Boris: last week we in-housed several people, some were not here and some left early. I see Mr. Maher and Katie Gootenberg. I would like to call on the president because I see him. [The president gave the oath of office to Cyrise and Maher] you can now sit in the first; you will get name tags soon.

*Absent: Alincy, Berichi, Gorry, Ortiz, Pollock, Sosa,

APPROVALS:
*Motion by Varela to approve the March 25th, 2011 minutes; seconded by Rudnick
*Motion by Coicou to approve the April 1st, 2011 agenda; seconded by Tepper

SPECIAL ORDER SPEECHES:
Tepper: Hi guys. I just want to give you a quick announcement for Relay for Life. I know many of you are going to be there with many of your clubs you can come and go throughout the night.
Dumas: This is more of POI it would be really nice if people didn’t talk during the committee meetings. We had many bills to discuss today and it was really loud.
-POP: Massetti at 3:43PM
Boris: To go off of what she said I agree, I am not always able to police the workroom. As you can see we have printing issues on Fridays. Today on new business if you look at the bills you will see that the total amount is about $61,000. I have never seen it that expensive before. Some of you will be concerned with the amount of money, some will wonder if it is fiscally responsible, some with be giving their views. If you add up all bills paid and these, we are still sitting on $98,000. We are not voting on wasteful things. We are spending more because we got more; we are only spending in proportion to what we got.

OPEN FORUM:
Brown: Senator: If you turn to the 2nd to last page of your agenda you will find a new resolution. Housing is now requiring all resident students to get a meal plan over the summer. An average student receives less than $3,000 of financial aid over the summer, they have to pay for credits and housing and now they are required to pay $1,330 additional for a meal plan putting the students more in debt. And I think this is absolutely ludicrous and on top of that in the housing contract nothing states you have to pay for a meal plan. They sent out an email because they were given until April 14th, so I will try to push it through so that before that time if students can’t pay their bills they can drop housing without any charge to their account. One thing President Saunders Cares about is retention and this could seriously affect our retention rate.

Questions:
Boris: Are you aware that I was not happy to get that email?
Brown: Me neither.
Boris: Are you aware that some of us are lucky and there are some students that pay out of pocket.
Brown: Yes

PRESIDENT’S REPORT:
Maher: This might be my shortest report ever. I don’t have much to say today. The committee for the new coordinator met today and the recommendation was Heather to recommend the two top candidates. Boris, Rachel Pop, and I and Alicia Keating from SIL. I think we had a really good discussion; it was a good process that occurred today.
Relay for life is a good event, I hope more of you go. It is something to go because you see anywhere from pre-pharmacy to ASU to fraternities and sororities. It is for good people, it is a good cause. The traffic and parking will be meeting April 4th and hopefully the house. I am trying to select a disabled student to the board because; I don’t think that some people that are unable to drive should have to pay for a parking fee. And I think that it is something that needs to be heard. And I think it would send a strong message that they shouldn’t be collecting fee from people that can’t drive. We also have an athletic fee. I support a lot of legislation on here. The new computers, it is going to make it more useful. It is a big step in order to make GAC and legislative workroom and I think that the resolution for repealing the summer meal plan is good and I want to thank Senator Brown for coming every week. In terms of the health bill I agree with the process, but I ask you is this something that you want to fund every year? I don’t think we should stop it and to offer a service one year and pull it away. Parking racks, we are still waiting for the quotes from Shannon Clouts. They haven’t gotten back to us, but the university doesn’t like galvanized rack. Other than that I have more stuff to tell you, but it can wait until next week.

Questions:
Capata: Who were the last two candidates for the program coordinator?
Maher: Mike Burdman and Amelia
Guimares: What is the requirement to serve on the traffic and parking committee?
Maher: We can’t about a particular student, but a 2.5 GPA
VICE PRESIDENT’S REPORT:
Maher: I have to announce that the vice president resigned today. April fools!

GOVERNOR’S REPORT:
Gentry: I apologize for not being here the last two weeks, I was sick. I want to thank those that kept stress week organized. My suggestions were to strike out under the hiring section for the GAC members it says that they should have the CRAB and SUAB committee but we should strike that out [702.121.DX.1 and 702.121dx11] and 702.121e, when it talks about the governor, I would like to add past director at governor and advisor discretion and under treasurer make it a biweekly instead of weekly. Make under 702.300
And that way if it is in the statutes everyone will know and if the House votes to change by 3:4 they can under 703.813 add underneath for C, make it 703.81c i. This includes organizations that appeal COSO’s Budget Policy. Rules and policies will review instead of me and speaker. The two sections at the end about the campus rec. director and section for the GAC members it says that they should have the CRAB and SUAB committee but we should strike that out and 702.121.DX.11 and 702.121e, when it talks about the governor, I would like to add past director at governor and advisor discretion and under treasurer make it a biweekly instead of weekly. Make under 702.300
Also for the housing thing. I think with the cabinet it is administrative and by starting this team effort hopefully it will continue next like this because more man power.

