YouSeeU Student Guide

Contents

Introduction

The YouSeeU MindApp allows your instructors to assess Activities you present in your MindTap course. It enables live video capture, recording and grading. You can submit videos with visual aids that your peers and instructor can review. Prior to your final presentation, you can use the YouSeeU App for practice, peer-review and self-review.

In order to run MindTap, you'll need the most recent version of Firefox, Internet Explorer or Safari (for Mac). Although MindTap runs on Chrome, you may have technical issues using the YouSeeU App on it. To avoid these issues, use one of the recommended browsers or download the latest version of Adobe Flash.

Audience

This document is intended for students using the YouSeeU MindApp.

Objectives

This guide introduces you to procedures needed to work with YouSeeU assignments in your MindTap course.
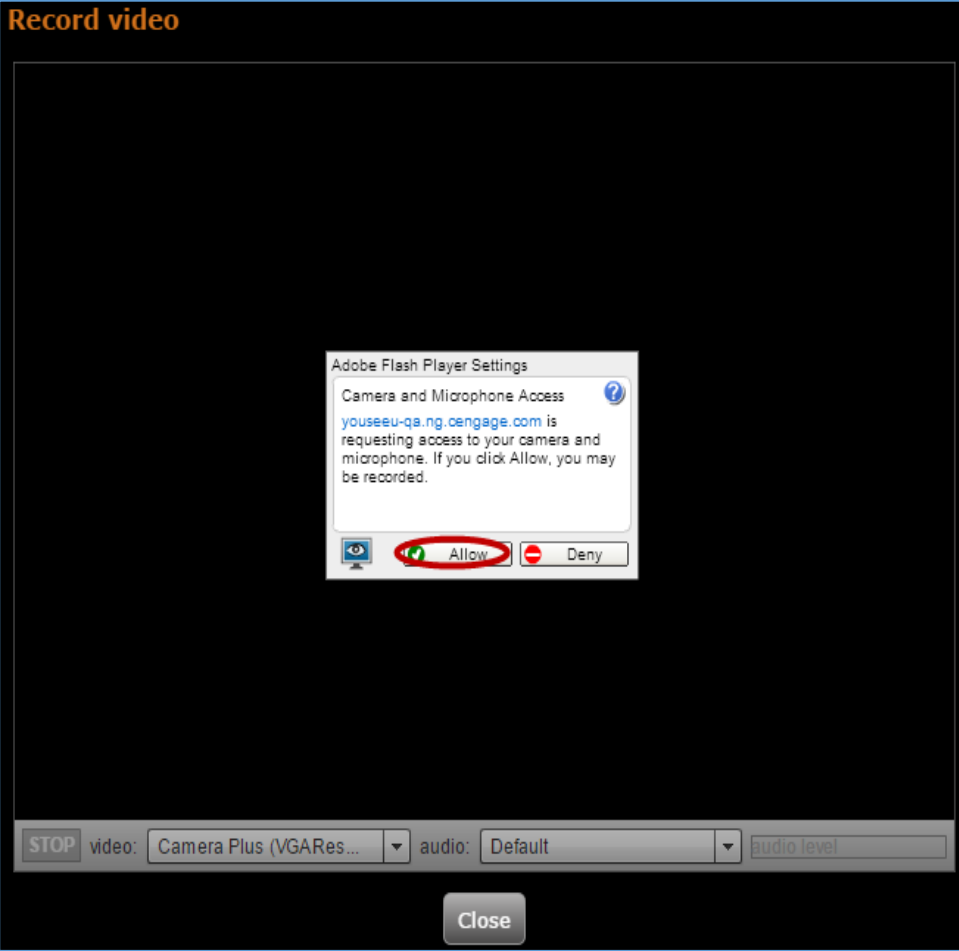

Topics covered in this guide include the following:

- Uploading Videos

- Synchronizing Slides with a Presentation
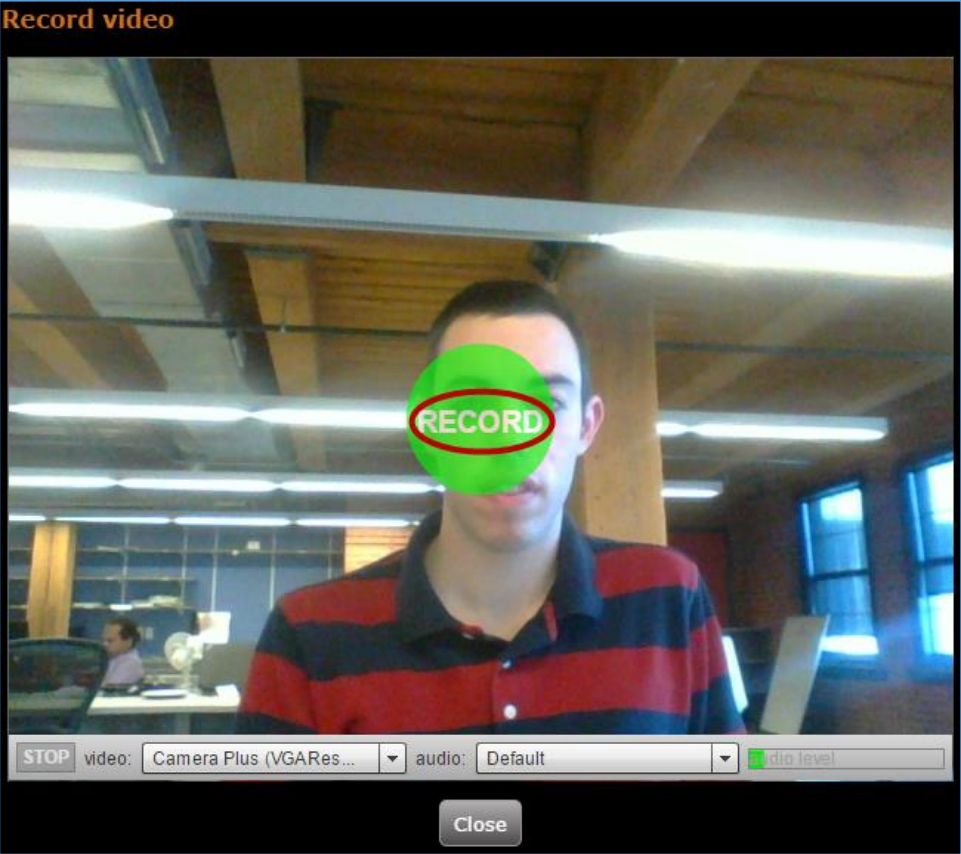

