MISSION
The Florida Atlantic University Police Department supports the mission of the University by providing a safe environment for our academic community through a combination of proactive and innovative law enforcement services and community engagement.

VISION
The Florida Atlantic University Police Department is a high caliber organization of professionals that provide our diverse community with the most efficient and effective public safety services possible. While providing these services we will ensure that we maintain optimal efficiency by cultivating high professional and ethical standards, providing ongoing training and a continued assessment of the needs of our community.

VALUES
Commitment
Professionalism
Integrity
Respect
Accountability
Service
The Florida Atlantic University Police Department’s priority is to provide service to our community. We provide this service in support of the missions as outlined by Florida Atlantic University. This support is accomplished through the delivery of quality police and security services. As Florida Atlantic University continues to grow and expand to meet the needs of our community, our University Police and staff support personnel must be prepared to meet the increasing service demands that result from that growth. We will budget to the plan as we support Florida Atlantic University’s vision to be recognized as a university known for excellence. The Florida Atlantic University Police Department will continue to partner with our community to meet and adapt to the challenges of the future.

Therefore, we aspire to continue to improve our operations and to deliver a quality product through our core values.

We are committed to maintaining mutual trust and a cooperative relationship with the community we serve and furthermore we embrace the importance of effectively working as a team both internally and externally. The Florida Atlantic University Police Department proudly and boldly upholds the law enforcement code of ethics and provides service to our community in an honest, impartial and faithful manner.
Our Core Values

Our values of Commitment, Professionalism, Integrity, Respect, Accountability, and Service, promote the level of dedication, service to our community, organizational integrity and professionalism at all levels that we strive for within our Department. These values are continually communicated and incorporated into the Department’s culture through training and defined performance expectations.

The Florida Atlantic University Police Department strives to achieve professional accountability at the highest level. We strive to be the model University Police Department in the State of Florida and as such we are currently pursuing accreditation through the International Association of Campus Law Enforcement Administrators (IACLEA). This illustrates the commitment to safety, professionalism, and our mission of becoming a model of excellence in campus policing while embracing the University’s “Race to Excellence” Strategic Plan. As a subsection of the University’s Strategic Plan, “A Strategic Plan for the Race to Excellence,” one of the core values listed is, Safety – providing a secure campus environment, and as a result, we hold a key component to the value system that the University strives to achieve. We therefore aspire to continue to improve our operations and to deliver a quality product through our core values.

We are committed to maintaining mutual trust and a cooperative relationship with the community we serve and furthermore embrace the importance of effectively working as a team both internally and externally.

The Florida Atlantic University Police Department proudly and boldly upholds the law enforcement code of ethics and provides service to our community in an honest, impartial and faithful manner.
A cross section of the Florida Atlantic University Police Department began meeting in January of 2015 to develop a strategic plan for the Department. This plan was intended to formulate a strategic guideline consistent with that of the University’s Strategic Plan in providing a safe environment for all who visit, attend and work at Florida Atlantic. The committee consisted of sworn, non-sworn, administrative staff and managers to broadly represent the Department. It delineates all operations of the Florida Atlantic University Police Department and all that we seek to improve in order to meet the standards as set by the International Association of Chiefs of Police (IACP).

Our directives are:

- Revisit our mission, vision and values and update if needed;
- Reach out to stakeholders, assess their needs to include their priorities in our strategic initiative;
- Identify the strengths, areas of growth, opportunities and threats facing the Department;
- Prioritize Departmental goals;
- Identify issues to tackle in the upcoming year;
- Identify first year success indicators;
- Put a process in place to follow up on our strategic plan

At the Florida Atlantic University Police Department, we make those we serve our highest priority. We have a sense of ownership, conduct ourselves professionally, respect privacy and confidentiality, communicate effectively, and make a commitment to our colleagues to never disgrace or dishonor our chosen profession.
In an effort to minimize the possibility of victimization and maximize personnel, the Florida Atlantic University Police Department has designed a staffing plan that is specifically tailored for our unique environment. This concept, called “Target Staffing”, requires every patrol assignment to be staffed at all times. To achieve this commitment, supervisors are given the responsibility to fill the required shifts and locations that are under-staffed or that need staff for directed patrol for crime suppression. This teamwork driven concept allows officers to gain valuable experience working at different locations. As a University, we have satellite campuses located in different counties (Palm Beach, Broward, and St. Lucie) and the Police Department maintains a presence at each location. Each location provides us with a unique opportunity to provide police services to the stakeholders who have a vested interest in that geographic location; therefore, we have adopted two models (to be discussed later) that ensure we are maintaining the same level of exceptional service regardless of locations.

