The Educational and General budget includes expenditures for instruction, research, library and learning resources, student services, plant operations and maintenance and administrative support. The budget is funded by:

**General Revenue**, consisting primarily of State of Florida sales tax collections and corporate income tax collections, as well as license fees and other taxes and operating receipts.

**Education Enhancement Trust Fund**, consisting of collections from the sale of Florida lottery tickets. At least 38 percent of total lottery collections is dedicated to the trust fund.

**Student Fee Trust Fund**, consisting primarily of matriculation fees and tuition (out-of-state fees) paid by students, as well as other fees such as application and late registration fees.
The total budgeted revenue for 2004-2005 is $204,142,608. This amount is $813,999 higher than the BOT approved budget due to Board of Governor’s Amendments for insurance ($175,708) and additional student fee collections ($638,291). The major revenue components are general revenue ($130,631,600), student fees ($63,018,660), and lottery funding ($10,492,348).

For the second quarter, actual revenue collections are general revenue of $67,931,491, student fees of $33,907,520, and lottery funding of $3,145,901.

The current total expense budget for 2004-2005 is $206,267,281. This amount does not reflect the BOG adjustment of student fees as it appears that this estimate was based upon a higher level of out-of-state students than is likely to be achieved. As these revenues are achieved, a budget amendment may be recommended by the President. Total expenditures through December 31 were $93,702,560, or approximately 45.43 percent of the total projected budget amount. Payroll of $71.7 million and operating expenses of almost $22 million account for total expenditures. Total expenditures are slightly above the spending rate of the previous year – 45.43 percent compared to 45.33 percent in 2003-04.

The President is requesting an additional budget amendment of $988,688 for emergency hurricane repairs ($500,000) and branding/40th Anniversary and other activities ($488,688). This amount will be taken from excess student fee collections associated with over-enrollments in 2003-04. It is anticipated that the hurricane expenses will be reimbursed through FEMA and insurance reimbursements. Additionally, a non-recurring increase of $1,774,276 in General Revenue was provided by the Board of Governor to support the $1,000 legislative bonus awarded to employees on December 1. This will increase projected revenues and expenditures to $206,905,572 and $206,267,281, respectively.
Educational and General Operating Budget

Analysis:

General revenue collections are projected to reach their targeted amounts. Due to stronger than anticipated growth in sales and documentary stamp tax collections, revenue collections for the State continue to be strong and exceed estimates by approximately 2 percent and prior year actual results by over 9 percent. With anticipated economic recovery, a robust real estate market, and increased spending dedicated to hurricane-related damages, total revenues for the State should continue to be strong.

Student fee collections continue to be slightly below projected amounts at this time. We are cautiously optimistic that projected collections will be achieved. While overall credit hour enrollment is expected to be achieved due to higher than projected undergraduate enrollments, graduate enrollments are likely to be four percent below the funded plan.
The Student Financial Aid budget largely represents scholarship and loan funds that are received by the University and subsequently disbursed to students. Included in the budget are funding from student financial aid fees as well as financial aid support from all sources such as federal financial aid awards (Pell, Student Educational Opportunity Grants, Perkins Loans, Stafford Loans), state financial aid awards (Bright Futures, Florida Assistance Grants), Institutional Programs (Presidential Awards, MLK Scholarships) and Private Scholarships (FAU Foundation).

Student financial aid fees are established by the legislature. Current per-credit hour financial aid fees for 2004-05:

$ 3.40  Undergraduate In-State
$23.25  Undergraduate Out-of-State
$ 9.55  Graduate In-State
$39.90  Graduate Out-of-State

The total budgeted revenue for 2004-2005 is $107,013,210. As of December 31, 2004, $48,301,581 in revenue has been generated, or approximately 45 percent of the total budget. Total projected expenditures for the year are $101,691,528. To date, $45,078,053 has been expended, or approximately 44 percent of total projected expenditures for the year.

Analysis:

The amount of expenditures to date for 2004-05 is greater than the percentage spent in the prior year (44 percent for 2004-05 compared to 40 percent for 2003-04). Improvements in financial aid distribution as a result of the new BANNER system allowed awards to be distributed more efficiently with almost all Fall semester awards being distributed before September 30. Revenue and expenditures are believed to be on target with projections.
THE GRANTS AND CONTRACTS BUDGET

The Grants and Contracts budget consists of funding from federal agencies, state agencies, foundations and private sources that enables the University to conduct existing and proposed research projects and programs.

Projected Expenses 2004-05 $67,382,448  Actual Expenses to Dec. 31 $17,249,909

The total budgeted revenue for 2004-2005 is $71,902,950 and budgeted expenses are $67,382,448. As of December 31, 2004, $22,199,724 in revenue has been generated, approximately 31 percent of the budgeted amount. $17,249,909 has been expended, or approximately 26 percent of the total expenditure budget.

The major revenue components are federal awards of approximately $11,812,000 (53 percent of revenue to date), private awards of $7,541,000 (34 percent) and state and local awards of $1,776,000 (8 percent).