Questions:
Phillips: Are you aware that all 3 committees are going to table the 700 this week because coso and pet want to add and if you would like to add you should come next week?
Gentry: I just gave her that copy, I will come next week.
Grider: You said they are portfolios, are they the nice ones?

-POP: Dumas at 3:59PM
Gentry: no cost to us and we will do the towels and beach mats at that events. I tried to get owl radio for stress week, what we can do with Eric with their sound and I am looking at a quote for the mock tails for that day and Monday and Tuesday we will need bags those days. Also the portfolios and the pants I want to give out at late night breakfast and I talked to massage therapists they should be free, but that is pretty much it. I think by helping with stress week this is a good step at making it a Boca campus thing. I think with the cabinet it is administrative and by starting this team effort hopefully it will continue next like this because more man power.

Questions:
Phills: Are you aware that all 3 committees are going to table the 700 this week because coso and pet want to add and if you would like to add you should come next week?
Gentry: I just gave her that copy, I will come next week.
Grider: You said they are portfolios, are they the nice ones?
Capata: Can you give me a list and times?
Gentry: you will get one if you are helping, but we will definitely hand them out
Capata: Can you give me a list and times?
Gentry: Yes and depending on availability, it may be a lot of money but they are good quality they are big beach towels.

CHIEF JUSTICE REPORT:
Scalice: to update on status for Associate Justice we should have it done by next Friday. A student court meeting was called to order for 2 cases 2011.02 and 2011.03 it was an appeal and formal petition, public notice was given and before meeting. The difference between meetings and hearings and some of the legitimate reason, so after the court was aware of options, the court voted unanimously to move forward with a hearing on the 6th at 7:15pm at night in the SU, but we have not found a room and that should be sent out as soon as we hear what room. After that we had the election appeal, we deliberated it was a split decision, I voted to move forward with a hearing. In summary we are moving forward with hearings, we will move forth. Everyone is inviting it is an open meeting. Minutes for this meeting will be available later today. Also the bike rack we are waiting for Shannon clouts quote and I think it some discrepancy.

*Motion to admit all members by Wu; seconded by Montes

Questions:
Arsolino: would you be opposed to us tabling it indefinitely until you get a final number just for the sake of saving paper?
Scalice: I would not be opposed; the only concern is to get the bike racks on this campus. As long as it gets returned so we can finish the work we started for students it should be fine.

Boris: Point of Order: You cannot use cell phones you can get fined for conversing in state meetings.

*Motion to move house forum after chair reports by Dumas; seconded by Capata

PROGRAM REPORTS:
PET: Angela Moorman: Director: Happy April, we have our 20th annual triathlon, as our 20th it is going to be a weekend long event this year, so Friday we are having a mixer at lifetime fitness, a meet and greet for all competitors, and Saturday it is a mini bike ride it will start about 7am and it is 25 miles to 50 miles. They can pick up packets in advance. On Sunday there is biking swimming and running that is our weekend long event. Also there is a bill proposed, we do supply brochures and condoms in our office. We are low and that is great because people are using those items. So we are on a very low level of both right now, they aren’t always able or comfortable talking to us, so they take brochures, we would definitely like to have brochures. As for condoms that is a very big deal, we found out that in the next month or two condoms can increase by 3 times because a company was bought out. We do sexual presentations and if we cannot provide them means to be safe they may not be.

*Motion to admit all members by Montes; seconded by Tepper at 4:14PM

COSO: Huffman: Director: we had a meeting yesterday. Tepper was elected as academic council chair. We have one more COSO meeting, right now we are planning the SOAR banquet, so if anyone would like to. The clubhouse you can RSVP the day of the SOAR banquet is on April 21st. I hope all of you can attend and nominate as many people as you would like. We put in a bill today to release the riders for the fall and contingency account, that account is locked to the contingency account. With the new extension of the clubhouse. We already got this for the colors and design that is going to be a workspace or all student organizations to come in. A big issue with clubs is trying to find storage space. We are looking to get the rider released on two accounts, so we can purchase those items so we can get new club house.

Dunne: Was does COSO stand for?
Huffman: The Council of Student Organizations
Dunne: Never heard of it before.
Huffman: every organization is in COSO.

STUDENT GOVERNMENT ADVISOR’S REPORT: None

IN-HOUSE ELECTIONS:
Boris: it is a mini house election we will start with Alex Alford.

ALEX ALFORD:
Alex Alford: I am Alex Alford; I would like to be an in-house member. I am a freshman here at FAU and I want to be in the House of Representatives to help the student body and make changes at FAU.