The Florida Atlantic University Police Department believes that the path for success begins with a strong foundation. Strong leadership is critical and requires having the right people in the right position. Our attitude is to not let issues become a problem because we are continuously evaluating how to improve or refine our processes and proactively address concerns. To facilitate information sharing, increase accountability, and improve operational effectiveness, the leaders of the Florida Atlantic University Police Department meet on a bi-weekly basis and all supervisors meet on the last Thursday of every month to discuss performance measures. This enables us to effectively communicate our standards of Accountability, Safety and Security.
BUREAU OF PATROL OPERATIONS

The Bureau of Patrol Operations is staffed by sworn and non-sworn members and is the most visible division within the Florida Atlantic University Police Department. It is commanded by a sworn member holding the rank of Captain and is divided into the following:

- Boca Raton Campus Operations
- Broward Campus Operations
- Harbor Branch Operations
- MacArthur Campus Operations
  - CSO Program
  - Special Events

BOCA RATON, FL 33431
LERVIN1@FAU.EDU
Boca Raton Campus

The Boca Raton campus is currently the largest area of operations facilitated by the Florida Atlantic University Police Department. The campus is located on 800+ acres of land and houses over 50 buildings. Over 30,000 students are enrolled in Undergraduate, Graduate and Doctoral studies and research.

The campus is patrolled twenty four hours a day, seven days a week by sworn officers and are assisted by the Communications Section that is staffed twenty four hours a day, seven days a week by Florida Department of Health certified Police Communications Officers.

The patrol division utilizes fifteen fully-equipped patrol vehicles and bicycles to patrol the campus community. Additionally, a motorcycle is utilized for traffic enforcement. Four patrol vehicles are assigned to supervisors, each equipped with a mobile data computer (MDC). There are 11 additional patrol vehicles each assigned to a patrol officer. Each officer is equipped with a mobile data computer. The computer enables each officer to spend additional time patrolling the campus as officers can write reports and conduct investigations using their computer.

The patrol officers serve as the front line for the Department in emergency response, case investigations, and traffic enforcement. Officers routinely provide initial follow-up for cases after having taken the initial case report. The Patrol Operations Bureau also assists in security needed for special events taking place within the campus community, such as, athletic events, concerts, planned demonstrations, homecoming, commencement, and traffic associated with students moving to and from campus. The Patrol Operations Bureau operates on a 12-hour schedule. There are four patrol shifts, overseen by a patrol Lieutenant. Each squad consists of a sergeant and a squad of patrol officers. The Boca Raton Campus is currently staffed with twenty four sworn full time officers.
Broward Campus

The Broward Campus is divided into two locations; the Davie Campus located in the City of Davie and the Sea-Tech Campus located in Dania Beach. It is staffed with ten non-sworn Police Service Technicians (PST) and the campus is commanded by a sworn officer holding the rank of Lieutenant. The Lieutenant also has a non-sworn PST Supervisor who holds the rank of Sergeant that assists with the day to day functions of the PST position. The PST’s work three shifts to provide 24/7 coverage in both locations.

On the Davie Campus, we are partnered with the Davie Police Department and on the Sea-Tech Campus in Dania Beach we partner with the Broward Sheriff’s Office for support if necessary.

Directed patrol assignments are given on a daily basis by the PST Sergeant, based on concerns and requests for extra patrol. These assignments are given due to occurrences on or near campus and to provide a visible presence for crime deterrent.

For the safety concerns of the students, the PSTs also assist the Davie campus Student Government with their Night Owls Program. Other duties that the PSTs perform are battery boosts, lock outs, issuing parking citations and writing reports of any crimes or unusual occurrences.

Harbor Branch Campus

The Harbor Branch Oceanographic Institute (HBOI) Campus is staffed by eight full time employees. There are two sworn employees (Lieutenant and Officer) and six non-sworn Police Service Technicians who provide 24/7 coverage of the campus.