- Peer-Review

- Viewing Grades

Uploading a Video
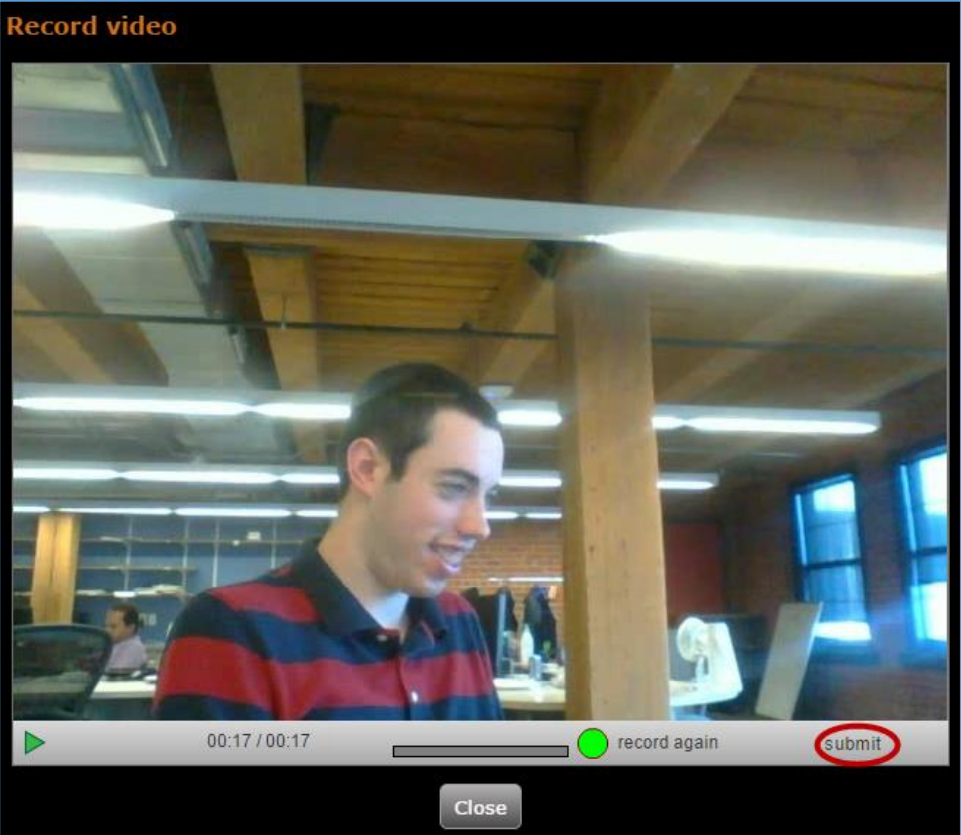

Use the following procedure to upload or submit a video.

Step	Action
1	Select a YouSeeU Activity on the Learning Path. **NOTE**: YouSeeU Activities display in the MindTap Learning Path, not in the App dock. Result: The Activity displays.
2	Record or upload a video. ■ For steps to **Record video**, go to **Step 3**. ■ For steps to **Select video** (recorded outside of YouSeeU and residing on a drive), skip to **Step 10**.
3	To record a video: Click **Record video**. Result: The *Record video* page displays.
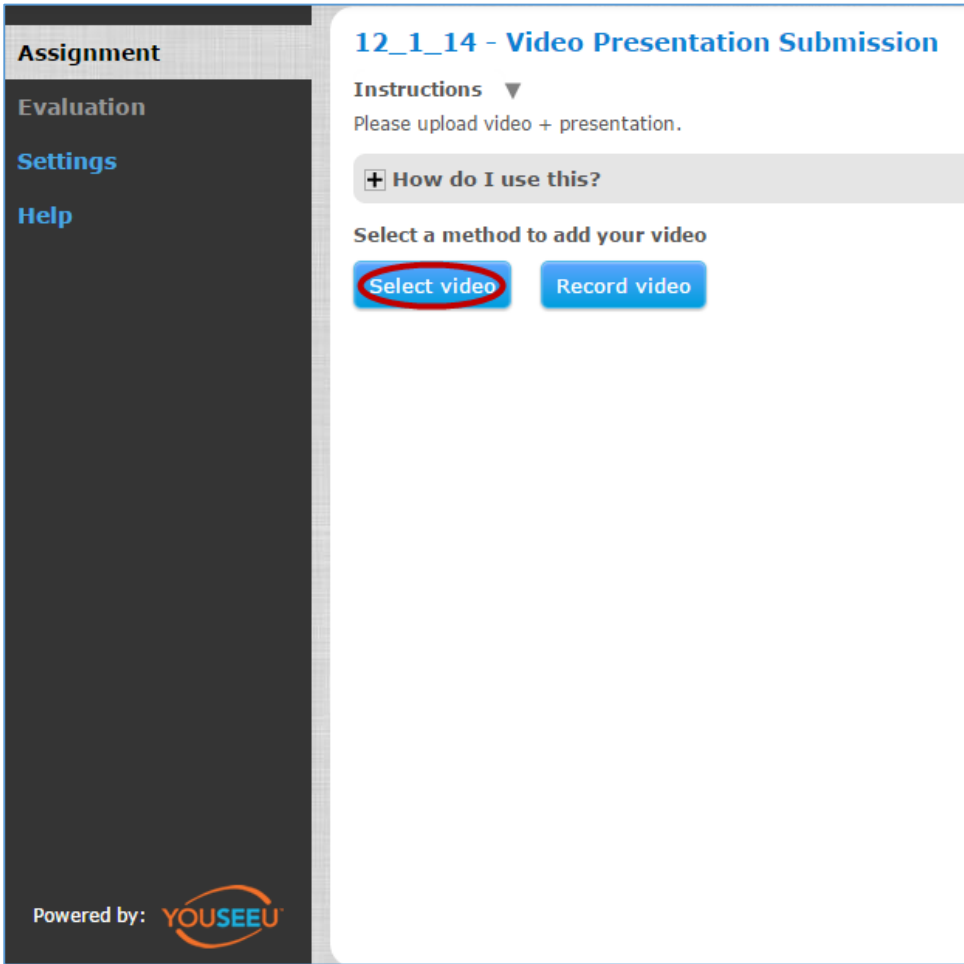