Questions:
Capata: How did you hear about Student Government?
Alford: A friend gave me an in-house application and I signed it.
Capata: what is one thing you want to bring to student government?
Alford: I wish too...
Capata: if you want to do one thing. What is one goal that you want to see come true?
Alford: That. I am thinking off the top of my head. I can’t think of a specific thing at the moment.
Cyris: Have you done any community service hours?
Alford: Not since High School
Cyris: What kind of service?
Alford: I volunteered at a summer camp. I was in a march of dimes to pick garbage at the end.
Maher: would you be able to make all of the house meetings?
Alford: Yes

Anastasi: Do you live on campus?
Alford: Yes
Dumas: It says here you have a class from 2 pm to 320, will you miss the meeting?
Alford: I have it until 3pm.
Dumas: so that means you are going to miss committee meetings?
Capata: Not if t is at 1:30PM

ERIC JAGODINSKI: [Not present]

JAMES NICOTRA:
James Nicotra: Hello everyone. I heard about student government through the focus group and I really got interested in it. I really like the idea of participation. I never heard that the students had that much power. I would really like to do everything and I think I can. I want to make the student lives better here.

Questions:
Anastasi: I think it is really cool that you came to the focus group and are you aware I am going to vote for you?
Nicotra: Thank you I am aware now
Coicou: What concerns make you want to be in the house?
Nicotra: I saw that SG could do something about it. I didn’t know that there could be much done as well as all the other issues.

Wu: I see that your current GPA is a 2.69 and you are taking 13 credits, do you think that you will be able to keep a good academic standing?

Nicotra: Yes, the reason why it is so low is because math isn’t too good for me.

Rudnick: you said that you work jobs, will your jobs effect the meeting times?

Nicotra: I just got rid of one of my jobs so I should be okay if only Friday

Grider: are you involved in other campus clubs?

Nicotra: I just stopped my other job 3 weeks ago so I haven’t really had the time.

Varela: are you aware that after we vote you in I am looking forward to working with you.

Nicotra: I am now aware

Aarons: Are you in my globalization class?

Nicotra: I think I might be.

Boris: we will now do roll call votes on these gentlemen.

ALEX ALFORD:

Vote is 28 yes to 2 no

*POI: Rudnick if the person isn’t even here so why should we vote him in, if you are going to be involved with SG you should be here.

Varela: did he email you?

Boris: No these 3 did not contact me at all.

Varela: so those are here without receiving an email from you?

Boris: I sent all of them an email none of them sent one back.

Anastasi: before you all vote you should read about what you want to do in student government.

-POP: WU at 4:29PM

-POP: Capata at 4:29PM

ERIC JAGODINSKI:

-Motion to admit all members by Varela; seconded by Tepper at 4:31PM

-POP: Mohi at 4:31PM

Vote: 23 yes and 5 no

-Motion to admit all members by Tepper; seconded by Smatrakeleva at 4:32PM

JAMES NICOTRA:

Vote: 28 yes to 1 no

-POP: Tepper at 4:33PM

-Motion to change the second oath of office to the recently now elected to after chair reports by Massetti; seconded by Arsolino

Objection Blouin: pro-con: I don’t think they should vote on things they don’t know about yet.

*POI: WU: is the president even here?

Rudnick: I agree with Blouin.

Varela: to be realistic I don’t think half of the house really knows what is going on. Not everyone in this house can know what is going on the bills are pretty well written. When we come in we should know the business.

Smatrakeleva: If we swear in these two members, we should read the bills.

Capata: if you are here. I think we should wait and let them get used to it.

Rudnick: if we start reading bill it would just waste time.

-Motion to close the floor by Montes; seconded by Coicou;

Boris: I am not going to entertain that motion because the person who made the motion did not speak.

Massetti: most to the bills. Most of the people that are elected even if you do not know what is going on you have to come in your first day. Don’t think they should sit back there.

Coicou: a lot of these bills and resolutions are going to get tabled.

Grider: if we wanted to change why not last week? I agree with Smatrakeleva; I would like to say that everyone should know what they are talking about.

Dunne: why don’t we just vote on it to see if we agree or not?

Boris; the original motion was to amend the agenda to put the oath of office before chair reports. A vote of yes is we should amend the agenda to put the oath of office before chair reports a vote of no is to keep it is where it is.

Vote: 20y and 8 no [motion passes]

Boris: I would like to call the chief justice up.

[Scalice give oath of office to Alford and Nicotra]

Boris: you can now sit in the first 4 rows

-Motion to admit all members by Wu; seconded by Smatrakeleva?

Boris: When we get to a new piece of business any person has the right to have the bill read.

CHAIR REPORTS:

COC: Grider: NR

-POP: Grider are 4:44PM

RP: Philips: old business 11:02 more bike racks recommend table for another week. Brhb1107 mutualism at FAU, pass that today in the house. Revising the statutes we want to table that another week. BRHR 1108 reduce late parking citation fees. We want another week to do research

WM: Massetti: before the recommendations I just want to announce that the committee has been working with the marketing bill working with Abby to get a price quote so we can all just approve it or not. We will have the shirts in one or two weeks. We had a great turnout in attendance thank you for being there. 1102 tabled and wait until gives a price. 1107 passed today. 1111 passed today. But the COSO and PET did not come to us to speak to us. Our recommendations are only the bill 1108 go to rules and policies.

