursements, State fees, and State General Revenue. The trust fund cash analysis prepared by FDOH for the Donations Trust Fund listed 25 accounts including the CHIP capitation account. Our current review of FDOH CHIP activity disclosed the following:

- ➤ On April 12, 2011, FDOH submitted an invoice to FAHCA reflecting expenditures totaling \$10.2 million. However, FDOH did not request reimbursement for these expenditures and used existing cash balances to make the payments.
- While the cash balance had declined from the prior year, the cash balance for the CHIP capitation account remained excessive and totaled approximately \$24.4 million as of June 30, 2011.

The capitation rates were set at an amount higher than that required to administer the Children's Medical Services component of CHIP.

A residual balance in excess of Program needs has been accumulated. FDOH may have, in effect, charged unallowable costs to CHIP.

We recommend that FDOH monitor capitation rates to determine whether reductions are needed to prevent the accumulation of excess CHIP funds. We also recommend that FDOH continue to monitor the cash balance in the CHIP capitation account and request reimbursement only to meet immediate cash needs.

Criteria

Finding

Condition

Cause

Effect

Recommendation

State Agency Response and Corrective Action Plan

The FDOH routinely monitors the capitation rate and collections from FAHCA to better match revenues with expenditures while maintaining a 10% operating cash balance (approximately \$13,500,000) allowed by statute. The FDOH also receives a monthly lump sum of funding from FAHCA (approximately \$10,300,000) to pay claims continuously throughout the month. Thus, the account balance will dramatically increase to approximately \$23,800,000 after the FAHCA payment is received and then decrease throughout the month as the FDOH pays claims. As necessary, FDOH will continue to defer or adjust the requested premium payment from FAHCA or reduce the premium request at the Social Services Estimating Conference to maintain an average cash balance that complies with statutory limits.

FDOH will continue to:

- 1. Reconcile cash monthly;
- 2. Request capitation rate adjustments at the Social Services Estimating Conference as reflected in the expenditure analysis; and/or
- 3. Adjust claims made to FAHCA to maintain an appropriate cash balance.

\$1,574,588.60)

Report No. 2011-167, Finding No. FA 10-057

Medical service claim payments made to providers of Medicaid services were not always paid in accordance with established Medicaid policy and fee schedules. Specifically, the payments were for improper amounts or for unallowable services.

42 CFR 430 – Grants to States for Medical Assistance Programs, 42 CFR 433 Subpart C – Mechanized Claims Processing and Information Retrieval Systems, 42 CFR 447 Subpart B – Payment Methods: General Provisions

Section 409.908(13)(b), Florida Statutes – Medicaid will pay no portion of Medicare deductibles and coinsurance when payment that Medicare has made for the service equals or exceeds what Medicaid would have paid if it had been the sole payor. The combined payment of Medicare and Medicaid shall not exceed the amount Medicaid would have paid had it been the sole payor. There are exceptions related to end stage renal dialysis center services, emergency transportation services, and portable X-ray services.

Medicaid Provider Coverage and Limitations Handbooks, Provider General Handbook, and Medicaid Fee Schedules

Claims totaling approximately \$19.9 billion were processed for Medicaid services during the 2010-11 fiscal year. FAHCA contracted with a fiscal agent to provide the Florida Medicaid Management Information System (FMMIS) that processes Medicaid claims submitted by providers. We examined a sample of 200 claim payments (170 fee-for-service and 30 capitation (Managed Care)) totaling \$71,392.41 paid during the 2010-11 fiscal year to determine whether the payments were processed in accordance with established Medicaid policies and procedures and were only for allowable activities. Our tests disclosed that 8 of 200 (4 percent) claims were not paid in the correct amount or were not reimbursed in accordance with Medicaid policy. We noted the following:

- For four claims, the payments were in excess of the allowed amounts for Medicare crossover claims. Individuals receiving Medicare benefits may also be entitled to receive certain levels of Medicaid benefits. Since Medicaid is always the payor of last resort, claims for Medicaid recipients, who are also receiving Medicare benefits, must first be submitted to the Medicare Program for payment. Once the Medicare Program has paid the covered portion of the claim, the claim can be submitted to the Medicaid Program for payment of any amounts due for Medicare coinsurance and deductible amounts. Such claims are referred to as crossover claims. Section 409.908(13), Florida Statutes, states that the combined payments from Medicare and Medicaid shall not exceed what Medicaid would have paid if Medicaid were the sole payor. For these four Medicare crossover claims, we noted the following:
 - For one claim, the combined payment of Medicare and Medicaid exceeded the amount that would have been due from Medicaid had

Medicaid been the sole payor. This resulted in an overpayment of \$29.14.

- For three claims, Medicare paid an amount that exceeded what Medicaid would have paid if Medicaid were the sole payor. As a result, Medicaid should not have paid these claims; however, FAHCA paid amounts totaling \$341.99 for these claims.
- For one claim, the payment of \$13.61 was for a procedure code that was not listed as a covered procedure in the Medicaid Provider Handbook or in the Medicaid fee schedule. No support was provided by FAHCA demonstrating the procedure was covered under the Medicaid program. Based on our review of this claim, we ran a query of FMMIS data to identify total payments made during the 2010-11 fiscal year for the procedure code in question. Based on the results of this query, Medicaid payments totaling \$707.72, including the \$13.61, were made during the 2010-11 fiscal year for the procedure code.
- For one claim, payment of \$80 related to Aged and Disabled Adult (ADA) Waiver services home delivered meals was made in excess of policy limitations which allowed a maximum of 2 meals per day with a maximum reimbursement of \$7 per meal. In this instance, the programing in FMMIS was not set to the correct policy limitations, which allowed 8 days of services (16 meals) to be billed for a patient as if the services had been provided on one day, rather than requiring an itemized claim showing for each patient the days on which the services were performed. However, the absence of complete daily claim information precluded reliable estimates of the extent to which these errors represented overpayments.

Based on our review of the \$80 claim, we ran a query of FMMIS data and noted that amounts paid for Aged and Disabled Adult (ADA) Waiver services home delivered meals during the 2010-11 State fiscal year totaled \$10,539,289.80. Further analysis disclosed that claim payments for this service totaling \$9,153,376.26 were paid in instances where FMMIS allowed more than the maximum 2 meals per day. However, as noted above, the absence of complete daily claim information precluded reliable estimates of the extent to which these errors represented overpayments. Additionally, our query disclosed 9 claims for home-delivered meal services were paid during the 2010-11 State fiscal year where the maximum daily number of meals paid for the month exceeded the total number of days in the month. As stated above Medicaid policy allows a maximum of 2 meals per day. Specifically, we noted the following:

- FMMIS allowed reimbursement for three June 2010 claims for 62 meals. However, June has 30 days and the payments should have been limited to 60 meals. The resulting overpayments totaled \$36.58.
- FMMIS allowed reimbursement for three November 2010 claims for 62 meals. However, November has 30 days and the payments should have been limited to 60 meals. The resulting overpayments totaled \$27.10.
- FMMIS allowed reimbursement for three April 2011 claims for 61 to 62 meals. However, April has 30 days and the payments should have been limited to 60 meals. The resulting overpayments totaled \$30.48.
- For one claim, payment of \$2,136.99 related to Assisted Living for the Elderly Waver services exceeded policy limitations, which allowed a maximum allowable amount of one unit per day with an allowable reimbursement rate of \$32.20 per unit. In this instance, the programming in FMMIS was not set to the correct policy limitations, which allowed an entire month's services to be billed for the patient as if the services had been provided on one day, rather than requiring an itemized claim showing for each patient, the days on

which the services were provided. Additionally, the Medicaid Coverage and Limitation Handbook requires separate claims be submitted for each month. We noted that this claim encompassed three months of service. The absence of complete daily claim information precluded reliable estimates of the extent to which these errors represented an overpayment.

Based on our review of this claim, we ran a query of FMMIS data for this procedure, and noted that amounts paid for this service during the 2010-11 fiscal year totaled \$27,555,491.92. Further analysis disclosed that assisted living service claims totaling \$27,411,951.16 were paid in instances where FMMIS allowed more than the maximum one daily unit. As noted above, the absence of accurate claim information precluded reliable estimates of the extent to which these errors represented an overpayment. However, for 21 of these claims, our query disclosed instances where the total number of daily units paid for the month exceeded the total number of days in the month. As indicated above, Medicaid policy allows a maximum of one unit of service per day each month. Specifically, we noted the following:

- FMMIS allowed reimbursement for five June 2010 claims with 31 daily units. However, there are 30 days in June so the maximum allowable units for the month were 30. The resulting overpayments totaled \$93.85.
- FMMIS allowed reimbursement for six November 2010 claims with 31 daily units. However, as there are 30 days in November, the maximum allowable units for the month were 30. The resulting overpayments totaled \$168.81.
- FMMIS allowed reimbursement for four February 2011 claims and one February 2010 claim with 30 to 31 daily units. February had 28 days in 2010 and 2011; therefore, the maximum allowed units for the month was 28. The resulting overpayments totaled \$344.48.
- FMMIS allowed reimbursement for four April 2011 claims and one April 2010 claim with 31 daily units. However, there are 30 days in April so the maximum allowable units for the month were 30. The resulting overpayments totaled \$132.34.
- For one claim, the copayment was not deducted for each Physician service listed on the claim resulting in a \$2 overpayment. Medicaid policy requires a \$2.00 copayment by the recipient for Physician services for each provider or group provider each day.

We also performed queries of FMMIS data for claims paid during the 2010-11 fiscal year for certain types of Home Health services, Developmental Disabilities Waiver services, Dental services, Chiropractic services, Durable Medical Equipment and Supply Services, and Inpatient Hospital services in excess of 45 days. Additionally, we performed queries of FMMIS data for claims paid during the 2010-11 fiscal year on behalf of recipients who were deceased during the 2009-10 fiscal year. Total payments for the claims queried totaled \$111,519,730.43 during the 2010-11 fiscal year. Our queries disclosed instances in which payments totaling \$2,722,506.82 for selected service types were not made in accordance with Medicaid policy. Specifically, we noted the following:

According to the Medicaid Provider Coverage and Limitations Handbook for Home Health Service, claims for Personal Care and Private Duty Nursing claims are not to be billed for less than two hours of service. Additionally, these services were required to have prior authorization by a Medicaid peer review organization prior to reimbursement. Claims for less than two hours of service are to be billed as a home health visit. Our queries disclosed 302 claim line items totaling \$4,111.85 for personal care services and 1,951 claim line items totaling \$48,119.07 for private duty nursing services that were paid for claims with less than two hours of service. Additionally, our queries

disclosed 12,146 claim line items totaling \$1,169,188.91 for personal care services and 3,604 claim line items totaling \$982,273.30 for private duty nursing services that were reimbursed without prior authorization.

- > The Medicaid Provider Coverage and Limitations Handbook for Dental Services required that certain periodontal services could not be billed on the same date of service, for the same recipient, by the same provider. Our queries disclosed that contrary to this policy, three paid claims totaling \$470.01 for gingivectomy or periodontal scaling were claimed for the same date of service, for the same recipient, by the same provider.
- The Medicaid Provider Coverage and Limitations Handbook for Chiropractic Services indicated that chiropractic service claims were to be reimbursed by Medicaid for a maximum of one visit per day, per recipient, up to a maximum of 24 visits per recipient within a calendar year. Additionally, chiropractic services were to be provided in certain places of service, including ambulatory surgical centers, a chiropractor's office, county health departments, emergency rooms, federally qualified health centers, hospitals, or rural health clinics. Our queries disclosed 54 claims totaling \$944.05 were paid for chiropractic services in excess of the 24 allowable visits during the 2010 calendar year. Additionally, our queries disclosed 7 claims totaling \$217.19 that were paid for chiropractic services in an unallowable place of service as follows: Unknown or Not Applicable, Homeless Shelter, Prison, Unassigned, or Birthing Center.
- > The Medicaid Provider Coverage and Limitations Handbook for Hospital Services indicated that for covered inpatient days, Medicaid reimbursement was allowed for a maximum of 45 days per fiscal year for recipients 21 and over. Additionally, the Federal Balanced Budget Act of 1997 (BBA) provided exceptions to this requirement if certain criteria were met. Our queries disclosed 27 claims totaling \$513,593.37 were paid to recipients 21 and over who did not meet the criteria outlined in the BBA that allows for exceptions to the 45-day limitation.

For the four Medicare crossover claims paid, FMMIS had not been programmed to ensure amounts owed by Medicaid are calculated correctly in accordance with established policy.

For one paid claim where the procedure was not listed in in the Medicaid provider handbook or fee schedule, FAHCA had not updated the applicable handbook or fee schedule to identify the service as a covered service.

For Aged and Disabled Adult (ADA) Waiver services, FMMIS system edits improperly allowed up to 62 meals to be billed in a flexible way, including billing for as many as 62 meals for one date of service.

For Assisted Living for the Elderly Waver services, FMMIS system edits were set up improperly to allow up to 31 units to be billed in one day.

For the claim where the copayment was not deducted for each service listed on the claim, FAHCA has forwarded the claim to FAHCA Medicaid Contract Management to determine why the claim was paid incorrectly.

For Home Health Services, payments for personal care services for less than two hours were allowed to ensure continuity of care for unlicensed independent providers of personal care services because these providers were not allowed to bill these services as a home health visit. For private duty nursing payments for less than two units, edits were implemented in FMMIS during January 2011 to deny claims for less than two hours. Regarding prior authorization for private duty nursing services, FAHCA and the fiscal agent considered claims authorized by provider service networks allowable. FAHCA stated that an edit was implemented in FMMIS on July 28, 2011, that would deny payment for personal care services claims submitted without prior authorization. FAHCA staff also

Cause

indicated that modifications were being considered that would eliminate the two hour minimum requirement.

For Dental Services, FAHCA staff indicated that system changes were installed on November 4, 2010, to prevent the payment of certain applicable dental procedures on the same date of service and same quadrant. However, our testing disclosed payments made as late as March 16, 2011 for these dental procedures that should have been prevented by the indicated system changes.

For Chiropractic Services, FAHCA stated that system file maintenance was completed in October 2010, to only allow 24 chiropractic visits per year, unless the visits were authorized in advance. However, our testing disclosed payments made as late as March 2011 where chiropractic visits exceeded 24 per year. Additionally, FAHCA stated that a program change request has been submitted to program FMMIS to deny claims where the place of service is inappropriate.

FAHCA staff will contact the providers to request adjustments to the claims as appropriate where inpatient hospital payments were made for services in excess of 45 days. FAHCA staff did not provide a reason for the excess payments.

Absent appropriate controls, unallowable claims may be processed and paid and escape timely detection by FAHCA personnel.

We recommend that FAHCA ensure that appropriate electronic or manual controls are in place and operating effectively to ensure that Medicaid claims are accurately and properly processed.

Medicare Crossover Claim: There were known system issues with professional Medicare crossover claims. Change orders were completed in October 2011 to correct overpayment on these claims. A query to establish a recoupment process is currently underway.

Aged/Disabled Adult: Waiver procedure code (S5170U2) – FMMIS has an edit in place to limit the maximum number of meals per month to 62 (31 days x 2 meals). However, the problem with this particular procedure code is that at the time of the system review, there was no policy/legal guidance regarding providers that might deliver a week or two weeks of frozen meals at one time. This is permissible per Medicaid policy. Under that circumstance, the provider would need to bill for 14 or 28 meals on one day, so limiting billing to a literal two meals per day would inappropriately cause payment to deny. FMMIS currently matches policy and until policy determines how to limit multiple days' worth of deliveries at one time, further restriction placed in FMMIS would violate policy.

Due to the above issues, the Agency has determined that the current edits in place in the FMMIS are not adequate to ensure correct payment according to the days of the month. File maintenance will be developed to limit billing to 2 meals per day (maximum of 2 units per day) and the provider will then file for reimbursement using a separate line item for each day. As home-delivered meal providers throughout the state will need to be notified by the waivers' operational partner, the Florida Department of Elder Affairs, an effective date for the reimbursement change will be May 1, 2012.

Assisted Living Waiver: FMMIS cannot limit units of service based upon the length of specific months. There is an edit in place to limit billing to 31 units per calendar month. If a limit is put in place to limit to 30 units per month, providers' payments will be denied for legitimate claims on day 31 of longer months. Likewise if the system was limited to 28 days for February, the other 11 months and leap year would deny for days 29 through 31. What appears to be incorrect is that programming for procedure code T1020U3TS still allows billing for all units on one date of service. The one unit per day limit combined with the existing edit limiting to 31 units per month effectively limit the service to the number of days in the month.

Effect

Recommendation

State Agency Response and Corrective Action Plan

In order to prevent any future billing issues, the Agency has determined, for the sake of consistency, that the current edit in place in the FMMIS will be changed. File maintenance will be developed to limit billing to 1 unit per day and the provider will then file for reimbursement using a separate line item for each day. As Assisted Living Waiver providers throughout the state will need to be notified by the waivers' operational partner, the Florida Department of Elder Affairs, an effective date for the reimbursement change will be May 1, 2012.

Chiropractic: It was determined that a new edit number was not necessary re: 99201-99203 and 98940-98942, because 5129 already existed. FM #KS09201001 was implemented on October 14, 2010, limiting chiropractic visits to 24 per year. The 24-visit limit may be exceeded when medically necessary for beneficiaries who are under the age of 21. Previous editing did not combine all possible procedure codes for visits for chiropractic services.

Reprocessing of claims has not taken place yet due to an issue discovered during testing relating to copayments.

A change order has been submitted to require a referring provider identification number for claims in exceptional places of service described in policy. File maintenance has also been requested to remove places of service that are not allowed in policy; this was completed on December 9, 2011.

Dental: The procedure codes that are not allowed to be billed on the same date of service, same quadrant were updated to restrict these codes to be paid with quadrant indicators. It is permissible to bill these code combinations if they are in different quadrants. Policy has been updated to reflect this clarification in our Dental Services Coverage and Limitations Handbook, and is pending rule adoption. The claims submitted for consideration of overpayment all have quadrant indicators that are permissible according to our policy clarification.

Inpatient: AHCA headquarters staff have worked with AHCA Area offices and providers to adjust two claims that resulted in overpayments. One provider processed a payback and the other provider voided the claim and will resubmit for the correct number of days.

Home Health: The systems edits have been fixed and are working according to policy. The AHCA Bureau of Medicaid Program Integrity is handling recoupment of these overpayments.

The Bureau of Medicaid Services is continuing the process of promulgating updates to the Home Health Services Coverage and Limitations Handbook, which is incorporated by reference in Rule 59G-4.130. The modifications to the handbook will offer better guidance to providers on the reimbursement requirements for private duty nursing and personal care services.

Questioned Costs - \$67,912,241.40 (Federal Share \$44,612,720.32)

Report No. 2011-167, Finding No. FA 10-058

Prior Year Finding

Controls were not sufficient to ensure that amounts paid by FAHCA to CTD or amounts paid by CTD to transportation providers under a Medicaid transportation program were reasonable.

Criteria

Finding

OMB Circular A-87, Attachment A, Section C. - Costs must be necessary and reasonable for proper and efficient performance and administration of Federal awards. In determining reasonableness of a given cost, consideration shall be given to the restraints or requirements imposed by such factors as sound business practices; arm's length bargaining; Federal and State laws; the market prices for comparable goods or services; and significant deviations from the established practices of the governmental unit which may unjustifiably increase the Federal award's costs.

The Centers for Medicare and Medicaid Services Non-Emergency Transportation (NET) Waiver authorizes the coordinated NET Program and includes provisions requiring FAHCA to demonstrate the cost-effectiveness of the program.

Section 427.013(28), Florida Statutes, requires FAHCA and CTD to consult together to develop an allocation methodology that equitably distributes transportation funds. The methodology shall separately account for Medicaid beneficiaries. The methodology shall also consider such factors as the actual costs of each transportation disadvantaged trip based on prior-year information.

Effective June 7, 2001, USDHHS granted FAHCA the authority to implement a coordinated NET Program. FAHCA contracted with CTD, to manage the NET Program. Effective November 2004, CTD began subcontracting with counties to provide services. The county providers include governmental entities and private

entities, referred to as subcontracted transportation providers (STPs). During the 2010-11 fiscal year, State accounting records indicated CTD payments to STPs

totaled \$67,912,241.40.

FAHCA renegotiated the NET contract with CTD effective December 1, 2008; however, in negotiating the contract amount and in the allocation of that amount to the STPs, CTD did not provide and FAHCA did not consider current actual transportation data and costs. The allocation of NET funds to the STPs was based on a formula which considered factors such as: county population density and estimated Medicaid trips in 2004, and 2002-03 fiscal year Medicaid payments.

Our audit also disclosed that FAHCA reported performing on-site reviews of two STPs. One objective of the on-site reviews was to determine whether costs were billed to the Medicaid Program in accordance with the agreement between FAHCA and CTD. However, FAHCA staff indicated that the reviews were not completed because FAHCA determined that the STPs reviewed did not have policies and procedures in place to ensure their operations were compliant with the agreement between FAHCA and CTD. Upon inquiry, FAHCA staff indicated that no formal report was prepared or notification given to CTD or the STPs

Condition

advising them of the deficiencies.

In addition, reviews of CTD's administrative costs would provide FAHCA sufficient information to determine whether amounts paid to support the administration of NET services were reasonable. In response to our prior audit finding, CTD staff indicated that CTD would be providing FAHCA with administrative cost audits of CTD for the 2009-10 and 2010-11 fiscal years to aid in determining the reasonableness of costs for future contracting purposes. However, our current review disclosed that, as of September 16, 2011, CTD had not provided the audits of its administrative costs.

Cause

Procedures did not require that CTD demonstrate, using current transportation and cost data, the reasonableness of the amounts paid and allocated under the contract. Additionally, changes in management at CTD contributed to the planned administrative costs audits not being completed and provided to FAHCA. Further, FAHCA staff indicated that since the on-site reviews were incomplete, no reports were prepared.

Effect

Without a current cost analysis, FAHCA was unable to determine that NET payments were reasonable. Further, absent adequate on-site monitoring procedures, including providing results of the monitoring to CTD, FAHCA has limited assurance CTD operations are in compliance with the contract between FAHCA and CTD to provide NET services or that needed corrective action was taken to correct noted deficiencies.

Recommendation

We recommend that current transportation costs be summarized and used to evaluate the reasonableness of the total contract amount as well as the amounts allocated to STPs and to CTD for administrative costs. FAHCA should also conduct appropriate monitoring to evaluate CTD and STP compliance with governing laws, regulations, and contract terms and communicate the results of the monitoring to CTD and STPs.

Florida Commission for the Transportation Disadvantaged

State Agency Response and Corrective Action Plan

CTD secured the services of Harvey, Convington & Thomas on January 30, 2012, to conduct audits for FY 09-10 and 10-11. Anticipate audits to be complete by June 30, 2012.

Estimated Corrective Action Date

Agency Contact and Telephone Number

Steven Holmes (850) 410-5700

Florida Agency for Health Care Administration

State Agency Response and Corrective Action Plan

The Commission for the Transportation Disadvantaged (CTD) submitted a new allocation methodology that took effect January 1, 2012. The allocation is based on a formula that takes into account recent data relating to the Medicaid Non-Emergency Transportation program.

By May 2012, the Agency intends to conduct an onsite review of the CTD's compliance with the contract. A formal report of findings will be supplied to the CTD, along with a requirement to correct any deficiencies that may be found during that review.

The CTD has contracted with an audit firm to conduct its reviews for FY 2008-2009, FY 2009-2010, and FY 2010-2011 budgets in compliance with OMB Circular A-133 and expects to have the reviews completed by June 30, 2012.

Noncompliance and Significant Deficiency

During the 2010-11 fiscal year, FAHCA paid approximately \$19.2 billion in Medicaid payments to providers for medical services provided to Medicaid recipients. We recently conducted two operational audits of the Medicaid Program. One report was titled *FMMIS Controls and the Prevention of Improper Medicaid Payments*. The other report was titled *Medicaid Program Fraud Prevention and Detection Policies and Procedures Facility Cost Reports*.

