Regulation 5.002   Faculty Evaluations

(1) The University shall conduct periodic evaluations of its faculty in accordance with the procedures below or for in-unit faculty, if applicable, the terms of a collective bargaining agreement. Failure to comply with this procedure shall not invalidate an evaluation or affect its substantive content, but corrective measures may be taken if a faculty member is actually harmed or prejudiced by the noncompliance.

(2) The annual evaluation shall take place ninety (90) days after the end of the evaluation period and shall evaluate the faculty member’s performance during the evaluation period (academic year or calendar year) based on assignment.

(3) Each faculty member in an academic unit shall be responsible for preparing and delivering to the evaluator the materials relevant to evaluate his/her teaching, research and other creative activities, service and other University duties. Faculty members with duties performed under the supervision of University officials such as Deans, Directors or the University Provost may have the performance of their specific duties evaluated by their supervisors.

(4) A faculty member’s performance evaluation shall include a summary written by the evaluator. In completing this summary, the evaluator shall consider the duties formally assigned to the faculty member each evaluation period.

(5) Evaluation shall be based on performance in the areas of teaching, research and other creative activity, service (including any service to public schools), and other University duties.

(6) Where appropriate, the evaluation shall include evaluations by students, other faculty members, any public school officials, and other University officials responsible for supervision of the faculty member.