Questions: None

CA: Arsolino: bike racks, we didn’t talk about, but honestly there is no reason to even talk about them anymore. Scalice we can table indefinitely we are just wasting paper. Mutualism pass that as well. PET came and talked to us. The committee was kind of split and maybe have. The parking citations. There are a couple representatives that want to make amendments.

Questions: None

CB: NR: Dumas

HOUSE FORUM:

Lupo: a lot of these new bills look really good brhb1106. I totaled up the numbers and it comes out to $11,000 do we really want to spend that much money on contraceptives. I feel like some of the brochures are kind of ridiculous. Do we really need to know 50 things before we have sex and before we use condoms? I feel like it is a little bit different. Also the last bill had to do with the parking garage. Let’s make FAU safer. If you look at the end it says no student is allowed to bring any gun or any type of weapon, what is a weapon because my key could be used at a weapon. There is no price. It talked about putting glass windows especially in the first floor. I think this bill behind it is good. I don’t think it should be passed.

Questions:
Brown: Are you aware that the Mrs. Fritz resolution is to split the contract and mine is to get rid of the summer meal plan?

Dumas: Are you aware that it is just a resolution?

Varela: I am aware of that, but if there is a difference between summers and fall and spring than that makes sense.

Lupo: Not fifty

Wu: Do you believe in cutting it in half.

Lupo: Yes

Dumas: Are you aware we already fund PET.

Lupo: Didn’t the president say do we want to continue to fund them.

Dumas: Because we already fund them for future they would have to go through the budget process.

Lupo: Thank you I am aware now.

Massetti: You said you want to table indefinitely. When you think it is a good idea?

Blouin: In regard to brhb11-16 they are out of brochures so some of them would like to know what to do before having sex and some people might need to be educated on that.

Lupo: I was homeschooled and I do know how to have sex. I know that this was not an issue at all. I feel that we could use money for the library and that is more constructive for students.

Blouin: There are a lot of ideas that were not mentioned here that we are still going over.

Capata: This is the only place they can get condoms. A lot of students aren’t really in tuned for them and this is the only place they can get it. And if people are going to have sex at least don’t get pregnant don’t be stupid.

Lupo: I am aware now. I don’t want to cut completely the condoms. I just feel like this is a little much.

Boris: Time has expired.

*Motion to extend speakers time by 2 minutes by Coicou; seconded by Montes 2

Capata: I don’t think that you want to kill it. We do have a surplus. We have to look at it. Spending this amount of money isn’t a lot compared to it being the whole pot.

Lupo: I feel the money could be used for something a little more constructive.

Massetti: Are you aware they said they have a surplus. That department could come and ask them. It should not be up to us to decide how much things they should do. We should give them money for the things they promote.

Lupo: I agree I just don’t agree with the fiscal part.

Aaron: I sort of agree but what is more important than promoting student health?

Lupo: I just think that is a little much.

*Motion to extend the speakers time by 2 minutes; seconded by Ward; objection by Blouin, friendly amendment can we make it 3? [Accepted]

Wu: Have you actually read any of these brochures?

Lupo: No I don’t think that has anything to do with it.

Wu: Don’t you think that is a little hasty to make that decision?

Lupo: I am not telling them how to run their program, I just think it is a lot of money.

Phillips: Are you aware the reason why they are requesting it is because condoms are about to triple?

Lupo: I am aware

Rudnick: Are you aware that they use this brochure for programming and education in a resourceful way?

Lupo: I am now aware.

Blouin: Are you aware that there are tons of brochures. Every part helps health.

Lupo: I am aware

*Motion to close the floor by Capata; seconded by Rudnick

POP: McCoy at 5:00PM

Varela: mutualism at FAU the amount given in the bill and the brown one is different. Why? Brhb1108. The parking citation fees. Yeah there is no warning they send an email to us before school starts you can’t assume that everyone understood and would read. We need something that says; hey you messed up don’t do it again. The new business. When she came up she said they need brochures and the condoms and the items line for the condoms is also lube and other things. If we want to give them condoms, give them condoms. Brhb111 the governor is giving $65,000 from her account and we are giving $35,000 from our account, it is a good amount. FAU safer, Leandro great idea. The parking garage is unsafe and we need to make it that way, but I think we should table it because we need to make it more fine tuned. So tabling is a good idea.

Questions:

Brown: Are you aware that the Mrs. Fritz resolution is to split the contract and mine is to get rid of the summer meal plan?

Varela: I am aware of that, but if there is a difference between summers and fall and spring than that makes sense.

Fitz: Are you aware there is a difference between summer and fall and spring meal plans?

Varela: I am now aware.

Blouin: Are you aware that I am really glad you looked through the line item. Are you aware?

Varela: Yes.

Blouin: Follow-up: there are only 3 items that are not condoms on this list right?

Varela: Yes but they said just condoms.