The Harbor Branch Campus is located in St. Lucie County on the eastern shore and is considered a Homeland Security point of entry. The United States Coast Guard along with the Florida Fish and Wildlife Commission work in conjunction with our staff to conduct inspections as well as maintain a secure environment for research being conducted on the Campus.
MacArthur Campus

The MacArthur Campus, located in Jupiter, Florida, is staffed with seven sworn officers. The campus is commanded by a Lieutenant who is supported by two Sergeants and four officers. The campus is patrolled 24/7 and is supported by the Jupiter Police Department. There are no non-sworn support staff on the MacArthur Campus; however, there is a residential hall that houses approximately 300 students. Within the Resident Halls there are eight efficiency apartments that are rented to visiting professors, intern students and others from the community.

Located on the John D. MacArthur Campus is Scripps Florida and Max Planck (two of the world’s premier research institutions), who have collaborated with FAU to create one of a kind education programs that will attract the best and the brightest students to the MacArthur Campus. The MacArthur campus also has the Hibel Museum of Arts that displays the work of celebrated artist Edna Hibel Plotkin. Like the Boca Raton Campus, the MacArthur campus has the Lifelong Learning Society which is located in the Maltz Center for Education.

The MacArthur campus is smaller in size than the Boca Raton Campus with few roads; so much of the patrolling is done on foot.
The Boca Raton Campus is staffed with fifteen non-sworn, part time Community Service Officers (CSO). These personnel supplement the Department’s patrol function by responding to security related calls for service and to maintain a high visibility while on security patrol of parking lots and buildings. For example, battery boosts, vehicle lockouts and residence halls patrols are conducted by Community Service Officers. This program is composed of all student employees and is currently overseen by a civilian supervisor who reports to the Deputy Chief of Police. Students gain invaluable experience in this stepping stone program to a career in law enforcement. The CSOs must be mentored and molded into future criminal justice career minded citizens. Involving them in the process of crime prevention and community affairs meetings will increase their investment in this Department and the university as a whole.

In September of 2014, the Florida Atlantic University Police Department and Housing and Residential Life, created a partnership to provide a visible presence within the residential halls. As a result, the CSO Program was expanded to facilitate this need. The residential halls that are on campus are as follows:

- Glades Park Towers (GPT)
- Indian River Towers (IRT)
- Heritage Park Towers (HPT)
- Algonquin
- Parliament Hall (PH)
- University Village Apartments (UVA)
- Innovations Village Apartments North and South (IVAN/IVAS)

The patrol areas for the above listed residential halls were divided into three zones:

- Zone 1 – Quad area: GPT; IRT; HPT and Algonquin
- Zone 2 – UVA/PH
- Zone 3 – IVAN/IVAS

Dividing the residence halls into zones will ensure that all areas are covered with no lapses in coverage.

There are three ten hour shifts (6am-4pm; 1pm-11pm; 8pm-6am).

FORMER OWLS IN SERVICE

Many of our CSOs have gone on to work in law enforcement all over the country including: the Palm Beach Sheriff’s Office, Broward County Sheriff’s Office, Air Marshals, Border Patrol, the Secret Service, among others in local, state and federal law enforcement.

Some of the CSOs eventually became sworn officers with our own Department. We are proud of the outstanding officers that we have been able to recruit from this prestigious program.
SPECIAL EVENTS

Located on the Boca Raton Campus in the Student Services Building (SU-80) are assigned personnel that are available Monday through Friday between 8:00am – 5:00pm to assist with special events. This position is coordinated by a non-sworn member of the Department of Parking and Transportation and generally works with the Captain of Patrol Operations to ensure timely postings and adequate staffing of special events that require a police presence. This section is responsible for:

- Planning and coordinating special events of the Boca Raton campus.
- Managing overtime documentation and billing processes.
- Maintaining oversight on the Department’s special events software Power Details.

#ALSiceBucketChallenge
BUREAU OF SUPPORT OPERATIONS

The Bureau of Support Operations is staffed by sworn and non-sworn members of the Department. The Deputy Chief of Police currently oversees the Bureau, which is divided into the following sections:

- Investigations & Community Relations
  - Communications
  - Victim Services
  - Training & Accreditation

The Investigations Section is staffed by sworn and non-sworn members. It is commanded by a sworn member holding the rank of Lieutenant. The Crime Prevention/Community Relations member holds the rank of Sergeant; the two investigators are sworn members who hold the position of Detective and a non-sworn member who is the Department’s crime analyst and evidence custodian. The section is staffed and operational Monday through Friday between 8:00am – 5:00pm, and responds as needed on evenings, nights and weekends with an On-Call Plan as agreed upon within the Collective Bargaining Agreement. This section is located on the Boca Raton campus of Florida Atlantic University in the Campus Operations Building (CO-69). It is responsible for the following:

- Criminal Investigations
- Crime Prevention Services & Community Relations
- Special Investigations – Internal Affairs and Citizen Complaints
- Pre-employment Background Checks and Investigations for the Division of Public Safety
- Evidence storage and maintenance
- Crime analysis
CRIMINAL INVESTIGATIONS

Criminal Investigations is responsible for all criminal investigations. These duties include case preparation, interview and interrogations, evidence vault management, task force management, obtaining and executing search warrants, and identifying, locating and arresting criminals. Investigators are also tasked with the responsibility of identifying evidence on crime scenes, making sure it’s properly collected and submitted for processing.

