DEDICATION

This manuscript is dedicated to my family, particularly my understanding and patient husband, Herb, who has put up with these many years of research, and to my son, Shawn, who is the joy of our lives. I also dedicate this work to my late grandparents, Rocco and Catherine, both of whom believed in the pursuit of dreams.

Notice the Dedication page hides the page number, yet it is still counted as a page number in your manuscript like the Title Page. Most students use this segment for more personalized messages than that listed in the Acknowledgements. Many use the Dedication page to thank family, friends, and those indirectly responsible for the completion of the manuscript. The Dedication page is optional; therefore, it may be omitted if you choose.

The main body of your text will begin here. You will follow the Field Style Guide that your department and/or college has decreed, and confirmed by your supervisory committee. Your Field Style Guide as directed by your Supervisory Committee also determines your Heading formatting style. Here is an example of body text:

Florida Atlantic University was established by the Florida State Legislature in 1961 as the fifth university in the state system. When it opened its doors in 1964, FAU was the first university in the country to offer only upper-division and graduate-level work. This model was based on the theory that freshmen and sophomores would be served by the community college system. In 1984, the University responded to population growth and the need to provide increased access to higher education by admitting its first freshman class.

Today, FAU’s partner campuses serve 26,000 students through more than 170 degree programs. FAU’s colleges include the College of Architecture, Urban & Public Affairs, the Dorothy F. Schmidt College of Arts & Letters, the College of Business, the College of Education, the College of Engineering & Computer Science, the Christine E. Lynn College of Nursing, the Charles E. Schmidt College of Science, the Charles E. Schmidt College of Biomedical Science, and the Harriet L. Wilkes Honors College, which provides a unique and challenging four-year curriculum for the brightest students
from Florida and beyond. FAU has the Eminent Scholar Chairs in many academic
disciplines, and it is home of nationally recognized research centers.

**Heading 2**

The university’s burgeoning research parks are facilitating exciting new research
and learning initiatives by bringing high-tech industries into close collaboration with
faculty and students.