*Motion to admit all members by Capata; seconded by Montes at 5:04PM

Capata: I am the de-stressor liaison. I worked with the governor for stress week. I worked with Marcus Washington to pick out the items. On brhb-11-16 the purpose of having lube there is there to help condoms not break. I agree with the lube because some women are too dry, it is a health condition. Anyways, Stress Week, I am going to come here every week and everyone is going to do something for stress week. I expect everyone. Unless someone dies, and if you are not get out. Let’s make FAU safer. Leandro, I am so proud of him, I really am, it’s awesome I am really happy for him. If you look and the list of your phone number if that is not you number let me know please. I will find you. And I will be emailing you a list of when the sign up times are. Don’t everyone come on the same day either. I am going to have block out dates.

Questions:

Varela: For the health and awareness. Are you aware she asked for condoms and flyers?

Capata: I think we are aware that lube is to aid condoms so if she needs condoms she needs lube.

Varela: Are you aware she only said she needs condoms?

Capata: Yes, but she needs the materials that go with the condoms if she is going to buy condoms.

Massetti: Regarding the stress with stress week. The governor is asking us to pay $35,000 for stress week. How much did we spend last year on stress week?

Capata: I don’t have those numbers; we didn’t even have a stress week for fall. So we are trying to compensate.

Massetti: So we are giving almost $40,000?

Capata: We are giving $30,000.

*Boris: The bill for our account is for $30,000.

Massetti: So we are giving $30,000. How much of the items will have the House of Representatives on it?

Capata: I am going to direct that to Boris.

Boris: It is going to say BRSG.

*Motion to extend the questioning time by 2 minutes by Rudnick; seconded by Coicou; Dunne roll call

*POI: Blouin: It is going to take longer to do a roll call.
Vote: 17 no to 13 yes
Rudnick: I am just going to talk about brhr-11-16, PET actually needs our assistance. They can't come back to us anymore. Voting on this it is just for this year only and if you take a look at the line item. It is also dental dams. And candy give outs. This will promote whatever they will promote. There are all kind of things here that make students aware. Sponsoring this and helping to pass brhrb1116 would be wise.

Questions:
Blouin: are you aware I am glad that you are involved and reading?
Rudnick: I am now aware.
Coicou: are you aware that I agree with Shane?
Rudnick: I am now aware.
Capata: are you aware that I agree with him?
Rudnick: I am now aware.

-POP: Blouin: are you aware that it is easier if you do not talk.
Dunne: about brhr1108. I think rep. Varela talked about adding a warning for the parking citation for the next time you have a parking citation the amount will be paid for and for brhrb1117 I would like to know the and the member of the house have a list of stress week events until we approve and brhr1110 I feel the whole bill is talking about the parking garage and not the entire campus. I would recommend adding there buildings, like dorm, or the rec. center.

-POP: Rudnick at 5:16PM

Guismieres: I wrote a resolution let's make FAU safer for people that are not aware. SCARE. I put a lot of stuff that overlaps. I wanted the house to decide which to implement.

In the future you could make FAU more safer going in other areas of campus as well and I believe that FAU could be more safer and cleaner in the future.

Questions:
Wu: with the bill that makes FAU safer there are shortfalls in the camera angles?
Guismieres: I was in a class and there were cameras that don't look anywhere.

-POP: Phillips at 5:18PM

^POI: Anastasi: in the beginning of this year didn't we pass the bill that makes pepper spray not a weapon. So pepper spray is still a weapon?
Boris: from what I understand chief lo said that they don't really think of those as a weapon.

Anastasi: But technically yes. What do you consider a weapon?
Leandro: that is correct I guess you would want to put in relation of the law.

Anastasi: so you would say a gun and pepper spray is a weapon?
Leandro: I guess.

Kristina: In your bill you would want windows to be on all floors of the parking garage?
Leandro: Yes

Kristina: Follow-up: Are you aware that will doing that it cars emit a gas that is poisonous to people and that we would need to let the gas out?
Leandro: There are gaps that would let the gas out.

Capata: The one thing I don't like about the bill is that cars emit Carbon Monoxide and... Are you aware?
Leandro: Yes

-POI: Dumas: I think he included the weapons because it is a part of the law anyway; the definition of a weapon is in Florida statutes.

Aarons: BRHB1116 as you know I am involved in normal. I really despise their pamphlets. There information is really outdated. Let's just wait a little bit to look at their pamphlets.
Dunne: what pamphlet what would you want them to offer?
Aarons: if you are going to use drugs, give them also pamphlets about how to use them.

Capata: are you saying that we are support healthy injections. Are we going to get instructions are you aware?
Aarons: it is like, I am sure most of you were told not to have sex, most of teachers say if you are use a condom.

Gordon: are you aware that in Switzerland they use this type of a pamphlet and it works really well?

Aarons: Yes, I am aware.

Massetti: are you aware that you just related sex with shooting heroin?
Aarons: they are both dangerous.