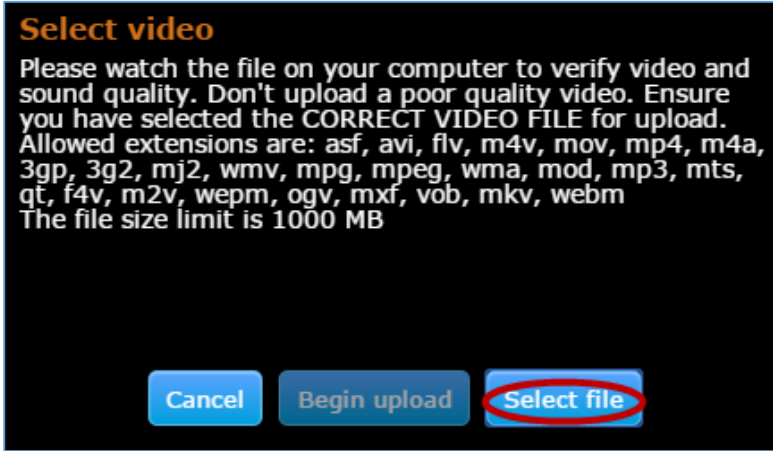

Step	Action
4	Click **Allow**. Result: Adobe Flash can access the camera and microphone.
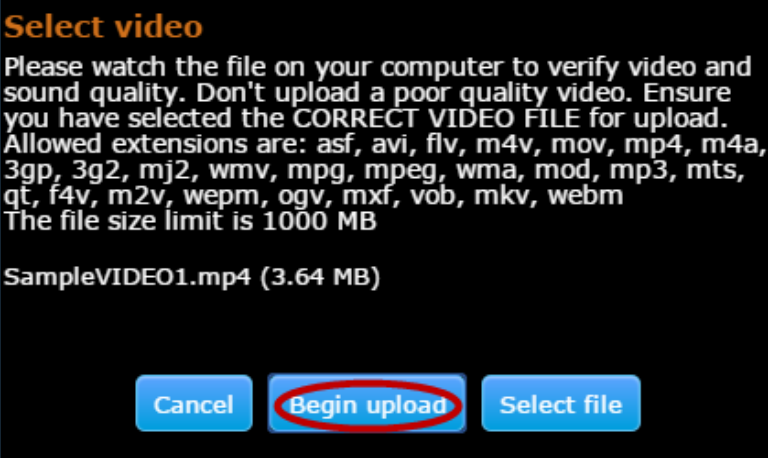