The following is part of the Criminal Investigation’s vision for the upcoming year:

- Criminals Investigations Lieutenant and Detectives learn Evidence Vault Operations procedures
- Conduct an annual evaluation of all task forces officers
- Improve Department wide crime investigations knowledge and capabilities
- Training for Criminal Investigations personnel
- Training will be conducted by Criminal Investigations personnel
- Obtain additional equipment and technology
- Focus on collaborative, multi-jurisdictional investigations initiative
- Upgrade current interview room
- Identify crime patterns that may require a proactive investigation
- Hiring an Information Technology member that will be dedicated to the department to assist in the following: update computers and software, assist in developing intelligence, technical/covert camera operations, monitor and record demonstrations, games and major campus events, etc.

CRIME PREVENTION & COMMUNITY RELATIONS

The Crime Prevention & Community Relations component of the Investigations Section provides educational programs on a variety of topics to the Florida Atlantic University community and conducts Crime Prevention through Environmental Design (CPTED) site surveys for Florida Atlantic University. This component of the Investigations Section is also responsible for sponsoring the Rape Aggression Defense (RAD) training course for women. This is a course that is offered to the community on a year round basis each semester and helps individuals develop and enhance the options of self-defense during an attack as well as provide situational awareness to prevent attacks.

As of February 2015, the Crime Prevention component launched a community project called “Owls Night out with the Five-O” with the goal of raising awareness and building community relations. This night of empowerment is designed to foster a working relationship with our faculty, staff and students. It was a collaborative effort with the Palm Beach Sheriff’s Office, the Florida Highway Patrol, the Boca Raton Police and Fire Departments, Metro Taxi, SmartWater CSI, Rape Aggression Defense, FAU Housing and the American Council for Criminal Justice.

This component is also responsible for going to local police academies and the college of criminal justice as well as career fairs to recruit potential suitors for law enforcement positions. We have actively engaged with our very own students and have hired several FAU students that have now become police officers with our agency as well as those who have moved on to other local, state and federal agencies.

DID YOU KNOW?...

The Florida Atlantic University Police Department is the first University Police Department in the nation to utilize the technology employed by SmartWater CSI to detect and recover stolen property and also deploy it as a crime deterrent.
The Police Communications Section is located in the Campus Operations Building (CO-69) on the Boca Raton Campus of Florida Atlantic University. The Police Communications Section is staffed and operated 24/7. There are eight full time non-sworn Police Communication Officers and one non-sworn Police Communications Section Supervisor. There are a minimum of two Police Communications Officers on shift at all times. The Communications Section is responsible for processing both emergency and non-emergency calls for service for the Boca Raton Campus. Non-emergency requests for Jupiter, Harbor Branch and Davie campuses are also handled by the Communications Section.

A Police Communications Officer (PCO) is required to complete training and be certified by the State of Florida Department of Health (DOH) in order to serve as an E911 Public Safety Telecommunicator. Training consists of a state approved 242 hour classroom course in conjunction with 12-16 weeks of direct on the job training with a certified DOH Telecommunicator. Additional mandatory certifications include CPR and the Florida Crime Information Center (FCIC) and the National Crime Information Center (NCIC) computer systems for subject or vehicle information inquiries.

For all non-emergencies, contact us at (561) 297-3500.

In the event of an emergency, please dial 911.
COMMUNICATIONS RESPONSIBILITIES

The Florida Department of Law Enforcement’s (FDLE) FCIC/NCIC System is maintained by the Communications Section with the Communications Section Supervisor acting as the TAC (Terminal Agency Control). FAU is able to enter and confirm items 24/7.

To accommodate the developing FAU community, the Communications Section has upgraded their technology with the assistance of Security Technology Services, to include:

- Motorola MCC 5500 radio system for the main communications center.
- A separate Motorola APX7500 console for the stadium command post.
- Keltron Fire/Intrusion Alarm Receiver.

