Club House Work Station Guidelines:

Work Stations located within the Club House will no longer require an application to be assigned space. One station will be assigned per council rather than a student organization. This would mean that there is one station for the following councils:

- Academic
- Graduate
- Multicultural
- Special Interest
- Sports

(Greek will not have an assigned space due to the fact that space is provided for them within the Office of Fraternity and Sorority Life.)

With the stations assigned in that manner, any organization who belongs to that council may utilize the work station. The student using the space will be required to sign off on a terms of agreement to understand logistics and liability issues before first use and sign in when coming in.
