Goal 1
To ensure provision of support facilities to meet the needs of the HBOI Campus.

Objective 1A
Provide new and renovated existing support facilities to keep pace with the demands generated by research and programmatic needs.

Policy 1A-1
Access the food service operations to ensure availability and a variety of services to the campus operations.

Policy 1A-2
Develop procedures to ensure the proper input for the design of recreational facilities, by including input from the students, staff, and the appropriate University Departments.

Policy 1A-3
FAU shall continue to fund support facilities, both new construction and remodeling/renovation projects based on legislatively allocated and PECO funding processes. At the same time, actively seek alternative or additional private funding for new support facilities.

Policy 1A-4
Complete support projects contained in the 5-year Capital Improvements plan (see Capital Improvement Element)

Policy 1A-5
Develop strategies for marketing for support of research and educational outreach that support University programs. This support should include the locating of auxiliary uses including bookstores, copy center, coffee shop and a bank to support students, faculty, staff and outreach programs.

Policy 1A-6
Develop strategies to enhance the Ocean Discovery Center as an educational outreach component for the University including relocating the facility to U.S. Highway One.

Objective 1B
Develop joint use recreational and educational facilities by partnering with neighboring interest.

Policy 1B-1
Collaborate with the State of Florida and St. Lucie County to develop outdoor shared uses and passive recreational spaces that support the mission of environmental education.

Objective 1C
Construct new support facilities to support the mission of the University

Policy 1C-1
The University will establish appropriate support facilities in the Fixed Capital Outlay Budget Request (PECO List) and will continue to update a consolidated support facility priority listing for new and renovated support facilities for all available funding.
Policy 1C-2
The University’s President and Executive Committee with the assistance of the University Architect’s Office, will develop an annual program that addresses the allocation of funds for the development of future support facilities.

Policy 1C-3
The University will continue to encourage energy efficiency and conservation techniques in all future facilities with the intent to meet a LEED Silver certification.

Policy 1C-4
Locate unforeseen facilities (arising from grants or other circumstances) according to the schematic sites and zones as delineated on the Future Land Use graphic, Figure 4.1. Amendments to the plan that are alone, or in conjunction with other plan amendments, exceed the thresholds established in ss.240.155(9), F.S., shall be reviewed and adopted pursuant to ss.240.155(6)-(8), F.S.. Further amendments that do not exceed these thresholds shall be consolidated into a single annual submission and submitted to the Office of Capital Programs for review and approval (see Rules 6C-21.103(2)-(3), F.A.C.).