The Section also monitors fire alarms, intrusion alarms and panic alarm systems. The fire alarms and intrusion alarms are monitored by Keltron, a system employed by Environment Health and Safety (EHS) but housed in the Communications Center. The panic alarms are received and monitored via the phone system. CCURE is also monitored by Communications, which is the card access software.

The Communications Section also monitors the Blue Light emergency phones system. On the first Sunday of every month this section conducts a functional test of all Blue Light emergency phones on all campuses as part of IACALEA standards. The blue lights that are not functioning are reported for immediate repair.

Additionally, PCOs monitor the video patrol through the HDVR Program, a camera network system located throughout all of the cameras on the Boca Raton and partner campuses that are tied into the network. PCOs monitor high risk areas during incidents to assist officers, report suspicious activity that is observed for officers to investigate, and help to identify needed camera repairs by notifying appropriate personnel.

All calls for service and radio transmissions for the Division of Parking and Traffic, Parking Enforcement Service (PES) are maintained through the Communications Section. These calls include battery boosts, lockouts, event preparations, etc.

Additional tasks performed by the Communications Section include:

- Activation and monitoring of the Campus Emergency Alert System and Indoor Alert System.
- Monitoring fire and burglar alarms for Palm Beach State College—Boca Raton Campus.
- Monitoring the LPR (License Plate Reader) System.
- Monitoring the card access control system (CCURE 9000).
Victim Services

The Victim Services Section consists of a Victim Advocate and is a component of FAU’s Advocacy Center that includes a victim services coordinator employed by the Division of Student Affairs. The unit is operational Monday through Friday between 8:00am – 5:00pm. The Victim Advocate is on-call for emergencies 365 days a year and responds as needed on evenings, nights and weekends. The Victim Advocacy Center is located in the library on the Boca Raton Campus. The Florida Atlantic University Victim Advocate does not maintain the rights to confidentiality; however, the advocate works in conjunction with Palm Beach County Victim Services to provide comprehensive services to the victim.

The Victim Advocate is responsible for maintaining compliance through the Office of the Attorney General and is responsible for updating officers when new legislation is passed that affects victims of crime and provides updates through training when warranted. The Victim Advocate also arranges for officers to attend Crisis Intervention Team training and officers and staff to be trained by community partners.

The Victim Advocate educates the FAU community in a variety of ways by providing training for FAU’s Resident Assistants, Resident Coordinators, and for educating students at FAU and PBSC. Victim Services also participates in giving presentations on dating and domestic violence, sexual assault, and stalking through a coordinated effort between the Florida Atlantic University Police Department and FAU’s Housing and Residential Life’s Housing/Police Initiative. Victim Services is also present during every RAD class to make sure past, present or future victims are informed on the services offered both on and off campus.

FAU’s Victim Advocate is very involved in community engagement outside of FAU as well. The Victim Advocate is an active member of the Domestic Violence Council of Palm Beach County and the Fatality Review Team of Palm Beach County, is a member of the Student Crisis Action Committee and the White House Task Force on campus. The Victim Advocate participates and promotes healthy relationships and attends victim safety events on campus events throughout the year.

Victim Services provides services to a myriad of victims including providing crisis intervention services, referring to other agencies for follow up services, providing assistance filling out the paperwork necessary to file for injunctions, providing guidance and support from the beginning of the crime all the way through the judicial process. The advocate also provides emotional support during police or Dean of Student’s interviews, and acts as a liaison between the victim and any other agency, to include but not limited to, the State Attorney’s Office, Victim Services of Palm Beach County, and service providers, to ensure all their needs are met.
**TRAINING & ACCREDITATION**

Assigned personnel are available Monday through Friday between 8:00am – 5:00pm and is located on the Boca Raton Campus of Florida Atlantic University in the Campus Operations Building (CO-69). This section is responsible for:

- Maintaining and controlling all critical need training mandated by the state and local law enforcement entities.
- Maintaining all training documents and certifications in Power DMS and ATMS.
- Maintaining all uniform, supplies and equipment to include fleet and emergency operations.
- The Department’s voluntary accreditation through the International Association of Campus Law Enforcement Administrators (IACLEA)
- Coordinates and compiles data using the Performance Measures matrix for Command Staff meetings.
- Maintains and updates Departmental policies.
- Ensures Departmental compliance with Clery requirements and publishes the Annual Security Report (ASR).
- Maintains all official reports and documents pertaining to police matters on all campuses.
- Submits required reports for UCR.
- Submits required reports to the Florida Department of Law Enforcement (FDLE).
**RECORDS**