In audit report No. 2012-021 entitled *FMMIS Controls and the Prevention of Improper Medicaid Payments*, we addressed controls within the Florida Medicaid Management Information System (FMMIS) related to the prevention and detection of improper Medicaid payments made through the fee-for-services payment structure for providers. FMMIS allows the use of numerous electronic edits and audits to ensure that each submitted claim is from a valid Medicaid provider, for a valid Medicaid recipient, and for a valid Medicaid service. The electronic audits are also to be employed in the review of a recipient's claim history to ensure that the claim submitted by the provider does not exceed Medicaid program limitations. We reported that processes that would reasonably ensure the timely implementation of edits and audits had not been established by FAHCA. Specifically, we reported the following:

- > FAHCA's ineffective risk assessment processes contributed to the disbursement of improper payments.
- FAHCA had not performed a comprehensive review of FMMIS procedure codes and applicable audits for all service types within the last several years. Additionally, when FAHCA changed fiscal agents effective June 26, 2008, a review of the procedure codes and audits was not performed. Our analysis of selected service types and procedure codes identified claim payment errors totaling \$17,274,230 made to durable medical equipment and other service providers. For some of these claims, the absence of accurate claim information precluded reliable estimates as to the extent these payments represented overpayments.
- FMMIS was not programmed to ensure the proper payment of outpatient Medicare crossover claims. We estimated overpayments to be \$117,659,683 based on a projection of the errors identified by our audit to the total of the amounts paid for outpatient hospital claims during the three fiscal years tested.
- ➤ FMMIS was not programmed to correctly calculate the amounts due for some professional Medicare crossover claims. Our audit tests disclosed related overpayments totaling \$14,053,660.
- Medicare crossover claims were paid on behalf of recipients without consideration of whether the recipient was eligible for the assistance. Related overpayments disclosed by our audit tests totaled \$26,071,070.

Programming changes to FMMIS electronic edits and audits were not made in a timely manner. For 21 of 28 change orders reviewed, the period of time between the effective date of the policy change and the date the change was implemented in FMMIS ranged from 20 to 2,542 days and averaged 541 days.

➤ We also reported that FAHCA should strengthen the process by which the Bureau of Medicaid Program Integrity's recommendations are reviewed and tracked, automate processes for the screening of new and currently enrolled Medicaid providers, and modify the methodology used to periodically monitor the performance of the Medicaid fiscal agent and assess related penalties.

In report No. 2012-035 entitled *Medicaid Program Fraud Prevention and Detection Policies and Procedures, Facility Cost Reports*, we addressed the effectiveness of FAHCA's cost report audit and review process in timely identifying improper payments, including errors that may be caused by fraud. More than half of the amounts expended annually by Florida's Medicaid Program are to facilities such as hospitals, nursing homes, and intermediate care facilities for the developmentally disabled. The amounts paid to these facilities are based on per diem rates derived from annual cost reports submitted by the facilities to FAHCA, and to ensure the accuracy and completeness of the amounts shown by the annual cost reports, FAHCA engages independent contractors to conduct audits and reviews of selected annual reports of selected facilities. We reported that several issues should be corrected to strengthen FAHCA's ability to prevent and timely detect improper payments, including those that may be caused by fraud. Specifically, we reported the following:

- FAHCA did not select for audit facility cost reports at a frequency sufficient to reasonably ensure that improper payments were not made to facilities due to overstated or inaccurate cost reports.
- FAHCA did not release cost report audits in a timely manner. The failure to timely release audit reports limited FAHCA's ability to timely correct errors in per diem rates.
- FAHCA should consider revising the process used by facilities to appeal the results of cost report audits. A reduction in the number of appeals would reduce the time and resources needed by FAHCA to process the appeals and may increase the frequency or timeliness with which FAHCA can release cost report audits and finalize and apply corrected per diem rates.
- > FAHCA had not developed written policies and procedures requiring further scrutiny or inquiry into the cost reports of facilities that may contain indications of fraudulent preparation.
- FAHCA's level of oversight provided over the hospital cost report audit process was not sufficient. Increased FAHCA involvement in the hospital cost report audit process could provide additional assurance that hospital cost reports are accurate, complete, and free of material error.

Details of the findings, including descriptions of criteria, condition, cause, and effect, and our recommendations, are included in the above-noted reports.

Finding Type Noncompliance

Prior Year Finding Report No. 2011-167, Finding No. FA 10-060

Finding As noted in the prior year audit, FAHCA continued to record expenditures to

incorrect appropriation categories in the State's accounting records.

Criteria OMB Circular A-87, Attachment A

Section 216.292, Florida Statutes – *Appropriations nontransferable; exceptions.* Funds provided in the General Appropriations Act or as otherwise expressly provided by law shall be expended only for the purpose for which appropriated, except that such moneys may be transferred as provided in this section when it is

determined to be in the best interest of the state.

FAHCA procedure was to record the medical claim payments reflected in the Florida Medicaid Management Information System (FMMIS) weekly

appropriations reports in the State's Accounting record accounts for medical services appropriation categories (service types). During the 2010-11 fiscal year, FAHCA recorded approximately \$19.2 billion to medical service appropriation categories in the State's accounting records. Our audit disclosed instances where FAHCA made incorrect entries to medical service appropriation categories in the State's accounting records. While the total amount recorded was accurate, there were inaccuracies across medical service appropriation categories. For example, medical assistance payments made on September 29, 2010, totaling \$572,874,682.55 were recorded to only seven medical service categories in the State accounting records, instead of the 45 different appropriation categories to which the payments likely applied. Payments totaling \$367,507,171.52 were recorded in the State's accounting records as inpatient hospital payments (\$138,769,426.56) and prepaid health plan payments, (\$228,737,744.96), although the FMMIS weekly appropriation report reflected \$60,449,424.72 in payments for inpatient hospital services and a reduction to payments totaling \$15,875,016.33 for prepaid health plans. Subsequently, FAHCA made journal transfers in the State's accounting records to allocate the payments to the correct appropriation categories. However, the journal transfers did not correct all of the inaccuracies. For example, after FAHCA made the journal transfers, payments for inpatient hospital services in the State's accounting records totaled \$51,333,030.23, and prepaid health payments totaled \$241,087,953.74 rather

FAHCA indicated that the medical claim payments recorded in the FMMIS weekly appropriation reports are recorded to as few categories as possible in the State Accounting records and then adjusting entries are made to move the expenditures to the correct categories. FAHCA staff also stated that when insufficient funds are available in certain appropriation categories, other categories containing sufficient appropriations were charged. Currently, FAHCA is requesting Legislative approval to allow a new process where budget amendments could be submitted to realign categories.

than \$60,449,424.72 and a reduction of \$15,875,016.33, respectively.

Failure to correctly record claim payments in the State's Accounting records, limits the Federal and State governments' ability to properly administer the program and its funding.

Condition

Cause

Effect

Recommendation

We recommend that FAHCA ensure that expenditures are accurately recorded in the State's accounting records. We also recommend that FAHCA continue to pursue the necessary changes to the budget amendment process to ensure that funds are available in the appropriate categories.

State Agency Response and Corrective Action Plan

FAHCA's procedure is to pay the weekly Medicaid claims payment in as few categories as possible that have the largest amount of budget released, and then to do an adjusting journal transfer to move the expenditures to the correct categories. The adjusting journal transfers are generally completed within the same week. There may be occasions at fiscal year-end or at the conclusion of carry forward processing that the FLAIR Medical Services appropriation categories may not agree with the FMMIS appropriation categories due to insufficient FLAIR budget. In the payments made on September 29, 2010 there were some adjustments necessary due to insufficient budget. Additionally, expenditures for Title XXI are included in the FMMIS report under the specific appropriation category. These are identified as category type 8 (Title XXI) expenditures on the weekly report and are moved to the FLAIR appropriation category 102340 (Medikids), which is used for Title XXI. The amounts for Title XXI are \$59,499.29 and \$2,475,025.24 for Inpatient Services and Prepaid Health Plan, respectively. The FMMIS expenditures, less Title XXI, were \$60,389,925.43 for Inpatient Services and \$243,561,314.48 for Prepaid Health Plans. On the FMMIS report, there are three appropriation categories for prepaid health plans: 102671, 102672 and 102674. The sum of these three categories are paid from FLAIR category 102673.

FAHCA has made and continues to make efforts to secure the needed legislative authority to move budget between categories to align with expenditures at year end.

Estimated Corrective Action Date

The estimated corrective action date for the budget alignment authority is undetermined at this time.

Noncompliance

Questioned Costs - \$1,647.09 (Federal Share \$1,098.71 - Federal Grant

No. 05-1005FL5MAP, \$378.59; 05-1105FL5MAP, \$720.12)

Report No. 2011-167, Finding No. FA 10-064 **Prior Year Finding**

Finding FDCFS did not terminate eligibility for a Medicaid recipient who was no longer a

resident of the State. As a result, Florida Agency for Health Care Administration (FAHCA) made capitation payments on behalf of the recipient during the time the

recipient was not a Florida resident.

42 CFR 435.403 - State Residence Criteria

FDCFS Access Florida Program Policy Manual Chapter 1400 Technical

Requirements.

Condition During the 2010-11 fiscal year, FAHCA made payments for Medicaid services on

behalf of Medicaid recipients totaling approximately \$19.9 billion (\$16.3 billion in fee-for-service claims and \$3.6 billion in managed care capitation payments). FDCFS determined client eligibility for Medicaid for a portion of those receiving services. We reviewed 60 case records for individuals receiving Medicaid services to determine whether FDCFS records demonstrated that the clients met the eligibility requirements for the Program. One eligibility requirement, among others, is that the recipient must be a Florida resident. Our test disclosed that FDCFS did not terminate eligibility for a recipient who was no longer a resident of Florida. As a result, FAHCA made managed care capitation payments from July 2010 through March 2011 totaling \$1,647.09 on behalf of a recipient who did

not appear to be eligible.

FDCFS staff indicated that the client had not notified FDCFS of the client's move. Cause

The client has primary responsibility to report changes within ten calendar days of the date the change becomes known. In a response to our inquiry received December 20, 2011, FDCFS staff indicated the case will be referred to Benefit

Recovery for identification of any possible overpayments.

Effect Medicaid services were provided to an individual who was not eligible.

Recommendation We recommend FDCFS continue its efforts to identify any overpayments.

State Agency Response and **Corrective Action Plan**

The Department referred the case to Benefit Recovery to review for possible overpayment and Benefit Recovery will identify and establish claims for any

overpayments, where appropriate.

05-1005FL5MAP (Federal 2009-10); 05-1005FL5ADM (Federal 2009-10)

Opinion Qualification, Material Noncompliance, and Material Weakness

Questioned Costs - \$476,780,745

Finding

Criteria

Condition

Medicaid Program for the 2009-10 Federal fiscal year (FFY). Additionally, FAHCA did not have a process in place to monitor compliance with matching requirements.

FAHCA had not documented that the State met the matching requirements of the

42 CFR 433.10(a), Rates of FPP for Program services; 42 CFR 433.15(a), Rates of FFP for administration; 42 CFR 92.24(b)(6), Matching or cost sharing records.

Based on reported Federal expenditures totaling \$12,056,298,326, the State was required to expend \$5,823,679,501 in State matching funds for the 2009-10 FFY. Our review of FAHCA's procedures disclosed that FAHCA did not determine whether the State had provided sufficient, verifiable, and allowable non-Federal contributions to match Federal Medicaid expenditures for the 2009-10 FFY. Subsequent to our inquiries, FAHCA provided a match calculation for the 2009-10 FFY and represented that the State had met the matching requirement. Our review of FAHCA's State match calculation disclosed the following:

- ➤ Verifiable documentation was provided in support of \$5,063,331,451 of the total required matching contribution of \$5,823,679,501. However, FAHCA did not provide documentation to support the allowability of in-kind contributions, other agencies' non-Federal share expenditures, or indirect expenditures totaling \$760,348,050. The matching amounts not documented correlated to approximately \$476,580,000 in Federal funds expended in excess of the Federal share.
- FAHCA did not use the net amount (Line 11, CMS-64 Report) in its State match calculation. The net amount considers the effect of any current period collections, other expenditures, and other adjustments increasing or decreasing claims related to prior quarters. For the 2009-10 Federal fiscal year, after corrections were made to the calculation, the adjustments represented a \$92.6 million reduction in Federal expenditures.

FAHCA had not established and implemented policies and procedures requiring periodic verifications of the State's Medicaid Program matching contributions and to identify the method to be used in calculating and documenting State match.

Effect

Cause

Absent effective policies and procedures, FAHCA lacks a reliable means to reasonably ensure that compliance with Federal matching requirements can be demonstrated. The portion of the Federal expenditures not appropriately matched could be subject to disallowance.

Recommendation

We recommend FAHCA implement policies and procedures detailing the method for calculating, documenting, and verifying the Medicaid Program State match. To allow timely identification of deficiencies, those policies and procedures should require periodic verifications of State matching contributions.

State Agency Response and Corrective Action Plan

FAHCA concurs with the findings. FAHCA has implemented procedures to calculate and document the Medicaid Program State match. FAHCA has modified its methodology to verify the other entities' actual expenditure reports representing the State match contributions.

Estimated Corrective

Action Date

FAHCA completed development of desk top procedures in January 2012. FAHCA is working with the other entities to obtain the FFY 2009-10 documentation in support of the State matching contributions, and anticipates the files to be completed March 31, 2012.

Report No. 2011-167, Finding No. FA 10-067

FAHCA procedures were not sufficient to ensure that Medicaid providers receiving payments had a current Medicaid Provider Agreement in effect. Additionally, FAHCA did not always maintain Medicaid provider files containing applications, agreements, and other required documentation evidencing the provider's eligibility to participate in the Medicaid program.

42 CFR 431.107 - Required Provider Agreement

42 CFR 455 Subpart B – Disclosure of Information by Providers and Fiscal Agents

Section 409.907, Florida Statutes – *Medicaid Provider Agreements* – Payments for medical assistance and related services on behalf of Medicaid recipients are to be made only to individuals or entities with a provider agreement in effect. Additionally, FAHCA may require as a condition of participating in the Medicaid Program and before entering into a provider agreement, that the provider submit information, in an initial and any required renewal application, concerning the professional, business, and personal background of the provider. After receipt of a completed, signed, and dated application, and completion of any necessary background investigation and criminal history record check, FAHCA can enroll the applicant as a Medicaid provider.

Florida Medicaid Provider General Handbook, Section 2 – Both institutional and noninstitutional providers enrolled in the Medicaid Program are to submit a signed and dated Provider Agreement, and are required to submit a completed enrollment application.

Guide for Completing a Medicaid Provider Enrollment Application, Appendix F – *Provider Documentation Requirements* – Both institutional and noninstitutional applicants must provide certain documentation to enroll as a Medicaid provider.

Florida Medicaid Provider Enrollment Guide and Forms (August 2010) – Applicants to be Medicaid providers are required to provide an enrollment application and certain other documentation.

Medicaid payments were made to approximately 42,032 providers, excluding HMO and other capitation payment plans, during the 2010-11 fiscal year. The Medicaid fiscal agent was responsible for provider enrollment and re-enrollment into the Medicaid Program, including ensuring that all provider files are complete. Provider files should include a Medicaid Provider Agreement and Medicaid Provider Enrollment Application. Medicaid Provider Agreements have varying terms, 3 years for an institutional provider, and 5 or 10 years for a noninstitutional provider. The Medicaid Provider Agreement states, among other things, that only a person or entity who has a provider agreement in effect may receive payments. FAHCA uses the provider enrollment application process to document and verify that required Federal and State disclosures are made by the provider and to document that the provider meets Medicaid provider eligibility

Condition

requirements. In order for a provider to be allowed to participate in the Medicaid Program, a provider must complete a provider application and submit it to FAHCA or the fiscal agent who will make a decision to either enroll the applicant as a Medicaid provider, or deny the application.

We reviewed documentation for 40 providers enrolled in the Medicaid Program that received payments during the 2010-11 fiscal year to determine whether the provider met eligibility requirements. Our review disclosed that the Medicaid Provider Agreement on file with FAHCA for 5 providers had expired. The expiration dates for these Medicaid Provider Agreements ranged from December 22, 2006, to February 16, 2009. Additionally, for 1 provider, FAHCA could not provide evidence that a Medicaid Provider Agreement or Medicaid Provider Enrollment Application had been completed and submitted to FAHCA or the fiscal agent. Additionally, for these 6 providers we noted the following regarding provider eligibility dates recorded in FMMIS:

- For 3 of the 6 providers, Medicaid payments were made to the providers even though FMMIS indicated that the providers had expired Medicaid Provider Agreements.
- ➤ For 5 of the 6 providers, the Medicaid Provider Agreement term dates in FMMIS did not agree to the term dates per the Medicaid Provider Agreement on file with FAHCA and the fiscal agent. For 3 of these 5 instances, the FMMIS Medicaid Provider Agreement effective dates exceeded the allowable 5 or 10 year term limits.

Payments made to these 6 providers during the 2010-11 fiscal year totaled \$733,983.09.

FAHCA staff indicated that the absence of current provider agreements is a result of issues encountered when transitioning between fiscal agents in July 2008. In one instance, FAHCA indicated that the provider file containing the completed Medicaid Provider Agreement, Medicaid Provider Enrollment Application, and other supporting documentation had been misplaced.

Failure to ensure that current Medicaid Provider Agreements are in effect with Medicaid providers could preclude FAHCA from demonstrating provider eligibility and enforcing the provisions of applicable laws, rules, and regulations.

We recommend that FAHCA ensure that payments are made only to providers with current Medicaid Provider Agreements in effect. FAHCA should continue to work with the fiscal agent to ensure that providers have current Medicaid Provider Agreements in place, or assess appropriate penalties for nonperformance against the fiscal agent. Additionally, FAHCA should work with the fiscal agent to ensure provider files are maintained and accessible.

The Agency is completing the process of reenrolling providers whose agreements expired prior to the launch of the automated reenrollment process in January 2010. The Agency installed an additional automated job in November 2010 to identify providers with agreement end dates less than the current date; flag the file as needing to reenroll; create a report for tracking purposes; and

The provider had 90-days from that date to return the completed reenrollment packet in order to remain active in Florida Medicaid. Providers who failed to respond within the 90-day window were restricted in the system to prevent claims with dates of services after the deadline from processing. This process of identifying and notifying providers with expired agreements, and then applying the restriction status and finally the termination status (for the providers failing to comply), covered several quarters of work effort (> 20,000 affected providers), with final completion staged for January/February 2012.

Cause

Effect

Recommendation

State Agency Response and Corrective Action Plan

send the reenrollment packet to the provider.

This job is a onetime cleanup of older provider files and encompasses the providers who were not reenrolled during the fiscal agent transition (May 2005 -

July 2009).

Completion of this job will result in a fully corrected status for this finding.

Estimated Corrective Action Date

January/February 2012

Special Tests and Provisions – Utilization Control and Program Integrity

Florida Agency for Persons with Disabilities (FAPD)

05-1005FL5MAP (Federal 2009-10); 05-1105FL5MAP (Federal 2010-11)

Noncompliance and Significant Deficiency

Questioned Costs – \$317,324.79 (Federal Share \$206,853.42; Federal Grant No. 05-1005FL5MAP \$27,551.60; Federal Grant No. 05-1105FL5MAP \$179,301.82)

Finding

FAPD did not always ensure that annual recertifications were completed for Medicaid recipient's residing in intermediate care facilities for the developmentally disabled (ICF-DDs). Additionally, FAPD did not always ensure continued stay reviews were timely conducted.

Criteria

42 CFR 456.360 – Certification and recertification of need for inpatient care and 42 CFR 456.431 – Continued stay review required.

Interagency Agreement between the Florida Agency for Health Care Administration and FAPD – FAPD shall conduct utilization and continued stay reviews for all residents of public and private ICF-DD facilities. When the review is completed, FAPD will send a copy of the utilization review and continued stay review documents to the FAPD Area Office and respective ICF-DD facility.

Florida Medicaid Intermediate Care Facility for the Developmentally Disabled Services Coverage and Limitations Handbook - Chapter 2 – The level of need for intermediate care facilities for the developmentally disabled recipients must be recertified every 12 months. At least every 6 months each recipient's need for continued placement and the specific level of services required must be evaluated.

Condition

Medicaid recipients residing in ICF-DDs are required to have a certification of need of care every 12 months and a continued stay review at least every 6 months to safeguard against the unnecessary utilization of Medicaid services. According to FAPD staff, the certification of need of care for residents of State ICF-DD facilities was conducted by FAPD employees or contracted FAPD employees. For private ICF-DD facilities residents, the certification of need of care was conducted by ICF-DD employees or ICF-DD contracted employees. FAPD conducted the continued stay reviews at both State and private ICF-DD facilities.

We tested FAPD records of 40 Medicaid recipients residing in ICF-DDs (9 in State facilities and 31 in private facilities) to determine whether certification of need of care and continued stay reviews were conducted. Our testing disclosed the following:

- Annual recertification was required for 38 of 40 recipients tested. For 3 of the 38 (7.9 percent) recipients, supporting documentation could not be provided to show that the annual recertifications had been completed. All 3 recipients resided in private facilities. During the 2010-11 fiscal year, payments totaling \$317,324.79 were made on behalf of the three Medicaid recipients during periods in which a required certification of need of care was not available.
- Continued stay reviews were required to be completed for 39 of 40 recipients tested. For 6 of the 39 (15.4 percent) recipients (including 2 of the 3 mentioned above), continued stay reviews were not conducted every 6

months as required. In these instances, FAPD had completed the reviews every 7 to 10 months.

Cause

FAPD staff indicated provider staff did not understand which documents were required to support the recertifications.

FAPD staff was not able to provide an explanation as to why the six continued stay reviews were not conducted at the required 6-month intervals.

Effect

Absent timely, appropriate documentation, FAPD was unable to demonstrate that clients continued to need Medicaid services. Failure to timely complete the required documents could result in payments to ICF-DD facilities being subject to disallowance.

Recommendation

We recommend FAPD ensure that certification of need of care and continued stay reviews are timely completed and documented for all Medicaid recipients residing in ICF-DD facilities. Additionally, FAPD should ensure that ICF-DD facilities have a clear understanding of what is required to document the certification of need of care.

State Agency Response and Corrective Action Plan

Annual Recertification (Certification of need for care)

Annual recertification was completed for all Medicaid recipients reviewed. For 3 of the 38 recipients the form utilized by the private ICF was an incorrect form and did not contain a physician's signature. These 3 recipients have resided at their respective facilities for many years. Correct annual recertifications have been completed.

FAPD will ensure that the recertification form for all Medicaid recipients residing in the ICF/DD facilities are completed and documented in the records with each 6 month review. FAPD will provide additional in-service training for all those involved with this process.

FAPD has requested that AHCA update their forms and procedures for this process to include clear delineation of roles and responsibilities. FAPD Central Office will provide follow up and technical assistance to ensure compliance.

Continued Stay Reviews

Continued stay reviews (CSRs) were completed for all required Medicaid recipients reviewed. However, for the 6 (cited) of 39 recipients reviewed, the CSRs were not timely.

FAPD will ensure that the continued stay reviews for all Medicaid recipients residing in the ICF/DD facilities are completed within the required 6 month timeframe. FAPD will provide additional in-service training for all those involved with this process.

FAPD has requested that AHCA update their forms and procedures for this process to include clear delineation of roles and responsibilities. FAPD Central Office will provide follow up and technical assistance to ensure compliance.

Estimated Corrective Action Date

Training for staff will be initiated immediately. (Feb 2012)

Request for AHCA to update forms and policy initiated. (Jan 2012)

FAPD Central Office oversight to ensure compliance will be initiated immediately. (Feb 2012)

Review of Interagency Agreement. (Feb 2012)

Number and Grant Year Finding Type

Significant Deficiency

Prior Year Finding

Report No. 2011-167, Finding No. FA 10-068

Finding

FAHCA's established policies and procedures did not provide for the timely review and release of cost report audits of nursing home and Intermediate Care Facilities for the Developmentally Disabled (ICF-DD).

Criteria

42 CFR 447.253(g) - Audit requirements

Condition

During the 2010-11 fiscal year, approximately 650 nursing homes and 102 ICF-DD facilities received Medicaid payments of \$2,879,253,196.93 and \$401,725,069.33, respectively. Payments to nursing homes and ICF-DD facilities are based on approved cost-based rates. To ensure the accuracy of those rates, periodic audits of the financial and statistical records of providers participating in the Medicaid program are required. FAHCA has contracted with certified public accounting (CPA) firms to perform periodic nursing home and ICF-DD cost report audits. It is FAHCA's procedure for staff to review each audited cost report, and CPA working papers, prior to releasing the audit report to the provider.

