Christ Affard: Greetings; I am Chris Affard the former VP of FAU normal, today we are talking about a proposal that is in the works. Right now we have it to where students who have been caught with possession of marijuana get kicked out of housing with the current policy. So now alcohol is a 3 strike rule cannabis is 2 strikes policy. The first strike with cannabis is immediate termination and the first offense is miniscule for alcohol. We are trying to equalize it. We want to change it so that if you are caught with an ounce or less the student will be subjected to the same as the alcohol. This would keep the students in the student housing as apposed to where they are immediately kicked off.

Questions:

Pollock: Why do you feel that a felony amount of possession is acceptable?

Affard: It is not acceptable, but right now if you get caught you get immediately kicked out. Whereas if you have someone underage who is drinking alcohol they have a disciplinary way they can go with out getting a felony. It doesn't necessarily go on the record but you still have to go through the school. Also having your parents notified and basically your college career going up in jeopardy. This proposal is making marijuana go through the same rules because right now we are not

Pollock: That threshold is an ounce? So why it is acceptable to hold between 21-28 grams, which is a felony amount, why not set it at 20g?

Affard: Right now it is an ounce. If there is a motion to make that lower that is fine. For the most part it is for personal possession and if they get caught on campus. We are not trying to allow copious amounts we just want to make it a 3 step process as those that are caught with alcohol as opposed to current 2 step process.

Anastasi: Can you tell me what an ounce is?

Affard: That is in measurement and weight and it varies in different sizes.

Anastasi: Follow-up: is it a baggie?

Affard: yes, it can fit in a sandwich bag.

Boris: Time has expired, we need a motion.

*Motion to extend the speakers questioning time by 2 min by Wu; seconded by Becker.

Wu: So you personally believe that one ounce is not a copious amount?

Affard: Not in current standards. Different legislation allows for one ounce, if you go past the ounce laws then you have different things for licensing and arrangement, if we would like to change what weight we would choose a deem able amount and add to the 3 step process.

Arsolino: Do you know what the ramifications for being caught with marijuana in the state of Florida are?

Affard: In the state of Florida, If you are caught with up to 1 ounce you can be put in the jail for up to 1 year or have up to pay up to a $1000 dollar fine, which I believe is a 1st degree misdemeanor or over an ounce a felony

Arsolino: So do you think that if a person is caught with any ounce, should you not have a harsher punishment. Because if you are caught with alcohol you cannot get into trouble.

Affard: Let's look at other states and university that is not the situation. Punitive actions against them. We are trying to bring it up to the other states in this country.

Arsolino: It is illegal, marijuana is illegal.

Affard: In the State of Florida
Arsolino: in the state of Florida, yes and our university is in the state of Florida so they should be adhering to the same policies as the same if they were caught in the State of FL if they are caught with cannabis in FL they will still get into trouble. If you are.

Boris: Are you aware?

Affard: I am aware, but first off we shouldn’t penalized people for possessing cannabis. I don’t know why we think that cannabis is a type of drug that is going to hurt people. And I also believe that 1/3 of states has moved to some sort of pro- cannabis legislation. Also if we are going to change things it is going to have to change in the university to change the state, it is not going to happen in the streets. We don’t need to have a system to penalize students that is as harsh as it is right now and you were saying.

Boris: Time has expired we will need a motion

*Motion to extend the speakers questioning time by 2 minutes by Pollock; seconded by Grider

Pollock: How would you feel to moving the alcohol policy into alignment with the marijuana policy?

Affard: Then I think we are trying to get rid of students. Why would we want to have a policy that on your first offense you would be kicked out of housing, which you are still financially responsible for. It doesn’t make sense that we would promote a policy to reverse current standing to a backwardation that we would penalize students for something that they should go to health services and counseling. We don’t need to have these harsh measures and have it go onto their record, because that would hurt them affect them in job market. If they mess up once then there should be a proper disciplinary action and you still don’t have on the second offense notification to you parents, until kicked out. I can review: we don’t want to have a policy were we are sending a message to students that we are trying to kick you out rather than help them with their problem. We can help you and get you to graduate on time.

