Jim,

No problems from EDL on these changes. RS

Subject: Changing prerequisites for courses

Colleagues:

I am attaching:

A summary of the prerequisite changes we want to make in 4 graduate courses (listed last in the attachments);

The course change forms for each;

Syllabi for 2 of them (EDG 6285 and EDG 7251).

Mary Lou informed me that EDG 6935 and EDG 7938, because they are seminar courses (with a "9" as the second number), do not require a syllabus to be attached. That is because they may have shifting topics, in line with seminars across the university.

The changes are, in a nutshell:

3 Courses need to have the prerequisites removed. One of them is a doctoral course and therefore needs to note a prerequisite of admission to a doctoral program (any), and permission of instructor.

1 Course needs to add 4 prerequisites because it is a culminating doctoral course.

Please review the course change forms and the two syllabi and let me know if there are any conflicts with your courses. Take care.

To: Jim McLaughlin <jmcla17@fau.edu>

Hello Jim:

After reviewing the changes and course syllabi requested in your message, I do not think they will conflict with the courses or program requirements in the Counselor Education Department.

Irene H. Johnson

Subject: Changing prerequisites for courses

Colleagues:

I am attaching:

- A summary of the prerequisite changes we want to make in 4 graduate courses (listed last in the attachments);
- The course change forms for each;
- Syllabi for 2 of them (EDG 6285 and EDG 7251).

Mary Lou informed me that EDG 6935 and EDG 7938, because they are seminar courses (with a "9" as the second number), do not require a syllabus to be attached. That is because they may have shifting topics, in line with seminars across the university.

The changes are, in a nutshell:

- 3 Courses need to have the prerequisites removed. One of them is a doctoral course and therefore needs to note a prerequisite of admission to a doctoral program (any), and permission of instructor.
I reviewed the course prerequisite changes and syllabi for the graduate C&I courses. I do not see any conflict with the courses or curriculum in the ESE Department. Good luck with your revisions.

Subject: FW: Changing prerequisites for courses

Colleagues:

I hope you can find time to reply to this request, regarding course prerequisites, so that it can be considered at the GPC meeting. A reply by tomorrow afternoon would help that to happen. Thanks, and take care.

Yours,

Jim McLaughlin

H. James McLaughlin, Ph.D.

EDG 6285:

Course Title: Program Evaluation in Curriculum and Instruction (3 s.h.)

Course Description: This course is designed to enable students in Curriculum and Instruction to survey program evaluation strategies used in C and I content areas. An emphasis is placed on analyzing and interpreting evaluation literature in subject specific areas. In addition, students will examine national and state trends in program evaluation.

We want to remove the prerequisite of EDG 6224, because it is not a necessary precursor to the course.

EDG 7251:

Course Title: Curriculum Implementation for School Improvement (3 s.h.)

Course Description: The focus is to offer internship/field experiences that correspond with each candidate’s educational interests. This partnership provides opportunities to design solutions and implementation procedures to current school-based problems.

We want to remove the prerequisites of EDG 7938 and EDG 7250, which are required doctoral courses, because this course is an elective open to all students in any doctoral program. Instead, the requirements should read: “Doctoral status or permission of instructor.”

EDG 8935:

Course Title: Seminar in Curriculum (3 s.h.)

Course Description: A study of curriculum principles, structure, and theories.

We want to remove the prerequisites of ESE 6215 and EDE 6205. This is a seminar course that may have shifting topics for consideration, and therefore no precursors are needed for the course. Because it is a seminar course (with a “9” as the second number), we do not need to include a syllabus with this change of prerequisites.

EDG 7944:

Course Title: Research in Curriculum and Instruction (3 s.h.)

Course Description: Projects completed in Doctoral Seminar will be scrutinized to determine their research quality and educational contributions. Emphasis is placed on accurate integration among research, curriculum, and instruction protocols.

The course currently has no prerequisites. We want to add prerequisites of EDG 7938, EDF 7758, EDF 7917, and EDG 7250. This course is intended to be taken during the last semester of course work prior to the Qualifying Examination in the doctoral program in Curriculum and Instruction. The core courses named above are necessary for students to be successful in the course. Because it is a
seminar course (with a “9” as the second number), we do not need to include a syllabus with this change of prerequisites.