We would consider the issuance of an audit report to be timely and the most useful when issued within 2 years after the close of the year-end of the provider. Our audit disclosed that FAHCA's policies and procedures did not ensure the timely selection, review, and issuance of nursing home and ICF-DD cost report audits. Specifically:

- Of the 650 nursing homes receiving Medicaid payments during the 2010-11 fiscal year, 94 cost reports pertaining to 71 (10.92 percent) of these facilities were selected for audit. At this rate, it will take approximately 9 years for each nursing home to receive at least one cost report audit.
- ➤ Of the 102 ICF-DD facilities receiving Medicaid payments during the 2010-11 fiscal year, 8 cost reports pertaining to 8 (7.84 percent) of these facilities were selected for audit. At this rate, it will take approximately 13 years for each ICF-DD facility to receive at least 1 cost report audit.
- For nursing home cost reports issued during the 2010-11 fiscal year, the average length of time from the fiscal year-end audited to the issuance of the audit report was approximately 5 years. Additionally, there were no ICF-DD cost report audits issued during the 2010-11 fiscal year, a decrease from 14 issued during the 2009-10 fiscal year. The following table shows the fiscal years audited for each nursing home report issued during the 2010-11 fiscal year.

Cost Reports With Fiscal Years Ended in the Year	Number of Audits Issued During Fiscal Year 2010-11
2003	1
2004	4
2005	16
2006	32
2007	41
2008	8
Total	102

For nursing home cost reports issued during the 2010-11 fiscal year, the average length of time to complete and release a report, from the year selected to the year released, was approximately 2.1 years. The following table shows the fiscal years when the cost reports were originally selected for audit:

Cost Reports Selected For Audit	Number of Audits Issued During Fiscal	
During Fiscal Year	Year 2010-11	
2005	1	
2008	43	
2009	26	
2010	32	
Total	102	

Cause

FAHCA's procedures do not provide for the timely selection, review, and issuance of cost report audits. Additionally, FAHCA's procedure of reviewing supporting work papers for each CPA firm's audit report, and preparing for cost report audit appeals, could have hindered the timely issuance of the reports.

Effect

The failure to timely select, review, and issue audit reports reduces the effectiveness of efforts to ensure that these facilities are reimbursed at the appropriate rates. It also limits FAHCA's ability to timely apply rate adjustments, if necessary.

Recommendation

We recommend FAHCA enhance its policies and procedures to specify the frequency with which each facility's cost report should be audited and to provide for the timely release of cost report audits. These procedures should identify time frames within which cost reports audits are to be reviewed and released to ensure the timeliness and usefulness of the information contained within the audits.

State Agency Response and Corrective Action Plan

Each of the 649 nursing homes participating in the Medicaid program are to submit a cost report, compliant with cost reporting requirements, each year five months after the close of the provider's fiscal year end. Cost reports are not considered late until they have not been received to be used for the next January or July rate setting following the due date of the cost report. The consequence of submitting a late cost report was the provider would not receive a per diem increase based upon the costs submitted until the next rate setting. Any rate reductions would be immediately applied.

On May 23, 2011, the Centers for Medicare and Medicaid (CMS) approved a change to the Long-Term Care Reimbursement Plan (Plan) allowing the Agency

the ability to impose sanctions on those providers with late cost reports. The result of advertising the requested Plan change to the nursing home industry reduced the number of providers with late cost reports from sixty-one to less than five. The submission of cost reports to avoid possible sanctions will have older cost reports in the pool for possible selection that could show up in audit assignments in future fiscal years.

Cost reports cannot be included in the audit selection pool until they have been submitted to the Agency and accepted for rate setting, regardless of fiscal year end. Due to the previously described cost report process, setting a two year window from the close of the provider's fiscal year end would not be practical.

The Agency has reviewed the average length of time from cost report acceptance to audit assignment and from audit assignment to report issuance. For the 102 audits issued during the 2010-11 fiscal year, the averages are 14.9 months and 23.6 months, respectively. Combining these timeframes, reports are issued on average within 38.5 months from cost report acceptance.

Included in the reports released are six reports, with fiscal years ending 2003, 2006, and 2007, based on assignments originally started by contract CPA firms. These assignments were open at the time the firm's contract was not renewed. The Agency completed these audits rather than reassigning them to another CPA for re-audit, saving the Agency an estimated \$90,000 of contracted audit costs.

Reviewing supporting work papers for each report and preparing audit appeals are not considered hindrances, but necessary components of the process. Each report issued is considered an Agency action, and the Agency is required to provide administrative hearing (appeal) rights. The Agency is responsible defending the adjustments included in the reports and performing additional audit steps, including any report revisions, necessary to conclude the appeals. Releasing reports without having reviewed the adjustments and supporting work papers would put the Agency at a disadvantage in the legal challenge and the allowance of costs that should be removed.

Should the provider choose to appeal the adjustments, all further processing of the report is ceased until the administrative action is legally concluded. This includes any rate changes resulting from these reports.

The Agency's available resources have to be considered in the timing and completion of cost report audits or special projects, as well as selection of the cost reports considered the highest risk for audit. Agency personnel assigned to review reports and supporting work papers are also required to defend the adjustments, perform additional work for audit appeals, perform cost report acceptance reviews, and complete special projects. A balance of these required functions is necessary.

FA 11-073

Report No. 2011-167, Finding No. FA 10-069

Florida Department of Health (FDOH)

FDOH did not always maintain appropriate records to support salary and benefit payments charged to the Program for contract employees.

> OMB Circular A-87 Attachment A, General Principles for Determining Allowable Costs; Attachment B, Section 8.h., Support of Salaries and Wages

> During the 2010-11 fiscal year, FDOH expended HPP funds totaling \$22,731,764 of which \$365,892 represented payments to contractors for contract employees. Our test of payments totaling \$291,537.83 to a contractor for nine contract employees disclosed that documentation was not always maintained to support amounts charged to the Program. Specifically:

- Salary costs attributable to three contracted employees totaling \$14,250.28 were charged to HPP; however, certifications were not completed until our audit inquiry. (Federal Grant No. 6 U3REP090219-01 - \$4,403.97, 6 U3REP090219-02 - \$9,846.31)
- > One contracted employee's salary totaling \$66,136.50 was charged to HPP; however, a signed certification indicated the employee worked solely on another Federal program. (Federal Grant No. 6 U3REP090219-01 -\$10,764.00, 6 U3REP090219-02 - \$55,372.50)
- One contracted employee's salary totaling \$3,791.18 was split evenly between HPP and another Federal program; however, a signed certification indicated the employee worked solely on the other Federal program (Federal Grant No. 6 U3REP090219-01 - \$1,895.59)

FDOH did not follow established procedures to obtain payroll certifications. Additionally, FDOH did not ensure that salary and benefit costs were properly allocated.

Federal programs were charged costs that were not substantiated by appropriate records.

We recommend that FDOH ensure that payroll certifications are maintained and that time and effort records adequately support salary charges for all contract employees that work on HPP.

Bureau of Preparedness and Response (BPR) will modify its processes for identifying contracted employees required to complete the payroll certifications, its process of collecting the certifications in a timely manner, and develop a tool to review the accuracy of the submitted certifications.

BPR's Grant Management Unit will modify its existing process for identifying contracted employees paid from the Program. The modifications will include adding a grant manager review component to ensure Program fiscal codes reflected in the certifications are accurate, and that signatures on the certifications are within the appropriate time period.

Significant Deficiency

Finding

FDOH management had not established effective access security controls for the AIDS Information Management System (AIMS).

Criteria

Information Technology Best Practices

Access Controls: Management should implement and document procedures that provide access based on an individual's demonstrated need to view, add, or Access controls should include the use of individual user identifications (IDs) and passwords to allow for attributing user activities to the responsible user. Additionally, the risk of inappropriate or unnecessary access privileges can be reduced through the employment of such controls as documenting authorizations for access, periodically reviewing appropriateness of access privileges, and promptly removing the access privileges of users that no longer need access.

Condition

AIMS is a Web-based, aggregate level reporting system that allows FDOH contractors and County Health Departments to electronically invoice and report to the FDOH Bureau of HIV/AIDS budgetary and expenditure information related to the provision of HIV/AIDS services.

During the 2010-11 fiscal year, 154 FDOH and contractor employees were assigned one or more IDs, depending on their need to access different types of contracts. Our test of access granted to 16 employees disclosed the following control deficiencies related to AIMS:

- FDOH did not maintain documentation of management authorization requesting access privileges for 12 employees who were granted one or more user IDs. In 2008, FDOH implemented the AIMS Access Request Form to document management requests for AIMS access for employees. However, FDOH staff stated that all 12 employees were granted access prior to 2008.
- FDOH did not timely remove access privileges for 2 employees. We noted that the 2 employees had access privileges that enabled them to enter and update data, although such functions were no longer needed to perform their job responsibilities. Subsequent to our audit inquiry, FDOH staff indicated that access would be removed for these 2 employees.
- Certain other aspects of FDOH access security controls needed improvement to reduce the risk of inappropriate or unnecessary access. We are not disclosing specific details of these access security control deficiencies in this report to avoid the possibility of compromising FDOH security. We have notified appropriate FDOH personnel of these issues.

Cause

FDOH had not performed periodic reviews of authorized AIMS user access to verify the continuing appropriateness of user access privileges. FDOH did not require Access Request Forms or other documentation be maintained for access that was granted prior to 2008. Additionally, FDOH had not established written policies and procedures related to AIMS access security.

Effect

In the absence of periodic reviews of AIMS access privileges, the risk that data may be subject to unauthorized disclosure, modification, or destruction is increased. In the absence of authorization forms to document the approval of user access privileges, management's ability to monitor the appropriateness of access privileges may be limited.

Recommendation

We recommend the Bureau of HIV/AIDs perform and document periodic reviews of AIMS access privileges and consider obtaining AIMS Access Request Forms for all users. We also recommend that FDOH establish written policies and procedures related to AIMS access security.

State Agency Response and Corrective Action Plan

The recommendations are being addressed as part of a rewrite of the AIMS database software.

AIMS is currently being re-coded in .NET with updated Information Systems Development Methodology (ISDM) approved security. The security module includes enhanced role based security giving us greater control over the level of access that is granted, along with some audit capabilities. AIMS will be subjected to app scan following completion and promoted to production through change management.

Providers may request access for new users or termination of user access at any time with the AIMS access request form. In order to enhance identification of unused accounts the Reporting Unit will begin emailing active user accounts to providers every six months for review.

AIMS is a low security risk database with no confidential information. Much of the functionality is gradually being replaced by more sophisticated client level databases and reporting. Our expectation is the new AIMS database will be available within six months.

FDCFS did not meet the SAPT maintenance of effort (MOE) requirement for the **Finding**

2010-11 fiscal year.

Criteria 42 USC 300x-30 Maintenance of effort regarding State expenditures - The State

will maintain aggregate State expenditures for authorized activities at a level that is not less than the average level of expenditures maintained by the State for the 2-year period preceding the fiscal year for which the State is applying for the

grant.

45 CFR 96.134 Maintenance of effort regarding State expenditures

Condition During the 2010-11 fiscal year, FDCFS was required to expend \$90,391,619 in

> State funds in order to meet the MOE requirement for SAPT. Eligible MOE expenditures totaled \$85,812,381 for the 2010-11 fiscal year, resulting in a

shortfall of \$4,579,238 (approximately 5 percent).

Because of continuing economic difficulties in Florida, sufficient General Cause

Revenue Fund moneys were not available to meet the SAPT MOE requirement.

Effect USDHHS could reduce the SAPT allotment for the 2011-12 Federal fiscal year by

the amount of the MOE shortfall.

We recommend that FDCFS continue to correspond with SAMHSA regarding the Recommendation

efforts made to comply with the MOE requirements.

State Agency Response and

The Department requested a waiver of the SAPT MOE requirement from SAMHSA on December 27, 2011. SAMHSA replied on January 26, 2012, **Corrective Action Plan**

indicating that a different analysis than the one the State submitted will be

required in order for eligibility for a waiver request to be determined.

The Department will continue to correspond with SAMHSA regarding a request of

the SAPT MOE waiver.

Finding Type

Noncompliance and Material Weakness Questioned Costs - \$2,272,952.85

Finding

FDEM did not appropriately allocate salary and benefit costs charged to multiple Federal programs.

Criteria

OMB Circular A-87, Attachment B, Section 8.h., Support of Salaries and Wages

44 CFR 13.20(b)(1), Financial Reporting

Condition

During the 2010-11 fiscal year, FDEM was administratively housed within the Florida Department of Community Affairs (FDCA). FDCA contracted with a software developer to develop a new information technology system that would. among other things, allocate salary and benefits charged to Federal programs at FDCA. While this system was not fully functional, the payroll distribution module was utilized to allocate salary and benefits. FDCA identified errors in the salary and benefits allocation methodology; however, the effect of the errors on salaries charged to each Federal program and grant was not determined or corrected by the end of the fiscal year. Salary and benefits totaling \$2,272,952.85 were allocated through the system and charged to the following Federal programs:

CFDA Number – Program Title	Grant Number	Amount
97.036 - Disaster Grants - Public Assistance (Presidentially Declared Disasters)	FEMA-1539-DR-FL	106,182.73
	FEMA-1545-DR-FL	61,719.12
	FEMA-1551-DR-FL	68,058.05
	FEMA-1561-DR-FL	75,824.40

	FEMA-1609-DR-FL	669,154.17
	FEMA-1785-DR-FL	24,084.67
	FEMA-1806-DR-FL	20,572.25
	FEMA-1840-DR-FL	4,515.91
	FEMA-3293-EM-FL	1,003.54
	Total	\$1,063,163.15
97.039 - Hazard Mitigation Grant	FEMA-1539-DR-FL	23,009.96
	FEMA-1545-DR-FL	36,219.94
	FEMA-1551-DR-FL	57,855.22
	FEMA-1561-DR-FL	14,481.34
	FEMA-1595-DR-FL	9,452.12
	FEMA-1602-DR-FL	19,255.93
	FEMA-1609-DR-FL	96,520.04
	FEMA-1679-DR-FL	39,140.09
	FEMA-1680-DR-FL	6,065.35
	FEMA-1785-DR-FL	12,386.08
	FEMA-1806-DR-FL	24,213.47
	Total	\$338,599.54
97.067 – Homeland Security Cluster	2007-GE-T7-0039	30,718.96
	2008-GE-T8-0009	840,471.20
	Total	\$871,190.16
	Grand Total	\$2,272,952.85

The development of the payroll allocation module was not closely monitored. Cause

Effect Federal programs were incorrectly charged costs for salary and benefits. In

addition, cash draws and amounts reported as Federal expenditures during the

fiscal year may have included incorrect salary and benefit costs.

We recommend that FDEM correct the salary and benefits allocation Recommendation

inaccuracies and make appropriate adjustments to cash draws and Federal

reports as applicable.

State Agency Response and

Corrective Action Plan

FDEM concurs with the finding and is in the process of making the appropriate adjustments to correct inaccuracies in salary and benefit allocations.

DR-FL, FEMA-1602-DR-FL, FEMA-1679-DR-FL

Finding Type Questioned Costs – \$64,716.06 (FEMA-1609-DR-FL) **Prior Year Finding** Report No. 2011-167, Finding No. FA 10-074

Finding Our audit tests disclosed a subgrantee payment that included an unallowable

amount.

Criteria 44 CFR 13.22 & 206.205, 228, Allowable Costs: OMB Circular A-87, Attachment

A, Section C, Basic Guidelines - Cost Principles

Generally, Disaster Grant funds are authorized for use in specific projects during specific time frames. Project costs are estimated and authorized on a Project Worksheet (PW). FDEM established applicant reimbursement guidelines, incorporated into the subgrantee agreements, which required applicants to submit a Request for Reimbursement (RFR) and, for each expense item entered on the RFR, copies of contract documents, invoices, purchase orders, and evidence of payment (front and back of canceled checks), and any other

supporting documentation for each expense item entered on the RFR.

During the 2010-11 fiscal year, FDEM made payments to subgrantees and contractors totaling approximately \$120,515,499 and \$3,265,856, respectively. During our current audit, we reviewed 52 subgrantee payments and four contractor payments totaling \$12,335,520.06 and \$164,362, respectively. For 1 subgrantee, we noted that close-out documentation for one project included

subgrantee, we noted that close-out documentation for one project included invoices from two different contractors who were paid for the same mold remediation services totaling \$64,716.06. FDEM did not detect the duplicate invoice and reduce the reimbursement amount by the amount of the duplicated

charge.

Cause Invoices submitted for payment by the subgrantee included an original and

revised invoice relating to the mold remediation services. FDEM erroneously

paid both invoices rather than paying only the revised invoice.

Effect A payment made to a subgrantee exceeded the amount actually due.

Recommendation We recommend that FDEM continue its efforts to ensure that costs are allowable

and reasonable. We also recommend that FDEM recover the amount of the

overpayment.

State Agency Response and Corrective Action Plan

A version has been submitted to FEMA to reduce the total obligated amount of PW-9266 by \$64,716.06. Upon de-obligation of funding by FEMA, an invoice will

be sent to the applicant to recover the overpayment. A summary of this error has been distributed to all Recovery Office closeout specialists and financial

specialists as a learning tool.

Program Title Hazard Mitigation Grant

Compliance Requirement Allowable Costs/Cost Principles and Subrecipient Monitoring

State Agency Florida Division of Emergency Management (FDEM) [Transferred to the

Florida Executive Office of the Governor effective October 1, 2011]

Federal Grant/Contract Number and Grant Year

Various

Finding Type

Significant Deficiency

Finding FDEM management had not established appropriate internal controls regarding

user access for the Hazard Mitigation System.

Criteria 44 CFR 13.20, Standards for Financial Management Systems

Information Technology Best Practices

Management should implement procedures that provide access privileges based on an individual's demonstrated need to view, add, or delete data. Access controls should include the use of individual user identifications (user IDs) and

passwords to allow for attributing user activities to the responsible user.

Condition The Hazard Mitigation System is a portal used by FDEM to support the Hazard

Mitigation Program. The System was designed for managing projects and obligations, making payments against an obligation, and managing those payments. Subrecipient requests for payment are processed through this System. During the 2010-11 fiscal year, FDEM used the Hazard Mitigation System to process and approve payments totaling \$74,257,538.43 for the

Hazard Mitigation Grant Program.

Our review of controls for the Hazard Mitigation System disclosed that user access controls needed improvement. Specific details of the issues are not disclosed in this report to avoid the possibility of compromising FDEM security.

Appropriate FDEM personnel have been notified of the issues.

Cause Staff indicated that this system is new and is undergoing changes as

implementation and development continues.

Effect Absent appropriate security controls, the confidentiality, integrity, and availability

of the data contained within the Hazard Mitigation System is subject to increased

risk of compromise.

Recommendation FDEM should enhance security controls to ensure access privileges are

appropriately controlled.

State Agency Response and Corrective Action Plan

FDEM acknowledges and agrees with the finding. FDEM in accordance with the recommendations provided will ensure that all necessary enhancements to the

Hazard Mitigation System (Mit.org) are implemented to ensure that access

privileges are appropriately controlled.

2007-GE-T7-0039; 2008-GE-T8-0009; 2009-SS-T9-0081

Noncompliance and Significant Deficiency

Questioned Costs - \$32,148.06 (\$6,441.40 2007-GE-T7-0039, \$13,686.66

2008-GE-T8-0009, \$12,020 2009-SS-T9-0081) Report No. 2011-167, Finding No. FA 10-082

FDEM did not always require adequate documentation be submitted by subgrantees to substantiate amounts requested for reimbursement. Additionally, prior to approving subgrantee reimbursements, FDEM did not require subgrantees to submit indirect cost allocation plans and fringe benefit rates for approval.

OMB Circular A-87 – Attachment A, Section C.1.j. *Factors Affecting Allowability of Costs*. To be allowable under Federal awards, costs must be adequately documented.

OMB Circular A-87 – Attachment A, Section C.3.d. *Allocable costs.* When an accumulation of indirect costs will ultimately result in charges to a Federal award, a cost allocation plan will be required.

OMB Circular A-87 – Attachment E, Section D.1.b. Submission and Documentation of Proposals. Where a local government only receives funds as a subrecipient, the primary recipient will be responsible for negotiating and/or monitoring the subrecipient's plan.

OMB Circular A-87 – Attachment E, Section F.1. *Other Policies*. If overall fringe benefit rates are not approved for the governmental unit as part of the central service cost allocation plan, these rates will be reviewed, negotiated, and approved for individual grantee agencies during the indirect cost negotiation process. In these cases, a proposed fringe benefit rate computation should accompany the indirect cost proposal.

During the 2010-11 fiscal year, approximately \$58 million in HSC funds was expended by 11 State agencies. We tested 64 expenditures totaling \$9,202,403.78 at 7 State agencies, including 28 subgrantee payments totaling \$2,774,065.79 made by FDEM. Our review disclosed 4 payments (for three subgrantees) totaling \$60,957.39 for which documentation did not adequately support amounts paid for salaries, fringe benefits, and other indirect costs totaling \$32,148.06. Specifically:

- ➤ For 4 items totaling \$30,391.61, subgrantees applied rates for indirect costs and for fringe benefit costs, as part of salary amounts requested for reimbursement, and these amounts were paid by FDEM. However, the rates used in the calculations had not been approved by FDEM.
- ➤ In addition, for one item noted above totaling \$1,756.45, timesheets or other documentation were not available to support salary amounts requested for reimbursement, and subsequently paid by FDEM.

FDEM staff did not adequately review subgrantee documentation submitted with requests for reimbursement prior to approving subgrantee reimbursements. Also, FDEM did not require the subgrantees to submit cost allocation plans for review, approval, and negotiation of rates.

Effect Absent prior review and approval of indirect and fringe benefit cost rates, and

adequate review and approval of documentation submitted with requests for reimbursement, FDEM cannot ensure that amounts paid to subgrantees are

allowable, reasonable, and in compliance with Federal regulations.

Recommendation We recommend that FDEM ensure subgrantee requests for reimbursement are

adequately supported and that the amounts paid are in accordance with OMB

Circular A-87.

State Agency Response and

Corrective Action Plan

FDEM concurs with the finding and is in the process of taking the appropriate

corrective action.

Subrecipient Monitoring

Florida Division of Emergency Management (FDEM) [Transferred to the Florida Executive Office of the Governor effective October 1, 2011]

2006-GE-T6-0023; 2007-GE-T7-0039; 2008-GE-T8-0009; 2009-SS-T9-0081

Material Weakness

FDEM did not always maintain sufficient documentation to evidence during-the-award monitoring of subrecipients.

OMB Circular A-133 §__.400(d) — Pass-through entity responsibilities. A pass-through entity is responsible for monitoring the activities of subrecipients as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.

OMB Circular A-133 – Compliance Supplement Part 4. A pass-through entity is responsible for during-the-award monitoring which includes reporting, site visits, regular contact, or other means to provide reasonable assurance that the subrecipient administers Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.

FDEM *Grants Operational Guide*, *Subgrantee Monitoring* - For each active grant program, FDEM will conduct office-based reviews (desk reviews) for subgrantees annually except for subgrantees who have received FDEM on-site monitoring within the previous 6 months.

During the 2010-11 fiscal year, FDEM made payments totaling \$29,282,276.35 to 112 subgrantees. FDEM's on-site monitoring log indicated that during the 2010-11 fiscal year, staff performed monitoring for 232 contracts with 79 subgrantees. However, our review of FDEM monitoring files disclosed deficiencies related to documentation of both desk reviews and on-site monitoring activities for 9 of 15 subgrantee files reviewed. Specifically:

- For eight subgrantees that received \$12,881,933.65 during the 2010-11 fiscal year, there was no documentation available to evidence FDEM's monitoring of the subgrantees.
- ➤ For one subgrantee that received \$1,036,593.30 during the 2010-11 fiscal year, documentation evidencing supervisory review and communication of monitoring results to the subgrantee was not available.

FDEM staff indicated all monitoring activities had taken place, but that documentation was possibly misplaced during relocation of staff as a result of the transfer of FDEM. Additionally, FDEM did not have a mechanism to track the performance of desk reviews to help ensure that all reviews were completed.

In the absence of adequate documentation demonstrating the monitoring activities performed, the supervisory review of such activities, and the communication of monitoring results, FDEM has reduced assurance that subgrantees are utilizing Federal awards for authorized purposes and are administering programs in compliance with laws, regulations, and provisions of contracts and grant agreements.

Recommendation

We recommend that FDEM maintain appropriate documentation of monitoring activities of subrecipients to ensure that subrecipients are utilizing Federal awards for authorized purposes and in compliance with laws, regulations, and provisions of contracts and grant agreements.