Pollock: Can you give any schools that are examples that allow possession on campus?

Affard: The next presenter has a list of schools that have legislation.

Pollock: For possession on campus?

Affard: I don’t know about possession

Pollock: That is the statement you made that they have possession on campus.

Point of Order: Blouin: Please stand up when you are speaking.

Pollock: Mr. Speaker please clarify to the speaker and ask which schools they are? That is all I want to know.

Affard: I would have to give you a school in California or Colorado.

Varela: wouldn’t you agree that we should set a standard of the right point of going to a university isn’t it about school?

Affard: It is about school.

Varela: follow-up: So if it is a school why should we be lenient about activities that may destroy someone’s career? So why shouldn’t we have a strict policy about underage drinking or cannabis, which is illegal, why shouldn’t we have a stricter policy?

Affard: We should have a strict policy but it shouldn’t be strict enough to kick you out of housing. We should not have to be strong enough to take away your grant. We are not trying to get rid of disciplinary action.

Boris: Time has expired, we will need a motion.

*Motion to extend the speakers time by 2 minutes by Becker; seconded by Varela.

Affard: Again the policy is to where we are not trying to kick student out of the housing no one is concerned, but we should focus and we should all work together to figure out what those measure should be for them to get the kicked out of housing if they are caught in those violations. I agree with you yes we need to have a standard of action. We should have a measured system where we shouldn’t have the first offense currently kicking students out of housing.

Grider: Currently as it stands if you driving in your car you get caught with marijuana do you get kicked out of housing or is it if you are caught in your dorms?

Affard: In your dorms specifically.

Grider: Follow-up: So if you are off campus you do not get kicked out of housing?

Affard: I do know that you have to go to a school in a review sessions and I think you have to talk to an administrator, I don’t know if you immediately get kicked out, but school review session or talk to the school is some way

David: Hey guys I am the president of normal SSDP my name is David. I looked around the room and I saw some snickers when normal was mentioned. I just want to let you know we are not the drug club, we are not the pot club or the weed club we are civil rights activists’ thank you very much. I know we tabled the motion the last time because we were waiting for the student body vote, these are some 500 some odd petitions students, teachers, and RSA members that support us. The legislation already has been passed at FSU, University of Colorado, Colorado state university, University of Maryland, university of Texas, George Washington University, college of William and Mary, college of Dupage, Ohio state university, Purdue University and the University of Arkansas. In 2008 there were 15 arrests of students for drug violation on campus. 25 arrests in 2009 and 29 arrests in 2010 those students have to deal with felony charges, court charges losing financial aid and scholarships among a ton of other things. Lets not kick them out of housing that is preventing them from going to school and getting an education, you are basically sending them to jail, not allowing them to get a job. You are hurting their futures. So yeah, I hope you all take that to heart.

Varela: I don’t think anyone on this room or on this planet has forced any one to do these things they chose to do this; they themselves chose to do that.

David: I am aware, but people make mistakes. We are not all perfect, there is always peer pressure I am not going to tell anyone to smoke in the dorms, like an idiot, but they do. Let just not kick them out of housing lets say, hey you made a mistake we are not going to ruin future because of it. Let’s move on.

Dumas: piggy backing off of what representative Varela said it seems to me that you and the former president you are not acknowledging the fact and you are not seeing that that alcohol is legal and marijuana is not. But the act of drinking under age is illegal, not the substance itself. Not realizing that when it comes to a substance that is legal and illegal, the consequence would be higher. You can’t really equalize something that is illegal and something that is not.

Boris: are you aware?

