

Brother® IntelliFAX 2820 Laser Fax

Specially designed for bustling offices, the IntelliFAX 2820 has 8MB fax memory for storing up to 500 pages for out-of-paper reception and fax broadcasting to as many as 270 locations. Plus, Dual Access capability lets you QuickScan faxes into memory while the unit is busy sending or receiving another fax!

The 2820's front-loading 250-sheet paper capacity, 14.4Kbps modem for speeds up to 6 spp (seconds per page), 20-page auto document feeder (ADF) and 200 speed dial capacity combine to handle your demanding fax requirements. The 2820 delivers laser performance as well as reliable convenience-copying at speeds up to 15 cpm (copies per minute). This machine keeps you productive — it even receives both voice calls and incoming faxes on the same phone line via automatic fax/phone switching technology.

This multifunction machine features a USB interface for laser printing at up to 15 ppm (pages per minute) after downloading the necessary software from Brother's Web site (USB cable sold separately); you can also download PC Fax capability. Its answering-machine interface lets you use this machine as your fully functional phone. Take advantage of this incredible mix of capabilities in 1 compact machine!

Price as of December 2006 - \$199.99

Product Details