State Agency Response and Corrective Action Plan

The Homeland Security Grants unit has created a place in the monitoring tracking spreadsheet for Federal fiscal year 2011-12 and previous fiscal years for subgrants to record monitoring data in addition to the individual subgrant files. For each agreement executed after October 1, 2011, the completion of an on-site and/or desk monitoring, any findings, documentation placement in the file, and the grant monitor's name will be recorded to facilitate future audit requests.

Finding Type Significant Deficiency

Finding Certain access controls protecting six institution's information technology (IT)

resources needed improvement. We are not disclosing specific details of the deficiencies to avoid the possibility of compromising institution information. However, we have notified appropriate institution personnel of the deficiencies.

Criteria Information Technology (IT) Industry Standards: General Controls

IT Governance Institute Control Objectives for Information and related Technology (COBIT) 4.1:

DS5.3 Identity Management – User access rights to systems and data should be in line with defined and documented business needs and job requirements.

PO8.2 IT Standards and Quality Practices – Standards, procedures, and practices for key IT processes should be identified and maintained.

Effective access controls over IT resources provide safeguards to assist in the prevention or detection of errors or misappropriations. Effective access controls provide employees access to IT resources based on an employee's demonstrated need to view, change, or delete data and restrict employees from performing incompatible functions or functions outside of their area of responsibility.

Condition Discussed with appropriate institution personnel.

Cause Discussed with appropriate institution personnel.

Effect Weak access controls increase the risk that unauthorized or inappropriate

changes to data may occur and not be detected in a timely manner.

Recommendation The institution should enhance access controls as noted.

Florida International University (FIU)

FIU Response and Corrective Action Plan

Management in the Financial Aid Office has made adjustments to enhance the

process.

Federal Family Education Loan Program (FFEL)

Compliance Requirement Cash Management and Special Tests and Provisions – Disbursements – Return

of Undistributed Loan Funds

State Educational Entity Florida Agricultural and Mechanical University (FAMU)

Finding TypePrior Year Finding
Noncompliance and Significant Deficiency
Report No. 2011-167, Finding No. FA 10-085

Finding The institution did not timely return undistributed FFEL student loan funds to the

applicable lenders.

Criteria 34 CFR 668.166(a)(1), Excess Cash and .167(b), Returning funds to a lender

The institution has three business days to disburse FFEL student loan funds when a lender provides the funds by electronic funds transfer. Loans not disbursed to the student or parent within three business days are required to be returned to the lender within ten business days after the date the funds were

required to be disbursed.

Condition In our report No. 2011-167, finding No. FA 10-085, we noted that as of

June 30, 2010, there remained numerous outstanding FFEL loan balances from June 30, 2009, that had not been returned to the applicable lenders or adjusted. The institution, in response to the prior audit finding indicated that all student loan balances at June 30, 2010, would be reviewed and returned or adjusted by March 31, 2011. As of November 22, 2011, the institution still had 150 students with positive undisbursed FFEL loan balances totaling \$115,192.95, which had

not been reconciled, adjusted, or returned to the applicable lenders.

Cause The institution's procedures were not adequate to follow through and complete

the planned return of undistributed FFEL funds.

Effect When FFEL student loan funds are not timely returned to the lenders the

institution is subject to interest and penalties, as well as any potential liabilities for interest subsidies that may have been paid by the United States Department of Education to lenders on behalf of students who did not receive those loan

amounts.

Recommendation The institution should continue to research the remaining FFEL student loan

balances and adjust and return any undisbursed funds to the applicable lenders.

FAMU Response and

The University concurs with the finding. The Office of Financial Aid has reviewed

all 150 students and has adjusted 102 students with positive balances. The remaining 48 students with positive balances are under review and will be finalized by March 1, 2012. Procedures are being strengthened to satisfy the

requirement (34 C.F.R 668.24 [b]) to perform monthly reconciliation of all Title IV

funds.

Federal Direct Student Loan Program (FDSL) Academic Competitiveness Grants (ACG)

Compliance Requirement State Educational Entity

Eligibility - Overaward

College of Central Florida (CCF)

Finding Type Noncompliance and Significant Deficiency

Questioned Costs - \$125,733 (\$1,935 FSEOG, \$13,820 FDSL subsidized,

\$108,588 FDSL unsubsidized, \$1,390 ACG)

Finding The institution used incorrect cost of attendance (COA) budgets for students that

were classified as independent but were living at home with their parents, which resulted in overawards of Title IV Higher Education Opportunity Act (HEOA)

funds.

Criteria Title IV, Part F, §472, Need Analysis, Cost of Attendance

20 U.S.C., Chapter 28, Subchapter IV, Part E, §1087LL, Cost of Attendance

Condition The institution's financial aid system automatically provided award amounts to all

students with an independent status as living off-campus, which resulted in an incorrect/excessive COA allowance being used to determine the amount of Title IV HEOA aid awarded for students living at home with their parents. Subsequent to our inquiry, the institution determined that as a result of using an incorrect COA, 75 students received \$125,733 (\$1,935 FSEOG, \$13,820 FDSL subsidized, \$108,588 FDSL unsubsidized, \$1,390 ACG) of Title IV HEOA aid for

which they were not eligible.

Cause The institution's financial aid system does not differentiate between independent

students living off-campus not with their parents, and independent students living with their parents (i.e., commuters), which resulted in the use of an incorrect

COA.

Effect The institution overpaid Title IV HEOA funds to students.

Recommendation The institution should enhance its financial aid system to recognize and properly

award amounts to independent students living with their parents. Additionally, the institution should consult with the United States Department of Education as

to the disposition of the amounts overpaid.

CCF Response and **Corrective Action Plan** The college will enhance its' procedures to ensure that the system recognizes and properly awards amounts to independent students living with their parents.

The college has returned the amounts overpaid to the USDOE.

Finding Type

Florida State College at Jacksonville (FSCJ)

Noncompliance and Significant Deficiency

Questioned Costs - \$10,699 PELL

Finding Two of 20 students tested who had received baccalaureate degrees at the

institution were paid \$10,699 of PELL funds, contrary to Federal regulations.

Criteria 34 CFR Section 668.32(2), Student eligibility

Condition PELL funds were paid to two students who had earned baccalaureate degrees

and were therefore ineligible to receive PELL funds. PELL recipients may not have a baccalaureate or first professional degree, unless enrolled in a post-baccalaureate teacher certificate or licensing program. These students were not enrolled in an eligible program and therefore were not eligible to receive PELL funds. Subsequent to audit inquiry, on August 27, 2011, the institution

restored \$10,699 to PELL.

The institution did not have adequate controls or system edits to check for Cause

previously awarded baccalaureate degrees to prevent ineligible students from

receiving PELL funds.

Effect Ineligible students received PELL funds in error.

Recommendation The institution should establish controls to ensure that students do not receive

> PELL funds for which they are not eligible. Additionally, the institution should determine whether other ineligible students received PELL funds after already receiving baccalaureate degrees and reimburse the Federal program as

> The College accepts the finding and has already corrected the programming to

applicable.

Questioned Costs – \$128,588 (FSEOG \$400; PELL \$47,096; FDSL subsidized \$37,421; FDSL unsubsidized \$40,671; SMART \$3,000)

Finding

The institution's internal controls over the SAP appeals process did not provide for an appropriate level of administrative oversight, and its appeal determinations were based primarily on academic progress rather than all elements of the Federal SAP standards. Also, student appeals were approved with inadequate documentation, and ineligible students were allowed to continue to receive Title IV Higher Education Opportunity Act (HEOA) aid.

Criteria

34 CFR 668.16 (b),(c),(e) Standards of Administrative Capability, 668.32 Student Eligibility – General, and 668.34 Satisfactory Progress

Federal Student Aid Handbook.

Condition

For a student to be eligible for Title IV HEOA aid they must be enrolled as a regular student working toward a degree or certificate in an eligible program. To remain eligible for financial aid, a student must make SAP by maintaining a GPA of 2.0, achieving satisfactory grades in 67 percent of credit hours attempted, and must not exceed 150 percent of credit hours required for their program of study or degree. Students may appeal their SAP failure if it is attributable to a documented special circumstance, such as a death in the student's family or a personal injury or illness of the student.

The institution is required to have:

- Reasonable procedures when assessing SAP that must include both grade-based and time-related standards,
- Specific procedures under which a student may appeal a determination that the student is not making satisfactory academic progress, and
- Specific procedures for a student to re-establish that the student is making satisfactory academic progress, and, thereby, eligible for Title IV HEOA aid.

Although the institution's 2010-11 Catalog lists the basic SAP standards and addresses the student appeal process, there were limited internal administrative policies or procedures on the application of SAP standards for institution staff to utilize during the appeal process, and there were no specific policies or procedures for requiring students to re-establish their SAP status and Title IV HEOA eligibility.

For 11 of 30 students tested, we noted exceptions to Federal regulations and the application of the institution's policies related to continued eligibility despite the students' failure to meet SAP standards, as follows:

➤ The 11 students failed SAP standards, were notified that their Title IV HEOA aid would be discontinued for the 2010-11 award year, appealed the determination, and their appeals were subsequently approved; however, contrary to Federal requirements, the students did not always document

special circumstances in support of their appeal, and institution staff evaluated appeals by looking only for evidence of academic progress instead of applying all elements of the Federal SAP standards. Typically, institution staff determined the number of hours earned and remaining in the student's current Program of Study (POS) as evidence of academic progress. However, for the 11 students, it was not apparent from institution records that Federal SAP standards were appropriately applied and used as the basis for granting SAP appeals. For example:

- One student's appeal stated "Spotty problems all year related to my health and family situation;" however, institution records did not include documentation supporting this statement. This student attended one prior college and had six consecutive years of SAP failures approved at this institution. When the 2010-11 award year appeal was approved in June 2010, this student was enrolled in a 72-hour program and had attempted 115 hours, which was greater than 150 percent of attempted hours (108) allowed for the program. Also, the student had earned only 63.7 percent of credit hours attempted, which is below the required 67 percent. The student subsequently received \$7,732 in Title IV HEOA aid during the 2010-11 award year and received over \$60,700 in Title IV HEOA aid from this institution through the 2011 Spring term.
- Another student's appeal stated "I have...to go through financial aid petitions seems like every year and all documents have been provided and approved". When asked by institution staff to specify particular semester(s) in which there were problems, the student stated "None see attachment for reasoning;" however, institution records did not include documentation indicating the particular semesters. This student attended two prior colleges, cited problems dating back to 1991 to 2004, prior to the student's 2005-06 award year enrollment at this institution and had six consecutive years of approved SAP failures. This student had attempted 196 hours, which was greater than 150 percent of attempted hours (90) allowed for the 60-hour Associates of Arts degree earned in the 2008-09 award year. When the 2010-11 award year appeal was approved in June 2010, this student had begun work toward a 120-hour degree and had earned only 57.5 percent (less than the required 67 percent) of 238 attempted hours, which is greater than the 180 attempted hours allowed for a 120-hour program to meet SAP standards and remain eligible for Title IV HEOA aid. Twice in the past this student failed to meet criteria set as a condition of approved appeals: however, the student's Title IV HEOA aid was not cancelled. The student received \$14,686 in Title IV HEOA aid during the 2010-11 award year, and received a total of over \$55,000 in such aid from this institution through the 2011 Spring term.

Academic Deans and their staff at the institution's various campuses were responsible for making autonomous SAP appeal determinations and approvals and, as noted above, these determinations were not always based on all elements of the Federal SAP standards. This decentralized process did not give any institution financial aid administrator direct responsibility for administering and coordinating all aspects of the Title IV HEOA aid programs; overall, the institution's SAP policies and procedures were not adequate; and the appeal process did not establish adequate checks and balances in its system of internal controls.

In the absence of proper administrative oversight, adequate internal SAP policies and procedures, and adherence to Federal SAP regulations, ineligible students may receive Title IV HEOA aid.

Cause

Effect

Recommendation

The institution should strengthen its SAP policies and procedures to ensure Federal regulations and guidelines are adhered to for SAP evaluations and appeal determinations, to include requiring, obtaining, and maintaining documentation for eligible events; and ensure that the Director of Student Financial Aid, or appropriate delegate, has adequate oversight authority for SAP determinations and appeal determinations. The institution should also review SAP for all recipients of Title IV HEOA funds for the 2010-11 award year to determine if other ineligible students received Title IV HEOA aid and return funds, including the Title IV HEOA funds noted above for the 11 students, as applicable, to the appropriate Federal programs.

FSCJ Response and Corrective Action Plan

- a. The College did strengthen its policies and procedures for SAP effective July 1, 2011, and effective Feb. 1, 2010 the new position description for Director of Financial Aid has had oversight responsibility for SAP determinations and appeals. It was because of this oversight responsibility that the College implemented stronger policies and procedures for federal financial aid.
- b. The College will review SAP for all recipients of 2010-11 Title IV federal aid and return funds as applicable to the appropriate federal programs.

Noncompliance and Significant Deficiency

Report No. 2011-167, Finding No. FA 10-088

Finding

The institution's procedures were not adequate to ensure consistent application of its published Satisfactory Academic Progress (SAP) policies to all students, which may have resulted in students receiving Title IV Higher Education Opportunity Act (HEOA) funds for which they were not eligible.

Criteria

34 CFR 668.32(f), Student Eligibility – General

Condition

In our report No. 2011-167, finding No. FA 10-088, we noted that the institution did not have adequate procedures to consistently apply SAP requirements to all students and to also maintain required documentation for granted appeals, and we identified \$47,308.80 in questioned costs. During our current audit, we were advised by institution personnel that the institution was revising its procedures manual and college catalog, but the revisions were not completed by June 30, 2011, as noted in their response to the 2010-11 fiscal year's Summary Schedule of Prior Audit Findings. As such, there is an increased risk that the SAP policies were not consistently applied during the 2010-11 fiscal year, resulting in students receiving Title IV HEOA funds for which they were not eligible. The institution is currently working with USED to return the required funds to applicable Federal programs and lenders and is waiting for USED's final determination.

Cause

The institution's procedures were not adequate to ensure consistent application of the institution's SAP policies.

Effect

By not consistently applying institution SAP policies, the institution may award Title IV HEOA funds to ineligible students.

Recommendation

The institution should complete resolution with USED and revise its procedures for monitoring SAP to ensure that only students meeting the institution's SAP policies receive Title IV HEOA funds.

NWFSC Response and Corrective Action Plan

The college submitted documentation to USED for final determination on June 29, 2011, and is still waiting for a final determination.

- 1) The 2010-11 Catalog (web version) was revised in January 2011.
- 2) The 2011-12 Catalog was updated prior to going to press in January 2011.
- 3) The Office of Financial Aid Procedures Manual Section 2 Standards of Academic Progress was revised.
- 4) The letters to the student already were in compliance.
- 5) The College web site was in compliance both for the 2010-11 and 2011-12 academic year.

All four items (catalog, procedures, web site, letters) now have the same operating procedures for SAP.

Compliance Requirement

National Science and Mathematics Access to Retain Talent Grants (SMART) Reporting – Special Reports: Fiscal Operations Report and Application to

Participate (FISAP)

State Educational Entity

Florida State University (FSU)

Finding Type

Noncompliance

Finding The 2009-10 fiscal year FISAP Edit report did not always accurately disclose the

FWS JLD Program matching fund amount, and the PELL, ACG, and SMART expenditure amounts, in compliance with the United States Department of Education (USED) FISAP Instructions, Parts II and V. The Edit report was due by December 15, 2010, and should have included any adjusted amounts for year-end activity that may have occurred after the initial FISAP was submitted.

Criteria 34 CFR 675.19, Fiscal Procedures and Records and 675.33, Allowable Costs

Instructions accompanying the FISAP report

Condition

The institution incorrectly reported the 2009-10 award year's JLD Program matching funds amount on the FISAP Edit report. Further review revealed that the institution, in fact, did not meet the 20 percent matching requirement. Of the \$63,283.77 in total expenditures during the 2009-10 fiscal year, the institution should have provided \$12,656.75 in matching funds. The match amount reported on the FISAP Edit report was \$17,275; however, accounting records did not show any matching funds actually provided. In addition, the institution underreported the 2009-10 award year PELL, ACG, and SMART expenditures by \$2,809,516.91 on the FISAP Edit report submitted in November 2010.

Cause

The institution had a position vacancy in the JLD Program that resulted in a shortfall in the usual expenditure level for the Program. In addition, the institution submitted its FISAP Edit report based on information prior to ensuring that the PELL, ACG, and SMART expenditure amounts reported had been updated as required in the USED FISAP Instructions, Part II, and these errors were due to incorrectly including 2008-09 award year adjustments, and not including all 2009-10 award year adjustments to G5 (USED's grants management system) after submission of the initial FISAP report in September 2010.

Effect

USED uses the information provided in the FISAP to determine the amount of funds the institution will receive for Title IV Higher Education Opportunity Act programs. If the institution does not provide USED with accurate information, the institution may receive more, or less, funds than it is entitled to.

Recommendation

The institution should ensure that the information provided on the FISAP Edit report is updated and accurate, and that all matching requirements are met.

FSU Response and Corrective Action Plan

To help ensure that the FISAP report accurately reflects the appropriate award year transactions and subsequent adjustments, we have enhanced the preparation process to include an additional level of review. In addition, to help ensure appropriate matching requirements are met, we will fund and review matching requirements more frequently.

Federal Pell Grant Program (PELL)

Compliance Requirement Special

Special Tests and Provisions - Disbursements - Common Origination and

Disbursement (COD) System

State Educational Entity

University of Florida (UF)

Finding Type

Noncompliance

Finding

The PELL disbursement date in the institution's records did not always agree with the United States Department of Education's (USED) COD system's disbursement date, contrary to USED regulations and technical references.

Criteria

34 CFR 690.83, Submission of Reports

COD Technical Reference

Condition

The USED COD system is a streamlined method for processing, storing, and reconciling Federal PELL Grant financial aid information. The COD Technical Reference defines the disbursement date as the date cash was credited to the student's account or paid to the student directly.

Our test of 25 recipients of Title IV Higher Education Opportunity Act funds included 4 students who received PELL grants totaling \$8,325.50 for both the Summer A and B terms. The institution reported that all cash was disbursed to these 4 recipients during the Summer A term even though \$2,775.50 of the disbursements occurred during the Summer B term. Consequently, the students' Summer A term disbursement amounts in the COD system were overstated, and since no disbursement information was reported for the Summer B term, disbursement amounts for the Summer B term were understated in the COD system. Actual disbursements for these 4 students in the Summer B term were made from 8 to 46 days after the partial disbursements were reported in the Summer A term.

Cause

For students who attended both Summer A and B terms, the institution incorrectly recorded in the COD system the students' entire Summer term disbursement amount at the beginning of the Summer A term instead of the actual Summer A term disbursement amounts and the Summer B term disbursement dates and amounts when they actually occurred.

Effect

The level of PELL authorization for an institution is affected by the accuracy with which the PELL information is reported in the COD system.

Recommendation

The institution should revise its procedures to ensure that information provided to USED through the COD system is accurate.

UF Response and Corrective Action Plan

The University of Florida (UF) Office for Student Financial Affairs (SFA) agrees with the Auditor General that Pell disbursement dates in its records did not always agree with the United States Department of Education's (USED) Common Originations and Disbursements (COD) systems disbursement date.

SFA has reviewed 34 CFR 690.83 referenced in the finding, and can find no language that mandates that the Pell disbursement reported in COD must reflect the actual disbursement date. The field auditor also provided documentation from USED officials that stated "So even though there may not be a regulation saying that the actual date must be changed if it ends up being different from the anticipated date, the regulations and operational instructions support that the actual disbursement date as reported to COD should be the actual date the student received the aid."

Based on SFA's review of the cited regulation and the supporting comments from USED officials, UF does not believe it has performed contrary to USED regulations. SFA does acknowledge that the regulations support the disbursement date be the same date the student received the aid.

SFA will revise current procedures to ensure that information provided to USED through the COD system reflects the date the aid was disbursed.

Compliance Requirement State Educational Entity Finding Type

College of Central Florida (CCF) Noncompliance and Significant Deficiency

Finding The institution did not always document the required notification to FDSL

student or parent loan borrowers within 30 days before or 7 days after crediting a student's account with FDSL funds (7 days after if passive confirmation or

30 days after if affirmative confirmation).

Criteria 34 CFR 668.165(a)(2-3), Notices and Authorizations

Condition During the Fall 2010 term and the Spring 2011 term, 7,410 students received

FDSL funds and the institution did not provide documentation that these students had received the required notification in writing of: (1) the date and amount of the disbursement; (2) the recipient's right to cancel all or a portion of the loan or the disbursement; and (3) the procedure and time by which the recipient must notify the institution that he or she wishes to cancel the loan or

disbursement.

Cause The institution relied on processes that did not satisfy the required notification

> Although award requirements due to misinterpreting the requirements. notifications indicated a Web site to review, the institution maintained no

support that the notifications were made.

Effect Because incurring a loan obligation is a serious responsibility, an FDSL loan

borrower must be given the opportunity to cancel the loan at, or close to, the time the funds are actually disbursed and the debt incurred. notification of the rights to cancel a loan, there is an increased risk that a

borrower may incur unnecessary debt.

Recommendation The institution should continue its efforts to enhance procedures to ensure that

FDSL student or parent loan borrowers receive the required notification electronically, or in writing, no earlier than 30 days before and no later than 7 days after crediting a student or parent's account with FDSL funds (7 days

after if passive confirmation or 30 days after if affirmative confirmation).

Finding

Polk State College (PSC)

Finding Type

Noncompliance and Significant Deficiency

The institution did not always document the required notification to FDSL student or parent loan borrowers within 30 days before or 7 days after crediting a student's account with FDSL funds (7 days after if passive confirmation or

30 days after if affirmative confirmation).

Criteria 34 CFR 668.165, Notices and Authorizations

Condition During the Fall 2010 term and the Spring 2011 term, 297 students received

FDSL funds and the institution did not provide documentation that these students had received the required notification in writing of (1) the date and amount of the disbursement; (2) the recipient's right to cancel all or a portion of the loan or the disbursement; and (3) the procedure and time by which the recipient must notify the institution that he or she wishes to cancel the loan or disbursement. In September 2011, subsequent to audit inquiry, the institution implemented procedures to notify FDSL student or parent loan borrowers of their rights to

cancel all or portion of Federal Direct Loans.

Cause The institution relied on the Federal Student Aid Master Promissory Note to

> satisfy the required notification in writing; however, the institution did not ensure that the required notifications were being made and met the time requirements.

Effect Because incurring a loan obligation is a serious responsibility, an FDSL loan

borrower must be given the opportunity to cancel the loan at, or close to, the time the funds are actually disbursed, and the debt incurred. Without notification of the rights to cancel a loan, there is an increased risk that a borrower may incur

unnecessary debt.

The institution should continue its efforts to enhance procedures to ensure that Recommendation

FDSL student or parent loan borrowers receive the required notification electronically, or in writing, no earlier than 30 days before and no later than 7 days after crediting a student or parent's account with FDSL funds (7 days after

if passive confirmation or 30 days after if affirmative confirmation).

PSC Response and The College implemented procedures in September 2011 to notify FDSL student **Corrective Action Plan** or parent loan borrowers of their rights to cancel all or portion of Federal Direct

Loans. The College will ensure that future notifications are sent out on a timely

basis to student or parent loan borrowers.

Noncompliance

Finding The institution did not always document the required notification to FDSL student

or parent loan borrowers within 30 days before or after crediting a student's

account with FDSL funds.

Criteria 34 CFR 668.165, Notices and Authorizations

Condition For 25 students tested, 15 received FDSL funds in the Fall 2010 term. Our test

disclosed that the institution did not document that the 15 students had received the required notification in writing of (1) the date and amount of the disbursement; (2) the recipient's right to cancel all or a portion of the loan or the disbursement; and (3) the procedure and time by which the recipient must notify

the institution that he or she wishes to cancel the loan or disbursement.

Cause Due to staff turnover in Fall 2010, the Fall 2010 term FDSL loan notifications

were not performed due to oversight. In February 2011, the institution implemented processes for the Spring 2011 term to identify and notify FDSL

student or parent loan borrowers within the required timeframes.

Effect Because incurring a loan obligation is a serious responsibility, an FDSL loan

borrower must be given the opportunity to cancel the loan at, or close to, the time the funds are actually disbursed, and the debt incurred. Without notification of the rights to cancel a loan, there is an increased risk that a borrower may incur

unnecessary debt.

