  - In the certified student leader program there is a leadership development component centered around education opportunities like institutes or anything you pursue in your own time that you consider to develop your leadership.
  - The second tenant is a community service opportunity. It requires 50 hours and a presentation of your experience. Then you are a certified student leader.
  - It will go on your academic transcript.
  - We have a new program called emerging young leaders and this program is geared towards freshman and sophomore.
  - It’s a great opportunity of what’s going on around campus, other student organizations, and faculty members. It has mock interviews and public speaking opportunities.
