*FAUchange—Revised August 2011*
MEMORANDUM

TO: Dr. Kim Dunn, Director
    School of Accounting

FROM: Marcy Krugel, Director

DATE: February 8, 2012

RE: ACG 6135 Course Change Request

Thank you for adding GEB 6215 as a prerequisite or corequisite for ACG 6135. This change will ensure that the accounting students have the communications course prior to or concurrent with ACG 6135, a course targeted for communications integration.

I totally support this change, and I thank the Accounting Program and the School of Accounting for requesting it.
ACG 6135 (3 credit-hours) – Advanced Accounting Theory
Sample Syllabus

Class Meets:

Professor: Mark Kohlbeck
E-mail: mkohlbeck@fau.edu
Website: eCollege
Office: KH 122 (Barry Kaye Hall)
Phone: (561) 297-1363
Office Hours:

Catalog Course Description

Advanced Accounting Theory (ACG 6135) 3 credits
Prerequisites: Admission to College of Business master’s program, and ACG 6137 or
ACG 3141 or equivalent.
Prerequisite or Co-requisite: GEB6215
Description: Analysis of trends in accounting through review of the major publications of
the accounting profession. Emphasis on the structure of accounting theory underlying the
concepts of assets and income determination.

Course Overview and Objectives

This is a course in accounting theory. The course does not concern itself directly with
learning or applying accounting pronouncements. Rather, the course examines the
economic forces, competing interests, and regulatory institutions that shape the way
accounting policy choices are made and also the role of accounting in society. In
addition to discussing accounting in its familiar role as a income measurement tool and as
an input to decisions under uncertainty, we study how efficient markets, compensation
practices, debt covenants, and other broad economic consequences impact accounting
policy makers and managers who choose accounting alternatives (e.g. FIFO vs. LIFO).
The learning outcomes for the course are as follows:

1. Identify theories that shape accounting.
2. Explain predicted accounting behavior based on underlying theories
4. Effectively communicate findings.

The course is designed to develop your life-long learning skills. In today’s market, it is
structurally impossible to have an encyclopedic knowledge of the accounting rules that
will serve you for large parts of your career. The body of U.S. GAAP is undergoing a
rapid rate of transformation in response to changes in the business environment, and in
response to demands for new and different information from stakeholders and regulators.
ACG 6135 Syllabus

A grasp of the theory that underlies the rules and the business context in which the rules are made is essential in understanding the nature and causes of the demands for accounting information.

The accounting profession has called for major structural changes in the way that we teach accounting at all levels. Your future employers have asked to place more emphasis on critical thinking and communication skills than on technical skills. In polls of partners from the large firms, the top three items on the Partners’ New employee wish list includes an ability to work effectively in teams, better communication skills, and better presentation skills.

Professor Information

Professor Kohlbeck’s area of expertise is financial accounting and reporting. He is currently teaching financial accounting courses at the University. Mark previously taught at the University of Wisconsin – Madison, The University of Texas at Austin and Southern Methodist University. His primary research interests concern banking and financial institutions in the areas of intangible assets, regulation, accounting choice, and accounting disclosures. Previously, Mark was an auditor and management consultant for Deloite & Touche in Dallas and Milwaukee. His professional experience includes restructuring troubled financial institutions, mergers and acquisitions, and litigation support. Mark is also a member of Beta Alpha Psi, Beta Gamma Sigma, and the American Accounting Association.

Text Books and Course Materials

Required
- Access to U.S. accounting standards
  The FASB adopted the codification as the official source of GAAP. The FAU School of Accounting purchased a one-year subscription for access for faculty and students. Below is the student User ID and password. You must login through the address below which provides access through the American Accounting Association. Please bookmark this address. This login information is valid from September 1, 2011 to August 31, 2012.

http://aaahq.org/ascLogin.cfm
Student User ID: AAA51093
Student Password: SimEFHIP

DO NOT contact the American Accounting Association if you lose this information. The User ID and password may be obtained from your instructor or the School of Accounting Staff. This User ID and password is to be used only by accounting students of Florida Atlantic University.

- Financial calculator.

Supplemental readings
ACG 6135 Syllabus

Additional readings will be distributed in class or through eCollege. You are also encouraged (but not required) to subscribe to the *Wall Street Journal* (or similar periodical).

**Grading and Learning Activities**

The following table summarizes each component of your grade for this course.

<table>
<thead>
<tr>
<th>Component</th>
<th>Points</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exams</td>
<td>200</td>
<td>50.0%</td>
</tr>
<tr>
<td>Term Paper / Presentation</td>
<td>100</td>
<td>25.0%</td>
</tr>
<tr>
<td>Homework</td>
<td>50</td>
<td>12.5%</td>

ACG 6135 Syllabus

Exams. Exam questions focus on accounting concepts illustrated through classroom discussions and homework exercises. The exams are designed to extend your thinking through analysis and applications of these concepts in new or unique situations. The exam format may include multiple choice, problems, and short answer. The last exam may be comprehensive.