Recommendation The institution should continue its efforts to enhance procedures to ensure that

FDSL student or parent loan borrowers receive the required notification electronically, or in writing, no earlier than 30 days before and no later than

30 days after crediting a student or parent's account with FDSL funds.

SCF Response and Corrective Action Plan

The institution implemented processes to notify student borrowers within the

required timeframe.

Special Tests and Provisions - Disbursements - National Student Loan Data

System (NSLDS) - Mid-Year Transfer Monitoring

State Educational Entity

Noncompliance

Finding Type

Finding

The institution was not able to provide support for notification to NSLDS of

mid-year transfer students.

Miami Dade College (MDC)

Criteria 34 CFR 668.19(b), Financial Aid History

> The institution is required to inform NSLDS of mid-year transfer students, including those students for whom the institution accesses NSLDS directly, so NSLDS can continue monitoring the student for any subsequent relevant changes. The institution may inform NSLDS about a student at any time it determines that a student may be transferring to the school and seeking Title IV Higher Education Opportunity Act (HEOA) aid, but it must do so prior to

disbursing any Title IV HEOA aid to the student.

Condition The institution did not provide notification of transfers to NSLDS for 18 of

25 students tested that transferred to the institution mid-year and received Title

IV Higher Education Opportunity Act (HEOA) funds.

The institution indicated that the student records were not identified as a result of Cause

a system failure in which the programmed queries were not properly set to

identify the mid-year transfer students.

Effect When NSLDS is not informed of mid-year transfers, students may receive Title IV

HEOA funds for which they are not eligible. This would occur when students received Title IV HEOA funds from a prior institution that the second institution had no knowledge of. Further, by providing information to NSLDS of mid-year transfer students, the institution allows NSLDS to monitor and inform the institution of any subsequent relevant changes in a student's financial aid history

before and after making a disbursement at the second institution.

Recommendation The institution should improve system program queries to ensure mid-year transfer students receiving Title IV HEOA funds are identified by the system and

timely reported to NSLDS.

MDC Response and **Corrective Action Plan** A previously developed production report that identifies such students has been converted to run properly in the present Linux environment and is now reporting accurately and timely. It should also be noted that, in addition to the noted reports modification, the College continues to closely monitor the Multiple Reporting Records (MRR) reports provided by the Department of Education, and through this secondary control, amounts noted in the audit sample did not include

any overpayments.

Special Tests and Provisions - Student Status Changes - Exit Counseling

College of Central Florida (CCF)

Finding Type Noncompliance

Finding The institution did not always timely (within 30 days) provide exit counseling

materials for FDSL student loan borrowers who graduated, withdrew, or ceased

to be enrolled at least half-time.

34 CFR 685.304(b), Counseling Borrowers, Exit Counseling Criteria

Condition Our test and review of the institution's procedures for providing exit counseling

materials to 22 students who received FDSL loans during the audit period disclosed that exit counseling materials were not mailed until February 24, 2011, (46 days late) for 11 students who ceased at least half-time enrollment during the Fall 2010 term, and exit counseling materials were not mailed until July 27, 2011 (52 days late), for 2 students who ceased at least half-time

enrollment during the Spring 2011 term.

The institution did not have adequate procedures to ensure that FDSL student Cause

loan borrowers who ceased to be enrolled at least half-time were timely provided

exit counseling materials.

Effect When exit counseling information is not provided timely, FDSL student loan

borrowers may not be aware of their loan repayment obligations, and the National Student Loan Database System may not be timely updated with important personal and contact information, thereby not timely starting the grace period for repayment of those student loans, which could lead to an increased

default rate for the institution.

Recommendation The institution should enhance its procedures to ensure that exit counseling is

performed, or exit counseling materials provided, within 30 days of an FDSL

student loan borrower ceasing at least half-time enrollment.

CCF Response and

The college will enhance its' procedures to ensure that exit counseling is **Corrective Action Plan** performed or materials provided within the required time designated by the

regulations.

State College of Florida, Manatee-Sarasota (SCF)

Noncompliance

Finding

Finding Type

The institution did not always timely (within 30 days) provide exit counseling materials for FDSL student loan borrowers who graduated, withdrew, or ceased to be enrolled at least half-time.

Criteria

34 CFR 685.304(b), Counseling Borrowers, Exit Counseling

Condition

For 25 students tested, 15 received FDSL loans during the audit period. Our test and review of the institution's procedures for providing exit counseling materials disclosed the following:

- For 6 of the 15 students tested, the institution did not document that exit counseling materials were provided for the Fall 2010 term within 30 days of when the FDSL student loan borrowers withdrew or otherwise ceased to be enrolled at least half-time.
- For 4 of the 15 students tested who withdrew or otherwise ceased to be enrolled at least half-time during the Spring 2011 term, exit counseling materials were provided 47 to 73 days late.

Cause

Institution staff indicated they could not document that exit counseling materials were provided within the appropriate timeframes for the Fall 2010 term. An effort was made to identify students who withdrew, graduated, or dropped to part-time status with an email notification posted to their institution student user account; however, notifications were not documented in a retrievable format. institution implemented processes for the spring semester to identify and notify students within the required timeframes; however, this process was not implemented until May 2011.

Effect

When exit counseling information is not provided timely, FDSL student loan borrowers may not be aware of their loan repayment obligations, and the National Student Loan Database System may not be timely updated with important personal and contact information, thereby not timely starting the grace period for repayment of those student loans, which could lead to an increased default rate for the institution.

Recommendation

The institution should enhance its procedures to ensure that exit counseling materials are provided within 30 days of an FDSL student loan borrower ceasing at least half-time enrollment.

SCF Response and **Corrective Action Plan** The institution implemented electronic processes to identify students who drop to less than half-time status or withdraw so that exit counseling notifications can be forwarded in the appropriate timeframe.

materials for FDSL and FPL student loan borrowers who graduated, withdrew, or

ceased to be enrolled at least half-time.

Criteria 34 CFR 674.42(b), Contact with the Borrower – Exit Counseling and 685.304(b),

Counseling Borrowers, Exit Counseling

Condition For 2 of the 25 students tested, the institution did not provide exit counseling

materials within 30 days of when the FDSL student loan borrowers ceased to be enrolled at least half-time during the 2010-11 fiscal year. Both of these students were academically dismissed after the Spring 2011 term. Subsequent to audit inquiry, 44 days late, exit counseling materials were provided to the 2 students noted. Further testing revealed that 373 students (359 received FDSL loans, 13 received FDSL and FPL loans, and 1 only received an FPL loan) dismissed for the Spring 2011 term had not been provided exit counseling materials as of

August 10, 2011.

Cause Due to not realizing the impact of waiting for summer term to be over, the

> institution's computerized reporting system, which identifies students requiring exit counseling, was not programmed to identify Spring term dismissed students

until after the subsequent Fall term drop and add deadline.

Effect When exit counseling information is not provided timely, FDSL and FPL student

loan borrowers may not be aware of their loan repayment obligations, and the National Student Loan Database System may not be timely updated with important personal and contact information, thereby not timely starting the grace

period for repayment of those student loans.

Recommendation The institution should review and enhance its procedures to ensure that all FDSL

> and FPL student loan borrowers that require exit counseling are identified and that exit counseling materials are provided within 30 days of student loan

borrowers ceasing at least half-time enrollment.

FSU Response and Corrective Action Plan Effective December 2011, the University implemented program changes to include academically dismissed students in reports utilized to transmit exit

counseling materials.

Compliance Requirement

Special Tests and Provisions – Return of Title IV Higher Education Opportunity

Act (HEOA) Funds – Nonattendance

State Educational Entity Finding Type

University of South Florida (USF) Noncompliance and Significant Deficiency

Questioned Costs - \$590 (\$534 PELL; \$56 FDSL unsubsidized)

Finding

The institution did not always document attendance in at least one class for students who received Title IV HEOA funds and return applicable Title IV HEOA

funds to the Federal programs.

Criteria

34 CFR 668.21 and 685.303, Treatment of Federal Perkins, FSEOG, Federal Pell Grant, ACG, and National SMART Program Funds if Recipient Withdraws, Drops Out, or is Expelled Before His or Her First Day of Class and Processing

Loan Proceeds

Condition

For 4 of 13 students tested that received Title IV HEOA funds during the Fall 2010 term, the institution did not document attendance in at least one class. Absent documentation evidencing that the student attended at least one class, the students were not eligible for Title IV HEOA funds totaling \$590 (\$534 PELL:

\$56 FDSL unsubsidized).

Cause

The institution relied on the instructors' timely and accurate input of the class roster indicating undergraduate students who should be dropped for failure to comply with the mandatory first class meeting attendance policy. Additionally, graduate courses were generally exempt from this policy. The policy did not require faculty to submit a roster if there were no students to be dropped from the class. The institution presumed there were no students that should be dropped if the faculty member did not submit a roster. Disbursements were not made to those students reported as not attending by the faculty; however, if the faculty failed to report a student's nonattendance, then funds were disbursed without evidence that the student attended. Although these students were subsequently determined to be unofficial withdrawals at the end of the term and a portion of the Title IV HEOA funds disbursed was returned to the FDSL program, the institution should not have disbursed any Title IV HEOA funds during the term due to nonattendance. The amounts of Title IV HEOA aid questioned are net of the already returned Title IV HEOA funds from the unofficial withdrawal calculations.

Effect

The institution retained unearned Title IV HEOA funds that should have been returned to the applicable Federal programs.

Recommendation

The institution should enhance its procedures to ensure the accurate and timely calculation and return of unearned Title IV HEOA funds to the applicable Federal programs when unable to document attendance in at least one class and return \$590 (\$534 PELL; \$56 FDSL unsubsidized) to the applicable Federal programs. The institution should also perform a complete review of students' attendance to determine if additional returns of Title IV HEOA funds are required and, if so, remit the funds to the applicable Title IV HEOA programs.

USF Response and **Corrective Action Plan** The University of South Florida has an attendance policy that requires faculty to take attendance each semester at the first class meeting and additionally to report the last date of class attendance for students that unofficially withdraw. In response to the findings in the FY 11 A-133 audit, the University will now require all undergraduate and graduate instructors to report first class meeting

> attendance by the end of late registration & drop add (i.e. the first week) of the semester. These actions will be undertaken to ensure stricter compliance with

the attendance policy and financial regulations.

Compliance Requirement

Special Tests and Provisions – Return of Title IV Higher Education Opportunity

Act (HEOA) Funds - Official Withdrawals

State Educational Entity Finding Type

Florida Agricultural and Mechanical University (FAMU)

Noncompliance and Significant Deficiency

Questioned Costs - \$3,508 (\$624.37 PELL, \$896.05 FDSL subsidized, and

\$1,987.58 FDSL unsubsidized)

Finding

Numerous errors in the identification and processing of the return of Title IV HEOA funds were made by the institution. As a result, not all students requiring returns of Title IV HEOA funds were identified, some calculations were incorrect, and some returns were made for students that did not require a return.

Criteria

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

Condition

Our review of the institution's procedures for determining and returning Title IV HEOA funds to appropriate programs for 15 students who officially withdrew during the Fall 2010 and Spring 2011 terms and received Title IV HEOA funds disclosed the following:

- For 4 of 15 students tested, the institution used the date the withdrawal was approved by an institution official rather than the earlier of the date the student began the withdrawal process, the first date the student or their representative provided notification of their intent to withdrawal, or the date the student ceased attendance because of illness, accident, or other circumstances beyond the student's control.
 - For 1 of the 4 students, an incorrect withdrawal date and other return calculation errors resulted in inaccurate return amounts to the FDSL program (\$896.05 FDSL subsidized underpaid and \$718.67 FDSL unsubsidized overpaid).
 - For the remaining 3 students, the withdrawal dates, although incorrect, did not result in questioned costs.
- ➤ For the 15 students tested, the institution miscalculated the 60 percent point in both the Fall 2010 and Spring 2011 terms. Although incorrect, the error did not result in questioned costs for 11 of the 15 students tested; however, for 4 of the students the miscalculated 60 percent point resulted in the following over/under payments of Title IV HEOA funds:
 - Underpaid \$2,611.95 (\$624.37 PELL and \$1,987.58 FDSL unsubsidized) for 3 students who officially withdrew for the Fall 2010 term.
 - Overpaid \$1,215.87 (FDSL subsidized) for 1 student who was incorrectly identified as not meeting the 60 percent point for the Spring 2011 term, when in fact they had.

Cause

Institution personnel entered inaccurate dates of withdrawal and number of days per term into the automated accounting and records system, which resulted in calculation errors. Inadequate institutional oversight for processing returns, including lack of adequate training and human error, contributed to the errors noted above.

Effect

The institution retained unearned Title IV HEOA funds that should have been returned to the applicable Federal programs and returned other Title IV HEOA funds that should not have been returned.

Recommendation

The institution should enhance procedures to ensure that institutional personnel input accurate withdrawal information, as well as enhance its oversight procedures to ensure the accurate calculation and return of unearned Title IV HEOA funds to applicable Federal programs. The institution should return \$3,508 (\$624.37 PELL, \$896.05 FDSL subsidized, and \$1,987.58 FDSL unsubsidized) and review the withdrawal dates and academic period total days used for all students who withdrew during the 2010-11 award year to ensure that, if required, improper returns of Title IV HEOA funds are corrected and any funds required are returned to the applicable Federal programs.

FAMU Response and Corrective Action Plan

The University concurs with this finding. To ensure that personnel entered accurate dates of withdrawal and number of days per term into the Student Information System (SIS) - PeopleSoft, the Registrar's Office has revised the business process for entering withdrawal dates into the SIS. Students will be required to provide actual dates when they stopped attending. This date as provided by the student will be the withdrawal date entered in the SIS. The Office of the University Registrar will provide the Office of Financial Aid with the approved term begin and end dates to calculate the accurate number of days per term based on the provisions for the Return of Title IV Higher Education Opportunity Act (HEOA) Funds. The Office of the University Registrar will review the withdrawal dates and academic period total days used for all students who withdrew during the 2011-12 award year to ensure the accurate calculation of the Return of Title IV HEOA Funds. The Registrar's Office will use the new business process when processing term withdrawals for students beginning Spring Semester 2012 to satisfy the requirement (34 C.F.R 668.22) for the treatment of Title IV Funds when a student withdraws.

Questioned Costs - \$1,624.13 (\$758.03 PELL; \$535.14 FDSL subsidized;

\$330.96 FDSL unsubsidized)

Prior Year Finding

Report No. 2011-167, Finding No. FA 10-099

Finding

The institution's procedures were not adequate to ensure the correct use of the withdrawal date of students that officially withdrew. As a result, not all students requiring returns of Title IV HEOA funds were identified and calculations may have been incorrect.

Criteria

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

Condition

For 3 of 25 students tested, returns were not timely returned to the applicable Federal programs due to computer programming errors and incorrect identification of a student's nonattendance in one of the two mini sessions initially enrolled. Subsequent to our inquiry, Title IV HEOA funds totaling \$1,624.13 (\$758.03 PELL; \$535.14 FDSL subsidized; \$330.96 FDSL unsubsidized) were returned to the Federal programs 79, 83, and 126 days late.

Cause

For two of the students noted that withdrew from either the course or its corresponding lab, but not both, the computer system did not withdraw the students from the corresponding course or lab, making it appear the students were still enrolled, when in fact they were not. The third student withdrew from all classes during the traditional Spring term but the student had also been enrolled in a mini session (Term B) that started later than the traditional Spring term. Ultimately, the student did not attend Term B, and the instructor dropped the student for nonattendance. However, the student was not identified as a student who withdrew for the term, which resulted in the return to Title IV HEOA funds not being performed until subsequent to our inquiry.

Effect

The institution may have retained additional unearned Title IV HEOA funds that should be returned to the applicable Federal programs.

Recommendation

The institution should enhance procedures to ensure that institution personnel input accurate withdrawal information, as well as enhance its oversight procedures to ensure the timely return of unearned Title IV HEOA funds to applicable Federal programs. The institution should correct the programming, as applicable, for corresponding lab classes and review all students who withdrew from all classes, including corresponding labs, during the 2010-11 award year to ensure that, if required, returns of Title IV HEOA funds are corrected, and return any additional funds required to be returned to the applicable Federal programs.

DSC Response and Corrective Action Plan

Regarding official withdrawals: While the College concurs with the findings, the College does not agree that it does not have adequate procedures to ensure the correct use of the withdrawal date for students who withdraw from all classes. The anomaly that allowed two students to withdraw from either a class and/or its corresponding lab is not a procedure issue, but a technical anomaly and is being diagnosed by the IT department and will be remedied. The other student cited was correctly identified by the system. The omission of the title IV refund was not procedural.

Report No. 2011-167, Finding No. FA 10-102

Finding

The institution's procedures were not adequate to ensure the correct use of the withdrawal date of students that officially withdrew. As a result, not all students requiring returns of Title IV HEOA funds may have been identified and calculations may have been incorrect.

Criteria

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

Condition

In our report No. 2011-167, finding No. FA 10-102, we noted that the institution did not have adequate procedures to correctly calculate return of Title IV HEOA funds for official withdrawals, and we identified \$3,038.69 in questioned costs. The institution returned the funds to USED on November 12, 2010. During our current audit, we were advised by institution personnel that the institution was revising its procedures, but the new procedures were not completely implemented by June 30, 2011, as noted in their response on the 2010-11 fiscal year's Summary Schedule of Prior Audit Findings. As such, there is an increased risk that unsupported or incorrect changes to withdrawal dates occurred during the 2010-11 fiscal year that caused the institution to retain unearned Title IV HEOA funds. The institution is currently working with USED to determine whether any additional questioned costs need to be returned to Federal programs and is waiting for USED's final determination.

Cause

The institution's procedures were not adequate to ensure correct use of withdrawal dates of students that officially withdrew.

Effect

The institution may have retained additional unearned Title IV HEOA funds that should be returned to the applicable Federal programs.

Recommendation

The institution should complete resolution with USED to enhance procedures to ensure that institution personnel input accurate withdrawal dates so that it can perform return of Title IV HEOA funds calculations correctly and document and maintain support for all adjustments to information used in calculating such returns. Once determined, any additional returns of Title IV HEOA funds should be made according to USED instructions.

NWFSC Response and Corrective Action Plan

The college submitted documentation to USED for final determination on June 29, 2011, and is still waiting for a final determination.

The college returned funds identified as questionable costs in October 2010. Return to Title IV spreadsheets were resubmitted to USED and the college is waiting to hear back on the findings from the 2009-2010 audit.

The Office of Enrollment Services/College Registrar continues to work with the Instructional Affairs area to review and strengthen withdrawal procedures to establish consistency in the application of the exact withdrawal date (instructor's dates reported, routing of administrative drop requests, etc.).

Report No. 2011-167, Finding No. FA 10-105

Finding

The institution's procedures were not adequate for determining the correct withdrawal date and calculating and returning Title IV HEOA funds to applicable Federal programs for students who officially withdrew.

Criteria

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

Condition

Our review of the institution's procedures for determining and returning Title IV HEOA funds to applicable Federal programs disclosed the following for 8 of 10 students tested:

- For 3 of 5 students tested who officially withdrew from the institution during the Fall 2010 term and received Title IV HEOA funds, the institution returned PELL funds totaling \$2,379.01 from 208 and 216 days late. Also, one of the three returns was miscalculated because the institution used an incorrect date of withdrawal and overpaid \$293.05 to the PELL grant program.
- For all 5 students tested who officially withdrew from the institution during the Spring 2011 term and received Title IV HEOA funds, the institution used an incorrect number of total days in the term and as a result, all Spring term returns were miscalculated. The five returns we noted were overpaid by a total of \$390.19 to the PELL grant program, and one of the five returns noted was miscalculated because the institution also used an incorrect date of withdrawal.

Cause

Institution staff indicated that the late returns were primarily the result of understaffing and staff turnover of key personnel.

Effect

When returns are late, the institution retains unearned Title IV HEOA funds that should be returned to the applicable Federal programs. Also, due to the incorrect number of days used in the Spring 2011 calculations, the institution overpaid Title IV HEOA programs and may have charged students when in fact the students did not owe the amounts charged.

Recommendation

The institution should enhance its procedures to ensure the timely and accurate return of unearned Title IV HEOA funds to applicable Federal programs for students that officially withdraw.

PSC Response and Corrective Action Plan

The College enhanced its procedures to ensure the timely and accurate return of unearned Title IV HEOA funds to applicable Federal programs. For the Fall 2010 term overpayment of \$293.05 relating to the incorrect date of withdrawal, the College adjusted the student's account on December 15, 2011. For the Spring 2011 term overpayment of \$390.19, the College reviewed all students who withdrew from the College using 112 number of total days (rather than 115 number of total days that were initially used) and adjusted the students accounts to reflect calculations based on the correct number of total days.

Report No. 2011-167, Finding No. FA 10-101

Prior Year Finding

Finding

Improvements were needed over the institution's procedures for determining and timely returning Title IV HEOA funds to the applicable Federal programs for students who received Title IV HEOA funds and received all failing, incomplete, and withdraw grades and did not attend past the 60 percent point in the academic period. Also, the institution's procedures were not adequate to ensure the correct use of the withdrawal date of students that unofficially withdrew. As a result, not all students requiring returns of Title IV HEOA funds were identified and calculations may have been incorrect due to incorrect total number of days used in the Spring 2011 term calculations.

Criteria

Condition

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

We tested 25 withdrawn students (12 official and 13 unofficial withdrawals) during the Fall 2010 and Spring 2011 terms who received Title IV HEOA funds. Our review of the institution's procedures for determining and returning Title IV HEOA funds to applicable Federal programs disclosed the following for four official withdrawals and three unofficial withdrawals:

Official Withdrawals:

- For two students who officially withdrew during the Spring 2011 term, returns of Title IV HEOA funds were not calculated correctly.
 - For one student, the return of Title IV HEOA funds was miscalculated, resulting in an underpayment of \$71.81 to PELL. Subsequent to audit inquiry, the funds were returned on September 22, 2011, 161 days late.
 - For the second student, the institution overpaid PELL \$264.14 due to the institution inadvertently processing the return of Title IV HEOA funds as a post withdrawal disbursement. Subsequent to audit inquiry, the funds were returned to the student's account on September 21, 2011.
 - Also, the institution used an incorrect number of total days in the Spring 2011 term calculations resulting in all Spring 2011 term returns of Title IV HEOA funds being miscalculated, which resulted in de minimus overpayments to the Federal programs.
- For one student who officially withdrew during the Fall 2010 term, the institution returned \$1,388 to PELL, even though the student was not required to return any grant funds. Subsequent to audit inquiry, the \$1,388 was credited back to the student's account on September 22, 2011.
- ➤ For one student tested who officially withdrew during the Spring 2011 term, the institution did not timely return funds totaling \$764.86 to FDSL unsubsidized. Funds were returned 28 days late.

Unofficial Withdrawals:

For one student who unofficially withdrew, the return of Title IV HEOA funds was not calculated correctly resulting in an overpayment of \$653.93 to PELL. Subsequent to audit inquiry, the funds were returned to the student's account on September 26, 2011.

➤ Two other students received an "F" grade in one of their courses, indicating completion of the course with a failing grade. When we requested documentation to support the last date of attendance or attendance in any academically-related activity past the 60 percent point, we were provided documentation that the students did not attend the course past the 60 percent point. A return of Title IV HEOA funds calculation was not performed, although required, and as a result, \$1,830.10 (\$619.29 PELL; \$1,210.81 FDSL subsidized) should have been returned to the Federal programs. Subsequent to audit inquiry, the funds were returned on November 23, 2011, 198 and 269 days late.

Cause

The errors noted were the result of oversight and turnover of staff assigned to processing returns of Title IV HEOA funds. Also, the institution deemed a grade of "F" as an earned grade, without requiring documentation to verify the "F" is supported by actual attendance.

Effect

The institution retained unearned Title IV HEOA funds that should have been returned to applicable Federal programs.

Recommendation

The institution should enhance its procedures to ensure the accurate and timely identification, calculation, and return of unearned Title IV HEOA funds to the applicable Federal programs.

HCC Response and Corrective Action Plan

Based upon findings, the College's Financial Aid Office has significantly revised, updated, corrected and amended its internal Return of Title IV procedures. All Financial Aid staff who assist in any and all phases of Return of Title IV funds process have received training on the updated procedures. This should ensure the accurate and timely identification, calculation, and return of unearned Title IV HEOA funds to the applicable Federal programs.

