

INTRODUCTION

This document is the ten year Master Plan Update for the John D. MacArthur Campus of Florida Atlantic University. The current Master Plan Update was adopted January 18, 2006 showing the incorporation of The Scripps Research Institute and redistribution of the University facilities on Campus.

The new planning horizon for this update is 2016. This update includes discussion of both the growing Campus physical environment as well as the projected growth of the student body throughout the planning horizon. The current FTE enrollment projection for 2016 is 1,220 and the projected headcount for the same period is 2,444 students. This update is presented for review and comment by the public, the Town of Jupiter, and other agencies in accordance with section 1013.30 of the Florida Statutes. Agencies and host community departments with jurisdiction to review this Master Plan include:

Reviewing Agencies

PBC Administration / Planning

Palm Beach County Solid Waste Authority
Palm Beach County Fire Rescue
Palm Beach County Sheriff's Office
Palm Beach County Emergency Management Office

State of Florida Department of Transportation

Loxahatchee River Water Control District (ENCON)

Bellsouth (AT&T)

ComCast

Florida Energy Office

Florida Power & Light (FPL)

Florida Department of Law Enforcement

Florida Highway Patrol

Florida Public Utilities

This master plan consists of the 18 Elements, as outlined in the State Guidelines for the Campus Master Plan System. These elements include Goals, Objectives and Policies for their respective subject. Any supporting data that has been gathered or generated for this master plan is presented in the appendix of this document.

In addition to the 18 Elements, this master plan includes a 19th Element which encompasses the addition of The Scripps Research Institute, which is currently being constructed in the southeast portion of the FAU Campus.

Figure MP.1 illustrates the amended campus plan, enumerating all planned building projects for the 10 year horizon. For clarity, Figure 19.1 illustrates the land to be utilized by Scripps on Campus.

Other revisions to the existing Master Plan include housekeeping items such as:

- Removing references to former Board of Regents and replacing with Board of Trustees.
- Updating campus maps to incorporate the new concept plan for campus growth.
- Adding completed buildings and altered roadways to the campus base maps.
- Updating storm water master plan.
- Updating maps with current infrastructure information.