Of total expenditures to date, salaries and benefits total $9,510,477 (55 percent of total expenditures); OPS of $3,917,359 (23 percent); and expense of $3,822,073 (22 percent).

Analysis:

The Division of Research and Graduate Studies assists faculty and graduate students with the submission of hundreds of grant applications; however, not every grant application culminates in an award. FAU has had a steady increase in grant submissions and this has led to an increase in both revenues and expenditures.

Revenue is not earned evenly over the course of the fiscal year. For example, two of the primary sources of award funds, National Institute of Health and National Science Foundation, make their award announcements in November and April. Furthermore, some expenditures will precede the collection of offsetting revenues.
The Auxiliary Enterprises budget includes activities that support the instructional, research and service objectives of the University. Auxiliary enterprise operations are self-supporting and must generate adequate revenue to cover expenditures and to allow for future renovations and building or equipment replacement. Some auxiliaries are partially funded by student fees, including Student Health Center through the student health fee ($5.00 per-credit hour) and Traffic and Parking through the transportation access fee.

The major auxiliary areas are:

- Food Service
- Postal Services
- Housing
- Student Health Center
- Bookstore
- Traffic and Parking
- Printing/Duplicating
- University Center
- Telecommunications
- College Continuing Education
- University Theatre
- Lifelong Learning Society

The total budgeted revenue for 2004-2005 is $47,375,511. As of December 31, 2004, $23,662,011 in revenue has been generated, or approximately 50 percent of the total budget. Total projected expenditures for the year are $44,858,145. To date, $17,969,865 has been expended, or approximately 40 percent of total projected expenditures for the year.

The expenditures to date for 2004-05 are slightly greater than the percentage spent in the prior year (40 percent for 2004-05 compared to 38 percent for 2003-04). Revenue and expenditures for the year are believed to be on target with projections.
The Athletics Local Operating Budget supports the University’s student athletics program. Funding is generated from student athletics fees ($11.75 per-credit hour) as well as ticket sales to athletics events, game guarantees, NCAA distributions, sponsorships and private support.

In addition to the Local Operating Budget, FAU Athletics receives $246,000 in State Educational and General Title IX Gender Equity funding and $1,077,815 in out-of-state waiver authority and financial aid.

Projected Expenses 2004-05 $10,123,000  Actual Expenses to Dec. 31 $6,111,358

The total budgeted revenue for 2004-2005 is $10,123,000. The major revenue components are athletics fees ($6,641,570), ticket sales ($471,500), and corporate sales/private support ($2,196,330).

Of these major revenue components, actual collections are athletics fees of $2,964,723, ticket sales of $282,045, and corporate sales/private support of $179,085.

The total expense budget for 2004-2005 is $10,123,000. Payroll of $4,069,677, program operating expenses of $3,474,463, and scholarships of $2,578,860 account for this total. Total expenditures through December 31 were $6,111,358, or approximately 60 percent of the total budgeted amount. Of total expenditures to date, 24 percent ($1,488,195) were financial aid and 33 percent ($2,027,088) were payroll.

Analysis:

Athletic fee collections are projected to reach their targeted amounts. For comparison purposes, approximately $6.5 million was collected last year.

Ticket revenues are lower than anticipated at this point. With football season over, ticket sales revenue is now projected at $320,000, a reduction of $151,500 to the original estimate. This reduction will be offset by a projected increase in revenue from NCAA distributions, ASUN distributions, and game guarantees.

Corporate sales and private support have reached only 8.2 percent of their projected amounts as of December 31. It is expected that an additional $100,000 to $125,000 can be generated through June 30, 2005, but this will leave a shortfall of $1.75 million. The Board will be asked to approve a loan from the auxiliary trust fund to cover the shortfall.
The Student Government-Student Activities budget supports student activities such as student government and student clubs and organizations. Also included in the budget are expenditures for the University Center and campus recreation and student wellness activities. The Student Government budget is funded through the Activity and Service fee paid by students ($10 per-credit hour).

Projected Expenses 2004-05 $5,485,321  Actual Expenses to Dec. 31 $1,958,612

The total budgeted revenue for 2004-2005 is $5,646,580. As of December 31, 2004, $2,909,912 in revenue has been generated, or approximately 52 percent of the total projected revenue budget. These funds have been generated by Activity and Service fees. Total projected expenditures for the year are estimated at $5,488,321. To date, $1,958,612 has been expended, or approximately 36 percent of total projected expenditures for the year.

Student Government requested a budget amendment last quarter to increase expenditures by $568,063. Revenues during the current year and excess revenue from last year can support this request.

Analysis:

The expenditures to date for 2004-05 are lower than the percentage spent in the prior year (36 percent for 2004-05 compared to 48 percent for 2003-04). Revenue and expenditures for the current year, including budget amendments, are believed to be on target with projections.
The Concessions Budget consists of funds from concession operations such as soft drink and snack vending machines. Expenditures from these funds support the academic mission of the University.