Term Paper / Presentation. The course includes a term paper and related presentation. Both the written and oral component are designed to meet GEB 6215 requirements. Specific requirements for the term paper / presentation will be distributed on eCollege.

Participation. The ability to interact in a meaningful manner and convey relevant information efficiently with colleagues is a critical component of success, regardless of your particular career objectives. Communication is a skill, and may therefore be learned and improved with practice. In an effort to provide you with a relatively low-cost venue and high-benefit incentive for developing these skills a portion of your grade in this class is based on participation points. You are in control of when, why, and how you participate.

Please note that not only will high quality participation make the class much more interesting for everyone, it has the potential to provide a relatively cheap yet significant boost to your final grade. Unlike exam performance, which is subject to the slings and arrows of outrageous fortune, breakups, family problems, test anxiety, interview schedules, and illnesses, the participation aspect of the course is completely within your control. Further, participation points awarded may be adversely affected by lack of preparation and unprofessional behavior. Seize the opportunity.

Readings. You must read the assigned material at least once before class meets. In addition to the assigned readings from the textbook, I will make selected readings from the business press and professional journals available to you on occasion. I strongly encourage you to take advantage of this opportunity to become familiar with the practitioner viewpoint on the issues. The overall emphasis will be firmly on the “real world” – current issues, ethical dilemmas that you may well face at some point, etc. For the most part, these articles will be written by investors, by managers, and by your future colleagues in the accounting profession.

Homework. Homework is assigned and your answers must be submitted using the eCollege drop box by the indicated due dates.

Policies

Honor Code. Students at Florida Atlantic University are expected to maintain the highest ethical standards. Academic dishonesty, including cheating and plagiarism, is considered a serious breach of these ethical standards, because it interferes with the University mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Academic dishonest is also destructive of the University community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with
ACG 6135 Syllabus

academic dishonesty. For more information, see

School of Accounting Uniform Policies.

Professional Conduct. To foster a more professional learning environment and to
develop habits that lead to success in the business work, all participants must engage in
professional behavior, including:
1. Taking responsibility for individual actions.
2. Attending each class session, including arriving promptly and leaving at the
designated time. Attendance sign-in sheets may therefore be used and excess
absences may impact the participation grade.
3. Being attentive and an active participant in group activities and class discussions.
4. Respecting diversity in the classroom and treating everyone involved in the class in a
civil manner.
5. Planning outside activities to avoid conflicts with the activities outlined in the
syllabus.
6. Meeting all deadlines in the course for assignments, projects, etc.
7. Acknowledging the importance of clarity of expression in written and oral
communication and understanding that the course grade will be affected by your
ability to communicate.

ADA. In compliance with the American with Disabilities Act (ADA), students who
require special accommodations due to a disability to properly execute coursework must
register with the Office for Students with Disabilities (OSD) located in Boca Raton – SU
133 (561-297-3880), in Davie – MOD I (954-236-1222), in Jupiter – SR 117 (561-799-
8585), in the Treasure Coast – CO 128 (772-873-3305), and follow all OSD procedures.

SafeAssign. Written components of any assignment or project may be submitted to
Blackboard SafeAssign to evaluate the originality of the work. Any students found to be
submitting work that is not their own will be deemed in violation of the University’s
honor code discussed above.

Missing Exams. Make-up exams will be given for valid reasons (medical emergency,
family emergency, university-scheduled events, religious observation, or class conflicts)
consistent with University policy and the professor’s discretion. If you do not have a
valid reason for missing an exam, a zero grade may be assigned. The professor also has
the option of not providing a make-up exam and re-weighting the remaining exam(s)
accordingly.

Incompletes. There are no incompletes for this course except in the case of extraordinary
circumstances (for example, excessive absences due to severe illness). The professor
determines when an incomplete is appropriate.

Points Awarded. It is the responsibility of the student to monitor the points awarded to-
date in eCollege. The student has up to two weeks following the posting of any points to
contest the number of points, after which the points are considered final.
Electronic Communication. eCollege and FAU email will be used in this course for content delivery, assignments, and other communications. Accordingly, it is the student’s responsibility to check the eCollege course site and their FAU email account for announcements, etc.

Religious Holidays. It is the responsibility of the student to promptly notify the professor of any conflicts due to religious observance so that accommodations can be arranged.

Pictures. Photographs of each student may be taken / used in connection with the course.