Noncompliance and Significant Deficiency

Questioned Costs - \$9,597.02 (\$1,716.83 PELL, \$948 FDSL subsidized, and

\$6,932.19 FDSL unsubsidized)

Finding

Improvements were needed over the institution's procedures for determining and timely returning Title IV HEOA funds to the applicable Federal programs for students who received Title IV HEOA funds and received all failing, incomplete, and withdraw grades and did not attend past the 60 percent point in the academic period.

Criteria

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

Condition

We tested 5 students who unofficially withdrew during the Fall 2010 or Spring 2011 terms and received Title IV HEOA funds. Our review of the institution's procedures for determining and timely returning Title IV HEOA funds to applicable Federal programs disclosed that for all 5 of the students tested, the institution had not identified or timely returned Title IV HEOA funds totaling \$9,597.02 (\$1,716.83 PELL, \$948 FDSL subsidized, and \$6,932.19 FDSL unsubsidized). As a result, we expanded our testing to include the 731 students who had unofficially withdrawn during the Fall 2010 and Spring 2011 terms and had received Title IV HEOA funds.

- 383 of the 731 students had been identified by the institution as unofficial withdrawals during their processing procedures. However, 77 of the 383 students identified as unofficial withdrawals had not had a return of Title IV HEOA funds processed as of July 19, 2011, and it was not apparent why they had not been processed.
- 348 of the 731 students (102 from the Fall 2010 semester and 246 from the Spring 2011 semester) had not been identified by the institution as unofficial withdrawals and it was not apparent why they had not been identified and whether returns of Title IV HEOA funds were due.

Cause

Procedures were not adequate to ensure the identification and timely return of Title IV HEOA funds for all students who received all failing, incomplete, and withdraw grades and did not attend past the 60 percent point in the academic period.

Effect

The institution retained unearned Title IV HEOA funds that should have been returned to the applicable Federal programs.

Recommendation

The institution should enhance procedures to ensure the accurate and timely identification, calculation, and return of unearned Title IV HEOA funds to the applicable Federal programs. The institution should return \$9,597.02 (\$1,716.83 PELL, \$948 FDSL subsidized, and \$6,932.19 FDSL unsubsidized). In addition, the institution should determine whether any of the 348 unidentified and 77 identified unofficially withdrawn students attended past the 60 percent point in the term and return any applicable unearned Title IV HEOA funds.

FAMU Response and Corrective Action Plan

The University concurs with this finding. The University will return the recommended Title IV HEOA funds to the applicable Federal programs. To distinguish between the students who did not officially withdraw and those who earned all failing or incomplete grades, FAMU will create a new grade 'WF'. Instructors will be required to assign the grade "WF" for any student who stopped attending and the University had not acknowledged official withdrawal. Instructors will also endeavor to capture the date they observed the student stopped attending the class. The Office of Financial Aid will use the above information to ensure the identification of students who did not attend past the 60 percent point in the academic period and did not officially withdraw. This corrective action as described above is expected to go into effect Fall Semester 2012. After the new grade has been approved, the Student Information System (iRattler) will be updated and instructors will be advised on the proper use of the grade 'WF' to satisfy the requirement (34 C.F.R 668.22) for the treatment of Title IV Funds when a student withdraws.

Prior Year Finding

Broward College (BrwC)

Noncompliance and Significant Deficiency

Questioned Costs - \$1,813.25 (\$1,286.05 Pell and \$527.20 FDSL unsubsidized)

Report No. 2011-167, Finding No. FA 10-098

Finding

The institution had not implemented adequate procedures to determine, within 30 days after the end of the payment period, whether Title IV HEOA funds were earned for students who ceased attendance without providing official notification to the institution of their withdrawal. As a result, the institution did not timely identify, calculate, and return (within 45 days) unearned Title IV HEOA funds to the applicable Federal programs for students who unofficially withdrew prior to the 60 percent point of the payment period.

Criteria

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

Condition

As similarly noted in our prior audit, for 3 of the 25 students tested who unofficially withdrew and received Title IV HEOA funds during the Fall 2010 term, the institution did not maintain documentation to support that the students attended past the 60 percent point of the payment period. The institution did not timely identify these students and timely return the unearned funds to the applicable Federal programs. Subsequent to audit inquiry, the institution returned \$1,813.25 (\$1,286.05 Pell and \$527.20 FDSL unsubsidized), 279 and 281 days after the end of the payment period.

Cause

The institution relied on faculties' timely and accurate input to a newly developed online attendance system used to identify students who unofficially withdraw. Documentation should be maintained to support the last date of attendance and retained for audit. These records are intended to assist in the timely return of unearned funds to the applicable Federal programs; however, faculty may not be aware of the importance of the information they are required to provide and information may not be timely or adequately supported.

Effect

The institution retained unearned Title IV HEOA funds that should have been returned to applicable Federal programs.

Recommendation

The institution should continue its efforts to enhance procedures to ensure the accurate and timely identification, calculation, and return of unearned Title IV HEOA funds to applicable Federal programs.

BrwC Response and Corrective Action Plan

Broward respects the advice of the Auditor General's office. In fact, BC is conducting annual internal audits each year in progress currently. We are no longer relying on the faculty's LDA recorded in the online system as a sole source of our inquiry. We are asking each campus President to ask faculty to validate that the documentation date aligns with the system date. Once FA receives the collective audit information, R2T4 calculations will be done as required and appropriate to ensure compliance. The College continues to raise awareness of faculty as evidenced by this topic is on the agenda of new faculty institutes, faculty senate and the subject of College-wide emails to faculty. The College continues is efforts to get this information to all stakeholders.

Estimated Corrective Action Date

February 2012 w/audits as indicated previously.

unsubsidized)

Prior Year Finding

Report No. 2011-167, Finding No. FA 10-099

Finding

Improvements are needed over the institution's procedures to document a student's last date of attendance to determine whether a return of Title IV HEOA funds is required for students that received all failing, incomplete, and withdraw grades.

Criteria

34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws

Condition

For 3 of 25 students tested who unofficially withdrew prior to the 60 percent completion point of the payment period, returns of Title IV HEOA funds were not timely performed and \$1,883.06 (\$1,394.92 FDSL subsidized and \$488.14 FDSL unsubsidized) were not returned timely. One of the students enrolled in courses of 15 weeks (full term) and 7.5 weeks (Term B) and did not attend a combined total number of days that would have exceeded the 60 percent completion point of the payment period and a return of Title IV HEOA funds was required but was not performed. Subsequent to our inquiry institution personnel determined the last dates of attendance, 38, 53, and 77 days late, and \$1,394.92 FDSL subsidized was returned 8 and 35 days late, and \$488.14 FDSL unsubsidized was returned 51 days late.

Cause

Last dates of attendance were incorrectly provided by instructors for two of the students. The third student had enrolled in 15-week and 7.5-week terms and ceased attending both terms prior to the 60 percent completion of either term; however, the institution incorrectly determined that the last date of attendance was past the 60 percent point and, prior to our inquiry did not perform a return of Title IV HEOA funds calculation.

Effect

The institution retained unearned Title IV HEOA funds that should have been returned to the applicable Federal programs.

Recommendation

The institution should enhance its procedures to ensure the accurate and timely identification, calculation, and return of unearned Title IV HEOA funds to the applicable Federal programs.

DSC Response and Corrective Action Plan

Regarding unofficial withdrawals: While the College concurs with the findings, the College does not agree that it does not have adequate procedures to ensure the correct use of the withdrawal date for students who cease attending all classes. The College provided additional training sessions to faculty on the definition of unofficial withdrawal and the procedure for the proper use of the system for identification. In addition, the College has created a manual process to calculate when students are enrolled in courses with multiple start dates.

Report No. 2011-167, Finding No. FA 10-105

Finding

Improvements were needed over the institution's procedures for determining and returning Title IV HEOA funds to applicable Federal programs for students who

unofficially withdrew.

Criteria

Condition

34 CFR 688.22. Treatment of Title IV Funds When a Student Withdraws

For 30 students tested who unofficially withdrew and received Title IV HEOA funds during the Fall 2010 and Spring 2011 terms, we noted the following:

- For 7 students, the institution returned PELL funds totaling \$4,546.86, from 15 to 223 days late. In addition, for 1 of the 7 students, a PELL grant overpayment of \$856.28 was determined due and the institution did not timely notify NSLDS and USED of the overpayment or return the funds on the student's behalf, as required.
- > As noted in finding No. FA 11-101, because the institution used an incorrect number of total days in the term, generally Spring 2011 term returns were miscalculated and resulted in de minimus overpayments.

Cause

Institution staff indicated that the late returns were primarily the result of understaffing and staff turnover of key personnel.

Effect

The institution retained unearned Title IV HEOA funds that should have been returned to the applicable Federal program.

Recommendation

The institution should enhance its procedures to ensure the timely and accurate return of unearned Title IV HEOA funds to applicable Federal programs for students that unofficially withdraw.

PSC Response and **Corrective Action Plan** The College enhanced its procedures to ensure the timely and accurate return of unearned Title IV HEOA funds to applicable Federal programs for students that unofficially withdraw. For the PELL grant overpayment of \$856.28, the College reported the overpayment to NSLDS on August 26, 2011. For the Spring 2011 term the College reviewed all students who withdrew from the College using 112 number of total days (rather than 115 number of total days that were initially used) and adjusted the students accounts to reflect calculations based on the correct number of total days.

Estimated Corrective Action Date

Questioned Costs - \$567,22 PELL

Improvements were needed over the institution's procedures for determining the **Finding**

return of Title IV HEOA funds to applicable Federal programs for students who

received HEOA funds and unofficially withdrew.

Criteria 34 CFR 668.22, Treatment of Title IV Funds When a Student Withdraws and

668.22(f)(2)(i), Scheduled Breaks

Condition For 3 of 15 students tested who unofficially withdrew and received Title IV HEOA

funds during the Fall 2010 and Spring 2011 terms and did not attend past 60 percent point of the payment period, the institution did not properly calculate the amount of Title IV HEOA funds to be returned, resulting in a \$567.22 PELL

underpayment to the Federal program.

Cause Institution staff incorrectly used the date when instructors filed the withdrawal

> forms with the Registrar's Office instead of the last date of the student's attendance. Additionally, the institution incorrectly calculated the number of calendar days during the Fall 2010 and Spring 2011 terms because they did not

exclude the correct number of days in a break of five days or more.

Effect The institution retained unearned Title IV HEOA funds that should have been

returned to the applicable Federal program.

Recommendation The institution should enhance its procedures to ensure that institution personnel

> input accurate withdrawal information and exclude the correct number of days when a break is five days or more when calculating a return of Title IV HEOA

> The College will review and revise its procedures related to the calculation of

funds.

SFICC Response and

Student Financial Assistance Cluster (SFA)

Federal Direct Student Loan Program (FDSL)

Compliance Requirement Special Tests and Provisions – Student Status Ch

Special Tests and Provisions – Student Status Changes – National Student Loan

Data System (NSLDS) Roster Files

State Educational Entity Florida State University (FSU)

Finding Type Noncompliance

The institution did not always accurately and timely report enrollment status changes to NSLDS for FDSL student loan borrowers. Unless the institution expects to submit its next roster file (enrollment data) to NSLDS with 60 days, it must notify NSLDS directly within 30 days of discovering that a student who received an FDSL loan ceased to be enrolled on at least a half-time basis.

34 CFR 685.309(b)(2), Administrative and Fiscal Control and Fund Accounting for Schools Participating in the Direct Loan Program – Student Status

Confirmation Reports

For 3 of 25 FDSL student loan borrowers tested who withdrew or otherwise ceased to be enrolled at least half-time during the 2010-11 fiscal year, the institution did not report enrollment status changes to NSLDS timely or accurately. One of the students was an official withdrawal from the Fall 2010 term and two were academically dismissed after the Spring 2011 term. Further testing revealed that 360 dismissed students from the Spring 2011 term were also FDSL student loan borrowers that should have been reported to NSLDS. For the Fall 2010 withdrawn student, NSLDS was notified 10 days late on January 26, 2011, and for the two Spring 2011 students, subsequent to our inquiry, NSLDS was notified on September 1, 2011, 61 days late. During October 2011, the institution completed reporting the additional status changes to

NSLDS for the remaining 358 students from the Spring 2011 term.

The institution uploads data monthly to the National Student Clearinghouse (NSC), and NSC then provides the student loan borrowers' enrollment status change data to NSLDS. The NSC computerized reporting system, which identifies students requiring enrollment status changes to NSLDS, was not programmed to identify Spring term dismissed students until after the subsequent Fall term drop and add period of the term, which resulted in late reporting for two of the three students. For the student that withdrew in Fall 2010 the institution used an incorrect withdrawal date which resulted in the notification to NSLDS being 10 days late. Subsequent to audit inquiry, the institution stated that it will add a file transmission for between-term changes.

When NSLDS is not timely notified with accurate information, NSLDS may not be aware of when an FDSL student loan borrower ceases at least half-time enrollment, thereby not timely starting the grace period for repayment of FDSL student loans, which may result in an increased default rate.

The institution should enhance its procedures to ensure that all enrollment status changes for FDSL student loan borrowers are reported accurately and timely to NSLDS.

FSU provides enrollment files to the National Student Clearinghouse (NSC) on a monthly basis and had every expectation that such a schedule would prevent the late notification noted in this finding. Research conducted during the course of this audit included calls to the Clearinghouse audit support staff to determine the breakdown in the process. The Clearinghouse reported that student withdrawals and dismissals that result in non-enrollment for the subsequent terms are picked

up in the next term's file. In the case of the Fall withdrawal, the incorrect date

Criteria

Finding

Condition

Cause

Effect

Recommendation

FSU Response and Corrective Action Plan

was the result of human error. The importance of these dates and the role they play in the reporting process will be stressed in training with office staff. The two students that were dismissed in Spring were reported in the Summer file submissions. During the conversations with NSC audit staff it came to light that since summer is an optional term, non-enrollment in this term does not automatically update the student status as it does for other terms. Instead, the following Fall file is used to retroactively update the status. FSU was not aware that this was the processing approach taken by the NSC when processing the summer files. At this time the University is working on developing a process to submit a separate file at the end of Spring with any withdrawals or dismissals that can update the Spring enrollment status appropriately. This effort will include working with NSC staff to determine the data submission requirements and timelines for the update.

State Educational Entity Polk State College (PSC)

Finding Type Noncompliance

Finding

The institution did not always accurately and timely report enrollment status

changes to NSLDS for FDSL student loan borrowers. Unless the institution expects to submit its next roster file (enrollment data) to NSLDS within 60 days, it must notify NSLDS directly within 30 days of discovering that a student who received an FDSL loan ceased to be enrolled on at least a half-time basis.

Criteria 34 CFR 685.309(b)(2), Administrative and Fiscal Control and Fund Accounting

for Schools Participating in the Direct Loan Program - Student Status

Confirmation Reports

Condition For 3 of 27 FDSL student loan borrowers who graduated or dropped below

half-time during the 2010-11 award year, the institution reported the enrollment status changes to NSLDS 14 and 82 days late for two students and as of August 31, 2011, 58 days late, the institution continued to report a third student's

status as full-time although the student had graduated.

Cause The institution submitted its roster files to the National Student Clearinghouse

(NSC) and relied on NSC to transmit student status changes to NSLDS for FDSL student loan borrowers; however, the institution did not have monitoring procedures in place to ensure that NSC submitted student status changes to NSLDS timely, and the institution did not monitor the accuracy of the information

submitted.

Effect When NSLDS is not properly notified with accurate information, NSLDS may not

be aware of when an FDSL student loan borrower graduates or otherwise ceases at least half-time enrollment, thereby not timely starting the grace period for repayment of FDSL student loans, which may result in an increased default rate.

Recommendation The institution should enhance its procedures to ensure that all enrollment status

changes for FDSL student loan borrowers are reported accurately and timely to

NSLDS.

PSC Response and The College enhanced its procedures to ensure that all enrollment status changes for FDSL student loan borrowers are reported accurately and timely to

34 CFR 685.309(b)(2), Administrative and Fiscal Control and Fund Accounting Criteria

for Schools Participating in the Direct Loan Program - Student Status

Confirmation Reports

Condition For 16 of the 25 student loan borrowers tested who graduated or otherwise

ceased to be enrolled at least half-time during the 2010-11 fiscal year, the institution did not timely report enrollment status changes to NSLDS. Consequently, as of the September 8, 2011, NSLDS report submission, 126 days (66 days late) from the enrollment status change requiring an update, NSLDS had not been updated for these students and their statuses remained incorrect.

The institution submitted its roster files to the National Student Loan Cause

Clearinghouse (NSC) approximately every two weeks and relied on NSC to transmit student status changes to the NSLDS; however, the institution did not have monitoring procedures in place to ensure NSC timely transmitted status

changes to NSLDS.

Effect When NSLDS is not properly notified with accurate information, NSLDS may not

> be aware of when an FDSL student loan borrower graduates or otherwise ceases at least half-time enrollment, thereby not timely starting the grace period for repayment of FDSL student loans, which may result in an increased default rate.

The institution should enhance its procedures to ensure that all enrollment status Recommendation

changes for FDSL student loan borrowers are reported accurately and timely to

NSLDS.

SSC Response and The College concurs with this finding. Upon discovery of the error within the **Corrective Action Plan** system set-up dealing with enrollment status reporting, specifically graduation

status to the NSC, the College took immediate corrective action to ensure correct system coding for data transmissions. The College will monitor the NSC and

subsequent NSLDS data transmissions.

Compliance Requirement State Educational Entity Finding Type

Eligibility

Santa Fe College (SFeC)

Other - Fraud Disclosure

Finding

As described below, the institution has referred five instances of actual or attempted fraud perpetrated by students to the United States Department of Education (USED) Office of Inspector General (OIG), as well as to the institution's Police Department.

Criteria

34 CFR 668.16(g), Standards of Administrative Capability

Condition

- 1) During the 2010-11 fiscal year, a student submitted a falsified W-2 form on behalf of her parent in hopes of obtaining a PELL grant. However, no Title IV Higher Education Opportunity Act (HEOA) funds were disbursed because institution personnel noticed that the W-2 form did not look right, and confirmed with the mother's employer that it was not correct and did not originate from the mother's employer.
- 2) During the 2010-11 fiscal year, a student obtained \$17,117 in Title IV HEOA funds (\$5,550 PELL, \$6,791 FDSL subsidized, and \$4,776 FDSL unsubsidized) as a result of submitting satisfactory academic progress (SAP) appeal documentation with an altered date. The student later submitted an SAP appeal for the 2011-12 fiscal year, referring back to the prior documents. However, no Title IV HEOA funds were disbursed for the 2011-12 fiscal year because institution personnel noted that the date on the previous documentation had been altered.
- 3) For the 2011-12 award year, three more fraudulent appeals were submitted by students through the date of our fieldwork, September 2011. Two of the appeals involved altered or manufactured notes from doctors' offices, and the third appeal indicated that the student was her mother's caretaker, which contradicted an earlier appeal that indicated there was no contact with the mother. However, no Title IV HEOA funds were awarded or disbursed for these fraudulent appeals for the 2011-12 fiscal year because institution personnel detected these alterations or discrepancies.

Recommendation

The institution should continue to be vigilant and to report any known or suspected instances of fraud involving Title IV HEOA funds to the USED OIG and the institution's Police Department, as applicable.

SFeC Response and Corrective Action Plan

The College will continue to be vigilant in suspected instances of fraud and continue to report all known or suspected instances as required.

Allowable Costs/Cost Principles – Cost Accounting Standards (CAS) Exemptions

Florida Agricultural and Mechanical University (FAMU)

Various

Noncompliance and Significant Deficiency

Finding

The institution's procedures were not adequate to ensure that all CAS exemptions used for R&D grants were properly identified, supported, and determined in accordance with United States Department of Health and Human Services (USDHHS) and Office of Management and Budget (OMB) Circular A-21 guidelines.

Criteria

OMB Circular A-21, Section F.6.b., Departmental Administration Expenses, and Exhibit C, Examples of "Major Project" Where Direct Charging of Administrative or Clerical Staff Salaries May Be Appropriate.

OMB Circular A-21 states that salaries of administrative and clerical staff and items such as office supplies, postage, local telephone costs, and memberships should normally be treated as facilities and administrative (F&A) indirect costs. CAS exemptions are used to charge F&A costs as direct costs. The Circular also provides guidance for "major projects" where direct charging of F&A costs (administrative or clerical staff salaries) may be appropriate.

Condition

The institution has policies and procedures in place to identify F&A costs to be charged as direct costs, which includes a CAS exemption form, filed by the Principal Investigator (PI), to document that the "major project" or "unlike circumstances" criteria as contemplated by OMB Circular A-21 were met. The CAS exemption form required the PI to provide an explanation as to why the project required an extensive amount of administrative or clerical support and goods and services significantly greater than the routine level provided by a department. For example, the institution had not developed a baseline or threshold to apply when determining whether the criteria for "major project" were met. In addition, the institution's policies and procedures required that a CAS indicator be used to identify grants with approved CAS exemption forms; however, records did not always include the CAS exemption indicator when required and, in other instances, the CAS exemption indicator was incorrectly used.

Our review of the institution's accounting records for the 2010-11 fiscal year disclosed 277 R&D grants with approximately \$1.3 million in F&A costs charged as direct costs. Contrary to the institution's policies and procedures, only 12 of the 277 grants had a CAS exemption indicator. The institution provided us a list of 19 R&D grants, with total expenditures of \$1.5 million, that had a CAS exemption indicator and for which F&A costs totaling \$23,879.33 were charged as direct costs for the 2010-11 fiscal year. We tested 2 of the 19 grants and determined for both grants that there was no documentation provided to support this determination other than the CAS exemption forms indicating the grants were "major projects." In response to our inquiry, the institution provided a written explanation of why these grants were considered to be "major projects;" however without a baseline or threshold to compare to, the institution records did not evidence that these grants met the requirements for approved CAS exemptions as contemplated by OMB Circular A-21.

Cause

Effect

Recommendation

FAMU Response and Corrective Action Plan

The institution believes its policies and procedures, including its CAS exemption determinations, which are evaluated on a project-by-project basis, are adequate. However, the results of our tests indicated that the institution's procedures were not adequate to ensure that all CAS exemptions were properly documented and determined in accordance with USDHHS and OMB Circular A-21 guidelines.

CAS exemptions allow for a greater reimbursement of Federal funds than the traditional methods outlined in OMB Circular A-21. Therefore, when the institution's procedures are not adequate to ensure the proper determination of CAS exemptions used to charge costs to Federal grants, there is an increased risk that CAS exemptions claimed will not be in compliance with the USDHHS and OMB Circular A-21 guidelines, which could result in the institution being subject to repayment of unallowable costs.

The institution should enhance its policies and procedures to include the use of a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the "major project" criteria, and to adequately document such determinations. Also, CAS exemption forms and indicators should be used when applicable.

Florida A&M University is enhancing the Cost Accounting Standards (CAS) procedure adhering to the OMB Circular A-21 in determining the direct charging of administrative and clerical salaries and other administrative type expenses to federal grants and to adequately document such determinations. The procedure requires a CAS indicator for all approved CAS exemption forms. The CAS will be entered as an attribute in PeopleSoft (iRattler). In addition, all appropriate personnel (administrators, PIs, and staff) will be provided training on the CAS procedure. The baseline threshold for determining if any research and development (R&D) grant should have a CAS exemption will be developed based on the OMB A-21 guidelines. Specific descriptive characterization of each project with CAS will be prepared and compared to the baseline to determine whether the criteria of OMB A-21 are met.

The Division of Research has reviewed the 277 R&D projects and has found that:

- Of the 277 projects, a total of 138 projects with expenditures in the amount of \$914,908.86 were identified as projects to which Facilities and Administrative (F&A) costs may not apply. We will continue to research use of the CAS exemptions for these types of projects and contact the Department of Health and Human Services to seek further clarification.
- 2. Of the 277 projects, a total of 130 projects with expenditures in the amount of \$239,554.45 which were identified as communication/freight (shipping) and mailing and delivery services for laboratory chemicals and materials. These charges appear to be "allowable, allocable, and reasonable cost" to be directly charged to the R&D projects. We will seek clarification from the Department of Health and Human Services to determine whether these types of charges are allowable as direct costs.
- 3. Our review of the 277 projects disclosed 139 of these R&D projects required CAS Indicators. CAS forms are being received from the Principal Investigators with approvals from the chairs and deans. Once staff completes the review, the Vice President for Research will sign as final approval. CAS Indicators have been entered into the PeopleSoft system.

