Common Error Messages

The following is a list of common error messages you may encounter when you register for courses.

PREQ and TEST SCORE ERROR

This error indicates that you do not have the required prerequisite to register for a specific course.

Example: CHM2045 is the prerequisite for CHM2046

Example: Before you can register for a math class you will need to take the ALEKS Math Placement Exam (Test Score Error)

Example: Before you can register for MAC2311 you would be required to take the math placement exam and score at least a 40% OR have taken and received the appropriate passing grade in MAC1105+L (which is the prerequisite for MAC2233).

Please see the course catalog for specific prerequisite requirements.

Link Error: D1 (L2, D2, C1)

This error indicates that you are missing a LAB or a DISCUSSION that is a co-requisite for the course you are trying to register for.

Example: MAC1105 + L (L = Lab)
Example: ANT2000 + D (D = Discussion)

Solution: Go back to the departmental course schedule and find the corresponding LAB or DISCUSSION section by clicking on the CRN of the lecture course. It will state:

“To register for this section, please also register for one of the following sections: 12345, 67891, 98765”

NOTE: Make sure you submit both the CRN for the Lecture and CRN for the Lab/Discussion at the same time.
This error indicates that you are trying to register for a course that conflicts with a different course you are trying to register for or have already registered for.

**Example:** CHM2045 has a required MONDAY exam time. Please take note of this time when registering for additional courses.

**Solution:** You will need to go back to the departmental course schedule and find a different time for the course you are trying to register for.

This error indicates that you are trying to register for a course that requires you to register for a second course at the same time.

**Co-requisite Error - CORQ REQ**