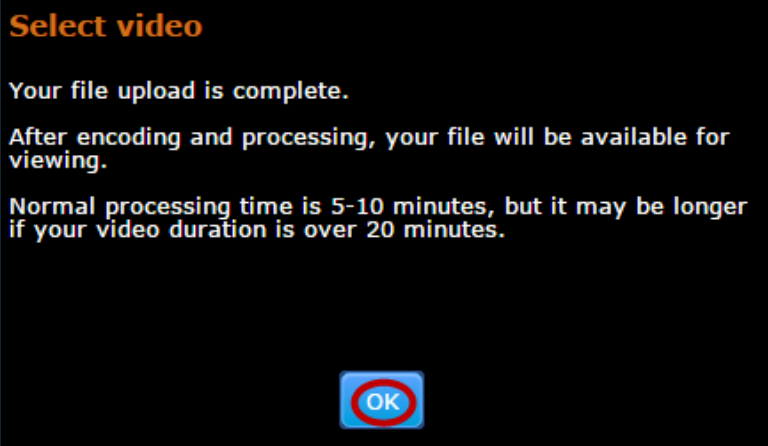

Step	Action
5	Create any sound to activate the recording. Click **Record.** Result: The recording begins**.**

Step	Action
6	Click **Stop**.
	Result: A dialog box displays.
7	Optional: Preview the video.
	Click **Yes**.
	Result: The video plays.

Step	Action
8	Click **Submit**. Result: The **Submit the Recording** dialog box displays.
9	Click **Yes**. Result: The video uploads. The file processes in approximately 5-10 minutes.

| Step	Action
10	To upload a video: Click **Select video** to upload a video. Result: The *Select video* page displays.
11	Click **Select file**. Result: A directory displays.

| Step	Action
12	Select the file. Result: The file selects.
13	Click **Begin upload**. **Select video** Please watch the file on your computer to verify video and sound quality. Don't upload a poor quality video. Ensure you have selected the CORRECT VIDEO FILE for upload. Allowed extensions are: asf, avi, flv, m4v, mov, mp4, m4a, 3gp, 3g2, mj2, wmv, mpg, mpeg, wma, mod, mp3, mts, qt, f4v, m2v, wepm, ogv, mxf, vob, mkv, webm The file size limit is 1000 MB SampleVIDEO1.mp4 (3.64 MB) Cancel Begin upload Select file Result: The file uploads to MindTap. A confirmation message displays. **NOTE**: Wait 5 to 10 minutes for the video to process.
14	Click **OK**. **Select video** Your file upload is complete. After encoding and processing, your file will be available for viewing. Normal processing time is 5-10 minutes, but it may be longer if your video duration is over 20 minutes. OK Result: The video submits. A confirmation message displays in the MindTap Learning Path when you can view the video.

Synchronizing Slides with a Presentation

You can use visual aids such as slides with your presentation.

IMPORTANT: Images need to be saved as a .gif or .jpeg.

Add slides to a presentation by following these steps:

Step	Action
1	Pause the video where you want to add the slide. Click **Add slide**.
2	Select an image. Result: The slide displays next to the video.

| Step	Action
3	Play the video to review the timing of the slides.
	Click **Finish Presentation** to submit it.
	IMPORTANT: You cannot make changes after you click **Finish Presentation**. Your peers and instructor can view the presentation.

Peer-Review

You can review your peers' presentations by following the steps in the table below.

NOTES:

- If the instructor did not select the **Immediate access to peer submissions** option in Activity setup, you need to submit your presentation before reviewing a peer's presentation. A notification displays in the MindTap Learning Path when you can peer review an Activity.