Massetti: one is legal and one isn't illegal. I think you had the same problem as Eric Lupo. We should not be upset with what they are doing. You should go to the department and talk to them. They are asking us to. I am not done yet. So we shouldn't decide how we would use the money. That is up to them to run their department.

Aarons: I am now aware.

Capata: are you aware that this is America not Switzerland and are you aware that we are promoting students health and responsibility?
Aarons: it is not promoting health responsibility if we are missing subjects.

Capata: In what way is using drugs responsible. Are you aware that I am not going to promote instructional pamphlets?
Aarons: I am now aware.

*Motion to close the floor by Arsolino; seconded by Montes

Dumas: I am just up here to talk about brhrb1116. Two representatives have injected their personal beliefs into this bill. It is totally irresponsible to not fund this. I just think it is ridiculous with that normal thing.

Questions:
Capata: do you think we should inject with heroin?
Dumas: No that is stupid.

Boris: I will try to make it quick but hat never happens. Brhb1102 should be tabled. We have time to make purchases. Mutualism I agree with it, I believe, contrary to what people think, I believe competition helps business. My problem with Chartwells is not the price it is the service I get. I don't get it because the cafe closes all the time because it closes during spring and fall break. I also agree with repeal the summer contract. The seven hundreds. It was mentioned people want to go line by line, I see there are some additions. There is no rush. It will affect us. Table it if you need to. I just wish there was a warning because we heard something if you are caught in the dorm you get two warnings, yet for a little parking citation you don't get a warning. If you want to talk it that is fine with me. The coso budget riders. They took it upon themselves to find future budget. It is better than them just coming to use for it.

*Motion to extend for 3 minutes by Varela; seconded by Montes

Boris: I am surprised that no one wanted to talk about brhrb1115. The workroom has old computers and they are unreliable. We have this extra money and some point we will have to pay it. So since we have the surplus now let us spend it. The computer that the aid uses Larry and sometimes some of us need to use that computer. Gentry's computer unreliable. My computer is very slow I hate it. The GAC just purchased some. We are getting so many because we are opening the new clubhouse. One of the big problems is that upon taking this money we should have just taking that surplus and thrown it into coso. The gov. should have done that we should have done that. All the clubs could have got a new thing. Let's make FAU safer I think we should table that and look over it. The governor just purchase this, we are paying $30,000 and she is paying $60,000. Lastly I have gone many times above the breezeway. We need that stuff. I don't just take condoms I take lube. I just think that it is very important. Again. With our budget $110,000. He did not read the bill that today and beyond wellness in the future must come to CB. We are not replacing them funding themselves. Next year is going to be better, more services because of our spending.

Questions:
Dumas: what research went into picking this computer?
Boris: to be totally honest Owens was working on making purchases for SAVI and MP, I trusted their judgment that that is a good computer. If they are getting for SAVI and MP it was easier to get a quote

Dumas: do you have a list of what this computer has?
Boris: that quote I see is all I got. I don’t know I don’t even know if we determined that.

Bishara: once the computers are purchase IRM will put in a standard package will be put on it. If we need any additions.
Nicotra: it is also related to the computer, being computer tech. It is made by IBM especially for that price. I was looking at a price. I think if you talk to him he could get a better deal. I think you can get two or three computers for the price of one.
Boris: again I got that model and make from MP and SAVI. We don’t have to pass this today. They are going to redo the workroom in the summer. By all means we could get something cheaper. They are a lot of money too.

Grider: Time is expired

*Motion to extend time by 3 minutes by Massetti; seconded by Blouin
Massetti: regarding 1107 mutualism, we have been talking about the issue with that lady has talked to us. I completely for this bill and the purpose and I think we should add more stuff to this. Let’s just make the bill stronger. Do you think we should table it for one more week?
Boris: personally table it. I think this should go on the ballot. I want administration to do that. Maybe in the fall show administration some of these practices with housing and this would show their disapproval.
Massetti: I think a petition would be helpful with making the thing strong. The student s who do use the bill. Are you aware?
Boris: I agree

Varela: are you aware that the last two whereas would be therefore be it resolved?
Boris: the first one should say therefore be it resolved the second say therefore be it resolved
Blouin: do you think it needs ten?
Boris: Huffman came to me to get desk and equipment and materials. It is like PET if a program tells me this is what I need. I take them by their work. I am just going off of what the coso director says.
Blouin: I use the clubhouse. I don’t understand why they need computer.
Boris: this is so that clubs will have a place to go this is a place dedicated to clubs. It is just trying to give them their own space. I believe that we should have given tem coso in the beginning. So for me sorry this is the computer that you guys can use.

Anastasi: are you aware that I agree, for all the budgetary. I will be doing that with Robert Huffman and making any buttons or designs?
Boris: I aware, I agree

-PO: Ward 543

*Motion to extend for 3 minutes by Massetti; seconded by Blouin
Massetti: are you aware I agree for most of the computer?
Boris: I am aware.
Blouin: are you aware we could get a lot of shirts?
Boris: when we get about 15 to 20000 I want I to say Boca house. I know but we will by shirts.

