The University has established an official lapel pin design for non-athletic purposes. No other University lapel pin shall be produced for retail or non-retail purposes without the approval of University Communications. Unit-specific lapel pins are allowed, but must be produced by a licensed vendor and approved by University Communications. Lapel pins bearing a University trademark must be produced using materials that adhere to the guidelines set forth in the Visual Standards Manual (e.g., yellow gold or brass are not allowable materials).

For information on obtaining a supply of University lapel pins, contact University Communications at branding@fau.edu.