- You may be able to offer star ratings or an evaluation using a rubric depending on the peer review options.
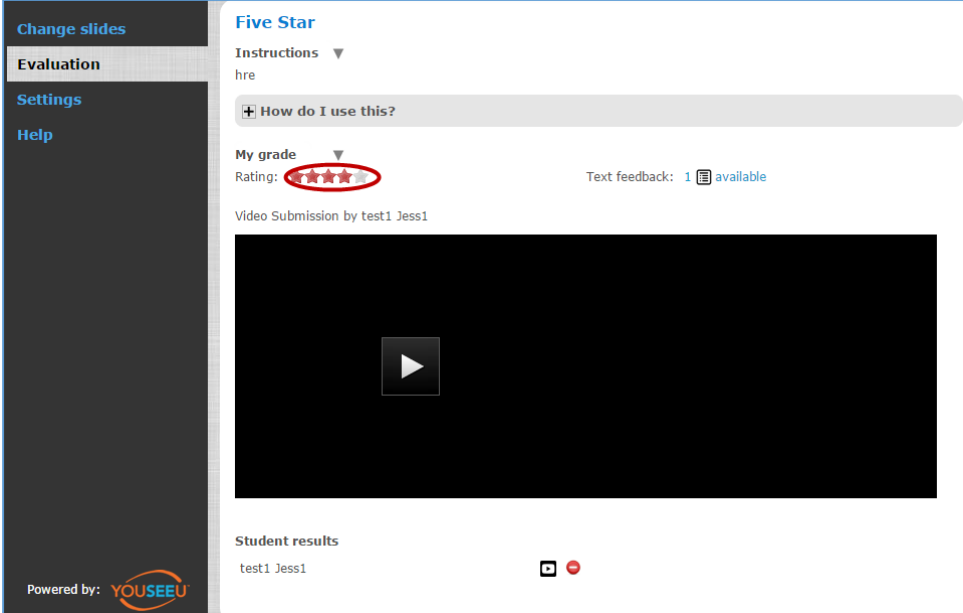

