How do I...
Make my courses available?

At the beginning of each semester, you must make your course available to the students. By default, your students will *not* be able to see your course until you follow the instructions below.

Making your course available
1. Go into your course.
2. Go to the Control Panel and click on “Customization.”
3. Choose “Properties.”
4. Scroll down to number 3, “Set Availability.” Toggle the radio button to “Yes.”

5. Click “Submit.”

After you have completed these steps your course will be available for the students to see when they log in to Blackboard.