VETOED BUSINESS: None
TABLED BUSINESS: None
OLD BUSINESS:
Brhb1102 need more bicycle parking racks
*Motion to table by Massetti; seconded by Dumas
*Motion for Brhr1107 to be read aloud by Smatrakeleva; seconded by Capata
*Motion to admit all members Montes; Smatrakeleva 546
*move to go into discussion for 5 minutes about his bill. Quasi; seconded by Dumas
Quasi Committee
Boris: it is going to be a pro con but I think that it is less for ma
Massetti: I made my point during questioning time to table it to make it as big as it can be and suggest that it is on the ballot.
Blouin: I completely agree with the bill and it is terrible and ridiculous, if we made as big as an impact and that goes to the university as a whole and it might not even be necessary otherwise disagree with the bill and making the biggest impact as process.
Blouin: I think if we give it to them yes. I think it could be.
Boris: I have no problem so maybe I am totally in favor what you want to do. We might get the same benefit and maybe we could add a lot more sponsors.
Blouin: but who is going to do the petition. We say we wasn’t to do a lot. Usually when someone sponsors the bill and especially when they author the bill.
Massetti: I would make a bigger deal if we have 300 signatures right next to it
Varela: it would be the easiest petition to get. If anything it would be the quickest one.
Blouin: we are done with the discussion

*Motion to send to committees by Massetti; seconded by Varela
Brhb11-11
*Motion to admit by Varela; seconded by Dumas
*move to table brhb11-11 to committees Massetti; seconded by Varela Dumas yes but it is 1112
Boris: it is 11-12. I see the problem you motion to send it to committees.
*Motion to send statues bill to committees Massetti; Dumas
Boris; sorry guys but when you have 4 or 9, everything will be in order

-POP: 5:56 Arsolino
Fritz *POI: is there a number?
Boris: I believe it is 12, but I keep track I know we passed 1110
Brhb1108

*Motion to read aloud; Quasi; objection it needs to be read
POI: Fritz are there any more coso meeting for the rest of the year
Boris: there is one more

Massetti I would like to add name as a sponsor, Guimares, Massetti, Anastasi, Coicou Dumas

Vote
28 yes and 1 No

BHRB1115:
*Motion to send to committees by Anastasi; seconded by Massetti
BRHB1116:
*move to have brhb1116 read aloud;
[Grider read aloud]

*move to approve by Varela; Lupo

Lupo:
Varela: the more clear you would like a line item. I believe it is clear enough
Massetti: usually when we have a new bill as a ways and means chair I typically ask for it to be sent to WM committee, I don’t mind if it is table.
Boris: I am not a health expert. It is not my job to educate people on health. I feel very hesitant. They know what get’s used. Even if I have my own views. I trust them. I believe they just added the same things they order in the past. I am not going to tell you why. I used the contraceptive stuff too. I agree that there has to be someone else. They have a pamphlet for the GLBT community. They have a lot of stuff like that for a specific minority group. And sometimes you are affected by what they are doing.
Lupo: I am not saying we should table I am just saying to bring it.
Massetti: it is not our job to tell them what to
Varela: They have a shortage of the brochures this is not for next semester. They may have less.
Boris: That couple together. This is simply to give them more services
Varela: I do think we should help them out now, I also do agree with Fritz, let’s let them know
Boris: the people that are benefiting from this. Is today and Beyond wellness. The students who actually get involved. This is not to give money to PET, the same way. The administration actually gives out the. Aarons: seeing as the condoms is kind of time sensitive.
Varela: it is not something that is set in stone it is something that we have used for years.
Boris: Boris we can’t just say to instead just strike out the 4,065. Some times in our statutes I don’t see a 20% rule. If we take the condoms and the brochures
Varela can we get a
Aarons: strike out brochures.

*Motion to return to the orders of the day and vote on it by Massetti; seconded by Varela

Roll Call on whether we will vote on brhb1116

-POP Capata 615

Boris: we are not about to vote on the bill, what we are voting on is whether we should vote on the bill. Yes it to vote, a vote of not is to not

POI: Ward is a vote of no is to table it

Boris; if yeah has it then we vote on

Vote: 18y and 9 no

Now vote to approve the bill

POI Dumas; can we still make a friendly amendment because the account number is wrong from s00112 to s012 Varela accepts

POI: votes are tallied are put online

*Motion to admit all members by Massetti; Smatrakeleva 6:20

Votes 21 yes and 6 no [passes]

Brhb1117

*Motion to be read aloud Dumas; seconded Capata

Pop-622 Varela

Grider: when I was in first grade I hated reading out loud. [Grider read brhb-11-17aloud]

*Motion to vote to all committees by Dunne; seconded by Lupo; Capata-pro con

Massetti: Mr. Dunne is new he doesn’t know what the purpose of a liaison is

Capata: it was also stated

Varela: we trusted her on what to purchase, but this is still recommendations for the house as a whole. To still evaluate.

