

4 YEAR FLIGHT PLAN: BFA in Ceramics

FAU is committed to your success as a student. One way we define student success is efficient and effective progression through your degree program.

This Flight Plan is a tool to assist you in planning the courses you should complete and the milestones you should reach during your undergraduate studies so you may graduate on time. It is our intention that you complete this planning tool in *collaboration with an academic advisor* to ensure good understanding of:

- Which graduation requirements you have satisfied
- Which Intellectual Foundations and elective courses match your career plans
- How to balance coursework with your other responsibilities (e.g., employment) and optional activities (e.g., mentored research, study abroad, student organizations, leadership)
- How to get the most from your academic experience at FAU

Your academic advisor will help you customize and maintain your Flight Plan during the next four years so that you stay on track for success at FAU. In order to graduate on time, you will need to:

- Complete an average of 30 credit hours per year
- Earn 120 credit hours, at least 45 in the upper division (3000 or 4000 level)
- Earn at least 9 credit hours in summer coursework (or equivalent)

Your advisor will help you identify what additional milestones apply to you, as well as how you may even graduate early or enter an accelerated graduate program. If you have any questions at all about your FAU Flight Plan, feel free to contact any of the following individuals for assistance. They are here to help!

Your Academic Advising Professionals

University Advising Services

Office Location: Student Support Services building (SU80), Room 201

Flight Plan: BFA in Ceramics

NOTE: Some students may be required to maintain a GPA of 2.75 or higher to remain eligible for scholarships or to be stronger candidates for admission to internships, graduate programs, and professional schools. Please confirm your required GPA with your academic advisor. Please note that students meet with an advisor from University Advising Services (UAS) until they have reached 45 credits, and then they meet with a departmental advisor from the college Student Advising Services (SAS).

Students that are admitted to the BFA in Ceramics concentration must decide on whether they will follow a wheel-focus or hand-building-focus (see below). It is important that students meet with their departmental (SAS) advisors on a regular basis, as some courses are not offered every year (e.g. Clay & Glazes).

YEAR 1			
Semester ___: () Summer (X) Fall () Spring			
Courses and Credit Hours		Milestones	Advising Tips

Tips for Success

- Meet with your advisor at least once a semester.
- Monitor your progress in your courses; “check-in” with your instructors regularly!
- Check your degree audit every semester.
- Stay aware of important deadlines.
- Take advantage of resources FAU has made available to you to help you succeed on your flight.
