This year the Lifelong Learning Society at FAU Jupiter marks the 15th anniversary of its founding. LLS offers non-credit, university-level courses for learners of all ages, backgrounds and interests. Classes are held at the Elinor Bernon Rosenthal Lifelong Learning Complex, located on FAU’s John D. MacArthur Campus.

Each year more than 70 liberal arts courses are offered and taught by FAU professors and distinguished guest lecturers. There are more than 7,100 students, and last year more than 19,000 class registrations. An annual membership costs $35, and entitles students to early registration, discounted rates, advance mailings and newsletters. Their slogan conveys the program’s appeal: “No homework, no tests, no stress.”

The Lifelong Learning Society has made a significant contribution to the University through scholarships and grants. In the past 11 years, LLS had awarded $20,500 in scholarships to deserving students and $18,930 in grants to faculty. On top of that, LLS has contributed $67,500 to the FAU Jupiter Campus, the Dorothy F. Schmidt College of Arts & Letters and the Harriet L. Wilkes Honors College.

In honor of the 15th anniversary, Peter Ernest, founding director of the International Spy Museum in Washington, D.C, and former senior CIA Operations Officer will speak on The CIA, the Intelligence Community, and Today's Challenges. Tamar and Milton Maltz, major donors and supporters of the Lifelong Learning Society, will sponsor the event to be held on January 12, 2012 at 2:30 p.m. Admission is $20 for members and $25 for non-members. A book signing and reception will follow the lecture. For more information, call 561-799-8547 or visit www.llsjupiter.com

Sincerely,

Mary Jane Saunders, Ph.D.
President, Florida Atlantic University

LIFELONG LEARNING SOCIETY CELEBRATES 15TH ANNIVERSARY
INTRODUCING
FAUNAA’S MOST
EXCITING NEW
EVENT

FAU’s indoor tailgate party at the Marleen & Harold Forkas Alumni Center

- Tailgating fare & cold drinks available for purchase
- Music, entertainment & family friendly environment
- Hottest NCAA match ups broadcast on big screens
- Cool, clean & comfortable facilities

Doors open three hours before every home game.
FAUNAA members get in FREE!
Show your alumni card or purchase a membership at the door.
$20 for non-members
$10 for ages 3–12, Free for ages 2 & under
RSVP at www.faualumni.org/partyfowl

ASSOCIATE PROVOST APPOINTED FOR
FAU’S NORTHERN CAMPUSES

Eliah Watlington, Ph.D., has been appointed associate provost of Florida Atlantic University’s northern campuses. Watlington is a faculty member with a long-standing affiliation to the northern campuses and surrounding communities, currently serving as associate dean of assessment and northern campuses for FAU’s College of Education. She will direct operations, academic and student affairs, and community relations. In conjunction with her new administrative duties, Watlington will maintain her faculty position on a half-time basis. Her office is located in Campus Administration on the second floor of the AD building on the Jupiter campus.

Palm Beach Gardens Medical Center to Sponsor ‘Coffee with the Professor’

The 2011-12 ‘Coffee with the Professor’ series is generously sponsored by Palm Beach Gardens Medical Center. FAU Jupiter will host this popular series for the ninth year. The series provides alumni, business professionals and members of the community an opportunity to visit campus and attend a lecture without having to register for a class. Each session of the series is comprised of a 20-minute talk by an FAU faculty member, followed by questions, answers and discussion.

The series takes place at 8 a.m. on the third Friday of the month, three times during the fall and spring semesters. Each session is held in the campus dining hall.

Scheduled dates for the academic year are: September 16, October 21, November 18, January 20, February 17 and March 16.

The event is free and open to the public. Seating is limited and reservations are required. For more information, call 561-799-8105.

Morgan Cable, BA ’05
2011 Harriet L. Wilkes Honors College Distinguished Alumna

Dr. Morgan Cable is a postdoctoral fellow at the NASA Jet Propulsion Laboratory in Pasadena, Calif. A native Floridian, she was raised near Cape Canaveral and exposed to space exploration and planetary science at an early age through the Kennedy Space Center. Cable earned a Bachelor’s degree in Chemistry with minors in physics and math from FAU in 2005, and was valedictorian of the Harriet L. Wilkes Honors College. She also received the Honors College Outstanding Junior Award in 2003. Cable attended graduate school at the California Institute of Technology and received a Ph.D. in Inorganic Chemistry in 2010. As a graduate student, she was the recipient of the Herbert Newby McCoy Award of Outstanding Achievement in Chemistry in recognition of her advance work in the field. Cable’s academic career has led her on sampling expeditions in the Atacama Desert in Chile and Mount Kilimanjaro in Tanzania, as well as teaching space camp in the Songam Starsvalley Observatory in South Korea. She has also written journal articles and conference proceedings and had them published. Cable’s current work as a NASA Postdoctoral Program Fellow and a NASA Student Ambassador involves the development of systems to detect organics on the surface of Mars and Titan, one of the moons of Saturn. She aspires to continue working through NASA to discover more about the universe and our place in it, and to pursue her dream of becoming a NASA Mission Specialist.