David: Yes I am aware, but According to higher education act of 1996 it allows universities to make their own drug policy, they don’t have to follow state policy they just have to have some sort of sanctions and yeah of course it is illegal, but as you can see in the news it is slowly
changing. Are you going to encourage students to drink? That kills them, many hundreds of students have died due to overdose people die because of alcohol where no one has died because of marijuana, let’s not kill them either.

Pollock: I think you said it is 29 students, is that just for residential student?

David: Didn’t say in police blotters, but numerous said GPT and HPT, but some were in the parking lot and I can’t say if it is a student or not.

Pollock: So lets say that of 29 that 21 residential being conservative. Do you think it is a significant problem with 3000 beds on campus and we’re going to add 1400 more? Do you really think it is a significant problem if it is only 20 students a year?

David: Yeah because that is their life

Pollock: They made their choices?

David: They made them and they make mistakes

Wu: What are students charged with underage drinking? Misdemeanor or felony?

David: Misdemeanor

Wu: What are the charges that are brought against students with an ounce of marijuana on them?

David: It is considered trafficking, but our proposal doesn’t consider trafficking

Wu: Clarify, is it a felony or a misdemeanor?

David: Felony

Montes: Some people want, are you aware that you are talking about people that chose?

David: Are you saying that those students don’t want to get a degree?

Montes: If you are here, in particular, to get a degree are you aware, why would you make that decision?

Boris: Are you aware?

David: What about he students that drink alcohol?

Boris: Are you aware?

David: Yeah

*Motion to close the floor by Grider; seconded by Pollock.

Senator Brown: For the record mission green is not buying new trees they are moving trees from where stadium was and the senate is going to match how many they move. I was going to have my scholarship up, but I ran into some problem with administration, so I had to go through some proper channels, but when I say I am going to get something done it gets done. Also the legislative workroom has been kind of messy lately, let’s try to take pride in our work and where we work because at the end of the day it is still kind of a reflection on us.

John Taylor: Speaker Bastidas thank you. I am John Taylor I am the president of the college republicans. I am also the representative for students for concealed carry on campus. Florida state bill 234 reason part an act limiting the bringing of a firearm prohibits bringing a firearm in elementary, career school, and University to include a public administration building, not carry firearm in vehicles. Important not allow concealed carry on campus but protect off campus. Anyone on campus is effectively disarmed, but any where you go after that they are still unarmed. Until they are able to return to their home. What this bill will do is send support to Tallahassee, anywhere after that fact. What this bill would send Tallahassee is a complete advantage and to keep a weapon on or about her person. Also I want to touch the marijuana. You would be asked to go ignore a felony. Allowing felons to live with non criminals. I support to toughen the alcohol rules. It is still a crime to drink underage.

Questions:

Dumas: in regards to concealed carry. Are you aware that a bill was introduced by representative Berichi and it was shot down?

Taylor: Yes

Dumas: Follow-up: It was bought up that it would bring more guns to campus.

Taylor: Yes, can I speak? As it stands now there is an invisible barrier. It prevents legally carrying person from bringing guns on campus. It doesn’t prevent criminals form carrying guns. It is a false flag event and it won’t increase crime so to relate one to another is irrelevant.

Pollock: The bill mentioned, is it pending is state senate?

Taylor: It is SB234

Pollock: Is it filled in the state house?

Taylor: On Tuesday it is going to pass committee, by Senator Evers.

Pollock: It is a different house we have a senate and state house, has there been a similar bill introduced to a state house?

Taylor: Not that I am aware

Bastidas: So there is a pending piece of legislation in Tallahassee about concealed weapons, so do you think that it is appropriate that a student government body should be made on a pending piece of legislation?

Taylor: It affects students.

Pollock: we set a precedent last week with the texting so to say we don’t do that we would have to do a lot of backtracking.

Boris: Right, Are you aware that I brought this up was because of recent events about bringing politics into the house?

John Taylor: Can I say something about that. The legislation you passed two weeks ago was about national legislation passed in another state that had nothing to do with FAU students.

