Overview

Cost Overview

The purpose of the Cost (CST) component is to collect information on student charges for Cost of Attendance estimates and to calculate an Average Net Price (ANP) for first-time, full-time undergraduate students to meet requirements of the Higher Education Act of 1965 (HEA), as amended. This component also collects information on tuition and fees for other groups of students.

Much of the data reported on CST appear on College Navigator, which is updated only one time after CST data have been reviewed by NCES. Therefore, any data reporting errors may stay on College Navigator for a full year.

Additionally, the ANP calculation has important implications for what students see about your institution, and also for the College Affordability and Transparency Center lists.

Data Reporting Reminder:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes to reporting:

- No changes for the 2026-27 data collection period.

Resources:

Reason	In calculating housing for the Cost of Attendance, the FAFSA Simplification Act brought several significant changes to how housing costs are determined for students. One notable adjustment for FY2024-2025 was shifting from using weighted average to median values for housing cost calculations. This approach differs from FY2023-2024 when housing costs were based on weighted averages. These changes aim to more accurately reflect the true living expenses students face. 2023-2024 On Campus Housing - Weighted Average: $4,215 2023-2024 On Campus Housing - Median: $5,408			
Screen Entry	This value is expected to be within 20% of the prior year amount. Please correct your data or explain. (Error #11110) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	This is confirmed to be accurate.			
Screen Entry	This value is expected to be within 20% of the prior year amount. Please correct your data or explain. (Error #11110) This edit and explanation were retained from the prior year (for reference) and do not need to be re-explained in the current year edit report.	Explanation	Yes	
Reason	The cost of living increased significantly. Accuracy is confirmed.			
Screen Entry	For students living Off-Campus (with family), any charges reported for food and housing are expected to be small, as it is assumed that students living at home with parents will be responsible for minimal food and housing costs. Please review your student financial aid budget(s), and if this amount is determined to be correct, please provide an explanation for the value reported. Otherwise, please revise your data. (Error #11564)	Explanation	Yes	
Reason	The $6,512 reported for students living Off-Campus (with family) represents the combined food and housing components of the Financial Aid Cost of Attendance budget. The housing component is $1,586, which is intended to represent the student's share of housing related expenses, such as utilities, for one person. This amount is substantially lower than the housing allowance for students living off campus independently ($12,198) or on campus ($10,524), consistent with the expectation that students living with parents have significantly lower housing costs. The food component is $4,926. This amount is based on the Official USDA National Average Liberal Food Cost Plan for one person, adjusted for the local cost of living index, and further adjusted for inflation using the Consumer Price Index.			
Screen: Section 1 - Student Charges: Part E - Food and Housing				
Screen Entry	The amount entered (15,832) for food and housing on the Section 1 - Part B - Cost of Attendance screen is expected to be within 10% of the amount entered for food and housing on the Food and Housing screen (11,696). Please correct your data or explain the discrepancy between the two amounts reported. (Error #11236)	Explanation	Yes	
Reason	The $15,832 reported for on-campus food and housing reflects FAU's financial aid budgeting methodology, whereas the $11,696 comparison reflects the published cost of a specific double-occupancy housing option ($7,080) combined with the 19-meal per week plan ($4,616). These amounts are based on different methodologies and are therefore not directly equivalent. The housing allowance is based on the median cost of on-campus housing options, consistent with federal financial aid guidance requiring the housing component for students residing on campus to reflect the greater of the weighted average or median cost of applicable housing options. Accordingly, the allowance may exceed the cost of a double-occupancy room, which represents one specific housing option and may not reflect the median cost across available on-campus accommodations. The food allowance is based on the federal Cost of Attendance requirement to provide a standard allowance equivalent to three meals per day. Because FAU's published residential meal plan provides 19 meals per week, the plan amount is recalculated to reflect 21 meals per week to align the food allowance with the three meals per-day standard throughout the academic year.