The Records Section is staffed by a non-sworn member of the Department who holds the position of coordinator and generally reports to the Deputy Chief of Police. The coordinator is also the Notary for the Department and is assisted by one student employee. The assigned personnel are available Monday through Friday between 8:00am – 5:00pm and are located in the Campus Operations Building (CO-69). This section is responsible for and maintains records for all bureaus/divisions of the Police Department. The Records Coordinator interacts with many different representatives of the criminal justice community by providing records, information and services. Interactions are in person, fax, telephone, email and postal mail. Most interactions require documentation to comply with state and federal guidelines. Interactions with the records section are regarded as significant to accountability with protected information, data and documents from all divisions in the Police Department.

Responsibilities for the Bureau of Patrol Operations:

- Review daily incident reports submitted by patrol and investigations. Incidents are corrected or returned to patrol for spelling, punctuation, inaccurate statute reference and miscellaneous details in subject statistical data.
- Assemble arrest packets for the State Attorney’s Office for disposition on cases and follow through with additional requests on each case from State Attorney’s Office.
- Submit finger print cards to FDLE for active cases.
- Distribute and maintain records of subpoenas for officers.
- Transmit crash reports to DHSMV and Palm Beach County.

Responsibilities for Bureau of Support Operations:

- Compile, file and update all trespass subjects in the hot files in Communications Center.
- Send via certified mail trespass orders to offenders.
- Compile, file and update traceable property in FCIC/NCIC in cooperation with the Communications Supervisor.
- Control and prepare for audit all currency utilized for narcotic operations through investigations.
RESPONSIBILITIES FOR ADMINISTRATIVE SERVICES

Responsibilities for Administrative Services via the Deputy Chief of Police include:

- Remaining current with certifications and training on record management systems used within the department which include ARMS, Police Trak, Crime File 2000, DAVID and FCIC/NCIC.

- Provide approved reports to other divisions of FAU as needed for follow up, including Dean’s Office, Residential Life, media relations and Office of the President.

- Provide reports for people requesting public records from 8am-5pm. Requests are made by students, staff, faculty and other agency representatives. Assist them with providing records and documenting all records provided on authorization forms.

- Liaison for court system and police department staff for all calendar calls and subpoenas.

- Transmit crash reports to insurance agencies and attorney offices with follow up of monetary checks for transmitted reports submitted to the controller’s office.

- Enter all warning and state citations in the ARMS System and coordinating log book.

- Provide weekly transmittal form of citation log book to Palm Beach Court Office.

- Prepare and provide production requests for the University Attorney, newspapers or other social media outlets.

- Provide student police contact records for investigators in person, fax or phone for outside employment.

- Maintain and update files for sealing/expunging arrest records.

- Maintain and update monthly juvenile reporting form.

- Prepare and update monthly Hate Crime Form.

- Bi-annually prepare and report Uniform Crime Report (UCR).

- Yearly (via monthly check system) prepare and report Clery Records.

- Attend yearly conference for ARMS (record management system) and other seminars related to active system and retention guidelines applicant to the records section.

- Prepare and update Emergency Contact Information of all police department essential personnel every May in preparation of hurricane season.
OWL SERVICES
FINGERPRINTING
Provided at the Florida Atlantic University Police Department
No Appointment Necessary!
Monday – Thursday
9:00 am – 3:00 pm
Fingerprint cards are not provided
Free to FAU students, faculty, and staff

SILENT WITNESS
Perhaps you’ve witnessed a crime on campus, or you have some pertinent information about a crime or incident that could be helpful to campus police, or another law enforcement agency. We understand the apprehension about reporting crimes or incidents face-to-face with police, so we have instituted the Silent Witness Program.

The Florida Atlantic University Police Department Silent Witness program provides a means of communication for members of the community to anonymously provide us with information on unsolved crimes, crimes in progress, or any possible threat to the safety of our community.

PROPERTY
Protect Your Property From Theft!
Bicycle registration is free to the campus community and to the general public. Bring your bicycle to the Police Department front counter during normal business hours, and your registration will be processed there. Starting Fall 2015, you will be able to register your property online via our website.