Massetti: so in other words the house has already made an effort to create the bill and make sure that everything is being used responsibly. I think that if it goes to committee. It looks perfect

Cyris: Are we the only school who does this

Capata: No, we are the only school that called it stress week. What are we going to talk about in committee?

Varela: well I am not a dog and I don’t need squeeze toys. And it is a great idea, 30000 what out.

Guimares: I would just like to see a line item.

Blouin: I am really excited for flannel pajama pants

Grider: we did appoint for Rebecca to do this, but we should also be the one to approve it. If it was sent to committee. I can’t wait to get my pens. Because I am going to be in the library studying

Capata: we did not have a stress week for the fall; we didn’t so of course it is going to look like a lot of money. It looks like a lot of money. It used to be 50-05.

Anastasi: I think we should pass it today

Boris: because stress week is coming up. Tabling this does not delay the stress week. What we are doing is we are reimbursing and giving money from here account to our account; furthermore she is still going to office depot to get more offices. I think they are going to end up paying more than 40-45. Stress week is set. The order is going to go through.

Massetti: the purpose is to try not and send it to committee.

Boris; we need to vote now, so a vote of yes is to send to all committees

-POP montes634

-POP becker634

*Motion to admit Capata; seconded by Wu 634

*Motion to approve by Capata; Coicou

Dumas; insert Boca after the, as they after all and insert who and in 6th whereas insert house after contingency, insert received injection of A&S fees. And change the to this and strike out campus and put student government and lat whereas insert Boca without campus and after the [Capata accepted]

Boris: we will now go into a roll call vote

*Motion to admit by Smatrakeleva; Varela 638

Vote; brhb1117 passes

BRHR1109

Gordon and Cyris and Dun pop 641

*approve by Varela; Grider; Massetti friendly amend to be read

Guimares: like to ad name as sponsor

[Add name as a sponsor]

Wu: can someone add name as a sponsor if not admitted

Boris: it shouldn’t happen but I will allow it
Dumas; first 8 whereas clauses add (,) and: strike out as required, p, m in. University A in average does not need to be capitalized, The p in plan, Whereas after ‘ strike out and s in student s not capitalized, now; and first therefore should improve this resolution and do not capitalize DO Not don’t want to sound angry and 1st therefore should.

Boris; you are saying [Varela accepts]

^POI: Varela: something to point out, Massetti: friendly amendment insert [,] after apartments and 8th whereas clause and last clause housing should be capitalized.

Boris; we will now go to a roll call vote a vote of yes brhr1109

Brhr1109 passes

BRHR1110:

*Motion to send to all committee Massetti; Anastasi

*admit all members Montes; Smatrakeleva.

OPEN FORUM:

SPECIAL ORDER SPEECHES:

Blouin: thank you guys for staying the whole time we are getting good stuff done and we have a lot of things to go over so go to the committee and we are getting things done

^POI: Dunne: just to clarify they are speeches that don’t typically pertain to anything business related.

Dunne: just to let you know I am going to be trying out for the FAU basketball team, so wish me luck.

Capata: I don’t care if you like me. I am just saying. You are not doing stress week for me do it for the students. There are opportunities to help. We need to make 1000 bags.

If you are more geared to being in the breezeway and the students would really appreciate your help for stress week. I’ll text you or email you and I will give you a list. So quickly tell me if your cell phone isn’t on there.

Maher: the step show is April 15th I will be in the step show if you have never been shame on you. Omega psi phi. The time I don’t know the exact time. We are hosting a party afterward to raise money for scholarship

Grider: next time I will not be hear. I am going to leave Friday. that is why I hope you guys can excuse me that is just it.

Wu: ASU is doing movie night next Thursday it is rush hour II. It is actually in this room at 6:00PM if you can make it that is cool.

Varela: the past couple weeks I have been here for an eternity I forget what a short meeting is. Boris throughout the year it has been great. I don’t know what way maybe I can take it up with the advisor, so maybe you should excuse yourself of take it up. That is all I had to say and the last thing is April fools

LEGISLATIVE REPORT:

Boris: It is 3:12 going down and nick walk in and he pulls it off so well isn’t the chambers ready as it open. I just went down there and they taped it off. I said I have to call right now David blank is going to hear from me. It is funny that you joke about this. There are some things that have been passed  in passed bills if they have been signed by everyone?

Guimaraes: I know we criticize and I heard you said about things that have been passed. The recycling bin bill. The marketing bill again a bunch of new resolutions. Lastly the bicycle actually we have accomplished a lot of what the last session was not able to do. Those that didn’t make it to are now null and void.

FINAL ROLL CALL:

*ABSENT: Alincy, Becker, Berichi, Gorry, McCoy, Ortiz, Pollock, Robinson, Rudnick, Tepper, and Cyrise.

ADJOURNMENT

*Motion to adjourn by Montes; seconded by Arsolino

7:07PM
