II. Approval of UGC Minutes from August, 2012.

Action: The minutes were unanimously approved by the Council.

III. Electronic Plans of Study.

Paige Garrido presented My POS to the Council. She stated that one college at a time would begin using the electronic version. Each college will have two training sessions. A cheat sheet will also be available. It was made clear that the POS is only for the student’s program and the student must still apply for graduation. Colleges will be notified when they will begin training and until then use the paper version. Paper is still being used for revisions.

Action: Council members expressed support for the electronic POS and requested that Council members be consulted regarding trainings during faculty meetings and/or graduate programs committees. The college faculty should determine who has authorization at each level, including program administrator and evaluator. The processes for approvals currently in place for programs will be honored through the implementation of the new electronic POS system.

IV. Graduate Tuition Benefits Proposed Policy Change

Council members discussed the latest revision of the Graduate Tuition Benefits Policy Change (see prior minutes regarding seeking input from Colleges). The College of
Science presented issues and concerns from their faculty. The College of Education and others previously shared their input with the Graduate Dean with some discussion of faculty input at this meeting. It was suggested that Leadership scholarships for the GSA might help. A concern was expressed that that this policy change would impact the doctoral research program. Additionally, concerns were expressed about budgetary implications for colleges that have limited funds for graduate assistantships.

**Action:** A working group from the Council was appointed. LaTash Lee and Ali Zilouchian are on the group and others are invited to join the Graduate Dean to provide input as this document is revised.
