

Freshman Academic Advising Services
SLS 1503
Learning Strategies and Human Development

Chapter _____ Amount of time required: 10-12 hours in the semester

Type of exercise: Service-Learning

Supplies needed: N/A

Contact person: Monica Jara Email address: mjara1@fau.edu

Summary of exercise:

Students were given the option to choose from taking the final exam or doing a Service-Learning (S-L) experience.

As an example: one of the students who thought wanted to be a veterinarian chose to do S-L in a Vet Hospital, where he had first hand contact with animals and was able to learn from the professional staff and their experience.

His reflection showed that this career is fun but may not allow him to obtain the financial status he wants granted the limited opportunities for growth in the field; therefore, he will consider what was learned in this experience at the moment of declaring his major.
