   i. How do we target the “low-hanging fruit” courses to push through RI?
      • Julie Earles and Greg Macleod reached out to their faculty assembly and curriculum committee by sending HON courses to be targeted; they will be invited to attend an RI workshop or simply submit their RI application.
      • At next URCC meeting, 4970 series of courses can be reviewed as another target grandfathering in certain courses was discussed. However, no grandfathering will take place without consulting the faculty member associated with that course. HON may begin with grandfathering in Honors Thesis course, which Donna Chamely-Wiik will request as first round of courses to review.

3. Directed Independent Research (DIR) proposed courses have been reviewed by some colleges.
   a. MED: PCB 4905 to become PCB 4915 and 4916.
   b. WHC: DIS list was provided (only 4000-level) to become HON 4915 and 4916; also provided their own DIR application, different from DIS. Donna Chamely-Wiik will these as examples to other colleges.

   g. BUS: 2 DIR proposals at the department level have been created.
h. DSI and A&L will be contacted for updates.

4. External products of student work tracking is being worked on in ENG&CS by building a program.
   i. Will also check with Registrar regarding letter grade and pass-fail course numbers, as well as if DIS courses will need to be changed post-DIR implementation. It is possible that DIR could apply towards DIS major requirements.