Always secure your bicycle frame to a bicycle rack or stationary object with an alloy hardened U-shaped lock (even if you’re only going to be gone just a minute). Most locking cables and chains, regardless of a hardened case, can be cut with bolt cutters. Report any suspicious activity that you observe in or around the bicycle racks.

It is always a good idea to register your bicycle with the University Police. Registration serves as a deterrent to theft and aids in the recovery of stolen bicycles. In addition to your registration, we will supply you, at no cost, a SmartWater CSI kit that was purchased by Student Government in collaboration with the Police Department. We will also provide you with an alloy hardened U-shaped lock free of cost if you do not have one.

RAPE AGGRESSION DEFENSE
The Florida Atlantic University Police Department sponsors Rape Aggression Defense (RAD) training throughout the school year. It is a free course that is taught by certified RAD instructors and is provided for women only. It requires a $10 deposit for students, $20 for faculty/staff, and $30 for non-FAU affiliated persons. The deposits are refunded after the completion of the 3 required sessions. This course is designed to develop and enhance the options of self-defense, so they may become viable options to the woman who is attacked. Furthermore, they help to raise awareness and risk education strategies along with physical defense techniques.
ANNUAL & LONG-TERM GOALS

Annual goals and objectives specifically define a path to meet current and future service demands identified by expectations from the community for the delivery of quality police and security services. Florida Atlantic University Police Department leaders routinely receive feedback from the Florida Atlantic community through ongoing meetings with faculty, staff, and students. The Department will institute a bi-weekly meeting with faculty, staff and students called “Coffee with the Chief,” which is designed to have informal conversations with the community with the intention of breaking down age-long barriers. In addition, Department staff are encouraged to make suggestions for service improvements that are creative, innovative and efficient. The goals and objectives may change depending upon the development of other operational priorities, change in funding allocations, or service expectations. Quarterly benchmarks and progress are reported by each major component within the Department to measure progression and success.

Annually prior to the start of the new fiscal year, the Department’s goals and objectives are reviewed by executive leadership. Our “Multi-Year Plan” is foundational for the on-going self-evaluation or service and process improvements. This plan will be published triennially and is reviewed and updated based upon the benchmark reports.

Florida Atlantic University has rolled out “A Strategic Plan for the Race to Excellence,” and there is an expectation that the student, faculty/staff and visitor population will continually increase throughout the established timeframe.

The Housing and Residential Life division of Student Affairs have opened three new residential halls, Parliament Hall and Innovation Village Apartments North and South, yet we have not increased our staffing to model the increase of on campus living. With the previously described additions and improvements, the Florida Atlantic University Police Department anticipates an increase in service delivery and workload. As the University extends its footprints throughout the state, the country and the world the overall population of the community will increase and as such greater demands for police and safety services follows. As a result, we have outlined several opportunities for capital improvements and equipment upgrades as well as a pro-

</table>
| Decrease the number of thefts and other crimes and increase the opportunity for apprehension of a perpetrator by utilizing extra security measures. | 1. Assign police crime prevention specialist to liaison with Housing and Residential Life and to conduct building surveys.  
2. Develop maps and integrate it with the Intellex Software to enable cameras in theft hot spots. This will help camera operators quickly navigate to cameras instead of looking at a list.  
3. Identify existing cameras connected to FAUPD’s Intellex Software and integrate them into the alarm system. This will allow the police dispatcher to be alerted immediately whenever a door has been breached.  
4. Identify high hit crime areas and identify camera needs.  
5. Provide skateboard locking racks at various locations on campus. | 1. In Progress  
2. In Progress  
3. In Progress  
4. In Progress  
5. In Progress |
| Prepare and submit a proposal for the Assistant Vice President of Public Safety to update the current, Computer Aided Dispatch (CAD)/ Records Management System (RMS) through OSSI. (FY 2015 -16) | 1. Streamline the process for report entry, update, and approval.  
2. Enhance service ability and improve the accountability of CAD and record entry.  
3. Enable the Quartermaster to transition all uniform and equipment to an automated system for management and documentation. | 1. In Progress  
2. In Progress  
3. In Progress |
| Develop a protocol for notification to the AVP of Public Safety of enterprise construction, acquisition, or changes in use that may require a security risk assessment, compliance reporting and/or timely notifications. | 1. Increase effectiveness in ensuring security equipment such as cameras are in positions that are advantageous to reducing and/or detecting crime(s).  
2. Enhance FAUPD’s ability to capture data for compliance reporting and timely notifications. | 1. FY 2015-16  
2. FY 2015-16 |
| Develop and implement a pedestrian safety plan “Eyes up Wise Up.” | Decrease pedestrian injuries through information sharing about pedestrian safety tips. | In Progress |
| Develop resource binders for each Residential Hall and academic building with basic information for emergency planning and preparedness. | 1. Include listing for point of contact to include name and phone number(s), information related to access and egress with blue prints if available, and security risk assessment.  
2. Assist patrol develop a contingency response to each building. | 1. FY 2015-16  
2. FY 2015-16 |
<p>| Develop and implement a new vehicle service, maintenance and mileage tracking system that works with a GPS function on all Department fleet vehicles. | Increase accuracy of records; increase life and longevity of vehicles in use. | FY 2015-16 |</p>