Boris: are you aware that I brought that up because senator Snider was going to introduce a bill that would essentially introduce the same thing they tried to pass in Arizona. That is why?

Taylor: Senator Snider’s bill has not been filed.

Boris: He has talked about it. Okay. Sounds good.

Pollock: I believe we, lost train of thought sorry.

*Motion to recognize the president of FAU Normal by Dumas.

David: You said you want to make the alcohol policy up to marijuana policy. In 2008 120 students referred disciplinary action for alcohol in 2009 that went over 100% 271. Would you want to kick all of those students out of housing?

John Taylor: It would be tragic to kick all of those students out of housing for underage drinking, but it would be equally tragic to allow felons to live with non criminal students.

David: Follow-up: nonviolent felons?

John Taylor: They are still felons. I do not see a difference between felons and nonviolent felons
Pollock: Do you think there is a difference between condemning the act of a legislature in another state and ask to keep out of our state. I believe the resolution that we passed about sb1070 was to keep it out of Florida. Relating it to Florida, Not necessarily condemning our actions which would be out of our scope?

Taylor: Could you read it to me?

Pollock: I believe that was the title, to keep S81070 out of Florida

*Motion to close the floor by Berichi; seconded by Montes at 4:10PM

SPEAKER'S APPOINTMENTS:

Boris: I was approached by representative Lupo and he was interested in acting in the campus budget committee. I would like to appoint Lupo to the Campus budget committee. Do you accept?

Lupo: I accept.

*Motion to approve representative Lupo for the campus budget committee by Varela; seconded by Pollock; 0 objections [applause]

PRESIDENT'S REPORT:

^POI: Grider: Didn’t the president say he is going to be here last week regardless?

Boris: I don’t know

VICE PRESIDENT'S REPORT: None

Pollock: He is in NY

GOVERNORS REPORT: None

CHIEF JUSTICE REPORT:

Nick Scalice: I just wanted to update you on how the court is holding together. We are almost functioning on all cylinders, which is pretty cool, last Wednesday I met with the treasure coast student government representatives, advisors, governor and the new senator elect. They will be, I guess they won. TC works very different than down here, it was a great experience to see how a smaller campus operates. I would like to try to fill the vacancy, it would be the first time we have had a full court for years. The Broward vacancy was filled, it was a slight technicality, Paul Davidson current associate justice. So we have 3 of 4 positions filled I am working on filling those members. I made some flyers and posted them in treasure coast. Also I will be sending an email to get in contact with the governor. I do encourage others to visit other campus. We are one FAU that should be our goal to remember. They were very welcoming to me and I am pretty sure they would be for anyone wanting to make the journey. I am working with Heather to put a presentation on sunshine law, hopefully meeting with Lazarith we can become better informed to do something on sunshine law on how they can be conducting themselves in an out of meeting. To be their focus on the court so we would never have any doubts about proper procedure that is sunshine law. Also working with summit, we should have the official SG website updated by next week. All we have to do is put together some of the wording and the contact information, we are trying to make it something that is actively updated not unused. So the court has an active page on the website. Other than that obviously I am going to be meeting with the associate justices, and set up times when we are all free, if there are contestations. So there is no lapse when we could meet. Finally I did notice on the agenda we still have the bike rack on the agenda. Please someone pick that up. I will be more than glad to help any way I can that also goes for the focus group resolution, so all of that will hopefully continue to be pushed through and it will be implemented essentially.

Dumas: so do you want us to pass or continue to table?

Scalice: I should have clarified the last time I was in contact with Clouts she was still looking at the financial place. From the last time she was still waiting to here from the financial side of administration. They completed there survey this is information I received about a week ago. From that point I would get into contact with us and we could issue a check. We are going to match whatever they sent. I would probably advise that it remains tabled.

Dumas: would you mind if we amend instead of continuing to table it?

Scalice: since I am not a member it would probably not be right for me to suggest anything.

