Employee Deductions
17-1 Disallow prepayments
17-2 Give employees direct access to deduction data - See #148
17-3 Minimize payroll deductions
17-4 Prohibit deductions for employee purchases

Employee Forms
17-5 Automatic fax-back of payroll forms - See #149
17-6 Post forms on an intranet site - See #149
17-7 Avoid job costing through the payroll system
17-8 Switch to salaried positions
17-9 Use bar coded time clock
17-10 Use biometric time clocks
17-11 Use honor system to track vacation and sick time

Payments to Employees
17-12 Issue electronic W-2 forms to employees
17-13 Offer clear cards to employees - See #150
17-14 Send remittances as e-mail messages
17-15 Transfer payroll to credit card balances - See #151
17-16 Use direct deposit

Payroll Management
17-17 Automate vacation accruals
17-18 Consolidate payroll systems
17-19 Eliminate personal leave days
17-20 Link payroll changes to employee events
17-21 Link the 401(k) plan to the payroll system
17-22 Link the payroll and human resources databases
17-23 Minimize payroll cycles
17-24 Outsource the payroll function
17-25 Use Web-based payroll outsourcing

<tr>
<td>Abstract</td>
<td>This suggests an interface with the payroll system. The employee could see their deductions and if appropriate, edit them. There would be a split screen with one side showing gross pay, less deductions and net pay. The other side would show how the net pay would change if a deduction would change - such as an increase/decrease to a pre-tax 403b or a change in the number of tax withholdings. These types of changes might be done online by the employee, but other changes, such as insurance changes could not be done - but the results could displayed &quot;as-if&quot; with text indicating changes of this nature are allowed only during open enrollment.</td>

<tr>
<td>Abstract</td>
<td>These two suggestions eliminate the manual task of sending out and returning forms. Prior to the popularity of the Web, &quot;fax-back&quot; systems were often used to automate disbursement of needed forms. However, posting forms on an intranet site is more in use today.</td>

<tr>
<td>Abstract</td>
<td>Employees can find themselves in credit trouble from time to time, frequently resulting in requests for payroll advances (N/A for FAU) which is a time-consuming process. An alternative to the payroll advance is to offer a &quot;Clear Card&quot; to employees. Under this approach, an employee pays for something with a MasterCard and then has the payment automatically deducted from their paycheck over the next two months, with no interest or late fees charged on the payment. Employees pay $29 per year for this service, while the employer pays no fee at all. The credit card provider installs the automatic linkage through the corporate payroll system to process payroll deductions, and does so free of charge. The card is only available to employees earning at least $20,000 per year and who have worked for a company at least six months. The credit limit on the card is 2.5 percent for those earning less than $75,000 per year, with a 4 percent limit for those earning above this amount.</td>

This suggestion is for the few people who do not have direct deposit because they do not have a bank account. A good solution to this problem is to set up a Visa debit card, called the Visa Paycard, for any employees requesting one, and then shift payroll funds directly into the card. This allows employees to pull any amount of cash they need from an ATM, rather than the entire amount at one time from a check-cashing service. The card can also be used like a credit card, so there is little need to make purchases with cash. Further, the fee to convert to cash at an ATM is much lower than the fee charged by a check-cashing service. There is also less risk of theft through the card, since it is protected by a personal identification number (PIN). Employees will also receive a monthly statement showing their account activity, which they can use to get a better idea of their spending habits.

The Paycard has only recently been rolled out by Visa, and is only available through a few banks. One must contact the corporate bank to see if it has this option available.

### Controls for Payroll Self-Service

**Title:** Controls for Payroll Self-Service  
**Source:** Book by Steven M. Bragg, Accounting Control Best Practices  
**Addl Info:** Check local library for book  
**Abstract:** P 227-228. Require secondary approval or notification of bank account number changes.  

This relates to someone obtaining access to a terminated employee's user ID and password. Book suggested requiring secondary approval of changes or at least notification of another person.

### Speeding Through Tax Time: Electronic W-2 Forms at George Mason

**Title:** Speeding Through Tax Time: Electronic W-2 Forms at George Mason  
**Source:** George Mason University  
**Abstract:** The Payroll Department at George Mason University utilized web-based technology to make W-2 forms available to the university community in a more customer-driven, timely, and accurate manner. Mason was the first and largest university in Virginia utilizing the Banner software system to implement 100% paperless delivery of W-2s. Moving to an electronic W-2 form has saved the university time and money as well as improved delivery of important financial information.  

The on-line W-2 system has saved the department both time and money as well as greatly reducing the number of W-2 corrections that need to be made. The W-2s are delivered sooner providing ample time to resolve any questions or discrepancies prior to having to send the information to the IRS. The process is more customer focused as staff can spend additional time working with our University customers to ensure that the information we have is accurate. Our customers receive more timely information in a format that facilitates submitting their tax returns electronically thereby receiving their refunds much faster.

### Saving Resources and Costs - Automated Payroll Processes

**Title:** Saving Resources and Costs - Automated Payroll Processes  
**Source:** Central Piedmont Community College  
**Addl Info:** [http://www.sacubo.org/docs/bestpractices/2012/AutomatedPayroll.pdf](http://www.sacubo.org/docs/bestpractices/2012/AutomatedPayroll.pdf)  
**Abstract:** Central Piedmont Community College was dependent upon paper and printing of payroll checks for part time employees and pay advices for full time employees who are paid by direct deposit. The college also used paper timesheets to record hourly non-exempt employee hours worked. We also had W-2 forms printed, which were mailed to employee homes. All of these processes have either been changed or are being changed to electronic processes.