| Relocate Records Division                                            | 1. Provide better customer service to walk-in foot traffic utilizing existing building framework  
2. Allow all records files to be maintained in one secure area                                                                     | 1. FY 2015-2016  
2. FY 2015-2016 |
| Implement plan for succession planning of Records Coordinator position | 1. Allocate funding to hire and train assistant to transition into coordinator position within 18 months of hire date                                                                                       | FY 2017-2018 |
| Implement, on the MacArthur Campus, a non-emergency calling center to be utilized by staff and students | 1. Provide better accountability of incoming calls to the police. Calls will be recorded, entered into CAD and police narrative notes can be added as needed by patrol officers | FY 2015-2016 |
| Include all exterior doors on card access system on MacArthur Campus  | Allow instant lock down access remotely and provide limited access to authorized users as needed                                                                                                | FY 2016-2017 |
| Add cameras and relocate existing cameras on the MacArthur Campus     | Provide better coverage in areas that are not visible                                                                                                                                                     | FY 2016-2017 |
| Install traffic arm bars on MacArthur Campus for resident parking areas | Allocate secure area for residents to park in that is in close proximity to their resident hall eliminating parking in low light spacing or out of area.                                                    | FY 2015-2016 |
At the present time, the Florida Atlantic University Police Department is operating key functions and mission critical areas with systems or equipment that cannot provide fundamental information to meet routine and compliance needs. During the next two to three years, the Florida Atlantic University Police Department’s goal is to replace these systems as outlined below:

- **Computer Aided Dispatch (CAD) / Records Management System (RMS)** – FY 2014-17 - $TBD via OSSl agreement with the City of Boca Raton.
- **Upgrade Police Radio System** – FY 2014 - $250,000 (project completed).
- **Upgrade Police Communications Center** – FY 2015-16 - $TBD (part of current architectural redesign of the Police Department).
- **Duty Weapon Upgrade** – FY 2015 $20,000 (project completed). This was needed due to weapons being outdated and the cost of replacing was more cost efficient than to have them repaired.
- **Camera Expansion to Intersections/Traffic and Parking Lots** – FY 2017 - $250,000.
In 2013, the Florida Atlantic University Police Department accounted for 37,068 generated events which resulted in 7,860 calls for service. In the following year, there was a total of 52,319 events generated accounting for 7,418 calls for service. It is important to note there was a significant reduction in calls for service in 2014 (see attached chart); however, officer visibility and presence has increased throughout the campus. In a move to enhance our physical presence and shift toward the technological advances of the century, mobile data computers were purchased, issued and placed in patrol vehicles. This allows officers to remain in the field to complete reports that they would normally have to return to the station for as well as maintain their security presence around the campus. The addition of our new performance measures accountability tool has been a great asset for our Department as well. It allows the officers to become aware of their time spent on patrol which resulted in a more visible police presence in less than a year. Our security checks of buildings and parking lots in 2014 was 11,737, almost 3 times as much as 2013 which was 4,855. Foot patrols in 2014 was 7,419, twice that of 2013 was 3,346. Although traffic stops did not increase significantly from 2013, the actions taken showed a significant increase in enforcement.

The Florida Atlantic University Police Department provides police and security services to many events including, but not limited to, concerts, athletic events, Freshman Move-In, Commencement, speakers and visiting dignitaries. In addition, we are called upon to provide services for construction projects, traffic direction and personal protection as needed. In 2011, the Department tracked by fiscal year all of these events using the Power Details software, which included hours worked and cost as well as information about the funding source.

In 2013, there were 299 events worked accounting for 4,878 hours used. In 2014, we saw an increase, with 353 events worked accounting for 6,313 hours used. This does not account for hours used from court or shift overtime due to manpower shortage.