For the two National Science Foundation (NSF) grants tested, FAMU submitted annual compliance reports prepared by an independent firm for the last five years. The reports covered the areas in question, in which, NSF, both, accepted and approved all five of the annual reports, as well as, the Cost Accounting Standards forms.

Estimated Corrective Action Date

FAMU will continue its efforts to ensure that ample training opportunities are available for faculty and staff to learn and understand the rules and regulations governing expenditures under federal grants. FAMU will review 265 of the 277 disclosed R&D grants to determine if direct charging is accurate. A CAS exemption will be requested from the PI based on the CAS procedure. The estimated corrective action date is March 31, 2012.

FA 11-114

Finding Type
Prior Year Finding

Noncompliance and Significant Deficiency Report No. 2011-167, Finding No. FA 10-108

Finding

The institution's procedures were not adequate to ensure that all CAS exemptions used for R&D grants were properly determined in accordance with United States Department of Health and Human Services (USDHHS) and Office of Management and Budget (OMB) Circular A-21 guidelines.

Criteria

OMB Circular A-21, Section F.6.b., Departmental Administration Expenses, and Exhibit C, Examples of "Major Project" Where Direct Charging of Administrative or Clerical Staff Salaries May Be Appropriate.

OMB Circular A-21 states that salaries of administrative and clerical staff and items such as office supplies, postage, local telephone costs, and memberships should normally be treated as facilities and administrative (F&A) indirect costs. CAS exemptions are used to charge F&A costs as direct costs. The Circular also provides guidance for "major projects" where direct charging of F&A costs (administrative or clerical staff salaries) may be appropriate.

Condition

The institution had policies and procedures in place to identify F&A costs to be charged as direct costs; however, there was no central report that captured all approved CAS exemptions, requiring that CAS exemptions be located by reviewing each individual grant file and an actual count at a point in time is not readily available. Without such a report or other similar documentation, the institution's records did not readily identify which grants had approved CAS exemption forms.

For grants for which CAS exemptions were used to charge F&A costs as direct costs, the institution used a CAS exemption form, filed by the Principal Investigator (PI), to document that "major project" or "unlike circumstances" criteria as contemplated by OMB Circular A-21 were met. The form required the PI to provide an explanation as to why the project required an extensive amount of administrative or clerical support and goods and services significantly greater than the routine level provided by a department. However, as similarly noted in report No. 2011-167, finding No. FA 10-108 and report No. 2010-165, finding No. FA 09-108, the institution's policies and procedures did not provide for sufficient documentation of the methodology used to determine CAS exemption determinations. For example, the institution had not, of record, established a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the criteria as a "major project" as contemplated by USDHHS, the cognizant agency, and the guidance provided by OMB Circular A-21.

The USDHHS is conducting an audit of the institution's use of CAS exemptions to charge F&A expenses as direct costs to Federal programs; however, the results of the audit were pending as of January 2012.

Cause

Because the institution believes its policies and procedures, including its CAS exemption determinations, which are evaluated on a project-by-project basis, are adequate, the institution has not at this time made any changes to its policies and procedures for determining and documenting CAS exemptions.

Effect

CAS exemptions allow for a greater reimbursement of Federal funds than the traditional methods outlined in OMB Circular A-21. Therefore, when the institution's procedures are not adequate to ensure the proper determination of CAS exemptions used to charge costs to Federal grants, there is an increased risk that CAS exemptions claimed will not be in compliance with the USDHHS and OMB Circular A-21 guidelines, which could result in the institution being subject to repayment of unallowable costs.

Recommendation

The institution should enhance its policies and procedures to include the use of a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the "major project" criteria, and to adequately document such determinations. The institution should also establish a central record of grants for which there exist approved CAS exemption forms. In addition, the institution should take other actions, as appropriate, based on the results of the USDHHS audit.

FSU Response and Corrective Action Plan

FSU strongly disagrees with this finding. In prior finding the auditors have suggested that FSU needed to strengthen its policies and procedures regarding the direct charging of salaries of administrative and clerical staff and items such as office supplies, postage, local telephone costs and memberships. FSU's position has been and continues to be that our policies and procedures for these types of charges are adequate and consistent with the intent and requirements of OMB Circular A-21. In response to prior audit finding #FA 09-108, the Division of Cost Allocation (DCA), USDHHS determined that FSU had appropriate procedures in place to ensure that it is using CAS exemptions that meet the criteria for unlike circumstances. The DCA further stated that it was their belief that the procedures put in place by FSU are sufficient to satisfy the recommendation cited in the audit finding.

As correctly stated in this finding, FSU is currently undergoing an audit conducted by USDHHS. Should it be determined through this audit that FSU needs to enhance its policies and procedures regarding the direct charging of salaries of administrative and clerical staff and items such as office supplies, postage, local telephone costs and memberships, then FSU will take action to enhance our processes.

Estimated Corrective Action Date

Upon completion and resolution of the audit performed by USDHHS

FSU Contact and Telephone Number

Olivia H. Pope, Assistant Vice President for Research (850) 644-8664

Auditor's Remarks

In the response to our finding the Institution indicated it strongly disagrees with our finding and noted that its procedures for using CAS exemptions were in accordance with OMB Circular A-21. The University indicated that DCA, USDHHS, determined that the Institution had appropriate procedures in place to ensure that it is using CAS exemptions that meet the criteria for unlike circumstances. DCA did indicate this in a letter dated March 16, 2011; however, such determination was based on the review of documentation provided by the institution regarding the "unlike circumstances" criteria. In the same letter, DCA stated that the institution's independent auditor will determine the effectiveness of the action taken by the institution in the next financial and compliance review. As indicated in our finding, the institution has not taken effective action to document CAS exemptions in that the institution's procedures did not include use of a baseline or threshold, or other similar methodology, for determining whether F&A costs are above the routine level of support provided by a related academic department and meet the "major project" criteria.

Finding Type
Prior Year Finding

Noncompliance and Significant Deficiency Report No. 2011-167, Finding No. FA 10-106

Finding

The institution's procedures were not adequate to ensure that all CAS exemptions used for R&D grants were properly determined in accordance with United States Department of Health and Human Services (USDHHS) and Office of Management and Budget (OMB) Circular A-21 guidelines.

Criteria

OMB Circular A-21, Section F.6.b., Department Administration Expenses, and Exhibit C, Examples of "Major Project" Where Direct Charging of Administrative or Clerical Staff Salaries May Be Appropriate.

OMB Circular A-21 states that salaries of administrative and clerical staff and items such as office supplies, postage, local telephone costs, and memberships should normally be treated as facilities and administrative (F&A) indirect costs. CAS exemptions are used to charge F&A costs as direct costs. The Circular also provides guidance for "major projects" where direct charging of F&A costs (administrative or clerical staff salaries) may be appropriate.

Condition

For grants for which CAS exemptions were used to charge F&A costs as direct costs, the institution used a CAS exemption form, filed by the Principal Investigator (PI), to document that "major project" or "unlike circumstances" criteria as contemplated by OMB Circular A-21 were met. The form required the PIs to provide an explanation as to why the project required an extensive amount of administrative or clerical support and goods and services significantly greater than the routine level provided by a department. However, as similarly noted in report No. 2011-167, finding No. FA 10-106, the institution's policies and procedures did not provide for sufficient documentation of the methodology used to determine CAS exemption determinations. For example, the institution had not, of record, established a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the criteria as a "major project" as contemplated by USDHHS, the cognizant agency, and the guidance provided by OMB Circular A-21.

Of 5 R&D grants reviewed, 4 had CAS exemption forms completed. For 3 of the 4 grants, for which the institution charged CAS exemptions totaling \$68,735.03 (\$63,529.82 clerical/administrative salaries; \$2,063.70 telephone services; and \$3,141.51 office supplies), institution records did not evidence that the CAS exemptions approved by the institution met the criteria for "major project" or

"unlike circumstances" as contemplated by USDHHS, the cognizant agency, and the guidance provided by OMB Circular A-21.

Cause

The institution believes its policies and procedures, including its CAS exemption determinations, which are evaluated on a project-by-project basis, are adequate. However, the results of our tests indicate that the institution's procedures were not adequate to ensure that all CAS exemptions were properly documented and determined in accordance with USDHHS and OMB Circular A-21 guidelines.

Effect

CAS exemptions allow for a greater reimbursement of Federal funds than the traditional methods outlined in OMB Circular A-21. Therefore, when the institution's procedures are not adequate to ensure the proper determination of CAS exemptions used to charge costs to Federal grants, there is an increased risk that CAS exemptions claimed will not be in compliance with the USDHHS and OMB Circular A-21 guidelines, which could result in the institution being subject to repayment of unallowable costs.

Recommendation

The institution should enhance its policies and procedures to include the use of a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the "major project" criteria, and to adequately document such determinations.

UCF Response and Corrective Action Plan

Federal regulations do not require institutions of higher education to define a "methodology used to determine Major Project determinations." Correspondingly Federal regulations do not require higher education institutions to establish a "baseline" or "threshold" "by academic department" for determining whether directly charged Facilities and Administrative costs are "above a routine level of support." The Federal regulations do require higher education institutions to set forth the specific criteria and circumstances for making a distinction between direct and indirect costs and to describe the criteria and circumstances for allocating cost items which are sometimes direct and sometimes indirect. A university's disclosed distinction and circumstances is determinative as to whether or not such costs are incurred for the same purpose.

The University's Cost Accounting Standards Board (CASB) Disclosure Statement (DS-2) distinguishes between direct and indirect costs, and describes the specific criteria and circumstances for allocating such costs which are "sometimes direct and sometimes indirect" to ensure such costs are incurred for the same purpose in like circumstances, as required under Cost Accounting Standard 9905.502. The University has correctly applied its DS-2 Major Project criteria and circumstances when making Major Project determinations.

The University believes its Major Project policies and procedures correctly follow Federal regulations. In an Opinion Letter addressing the University's 2005 Major Project finding Mr. Darryl Mayes, Director, HHS/Division of Cost Allocation (DCA) validated the University's Major Project policies and procedures by stating in his February 28, 2008 letter:

"The audit (Finding FA 05-115) recommended that the University of Central Florida seek an opinion and clarification from this office as to whether the University is using CAS exemptions that meet the criteria for unlike circumstances. DCA has reviewed relevant documentation and determined that the University has appropriate procedures in place to ensure that it is using CAS exemptions that meet this criteria. Accordingly, we believe that the procedures put in place by the University are sufficient to satisfy the recommendation cited in the audit report for which we have resolution responsibility."

The University will review and enhance its DS-2 to ensure organizational components, subgrouping of expenses and elements of direct and indirect costs as they apply to CAS/Major Project exemptions are clearly defined and the criteria and circumstances for allocating such costs are incurred for the same

217

purpose in like circumstances. The University will enhance its policies and

procedures to reflect any changes to its DS-2.

University of Florida (UF)

Various

FA 11-116

Noncompliance and Significant Deficiency **Prior Year Finding** Report No. 2011-167, Finding No. FA 10-109

Finding

Finding Type

While the institution has developed policies and procedures to apply CAS exemptions to R&D grants received, the application of those policies and procedures may not, in all instances, demonstrate that CAS exemptions used for R&D grants were properly determined in accordance with United States Department of Health and Human Services (USDHHS) and Office of Management and Budget (OMB) Circular A-21 guidelines.

Criteria

OMB Circular A-21, Section F.6.b, Departmental Administration Expenses, and Exhibit C, Examples of "Major Project" Where Direct Charging of Administrative and Clerical Staff Salaries May Be Appropriate.

OMB Circular A-21 states that salaries of administrative and clerical staff and items such as office supplies, postage, local telephone costs, and memberships should normally be treated as facilities and administrative (F&A) indirect costs. CAS exemptions are used to charge F&A costs as direct costs. The Circular also provides guidance for "major projects" where direct charging of F&A costs (administrative or clerical salaries) may be appropriate.

Condition

During the 2010-11 fiscal year, the institution approved CAS exemptions totaling \$5,895,860, consisting of \$4,872,645 in payroll charges to 143 Federal grant accounts and \$1,023,215 in non-payroll charges to 241 Federal grant accounts.

The institution determines whether circumstances exist for a Federal grant, due to its size and nature, requiring administrative or clerical services, or supplies, postage or telecommunications costs that are well beyond the core of departmental support routinely provided for departmental activities. However, as also noted in our report No. 2011-167, finding No. FA 10-109, it was unclear whether the institution's application of its policies and procedures to determine CAS exemptions demonstrated compliance with the intent and guidance provided by OMB Circular A-21. For example, the institution had not, of record, established a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the criteria as a "major project" as contemplated by USDHHS, the cognizant agency, and the guidance provided by OMB Circular A-21.

The USDHHS is conducting an audit of the institution's use of CAS exemptions to charge F&A costs as direct costs to Federal programs; however, the results of the audit were pending as of January 2012.

Cause

Because the institution believes its policies and procedures, including its CAS exemption determinations, which are evaluated on a project-by-project basis, are adequate, the institution has not made any changes to its policies and procedures for determining and documenting CAS exemptions.

Effect

CAS exemptions allow for a greater reimbursement of Federal funds than the traditional methods outlined in OMB Circular A-21. Therefore, when the institution's procedures are not adequate to ensure the proper determination of

CAS exemptions used to charge costs to Federal grants, there is an increased risk that CAS exemptions claimed will not be in compliance with the USDHHS and OMB Circular A-21 guidelines, which could result in the institution being subject to repayment of unallowable costs.

Recommendation

The institution should enhance its policies and procedures to include the use of a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the "major project" criteria, and to adequately document such determinations. In addition, the institution should take other actions, as appropriate, based on the results of the USDHHS audit.

UF Response and Corrective Action Plan

The University of Florida policy and procedures for making Cost Accounting Standards exemption determinations have been effective and conservative as evidenced by the small dollar amount, \$5,895,860 out of a total of \$317,000,000, of charges to federal grant accounts in the 2010-11 fiscal year. Baselines or thresholds are not required by regulation, vary with budget, and are not the only determinant of unlike circumstances and would not be an effective tool in making the determination. Circular A-21 addresses salary expenses in Section F.6.b(2) and non-salary expenses in Section F.6.b(3). Because the "major project" language appears only in Section F.6.b(2), it does not apply to the non-salary costs addressed in F.6.b(3). Consequently, the only test applicable to whether costs such as office supplies, postage, local telephone, and the like is the question of whether the cost can be readily and specifically identifiable with a particular sponsored project. The University of Florida will consider other actions, as appropriate, based on the USDHHS audit.

FA 11-117

Finding TypeNoncompliance and Significant Deficiency **Prior Year Finding**Report No. 2011-167, Finding No. FA 10-110

Finding

The institution's procedures were not adequate to ensure that all CAS exemptions used for R&D grants were properly determined in accordance with United States Department of Health and Human Services (USDHHS) and Office of Management and Budget (OMB) Circular A-21 guidelines.

Criteria

OMB Circular A-21, Section F.6.b., Departmental Administration Expenses, and Exhibit C, Examples of "Major Project" Where Direct Charging of Administrative or Clerical Staff Salaries May Be Appropriate.

OMB Circular A-21 states that salaries of administrative and clerical staff and items such as office supplies, postage, local telephone costs, and memberships should normally be treated as facilities and administrative (F&A) indirect costs. CAS exemptions are used to charge F&A costs as direct costs. The Circular also provides guidance for "major projects" where direct charging of F&A costs (administrative or clerical salaries) may be appropriate.

OMB Circular A-133, §___.500(e), Audit Follow-up

Condition

During the 2010-11 fiscal year, the institution used CAS exemptions to charge \$3,185,727.86 in F&A costs as direct costs, which consisted of \$142,443.17 charged to 13 grant accounts for salaries and benefits and \$3,043,284.69 charged to 203 grant accounts for other expenditures.

For grants for which CAS exemptions were used to charge F&A costs as direct costs, the institution used a Cost Accounting Standards Exception Form (form), filed by the Principal Investigator (PI), to document that "major project" or "unlike circumstances" criteria as contemplated by OMB Circular A-21 were met. The form required the PI to provide an explanation as to why the project required an extensive amount of administrative or clerical support and goods and services significantly greater than the routine level provided by a department. However, the institution's policies and procedures did not provide for sufficient documentation of the methodology used to determine CAS exemption determinations. For example, the institution had not, of record, established a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the criteria as a "major project" as contemplated by USDHHS, the cognizant agency, and the guidance provided by OMB Circular A-21.

We tested 20 expenditures of five grants that had institution approved CAS exemption forms. CAS exemptions charged during the 2010-11 fiscal year for these five grants totaled \$741,419.73. For 2 of the 20 expenditures tested, involving two grants and totaling \$397.37, the institution's CAS determination forms and other supporting documentation did not sufficiently evidence that the F&A costs met the criteria as a "major project" or "unlike circumstances" as contemplated by USDHHS, the cognizant agency, and the guidance provided by OMB Circular A-21. These expenditures for which CAS exemptions were questionable included purchases of office supplies such as copy paper, envelopes, pens, portfolios, etc.

A similar finding was noted in report No. 2011-167, finding No. FA 10-110, for which the institution, in the 2010-11 fiscal year SSPAF, indicated a status of "Fully Corrected." However, as noted in the previous paragraphs, we noted areas that needed improvement in regard to CAS exemptions.

Cause

The institution believes its policies and procedures, including its CAS exemption determinations, which are evaluated on a project-by-project basis, are adequate. However, the results of our tests indicate that the institution's procedures were not adequate to ensure that all CAS exemptions were properly documented and determined in accordance with USDHHS and OMB Circular A-21 guidelines.

Effect

CAS exemptions allow for a greater reimbursement of Federal funds than the traditional methods outlined in OMB Circular A-21. Therefore, when the institution's procedures are not adequate to ensure the proper determination of CAS exemptions used to charge costs to Federal grants, there is an increased risk that CAS exemptions claimed will not be in compliance with the USDHHS and OMB Circular A-21 guidelines, which could result in the institution being subject to repayment of unallowable costs.

Recommendation

The institution should enhance its policies and procedures to include the use of a baseline or threshold for determining whether directly charged F&A costs are above the routine level of support provided by a related academic department and meet the "major project" criteria, and to adequately document such determinations. Also, the institution should accurately report the status of prior year findings on the SSPAF.

USF Response and Corrective Action Plan

USF Cost Accounting Standards (CAS) procedures include a determination at the time of proposal as to whether a project is considered "major" or contains "unlike circumstances". This determination focuses on the project activity in accordance with Exhibit C of OMB Circular A-21 regarding "major projects" without regard to the routine level of support afforded by the respective academic department. This standard is applied consistently in accordance with OMB A-21 F.6.b which does not reference thresholds for determination.

As described in the previous paragraph, the University of South Florida accurately reported the status of prior year findings on the Summary Schedule of Prior Audit Findings.

Estimated Corrective Action Date

June 30, 2011

USF Contact and Telephone Number

Pearl Bigfeather, Associate Vice President of Research (813) 974-5555

Auditor's Remarks

In the response to our finding the institution indicated that its procedures for using CAS exemptions were in accordance with OMB Circular A-21 and that the University accurately reported the status of the prior year findings on the Summary Schedule of Prior Audit Findings. However, as indicated in our finding, the institution's procedures did not include use of a baseline or threshold, or other similar methodology, for determining whether F&A costs are above the routine level of support provided by a related academic department to meet the "major project" criteria, and our tests disclosed exceptions to the institution's prescribed procedures for documenting that the F&A costs met the criteria as a "major project" or "unlike circumstances" as contemplated by the USDHHS and the guidance provided by OMB Circular A-21. The institution should consult with the USDHHS, the cognizant agency, to determine whether their implementation and application of CAS exemptions is in accordance with guidance provided by USDHHS and OMB Circular A-21.

Various (Includes Recovery Act Funding) Research and Development Cluster (R&D) Allowable Costs/Cost Principles - Cost Transfers

University of Florida (UF)

Various

Noncompliance and Significant Deficiency

Questioned Costs - Unknown

The institution did not have a methodology to apply the correct Fringe Benefit **Finding**

Pool (FBP) rates to all cost transfers for retroactive (retro) adjustments.

Office of Management and Budget (OMB) Circular A-21, Sections C.4.b, Basic Considerations, Allocable Costs, and J.10, Compensation for Personal Services; United States Department of Health and Human Services (USDHHS) Grants Policy Statement, Part II-43, Cost Transfers, Overruns, and Accelerated and

Delayed Expenditures

UF's directives and procedures

Condition The institution utilized an FBP to charge fringe benefit costs to activities incurring

personnel costs, including Federally-sponsored activities, using an FBP Rate Agreement, which is submitted to, and approved by, the USDHHS on an annual basis. Accordingly, the approved FBP rates used for various employee positions (e.g., faculty, clinical post doctorial, etc.) change from one fiscal year to the next. FBP costs charged to Federal grants totaled \$29.6 million for the 2010-11 fiscal

year.

The institution utilized cost transfers, in the form of retroactive adjustments (retros), to move FBP costs among grants, from non-Federal to Federal and between Federal grants. However, retros applicable to the 2010-11 fiscal year that were processed after fiscal year end were processed using the FBP rates applicable to the 2011-12 fiscal year, which differed from the rates authorized for the 2010-11 fiscal year. For example, the rates for faculty and clinical post doctoral positions decreased 1.4 percent and increased 14.6 percent,

respectively, for the 2011-12 fiscal year compared to the prior fiscal year.

Controls were not adequate to ensure that all retros were for the proper amounts; the FBP rates used for retros to be applied to a prior fiscal year were not available because pay-end date information necessary to capture such rates was

not maintained in the institution's financial information system.

When incorrect FBP rates are used, Federal grants may be over or under charged. For overcharges, costs may be disallowed and the institution may be

required to repay those costs.

Recommendation The institution should enhance controls to ensure that correct rates are used to

adjust FBP costs charged in prior periods.

UF Response and

The process of changing fringe benefit rates amounts related to these prior fiscal year retros would need to be performed manually and the dollar amount of these fringe benefit adjustments is immaterial. Nevertheless, we have taken definitive steps to enhance controls on cost transfers, and as we continue our proactive efforts to enhance awards financial and accounting practices, we will evaluate

how to reasonably address this matter going forward.

Estimated Corrective Action Date

We have already enhanced controls on cost transfers and we will evaluate how to reasonably address this matter going forward.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number FA 11-119

CFDA Number Various (Includes Recovery Act Funding) Research and Development Cluster (R&D) **Program Title** Allowable Costs/Cost Principles – Recharge Centers

Compliance Requirement State Educational Entity Federal Grant/Contract

Florida State University (FSU)

Number and Grant Year

Various

Finding Type

Noncompliance and Significant Deficiency

Finding While the institution has developed policies and procedures to apply auxiliary

> service charges (recharge centers) to R&D grants, our tests disclosed that such policies and procedures were not always sufficient to ensure compliance with Office of Management and Budget (OMB) Circular A-21 regarding service

charges applied to R&D grants.

OMB Circular A-21, J.47, Specialized Service Facilities Criteria

> OMB Circular A-21 states that the cost of services provided by highly complex or specialized facilities operated by an institution, such as computers, wind tunnels, and reactors, are allowable provided service charge rates are applied directly to Federal awards at a rate calculated based on actual costs of services provided and do not discriminate against Federally-supported activities of the institution including usage by the institution for internal purposes. In addition, service charge rates are to be adjusted biennially and must take into account over/under

applied costs of the previous period.

Condition During the 2010-11 fiscal year, the institution's auxiliary service charges

(recharge centers) totaled \$643,316.70 to various Federal R&D grants. We selected two Federal R&D grants to which service charges had been applied for 3 of the institution's 13 recharge centers. Charges to the grants totaled \$156.63, \$197.27, and \$6.313.98, for the Postal Center, Telecommunications Center, and Computer Store, respectively. Our review disclosed that biennial reviews of the service charge rates used by these recharge centers were not performed. In addition, while institution personnel indicated that the Computer Store's service charge rate applied to Federal grants was cost plus 10 percent, actual charges to the grants we tested exceeded the Computer Store's rate of cost plus 10 percent by a total of \$292.44. Total charges by the Computer Store during the 2010-11

fiscal year for all Federal R&D grants totaled \$275,570.36.

The institution's policies and procedures were not adequate to ensure that

auxiliary service charges to Federal programs did not exceed actual costs of

services provided and were adjusted biennially.

There is an increased risk that recharge center expenditures will not be in compliance with OMB Circular A-21 and could be disallowed by the United

States Department of Health and Human Services.