Dumas: Your unofficial opinion?

Scalice: I don’t think I should give an unofficial opinion, but if anyone wants to get into it is the office of space and utilization and director is Shannon Clouts.

-POP: Wu at 4:17pm
-POP: Berichi at 4:17pm
-POP: Blouin at 4:17pm

*Motion to admit all members by Montes; seconded by Dumas at 4:17pm

Boris: At this time I would like Phillips to come up and fill in for parliamentarian.

PROGRAM REPORTS:

Chief of Staff: Owens: We had the first ever Multicultural assembly today we went over the statutes we were looking for a long time and we will have it to vote for you guys on next week if not the next. I have been working with Gentry. I found some good deals because MP and SAVI are moving offices Linola said that they are working on one computer, just got price quotes. Hopefully we will get those ordered very soon. We are also looking for technological upgrades. Also we need to get one more student for parking appeals committee. Jim Johnson says he needs one more for committee. So you get the ones they are really on the edge about. So if you are interested, it meets on Tuesday at 10:30 am. Come up and talk to me if you have free time or you know someone who would be interested.

Grider: I am on that board and the last time we checked there were enough people, did someone resign or do they just want another student?

Owens: I am not sure, the governor sent me a message today saying they needed another student.

Grider: Are you aware they are really ruthless in that board?

Boris: Please refrain from talking, having side conversations and sending notes to each other.

*Motion to admit all members by Montes; seconded by Pollock at 4:21pm

SG ADVISORS REPORT:

Bishara: Hello everyone! I want to commend Scalice, I think he is the first SG who has gone to other partner campuses in order to promote the Associate Justice at TC in the last 4.5 years I have been here none has been filled. I want to give you some stats regarding the elections. We actually double voter turnout for University Wide elections. We had 11.41% of the student body vote. That is the highest and the best in the State University system of Florida, 5.19% at Treasure Coast, 4.16% on the Broward campus and 19.41% on Jupiter, and 6.9% on Boca. This has
all increased from last year. The results are put on Tom Levey's door and the SG website. Tank you summit. The elections board will be meeting next week early. At that meeting they will be doing the deadline for debate contestation forms is today at 5pm. Pending that meeting, we will probably have a runoff, but I can not confirm that, but at this point based on statistics no candidate received 50% +1 of the vote. The new mascot was unveiled last night at the basketball game he was just in the union; we do not have an official mascot program in the university. A cheerleader would put on a costume. Other universities have a big mascot program. So it is exciting that students can apply and receive compensation and it would build interest in that program. But if you get a chance it looks great and the unveiling went really well. I am doing some one on one meetings with members of the house. The goal is to find out their experience and what more you need from SG, from me as advisor and training. So what chief justice Scalise said we are working on a sunshine presentation. So I started with some of the new house members and you may or may not have seen the new hiring for student government so you are aware it is happening with that process. I am helping with the media advising. One thing that is rather exciting is they are going to be meeting with other campus to better serve campuses in addition they will be going to the university of Alabama to see how theirs works. That's my report.

Questions: None

CHAIR REPORTS:

COC: Pro-tempore Grider: COC met today, we didn’t do too much we didn’t have business. I know other committees had no quorum, try to work on that, try to show up on time if you can’t make the meeting speak to speaker Bastidas.

Questions:

-POP: Grider at 4:26PM
RP: Phillips NR

*Motion to admit all members by Montes; seconded by Coicuo at 4:26PM
WM: Massetti: no quorum didn’t have a formal meeting, but we went over Brhr1101 let do obligation this is to get stuff done form last semester. The main thing we did was decide the name tags, shirts, and the bench, what is it for again? We are getting a bench; we are getting 100 shirts, they are polo, and are navy blue with the SG logo and a logo on the left side, blue. Nametag will have a logo, name, but no title, that’s it. You are going to get one a semester and give it back when you are done.

