

**CIP Priority - TBA  
2006-2007**

**Treasure Coast Building I**

**Location 4**

Based on an inventory of existing academic buildings and projected growth of the student population, the Treasure Coast Campus will have a significant shortage in academic space. Therefore, a new academic facility is needed to support the mission of the university and to keep pace with the demands generated by enrollment growth. The proposed facility will provide space for teaching and research labs, an auditorium and additional support space.

Element Consistency 5 Academics

Gross Area 10,700 s.f.

**CIP Priority - TBA  
2008-2009**

**Treasure Coast Building II**

**Location 5**

In anticipation of meeting the projected growth for the year 2009, this building will provide a facility to meet the space requirements for the Treasure Coast Campus. The proposed facility will be a multiuse building that will consist of classroom space, study areas, research facilities, and an auditorium.
