

FAU Wireless Configuration for Mac OS X v10.4 Tiger

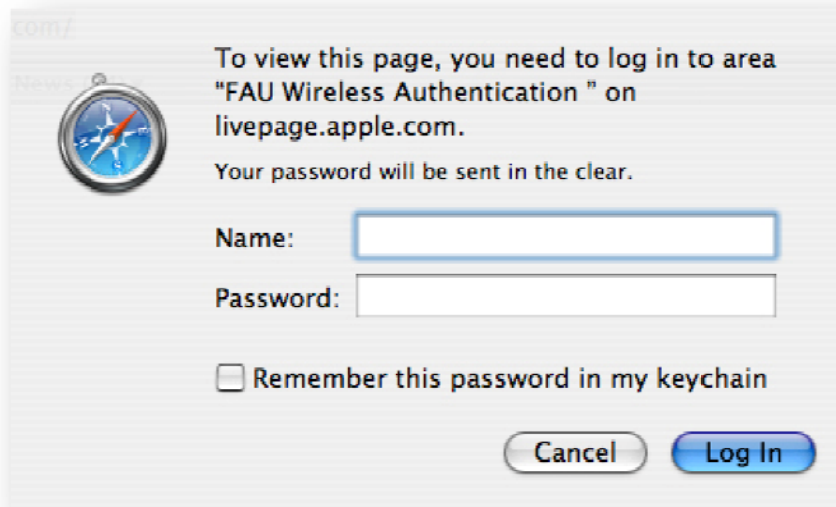

Step 1: Click on the AirPort icon located in the upper right corner of your screen. Click on **Other...** from the AirPort drop-down menu.

Step 2: In the Network Name field type in “fau” (leave the Wireless Security field set as “None”) and click OK.

Step 3: Open a web browser such as Safari. The FAU Wireless Authentication window should appear. For Name enter your FAUNet ID (username) and for Password enter your FAU Network (AD) password, then click Log In.