Dumas: are you aware that the bench is to match the one by starbucks
Massetti: I am aware now
Maher: You are returning the badge and the shirt at the end?
Massetti: No the shirt you can keep.

*Motion to admit all members by Varela; seconded by Tepper at 4:28PM
CA: Arsolino: NR

Campus Budget: Dumas: We met Feb. 20th everyone was there, everything was done in one day. Today at 6PM we will meet here in the Senate chambers and we will move to legislative workroom if it is a long process.

Questions:

Boris: Is it true and that the senate has still not met to deliberate the funds.
Dumas: That is true and I was hoping the VP would be here so I could ask some questions about that, but he is not so.

-POP: Dumas at 4:29PM

HOUSE FORUM:

Pollock: BRHR-11-03 more sensible campus policies. In my opinion we should table this indefinitely it seems that only 15 to 23 students that live on campus are being affected within the past 3 year. whereas alcohol is in the 200’s to 300’s and those are residents, so I think we should not open that can of worms for kicking kids out for underage drinking, once you through 10 kids out it is going to stop real quick that wouldn’t be the next thing. I don’t think there is a big need if only 15 students or so can’t do it. If they want to do that stuff they should be sensible and move off campus and do it, not in dorm room, not walking around campus. I yield my time.

Questions:

Massetti: Are you aware that there are only 20 people being affected so don’t you think those people are committing crimes, I agree with that but 1 student is enough to care.

Boris: I would like to recognize David the president of normal
David: so you think that kicking them out the drug war doesn’t really help?
Pollock: We are not seeing the same number for cannabis abuse and that they restrict the alcohol is less strict, only roughly 10%, so I would say the cannabis policies are working because of the limited number. So if we harshened the underage drinking policy maybe they would think I am not 21 I shouldn’t get wasted in my dorm

David: So you are encouraging students to drink?
Pollock: I don’t believe I ever said that if secretary could read back, did I say that?
Fritz: No

Varela: Thank you gentlemen for coming out and speaking with us, but I agree with Pollock that they shouldn’t not be doing anything that isn’t allowed on campus on campus, but I also agree with the things for normal because there needs to be change and we need to imply common sense and knowledge to everything we do and yes we have been working so far and yes progression needs to work and yes we should tailor to a progressive and not lenient, but to help people out because the progressive is not lenient, unfortunately I was one of them other people should benefit from it. We should take into consideration that the policies can be better and we should aim for a higher standard and maybe we could set a standard for the rest of the nation. I think what they are dong are bringing some more ideas and change. We could always use some change.

Questions: None

Wu: For the record; regarding brhr1103: the first violation is the termination of the housing contract no one forced them into this contract they chose to live on campus if they signed the contract. Everything has been written out and if they should know the repercussion of committing what is almost a felony of an ounce. It is a felony. I’m against this bill and I think we should table indefinitely.

*Motion to admit all members by Pollock; seconded by Tepper at 4:35PM

-POP: Pollock at 4:35pm
Boris: following up on some things I did go to the ways and means chair and I want to see what kind of shirts we had and nametags but I am

LEGISLATIVE REPORT:

OPEN FORUM: None

SG 5th session or 4th session. I will have all liaisons appointed next week. We will have those and they will have 2 months after 2 months. One
can do that. The bench was something we had to look at as the original bench, since the bill was passed in the previous session, are we still
going to have a penalty. Therefore when I am finished I have to change give back a key the keeps a hold on my account maybe we

what is the process do you get a nametag. What about students that are graduating? We are spending money here. We are looking at these

thinking that what ever design that the committee looks at comes to the house first. I think that is fair. The important thing is the process,

BRHR-11-01 on agenda to BRHB-11-02.

Motion to send to Ways and Means committee by Massetti; seconded by Tepper.

BRHR-11-03

Motion to table Brhr1103 indefinitely by Pollock; seconded by Dumas; Varela objects want to go to a roll call.

