Governor’s Report:
  ▶ Governor Lange:
    ▪ Goals: Governor Lange is interested in bringing together the individual FAU campuses. He would like to emphasize the unique perspectives on each campus and unite them as one FAU. One way this will be done is by having a different SG logo for each campus. Seventy logos are currently being debated on by the executive branch. Governor Lange will also be personally visiting each campus and using video conferencing to keep in touch with the other campuses. Another way to unite the campuses will be to ensure that the President and Vice President visit the Jupiter campus more than they did last year.

A twitter account is also opened to get information out there. Interim Speaker Gopaldas has been given Facebook administrative access and will be given the password for accessing the twitter account.

Currently, she is anticipating a Student Government Open House to take place at the beginning of the semester; this will provide new and returning students with more information on Student Government and encourage more participation in the fall elections. The remainder of the USB drives will be distributed at the fall events. All suggestions for how to
distribute the remaining USB drives is appreciated and will be considered. A Robert’s Rules workshop will also take place during the fall.
