\*\*Discuss with your advisor: You may want to substitute an additional science course for the Sociology or appreciation course.

\*If you will be taking a math course, you must have either taken a math course this fall or take the ALEKS Math Placement Test by November 13, 2009 ([www.mathplacement.com](http://www.mathplacement.com)). **Please see your Freshman Academic Advisor to confirm which math course is appropriate for your major and your skill level.** Please note that if you do not earn a "C" or better in a current math course, you will be required to make changes to your schedule in consultation with your advisor.