Boris: I think you know what it means to table indefinitely a vote of yes is to table indefinitely brhr-1103h, a vote of no is to not table indefinitely.

Vote: 16 N-3yes

OPEN FORUM: None

LEGISLATIVE REPORT:

Boris: following up on some things I did go to the ways and means chair and I want to see what kind of shirts we had and nametags but I am

thinking that what ever design that the committee looks at comes to the house first. I think that is fair. The important thing is the process,

what is the process do you get a nametag. What about students that are graduating? We are spending money here. We are looking at these

things is there going to be a penalty. Therefore when I am finished I have to change give back a key the keeps a hold on my account maybe we

wouldn't want to match $20,000.

Boris: I am aware we could do that we really could

TABLED BUSINESS: None

OLD BUSINESS:

BRHR-11-01 WE NEED MORE BICYCLE RACKS

*Motion to go to quasi-committee by Varela; seconded by Dumas

APOI: Pollock: do we have any quotes?

Boris: no

Pollock: So then there isn't a need to go to quasi committee.

Objection by Pollock I move to roll call vote.

Boris: Okay so here is the deal the motion is to go to quasi-committee; objection based on lack of quotes; vote of yes is to go to quasi-committee, vote of no is no quasi-committee.

Vote: 16 N-3yes

Boris: I would like to amend the agenda to change to BRHR-11-02

*Motion to change BRHR11-01 on agenda to BRHB-11-02.

*Motion to send to Ways and Means committee by Massetti; seconded by Tepper.

BRHR-11-03

*Motion to table Brhr1103 indefinitely by Pollock; seconded by Dumas; Varela objects want to go to a roll call.

Boris: I think you know what it means to table indefinitely a vote of yes is to table indefinitely brhr-11-03h, a vote of no is to not table indefinitely.

Vote: 12 yes to 8 no

VETOED BUSINESS: None

TABLED BUSINESS: None

BRHR-11-01 WE NEED MORE BICYCLE RACKS

*Boris: speaking about bike racks. I think we should either go to quasi-committee or pass it today. But that there are two different amounts

listed here so I think either we should strike out all the amounts and we should match or we should say that any unused funds should come

back to the house because we have tabled this for to long.

Questions:

Varela: if we put a range do we have a range?

Dumas: Scalice put $1500 and in the final he put $1000 so I think that...

Dumas: I think $1500.

Bastidas: alright let's do this. I don't like the idea of saying we will match what ever, I don't like that because they could say it was $20,000 and

they agreed we are to pay half of that. Hello, No. Option one I appose completely. I know we don't want to table this. This reminds me of the

comprehensive marketing plan, which was t-shirts and nametags. I have been waiting on the president to give us a price and now chief justice

the price from Shannon clout. So at this point I would rather go to the president and ask him to give me an amount and give me a range, I

would rather not just pass it now, and we can wait because we can use our budget until July. I know there is a rush to do it, but I don't want to
give them $2,000 and they say they need another $1000 and give them $1000 and have them say they really need $2000. I hate to say it but we
have to spend money. I do not want to see that money go to t-shirts for a basketball game and I do not want it to go to a slush fund that is

not controlled by us. I would rather it go to a program and organization that benefits students. I am willing to wait until budget closes.

Cannabis: this is based on my own view that I like giving people change to give them help. When it comes to underage drinking you don't kick
them out right away you give them a slap on wrist. I think you do that because you trust your program. Who is paying for the program? The
three strikes and then you are out if we don't believe in rehabilitation for one substance we shouldn't believe in another substance and make it

strict for everyone. I don't care as long as it is equal to make lenient or strict. If majority votes to table indefinitely that is fine but I think we

should try to pass something. My problem was that last week we were going to wait for the poll. I hate to say this but every single semester
something goes wrong and we weren't able to vote on the poll. Maybe we should table indefinitely. Other than that I am open for questions.