Recommendation The institution should ensure that service charge rates for auxiliary services do not exceed actual costs of services provided and perform biennial reviews to take

into account under/over applied costs included in the rates.

FSU Response and FSU agrees with the condition found by the auditors related to OMB Circular **Corrective Action Plan** A-21, J.47 – Specialized Service Facilities.

> FSU has an adequate policy related to the periodic establishment and documentation of rates, particularly those that result in charges to Federal R&D awards. However, some auxiliary units are at variance with some sections of the university policy and need to demonstrate/provide the cost methodology related to their billing rates on a regular basis as required in policy. FSU will ensure all

Cause

Effect

units demonstrate development of rates on a cost basis and that rates are reviewed and on file centrally. As to the specific findings, please note the following:

Postal Center – The center established/provided rate(s) for FY 2011, however, the rates were not accompanied by a documented methodology as prescribed in FSU's aforementioned policy.

Telecommunications Center – The center has rates on file, however, they were not current and accompanied by a documented methodology as prescribed in FSU's aforementioned policy.

Computer Center – The center established/provided rate(s) for FY 2011, however, the rates were not accompanied by a documented methodology as prescribed in FSU's aforementioned policy. (Note: The Computer Center operation is no longer an auxiliary of FSU; it is now operated by a private firm on campus, effective April, 2011).

As to the Computer Store charges to Federal awards in FY 2010-11, FSU will review all such charges to ensure there were no charges in excess (like the \$292.44 mentioned above) of the Store's Federal FY 2011 rate. If any excess billings are identified, they will be appropriately resolved.

FSU is committed to establishing an initiative, led by staff in the Offices of the Vice Presidents of Finance & Administration and Research and in consultation with internal auditing, to review university policy with the units and ensure the requirements in the policy regarding periodic rates will be followed. This will be accomplished by December 31, 2012.

Noncompliance and Significant Deficiency

Finding

Finding Type

For the three Federal grants tested, the institution did not timely complete after-the-fact time-and-effort activity report certifications for five of nine employees tested that worked on the grants during the 2010-11 fiscal year.

Criteria

Office of Management and Budget (OMB) Circular A-21, Section J.10.c.(2), Compensation for Personal Services

Condition

For the employees tested we noted the following:

- ➤ For two of five employees tested for grant No. W91WAW-09-C-0160, time-and-effort certification reports for the Fall 2010 term were, subsequent to audit inquiry, completed on August 22, 2011, and August 25, 2011, 53 and 56 days late.
- For two of three employees tested for grant No. X7-96410604-0, time-and-effort certification reports for the Fall 2010 term were, subsequent to audit inquiry, completed on August 4, 2011, and August 19, 2011, 35 and 50 days late.
- ➤ For one employee tested for grant No. 621-A-00-10-00010-00, the time-and-effort certification report for the Fall 2010 term was, subsequent to audit inquiry, completed on September 8, 2011, 70 days late.

Cause

The institution did not have adequate procedures to ensure that all required time-and-effort certifications were performed and submitted timely by personnel working on Federal programs during the transition to a new time-and-effort reporting system being implemented during the 2010-11 fiscal year.

Effect

Failure to timely complete after-the-fact time-and-effort certifications may prevent the institution from promptly identifying and correcting errors of Federal grant expenditures.

Recommendation

The institution should complete the implementation of the new time-and-effort reporting system and enhance its procedures to ensure that time-and-effort certifications are completed timely. These procedures should provide for monitoring and reviewing the entire process from the point of sending the certification request to the actual certification receipt.

FIU Response and Corrective Action Plan

The University has implemented a new time and effort reporting system which was utilized for the Fall 2010 and Spring 2011 certification periods. The due date for submitting the reports was September 1, 2011, for the initial implementation of the new system. The institution's deadline for submitting certifications is

determined by the Division of Research and is identified in the approved policies/procedures for effort certifications at the University, and are determined to comply with Federal cost principles. The new effort reporting system established a multi-step process for review, certification and approval of effort attributable to grants which occurs in a three month time span after the end of a semester. The policies/procedures established at FIU are considered best practice and are within parameters delineated in OMB circular A-21 for establishing an effort reporting system. The frequency requirement in which certifications are to be conducted on an academic term but no less frequently than six months are parameters maintained in the effort system (for professorial and professional staff, the reports will be prepared each academic term, but no less frequently than every six months). In the implementation of the new system, the Fall 2010 and Spring 2011 certification periods were issued at the same time to allow the University to take advantage of numerous new features available in the new system and to retire the older antiquated system which was paper based.

Estimated Corrective Action Date

FIU Contact and Telephone Number

Not applicable, the new time and effort reporting system was utilized for the certification periods tested.

The accompanying notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

⁽¹⁾ These items include non-cash assistance.

NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The Schedule of Expenditures of Federal Awards has been prepared in accordance with the United States Office of Management and Budget (OMB) Circular A-133 and presents Federal awards expended by the State of Florida. The Single Audit Act Amendments of 1996 (Public Law 104-156) and the OMB Circular A-133 define Federal awards as Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. Federal financial assistance is defined as assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property, cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, or other assistance.

The following summary of the State of Florida's significant accounting policies and related information is presented to assist the reader in interpreting the Schedule of Expenditures of Federal Awards and should be viewed as an integral part of the accompanying schedule.

• Reporting Entity

The reporting entity for the purposes of the accompanying schedule is the State of Florida primary government (i.e., legislative agencies, the Governor and Cabinet, departments and agencies, including Volunteer Florida, commissions, boards of the Executive Branch, and various offices relating to the Judicial Branch), the State Universities (SU), and the State Community Colleges and Florida Colleges (SCC) exclusive of any component units of the State Universities and Community Colleges and Florida Colleges. Chapter 2011-142, Laws of Florida, reorganized the governmental structure of the State of Florida, effective July 1, 2011. The law created section 20.60, Florida Statutes, to form the Department of Economic Opportunity (DEO) and abolished the Agency for Workforce Innovation (AWI) and the Department of Community Affairs (DCA) by transferring many functions of AWI and DCA to DEO. Most notably, the unemployment insurance program previously administered by AWI was transferred to DEO as a result of the reorganization. These changes will be reflected in the Schedule of Expenditures of Federal Awards for the fiscal year ending June 30, 2012.

• Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance is a government-wide compendium of individual Federal programs. A five-digit program identification number (CFDA No.) is assigned to each program included in the catalog. Those programs that have not been assigned a CFDA number by the Federal Government and those programs for which CFDA numbers could not be identified are listed as CFDA No. XX.UNK entitled "Other Federal Awards" and are on the accompanying schedule. Note 5 further identifies these awards by a required agency-specific identifier.

• Expenditures

The column on the accompanying schedule captioned "2010-2011 Expenditures" includes amounts using different bases of accounting. The reporting entities also include expenditures related to transfers received from other State Agencies, State Universities, State Community Colleges, and Florida Colleges in this column.

Amounts reported on the accompanying schedule consist of amounts expended from Federal programs by those entities determined in accordance with the accrual, modified accrual, and cash basis of accounting.

The State Agencies reported expenditures in accordance with the accrual, modified accrual, and cash basis of accounting except for amounts reported for the Unemployment Insurance (UI) Program (CFDA No. 17.225) and the Federal Family Education Loans (FFEL) Program (CFDA No. 84.032). Expenditures for the UI Program and payments to lenders under the FFEL Program are reported using the accrual basis of accounting.

Expenditures reported for the majority of State Universities consist of amounts expended from Federal programs by the applicable institutions determined in accordance with the modified accrual and cash basis of accounting. The New College of Florida and Florida Atlantic University reported expenditures on the accrual basis of accounting.

Expenditures reported for the majority of State Community Colleges and Florida Colleges consist of amounts expended in accordance with the modified accrual basis of accounting. Miami Dade College, Florida State College at Jacksonville, Tallahassee Community College, Seminole State College of Florida and Indian River State College reported expenditures on the accrual basis of accounting.

Appropriate adjustments have been made to the expenditures reported on the accompanying schedule to preclude reporting both the transfers of Federal awards pursuant to subrecipient relationships between the various State Agencies, State Universities, State Community Colleges, and Florida Colleges, and the subsequent expenditures.

• Transfers to Subrecipients Column

The column on the accompanying schedule captioned "2010-2011 Transfers to Subrecipients" represents the amounts transferred by the State Agencies, State Universities, State Community Colleges, and Florida Colleges to subrecipients that are not included in the State's Schedule of Expenditures of Federal Awards. The amounts in this column are also included in the column captioned "2010-2011 Expenditures". Transfers of federal awards between the State Agencies, State Universities, State Community Colleges, and Florida Colleges are not included in this column.

• Administering Agency

The agencies and institutions reported as the administering agencies on the accompanying schedule represent the entities that expended and/or administered the respective Federal awards programs.

• American Recovery and Reinvestment Act of 2009 (ARRA)

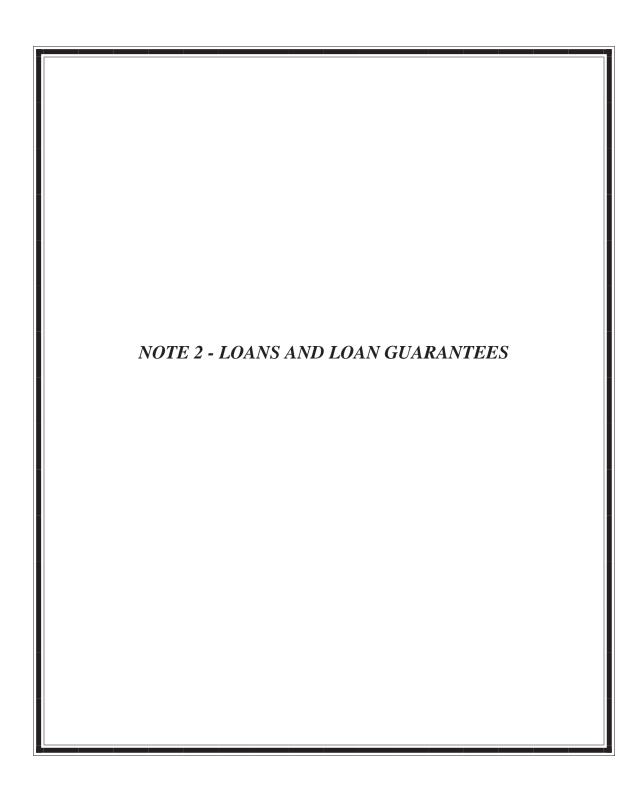

On February 13, 2009 Congress passed the American Recovery and Reinvestment Act of 2009 (Public Law 111-5)(Recovery Act). The Recovery Act's three main goals are to create and save jobs, jump-start economic activity and invest in long-term economic growth, and promote accountability and transparency in government spending.

To maximize the transparency and accountability of funds authorized under the Recovery Act, recipients covered by the Single Audit Act Amendments of 1996 and OMB Circular A-133 must separately identify the expenditures for Federal awards under the Recovery Act on the Schedule of Expenditures of Federal Awards.

ARRA funds reported during the 2010-2011 Fiscal Year are included within the accompanying schedule. Expenditures reported on the accompanying schedule for ARRA awards totaled \$6,601,595,510.

• Noncash Assistance

The State participates in several Federal awards programs in which noncash benefits are provided through the State to eligible program participants. The programs that report noncash benefits [i.e., Supplemental Nutrition Assistance Program (CFDA No. 10.551), School Breakfast Program (CFDA No. 10.553), School Lunch Program (CFDA No. 10.555), Special Supplemental Nutrition Program for Women, Infants, and Children (CFDA No. 10.557), Food Commodities (CFDA No. 10.569), Surplus Property (CFDA No. 39.003), Energy Efficiency and Conservation (CFDA No. 81.128), and Immunization Grants (CFDA No. 93.268)] are identified on the accompanying schedule by a (1) next to the applicable grantor/program. All programs identified with a (1) report 100% of their expenditures as noncash benefits with the exception of Immunization Grants (CFDA No. 93.268), Energy Efficiency and Conservation (81.128), School Breakfast Program (CFDA No. 10.553), School Lunch Program (CFDA No. 10.555) and Special Supplemental Nutrition Program for Women, Infants, and Children (CFDA No. 10.557). The State distributed vaccine, through the Immunization Grants, valued at \$198 million during the 2010-2011 Fiscal Year. The State distributed noncash benefits in the amount of \$7,354 through the School Breakfast Program, \$70,036,299 through the School Lunch Program, \$234,974,179 through the Special Supplemental Nutrition Program for Women, Infants, and Children and \$1,789,413 through the Energy Efficiency and Conservation Block Grant Program. The State uses the Electronic Benefit Transfer system to issue Supplemental Nutrition Assistance Program benefits (CFDA No. 10.551) to eligible recipients.

Note 2 - Loans and Loan Guarantees

The State of Florida participates in several Federal loan programs in which funds are provided through the State to eligible program participants.

• Higher Education Loans

The current year loan disbursements administered by the State Universities, State Community Colleges, and Florida Colleges for the loan programs Federal Family Education Loans (CFDA No. 84.032) and Federal Direct Student Loans (CFDA No. 84.268) are \$18,604,743 and \$2,047,977,397, respectively. Additionally, the SU and SCC reported having a value of loans outstanding for programs Federal Perkins Loan Program – Federal Capital Contributions (CFDA No. 84.038), Nurse Faculty Loan Program (CFDA No. 93.264), Health Professions Student Loans - Including Primary Care Loans/Loans for Disadvantaged Students (CFDA No. 93.342), Nursing Student Loans (CFDA No. 93.364), and ARRA-Nurse Faculty Loan Program (CFDA No. 93.408) in the amounts of \$85,109,251, \$1,007,251, \$4,826,772, \$70,649, and \$62,044, respectively.

• State Infrastructure Bank (CFDA No. 20.205)

The Federal State Infrastructure Bank (SIB) for the Highway Planning and Construction Program (CFDA No. 20.205) is an investment fund from which loans and other forms of credit assistance are provided for highway construction, transit capital, or other surface transportation projects. The Federal share (80 percent) of SIB disbursements made during the 2010-2011 Fiscal Year totaled \$1,168,774.76. This amount is included on the accompanying schedule with other expenditures from the Highway Planning and Construction Program. The balance of SIB loans outstanding at June 30, 2011, totaled \$98,102,360.70.

• Transportation Infrastructure Finance and Innovation Act (TIFIA) Loan (CFDA No 20.223)

The Transportation Infrastructure Finance and Innovation Act (TIFIA) Loan Program is a form of credit assistance for the Department of Transportation (FDOT) up to the amount of \$270,000,000. The TIFIA Loan Agreement allows FDOT to make draws on the Loans ("2005 RCF Loan" not to exceed \$170,000,000 and "2007 RCF Loan" not to exceed \$100,000,000) to partially reimburse the State Transportation Trust Fund for amounts expended on "Eligible Project Costs" of the Miami Intermodal Center Rental Car Facility. The loan obligations are secured by and will be repaid by Miami-Dade County using Customer Facility Charges and, if necessary, Contingent Rent from the Rental Car Facility. Two draws have been made to date and were made on the 2005 RCF Loan totaling \$170,000,000. The first draw was made during the 2008-2009 Fiscal Year in the amount of \$109,304,355.67. The second draw was made during the 2009-2010 Fiscal Year in the amount of \$60,695,644.33. There was not a draw made during the 2010-2011 Fiscal Year.

• Capitalization Grants for Clean Water State Revolving Funds (CFDA No. 66.458)

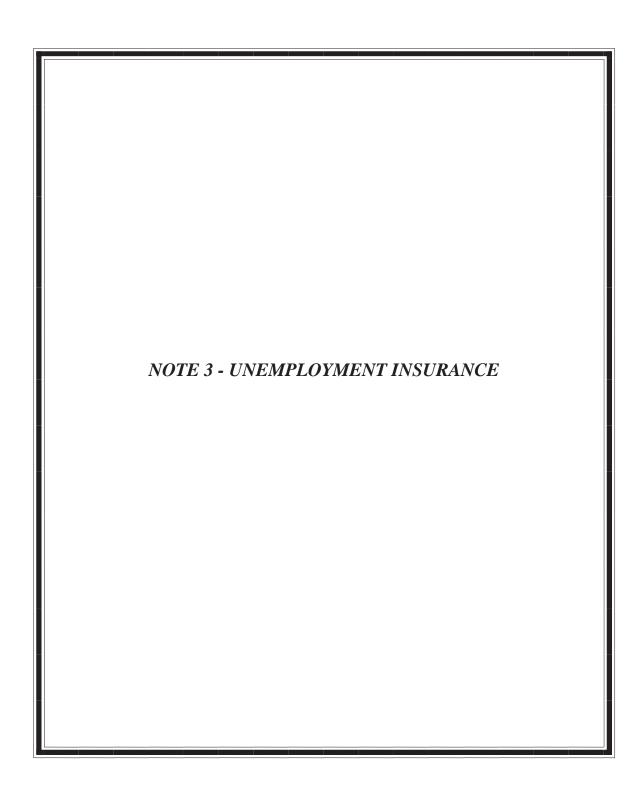

A revolving loan trust fund is used by the State to provide loans to eligible recipients for the construction of wastewater treatment facilities and implementation of other water quality management activities. The current year loan disbursements made during 2010-2011 Fiscal Year totaled \$138,274,227 (\$61,095,524 disbursed from the State bank and \$77,178,703 disbursed from the Florida Water Pollution Control Financing Corporation bank). Of the loans disbursed during the 2010-2011 Fiscal Year, \$1,030,003 were state funded. All other loan disbursements were federally funded. The value of loans made in previous years but are still in the construction phase at June 30, 2011, totaled \$482,792,304.88, of which \$322,833,825.46 are pledged to the Florida Water Pollution Control Financing Corporation (Corporation). The Corporation was created pursuant to State law for the purpose of financing or refinancing water pollution control projects and other activities in the State. The Corporation issued debt obligations that were secured by loan repayments and related interest from loans pledged to it from the revolving loan trust fund accounts.

• Capitalization Grants for Drinking Water State Revolving Funds (CFDA No. 66.468)

A revolving loan trust fund is used by the State to provide loans to eligible recipients for infrastructure improvements to drinking water systems and for other eligible activities. The current year loan disbursements made during the 2010-2011 Fiscal Year totaled \$39,377,528. The value of loans made in previous years but are still in the construction phase at June 30, 2011, totaled \$149,324,663.64. Currently, all loan disbursements are federally funded.

• Federal Family Education Loans (CFDA No. 84.032)

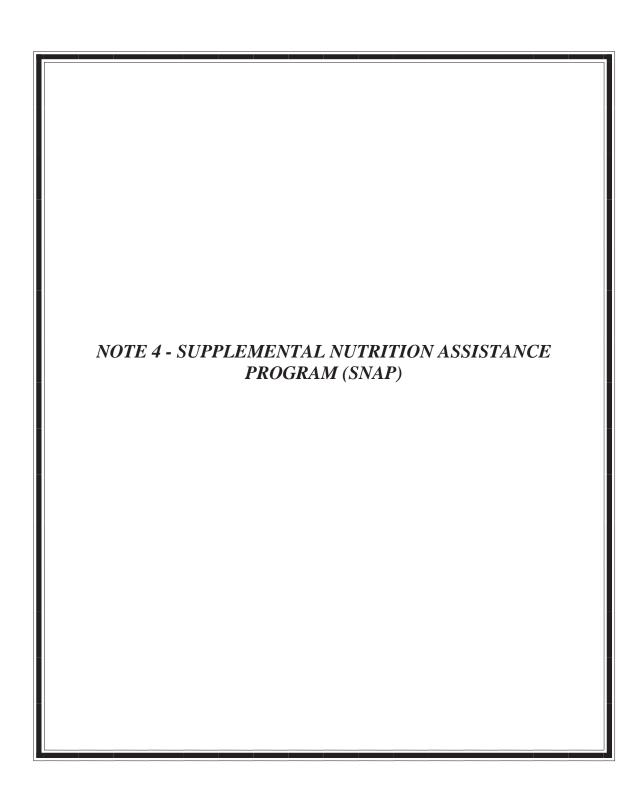

Under the Federal Family Education Loans (FFEL) Program, the U.S. Department of Education guarantees the repayment of loans made to students by participating financial institutions. The Florida Department of Education administers the FFEL Program (CFDA No. 84.032) for the State. During the 2010-2011 Fiscal Year, payments made to lenders to cover student loans in default totaled \$214,771,681 and are shown on the accompanying schedule. The value of net loan guarantees represents actual loans guaranteed during the 2010-2011 Fiscal Year. The value of outstanding loans guaranteed at June 30, 2011, totaled \$2,810,448,084. The Health Care and Education Reconciliation Act of 2010 eliminated the bank-based guaranteed student loan program (FFELP) administered by the Florida Department of Education, Office of Student Financial Assistance (OSFA) and moved all colleges to the U.S. Department of Education's Direct Loan Program as of July 1, 2010. Therefore, OSFA did not guarantee any loans in the 2010-2011 Fiscal Year.

NOTE 3 - UNEMPLOYMENT INSURANCE

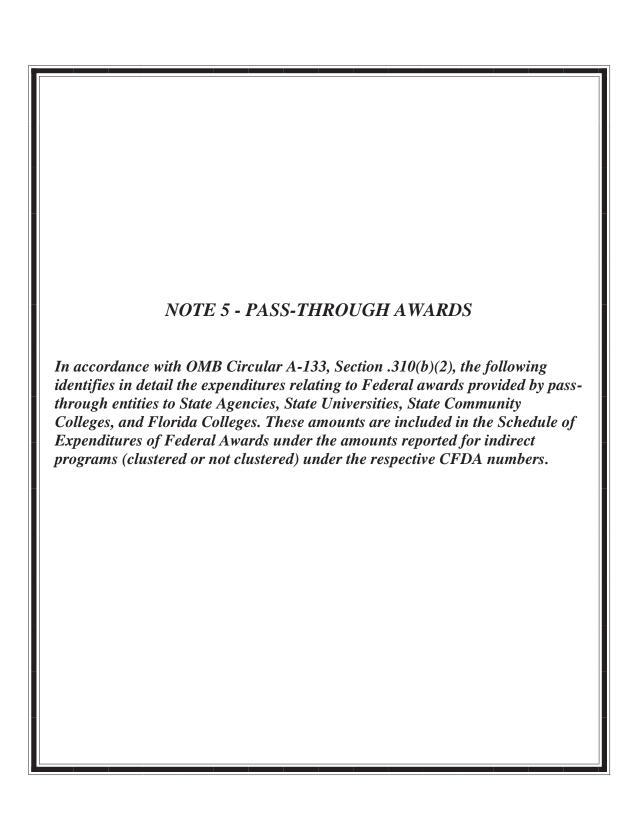

The Unemployment Insurance (UI) Program (CFDA No. 17.225) is a unique Federal-State partnership, founded upon Federal law but implemented primarily through State law. Pursuant to this Program, unemployment benefits are paid to eligible unemployed workers for periods of involuntary unemployment. Benefits are paid from Federal funds and from State unemployment taxes that are deposited into the State's account in the Federal Unemployment Trust Fund (FUTF). State benefits were funded from State Taxes and advances from Federal Unemployment Trust Fund. The State's administrative expenditures incurred under this Program are funded by Federal grants. Direct expenditures reported on the accompanying schedule for the UI Program are identified in the following table.

154,257,439
1,989,811
179,605,897
135,617,676
683,079,011
48,365,593
2,782,317,814
72,056,919
1,117,047,587
819,100,000
5,993,437,747

NOTE 4 - SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM (SNAP)

The reported expenditures for benefits under the Supplemental Nutrition Assistance Program (SNAP) (CFDA No. 10.551) are supported by both regularly appropriated funds and incremental funding made available under section 101 of the American Recovery and Reinvestment Act of 2009. The portion of total expenditures for SNAP benefits that is supported by Recovery Act funds varies according to fluctuations in the cost of the Thrifty Food Plan, and to changes in participating households' income, deductions, and assets. This condition prevents USDA from obtaining the regular and Recovery Act components of SNAP benefits expenditures through normal program reporting processes. As an alternative, USDA has computed a weighted average percentage to be applied to the national aggregate SNAP benefits provided to households in order to allocate an appropriate portion thereof to Recovery Act funds. This methodology generates valid results at the national aggregate level but not at the individual State level. Therefore, we cannot validly disaggregate the regular and Recovery Act components of our reported expenditures for SNAP benefits. At the national aggregate level, however, Recovery Act funds account for approximately 16.38 percent of USDA's total expenditures for SNAP benefits in the Federal fiscal year ended September 30, 2010.