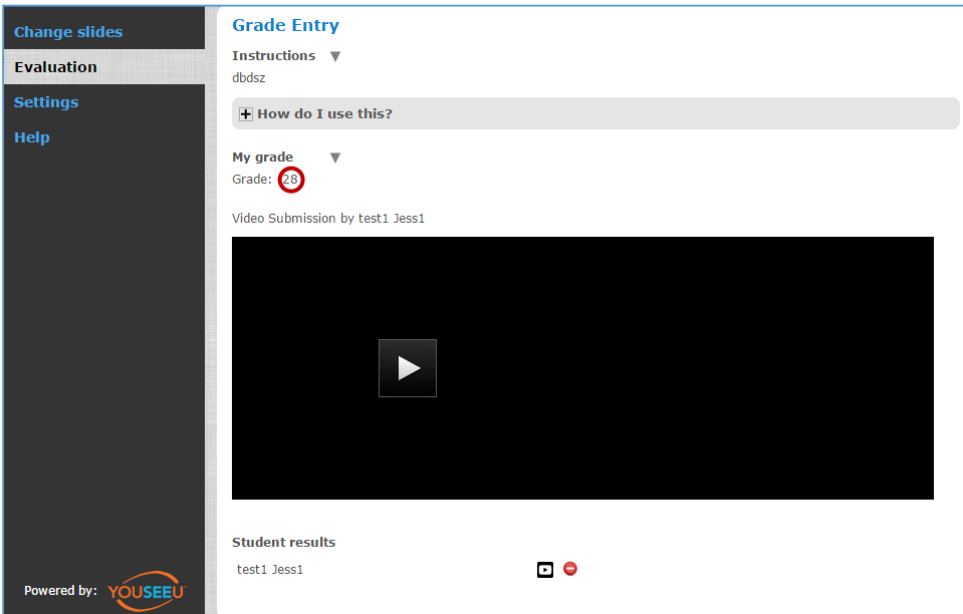

Step	Action
1	Open an Activity in the MindTap course.
	Result: The Activity screen displays.
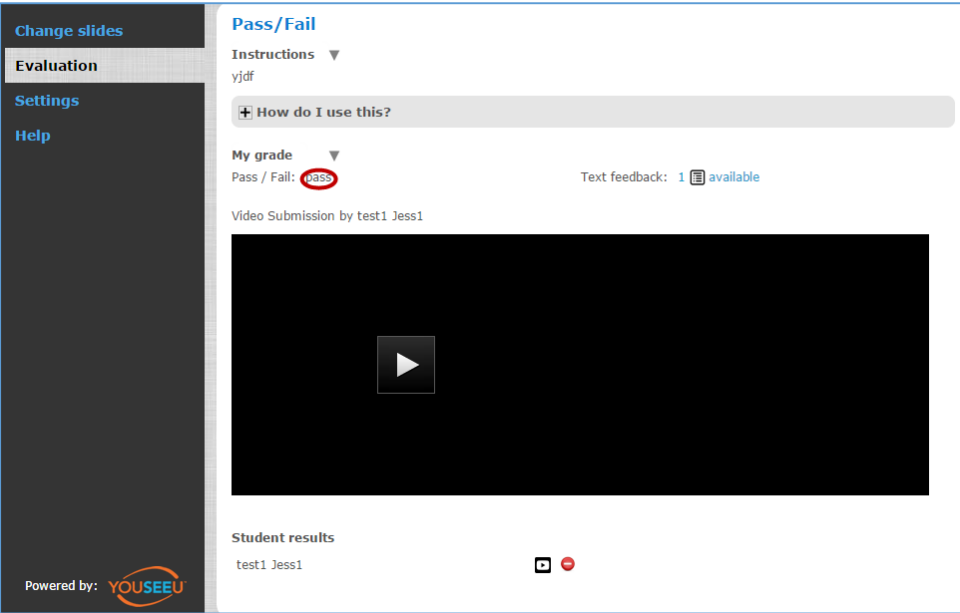

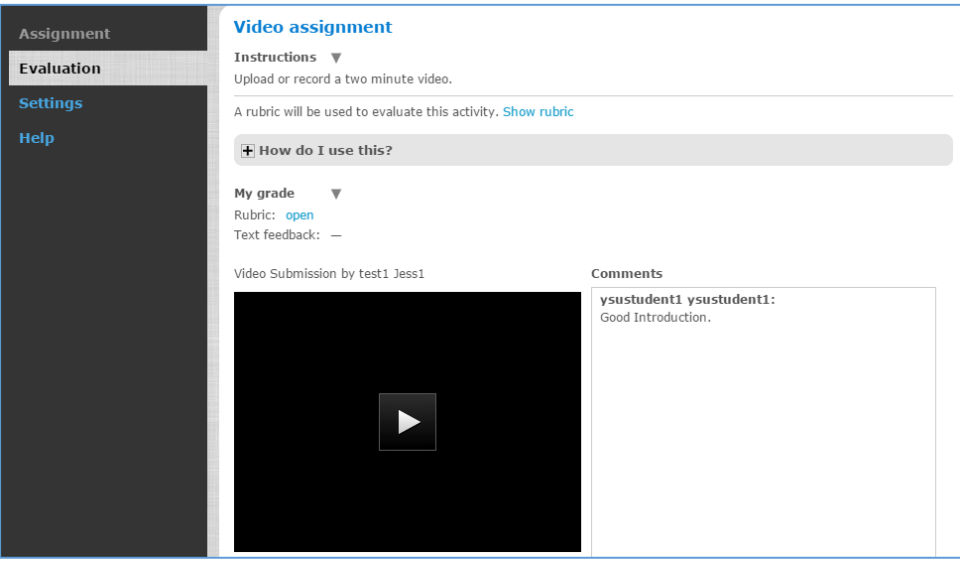

Step	Action
2	Click **Evaluation**.

Result: The assignment page displays.

Step	Action
3	Scroll down to view student names.
	Select the film icon beside a peer's name.
	Result: The peer's video displays.
	NOTE: The trashcan icon enables you to remove feedback.
4	Enter a comment in the **Add comment** text box.
	Click **Add**.
	Result: A text box displays in which to enter comments.

Viewing Grade Details

You can view your scores from the MindTap Learning Path. Select an Activity from the Learning Path and click the **Evaluation** tab. YouSeeU Activity scores display in different ways depending on the Activity Grading Type:

Grading Type	Looks like this...
Rating: (score display as stars)	
Grade Entry: (score displays as number)	

Grading Type	Looks like this...
Pass/Fail: (score displays as Pass or Fail)	
Rubric: (score displays within a Rubric)	 ■ Click **open** to view the rubric.

Summary

The YouSeeU MindApp helps you upload and record videos that your instructors and classmates can review. You can add visual aids to your presentations, review your and other students' videos and view your grades on the MindTap Learning Path.