*Motion to admit all members by Dumas; seconded by Montes; 0 objections

Dumas: Are you aware that I do agree with you, but we can also say that we could match up to a certain amount, because I do agree we

wouldn't want to match $20,000.

Boris: I am aware we could do that we really could

TABLED BUSINESS: None

OLD BUSINESS:

BRHR-11-01 WE NEED MORE BICYCLE RACKS

*Motion to go to quasi-committee by Varela; seconded by Dumas

APOI: Pollock: do we have any quotes?

Boris: no

Pollock: So then there isn't a need to go to quasi committee.

Objection by Pollock I move to roll call vote.

Boris: Okay so here is the deal the motion is to go to quasi-committee; objection based on lack of quotes; vote of yes is to go to quasi-committee, vote of no is no quasi-committee.

Vote: 16 N-3yes

Boris: I would like to amend the agenda to change to BRHR-11-02

*Motion to change BRHR11-01 on agenda to BRHB-11-02.

*Motion to send to Ways and Means committee by Massetti; seconded by Tepper.

BRHR-11-03

*Motion to table Brhr1103 indefinitely by Pollock; seconded by Dumas; Varela objects want to go to a roll call.

Boris: I think you know what it means to table indefinitely a vote of yes is to table indefinitely brhr-11-03h, a vote of no is to not table indefinitely.

Vote: 12 yes to 8 no

OPEN FORUM: None

SPECIAL ORDER SPEECHES: None

LEGISLATIVE REPORT:

Boris: following up on some things I did go to the ways and means chair and I want to see what kind of shirts we had and nametags but I am

thinking that what ever design that the committee looks at comes to the house first. I think that is fair. The important thing is the process,

what is the process do you get a nametag. What about students that are graduating? We are spending money here. We are looking at these

things is there going to be a penalty. Therefore when I am finished I have to change give back a key the keeps a hold on my account maybe we
can do that. The bench was something we had to look at as the original bench, since the bill was passed in the previous session, are we still
wanting to put a plack. That is something I might question because technically we are taking from this budget, are we wanting to say funded by
SG 5th session or 4th session. I will have all liaisons appointed next week. We will have those and they will have 2 months after 2 months. One
of them has to be stricken because it is a mess. No wonder there was such a delay there were liability issues, covering on the grass. . I guess
now we know the bill says hey you should know that far. The comfort zone thing this is why we can't get the hammocks. If we could have the
hammocks including liability and steel if they get stolen it something e are hanging maybe a ton if they get stolen or not. There is going to be a
person who will, the first Wednesday after spring break have a focus group in traditions plaza, then SU. We will be purchasing pizza for that we
have not gotten the envelopes, I just got the proofs today, but once we get them also we will be mailing the SB1070 to Tallahassee. No I am not
sending to Arizona to tell that I hate it. I will be sending it to Florida representatives to tell them that I hate it. I really think that there is no
problem with carrying a gun on campus I think that is an issue and it think it is fair that if there is a pending possible to come to from Florida. If
we have members here or from the house we should be able to make an opinion on that but I have to go back to last week, because there was
such concern because of something potentially happening in Florida. In this case it is perfectly fine that I did take side of pro gun in the dorms. I
thought we should have a place in the police department. I think it is amazing for writing a resolution to support a bill in Florida. I am not saying we can’t do it, let’s do it. That later support resolution in Florida can’t do it both ways.

Anastasi: Are you aware that after my speech I said I was going to play along and take sides. I was going to play this game.

Boris: I am now aware.

REMINDE RS:

Boris: The next House meeting will be on the 4th of March at 3:30 pm in the senate chambers also adding that the budget is today at 6pm.

FINAL ROLL CALL:

*Absent: Amirato, Baptiste, Blouin, Capata, Diljohn, Ellison, Hasan, Ward.

ADJOURNMENT:

*Motion to adjourn by Varela; seconded by Pollock.

Adjourned at 4:55 PM
